

ASX Announcement
Armour Energy Limited
30 September 2020
Lodgement of Cleansing Prospectus

Armour Energy Limited (ASX: AJQ) (**Armour Energy** or the **Company**) wishes to advise that it has lodged with the Australian Securities and Investments Commission the attached prospectus for the offer of up to 100,000 quoted options at an issue price of \$0.01 per quoted option to raise approximately \$1,000 (before expenses).

The Prospectus has been prepared primarily for the purpose of section 708A(11) of the Corporations Act, to remove any trading restrictions on the sale of quoted options issued by the Company prior to the Closing Date, being 5pm on 16 October 2020 (unless varied).

The Company notes that pursuant to the terms of its capital raising program as originally announced to the market on 15 June 2020 and updated on 18 September 2020, quoted options for parties that participated in the private placement components of the raising will be now allotted.

This Announcement is Authorised by the Board of Directors.

Prospectus

Armour Energy Limited ACN 141 198 414 (Company)

For the offer of up to 100,000 Quoted Options at an issue price of \$0.01 per Quoted Option to raise approximately \$1,000 (before expenses).

The Prospectus has been prepared primarily for the purpose of section 708A(11) of the Corporations Act to remove any trading restrictions on the sale of Quoted Options issued by the Company prior to the Closing Date.

This document is important and it should be read in its entirety. If you are in any doubt as to the contents of this document, you should consult your stockbroker, solicitor, banker, financial advisor or accountant as soon as possible. The securities offered under this Prospectus are considered to be speculative.

This is a transaction-specific prospectus issued in accordance with section 713 of the *Corporations Act 2001* (Cth).

Not for distribution in the United States of America or to U.S. persons.

Important information

The Offer is only available to those who are personally invited to accept the Offer. The Offer is not available to the general public. Applications for Quoted Options offered pursuant to this Prospectus can only be submitted on an original Application Form which accompanies this Prospectus.

Key Offer Statistics

Issue Price	\$0.01
Exercise Price	\$0.05
Expiry Date	29 February 2024
Expected number of Quoted Options to be issued	100,000
Number of Quoted Options on issue prior to Offer	98,433,343
Expected total Quoted Options on issue following the Offer ¹	98,533,343

¹Up to an additional 230,302,391 Quoted Options are expected to be issued during the currency of this Prospectus (being the Relevant Quoted Options – refer to section 1.2), such that the total Quoted Options on issue following the Offer and the issue of such other Relevant Quoted Options will be up to 328,735,734.

Key dates

Prospectus lodged with ASIC and ASX	30 September 2020
Offer opens	30 September 2020
Offer closes*	5.00pm (AEST) on 16 October 2020

All dates are subject to change and accordingly are indicative only. The Directors may vary the period of the Offer at their discretion. The Directors, subject to the requirements of the Listing Rules and the Corporations Act, reserve the right to: (a) withdraw the Offer without prior notice; or (b) vary any of the important dates set out in this Prospectus, including extending the Offer or bringing forward the Closing Date.

Important notice

This Prospectus is dated 30 September 2020 and was lodged with the ASIC on the same date. Neither ASIC nor ASX takes any responsibility as to the contents of this Prospectus. No securities will be issued on the basis of this Prospectus any later than 13 months after the date of issue of this Prospectus.

This Prospectus contains an offer of options to acquire continuously quoted securities and has been prepared in accordance with section 713 of the *Corporations Act*. It does not contain the same level of disclosure as an initial public offering prospectus and is intended to be read in conjunction with the publicly available information in relation to the Company which is released on the ASX from time to time.

The Offer is not available to the general public.

The Offer is only available to the person(s) who is personally invited by the Company to accept the Offer. The Company will provide an Application Form to those person(s) only. An application for the Quoted Options offered pursuant to this Prospectus can only be submitted on an original Application Form.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. The Quoted Options the subject of this Prospectus should be considered speculative.

Foreign shareholders

This document does not constitute an offer of the Quoted Options in any jurisdiction in which it would be unlawful. Quoted Options may not be offered or sold in any country outside Australia except to the extent permitted below.

The Company has not made any investigation as to the regulatory requirements that may prevail in the countries, outside of Australia in which the Company's Shareholders may reside. It is the responsibility of overseas Applicants to ensure compliance with all laws of any country relevant to their Acceptance.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe those restrictions. Any failure to comply with restrictions might constitute a violation of applicable securities laws.

Terms used

A number of terms and abbreviations used in this Prospectus have defined meanings, which are explained in the definitions and glossary in section 5.

Money as expressed in this Prospectus is in Australian dollars unless otherwise indicated.

Forward looking statements

Some of the information contained in this Prospectus constitutes forward-looking statements that are subject to various risks and uncertainties. Forward-looking statements include those containing such words as 'anticipate', 'estimate', 'should', 'will', 'expects', 'plans' or similar expressions. These statements discuss future objectives or expectations concerning results of operations or financial conditions or provide other forward-looking information. The Company's actual results, performance or achievements could be significantly different from the results or objectives expressed in, or implied by, those forward-looking statements. This Prospectus details some important factors that could cause the Company's actual results to differ from the forward-looking statements made in this Prospectus.

No representations

No person is authorised to give any information or to make any representation in connection with the Offer which is not contained in this Prospectus. Any information or representation in connection with the Offer not contained in this Prospectus may not be relied on as having been authorised by the Company or its officers. This Prospectus does not provide investment advice or advice on the taxation consequences of accepting the Offer. The Offer and the information in this Prospectus, do not take into account your investment objectives, financial situation and particular needs (including financial and tax issues) as an investor.

1. Details of the Offer

1.1 The Offer

Under this Prospectus, the Company invites investors identified by the Directors to apply for up to 100,000 Quoted Options at an issue price of \$0.01 per Quoted Option to raise approximately \$1,000 (before expenses).

The Offer will only be extended to specific parties on invitation from the Directors. Application Forms will only be provided by the Company to these parties.

All of the Quoted Options offered under this Prospectus will rank equally with Quoted Options on issue at the date of this Prospectus. The full terms of the Quoted Options are set out in section 4.4 and in Schedule 1.

All Shares issued on exercise of the Quoted Options will rank equally with the Shares then on issue. A summary of the rights and liabilities attaching to the Shares is set out in section 4.3.

1.2 Objective

The Company is seeking to raise only a nominal amount under this Prospectus and, accordingly, the purpose of this Prospectus is not to raise capital.

On 15 June 2020, the Company announced its intention to undertake a capital raising of up to \$10 million (**Capital Raising**) constituted by an initial placement to raise approximately \$3.36 million (**Placement**), an underwritten accelerated non-renounceable, pro rata entitlement offer to raise approximately \$4.52 million (**Entitlement Offer**), and an additional placement subject to shareholder approval to raise up to \$2.1 million (**Conditional Placement**).

On 15 June 2020, the Company entered into an agreement with Oilex Limited in respect of the acquisition of all of the issued capital of CoEra Ltd (**Oilex Transaction**).

On 18 September 2020 the Company announced an upsizing of the Conditional Placement (with certain elements of the upsized Conditional Placement to be subject to any necessary shareholder approvals at the Company's Annual General Meeting).

The primary purpose of this Prospectus is to prevent any trading restrictions from attaching to the following Quoted Options related to the Capital Raising and the Oilex Transaction and proposed to be issued without disclosure under Chapter 6D of the Corporations Act:

- (a) up to 56,138,026 Quoted Options, being those Quoted Options that, subject to shareholder approval, were agreed to be issued to the participants in the Company's recent Placement on the basis of one free attaching Quoted Option for every two Placement Shares subscribed for (**Placement Options**);
- (b) up to 29,000,000 Quoted Options, being those Quoted Options that, subject to shareholder approval, will be issued to the participants in the Company's Conditional Placement as originally announced on 15 June 2020, on the basis of one free attaching Quoted Option for every two Conditional Placement Shares subscribed for (**Conditional Placement Options**);
- (c) up to 69,895,427 Quoted Options, being those Quoted Options that, will be issued to the participants in the Company's upsized portion of the Conditional Placement under the Company's capacity under Listing Rule 7.1 as announced on 18 September 2020, on the basis of one free attaching Quoted Option for every two Conditional Placement Shares subscribed for (**Upsized Conditional Placement Options**);

- (d) up to 23,913,043 Quoted Options, being those Quoted Options that, subject to shareholder approval, will be issued to DGR Global Limited in respect of its participation in the Company's Conditional Placement on the basis of one free attaching Quoted Option for every two Conditional Placement Shares subscribed for (**DGR Conditional Placement Options**);
- (e) up to 27,800,000 Quoted Options, being those Quoted Options that, subject to shareholder approval, were agreed to be issued to Bizzell Capital Partners Pty Ltd (or its nominee(s))¹ on the basis of four Quoted Options for every one dollar raised under the Capital Raising (**BCP Fee Options**);
- (f) up to 7,849,991 Quoted Options, being those Quoted Options that, subject to shareholder approval, were agreed to be issued to DGR Global Limited in accordance with the Pay Away Arrangements on the basis of four Quoted Options for every dollar sub-underwritten in the Entitlement Offer or subscribed for in the Placement or Conditional Placement by DGR Global Limited (**DGR Fee Options**);
- (g) up to 5,605,904 Quoted Options, being those Quoted Options that, subject to shareholder approval, were agreed to be issued to Samuel Holdings Pty Ltd in accordance with the Pay Away Arrangements on the basis of four Quoted Options for every dollar sub-underwritten in the Entitlement Offer or subscribed for in the Placement or Conditional Placement by Samuel Holdings Pty Ltd (**Samuel Fee Options**); and
- (h) up to 10,000,000 Quoted Options, being those Quoted Options that, subject to shareholder approval were agreed to be issued to JB Advisory Partners Pty Ltd on completion of the Oilex Agreement (**JB Advisory Oilex Fee Options**),

(collectively, the **Relevant Quoted Options**).

Shareholder approval was obtained for the issue of the Relevant Quoted Options (other than the Upsized Conditional Placement Options) on 18 September 2020. Refer to the Entitlement Offer Prospectus dated 15 June 2020 and the Notice of Extraordinary General Meeting dated 18 August 2020 for further information in respect of the arrangements pertaining to the Relevant Quoted Options other than the Upsized Conditional Placement Options, in respect of which reference should be made to the Company's announcement of 18 September 2020.

Generally, section 707(3) of the Corporations Act requires that a prospectus is issued in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those securities within 12 months of the date of their issue.

Section 708A(11) of the Corporations Act provides an exemption from this general requirement where:

- (a) the relevant securities are in a class of securities of the company that are already quoted on ASX;
- (b) a prospectus is lodged with ASIC either:
 - (1) on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (2) before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and

¹ A portion of these Quoted Options will be directed to be issued to JB Advisory Partners Pty Ltd on the basis of four Quoted Options for every dollar sub-underwritten in the Entitlement Offer or subscribed for in the Placement or Conditional Placement by JB Advisory Partners Pty Ltd in accordance with the Pay Away Arrangements.

- (c) the prospectus is for an offer of securities issued by the company that are in the same class of securities as the relevant securities.

Accordingly, the primary purpose of this Prospectus is to comply with section 708A(11) of the Corporations Act so that the recipients of the Relevant Quoted Options, if they choose to, can sell the Relevant Quoted Options within the next twelve months without the issue of a prospectus. The issue of the Relevant Quoted Options will not be undertaken by the Company with the purpose of the recipients selling or transferring the Relevant Quoted Options. However, the Directors consider that the recipients of the Relevant Quoted Options should be able to sell the Relevant Quoted Options should they wish to do so, without being required to issue a prospectus. The Relevant Quoted Options are intended to be issued prior to the close of the Offer.

1.3 Minimum subscription

There is no minimum subscription in respect of the Offer.

1.4 Applications

Applications for Quoted Options must only be made by investors at the direction of the Company and must be made using the Application Form Accompanying this Prospectus.

Payment for the Quoted Options must be made in full by cheque made payable to “**Armour Energy Limited**” and crossed “**Not Negotiable**” in respect of all Quoted Options applied for at the issue price of \$0.01 per Quoted Option.

Completed Application Forms for Quoted Options must be mailed or delivered to the Company by the Closing Date at the below address:

Armour Energy Limited
Level 27
111 Eagle Street
Brisbane QLD 4000

1.5 Underwriter

The Offer is not underwritten.

1.6 ASX listing

The Company will apply to the ASX within 7 days of the date of this Prospectus for the Quoted Options to be issued pursuant to this Prospectus to be listed for Official Quotation by the ASX. If granted, quotation of the Quoted Options will commence as soon as practicable after allotment of the Quoted Options to Applicants. It is the responsibility of the Applicants to determine their allocation of Quoted Options prior to trading.

Should the Quoted Options offered pursuant to this Prospectus not be granted Official Quotation on the ASX within three months after the date of this Prospectus (or such period as varied by ASIC), none of those Quoted Options offered pursuant to this Prospectus will be issued and all Application Money paid in respect of those Quoted Options (if any) will be refunded without interest to applicants within the time prescribed by the Corporations Act.

1.7 CHESS

The Company will apply to ASX Settlement for the Quoted Options to participate in the Securities Clearing House Electronic Subregister System known as CHESS.

The Company will not issue certificates with respect to the Quoted Options. After allotment of the Quoted Options, those who are issuer sponsored holders will receive an issuer sponsored statement and those who are CHESS holders will receive an allotment advice.

The CHESS statements, which are similar in style to bank account statements, will set out the number of Quoted Options allotted to each successful applicant pursuant to this Prospectus. The statement will also advise holders of their holder identification number. Further statements will be provided to holders which reflect any changes in their holding in the Company during a particular month.

2. Effect of the Offer on the Company

2.1 Purpose of the Offer

The primary purpose of this Prospectus is set out above in section 1.2. Under the Offer, an amount of approximately \$1,000 (before expenses) will be raised. All of the funds raised from the Offer will be applied towards the expenses of the Offer. Refer to section 4.13 for further details relating to the estimated expenses of the Offer.

2.2 Financial position

The expenses of the Offer are expected to be approximately \$20,128 as set out in section 4.13 (**Expenses of the Offer**) and will be greater than any proceeds that may be received. The expenses of the Offer (exceeding \$1,000) will be met from the Company's existing cash reserves. The Offer will have an effect on the Company's financial position by reducing the cash balance by the amount of the Expenses of the Offer less any proceeds received under the Offer.

2.3 Capital structure

The share capital structure of the Company immediately following the Offer will be as follows:

	Number	%
Ordinary Shares on issue at the date of this Prospectus	1,077,970,412	100
Ordinary Shares offered pursuant to the Offer	Nil	0
Total:¹	1,077,970,412	100

Notes:

- 1) This does not include any Shares issued as a result of holders exercising any Existing Options or Quoted Options currently on issue.

As at the date of this Prospectus, and in addition to the 98,433,343 Quoted Options on issue, the Company has the following Existing Options on issue, as follows:

No of options issued	Holder	Exercise price	Expiry date
2,550,000	Employees – ESOP	\$0.195	29 March 2021
2,550,000	Employees – ESOP	\$0.345	29 March 2021
1,650,000	Employees – ESOP	\$0.495	29 March 2021
41,000,000	Corporate Adviser	\$0.161	31 July 2021
8,000,000	Capital Raising Fee Options	\$0.080	30 September 2023
40,000,000	September 2019 Placement options	\$0.080	30 September 2023
2,000,000	Employee – ESOP	\$0.050	29 February 2024

An additional 100,000 Quoted Options may be issued pursuant to this Prospectus. In addition, up to an additional 230,202,391 Quoted Options are expected to be issued during the currency of this Prospectus (being the Relevant Quoted Options – refer to section 1.2), such that the total Quoted Options on issue following the Offer and the issue of such other Relevant Quoted Options will be up to 328,735,734.

The Company also has Secured Amortising Notes on issue with a total value of \$44.75 million (as announced by the Company to the ASX on 29 September 2020).

3. Risk factors

3.1 Introduction

There are risks which may impact on the operating and financial performance of the Group and, therefore, on the value of the Quoted Options offered under this Prospectus (and the Shares issued on exercise of those Quoted Options). Some of these risks can be mitigated by the Group's systems and internal controls, but many are outside of the control of the Group and the Board, are dependent on the policies adopted and approaches taken by regulatory authorities or cannot otherwise be mitigated. There can be no guarantee that the Company will achieve its stated objectives or that any forward-looking statements will eventuate.

The Quoted Options offered under this Prospectus (and the Shares issued on exercise of those Quoted Options) carry no guarantee in respect of profitability, dividends, return of capital or the price at which they may trade on ASX. The past performance of the Company should not necessarily be considered a guide to the future performance of the Company. As with any equity investment, substantial fluctuations in the value of your investment may occur.

Potential investors should therefore carefully consider all associated risks before applying for Quoted Options under this Prospectus and should consider their personal circumstances (including financial and taxation issues) and seek advice from their stockbroker, accountant, solicitor or other professional advisers before deciding whether to invest (particularly if you are unsure about subscribing for Quoted Options).

A number of material risk factors which may adversely affect the Group and the value of the Quoted Options offered under this Prospectus (and the Shares issued on exercise of those Quoted Options) are set out in this section. This is not an exhaustive list and there may be other factors which have an adverse effect on the Group and the value of the Quoted Options offered under this Prospectus (and the Shares issued on exercise of those Quoted Options).

3.2 Risks specific to an investment in the Company

(a) COVID-19 Impact Risk

The global economic outlook is facing uncertainty due to the current COVID-19 (Novel Coronavirus) pandemic, which has been having, and is likely to continue to have, a significant impact on global capital markets, oil and gas prices and foreign exchange rates.

International oil and gas markets are suffering the impact of the COVID-19 virus, with significant falls in the oil price and the restriction of LNG sales into mainland China. These restrictions are causing an increase in gas available in the Eastern Australian Gas Market, which has resulted in a current reduction of the spot domestic gas price.

The Company has exposure to the Australian East Coast Domestic Gas Market via its current gas contracts with Australia Pacific LNG (APLNG). The Company's contract structure with APLNG requires the delivery of 5Tj/d on a take-or-pay "firm" basis and up to 5Tj/d on a flexible "as-available" basis. Due to the flexible contract with APLNG, the Company is exposed to the current lower LNG netback price in the Australian East Coast Domestic Gas Market, resulting in a net decrease in forecast revenue for 2020.

Supply chain disruptions resulting from the COVID-19 pandemic and measures implemented by governmental authorities around the world to limit the transmission of the virus (such as travel bans and quarantining) may, in addition to the general level of economic uncertainty caused by the COVID-19 pandemic, also adversely impact the Company's operations, financial position and prospects.

In addition, should any Company personnel or contractors be infected by COVID-19, it could result in the Company's operations being suspended or otherwise disrupted for an unknown period of time,

which may have an adverse impact on the Company's operations as well as an adverse impact on the financial condition of the Company.

(b) **Uganda Risk**

The Company currently holds the Licence in Uganda. The Company has received consent from the Minister to transfer the Licence to Armour Energy Uganda and has reached agreement with the Minister for the performance guarantee for the renewed Licence term for an amount of US\$200,000. However, it remains in negotiations in respect of the Relinquishment. The Company and DGR Global are in negotiations with respect to an agreement to transfer the Licence to Armour Energy Uganda and the provision of the performance guarantee to the Minister. Once these issues are resolved between Armour and DGR Global, Armour will request that the Minister transfer the Licence to Armour Energy Uganda.

Accordingly, while the Company remains the licensee in respect of the Licence, it is likely that any demand by the Government of the Republic of Uganda for the payment of amounts in respect of Licence (i.e. the Ugandan Conditional Contingent Licence Liability) would be made directly to the Company. In such circumstances, the Company would likely either have primary liability as the Licensee or ancillary liability as a potential guarantor. It is also likely that even when the Licence is transferred to Armour Energy Uganda, that as a result of the Parent Company Guarantee, that such a demand for payment would still be made directly to the Company. Where the demand by the Government of the Republic of Uganda for a payment was held by a court of competent jurisdiction to be valid, the Company would be liable for the relevant amount and would need to look to DGR Global pursuant to the terms of the Deed of Indemnity and Guarantee to pay its 83.18% share of the relevant liability.

Accordingly, there exists counterparty risk in respect of the Deed of Indemnity and Guarantee. Should a dispute arise between the Company and DGR Global as to the relevant liability or the Deed of Indemnity and Guarantee, this could place the Company in the position of having 100% exposure to the relevant liability, being required solely to pay the relevant amount to the Government of the Republic of Uganda and having to pursue DGR Global (a major shareholder in the Company) for its contribution pursuant to the Deed of Indemnity and Guarantee.

A similar counterparty risk exists in respect of DGR Global funding at least its proportionate share (83.18%) of the Second Exploration Period Minimum Work Program.

The Company has written to the Minister invoking the *force majeure* provisions under both the Act and the PSA in respect of its obligations under the PSA generally, and in respect of the 2D Seismic Survey in particular.

(c) **Secured Amortising Notes Risk**

On 26 March 2020, the Company announced that Noteholders had approved the amendment to certain terms of the Conditions of the Notes.

The Notes (as amended) require financial covenants to be satisfied on either an on-going basis or on specified dates (**Financial Covenants**). This requires the management of the Company to monitor and manage the operations, the financial performance and the funding and capital requirements of the Company to ensure that these Financial Covenants are satisfied.

As announced to the ASX on 20 August 2020, the Company has entered into certain asset transactions which has resulted in the Company making \$5.3 million in unscheduled amortisation payments, as required under the Conditions. As a result of these unscheduled amortisation payments and scheduled principal repayments, the value of the issued Notes has been reduced to \$44.75 million (as announced to the ASX on 29 September 2020).

In the event that the Company is unable to comply with the Conditions of the Notes (as amended) and a breach of the Conditions occurs and continues unremedied, then any Noteholder may require redemption of the Secured Amortising Notes held by that Noteholder, and the Note Trustee must (if requested to in writing by Noteholders holding in aggregate 25% or more of the Outstanding Principal Amount, (as defined)) require redemption of all the Secured Amortising Notes. In these circumstances the Secured Amortising Notes would become immediately due and payable. In total this would amount to \$44.75 million (assuming for example that all Secured Amortising Notes had become immediately due and payable). In addition, from the date of the breach until the date on which the breach is remedied the Conditions provide for default interest to be payable at a rate equal to the coupon rate plus 3% per annum. If the Company or the Guarantors (pursuant to the Guarantee given by certain of the Company's subsidiaries in respect of the Notes) could not repay the amount due and payable, then the Security Trustee could exercise its rights under the Security for the benefit of the Noteholders to enforce the Security. This may include appointing receivers to sell assets subject to the Security (and there can be no assurance that there will be at that time an active and liquid market for the assets the subject of the Security or that the market value of the assets will be equal to or greater than the outstanding amount owed in respect of the Notes), and may ultimately result in external administration for the Company. In such circumstances, as the Shareholders will rank behind the secured creditors and other creditors preferred at law in order of priority for payment, it is unlikely that Shareholders would receive any money and accordingly, would result in an entire loss of invested capital.

As noted above, the Company will monitor the on-going financial performance of the Company having regard to the management and satisfaction of on-going Financial Covenants and may, if required, adopt a course of action which seeks to prevent a breach of the Financial Covenants, including, without limitation, any one or a combination of the following actions (noting that some of the following actions are themselves regulated under the Conditions of the Notes):

- (1) the disposal of assets of the Company;
- (2) the entry into joint venture / farm-in arrangements with third parties; or
- (3) the negotiation of further amended Conditions (including the Financial Covenants) with the holders of the Notes.

(d) **Regulatory risk and government policy**

The availability and rights to explore and produce oil and gas, as well as industry profitability generally, can be affected by changes in government policy that are beyond the control of the Company.

The governments of the relevant States and Territories in which the Company has interests conduct reviews from time to time of policies in connection with the granting and administration of petroleum tenements. Changing attitudes to environmental, land care, cultural heritage or traditional religious artefacts and indigenous land rights issues, together with the nature of the political process, provide the possibility for future policy changes. There is a risk that such changes may affect the Company's exploration plans or, indeed, its rights and/or obligations with respect to the tenements.

The Company notes that on 11 April 2018 the Northern Territory Government announced that the moratorium on fracture stimulation of unconventional onshore gas reservoirs is to be lifted and hydraulic fracking will be able to occur under very strict conditions in tightly prescribed areas. On 17 July 2018 the Northern Territory Government released its plan to implement the recommendations of the independent scientific inquiry into unconventional hydraulic fracturing. The Company is evaluating the NT Government's implementation plan, and it is understood that the NT Government is reviewing the potential "reserved areas" identified by the inquiry which overlap with the Company's tenements in the region (refer to the Company's Quarterly Activities Report lodged with ASX on 30 April 2018). The implementation plan and the "reserved areas" may affect the manner in which the Company can undertake operations on its tenements in the Northern Territory. The Company holds

Exploration Permits 171, 174, 176, 190, 191 and 192 in the McArthur Basin, Northern Territory, which are considered highly prospective for large shale oil and gas resources.

(e) **Uncertainty of development of projects and exploration risk**

Oil and gas exploration and development are high risk undertakings and involve significant risks. The Company's performance depends on the successful exploration and/or acquisition of resources or reserves and commercial production therefrom. There can be no assurances that the Company's exploration programs relating to any projects or tenements that the Company has or may acquire in the future, will result in the discovery of a significant gas and/ or associated liquids target, and even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The Company's potential future earnings, profitability and commercialisation of gas and/ or associated liquids reserves, and resources will be dependent on the successful discovery and subsequent extraction of those resources to the extent that may be required to fulfil commercial obligations.

Successful commodity development and production is dependent on obtaining all necessary consent and approvals and the successful design, construction and operation of efficient gathering, processing and transportation facilities. No assurance can be given that the Company will be able to obtain all necessary consents and approvals in a timely manner, or at all.

Successful commodity development is also dependent on appropriate development and/or expansion of both new and existing facilities required to connect resources to market by the Company and, in certain instances, by third parties. No assurance can be given that the Company can rely on the timely development and/or expansion of such facilities.

(f) **Health and safety risk**

As with any gas and/ or associated liquids project, there are health and safety risks associated with the Company's gas operations in Australia and overseas. The Company manages these risks, through the application of structured health and safety management systems. As the operator of plant and equipment, the Company has specific legislative obligations to ensure that its personnel and contractors operate in a safe working environment.

(g) **Insurance risk**

The Company maintains insurance within ranges of coverage the Company believes to be consistent with industry practice and having regard to the nature of activities being conducted. No assurance, however, can be given that the Company will be able to continue to obtain such insurance coverage at reasonable rates or that any coverage it arranges will be adequate and available to cover any such claims.

(h) **Operational risks and costs**

The Company is currently a producer of oil and gas which is sold under commercial contracts. The Company's immediate plans and objectives are dependent upon a continuation of such production generating operating surpluses to assist the Company in funding its planned expenditure programs. Whether it can do so will depend largely upon an efficient and successful, operation and exploitation of the resources and associated business activities and management of commercial factors.

Operation and exploitation may from time to time be hampered on occasions by unforeseen operating risks, as would any other industry. For example, force majeure events, power outages, critical equipment or pipe failures, and environmental hazards such as noise, odours, gas leaks, hazardous substances spills, other weather events, industrial accidents and other accidents, unforeseen cost changes and other incidents beyond the control of the Company can negatively impact on the Company's activities, thereby affecting its profitability and ultimately, the value of its securities.

Ultimate success depends on the discovery and delineation of economically recoverable mineral resources, establishment of efficient exploration operations, obtaining necessary titles and access to projects, as well as government and other regulatory approvals.

The exploration and mining activities of the Company may be affected by a number of factors, including but not limited to geological conditions; seasonal weather patterns; equipment difficulties and failures, technical difficulties and failures; continued availability of the necessary technical equipment, plant and appropriately skilled and experienced technicians; improper, defective and negligent use of technical plant and equipment; improper, defective and negligent conduct by employees, consultants and contractors; adverse changes in government policy or legislation; and access to the required level of funding.

(i) **Competition risk**

The gas and associated liquids industry that the Company is involved in is highly competitive in Australia. Although the Company will undertake all reasonable due diligence in its business decisions and operations, the Company will have no influence or control over the activities or actions of its competitors, which may positively or negatively affect the operating and financial performance of the Company's projects and business. There can be no assurance that the Company can compete effectively with numerous other gas and associated liquids companies in the search for gas and associated liquids reserves and resources.

(j) **Business risks**

There are risks inherent in doing business, such as unexpected changes in regulatory requirements, trade barriers, longer payment cycles, problems in collecting accounts receivable, network and infrastructure issues and potentially adverse tax consequences, any of which could adversely impact on the success of the Company's operations.

(k) **Contractual and joint venture risks**

The Company's ability to efficiently conduct its operations in a number of respects depends upon third party product and service providers and contracts. Accordingly, in some circumstances, contractual arrangements have been entered into by the Company and its subsidiaries. As in any contractual relationship, the ability for the Company to ultimately receive benefits from these contracts is dependent upon the relevant third party complying with its contractual obligations.

To the extent that such third parties default in their obligations, it may be necessary for the Company to enforce its rights under any of the contracts and pursue legal action. Such legal action may be costly, and no guarantee can be given by the Company that a legal remedy will ultimately be granted on appropriate terms.

Additionally, some existing contractual arrangements have been entered into by the Company and its subsidiaries may be subject to the consent of third parties being obtained to enable the Company to carry on all of its planned business and other activities and to obtain full contractual benefits.

No assurance can be given that any such required consent will be forthcoming. Failure by the Company to obtain such consent may result in the Company not being able to carry on all of its planned business and other activities or proceed with its rights under any of the relevant contracts requiring such consent.

A number of the Company's projects are already the subject of joint venture arrangements. Additionally, the Company may wish to develop its projects or future projects through further joint venture arrangements. Any joint ventures entered into by, or interests in joint ventures assigned to, the Company could be affected by the failure or default of any of the joint venture participants.

(l) **Product sales, commodity prices and transportation**

The Company's potential future revenues will be derived mainly from the sale of gas and/or associated liquids. Consequently, the Company's potential future earnings, profitability and growth are likely to be closely related to both the price of gas and associated liquids and the cost to extract, process and transport the gas and/or associated liquids to the market. Whilst the Company has entered into gas sale agreements with Australian Pacific LNG Marketing Pty Ltd (**APLNG**), there can be no assurance that the Company will ultimately be able to sell or transport the gas and/or associated liquids that it produces on commercial terms to APLNG or other parties. Gas is a traded commodity in Australia and its long-term price may rise or fall. In other jurisdictions, gas prices may be regulated or subject to regulation, that could cause prices to be lower than the cost of production.

Gas transport prices in open access transmission gas pipelines are subject to available capacity and are generally subject to regulation in Australia although gas transport capacity is also a traded commodity particularly when capacity is restricted. This can result in gas transport prices that are higher than regulated or, in the worst case, delay to or even inability to transport at an economic price.

Additionally, the Company's prospects and perceived value will be influenced from time to time by the prevailing short-term prices of the commodities targeted in its exploration programs. Commodity prices fluctuate and are affected by factors including supply and demand for mineral products, hedge activities associated with commodity markets, the costs of production and general global economic and financial market conditions.

Commodity prices are also affected by the outlook for inflation, interest rates, currency exchange rates and supply and demand factors. These factors may have an adverse effect on the Company's exploration and any subsequent development and production activities, as well as its ability to fund its future activities.

These factors may cause volatility which in turn, may affect the Company's ability to finance its future exploration and/or bring the Company's products to market.

(m) **Tenements**

A failure to adhere to the requirements to exceed certain levels of expenditure on concessions and tenements held by the Group in various jurisdictions may make certain concessions and tenements subject to possible forfeiture. All granted concessions and tenements (with the exception of ATP 2028 and ATP 2029, and Petroleum Lease 21 (PL21) which are discussed below) are currently in good standing and, in accordance with normal industry practice, the Company surrenders some or all un-prospective parts of its concessions and tenements at the appropriate time so as to manage its minimum expenditure obligations and to retain the capacity to apply for additional prospective areas.

In respect of granted tenements, no assurance can be given that the Company will be successful in managing its minimum expenditure obligations and retaining such tenements and no assurance can be given that the Company will be successful in being awarded the tenements sought under its tender.

On 29 July 2019, the Company lodged 4 applications to declare a potential commercial area over ATP 2028 and on 30 July 2019, the Company lodged a further application to declare a potential commercial area over ATP 2029 (together the **PCA Applications**). On 30 July 2019, the Company lodged a renewal of ATP 2028 and ATP 2029 beyond the maximum statutory period of 12 years (**Renewal Applications**). Both ATPs took effect on 1 August 2007 and consequently were due to expire on 31 July 2019, however they continue in force by virtue of the PCA Applications. Despite the Company making further submissions to the relevant government authority, on 28 May 2020 the PCA Applications were refused.

As at the date of this Prospectus, the Company has lodged an application in the Land Court to appeal the decision to refuse the PCA Applications. However, there can be no guarantee that such appeal will be successful. If the appeal is unsuccessful, ATP 2028 and ATP 2029 will lapse.

Petroleum Lease PL21 (PL21) was granted on 21 April 1983 and was due to expire on 18 April 2019. By way of transfer of the Kincora assets from Origin to Armour, Armour obtained PL21 on or around September 2015.

On 17 April 2019, the Company made an application to renew the existing PL21 (**PL(A)1071 Application**). This PL(A)1071 Application forms part of a project based Later Development Plan (**LDP**) over the Kincora Project area. However, at the time of the PL(A)1071 Application, the Company has not completed its work program under PL21. On 13 September 2019, the Company received a request for additional information from the DNRME in relation to other petroleum leases application as part of the Kincora Project and more generally. On 20 November 2019 the Company provided information to DNRME in response to the notices.

At the date of this Prospectus, DNRME have not yet provided a response on the PL(A)1071 Application (or the rest of the LDP). In the event that the PL(A)1071 Application is approved, it is possible that conditions may be attached to the PL(A)1071 Application in respect of the uncompleted work program for PL21. In the event that DNRME rejects the PL(A)1071 Application, PL21 may be at risk of forfeiture, subject to any review or appeal rights the Company may have under the relevant legislation.

(n) **Unforeseen expenses**

The Company's cost estimates and financial forecasts include appropriate provisions for material risks and uncertainties and are considered to be fit for purpose for the proposed activities of the Company. If risks and uncertainties prove to be greater than expected, or if new currently unforeseen material risks and uncertainties arise, the expenditure proposals of the Company are likely to be adversely affected.

(o) **Additional requirements for capital**

The Company's capital requirements depend on numerous factors. Depending on such factors as:

- (1) the continuation of receipt of operating revenue from producing wells; and
- (2) the outcome of the Company's exploration programs,

the Company may require further financing.

Any additional equity financing will dilute shareholdings and debt financing (if available) and may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programs. In addition, the Company's ability to continue as a going concern may be diminished.

There is no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company and such circumstances will adversely affect the Company.

(p) **Contractors**

The Company is dependent on contractors and suppliers to supply vital services to its operations. The Company is therefore exposed to the possibility of adverse developments in the business

environments of its contractors and suppliers. Any disruption to services or supply may have an adverse effect on the financial performance of the Company.

(q) Reliance on key personnel and employees

In formulating its exploration programs, the Company relies to a significant extent upon the experience and expertise of the Directors and management.

These persons possess knowledge of many of the Company's tenements through extensive personal experience of prospecting in those areas.

Although information concerning the Company's tenements has been chronicled, the loss of one or more of these key personnel may adversely affect the Company's prospects of pursuing its exploration programmes within the timeframes and within the cost structure currently envisaged. Although the key personnel have a considerable amount of experience and have previously been successful in their pursuits of important prospecting discoveries, there is no guarantee or assurance that they will be successful in their objectives pursuant to this Company.

The ability of the Company to achieve its objectives depends on being able to both recruit and retain certain key employees, skilled operators and tradespeople. Whilst the Company has entered into employment contracts with key employees, the retention of their services cannot be guaranteed. The loss of, or inability to recruit, key employees or skilled operators and tradespeople could significantly affect the performance of the Company's operations.

(r) Investment speculative

Potential investors should consider that an investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for Quoted Options.

(s) Australian Native Title risk and Aboriginal Cultural Heritage

The *Native Title Act 1993* (Cth) recognises certain rights of indigenous Australians over land where those rights have not been extinguished. These rights, where they exist, may impact on the ability of the Company to carry out exploration and in future, mining activities, or obtain exploration or mining licences in Australia. In applying for licences over crown land, the Company must observe the provisions of Native Title legislation.

In Queensland, the *Aboriginal Cultural Heritage Act 2003* (Qld) and the *Torres Strait Islander Cultural Heritage Act 2003* (Qld) (which commenced on 16 April 2004) impose duties of care which require persons, including the Company, to take all reasonable and practical measures to avoid damaging or destroying Aboriginal cultural heritage.

In carrying out exploration and/or mining operations, the Company must observe Native Title legislation (where applicable), Aboriginal heritage legislation and heritage legislation which protects sites and objects of significance and these may delay or impact adversely on the Company's operations in Australia.

(t) Environmental risks

The Company's projects are subject to laws and regulations in relation to environmental matters. As a result, there is the risk that the Company may incur liability under these laws and regulations. The Company proposes to comply with applicable laws and regulations and conduct its programs in a responsible manner with regard to the environment.

(u) **Funding**

The Company must undertake significant capital expenditures in order to conduct its development appraisal and exploration activities. Limitations on the access to adequate funding could have a material adverse effect on the business, results from operations, financial condition and prospects. The Company's business and, in particular development of large-scale projects, relies on access to debt and equity funding. There can be no assurance that sufficient debt or equity funding will be available on acceptable terms or at all.

Furthermore, should the Company be able to access debt there is a risk of default, either where the Company cannot make the required payments or from a 'technical default' in which certain conditions of the existing debt securities are not met, which may result in a range of actions being undertaken by any secured lender, including the appointment of administrators or receivers.

The Company endeavours to ensure the best source of funding is obtained to maximise shareholder value, having regard to prudent risk management supported by economic and commercial analysis of all business undertakings.

(v) **Kincora Project Reliance Risk**

The Company's key operating asset is the Kincora Project which restarted production in December 2017. The Company derives significant operating revenues from the Kincora Project.

The Company's operations at the Kincora Project may from time to time be hampered on occasions by unforeseen operating risks. Should an event occur which forced the closure of, or otherwise disrupted or interrupted, the Kincora Gas Plant for a material period of time, it would likely have a significant impact on the Company's commercial contracts and the operating revenue and ultimate funds available to the Company.

In particular, events such as force majeure events, power outages, critical equipment or pipe failures, and environmental hazards such as noise, odours, gas leaks, hazardous substances spills, other weather events, industrial accidents and other accidents, unforeseen cost changes and other incidents beyond the control of the Company could negatively impact on the Company's activities at the Kincora Project, thereby affecting its profitability and ultimately, the value of its securities.

The Company maintains insurance within ranges of coverage the Company believes to be consistent with industry practice and having regard to the nature of activities being conducted at the Kincora Gas Plant. No assurance, however, can be given that the Company will be able to continue to obtain such insurance coverage at reasonable rates or that any coverage it arranges will be adequate and available to cover any such claims.

3.3 **General Risks**

(a) **Market Risk**

The market price of listed securities can be expected to rise and fall in accordance with general market conditions and factors specifically affecting the Australian resources sector and exploration companies in particular. The Quoted Options carry no guarantee in respect of profitability, dividends, return on capital, or the price at which they may trade on the ASX.

There are a number of factors (both national and international) that may affect the market price and neither the Company nor its Directors have control of those factors.

(b) **General Economic Conditions**

Changes in the general economic climate in which the Company operates may adversely affect the financial performance of the Company. Factors that may contribute to that economic climate include the general level of economic activity, interest rates, inflation, supply and demand, industrial disruption and other economic factors. The price of commodities will also be of particular relevance to the Company. These factors are beyond the control of the Company and the Company cannot, with any degree of certainty, predict how they will impact on the Company.

(c) **Industrial Risk**

Industrial disruptions, work stoppages and accidents in the course of the Company's operations could result in losses and delays, which may adversely affect profitability.

(d) **Management actions**

The Directors will, to the best of their knowledge, experience and ability (in conjunction with management) endeavour to anticipate, identify and manage the risks inherent in the activities of the Company, but without assuming any personal liability for same, with the aim of eliminating, avoiding and mitigating the impact of risks on the performance of the Company and its securities.

(e) **Taxation and royalties**

In all places where the Company has operations, in addition to the normal level of income tax imposed on all industries, the Company may be required to pay government royalties, indirect taxes, goods and services tax and other imposts which generally relate to revenue or cash flows. Industry profitability can be affected by changes in government taxation policies.

In Australia, the Federal Government introduced the Petroleum Resources Rent Tax (**PRRT**) to tax profits generated from the exploitation of onshore oil and gas projects, to apply from 1 July 2012. It is possible that the PRRT may adversely affect the Company to the extent that the PRRT applies to gas and associated liquids produced and sold by the Company from onshore production.

The Company may also be required to pay private royalties which may be affected by a number of factors including Government taxation and royalties, commodity prices and eligible deductions such as certain Company expenses. Profitability can be affected by changes to private royalties.

(f) **Legislative change**

Changes in government regulations and policies may adversely affect the financial performance or the current and proposed operations generally of the Company.

(g) **Foreign exchange**

Foreign exchange rates fluctuate over time. Fluctuating exchange rates have a direct effect on the Company's operating costs and cash flows expressed in Australian dollars. The Company does not currently have any formal currency hedging in place, which means that adverse changes to foreign exchange rates may have an adverse effect on the Company and its business.

(h) **Resource estimates**

Resource estimates are not precise and involve expressions of judgement based on knowledge, experience and industry practice. Estimates, which were valid when made, may change significantly when new information becomes available. In addition, resource estimates depend to a significant extent on interpretation of geological boundaries, which may prove to be inaccurate. Should the

company encounter unusual mineralisation to that predicted by past drilling and mining, resource estimates may have to be adjusted and feasibility studies may have to be altered in a way that could either benefit or adversely affect the Company's financial projections.

(i) **Speculative nature of investment**

The above list of risk factors is not to be taken as exhaustive of the risks faced by the Company or by Shareholders in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Quoted Options.

Accordingly, the Quoted Options carry no guarantee with respect to the payment of dividends, returns, returns of capital or market value at any time. Applicants should consider that an investment in the Company is highly speculative and should consult their professional advisers.

4. Additional information

4.1 Transaction specific prospectus

The Company is a disclosing entity and therefore subject to regular reporting and disclosure obligations under the *Corporations Act*. Under those obligations, the Company is obliged to comply with all applicable continuous disclosure and reporting requirements in the ASX Listing Rules.

This Prospectus is issued under section 713 of the *Corporations Act*. This section enables disclosing entities to issue a prospectus in relation to securities in a class of securities which has been quoted by ASX at all times during the three months before the date of the Prospectus or options to acquire such securities. Apart from formal matters this Prospectus need only contain information relating to the terms and conditions of the Offers, the effect of the Offers on the Company and the rights and liabilities attaching to the securities offered.

Copies of the documents lodged by the Company with ASIC may be obtained from or inspected at an office of ASIC.

The Company will provide a copy of any of the following documents, free of charge, to any person who asks for a copy of the document before the Closing Date in relation to this Prospectus:

- (a) annual financial report for the period ending 30 June 2019 (and when lodged, the annual financial report for 30 June 2020);
- (b) reviewed half-yearly financial statements for the Company for the periods ending 31 December 2018 and 31 December 2019; and
- (c) any other financial statements lodged in relation to the Company with ASIC and any continuous disclosure notices given by the Company to ASX, in the period starting immediately after lodgement of the annual financial report for the Company for the period ended 30 June 2019 and ending on the date of lodgement of this Prospectus with ASIC.

4.2 ASX Information and Share and Quoted Options information

The ASX Announcements that the Company has made since 30 September 2019 are set out in Appendix A of this Prospectus. Copies of ASX announcements made by the Company may be obtained on the ASX website or the Company's website: www.armourenergy.com.au.

The highest and lowest prices of the Shares on the ASX in the six-month period before the date of this Prospectus and the respective periods of those sales are set out below.

	High	Low	Volume weighted average
	\$	\$	\$
One month	\$0.026	\$0.019	\$0.022
Three months	\$	\$0.018	\$0.021
Six months	\$0.042	\$0.018	\$0.023

The last market sale price of Shares as at 25 September 2020 was \$0.021.

The highest and lowest prices of the Quoted Options on the ASX in the period since their quotation on 13 August 2020 and before the date of this Prospectus, and the respective periods for those sales are set out below.

	High	Low
	\$	\$
One month	\$0.012	\$0.005
Since 13 August 2020	\$0.012	\$0.004

The last market sale price of Quoted Options as at 13 September 2020, the last day the options traded before lodgement, was \$0.012.

4.3 Rights and liabilities attaching to Shares

The rights and liabilities attaching to Shares to be issued upon exercise of the Quoted Options being offered pursuant to this Prospectus are set out in the Company's Constitution, a copy of which is available for inspection at the registered office of the Company during business hours and on the Company's Website. The following is a summary of the principal rights and liabilities of holders of Shares, subject to any special rights attaching to any class of share at a future time. This summary is not exhaustive, nor does it constitute a definitive statement of the rights and liabilities of the Company's Shareholders.

(a) Voting

At a general meeting of the Company on a show of hands, every member present in person or by proxy, attorney or representative has one vote and upon a poll, every member present in person, or by proxy, attorney or representative has one vote for every Share held by them.

(b) Dividends

The Shares will rank equally with all other issued Shares in the capital of the Company and may participate in dividends from time to time. Subject to the rights of holders of Shares of any special preferential or qualified rights attaching thereto, dividends are payable amongst the holders of Shares in proportion to the amounts paid up on such Shares respectively at the date of declaration of the dividend. The Directors may from time to time pay to Shareholders such final and interim dividends as in their judgment the position of the Company justifies.

(c) Winding up

Fully paid ordinary Shareholders will have no further liability to make payments to the Company in the event of the Company being wound up pursuant to the provisions of the Corporations Act.

(d) Transfer of Securities

Generally, the Shares will be freely transferable, subject to satisfying the usual requirements of security transfers on ASX. The Directors may decline to register any transfer of Shares, but only where permitted to do so under its Constitution and the Listing Rules (as applicable).

(e) Future increases in capital

The allotment and issue of any new Shares is under the control of the Directors. Subject to the Listing Rules, the Company's Constitution and the Corporations Act, the Directors may allot or otherwise dispose of new Shares on such terms and conditions as they see fit.

(f) Small Holder Disposal

The Company may take steps in respect of non-marketable holdings of Shares in the Company to effect an orderly sale of those Shares in the event that holders do not take steps to retain their holdings.

The Company may only take steps to eliminate non-marketable holdings in accordance with the Constitution and the Listing Rules. For more particular details of the rights attaching to Shares in the Company, investors should refer to the Constitution of the Company.

For more particular details of the rights attaching to ordinary shares in the Company, investors should refer to the Constitution of the Company.

4.4 Quoted Option terms

The Quoted Options will be issued:

- (b) with an exercise price of \$0.05 for each Quoted Option;
- (c) with an expiry date of 29 February 2024 unless earlier exercised; and
- (d) otherwise on the terms and conditions set out in Schedule 1.

4.5 Corporate Governance

The Company has adopted a Corporate Governance Charter which can be obtained, at no cost, from the Company's registered office and is also available on the Company's Website.

The Company reports on its compliance with the recommendations made by the Corporate Governance Principles and Recommendations annually. Where the Company's corporate governance practices do not correlate with the practices recommended by the ASX Corporate Governance Council, the Company is working towards compliance however it does not consider that all practices are appropriate for the Company due to the size and scale of the Company operations.

4.6 Directors' interests

The nature and extent of the interest (if any) that any of the Directors of the Company holds, or held at any time during the last two years in:

- (a) the formation or promotion of the Company;

(b) property acquired or to be acquired by the company in connection with:

(1) its formation or promotion;

(2) the Offer; or

(c) the Offer,

is set out below or elsewhere in this Prospectus.

Other than as set out below or elsewhere in this Prospectus, no one has paid or agreed to pay any amount, and no one has given or agreed to give any benefit to any director or proposed director:

(a) to induce them to become, or to qualify as, a Director of the Company; or

(b) for services provided by a director in connection with:

(1) the formation or promotion of the Company; or

(2) the Offer.

Set out below are details of the interest of the Directors (and their Associates) in the securities of the Company immediately prior to lodgement of the Prospectus with the ASIC. Interest includes those securities held directly and indirectly.

Director	No of Shares	No of Options ¹	No of Notes
Nicholas Mather	6,169,912	1,260,971	Nil
Stephen Bizzell	13,287,066	11,814,005	100
Roland Sleeman	58,333	Nil	Nil
Eytan Uliel	Nil	Nil	Nil

Note 1: includes both listed and unlisted Options.

4.7 Directors' Fees

The total maximum remuneration of non-executive Directors is set by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director. The current amount has been set at an amount not to exceed \$500,000 per annum.

A Director may be paid fees or other amounts as the other Directors determine where a Director performs special duties or otherwise performs services outside the scope of the ordinary duties of a Director. In addition, Directors are also entitled to be paid reasonable travelling, hotel and other expenses incurred by them respectively in or about the performance of their duties as Directors.

As announced to the ASX on 27 April 2020, in response to the Covid-19 pandemic from 27 April 2020 the Executive Chairman and Non-Executive Directors will reduce their fees by 20%. This reduction currently remains in place and will be reviewed as required. Future consideration will be given to the partial payment of Director fees in shares, subject to any necessary shareholder and regulatory approvals.

Set out below is the remuneration paid to the current Directors of the Company and their associated entities for the past two financial years.

Directors' remuneration for the financial year ended 30 June 2020:

Director	Salary/Fees/Non-cash benefits	Equity Settled Shares	Superannuation	Total
Nicholas Mather	203,000	0	0	203,000
Stephen Bizzell	48,333	0	0	48,333
Roland Sleeman	48,333	0	0	48,333
Eytan Uliel	48,333	0	0	48,333

Directors' remuneration for the financial year ended 30 June 2019:

Director	Salary/Fees/Non-cash benefits	Equity Settled Shares	Superannuation	Total
Nicholas Mather	210,000	0	0	210,000
Stephen Bizzell	50,000	0	0	50,000
Roland Sleeman	50,000	0	0	50,000
Eytan Uliel	50,000	0	0	50,000
William (Bill) Stubbs*	20,833	0	0	20,833

*Mr Stubbs retired on 27 November 2018.

The Board considers that these fees are reasonable remuneration pursuant to section 211 of the Corporations Act and accordingly, member approval is not required.

The Directors will not participate in the Offer.

4.8 Related party transactions

From time to time the Company may be party to transactions with related parties including:

- (a) employment and service arrangements; and
- (b) payment of Directors fees; and
- (c) the issue of options.

The Company believes that it has made appropriate disclosure of past related party transactions and other than any further disclosure specifically set out below or made elsewhere in this Prospectus does not intend to make any further disclosure of such transactions which transactions will have either proceeded on an "arm's length" basis, reasonable remuneration basis or been approved by shareholders in general meeting.

The Company discloses the following transactions with related parties which have either proceeded on an "arm's length" or reasonable remuneration basis or have been approved by Shareholders in general meeting.

The transactions are:

- (a) employment agreement with Samuel Holdings Pty Ltd and remuneration payable to the Executive Chairman, Nick Mather pursuant to that agreement;

- (b) letter of appointment with the non-executive Directors being Stephen Bizzell, Roland Sleeman and Eytan Uliel;
- (c) the issue of 8,000,000 Options to Bizzell Capital Partners approved at the Annual General Meeting of Shareholders on 26 November 2019;
- (d) the issue of securities as described above in section 1.2 and the payment of fees associated with the Capital Raising, both more specifically referred to in the Entitlement Offer Prospectus dated 15 June 2020 and the Notice of Extraordinary General Meeting dated 18 August 2020.

The Board considers that the remuneration and benefits under (a) and (b) are reasonable remuneration pursuant to section 211 of the Corporations Act and accordingly, member approval is not required. The issue of Options under (c) and Shares and Options under (d) has been approved by shareholders or were otherwise exempt from such approval (for example, participation by directors in respect of their entitlement in the Entitlement Offer).

Payment of Non-Executive Director fees

Each of the Non-Executive Directors of the Company (being Stephen Bizzell, Roland Sleeman and Eytan Uliel) are entitled to be paid a directors' fee in the amount of \$50,000 per annum.

This amount has been reduced to \$40,000 per annum, from 27 April 2020 due to COVID-19. This will be reviewed in due course.

The Board considers that these fees are reasonable remuneration pursuant to section 211 of the Corporations Act and accordingly, member approval is not required.

4.9 Interests of experts and advisers

This section applies to persons named in this Prospectus as performing a function in a professional, advisory or other capacity in connection with the preparation or distribution of this Prospectus, promoters of the Company and stockbrokers or arrangers (but not sub-underwriters) to the Offer (collectively **Prescribed Persons**).

Other than as set out below or elsewhere in this Prospectus, no Prescribed Person has, or has had in the last two years, any interest in:

- (a) the formation or promotion of the Company;
- (b) any property acquired or proposed to be acquired in connection with the formation or promotion of the Company; or
- (c) the Offer under this Prospectus.

Other than that, as set out below or elsewhere in this Prospectus, no benefit has been given or agreed to be given to any Prescribed Person for services provided by a Prescribed Person in connection with the:

- (a) formation or promotion of the Company; or
- (b) the Offer under this Prospectus.

HopgoodGanim Lawyers are acting as legal adviser to the Offer and have performed work in relation to the Prospectus. In doing so, HopgoodGanim Lawyers have placed reasonable reliance upon information provided to them by the Company. HopgoodGanim Lawyers does not make any statement in this Prospectus. In respect of this work, the Company estimates that it will pay approximately \$15,000 (excluding

disbursements and GST) to HopgoodGanim Lawyers. HopgoodGanim Lawyers are the Company's Australian legal advisers and are engaged from time to time by the Company on a variety of matters. Further amounts may be paid to HopgoodGanim Lawyers in accordance with its normal time-based charges.

4.10 **Subsequent events**

There has not arisen, at the date of this Prospectus any item, transaction or event of a material or unusual nature not already disclosed in this Prospectus which is likely, in the opinion of the Directors of the Company to affect substantially:

- (a) the operations of the Company;
- (b) the results of those operations; or
- (c) the state of affairs of the Company.

4.11 **Litigation**

The Company is not engaged in any litigation which has or would be likely to have a material adverse effect on either the Company or its business.

4.12 **Privacy**

By submitting an Application Form you are providing to the Company personal information about yourself. If you do not provide complete and accurate personal information, your application may not be able to be processed.

This information is used to carry out registry functions such as payment of dividends, sending annual and half yearly reports, notices of meetings, newsletters and notifications to the Australian Taxation Office. In addition, contact information will be used from time to time to inform members of new initiatives concerning the Company.

The Company understands how important it is to keep your personal information private. The Company will only disclose personal information we have about you:

- (a) when you agree to the disclosure;
- (b) when used for the purposes for which it was collected;
- (c) when disclosure is required or authorised by law;
- (d) to other members in the Group;
- (e) to your broker;
- (f) to external service suppliers who supply services in connection with the administration of the Company's register such as mailing houses and printers, Australia Post and financial institutions.

Schedule 1 – Quoted Option Terms

The Quoted Options are issued on and subject to the following terms:

1. The exercise price of each Quoted Option is \$0.05 (**Exercise Price**).
2. The Quoted Options will expire on 29 February 2024 (**Expiry Date**) unless earlier exercised.
3. The Quoted Options will be listed on the ASX.
4. The Quoted Options may be exercised at any time wholly or in part by delivering a duly completed form of notice of exercise (**Exercise Notice**) together with payment for the Exercise Price per Quoted Option to the Company at any time on or after the date of issue of the Quoted Options and on or before the Expiry Date. Payment may be made as directed by the Company from time to time, which may include by cheque, electronic funds transfer or other methods.
5. The number of Quoted Options that may be exercised at one time must be not less than 25,000, unless the holder of the Quoted Option holds less than 25,000 Offer Options in which case all Options must be exercised at one time.
6. Within 20 Business Days after the valid exercise of the Quoted Options and payment of the Exercise Price, the Company will:
 - (a) allot and issue the number of fully paid ordinary Shares ranking *pari passu* with the then issued Shares as required under these terms and conditions in respect of the number of Quoted Options specified in the Exercise Notice and for which cleared funds have been received by the Company; and
 - (b) if admitted to the official list of ASX at the time, apply for Official Quotation on ASX of Shares issued pursuant to the exercise of the Quoted Options.
7. Quoted Option Holders do not have any right to participate in new issues of securities in the Company made to Shareholders generally. The Company will, where and only to the extent required pursuant to the Listing Rules, provide Quoted Option Holders with notice prior to the books record date (to determine entitlements to any new issue of securities made to Shareholders generally) to exercise the Quoted Options, in accordance with the requirements of the Listing Rules.
8. Quoted Option Holders do not participate in any dividends unless the Quoted Options are exercised, and the resultant Shares of the Company are issued prior to the record date to determine entitlements to the dividend.
9. In the event of any reorganisation (including consolidation, subdivision, reduction or return) of the issued capital of the Company:
 - (a) the number of Quoted Options, the Exercise Price of the Offer Options, or both will be reorganised (as appropriate) in a manner consistent with the Listing Rules as applicable at the time of reorganisation, but with the intention that such reorganisation will not result in any benefits being conferred on the Quoted Options Holders are not conferred on Shareholders; and
 - (b) subject to the provisions with respect to rounding of entitlements as sanctioned by a meeting of shareholders approving a reorganisation of capital, in all other respects the terms for the exercise of the Quoted Options will remain unchanged.
10. If there is a pro rata issue (except a bonus issue), the Exercise Price of the Quoted Options may be reduced according to the following formula:

$$O^n = O - \frac{E [P - (S + D)]}{N + 1}$$

Where:

O^n = the new exercise price of the Quoted Option;

O = the old exercise price of the Quoted Option;

E = the number of underlying securities into which one Quoted Option is exercisable;

P = the volume weighted average market price per security of the underlying securities during the 5 trading days ending on the day before the ex-right date or the ex-entitlements date;

S = the subscription price for a security under the pro rata issue;

D = dividend due but not yet paid on the existing underlying securities (except those to be issued under the pro rata issue);

N = the number of securities with rights or entitlements that must be held to receive a right to one new security.

11. If there is a bonus issue to the Shareholders of the Company, the number of Shares over which the Quoted Option is exercisable may be increased by the number of Shares which the Quoted Option Holder would have received if the Quoted Option had been exercised before the record date for the bonus issue.
12. The terms of the Quoted Options shall only be changed if Shareholders (whose votes are not to be disregarded) of in the Company approve of such a change. However, unless all necessary waivers of the Listing Rules are obtained, the terms of the Quoted Options shall not be changed to reduce the Exercise Price, increase the number of Quoted Options or change any period for exercise of the Quoted Options.
13. The Company intends to apply for listing of the Quoted Options on the ASX.
