APPENDIX 4E

WISEWAY GROUP LIMITED

For the year ended 30 June 2020

Details of the reporting period

Current reporting period	1 July 2019 to 30 June 2020
Prior reporting period	16 March 2018 to 30 June 2019

Results for announcement to the market

Wiseway Group Limited ("Company") and its subsidiaries, presents its results for the year ended 30 June 2020. The Group's revenue and EBITDA for the 12 months ended 30 June 2020 were $102,590,000 (16 March 2018 to 30 June 2019: $116,944,000) and $5,003,000 (16 March 2018 to 30 June 2019: $884,000) respectively. The loss for the Group for the 12 months ended 30 June 2020 after providing for income tax amounted to $3,450,000 (16 March 2018 to 30 June 2019: $1,873,000).

The comparative year is for the period 16 March 2018 to 30 June 2019. As a result of the different lengths in reporting periods, the results and cash flows from operations may not be directly comparable.

	12 months ended 30 June 2020 $'000	**16 March 2018 to 30 June 2019 $'000**	**Change %**

ANNUAL REPORT

30 JUNE 2020

CONTENTS

DIRECTORS' REPORT

The Directors present their report together with the consolidated financial statements of the Group, comprising of Wiseway Group Limited (the 'Company') and its subsidiaries, for the financial year ended 30 June 2020 and the auditor's report thereon.

1. Directors

The Directors of the Company at any time during or since the end of the financial year are:

Name and independence status	**Experience, special responsibilities and other directorships**
Michael Hughes *Independent Non-Executive Chairman*	Former Commercial Director of ASX listed company, Sealink Travel Group Limited ('SLK'). Significant experience in both equity capital and debt markets and has held senior roles in funds management. Appointed on 30 April 2019 and as Non-Executive Chairman on 1 November 2019.
Stephen Chan *Independent Non-Executive Director*	Currently the CEO of SCF Global Group. Has over 54 years' experience in the freight forwarding and supply chain industries. Awarded Honorary Fellows Award from Supply Chain Asia. Appointed on 16 March 2018.
Lin Xu *Non-Executive Director*	Currently Sales Director at AZ Global and has more than five years' experience in cross border e-commerce including initiatives that have contributed to the sales performance of several publicly listed companies. Appointed on 1 November 2019.
Florence Tong *Executive Director and Managing Director*	Co-founder and Managing Director of the Company with 15 years' experience in the logistics industry. Former experience in Australian banks and Fortune 500 companies. Appointed on 16 March 2018.
Roger Tong *Executive Director and Chief Executive Officer*	Co-founder and CEO of the Company with over 22 years of logistics industry experience in both Australia and China. Appointed on 16 March 2018.
The Hon. Nick Bolkus *Former Independent Non-Executive Chairman*	Former Australian Senator. Currently independent non-executive director of AustChina Holdings Limited ('AUH'), Chair of Nuturf Australia Pty Ltd and Envirogreen Pty Ltd, and director of 12 companies privately owned by Cheung Kong Corporation. Also, Adviser to the Australian Hokkien Association. Appointed on 5 July 2018 and as Non-Executive Chairman on 1 May 2019. Resigned 1 November 2019.

2. Company Secretary

The Company Secretary is Florence Tong who was reappointed on 1 July 2019 as well as serving in that position from 16 March 2018 to 10 September 2018.

3. Directors' meetings

The number of Directors' meetings (including meetings of committees of Directors) and number of meetings attended by each of the Directors of the Group during the financial year are:

Names	Board Meetings		Audit and Risk Committee Meetings		Remuneration and Nomination Committee Meetings	
	A	**B**	**A**	**B**	**A**	**B**
Michael Hughes	15	15	2	2	1	1
Stephen Chan	15	12	2	2	1	1
Lin Xu	8	7	1	1	1	1
Florence Tong	15	15	2	2	1	1
Roger Tong	15	15	2	2	1	1
The Hon. Nick Bolkus	6	-	1	-	-	-

A - Number of meetings held during the time the Director held office during the year

B - Number of meetings attended

4. Principal activities

The principal activities of the Group during the financial year were the movement and logistics of goods by freight to cater to the needs of those interstate or overseas. There were no significant changes in the nature of the activities of the Group during the financial year.

5. Operating and financial review

a) Financial results

The Group's revenue and EBITDA for the 12 months ended 30 June 2020 were $102,590,000 (16 March 2018 to 30 June 2019: $116,944,000) and $5,003,000 (16 March 2018 to 30 June 2019: $884,000) respectively. The loss for the Group for the 12 months ended 30 June 2020 after providing for income tax amounted to $3,450,000 (16 March 2018 to 30 June 2019: $1,873,000).

This is the first set of the Group's financial statements in which AASB 16 *Leases* has been applied. Under the transition method chosen, comparative information has not been restated. The 30 June 2020 results are therefore not directly comparable to prior years. Changes to significant accounting policies and the impact of applying the new standards are described in Note 5 to the accompanying financial statements.

Additionally, the Group completed the following:

b) Share purchase and subscription agreement with AZ Global

On 27 August 2019 the Group entered into a share purchase and subscription agreement ('SPSA') with AZ Global Limited ('AZ Global'). Under the SPSA, AZ Global were issued 18,161,100 new shares in the Company, being 15% of the currently issued shares in the Company, at $0.25 per share for a total consideration of $4,540,275.

5. Operating and financial review (continued)

c) Wiseway becomes accredited Air Cargo Agent in New Zealand

In October 2019, Wiseway became accredited by the International Air Transport Association (IATA) as an IATA Cargo Agent in New Zealand and has commenced offering integrated logistics services to the country.

Through its investment made over the last year, Wiseway can handle all airfreight export shipments in-house from its Auckland Airport precinct facility. This follows receipt of the necessary accreditations and satisfying the requirements of airlines, which include Regulated Air Cargo Agent (RACA) approval and Ministry of Industry (MPI) accredited Risk Management Programmes (RMP) for milk, diary and perishables exports. Additionally, the facility has also been designated as a Customs Controlled Area (CCA) by New Zealand Customs.

d) Wiseway accredited for fruit exports to China

In November 2019, Wiseway received accreditation for the exporting of fruit direct to China and signed an exclusive agreement with a major supplier and exporter of Australian produce to China.

Wiseway's new purpose-built fumigation and cold treatment facilities in Melbourne and Sydney have received accreditation from Australia's Department of Agriculture and Water Resources for the exporting of fruit to China.

Accreditation means that Wiseway's facilities comply with China's protocols, introduced in late 2018, requiring strict compliance to phytosanitary requirements before fresh cherries, nectarines, peaches, plums and apricots can be exported to China. This requires the perishable fruit to be subject to cold treatment and/or methyl bromide fumigation in a chamber, to ensure that the fruit export is free of any pests of quarantine concern to Chinese authorities.

e) All Wiseway branches approved as bonded depots

In January 2020, all Wiseway branches were granted a Depot Licence by the Department of Home Affairs under section 77G of the Customs Act, with the latest one being in Perth. With the granting of this licence, Wiseway has secured a national presence with bonded warehouse capability across the Australian mainland in Adelaide, Brisbane, Melbourne, Perth and Sydney, as well as in Auckland, New Zealand.

Wiseway's bonded warehouse capacity in Sydney has also increased with a Depot Licence being granted at its Chipping Norton facility. This facility is in addition to the Bankstown facility, and will cater to the growing e-commerce and sea freight imports business.

f) Acquisition and incorporation of subsidiaries

During the year, the following wholly owned subsidiaries were acquired/incorporated:

Subsidiary	Country	Date of acquisition/incorporation
Airtruck Pty Ltd	Australia	Acquired 22 October 2019
Cargo Network Technology Pty Ltd	Australia	Incorporated 10 January 2020

5. Operating and financial review (continued)

g) COVID-19 Update

As an essential service provider during the COVID-19 pandemic, Wiseway has continued to operate its import and export services between Australia and Asia. Flight restrictions imposed by the Australian Government (1 Feb 2020) have caused disruption to established Australia-Asia trade pathways, as the cargo space previously available on passenger airlines is no longer available. Wiseway recognised the opportunity in this disruption to demonstrate its leadership in Australian-Chinese trade relations. It has leveraged its relationships with airlines, shipping lines and local trucking companies, to ensure customers' cargo can still get in and out of Asia through a combination of alternative routes. With both Australian and Chinese customers turning to Wiseway for help in finding solutions to this difficult logistical challenge, Wiseway has been able to gain new customers and demonstrate their primacy in Australia-Asia trade logistics to a new audience. In the new environment, Wiseway secured cargo space by chartering flights. This has significantly increased Wiseway's capability to continue servicing demand for air freight.

h) Outlook

Currently, demand for logistics services remains high. However, due to the unprecedented nature of this global pandemic, this may vary as the situation develops over time. The breadth and depth of our diversified logistics services, our highly experienced management team, and the risk management plans we have put in place, position Wiseway to actively manage its operations and maximise its outcomes in the prevailing operating environment. The Board and Management of Wiseway are focused on supporting our employees, customers, broader community and international trade during these anxious and difficult times. Wiseway will continue to update the market as and when necessary.

6. Dividends

No dividends were paid or declared by the Group during or since the end of the financial reporting period.

7. Events subsequent to reporting date

The secured loan facility of $5,000,000 was fully paid down on 2 July 2020 and is available for redraw.

No matters or circumstances, other than those mentioned above, have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

8. Likely developments

The Group has entered into contracts to purchase 2 prime movers and 2 trailers to support our growing imports, sea freight and road transport businesses to be funded by hire purchase loans and existing cash reserves for a total value of $896,744.

Further information about likely developments in the operations of the Group and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

9. Environmental regulation

The Group's operations are not subject to significant environmental regulations under both Commonwealth and State legislation. However, the Directors believe that the Group has adequate systems in place for the management of its environmental requirements and is not aware of any breach of those environmental requirements as they apply to the Group during the financial year.

10. Directors' interests

The relevant interest of each Director in the shares, debentures, interests in registered schemes and rights or options over such instruments issued by the companies within the Group and other related bodies corporate, as notified by the Directors to the ASX in accordance with S205G (1) of the *Corporations Act 2001*, as at 30 June 2020 and as at the date of this report are as follows:

Director	**Number of ordinary shares held as at 27 August 2020**	**Number of ordinary shares held as at 30 June 2020**
Michael Hughes	60,000	60,000
Stephen Chan*	874,309	874,309
Lin Xu	-	-
Florence Tong	28,345,202	28,345,202
Roger Tong	28,370,089	28,370,089
The Hon. Nick Bolkus	40,000	40,000

*Stephen Chan holds 76,000 shares in his own name and 798,309 shares beneficially through Golden Fortune Sky Limited of which he is the sole director and 100% shareholder.

11. Share options

No options over issued shares or interests in the Company were granted during or since the end of the financial reporting period and there were no options outstanding at the date of this report.

12. Indemnification and insurance of officers and auditors

During the financial year, the Group entered into a contract insuring the Directors of the Company and all executive officers of the Group and of any related body corporate against a liability incurred in their capacity as Directors, secretary or executive officer to the extent permitted by the *Corporation Acts 2001*. The contract of insurance prohibits disclosure of the nature of the liability cover and the amount of the premium.

The Group is party to Deeds of indemnity in favour of each of the Directors, referred to in this report who held office during the year and certain officeholders of the consolidated entity. The indemnities operate to the full extent permitted by law and are not subject to monetary limit. The Group is not aware of any liability having arisen, and no claims have been made, during or since the end of the financial year under the Deeds of Indemnity.

To the extent permitted by law, the Group has not indemnified its auditors, KPMG, as part of the terms of its audit engagement agreement against claims by third parties arising from the audit. No payment has been made to indemnify KPMG during or since the end of the financial year.

13. Non-audit services

During the financial year, KPMG, the Group's auditor, did not perform any other services.

14. Lead auditor's independence declaration

The Lead auditor's independence declaration is set out on page 16 and forms part of the Directors' report for the financial year ended 30 June 2020.

15. Rounding off

The Group is of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* and in accordance with that instrument, amounts in the consolidated financial statements and Directors' report have been rounded off to the nearest thousand dollars, unless otherwise stated.

16. Remuneration report – Audited

The Directors present Wiseway Group Limited's 2020 Remuneration report which sets out information about the remuneration of the Group's non-executive Directors, executive Directors and other key management personnel. The information provided in this report has been audited as required by section 308 (3C) of the *Corporations Act 2001* and forms part of the Directors' report.

The key management personnel of the Group for the financial year consisted of the following Directors and key management personnel of Wiseway Group Limited:

Name of Director	Position	Date Appointed	Date Resigned
Michael Hughes	Non-Executive Chairman	10 April 2019	Current
Stephen Chan	Non-Executive Director	16 March 2018	Current
Lin Xu	Non-Executive Director	1 November 2019	Current
Florence Tong	Executive Director	16 March 2018	Current
Roger Tong	Executive Director	16 March 2018	Current
The Hon. Nick Bolkus	Non-Executive Director	5 July 2018	1 November 2019

Remuneration governance

The Remuneration and Nomination Committee is a committee of the Board. It is primarily responsible for making recommendations to the Board on:

- the overall executive remuneration framework;
- operation of the incentive arrangements which apply to executive Directors and senior executives, including key performance indicators and performance hurdles;
- remuneration levels of executives; and
- non-executive Director fees.

The objective is to ensure that remuneration policies and structures are fair and competitive and aligned with long-term interests of the Group.

The Corporate Governance Statement provides further information on the role of this committee and the committee's charter is set out on the Company's website: https://www.wiseway.com.au/.

16. Remuneration report – Audited (continued)

Non-executive Director remuneration policy

Under the Constitution, the Board may decide the remuneration from the Group to which each non-executive Director is entitled for their service as a Director. However, under the Constitution and ASX Listing Rules, the total amount of fees paid to all non-executive Directors in any financial year must not exceed the aggregate amount of non-executive Director fees approved by shareholders at the Group's annual general meeting. This amount has initially been fixed by the Group at $700,000. In respect of FY20, the fees payable to the current non-executive Directors will not exceed $370,000 in aggregate. The annual Directors' fees currently agreed to be paid to the chairman is $100,000 (inclusive of superannuation) and to the other non-executive Directors is $80,000 (inclusive of superannuation).

Executive remuneration policy

Executive Directors and senior executives receive a base salary, superannuation, and performance incentives. The Remuneration and Nomination Committee reviews executive Director and senior executive packages annually by reference to Group performance, executive Director performance, senior executive performance and, where appropriate, comparable information from industry sectors, other listed companies and independent advice. The performance of senior executives is reviewed annually by the executive Directors and executive Directors are reviewed annually by the Remuneration and Nomination Committee. Revised remuneration packages generally take effect on cycles in accordance with employment terms.

Short term and long-term incentive payments are reviewed by the Remuneration and Nomination Committee annually as part of the review of executive Director and senior executive remuneration and a recommendation is put to the Board for approval. The Board may exercise discretion in approving performance incentives and can recommend changes to the Remuneration and Nomination Committee recommendations.

Remuneration consultant

From time to time, the Remuneration and Nomination Committee may engage advisors to assist in the continual evolution and development of the Group's remuneration policies and framework. No remuneration consultants have been engaged during the financial year.

Executive remuneration framework

Subject to specific roles and responsibilities, there are three general components of remuneration used to reward permanent employees, including senior executives:

1. Total fixed remuneration;
2. Short term incentives ('STI'); and
3. Long term incentives ('LTI').

The STI and LTI components paid to permanent senior executives are generally determined as a percentage of fixed remuneration package or base salary and are payable in cash, shares, performance rights or options in the Company.

Remuneration structures are implemented to enable the Group to attract and retain key talent and align strategic and business objectives with growth of long-term shareholder value.

16. Remuneration report – Audited (continued)

Total fixed remuneration

Total fixed remuneration comprises base salary and statutory superannuation. Total fixed remuneration is set with reference to market data and adjustments, reflecting the scope of the role and employee performance. Remuneration is reviewed annually, with reference to various sources of data as appropriate, to ensure market competitiveness. Due to the nature of the business, fixed remuneration of senior executives is not linked to the performance of the Group due to the requirement to retain these employees to develop the Group and meet its current strategic objectives.

Short term incentives

STIs are offered to permanent senior executives, including executive Directors, primarily to align senior executives with the achievement of key targets and individual contribution for sustained and improved business performance; and to reward and recognise superior performance. Metrics, weightings and performance measures are reviewed annually to ensure the business needs are met and the overall STI are consistent with general market practices.

The STI scheme involves establishing the STI value for the financial year and is generally cash settled, subject to company performance metrics and the satisfactorily meeting of key performance indicators on an annual basis at the end of each financial year or in accordance with employment terms.

Long term incentives

During the financial reporting period, the Board has approved an incentive plan for the Group to be a key part of the Group's remuneration strategy going forward and to assist in the alignment of interests. The incentive plan is intended to furnish an incentive to Directors, officers, senior executives and other employees of the Group, as well as consultants and service providers providing ongoing services to the Group, and when such eligible participants are granted awards, to continue their services for the Group and to encourage eligible participants whose skills, performance and loyalty to the objectives and interests of the Group are necessary to its success. The incentive plan will permit the granting of performance rights to eligible participants of the Group. The incentive plan will be administered by the Board or by a committee appointed by a resolution of the Board.

The vesting condition is time based and the grant date is set annually on 31 October. The time-based approach is used to retain talented employees in the business. Upon vesting, each performance right shall confer the right, upon exercise, to receive one share in the Company. The performance rights will be granted for nil cash consideration. The performance rights will be forfeited if the individual is no longer part of the business at the time of the grant.

16. Remuneration report – Audited (continued)

Relationship between remuneration and the Group's performance

The table below details the last four years earnings and total shareholders return.

$ '000	2020	2019**	2018*	2017*
Revenue	102,590	94,523	82,248	64,854
EBITDA	5,003	127	4,088	2,720
EBIT	(38)	(1,594)	2,548	1,560
Profit / (Loss) after income tax	(3,450)	(1,993)	1,162	928
Share price at end of financial year	0.13	0.20	N/A	N/A
Basic earnings per share	(2.47)	(2.40)	N/A	N/A

*Based on audited consolidated financial statements of Wiseway Logistics Pty Ltd only.

**Refer to summary on page 6 of the 2019 report.

*The bonuses paid to the Directors and key management personnel was for the successful listing of the Company on the Australian Securities Exchange. The bonus was agreed and forms part of each individual's executive service agreement ('ESA').

**The Group's non-executive directors were issued 185,000 shares in total on 31 October 2018 at the IPO listing price of $0.50 to the total value of $92,500 in return for provision of services during the IPO.

***Golden Fortune Sky Limited (a company owned by Independent Non-Executive Director, Stephen Chan) was issued 798,309 shares on 6 July 2018 in return for provision of services valued at $500,000. The fair value of the services received was measured with reference to the market price of the Company's shares at grant date.

16. Remuneration report – Audited (continued)

Details of remuneration (continued)

**** The Group made an accrual for 934,000 performance rights issued to the Group's former Chief Financial Officer, Mark Ziirsen, on 28 June 2019 in accordance to the terms of his termination agreement. The first 454,545 performance rights vested on 31 July 2019 at a price of $0.22 and the remainder vested on 12 December 2019 at a price of $0.17.

Service agreements of executive Directors and key management personnel

The Group's executive Directors and key management personnel are employed under individual contracts of employment with the Group. The contracts set out the individual's total fixed compensation, including fixed cash remuneration and the Group's superannuation contribution, eligibility to participate in any incentive scheme (e.g. annual bonuses or securities ownership plans) which may be implemented by the Group, notice and termination provisions, and employee entitlements including leave. The Group makes contributions with respect to the senior executives to complying superannuation funds in accordance with relevant superannuation legislation and the individual contracts of employment.

Total key management personnel	**-**	**-**	**-**	**-**	**-**

The Group has established a long-term incentive plan ('LTIP') to encourage high performance of its key management personnel and other senior management personnel in order to promote the long-term success of the Group. The LTIP is an equity-based plan which is delivered in the form of performance rights. These performance rights have a three-year vesting period and will only vest if the participants remain employees of any member entity of the Group as at the relevant vesting date.

The following table shows the number of performance rights that were held during the financial reporting period by key management personnel of the Group.

2020	Balance at 30 June 2019	Rights issued	Rights vested	Rights lapsed	Balance at 30 June 2020
Key management personnel					
Mark Ziirsen	934,000	-	(934,000)	-	-
Total key management personnel	**934,000**	**-**	**(934,000)**	**-**	**-**

2019	Balance at 16 March 2018	Rights issued	Rights vested	Rights lapsed	Balance at 30 June 2019
Key management personnel					
Mark Ziirsen	-	1,868,000	-	(934,000)	934,000
Total key management personnel	**-**	**1,868,000**	**-**	**(934,000)**	**934,000**

On 31 October 2018, 934,000 performance rights were issued to Mark Ziirsen at a fair value of $467,000 based on the share price of $0.50 on that date. These performance rights subsequently lapsed upon his resignation.

On 28 June 2019, 934,000 performance rights were issued to Mark Ziirsen, in accordance to the terms of his termination agreement, at a fair value of $186,800 based on the share price of $0.20 on that date. The first 454,545 performance rights vested on 31 July 2019 at a price of $0.22 and the remainder vested on 12 December 2019 at a price of $0.17.

DIRECTORS' REPORT

16. Remuneration report – Audited (continued)

Other transactions with key management personnel or related parties

The Executive Directors, or their related parties, hold positions in other entities that result in them having control or joint control over these entities.

A number of these entities transacted with the Group during the financial year ended 30 June 2020. The terms and conditions of the transactions were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arm's length basis.

RTF Investment Management Pty Limited as trustee for RFT Trust, a trust of which Roger Tong and Florence Tong are the beneficiaries, provided leased commercial premises to the Group on normal commercial terms and conditions. During the financial year ended 30 June 2020, the rental amount paid to this related entity by the Group was $1,461,032 (30 June 2019: 1,616,822).

The Group has historically provided and/or received short-term loans to or from Roger Tong and Florence Tong. The loans are unsecured, repayable on demand and interest free. As at 30 June 2020 the outstanding balance due to Executive Directors was $463,966 (30 June 2019: due from Executive Directors $3,201).

17. Corporate Governance statement

The Group maintains the highest standards of corporate governance in accordance with the ASX Corporate Governance Principles and Recommendations (3rd edition). For the financial reporting period ended 30 June 2020, the Group's Corporate Governance Statement together with the ASX Appendix 4G as applicable to the Corporate Governance Statement is available at https://www.wiseway.com.au/ and a copy of the statement has been lodged with the ASX.

This Directors' report is made in accordance with a resolution of the Directors:

Florence Tong Executive Director and Managing Director	Roger Tong Executive Director and Chief Executive Officer

Dated at Sydney this 27th day of August 2020

Lead Auditor's Independence Declaration under Section 307C of the Corporations Act 2001

To the Directors of Wiseway Group Limited

I declare that, to the best of my knowledge and belief, in relation to the audit of Wiseway Group Limited for the financial year ended 30 June 2020 there have been:

i. no contraventions of the auditor independence requirements as set out in the *Corporations Act 2001* in relation to the audit; and

ii. no contraventions of any applicable code of professional conduct in relation to the audit.

Cash and cash equivalents at end of the period	14	**8,607**	**4,628**

The above statement of cash flows should be read in conjunction with the accompanying notes.

1. Corporate information

Wiseway Group Limited (the 'Company') is domiciled in Australia.

The Company's registered office is at 39-43 Warren Avenue, Bankstown, NSW 2200. These consolidated financial statements comprise the Company and its subsidiaries (together referred to as the 'Group').

The Group is a for-profit entity and is primarily involved in the movement and logistics of goods by freight to cater to the needs of those interstate or overseas.

2. Basis of accounting

The consolidated financial statements are general purpose financial statements which have been prepared in accordance with *Australian Accounting Standards* ('AASBs') adopted by the Australian Accounting Standards Board ('AASB') and the *Corporations Act 2001*. The consolidated financial statements comply with the International Financial Reporting Standards ('IFRS') adopted by the International Accounting Standards Board (IASB). They were authorised for issue by the Board of Directors on 27 August 2020.

Details of the Group's accounting policies are included in Note 6.

The current period is for the 12 months ended 30 June 2020. The comparative year is for the period 16 March 2018 to 30 June 2019. As a result of the different lengths in reporting periods, the results and cash flows from operations may not be directly comparable.

This is the first set of the Group's annual financial statements in which AASB 16 *Leases* has been applied. Changes to significant accounting policies are described in Note 5.

3. Functional and presentation currency and rounding

These consolidated financial statements are presented in Australian dollars which is the Company's and the Group's functional currency.

The Group is of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191* and in accordance with that instrument, amounts in the consolidated financial statements and Directors' report have been rounded off to the nearest thousand dollars, unless otherwise stated.

4. Use of judgements and estimates

In preparing these consolidated financial statements, management has made judgements and estimates that affect the application of the Group's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

a) Judgements

Information about judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements is included in the following notes:

- Note 21 – lease classification.

4. Use of judgements and estimates (continued)

b) Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties at 30 June 2020 that have significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities in the next financial year is included in the following notes:

- Note 12 c) – recognition of deferred tax assets: availability of future taxable profit against which deductible temporary differences and tax losses can be utilised; and
- Note 27 c) – measurement of expected credit losses allowances for trade receivables and contract assets: key assumptions in determining the weighted-average loss rate.

Measurement of fair values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- *Level 1:* quoted prices (unadjusted) in active markets for identical assets or liabilities
- *Level 2:* inputs other than quotes prices included in Level 1 that are observable for the asset or liability; either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- *Level 3:* inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in the following notes:

- Note 26 – share-based payment arrangements.

5. Changes in significant accounting policies

The Group has initially adopted AASB 16 *Leases* from 1 July 2019. A number of other new standards effective from 1 July 2019 but they do not have a material effect on the Group's financial statements.

AASB 16 introduced a single, on-balance sheet accounting model for lessees. As a result, the Group, as a lessee, has recognised right-of-use assets representing its rights to use the underlying assets and lease liabilities representing its obligations to make lease payments. Lessor accounting remains similar to previous accounting policies.

The Group has applied AASB 16 using the modified retrospective approach, under which the cumulative effect of initial application is recognised in retained earnings at 1 July 2019. Accordingly, the comparative information presented for 2019 has not been restated – i.e. it is presented, as previously reported, under AASB 117 and related interpretations. The details of the changes in accounting policies are disclosed below.

5. Changes in significant accounting policies (continued)

a) Definition of a lease

Previously, the Group determined at contract inception whether an arrangement was or contained a lease under Interpretation 4 *Determining Whether an Arrangement contains a Lease*. The Group now assesses whether a contract is or contains a lease based on the new definition of a lease. Under AASB 16, a contract is, or contains, a lease if the contract conveys a right to control the use of an identified assets for a period of time in exchange for consideration.

On transition to AASB 16, the Group elected to apply the practical expedient to grandfather the assessment of which transactions are leases. It applied AASB 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under AASB 117 and Interpretation 4 were not reassessed. Therefore, the definition of a lease under AASB 16 has been applied only to contracts entered into or changed on or after 1 July 2019.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their relative stand-alone prices. However, for leases of properties in which it is a lessee, the Group has elected not to separate the non-lease components and will instead account for the lease and non-lease components as a single lease component.

b) As a lessee

The Group leases many assets, including properties, IT equipment, motor vehicles and scanning equipment.

As a lessee, the Group previously classified leases as operating or finance leases based on its assessment of whether the lease transferred substantially all of the risks and rewards of ownership. Under AASB 16, the Group recognises right-of-use assets and lease liabilities for most leases – i.e. these leases are on-balance sheet.

However, the Group has elected not to recognise right-of-use assets and lease liabilities for some leases of low-value assets (e.g. IT equipment). The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

The carrying amounts of right-of-use assets are as below.

	Right-of-use assets **$'000**
Balance at 1 July 2019	19,873
Balance at 30 June 2020	17,805

The Group presents lease liabilities in 'loans and borrowings' in the statement of financial position.

i) Significant accounting policies

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, and subsequently at cost less any accumulated depreciation and impairment losses and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

5. Changes in significant accounting policies (continued)

b) As a lessee (continued)

i) Significant accounting policies (continued)

The lease liability is subsequently increased by the interest cost on the lease liability and decreased by the lease payment made. It is remeasured when there is a change in the future lease payments arising from a change in the index or rate, a change in the estimate of the amount expected to be payable under a residual value guarantee, or as appropriate, changes in the assessment of whether a purchase or extension option is reasonably certain to be exercised or a termination option is reasonably certain not to be exercised.

The Group has applied judgement to determine whether the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Group is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

ii) Transition

Previously, the Group classified property leases as operating leases under AASB 117. These include warehouse facilities. The leases typically run for a period of five years. Some leases include an option to renew the lease for an additional five years after the end of the non-cancellable period. Some leases provide for additional rent payments that are based on changes in local price indices.

At transition, for leases classified as operating leases under AASB 117, lease liabilities were measured at the present value of the remaining lease payments, discounted at the Group's incremental borrowing rate at 1 July 2019. Right-of-use assets are measured at either:

- their carrying amounts as if AASB 16 had been applied since the commencement date, discounted using the lessee's incremental borrowing rate at the date of initial application; or
- an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments – the Group applied this approach to all leases.

The Group used the following practical expedients when applying AASB 16 to leases previously classified as operating leases under AASB 117.

- Applied the exemption not to recognise right-of-use assets and liabilities for leases with less than 12 months of lease term.
- Excluded initial direct costs from measuring the right-of-use asset at the date of initial application.
- Used hindsight when determining the lease term if the contract contains options to extend or terminate the lease.

The Group leases a number of motor vehicles and scanning equipment. These leases were classified as finance leases under AASB 117. For these finance leases, the carrying amount of the right-of-use asset and lease liability at 1 July 2019 were determined at the carrying amount of the lease asset and lease liability under AASB 117 immediately before that date.

5. Changes in significant accounting policies (continued)

c) Impacts on financial statements

i) Impacts on transition

On transition to AASB 16, the Group recognised additional right-of-use assets and additional lease liabilities, recognising the difference in retained earnings. The impact on transition is summarised below.

	As reported 30 June 2019 $'000	AASB 16 transition adjustments $'000	Adjusted opening balance 1 July 2019 $'000
Property, plant and equipment	24,965	19,873	44,838
Total assets impact	**24,965**	**19,873**	**44,838**
Financial liabilities			
Current lease liabilities	-	1,603	1,603
Non-current lease liabilities	-	18,270	18,270
Total liabilities impact	**-**	**19,873**	**19,873**

When measuring lease liabilities for leases that were classified as operating leases, the Group discounted lease payments using its incremental borrowing rate at 1 July 2019. The weighted-average rate applied is 5%.

	1 July 2019 $'000
Operating lease commitment at 30 June 2019 as disclosed in the Group's consolidated financial statements	29,700
Discounted using the incremental borrowing rate at 1 July 2019	(9,827)
Lease liabilities recognised at 1 July 2019	**19,873**

ii) Impacts for the period

As a result of initially applying AASB 16, in relation to the leases that were previously classified as operating leases, the Group recognised a right-of-use asset of $19,873,000 and lease liabilities of $19,873,000 as at 1 July 2019.

Also, in relation to those leases under AASB 16, the Group has recognised depreciation and interest costs, instead of operating lease expense. During the year ended 30 June 2020, the Group recognised $2,068,000 of depreciation charges and $943,000 of interest costs from these leases.

6. Significant accounting policies

The Group has consistently applied the following accounting policies to all periods presented in these consolidated financial statements, except if mentioned otherwise (see also Note 5).

a) Basis of consolidation

i) Business combinations

The Group accounts for business combinations using the acquisition method when control is transferred to the Group (see a) iii)). The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on a bargain purchase is recognised in profit or loss immediately. Transaction costs are expensed as incurred, except if related to the issue of debt or equity securities.

The consideration transferred does not include amounts related to the settlement of pre-existing relationships. Such amounts are generally recognised in profit or loss.

Any contingent consideration is measured at fair value at the date of acquisition. If an obligation to pay contingent consideration that meets the definition of a financial instrument is classified as equity, then it is not remeasured, and settlement is accounted for within equity. Otherwise, other contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value of the contingent consideration are recognised in profit or loss.

ii) Common control transaction

A business combination involving entities or businesses under common control is a business combination in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination, and that control is not transitory. Such common control transactions fall outside of the scope of AASB 3 *Business Combinations*. The Group accounts for common control transactions using the predecessor value method of accounting. Assets and liabilities of the entity acquired are recorded at their existing carrying values and no fair value adjustments are made upon acquisition. No new goodwill is recognised on the transaction and any differences between the acquirer's costs of investment in the acquiree and the acquiree's equity is disclosed in equity. The consolidated profit or loss results of the combining entities generally include the full year results, irrespective of when the common control transaction took place.

iii) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

iv) Non-controlling interests

Non-controlling interests are measured initially at their proportionate share of the acquiree's identifiable net assets at the date of acquisition. Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions.

v) Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee.

6. Significant accounting policies (continued)

a) Basis of consolidation (continued)

v) Transactions eliminated on consolidation (continued)

Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

b) Foreign currency

i) Foreign currency transactions

Transactions in foreign currencies are translated into the respective functional currencies of Group companies at the exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Non-monetary assets and liabilities that are measured at fair value in a foreign currency are translated into the functional currency at the exchange rate when the fair value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the transaction. Foreign currency differences are generally recognised in profit or loss.

ii) Foreign operations

The assets and liabilities of foreign operations are translated into the functional currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated into the functional currency at the exchange rates at the dates of the transactions.

Foreign currency differences are recognised in other comprehensive income and accumulated in the translation reserve, except to the extent that the translation difference is allocated to non-controlling interests.

c) Revenue

AASB 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. Under AASB 15, revenue is recognised when (or as) the entity satisfies a performance obligation by transferring the promised good or service to a customer.

The Group's main source of revenue is from freight forwarding services, which may include general cargo, time sensitive perishables cargo and domestic transport services. This predominantly leads to one performance obligation. Revenue is generally recognised once the service, i.e. the logistics of goods by freight, has been provided.

Information about the Group’s accounting policies relating to contracts with customers is provided in Note 9.

d) Employee benefits

A provision is made for the Group’s liability for employee benefits arising from services rendered by employees to the end of the reporting period. Employee benefits are measured at the nominal amounts expected to be paid when the liability is settled, plus any related on-costs. Both annual leave and long service leave are recognised within the employee benefits liability.

6. Significant accounting policies (continued)

d) Employee benefits (continued)

i) Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits and annual leave and long service leave expected to be settled within 12 months of the reporting date are recognised in respect of employees' services up to the reporting date. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

ii) Share-based payment arrangements

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognised as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognised is based on the number of awards that meet the related service and non-market performance conditions at the vesting date. For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

iii) Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

iv) Termination benefits

Termination benefits are expensed when the Group can no longer withdraw the offer of those benefits. If benefits are not expected to be settled wholly within 12 months of the reporting date, then they are discounted.

e) Finance income and costs

Interest income or expense is recognised using the effective interest rate method. Dividend income is recognised in profit or loss on the date on which the Group's right to receive payment is established.

The 'effective interest rate' is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument to:

- the gross carrying amount of the financial asset; or
- the amortised cost of the financial liability.

In calculating interest income and expense, the effective interest rate is applied to the gross carrying amount of the asset (when the asset is not credit-impaired) or to the amortised cost of the liability. However, for financial assets that have become credit-impaired subsequent to initial recognition, interest income is calculated by applying the effective interest rate to the amortised cost of the financial asset. If the asset is no longer credit-impaired, then the calculation of interest reverts to the gross basis.

6. Significant accounting policies (continued)

f) Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Wiseway Group Limited (the 'head entity') and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the tax consolidation regime. The head entity and each subsidiary in the tax consolidated group continue to account for their own current and deferred tax amounts. The tax consolidated group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax consolidated group. In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax consolidated group. Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax consolidated group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

i) Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the period and any adjustment to tax payable or receivable in respect of previous periods. The amount of current tax payable or receivable is the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if certain criteria are met.

ii) Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes.

Deferred tax is not recognised for:

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future; and
- taxable temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences, to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered, based on the business plans for individual subsidiaries in the Group. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

6. Significant accounting policies (continued)

f) Income tax (continued)

ii) Deferred tax (continued)

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

Deferred tax assets and liabilities are offset only if certain criteria are met.

g) Inventories

Inventories are measured at the lower of cost and net realisable value.

h) Property, plant and equipment

i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalised borrowing costs, less accumulated depreciation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the asset. If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain and loss on disposal of an item of property, plant and equipment is recognised in profit or loss.

ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

iii) Depreciation

Depreciation is calculated to write off the cost of items of property, plant and equipment less their estimated residual values using the straight-line method over their estimated useful lives and is generally recognised in profit or loss. Leased assets are depreciated over the shorter of the lease term and their useful lives unless it is reasonably certain that the Group will obtain ownership by the end of the lease term. Land is not depreciated.

The estimated useful lives of property, plant and equipment for are as follows:

Class of fixed asset	Useful life
Vehicles	3-15 years
Furniture and fixtures	5-10 years
Office equipment	5-10 years
Leasehold improvements	10 years
Buildings	20 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

6. Significant accounting policies (continued)

i) Financial instruments

AASB 9 sets out the requirements for recognising and measuring financial assets, financial liabilities and some contracts to buy or sell non-financial items. This standard replaces AASB 139 *Financial Instruments: Recognition and Measurement*.

The Group has adopted consequential amendments to AASB 1 *Presentation of Financial Statements*, which require impairment of financial assets to be presented in a separate line item in the statement of profit or loss and other comprehensive income. However, impairment of trade receivables is presented under 'administration and other expenses', and not presented separately in the statement of profit or loss and other comprehensive income due to materiality considerations. Similarly, impairment losses on other financial assets are presented under 'finance costs', like the presentation under IAS 39, and not presented separately in the statement of profit or loss and other comprehensive income due to materiality considerations.

AASB 9 replaces the incurred loss model in AASB 139 with an expected credit loss ('ECL') model. The new impairment model applies to financial assets measured at amortised cost, contract assets and debt investments at fair value through other comprehensive income, but not to investments in equity instruments. Under AASB 9, credit losses are generally recognised earlier than under AASB 139. Additional information about how the Group measures the allowance for impairment is described in Note 27 c).

i) Recognition and initial measurement

Financial assets and financial liabilities are initially recognised when the Group becomes a party to the contractual provisions of the instrument. For financial assets, this is equivalent to the date that the Group commits itself to either purchase or sell the asset (i.e. trade date accounting is adopted).

A financial asset or financial liability is initially measured at fair value plus transactions costs, except where the instrument is classified as 'at fair value through profit or loss' ('FVTPL') in which case transactions costs are recognised as expensed immediately in profit or loss. A trade receivable without a significant financing component is initially measured at the transaction price.

On initial recognition, a financial asset is classified as measured at: amortised cost; FVOCI – debt investment; FVOCI – equity investment; or FVPTL.

Financial assets are not classified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

ii) Classification and subsequent measurement

Financial instruments are subsequently measured at fair value, amortised cost using the effective interest method or cost. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

6. Significant accounting policies (continued)

i) Financial instruments (continued)

ii) Classification and subsequent measurement (continued)

Amortised cost is calculated as the amount at which the financial asset or financial liability is measured at initial recognition less principal repayments and any reduction for impairment, and adjusted for any cumulative amortisation of the difference between that initial amount and the maturity amount calculated using the effective interest method.

The effective interest rate ('EIR') method is used to allocate interest income or interest expense over the relevant period and is equivalent to the rate that exactly discounts estimated future cash payments or receipts (including fees, transaction costs and other premiums or discounts) through the expected life (or when this cannot be reliably predicted, the contractual term) of the financial instrument to the net carrying amount of the financial asset or financial liability. Revisions to expected future net cash flows will necessitate an adjustment to the carrying amount with a consequential recognition of an income or expense item in profit or loss.

iii) Cash and cash equivalents

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. In the statement of cash flows, cash and cash equivalents includes bank overdrafts (if any) that are repayable on demand and form an integral part of the Group's cash management.

iv) Loans and receivables

These assets are initially recognised at fair value. Subsequent to initial recognition, they are measured at amortised cost using the effective interest method, less any provision for impairment. Other receivables are recognised at amortised cost, less any provision for impairment.

j) Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from equity. Income tax relating to transaction costs of an equity transaction is accounted for in accordance with AASB 112 (see Note 6 f)).

k) Impairment

i) Non-derivative financial assets

At each reporting period, the Group assesses whether financial assets are credit impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. The Group considers evidence of impairment for these assets measured at both a specific asset and collective level. All individually significant assets are assessed for specific impairment. Those found not to be specifically impaired are then collectively assessed for any impairment that has been incurred but not yet identified. Assets that are not individually significant are collectively assessed for impairment by grouping together assets with similar risk characteristics.

6. Significant accounting policies (continued)

k) Impairment (continued)

i) Non-derivative financial assets (continued)

In assessing collective impairment, the Group recognises loss allowances under the ECL model, equal to either the lifetime or 12 months expected credit losses. Lifetime expected credit losses are those which result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses are the portion which result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

Expected credit losses are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the entity in accordance with the contract and the cash flows that the Group expects to receive). Expected credit losses are discounted at the effective interest rate of the financial asset.

In its assessment, the Group may use historical information on the timing of recoveries and the amount of loss incurred and make adjustments if current economic and credit conditions are such that the actual losses are likely to be greater or lesser than suggested by historical trends.

ii) Non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset’s recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generating units (‘CGUs’). Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognised in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amount of assets in the CGU on a pro rata basis.

An impairment loss is reversed only to the extent that the asset’s carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised. An impairment loss in respect of goodwill is not reversed.

l) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably and if it is probable that an outflow of economic benefits will be required to settle the obligation.

6. Significant accounting policies (continued)

l) Provisions (continued)

Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as a finance cost.

m) Leases

i) Determining whether an arrangement contains a lease

At inception of an arrangement, the Group determines whether such an arrangement is or contains a lease.

At inception or on reassessment of an arrangement that contains a lease, the Group separates payments and other consideration required by such an arrangement into those for the lease and those for other elements on the basis of their relative fair values. If the Group concludes for a finance lease that it is impracticable to separate the payments reliably, then an asset and a liability are recognised at an amount equal to the fair value of the underlying asset. Subsequently the liability is reduced as payments are made and an imputed finance charge on the liability is recognised using the Group's incremental borrowing rate.

ii) Leased assets

Leases of property, plant and equipment that transfer to the Group substantially all the risks and rewards of ownership are classified as finance leases. The leased assets are measured initially at an amount equal to the lower of their fair value and the present value of the minimum lease payments. Subsequent to initial recognition, the assets are accounted for in accordance with the accounting policy applicable to that asset.

Assets held under other leases are classified as operating leases and are not recognised in the Group's statement of financial position.

iii) Lease payments

Payments made under operating leases are recognised in profit or loss on a straight-line basis over the term of the lease. Lease incentives received are recognised as an integral part of the total lease expense, over the term of the lease.

Minimum lease payments made under finance leases are apportioned between the finance expense and the reduction of the outstanding liability. The finance expense is allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability.

n) Operating profit

Operating profit is the result generated from the continuing principal revenue-producing activities of the Group as well as other income and expenses related to operating activities. Operating profit excludes finance costs and income taxes.

o) Goods and services tax ('GST')

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office ('ATO').

6. Significant accounting policies (continued)

o) Goods and services tax ('GST') (continued)

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST component of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

p) Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. All operating segments' operating results are regularly reviewed by the Directors to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

Segment results that are reported to the Directors include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

7. Standards issued but not yet effective

A number of new standards are effective for annual periods beginning after 1 July 2019 and earlier application is permitted; however, the Group has not early adopted the new or amended standards in preparing these consolidated financial statements.

The following amended standards and interpretations are not expected to have a significant impact on the Group's consolidated financial statements.

- *Amendments to References to Conceptual Framework in IFRS Standards*
- *Definition of a Business (Amendments to AASB 3)*
- *Definition of Material (Amendments to AASB 101 and AASB 108)*
- AASB 17 *Insurance Contracts*

8. Operating segments

The Group manages its operations as a single business operation and there are no parts of the Group that qualify as operating segments under AASB 8 *Operating Segments*. The Managing Director and Chief Executive Officer (Chief Operating Decision Maker or 'CODM') assesses the financial performance of the Group on an integrated basis only and accordingly, the Group is managed on the basis of a single segment, being the provision of freight forwarding services. Information presented to the CODM on a monthly basis is categorised by type of expenditure.

9. Revenue

a) Revenue streams

The Group generates revenue primarily from the provision of freight forwarding services to its customers (see Note 6 c)). Other sources of revenue include interest income from term deposits.

	12 months ended 30 June 2020 $'000	16 March 2018 to 30 June 2019 $'000
Revenue from contracts with customers	101,981	116,536
Other revenue		
Interest income	19	156
Other income	590	252
	610	408
Total revenue	**102,590**	**116,944**

b) Disaggregation of revenue from contracts with customers

In the following table, revenue from contracts with customers is disaggregated by business division.

	12 months ended 30 June 2020 $'000	16 March 2018 to 30 June 2019 $'000
Air freight - general cargo	83,552	106,824
Air freight - perishables	8,617	3,251
Sea freight	3,666	1,043
Road freight	2,250	3,038
General cargo and eCommerce imports	3,896	2,380
	101,981	**116,536**

9. Revenue (continued)

c) Performance obligations and revenue recognition policies

Revenue is measured based on the consideration specified in a contract with a customer. The Group recognises revenue when it transfers control over a good or service to a customer.

The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of product/service	Nature and timing of satisfaction of performance obligations, including significant payment terms	Revenue recognition under AASB 15
Provision of freight forwarding and import services	Customers obtain control of their goods once the freight forwarding and import services have been rendered, being the point at which the customer's goods are delivered to the designated location, being the origin port or terminal for freight forwarding services and destination port or terminal for import services. Invoices are generated as services have been provided. Payment terms generally range from 7 days to a maximum of 30 days from date of invoice.	Revenue from providing freight forwarding and import services would be recognised over time in relation to the services provided. It usually takes the Group less than one day to deliver the customer's goods to the designated location.

10. Employee benefit expenses

See accounting policy in Note 6 d).

	12 months ended 30 June 2020 $'000	16 March 2018 to 30 June 2019 $'000
Salaries and wages	8,967	10,097
Contractor costs	7,003	4,367
Contributions to superannuation funds	803	636
Increase in employee benefits	170	278
Other employee expenses	489	575
	17,432	**15,953**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2020

11. Finance costs

See accounting policy in Note 6 e).

	12 months ended 30 June 2020 $'000	16 March 2018 to 30 June 2019 $'000
Financial liabilities measured at amortised cost - interest expense	661	571
Lease liabilities - interest expense	943	-
	1,604	**571**

12. Income taxes

See accounting policy in Note 6 f).

a) Amounts recognised in profit or loss

	12 months ended 30 June 2020	16 March 2018 to 30 June 2019
Current tax expense	**$'000**	**$'000**
Current year	158	(67)
Changes in estimates to prior year	72	103
	230	36
Deferred tax expense		
Deferred tax expense/(benefit)	1,578	129
Income tax expense	**1,808**	**165**

b) Reconciliation of effective tax rate

Loss before tax	(1,642)	(1,708)
Tax using the Group's domestic Australian tax rate of 30%	(492)	(512)
Tax effect of:		
Non-deductible expenses	48	445
Changes in estimates to prior years	72	103
Unrecognised deductible temporary differences	2,180	129
	1,808	**165**

12. Income taxes (continued)

c) Movement in deferred tax balances

	30 June 2020 $'000	Movement $'000	30 June 2019 $'000
Share issue costs	-	(760)	760
Trade and other	-	(88)	88
Property, plant and	-	(84)	84
Employee benefits	-	(297)	297
Other payables	-	(249)	249
Tax losses carried	-	(100)	100
Deferred tax assets	**-**	**(1,578)**	**1,578**

13. Earnings per share

a) Basic earnings per share

The calculation of basic earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding.

	12 months ended 30 June 2020 $'000	16 March 2018 to 30 June 2019 $'000
Profit / (loss) attributable to ordinary shareholders (basic)	(3,400)	(1,872)
Weighted-average number of ordinary shares at 30 June 2020 (basic)	137,455	82,764

b) Diluted earnings per share

The calculation of diluted earnings per share has been based on the following profit attributable to ordinary shareholders and weighted-average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares.

Profit / (loss) attributable to ordinary shareholders (diluted)	(3,400)	(1,872)
Weighted-average number of ordinary shares at 30 June 2020 (diluted)	137,455	82,764

14. Cash and cash equivalents

See accounting policy in Note 6 i) iii).

	30 June 2020 $'000	30 June 2019 $'000
Bank balances	8,607	4,628
Cash and cash equivalents in the statement of financial position	**8,607**	**4,628**
Cash and cash equivalents in the statement of cash flows	**8,607**	**4,628**

15. Trade and other receivables

See accounting policies in Notes 6 i) i)-ii) and k) i).

	30 June 2020 $'000	30 June 2019 $'000
Trade receivables	8,070	8,811
Less: Provision for doubtful debts	(725)	(297)
Net trade receivables	7,345	8,514
Net GST receivables	312	2,503
Other receivables	642	376
	8,299	**11,393**

Information about the Group's exposure to credit and market risks, and impairment losses for trade receivables is included in Note 27.

16. Inventories

See accounting policy in Note 6 g).

	30 June 2020 $'000	30 June 2019 $'000
Pallet inventory	120	119
Inventories	**120**	**119**

17. Other assets

Lease liabilities	16,726	-
Secured bank loans	-	4,500
	21,548	**10,372**

The Group has a secured loan facility of AUD $5,000,000 of which AUD $5,000,000 was utilised at 30 June 2020 (30 June 2019: $4,500,000). The secured bank loan facility is secured over the assets of Wiseway Group Limited and Wiseway Logistics Pty Ltd. The bank loan expires in 2022 at a nominal interest rate of 4.46%.

The secured loan facility was fully paid down during the year and redrawn on 29 June 2020. The Group did not meet its covenants for the year ended 30 June 2020 (refer to Note 27(d)) which resulted in the loan being classified as current in the consolidated statement of financial position. The loan was subsequently fully repaid on 2 July 2020 and is available for redraw.

Information about the Group's exposure to interest rate and liquidity risks is included in Note 27.

21. Loans and borrowings (continued)

a) Finance lease liabilities

Finance lease liabilities are payable as follows:

	Future minimum lease payments 30 June 2020 $'000	Interest 30 June 2020 $'000	Present value of minimum lease payments 30 June 2020 $'000
Less than one year	5,459	(1,209)	4,250

Holders of these ordinary shares are entitled to dividends as declared from time to time and are entitled to one vote per share at general meetings of the Company.

b) Nature and purpose of reserves

i) Translation reserve

The translation reserve of $32,000 (30 June 2019: Nil) comprises of all foreign currency differences arising from the translation of the financial statements of foreign operations.

ii) Share-based payments reserve

The share-based payments reserve of $1,458,000 (30 June 2020: $1,370,000) comprises of all share-based payment arrangements granted to employees that has been recognised as an expense, with a corresponding increase in the reserve, over the vesting period of the awards.

c) Dividends

There were no dividends declared or paid by the Company during the period.

Dividend franking account	30 June 2020	30 June 2019
Amount of franking credits available to shareholders of Wiseway Group Limited for subsequent financial years	-	-

25. Capital management

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital, as well as the level of dividends to ordinary shareholders.

26. Share-based payment arrangements

a) Performance rights issued to employees

The Group has established a long-term incentive plan ('LTIP') to encourage high performance of its key management personnel and other senior management personnel in order to promote the long-term success of the Group. The LTIP is an equity-based plan which is delivered in the form of performance rights. These performance rights have a three-year vesting period and will only vest if the participants remain employees of any member entity of the Group as at the relevant vesting date.

The Group made an accrual for 934,000 performance rights issued to the Group's former Chief Financial Officer, Mark Ziirsen, on 28 June 2019 in accordance to the terms of his termination agreement. The first 454,545 performance rights vested on 31 July 2019 at a price of $0.22 and the remainder vested on 12 December 2019 at a price of $0.17.

The following tables shows the movement of the number of performance rights that were held during the years ended 30 June 2019 and 2020 by employees of the Group.

30 June 2020	**Opening balance at 30 June 2019**	**Rights issued to employees**	**Rights vested / lapsed**	**Closing balance at 30 June 2020**
Key manangement	934,000	-	(934,000)	**-**

Total financial liabilities	**-**	**(23,151)**	**(23,151)**

27. Financial risk management (continued)

b) Risk management framework

The Group has exposure to the following risks arising from financial instruments:

- Credit risk
- Liquidity risk
- Market risk

The Company's Board of Directors (the Board') has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board has established the Audit and Risk Committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the Board on its activities.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

c) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the Group's receivables from customers.

The carrying amounts of financial assets represent the maximum credit exposure.

Impairment losses on financial assets recognised in the profit or loss for the period were $428,000 (30 June 2019: $297,000).

The Group has no significant concentration of credit risk other than in respect to the Group's top ten customers that makes up approximately 50% of the trade receivables balance.

The Group has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. Credit limits are established for each customer and reviewed regularly. The Group limits its exposure to credit risk from trade receivables by establishing payments terms which generally range from 7 to 21 days from date of invoice, with a maximum payment period of 30 days from date of invoice for individual and corporate customers respectively.

The Group uses an allowance matrix to measure ECLs of trade receivables from customers. Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency to write-off. Loss rates are based on the Group's view of economic conditions over the expected lives of the receivables.

27. Financial risk management (continued)

c) Credit risk (continued)

The following table provides information about the exposure to credit risk and ECLs for trade receivables from customers as at 30 June 2020.

30 June 2020	Weighted-average loss rate	Gross carrying amount	Loss allowance	Credit-impaired
	%	$'000	$'000	
Current (not past due)	0%	4,590	-	No

More than 150 days past due	64%	301	(192)	Yes
		8,811	**(297)**	

d) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group has a secured loan facility of $5,000,000 of which $5,000,000 was utilised at 30 June 2020 (30 June 2019: $4,500,000). The secured loan facility is secured over the assets of Wiseway Group Limited and Wiseway Logistics Pty Ltd. The loan is repayable within three years. The loan contains covenants which state that at the end of each financial year 12 month period, the Group's equity ratio (the Group's total shareholder funds divided by total assets) must not be less than 35%, the Group's debt service cover (gross interest expense plus gross principal repayments) must not be less than 1.1 times the Group's EBITDA (excluding one-off IPO costs) less income tax expense, and the Group's interest cover (the Group's gross interest expense) must not be less than 2.0 times the Group's EBIT (excluding one-off IPO costs). The Group did not meet its covenants for the year ended 30 June 2020

27. Financial risk management (continued)

d) Liquidity risk (continued)

which resulted in the loan being classified as current in the consolidated statement of financial position. The loan was subsequently fully repaid on 2 July 2020 and is available for redraw.

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted and include contractual interest payments.

	Less than one year 30 June 2020 $'000	Between one and five years 30 June 2020 $'000	More than five years 30 June 2020 $'000	Total 30 June 2020 $'000
Trade and other payables	6,530	-	-	6,530

	17,910	**14,890**	**11,055**	**43,855**

	Less than one year 30 June 2019 $'000	Between one and five years 30 June 2019 $'000	More than five years 30 June 2019 $'000	Total 30 June 2019 $'000
Trade and other payables	9,890	-	-	9,890
Secured bank loans	-	4,500	-	4,500
Finance lease liabilities	2,994	6,337	-	9,331
Loans from related parties	277		-	277
	13,161	**10,837**	**-**	**23,998**

e) Market risk

Market risk is the risk that changes in market prices – e.g. foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

i) Currency risk

The Group is exposed to foreign currency risk to the extent that the assets, liabilities, income and expenses of foreign operations are translated into the functional currency of the Group, being Australian Dollars ('AUD'). The currencies of the foreign operations are primarily denominated in New Zealand Dollars ('NZD') and Chinese Yuan ('CNY'). The Group considers the impact of foreign currency differences arising on translation of foreign operations not to be material for the period.

27. Financial risk management (continued)

d) Liquidity risk (continued)

ii) Interest rate risk

Interest rate risk the risk that the Group incurs financial loss due to adverse movement in interest rates. The Group is subject to interest rate risk on its secured bank loans. A change of one percent in

interest rates at the reporting date would have increased or decreased the Group's equity and other comprehensive income by $35,000, net of tax (30 June 2019: $7,875).

28. List of subsidiaries

See accounting policy in Note 6 a).

Set out below is a list of material subsidiaries of the Group.

	30 June 2020 % ownership	30 June 2019 % ownership
Wiseway Logistics Pty Ltd - Australia	100%	100%
Wiseway Perishables Pty Ltd - Australia	100%	100%
Wiseway Logistics Limited - New Zealand	100%	100%
Wiseway Logistics Hong Kong Limited - Hong Kong	100%	100%
Wiseway Shanghai International Logistics Co., Ltd - China	100%	100%

Airnex Limited - New Zealand	100%	100%
Four Seasons Pty Ltd - Australia	51%	51%
Airtruck Pty Ltd - Australia	100%	-
Cargo Technology Network Pty Ltd - Australia	100%	-

29. Acquisition of subsidiaries

See accounting policy in Note 6 a).

During the year, the following wholly owned subsidiaries were acquired/incorporated:

Subsidiary	Country	Date of acquisition/incorporation
Airtruck Pty Ltd	Australia	Acquired 22 October 2019
Cargo Network Technology Pty Ltd	Australia	Incorporated 10 January 2020

Airtruck Pty Ltd was acquired by the Group on 22 October 2019 and is responsible for the Group's road transport business.

30. Non-controlling interests

See accounting policy in Note 6 a).

The following table summarises the information relating to each of the Group's subsidiaries that has non-controlling interests, before any intra-group eliminations.

	Four Seasons Pty Ltd 12 months ended 30 June 2020 $'000	Four Seasons Pty Ltd 16 March 2018 to 30 June 2019 $'000
Non-controlling interest %	**49%**	**49%**

Cash flows from operating activities	26	(267)
Cash flows from investment activities	-	(4)
Cash flows from financing activites	176	281
Net increase in cash and cash equivalents	**202**	**10**

31. Commitments and contingencies

The Group has entered into contracts to purchase 2 prime movers and 2 trailers to support the growing imports, sea freight and road transport businesses to be funded by hire purchase loans and existing cash reserves for a total value of $896,744.

The Group holds bank guarantees in the form of term deposits amounting to $451,000 (30 June 2019: $812,000), which are described in Note 18.

32. Related parties

a) Key management personnel compensation

	12 months ended 30 June 2020	16 March 2018 to 30 June 2019
Short-term employee benefits	703,177	1,246,349
Post-employment benefits	53,225	82,164
Termination benefits	-	161,754
Share-based payments	-	779,300
	756,402	**2,269,568**

Compensation of the Group's key management personnel include salaries, non-cash benefits and contributions to superannuation funds (see Note 10).

32. Related parties (continued)

a) Key management personnel compensation (continued)

Information regarding individual Director's and executive's compensation is provided in the remuneration report section of the Directors' report.

b) Other related party transactions

The Executive Directors, or their related parties, hold positions in other entities that result in them having control or joint control over these entities.

A number of these entities transacted with the Group during the period ended 30 June 2020. The terms and conditions of the transactions were no more favourable than those available, or which might reasonably be expected to be available, on similar transactions to non-key management personnel related entities on an arm's length basis.

RTF Investment Management Pty Limited as trustee for RFT Trust, a trust of which Roger Tong and Florence Tong are the beneficiaries, provided leased commercial premises to the Group on normal commercial terms and conditions. During the period ended 30 June 2020, the rental amount paid to this related entity by the Group was $1,461,032 (30 June 2019: 1,616,822).

The Group has historically provided and/or received short-term loans to or from Roger Tong and Florence Tong. The loans are unsecured, repayable on demand and interest free. As at 30 June 2020 the outstanding balance due to Executive Directors was $463,966 (30 June 2019: due from Executive Directors: $3,201).

33. Subsequent events

The secured loan facility of $5,000,000 was fully repaid on 2 July 2020 and is available for redraw.

No matters or circumstances, other than those mentioned above, have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

36. Deed of cross guarantee

Pursuant to *ASIC Corporations (Wholly owned Companies) Instrument 2016/785* the wholly-owned subsidiaries listed below are relieved from the *Corporations Act 2001* requirements for preparation, audit and lodgement of financial reports, and Directors' reports.

It is a condition of the Instrument that the Company and each of the subsidiaries enter into a Deed of Cross Guarantee. The effect of the Deed is that the Company guarantees to each creditor payment in full of any debt in the event of winding up of any of the subsidiaries under certain provisions of the *Corporations Act 2001*. If a winding up occurs under the other provisions of the Act, the Company will only be liable in the event that after six months any creditor has not been paid in full. The subsidiaries have also given similar guarantees in the event that the Company is wound up.

The subsidiaries subject to the Deed are:

- Wiseway Logistics Pty Ltd
- Wiseway Perishables Pty Ltd
- Airnex Pty Ltd
- Airtruck Pty Ltd

A consolidated statement of comprehensive income and consolidated statement of financial position, comprising the Company and controlled entities which are a party to the Deed, after eliminating all transactions between the parties to the Deed of Cross Guarantee, for the year ended 30 June 2020 is set out as follows:

Statement of profit or loss and other comprehensive income and retained earnings	**12 months ended 30 June 2020 $'000**
Revenue	99,137
Direct transport and logistics expenses	(71,795)
Operating expenses	(27,661)
Finance costs	(1,440)
Loss before tax	**(1,759)**
Income tax expense	(1,808)
Loss for the period	**(3,567)**
Total comprehensive income for the period, net of tax	**(3,567)**
Accumulated losses at beginning of year	(170)
Accumulated losses at end of year	**(3,737)**
Attributable to:	
Owners of the Company	(3,517)
Non-controlling interests	(50)
Loss for the period	**(3,567)**

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 30 June 2020

37. Parent entity disclosures

As at, and throughout, the financial reporting period ended 30 June 2020 the parent entity of the Group was Wiseway Group Limited.

	12 months ended 30 June 2020	16 March 2018 to 30 June 2019
Result of the parent entity	**$'000**	**$'000**
Loss for the period	(3,463)	(274)
Total comprehensive loss for the period	**(3,463)**	**(274)**
Financial position of the parent entity at year end		
Current assets	854	314
Total assets	**23,748**	**22,583**
Total equity of the parent entity comprising of:		
Share capital	26,027	21,487
Share-based payments reserve	1,458	1,370
Accumulated losses	(3,737)	(274)
Total equity	**23,748**	**22,583**

The parent entity has entered into a Deed of Cross Guarantee with the effect that the Company guarantees debts in respect of certain subsidiaries.

Further details of the Deed of Cross Guarantee and the subsidiaries subject to the deed are disclosed in Note 36.

38. Going concern basis for the financial report

The financial report has been prepared on the going concern basis of accounting, which assumes the Group will be able to continue trading and realise assets and discharge liabilities in the ordinary course of business for a period of at least twelve months from the date of signing these financial statements.

The Group incurred a loss and had cash inflows from operating activities of $3,450,000 and $3,828,000 respectively for the financial reporting period ended 30 June 2020. These financial results were impacted by the strategic expansion activities from the prior financial year and the derecognition of the deferred tax asset recognised in the prior financial year (refer to Note 12(c)). Management has prepared a detailed financial forecast for the next 12 months which indicates that the Group has the ability to meet its debts as and when they fall due. Accordingly, the Directors have prepared the financial statements on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and the settlement of liabilities in the ordinary course of business.

WISEWAY GROUP LIMITED

ABN 26 624 909 682

DIRECTORS' DECLARATION

In the opinion of the Directors of Wiseway Group Limited (the 'Company'):

a) the consolidated financial statements and notes that are set out on pages 17 to 57 and the Remuneration report in section 16 of the Directors' report, are in accordance with the *Corporations Act 2001*, including:

   i) giving a true and fair view of the Group's financial position as at 30 June 2020 and of its performance for the period ended on that date; and

   ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001;* and

b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

The Directors have been given declarations required by Section 295A of the *Corporations Act 2001* from the chief executive officer and chief financial officer for the period ended 30 June 2020.

The Directors draw attention to Note 2 to the consolidated financial statements, which includes a statement of compliance with International Financial Reporting Standards.

Signed in accordance with a resolution of the directors:

Florence Tong Executive Director and Managing Director	Roger Tong Executive Director and Chief Executive Officer

Dated at Sydney this 27th day of August 2020

Independent Auditor's Report

To the shareholders of Wiseway Group Limited

Report on the audit of the Financial Report

Opinion

We have audited the *Financial Report* of Wiseway Group Limited (the Company).

In our opinion, the accompanying Financial Report of the Company is in accordance with the *Corporations Act 2001*, including:

- giving a true and fair view of the *Group*'s financial position as at 30 June 2020 and of its financial performance for the year ended on that date; and
- complying with *Australian Accounting Standards* and the *Corporations Regulations 2001*.

The *Financial Report* comprises:

- Consolidated statement of financial position as at 30 June 2020;
- Consolidated statement of profit or loss and other comprehensive income, Consolidated statement of changes in equity, and Consolidated statement of cash flows for the year then ended;
- Notes including a summary of significant accounting policies; and
- Directors' Declaration.

The *Group* consists of Wiseway Group Limited (the Company) and the entities it controlled at the year-end or from time to time during the financial year ended 30 June 2020.

Basis for opinion

We conducted our audit in accordance with *Australian Auditing Standards*. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the Financial Report* section of our report.

We are independent of the Group in accordance with *the Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the Financial Report in Australia. We have fulfilled our other ethical responsibilities in accordance with the Code.

Key Audit Matters

Key Audit Matters are those matters that, in our professional judgement, were of most significance in our audit of the Financial Report of the current period.

This matter was addressed in the context of our audit of the Financial Report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Revenue recognition of air freight forwarding services ($92.2m)	
Refer to Note 9 to the Financial Report	
The key audit matter	**How the matter was addressed in our audit**
Revenue recognition of air freight forwarding services is a key audit matter due to: • the significant audit effort required by us to test the high volume of transactions recorded by the Group as revenue; and • revenue from the provision of air freight forwarding services represents 90% of the Group's revenue. The Group has manual processes and controls which may increase the risk of potential bias, in particular in the last quarter of the reporting period. This increased our audit effort to test higher samples of freight revenue transactions in the last quarter of the reporting period.	Our procedures included: • We considered the relevant features of the underlying air freight forwarding services contract in assessing the Group's application of AASB 15 revenue recognition, including what the Group identified as performance obligations, against the criteria in the accounting standard and those in the Group's policy. • We selected a statistical sample of air freight forwarding revenue transactions for the period up to the last quarter of the reporting period. For each sample selected, we: - checked the amount of revenue recorded by the Group against the amount of the underlying sales invoice and to the customer cash receipts obtained from the Group's bank statements. • We selected a higher statistical sample during the last quarter of the reporting period due to the increased risk of potential bias. For each sample selected, we: - checked the amount of revenue recorded by the Group against the amount of the underlying sales invoice and to the customer cash receipts obtained from the Group's bank statements. - checked the nature and date the revenue was recognised by the Group to the date of completion of freight forwarding services from underlying freight documents such as the waybill. • We assessed the disclosures in the financial report using our understanding obtained from our testing and against the requirements of AASB 15.

Other Information

Other Information is financial and non-financial information in Wiseway Group Limited's annual reporting which is provided in addition to the Financial Report and the Auditor's Report. The Directors are responsible for the Other Information.

Our opinion on the Financial Report does not cover the Other Information and, accordingly, we do not express an audit opinion or any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the Financial Report, our responsibility is to read the Other Information. In doing so, we consider whether the Other Information is materially inconsistent with the Financial Report or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We are required to report if we conclude that there is a material misstatement of this Other Information, and based on the work we have performed on the Other Information that we obtained prior to the date of this Auditor's Report we have nothing to report.

Responsibilities of the Directors for the Financial Report

The Directors are responsible for:

- preparing the Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- implementing necessary internal control to enable the preparation of a Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error
- assessing the Group and Company's ability to continue as a going concern and whether the use of the going concern basis of accounting is appropriate. This includes disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they either intend to liquidate the Group and Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the Financial Report

Our objective is:

- to obtain reasonable assurance about whether the Financial Report as a whole is free from material misstatement, whether due to fraud or error; and
- to issue an Auditor's Report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with *Australian Auditing Standards* will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error. They are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Financial Report.

A further description of our responsibilities for the audit of the Financial Report is located at the *Auditing and Assurance Standards Board* website at: https://www.auasb.gov.au/admin/file/content102/c3/ar1_2020.pdf. This description forms part of our Auditor's Report.

Report on the Remuneration Report

Opinion

In our opinion, the Remuneration Report of Wiseway Group Limited for the year ended 30 June 2020, complies with *Section 300A of the Corporations Act 2001*.

Directors' responsibilities

The Directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with *Section 300A of the Corporations Act 2001*.

Our responsibilities

We have audited the Remuneration Report included in pages 8 to 15 of the Directors' report for the year ended 30 June 2020. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with *Australian Auditing Standards*.
