Business Strategy

Our focus remains on financially astute growth through:

- Investing in Greenfield projects in Australia to deliver 5i services growth, long-term
- 2. Strengthening our position in current markets:
 - Established buildings growth across multiple regions
 - The new segment of brownfield (retrofit) buildings in North America
 - A combination of organic and inorganic growth
- 3. Continuing to drive more of our services to existing customers
 - Recognising different markets present different opportunities
- 4. Expanding into new geographies

Business Strategy (cont'd)

- 5. Emphasis on Remote Infrastructure Management Services ("Managed Services")
- 6. New product launch (P3):
 - Upsell to the existing customers
 - Competitive positioning
- 7. Offering COVID-specific Compliance Services for Reentry Preparedness
- 8. Re-energising current partners with extended services and SNAPS credentials

Operational Summary

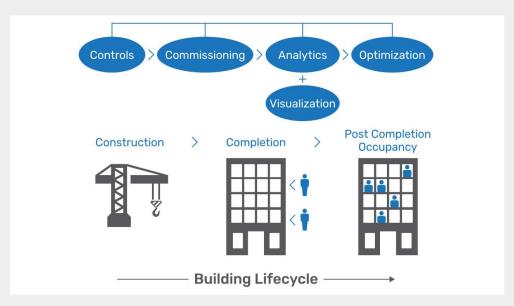

- Sales activities were constrained due to the impacts of COVID-19, although BuildinglQ's ability to remotely manage buildings helped exiting customers
- 7 net new buildings added in 1H FY20, all greenfield building contracts
- Now operating in 1,348 buildings
- New product announcement (P3)
- Focus on Remote Infrastructure Services ("Managed Services")
- Customer contract renewal rate* held at greater than 97%. Contracts vary significantly in value and duration

^{*} Established buildings, individual contract value varies significantly

Greenfield projects converting to Established services

- Greenfield projects adding recurring, established building services post-completion
- Complements controls and commissioning services delivered during construction phase
- Completion includes 12 months of defect, liability period (DLP) prior to occupancy

- Sales activities started to pick-up towards the end of the half and, after the slippage due to COVID restrictions, work has commenced to rectify project timelines
- Projects completed in 1HFY20 added 7 net new buildings
- In 2H FY20 7 projects expected to complete in across Australia with new Greenfield project opportunities across a range of sectors incl. Aged Care, Transport, Office and Infrastructure
- Forrestfield Airport Link Buildingsense work to ramp up over next 14-16 months now work has commenced on stations & platforms

Greenfield projects – our views on current market trends

Positives:

- Still upside for Government projects, particularly in NSW
- Schools, while slower due to COVID restrictions in 1HFY20, expected to ramp-up over next
 12 months
- Noticeable shift in applications from purely office to mixed use developments
- Decentralisation of office space increasing number of developments for co-working hubs in suburban areas

Negatives:

- 'Uncertainty' within the market leading to slow decision making, even if DA approved
- 'Uncertainty' regarding tenancy spaces and utilisation of office driving a level of cautiousness
- Price competitiveness is increasingly a factor in securing contracts, however BuildinglQ's ability to remotely manage properties and deliver cyber security is regarded as a competitive advantage

Asia Pacific – Greenfield Buildings Completed

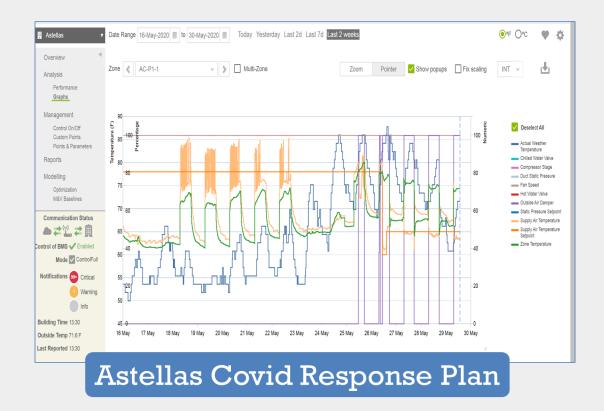

Top to Bottom, L-R completed projects:

- Mudgee Hospital
- MyVista Aged Care
- Somerset Hospital
- EZone Building UWA

North America – Focused on Operational Benefits

 BuildingIQ introduced an industry unique COVID Re-entry Preparedness Solution providing customers with deeper insight into the health of buildings and to meet new guidelines

2020: Next 6 months

Section 3

2020: Next 6 months

- Owing to COVID and the unrest in North America, our focus shall be on customising BuildingIQ's products and services for compliance to industry guidelines (CDC, ASHRAE, BOMA, etc.)
- Services packaged for COVID Re-entry Preparedness Solution
- Key focus will to promote Remote Infrastructure Management ("Managed Services")
 instead of simply offering products and licenses
- Our efforts will be dedicated to revitalising current partners to promote the new focus areas and solution services noted above
- Through the new product launch (P3), which will facilitate competitive positioning, BuildingIQ will strive to upsell and revise the current pricing models and price points with existing customers
- In Australia, we are continuing to pursue new Greenfield project opportunities across a range of sectors incl. Aged Care, Transport, Office and Infrastructure

Revenue recognition through a Greenfield project

^{*} Post- full adoption of AASB15 changes to revenue recognition

- Installation component (typically 3 quarters) of contract now recognised based on % completion
- Straight line revenue recognition over contract term (24 months) no longer possible
- Costs are recognised based on % completion, no longer amortised over contract term
- Cash flow breakeven is Q5
