**About Wagners:**

Wagners is a diversified Australian construction materials and services provider and an innovative producer of New Generation Building Materials. Established in 1989 in Toowoomba, Queensland, Wagners is now an ASX-listed business operating in domestic and international markets. Wagners are a producer of cement, concrete, aggregates, new generation composite products and are world leaders in development of new technology to reduce the impact of heavy construction materials on the environment. Wagners are also providers of transport services, precast concrete and reinforcing steel.

**WAGNERS**

The background of the slide is a photograph of the Newcastle Boardwalk in New South Wales. It shows a wide, multi-level staircase made of blue metal steps and railings, ascending a grassy hill. The sun is low on the horizon, creating a strong lens flare and casting long shadows. A few people are visible walking up the stairs. A large yellow and black geometric shape is overlaid on the bottom left corner, containing the text.

EBIT	2.2	1.8	0.4

### OTHER

- There is a change of -\$4.9m in EBIT in the Other/Corporate section of the company compared to FY19. This due to:-
  - FY19 included higher sales of assets and recognition of contract assets mainly relating to sale and leaseback and contracts to fabricate, construct and install concrete batch plants.
  - Increased legal costs and insurance costs in FY20.

### CMS

- Sales due to quarries, transport and concrete, partially offset by reduced cement volumes
- EBIT impacted by the mix of work, and increased repairs and maintenance, establishment costs and increased costs and loss of utilization to ensure continued safe operations during the COVID 19 pandemic.

### NGBM

- Sales increase due to higher activity in the pedestrian infrastructure, domestically and internationally.
- EBIT impacted by increased R&D and business development costs in both CFT and EFC.

## BORAL LITIGATION

- The Company commenced proceedings against Boral regarding a dispute over the interpretation of a pricing clause in the Cement Supply Agreement seeking declarations that a series of Pricing Notices issued by Boral were invalid and to the extent that any valid suspension of supply of cement had commenced following receipt of those notices, that those suspensions had ended. The Company issued ASX announcements regarding this dispute on 18 March 2019 and 23 April 2019.
- Judgment on the matter was delivered on 10 June 2020 which determined that the both the Pricing Notices issued by Boral on 1 March 2019 and 1 April 2019 were not valid, however that a period of suspension had commenced from 18 March 2019 and ended on 18 September 2019. Boral recommenced purchasing cement on 22 October 2019
- Both the Company and Boral have appealed the decision and the matter will be heard by the Court of Appeal on 22 October 2020.
- The Company remains confident in its position in relation to the matters the subject of the appeal and asserts that any suspension of cement products was either of no effect, due to the invalidity of the Pricing Notices issued, or ended earlier than the date determined by the Supreme Court of Queensland.
- Given there are so many possible outcomes, a potential positive result from the appeal cannot be quantified at this time.
- Regardless of the outcome of the appeal, the Cement Supply Agreement remains binding on the parties until 2031, requiring Boral to take a contracted volume of cement on an annual basis.
