

ASX RELEASE**11 September 2020****Scouting Mission Launch Update**

Kleos Space S.A (ASX: **KSS**, Frankfurt: **KS1** (Kleos or **Company**), a space-powered Radio Frequency Reconnaissance data-as-a-service (DaaS) company is pleased to provide an update on the Kleos Scouting Mission launching on the Indian Space Research Organisation's (ISRO) PSLV-C49 Mission from Satish Dhawan Space Centre (SDSC), Sriharikota Range in India (SHAR).

The Company is launching the Scouting satellites under a rideshare contract with Spaceflight Inc, with the launch managed by NewSpace India Limited (NSIL), a Government of India company under Department of Space.

The Kleos Scouting Mission's four satellites have been mission-ready since the middle of 2019, and were shipped to the launch site during February 2020, anticipating the launch during March 2020. Delay to the launch from March 2020 has been due to the prevailing COVID-19 pandemic situation.

The Company has been informed (by NSIL via Spaceflight Inc.) that the launch of the four Kleos satellites planned on-board PSLV-C49 mission is being targeted during the 1st half of November 2020, based on the current status of planning of activities. This schedule is subject to change due to operational circumstances beyond NSIL control.

In due course, NSIL via Spaceflight Inc. will confirm the exact launch date once the activities at the launch base progress successfully.

This announcement has been authorised for release by the Company's Chief Executive Officer.

About Kleos Space S.A.

Kleos Space S.A. (ASX: KSS) is a space enabled, activity-based intelligence, data as a service company based in Luxembourg. Kleos Space aims to guard borders, protect assets and save lives by delivering

global activity-based intelligence and geolocation as a service. The first Kleos Space satellite system, known as Kleos Scouting Mission (KSM), will deliver commercially available data and perform as a technology demonstration. KSM will be the keystone for a later global high capacity constellation. The Scouting Mission will deliver targeted daily services with the full constellation delivering near-realtime global observation – www.kleos.space.
