OPERATIONS REVIEW

The Company's securities recommenced trading on the ASX on 28 August 2019 following the acquisition of a number of automotive business collectively known as the RPM Automotive Group ("RPM Group") and meeting the admission requirements set out in Chapters 1 and 2 of the ASX Listing Rules.

The RPM Group offers a nationwide footprint focusing on wholesale distribution and retail of tyres, auto parts and accessories and owns a variety of well-known and respected brands in the automotive market. The RPM Group is a group of businesses operating in the Australian automotive aftermarket.

The year in review for each of the divisions are as follows:

Motorsport

This Division has been affected by the COVID-19 with stores been temporarily closed during March and April 2020. However internet sales have continued over this period and with the restart of the motor racing, we have seen sales now returning to this Division. For the year ended 30th June 2020, Gross Sales were \$5,172,986 (2019 \$7,707,727) and Net Operating Profit of \$167,930 (2019 \$970,881)

Repairs and Roadside

Repairs and Roadside has continued to trade strongly with our Roadside and Repairs business concentrating on supplying goods and services to the Transport industry over this period. During the year, the Division expanded with the acquisition of Metcher Tyres and Competition Tyres – Hallam. Our retail outlets have been operating on reduced hours where applicable and we have reduced our labour costs in line with the lesser hours of trade. For the year ended 30th June 2020 the Repairs and Roadside Division Gross Sales were \$12,058,683 and Net Operating Profit of \$364,385.

Wheels and Tyres

Wheels and Tyres is our wholesale tyre division concentrating on the supply of Truck and Heavy Plant and Equipment tyres to retailers. This Division has had incremental growth over the past year and was able to have continued supply of inventory out of China during the COVID-19 lock down period in March/April 2020. Management is working on inventory levels and margins to improve the future results. For the year ended 30th June 2020, the Wheels and Tyres Division Gross Sales were \$12,035,092 and Net Operating Profit of \$661,618.

Performance & Accessories

Our accessories division has continued to trade profitable over the past year. The COVID-19 has affected sales however Management has taken steps in relation to reducing labour and material costs. Our Wildcat manufacturing site has had continued growth through web-based sales and has strong back orders leading into the new financial year. For the year ended 30th June 2020, the Accessories Division Gross Sales were \$3,203,178 and Net Operating Profit of \$673,993.

Directors' Report

The Directors present their report on RPM Automotive Group Limited ("RPM" or "the Company") and its controlled entities ("the Group") for the year ended 30 June 2020.

DIRECTORS

The names of the Directors of the Company in office during the financial year and up to the date of this report were as follows. Directors were in office for the entire year unless specified otherwise.

Grant Carman (appointed 25 November 2019)
Clive Finkelstein (appointed 28 August 2019)
Lawrence Jaffe (appointed 28 August 2019)
Wei Liu (appointed 20 February 2020)
Alex Goodman (appointed 18 February 2020)
Campbell Welch (resigned 18 February 2020)
Scott Brown (resigned 22 November 2019)
Robert Downey (resigned 28 August 2019)

INFORMATION ON CURRENT DIRECTORS

Grant Carman (appointed 25 November 2019)

Grant Carman is a chartered accountant with over 30 years' experience in corporate finance and the Australian Capital Markets. Grant has held senior executive positions for and acted as a corporate adviser to a large number of Australian and international companies from a range of industry sectors, including financial services, automotive, pharmaceuticals, wholesale distribution, manufacturing, services, resources, technology and telecommunications.

His previous corporate roles include Chief Financial Officer at ORIX Australia, General Manager Finance & Shared Services at National Australia Bank, CEO at National Australia Corporate Advisory, Director of Acquisitions at Ferrier Hodgson CA, Finance Director at Australian Envelopes and Group Financial Controller at Faulding.

Grant is Director – Capital Markets Group for Melbourne-based, D H Flinders Corporate Advisory. He specializes in mergers and acquisitions and raising corporate finance for listed and pre-IPO companies.

Grant has a broad range of experience which includes corporate strategy, mergers & acquisitions, business divestments, corporate restructuring, debt & equity raising and refinancing, corporate valuations, corporate governance and risk management.

During the past three years, Mr Carman has held no other listed company directorships.

Clive Finkelstein (appointed 28 August 2019)

Clive is a co-founder and promoter of the RPM Group. Clive has over 20 years' experience in the automotive sector, having built, managed and sold a successful 4WD franchise group. Clive's experience spans manufacturing, development, wholesale, retail and franchising of automotive businesses. Clive is a significant shareholder in the RPM Group.

During the past three years, Mr Finkelstein has held no other listed company directorships.

Lawrence Jaffe (appointed 28 August 2019)

Lawrence is a co-founder and promoter of the RPM Group. Lawrence has a strong financial background having worked on many Mergers & Acquisitions. He has over 20 years' experience in the automotive sector and was the CEO of RPM Australasia until 2015 when the group sold off one of its subsidiaries. Lawrence remained on as non-executive chairman of RPM Australasia and has now re-joined the executive team. Lawrence is a significant shareholder in the RPM Group. Lawrence is also the chairman and shareholder of one of Australia's leading flexible packaging companies which is a private company.

During the past three years, Mr Jaffe has held no other listed company directorships.

Wei Liu (appointed 20 February 2020)

Wei has a passion and strong practical work experience in the automotive and tyres industry.

Wei is the founder of Spider GT, which he established in 2012 to import tyres from China to Australia for wholesale into the Australian market. To achieve the success of the business, Wei and the team at Spider GT have used a combination of traditional marketing but also incorporating new marketing pipelines through social media platforms and other digital marketing techniques.

During the past three years, Mr Liu has held no other listed company directorships.

DIRECTORS' REPORT

Alex Goodman (appointed 18 February 2020)

Alex has a strong background in Private Equity, business expansion of Private Companies and Executive Management in Global Companies such as IBM, Lotus (Boston) and Amdahl (Silicon Valley).

Alex worked in Jagen P/L, the Family Office of the Liberman Family and sat as a Director, on a number of boards which included activities such as Investment Management and Mergers and Acquisitions.

He also constructed Acquisitions with key investors, including some of Australia's leading Investor families.

After working in IBM with the Australian financial sector, Alex took on roles in Australian Start-ups bringing many to successful exits, or organic growth.

Alex holds a BSc with Double Major in Applied Mathematics & Computer Science.

During the past three years, Mr Goodman has held no other listed company directorships.

INFORMATION ON FORMER DIRECTORS

Campbell Welch (resigned 18 February 2020)

B.Com

Non-Executive Chairman

Mr Welch has over 15 years of experience in accounting and financial markets, both in Australia and the UK. He is currently a senior advisor at Novus Capital Ltd, a boutique corporate advisory and share dealing firm headquartered in Sydney, Australia. His prior work experience includes appointments at AMP, Challenger Ltd, Royal London Asset Management and Colonial First State. He holds a Bachelor of Commerce from the University of Sydney and is a candidate in the CFA Institute program.

During the past three years, Mr Welch has held the following other listed company directorships:

- Shine Metals Limited (27 September 2017 to present)

Scott Brown (resigned 22 November 2019)

B. Bus, M. Com

Non-Executive Director

NATURE OF OPERATIONS AND PRINCIPAL ACTIVITIES

The principal activities of the Company during the financial year was the involvement in the wholesale distribution and retail of tyres, auto parts and accessories and owns a variety of well-known and respected brands in the automotive market.

OPERATING AND FINANCIAL REVIEW

Operating Activities

A review of the operations of the Group is contained in the Operations Review.

SUMMARY OF COMPREHENSIVE INCOME

The Group's consolidated loss after tax for the financial year was \$ 1,512,230 (2019: profit of \$637,787).

EARNINGS PER SHARE

The basic loss per share from continuing operations was (1.99) cents.

SUMMARY OF FINANCIAL POSITION

At 30 June 2020 the Group's cash reserves were \$2,083,173 (2019: \$81,334).

DIVIDENDS PAID OR RECOMMENDED

No dividend was paid or declared by the Company in the period since the end of the previous financial year and up to the date of this report.

CHANGES IN THE STATE OF AFFAIRS

In 2018 RPM Automotive Group Limited (formerly Kairiki Energy Limited) ("RPM1") entered into binding agreements to acquire 100% of the businesses that comprise the RPM Group. The proposed transaction enabled the RPM Group to obtain listing on the ASX via a Reverse Take-Over (RTO) of the Company. The vendors of the businesses being acquired received a mixture of shares in the Company and cash as consideration for the acquisitions. As a part of the proposed transaction the Company changed its name from Kairiki Energy Limited to RPM Automotive Group Limited. Refer note 2 for further details.

SIGNIFICANT EVENTS AFTER THE END OF THE REPORTING PERIOD

No matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years other than:

- Acquisitions of additional businesses CITIC Autoparts Pty Ltd and Gully Mobile Tyres

FUTURE DEVELOPMENTS

RPM is committed to developing its existing businesses which is the wholesale distribution and retail tyres, auto parts and accessories. The Company will continue looking for other opportunities to add to its existing businesses.

REMUNERATION REPORT (AUDITED)

This report outlines the remuneration arrangements for Directors and Executives of RPM Automotive Group Limited. The information provided in the remuneration report includes remuneration disclosures that are audited as required by section 308(3C) of the Corporations Act 2001.

For the purposes of this report Key Management Personnel of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the group, directly or indirectly, including any director (whether executive or otherwise) of the parent company.

For the purposes of this report the term "Executive" includes those key management personnel who are not Directors of the parent company.

Remuneration Committee

The full Board carries out the role and responsibilities of the Remuneration Committee and is responsible for determining and reviewing the compensation arrangements for the Directors themselves, the Managing Director and any Executives.

Executive remuneration is reviewed annually having regard to individual and business performance, relevant comparative remuneration and internal and independent external advice.

A. Remuneration policy

The board policy is to remunerate Directors at market rates for time, commitment and responsibilities. The board determines payments to the Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of Directors' fees that can be paid is subject to approval by shareholders in general meeting, from time to time. The Company's aim is to remunerate at a level that will attract and retain high-calibre Directors and employees.

Fees for Non-Executive Directors are not linked to the performance of the consolidated entity. However, to align Directors' interests with shareholders' interests, the Directors are encouraged to hold shares in the Company. All remuneration paid to directors is valued at the cost to the Company and expensed.

The Board believes that it has implemented suitable practices and procedures that are appropriate for an organisation of this size and maturity.

The Company did not pay any performance-based component of remuneration during the year.

B. Remuneration structure

In accordance with best practice corporate governance, the structure of Non-Executive Director compensation is separate and distinct.

Non-Executive Director Compensation

Objective

The Board seeks to set aggregate compensation at a level that provides the Company with the ability to attract and retain Directors of the highest calibre, whilst incurring a cost that is acceptable to shareholders.

Structure

The Constitution and the ASX Listing Rules specify that the aggregate compensation of Non-Executive Directors shall be determined from time to time by a general meeting. An amount not exceeding the amount determined is then divided between the Directors as agreed.

The amount of aggregate compensation sought to be approved by shareholders and the manner in which it is apportioned amongst Directors is reviewed annually. The Board may consider advice from external consultants as well as the fees paid to Non-Executive Directors of comparable companies when undertaking the annual review process. Non-Executive Directors' remuneration may include an incentive portion consisting of options, as considered appropriate by the Board, which may be subject to shareholder approval in accordance with ASX listing rules. The Board is of the view that options are a cost effective benefit for small companies such as RPM that seek to conserve cash reserves. They also provide an incentive that ultimately benefits both shareholders and the option holder, as option holders will only benefit if the market value of the underlying shares exceeds the option strike price. Ultimately, shareholders will make that determination.

Separate from their duties as Directors, the Non-Executive Directors may undertake work for the Company directly related to the evaluation and implementation of various business opportunities, for which they receive a daily rate. These payments are made pursuant to consultancy arrangements entered into by the Non-Executive Directors with the Company and are not taken into account when determining their aggregate remuneration levels.

DIRECTORS' REPORT

Executive Compensation*Objective*

The entity aims to reward Executives with a level and mix of compensation commensurate with their position and responsibilities within the entity so as to:

- reward Executives for company and individual performance against targets set by appropriate benchmarks;
- align the interests of Executives with those of shareholders;
- link rewards with the strategic goals and performance of the Company; and
- ensure total compensation is competitive by market standards.

Structure

In determining the level and make-up of Executive remuneration, the Board negotiates a remuneration to reflect the market salary for a position and individual of comparable responsibility and experience. Due to the limited size of the Company and of its operations and financial affairs, the use of a separate remuneration committee is not considered appropriate. Remuneration is regularly compared with the external market by participation in industry salary surveys and during recruitment activities generally. If required, the Board may engage an external consultant to provide independent advice in the form of a written report detailing market levels of remuneration for comparable Executive roles.

The Company's only Executive's during the years ended 30 June 2020 and 30 June 2019 was the Chief Executive Officer and Company Secretary, who both received fixed remuneration.

Fixed Remuneration

The level of fixed remuneration is set so as to provide a base level of remuneration which is both appropriate to the position and is competitive in the market. Fixed remuneration is reviewed annually by the Board having regard to the Company and individual performance, relevant comparable remuneration in the industry and external advice.

The fixed remuneration is a base salary or monthly consulting fee.

C. Service agreements

There are no formal service agreements with the Non-Executive Chairman or Non-Executive Directors. On appointment to the Board, all Directors receive a letter of appointment that summarises Board policies and terms, which mirror those set out within the Corporations Act 2001 relevant to the office of Director.

D. Company performance

In determining Key Management Personnel remuneration, the Board takes note of the following measures of company performance in respect of the current and previous four financial years.

	2020	2019	2018	2017	2016
Profit/(loss) after tax (A\$'000)	(1,195)	(i)	(i)	(i)	(i)
Closing share price (A\$)	0.135	(i)	(i)	(i)	(i)

- (I) Prior period information is not disclosed here as the company has significantly changed its operations from 2020 financial year onwards due to the reverse takeover transaction completed during this period – refer note 1 to the financial statements for further details.

E. Details of remuneration for year

ENVIRONMENTAL REGULATIONS

The Group's environmental obligations are regulated under both State and Federal laws and regulations. All environmental performance obligations are monitored by the Board and subjected from time to time to Government agency audits and site inspections. The Company has a policy of at least complying with, but in most cases exceeding, its statutory environmental performance obligations. No environmental breaches have occurred or have been notified by any Government agencies during the year ended 30 June 2020 or subsequent to year end.

CORPORATE GOVERNANCE

In recognising the need for the highest standards of corporate behaviour and accountability, the Directors of RPM Automotive Group Limited support and have adhered to the principles of corporate governance and have established a set of policies and manuals for the purpose of managing corporate governance. The Company's detailed corporate governance policy statement is contained in the section headed 'Corporate Governance Statement' of the annual report.

INDEMNITY AND INSURANCE OF OFFICERS AND AUDITORS

The Company does not hold insurance covering Directors and Officers of the Company against any liability arising from a claim brought by a third party against its Directors and Officers, or against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in their capacity as a Director or Officer of the Company, other than conduct involving a wilful breach of duty in relation to the Company.

No Indemnities have been given or insurance premiums paid during or since the end of the financial year, for the auditors of the Group.

NON-AUDIT SERVICES

There were no non-audit services provided during the financial year by the auditor aside from as disclosed in Note 23 to the financial statements

RPM AUTOMOTIVE GROUP LIMITED AND ITS CONTROLLED ENTITIES

CORPORATE GOVERNANCE STATEMENT

The Board of Directors of RPM Automotive Group Limited is responsible for the corporate governance of the Company. The Board guides and monitors the business and affairs of RPM Automotive Group Limited on behalf of the shareholders by whom they are elected and to whom they are accountable. This statement reports on RPM Automotive Group Limited's key governance principles and practices.

1. CORPORATE GOVERNANCE STATEMENT

This Corporate Governance Statement is current as of 28 September 2020 and has been approved by the Board of the Company on that date.

This Corporate Governance Statement discloses the extent to which the Company follows the recommendations set by the ASX Corporate Governance Council in its publication "Corporate Governance Principles and Recommendations" 3rd edition (**Recommendations**). The Recommendations are not mandatory, however, the Recommendations that will not be followed have been identified and reasons provided for not following them along with what (if any) alternative governance practices the Company intends to adopt in lieu of the recommendation.

The Company has adopted a Corporate Governance Plan that provides the written terms of reference for the Company's corporate governance duties that is available on the Company's website at www.rpmgroup.net.au.

Due to the current size and nature of the existing Board, the Board has not established individual Board committees. Under the Board's Charter, the duties that would ordinarily be assigned to individual committees are currently carried out by the full Board under the written terms of reference for those committees.

RECOMMENDATIONS	COMPLY	EXPLANATION
<i>Principle 1: Lay solid foundations for management and oversight</i>		
<p>Recommendation 1.1</p> <p>A listed entity should have and disclose a charter which sets out the respective roles and responsibilities of the Board, the Chair and management, and includes a description of those matters expressly reserved to the Board and those delegated to management.</p>	YES	<p>The Company has adopted a Board Charter that sets out the specific roles and responsibilities of the Board, the Chair and management and includes a description of those matters expressly reserved to the Board and those delegated to management.</p> <p>The Board Charter sets out the specific responsibility of the Board, requirements as to the Board's composition, the roles and responsibilities of the Chairman and Company Secretary, the establishment, operation and management of Board Committees, Directors' access to Company records and information, details of the Board's relationship with management, details of the Board's performance review and details of the Board's disclosure policy.</p> <p>A copy of the Company's Board Charter, which is part of the Company's Corporate Governance Plan, is available on the Company's website.</p>
<p>Recommendation 1.2</p> <p>A listed entity should:</p> <p>(a) undertake appropriate checks before appointing a person, or putting forward to security holders a candidate for election, as a Director; and</p> <p>(b) provide security holders with all material information relevant to a decision on whether or not to elect or re-elect a Director.</p>	YES	<p>(a) The Company has guidelines for the appointment and selection of the Board in its Corporate Governance Plan. 2. THE BOARD OF DIRECTORS

2(a) Roles and Responsibilities of the Board

The Board's primary role is the protection and enhancement of long-term shareholder value. To fulfil this role, the Board is responsible for oversight of the management and the overall corporate governance of the Company including its strategic direction, establishing goals for management and monitoring the achievement of these goals.

The Board operates within the broad principles and responsibilities described in the following:

- Setting the strategic aims of the Company and overseeing management's performance within that framework;
- Making sure that the necessary resources (financial and human) are available to the Company and its senior executives to meet its objectives;
- Overseeing management's performance and the progress and development of the Company's strategic plan;
- Selecting and appointing suitable Executive Directors with the appropriate skills to help the Company in the pursuit of its objectives;
- Determining the remuneration policy for the Board members, Company Secretary and Senior Management;
- Controlling and approving financial reporting, capital structures and material contracts;
- Ensuring that a sound system of risk management and internal controls are in place;
- Setting the Company's values and standards;
- Undertaking a formal and rigorous review of the Corporate Governance policies to ensure adherence to the ASX Corporate Governance Council;
- Ensuring that the Company's obligations to shareholders are understood and met;
- Ensuring the health, safety and well-being of employees in conjunction with the senior management team, including developing, overseeing and reviewing the effectiveness of the Company's occupational health and safety systems to assure the well-being of all employees;
- Ensuring an adequate system is in place for the proper delegation of duties for the effective operative day to day running of the Company without the Board losing sight of the direction that the Company is taking; and
- Any other matter considered desirable and in the interest of the Company.

2(b) Board Composition

The Directors determine the composition of the Board employing the following principles:

- the Board, in accordance with the Company's constitution, must comprise a minimum of three Directors;
- the roles of the Chairman of the Board and of the Chief Executive Officer should be exercised by different individuals;
- the majority of the Board should comprise Directors who are Non-Executive; and
- Directors should bring characteristics which allow a mix of qualifications, skills, experience, expertise and diversity to the Board.

The Board is currently comprised of three Non-Executive Directors. At all times during the year the Board comprised a majority of Executive Directors. The skills, experience, expertise, qualifications and terms of office of each Director in office at the date of the annual report is included in the Directors' Report.

CORPORATE GOVERNANCE STATEMENT

The Company's constitution requires one-third of the Directors (or the next lowest whole number) to retire by rotation at each Annual General Meeting (AGM). The Directors to retire at each AGM are those who have been longest in office since their last election. Where Directors have served for equal periods, they may agree amongst themselves or determine by lot who will retire. A Director must retire in any event at the third AGM since he or she was last elected or re-elected. Retiring Directors may offer themselves for re-election.

A Director appointed as an additional or casual Director by the Board will hold office until the next AGM when they may be re-elected.

The Managing Director is not subject to retirement by rotation and, along with any Director appointed as an additional or casual Director, is not to be taken into account in determining the number of Directors required to retire by rotation.

2(c) Roles of the Chairman and Executive Director

The Chairman is responsible for:

- providing the necessary direction required for an effective Board;
- ensuring that all the Directors receive timely and accurate information so that they can make informed decisions on matters of the Company;
- ensuring that the Board collectively and individual directors' performance is assessed annually; and
- encouraging active engagement from all members of the Board.

The Managing Director is responsible for:

- the executive management of the company's operations;
- policy direction of the operations of the Company;
- the efficient and effective operation of the Company; and
- ensuring all material matters affecting the Company are brought to the Board's attention.

Board policy specifies that the roles of the Chairman and the Chief Executive Officer should be separate roles to be undertaken by separate people. Due to the nature of the company's current activities it does not currently have a Chief Executive Officer.

2(d) Nomination Committee

The Company does not comply with ASX Recommendation 2.4. The Company is not of a relevant size to consider formation of a nomination committee to deal with the selection and appointment of new Directors and as such a nomination committee has not been formed.

Nominations of new Directors are considered by the full Board. If any vacancies arise on the Board, all directors are involved in the search and recruitment of a replacement. The Board has taken a view that the full Board will hold special meetings or sessions as required. The Board are confident that this process for selection and review is stringent and full details of all Directors are provided to shareholders in the annual report and on the Company's website.

2(e) Independent Directors

The Company recognises that independent Directors are important in assuring shareholders that the Board is properly fulfilling its role and is diligent in holding senior management accountable for its performance. The Board assesses each of the directors against specific criteria to decide whether they are in a position to exercise independent judgment.

Directors of RPM Automotive Group Limited are considered to be independent when they are independent of management and free from any business or other relationship that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their unfettered and independent judgement.

In making this assessment, the Board considers all relevant facts and circumstances. Relationships that the Board will take into consideration when assessing independence are whether a Director:

- is a substantial shareholder of the Company or an officer of, or otherwise associated directly with, a substantial shareholder of the Company;
- is employed, or has previously been employed in an executive capacity by the Company or another Company member, and there has not been a period of at least three years between ceasing such employment and serving on the Board;
- has within the last three years been a principal of a material professional advisor or a material consultant to the Company or another Company member, or an employee materially associated with the service provided;
- is a material supplier or customer of the Company or other Company member, or an officer of or otherwise associated directly or indirectly with a material supplier or customer; or
- has a material contractual relationship with the Company or another Company member other than as a Director.

RPM AUTOMOTIVE GROUP LIMITED AND ITS CONTROLLED ENTITIES

CORPORATE GOVERNANCE STATEMENT

The Board comprised three independent Non-Executive Directors for the year and subsequent to the end of the year two independent Non-Executive Directors.

In accordance with the definition of independence above, and the materiality thresholds set, the following Directors of RPM Automotive Group Limited are considered to be independent:

Name	Position
Grant Carman	Non-Executive Chairman- Appointed 25 November 2019
Alex Goodman	Non-Executive Director – Appointed 18 February 2020
Campbell Welch	Non-Executive Director – Resigned 18 February 2020
Scott Brown	Non-Executive Director – Resigned 22 November 2019
Robert Downey	Non-Executive Director – Resigned 28 August 2019

The following persons hold office as directors of RPM Automotive Group Limited at the date of this report:

Name	Term in Office
Grant Carman	Appointed 25 November 2019
Clive Finkelstein	Executive Director - Appointed 28 August 2019
Lawrence Jaffe	Executive Director - Appointed 28 August 2019
Wei Liu	Executive Director - Appointed 20 February 2020
Alex Goodman	Appointed 18 February 2020

2(f) Avoidance of conflicts of interest by a Director

In order to ensure that any interests of a Director in a particular matter to be considered by the Board are known by each Director, each Director is required by the Company to disclose any relationships, duties or interests held that may give rise to a potential conflict. Directors are required to adhere strictly to constraints on their participation and voting in relation to any matters in which they may have an interest.

2(g) Board access to information and independent advice

Directors are able to access members of the management team at any time to request relevant information.

There are procedures in place, agreed by the Board, to enable Directors, in furtherance of their duties, to seek independent professional advice at the company's expense.

2(h) Review of Board performance

The performance of the Board, collectively and individually, is reviewed annually by the Chairman. The Chairman conducts performance evaluations which involve an assessment of each Board member's performance against specific and measurable qualitative and quantitative performance criteria. The evaluation process is focussed on objective and tangible criteria such as:

- Performance of the Company
- Accomplishment of long term strategic objectives
- Development of management
- Growth in shareholder value

3. BOARD COMMITTEES

3(a) Audit Committee

Given the size and scale of the Company's operations the full Board undertakes the role of the Audit Committee. The Audit Committee does not comply with ASX Recommendation 4.2 as the Chair of the Board is Chair of the Audit Committee. The role and responsibilities of the Audit Committee are summarised below.

The Audit Committee is responsible for reviewing the integrity of the Company's financial reporting and overseeing the independence of the external auditors. The Board sets aside time to deal with issues and responsibilities usually delegated to the Audit Committee to ensure the integrity of the financial statements of the Company and the independence of the auditor.

The Board reviews the audited annual and half-year financial statements and any reports which accompany published financial statements and recommends their approval to the members. The Board also reviews annually the appointment of the external auditor, their independence and their fees.

The Board is also responsible for establishing policies on risk oversight and management. The Company has not formed a separate Risk Management Committee due to the size and scale of its operations.

External Auditors

The Company's policy is to appoint external auditors who clearly demonstrate quality and independence. The performance of the external auditor is reviewed annually and applications for tender of external audit services are requested as deemed appropriate, taking into consideration assessment of performance, existing value and tender costs. It is auditor's policy to rotate engagement partners on listed companies at least every five years. The Company has changed external auditors during the year.

An analysis of fees paid to the external auditors, including a break-down of fees for non-audit services, is provided in the notes to the financial statements in the Annual Report.

There is no indemnity provided by the company to the auditor in respect of any potential liability to third parties.

The external auditor is requested to attend the annual general meeting and be available to answer shareholder questions about the conduct of the audit and preparation and content of the audit report.

There were no non-audit services provided by the auditors during the year.

3(b) Remuneration Committee

The role of a Remuneration Committee is to assist the Board in fulfilling its responsibilities in respect of establishing appropriate remuneration levels and incentive policies for employees.

The Board has not established a separate Remuneration Committee due to the size and scale of its operations. This does not comply with Recommendation 8.1 however the Board as a whole takes responsibility for such issues.

The responsibilities include setting policies for senior officers remuneration, setting the terms and conditions for the Managing Director, reviewing and making recommendations to the Board on the Company's incentive schemes and superannuation arrangements, reviewing the remuneration of both executive and Non-Executive directors and undertaking reviews of the Managing Director's performance.

The Company has structured the remuneration of its senior executives, where applicable, such that it comprises a fixed salary, statutory superannuation and, where applicable, participation in the Company's employee share option plan. The Company believes that by remunerating senior executives in this manner it rewards them for performance and aligns their interests with those of shareholders and increases the Company's performance.

Non-Executive directors are paid their fees out of the maximum aggregate amount approved by shareholders for Non-Executive director remuneration. The Company does not adhere to Recommendation 8.3 Box 8.2 'Non-Executive directors should not receive options or bonus payments'. The Company has and may, in the future, grant options to Non-Executive directors. The Board is of the view that options (for both executive and Non-Executive directors) are a cost effective benefit for small companies such as RPM Automotive Group Limited that seek to conserve cash reserves. They also provide an incentive that ultimately benefits both shareholders and the option holders, as option holders will only benefit if the market value of the underlying shares exceeds the option strike price. Ultimately, shareholders will make that determination.

The board policy is to remunerate Directors at market rates for time, commitment and responsibilities. The Board determines payments to the Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. Fees for Non-Executive Directors are not linked to the performance of the Company. However, to align Directors' interests with shareholders interests, the Directors are encouraged to hold shares in the Company.

The Company's aim is to remunerate at a level that will attract and retain high-calibre directors and employees. Company officers and Directors are remunerated to a level consistent with the size of the Company.

The Board believes that it has implemented suitable practices and procedures that are appropriate for an organisation of this size and maturity.

In accordance with best practice corporate governance, the structure of Non-Executive Director and Executive compensation is separate and distinct.

In determining remuneration, the Board has taken a view that the full Board will hold special meetings or sessions as required. No Director participated in any deliberation regarding his or her own remuneration or related issues. The Board are confident that this process for determining remuneration is stringent and full details of remuneration policies and remuneration received by directors and executives in the current period is contained in the "Remuneration Report" within the Directors' Report of the Annual Report.

4. ETHICAL AND RESPONSIBLE DECISION MAKING

4(a) Code of Ethics and Conduct

The Board endeavours to ensure that the Directors, officers and employees of the Company act with integrity and observe the highest standards of behaviour and business ethics in relation to their corporate activities. The "Code of Conduct" sets out the principles, practices, and standards of personal behaviour the Company expects people to adopt in their daily business activities.

All Directors, officers and employees are required to comply with the Code of Conduct. Senior managers are expected to ensure that employees, contractors, consultants, agents and partners under their supervision are aware of the Company's expectations as set out in the Code of Conduct.

All Directors, officers and employees are expected to:

- comply with the law;
- act in the best interests of the Company;
- be responsible and accountable for their actions; and
- observe the ethical principles of fairness, honesty and truthfulness, including prompt disclosure of potential conflicts.

4(b) Workplace Diversity Policy

Diversity includes, but is not limited to, gender, age, ethnicity and cultural background. The Company is committed to diversity and recognises the benefits arising from employee and board diversity and the importance of benefiting from all available talent. Accordingly, the Company has established a diversity policy which is available on the Company's website.

The Board has a commitment to promoting a corporate culture that is supportive of diversity and encourages the transparency of Board processes, review and appointment of Directors. The Board is responsible for developing policies in relation to the achievement of measurable diversity objectives and the extent to which they will be linked to the Key Performance Indicators for the Board, Managing Director and senior executives.

The Company's strategies may include:

- recruiting from a diverse range of candidates for all positions, including senior executive roles and Board positions;
- reviewing pre-existing succession plans to ensure that there is a focus on diversity;
- encourage female participation across a range of roles across the Company;
- review and report on the relative proportion of women and men in the workforce at all levels of the Company;
- articulate a corporate culture which supports workplace diversity and in particular, recognizes that employees at all levels of the Company may have domestic responsibilities;
- develop programs to encourage a broader pool of skilled and experienced senior management and Board candidates, including, workplace development programs, mentoring programs and targeted training and development; and
- any other strategies that the Board or the Nomination Committee develops from time to time.

At the date of this report the Company has no executive female employees. The Company utilises the services of a number of female consultants, in varying roles. No women are currently represented on the Board.

Due to the current size, nature and scale of the Company's activities the Board has not yet developed objectives regarding gender diversity. As the size and scale of the Company grows the Board will set and aim to achieve gender diversity objectives as director and senior executive positions become vacant and appropriately qualified candidates become available.

RPM AUTOMOTIVE GROUP LIMITED AND ITS CONTROLLED ENTITIES
CORPORATE GOVERNANCE STATEMENT

5. TIMELY AND BALANCED DISCLOSURE

5(a) Shareholder communication

The Company is committed to:

- Ensuring that shareholders and the market are provided with full and timely information about its activities;
- Complying with the continuous disclosure obligations contained in the ASX Listing Rules and the applicable sections of the Corporations Act 2001; and
- Providing equal opportunity for all stakeholders to receive externally available information issued by the Company in a timely manner.

The Company's Disclosure Policy covers financial markets communication, media contact and continuous disclosure issues.

All information released to the ASX, after clearance from the ASX will be promptly placed on the Company's website. Shareholders are encouraged to participate in general meetings. Copies of addresses by the Chairman or Chief Executive Officer are disclosed to the market and posted on the Company's website. The Company's external auditor attends the Company's annual general meeting to answer shareholder questions about the conduct of the audit, the preparation and content of the audit report, the accounting policies adopted by the Company and the independence of the auditor in relation to the conduct of the audit.

5(b) Continuous disclosure policy

The Company is committed to ensuring that shareholders and the market are provided with full and timely information and that all stakeholders have equal opportunities to receive externally available information issued by the Company. The Company's "ASX Disclosure Policy" described in 5(a) reinforces the Company's commitment to continuous disclosure and outline management's accountabilities and the processes to be followed for ensuring compliance.

The policy also contains guidelines on information that may be price sensitive. The Company Secretary has been nominated as the person responsible for communications with the ASX. This role includes responsibility for ensuring compliance with the continuous disclosure requirements with the ASX Listing Rules and overseeing and coordinating information disclosure to the ASX.

6. RECOGNISING AND MANAGING RISK

The Board is responsible for ensuring there are adequate policies in relation to risk management, compliance and internal control systems. The Company's policies are designed to ensure strategic, operational, legal, reputation and financial risks are identified, assessed, effectively and efficiently managed and monitored to enable achievement of the Company's business objectives. A written policy in relation to risk oversight and management has been established. Considerable importance is placed on maintaining a strong control environment. There is an organisation structure with clearly drawn responsibilities.

6(a) Board oversight of the risk management system

The Company is not currently considered to be of a size, nor is its affairs of such complexity to justify the establishment of a separate Risk Management Committee. Instead, the Board, as part of its usual role and through direct involvement in the management of the Company's operations ensures risks are identified, assessed and appropriately managed. Where necessary, the Board draws on the expertise of appropriate external consultants to assist in dealing with or mitigating risk.

The Board is responsible for approving and overseeing the risk management system. The Board reviews, at least annually, the effectiveness of the implementation of the risk management controls and procedures.

The principle aim of the system of internal control is the management of business risks, with a view to enhancing the value of shareholders' investments and safeguarding assets. Although no system of internal control can provide absolute assurance that the business risks will be fully mitigated, the internal control systems have been designed to meet the Company's specific needs and the risks to which it is exposed.

Annually, the Board is responsible for identifying the risks facing the Company, assessing the risks and ensuring that there are controls for these risks, which are to be designed to ensure that any identified risk is reduced to an acceptable level.

The Board is also responsible for identifying and monitoring areas of significant business risk. Internal control measures currently adopted by the Board include:

- monthly reporting to the Board in respect of operations and the Company's financial position, with a comparison of actual results against budget; and

- regular reports to the Board by appropriate members of the management team and/or independent advisers, outlining the nature of particular risks and highlighting measures which are either in place or can be adopted to manage or mitigate those risks.

6(b) Risk management roles and responsibilities

The Board is responsible for approving and reviewing the Company's risk management strategy and policy. Executive management is responsible for implementing the Board approved risk management strategy and developing policies, controls, processes and procedures to identify and manage risks in all of the Company's activities. The Board is responsible for satisfying itself that management has developed and implemented a sound system of risk management and internal control.

6(c) Chief Executive Officer and Chief Financial Officer Certification

The Chief Executive Officer and Chief Financial Officer, or equivalent, provide to the Board written certification that in all material respects:

- The Company's financial statements present a true and fair view of the Company's financial condition and operational results and are in accordance with relevant accounting standards;
- The statement given to the Board on the integrity of the Company's financial statements is founded on a sound system of risk management and internal compliance and controls which implements the policies adopted by the Board; and
- The Company's risk management an internal compliance and control system is operating efficiently and effectively in all material respects.

6(d) Internal review and risk evaluation

Assurance is provided to the Board by executive management on the adequacy and effectiveness of management controls for risk on a regular basis.

7 Trading in Company securities by directors and employees

The Board has adopted a Securities Trading Policy which complies with the requirements of Listing Rule 12.12 which regulates dealings by Directors, officers and employees in securities issued by the Company.

The policy, which is available on the Company's website, includes the Company's closed periods, restrictions on trading that apply to the Company's key management personal, trading that is not subject to the policy, exceptional circumstances in which key management personnel may be permitted to trade during a prohibited period with prior written clearance and the procedure for obtaining written clearance. The policy provides that employees, directors and officers must not enter into transactions or arrangements which operate to limit the economic risk of their security holding in the Company without first seeking and obtaining written acknowledgement from the Board.

Corporate Information

The financial report of RPM Automotive Group Limited (“RPM” or “the Company”) and its subsidiaries (“the Group”) for the year ended 30 June 2020 was authorised for issue in accordance with a resolution of the Directors on 30th September 2020. The Directors have the power to amend and reissue the financial statements.

RPM is a company limited by shares incorporated in Australia. Its shares are publicly traded on the Australian Securities Exchange. The nature of the operations and principal activities of the Group are described in the Directors’ Report.

1. Summary of Significant Accounting Policies**Basis of Preparation**

These general purpose consolidated financial statements have been prepared in accordance with the Corporations Act 2001, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and in compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policies adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accrual basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities. The financial report is presented in Australian dollars rounded to the nearest \$1.

Going concern and Covid -19

The COVID-19 pandemic developed rapidly in 2020. The resulting impact of the virus on the operations and the measures taken by the various level of governments to contain the virus have had an impact on the Company results in the reporting period. The current known impacts of the COVID-19 on the Company are:

- A partial decline in revenues for the March 2020 to June 2020 period including the hibernation of our Revolution Racegear retail outlets and reduction of trading hours in our two retail tyre stores.
- The Accessories and Repairs and Roadside divisions continued to operate with reduced staff levels.
- The Tyre Division was able to continue supply of imported product to the market and increased market share as other wholesalers were unable to supply product. The Company sales increased in this segment over this period.

This is the first year of trading as a ASX Listed entity and the Company has incurred significant expenditure on the cost of listing and the reverse takeover transaction. Subsequent to the relisting Management has invested time into business and reporting processes across the segments of the Company.

The bank loan is secured by RPM Holdings Pty Ltd. The covenant imposed by the bank in respect to this loan as at 30 June 2020 was in breach of the DEBT/ EBITDA covenant due to the additional costs associated with the listing of the businesses on the ASX during the year. The bank when setting up the facility were aware of these costs and acknowledged that it would breach our covenant. As a result and even though the covenants are tested in December 2020 the directors approached the bank in advance. The bank on this occasion have taken no action with the breach and the next testing date attached to the bank facility is at 31st December 2021. (Refer Note 15 Borrowings).

That despite the above matters, the Company has taken the following actions:

- We have already announced the takeover of two additional business (Gully Mobile Tyres and Citic Tyres) which are cashflow positive (Refer Note 27 Subsequent events),
- We have obtained from acknowledgement of the breach from our lenders and their support to correct the breach over the period to 31st December 2020 as noted above,
- We have restructured our labour force and continue to review and eliminate expenditure wherever possible.

After consideration of the above factors and circumstances the Directors have determined that these financial statements be prepared on a going concern basis.

Accounting Policies

The following accounting policies and methods of computation have been followed in this financial report.

a. Principles of Consolidation

The consolidated financial statements incorporate all of the assets, liabilities and results of the Parent RPM Automotive Group Limited and all of the subsidiaries (including any structured entities). Subsidiaries are entities the Parent controls. The Parent controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The assets, liabilities and results of all subsidiaries are fully consolidated into the financial statements of the Group from the date on which control is obtained by the Group. The consolidation of a subsidiary is discontinued from the date that control ceases. Intercompany transactions, balances and unrealised gains or losses on transactions between Group entities are fully eliminated on consolidation. Accounting policies of subsidiaries have been changed and adjustments made where necessary to ensure uniformity of the accounting policies adopted by the Group.

The Consolidated Entity has adopted all new and amended Australian Accounting Standards and AASB interpretations (including AASB 16 Leases as further discussed below), which were applicable as of 1 July 2019. Adoption of other new and amended Australian Accounting Standards and AASB interpretations did not have any effect on the financial position or performance of the Consolidated Entity.

The Consolidated Entity has not elected to early adopt any new standards or amendments

Reverse Asset Acquisition (refer Note 2)

In 2018 RPM Automotive Group Limited (formerly Kairiki Energy Limited) ("RPM1") entered into binding agreements to acquire 100% of the businesses that comprise the RPM Group. The proposed transaction enabled the RPM Group to obtain listing on the ASX via a Reverse Take-Over (RTO) of the Company. The vendors of the businesses being acquired received a mixture of shares in the Company and cash as consideration for the acquisitions. As a part of the proposed transaction the Company changed its name from Kairiki Energy Limited to RPM Automotive Group Limited. The transactions. The date for the acquisition transaction has been identified as 1 July 2019 being the date of effective control.

The acquisition has been accounted for using the principles for reverse acquisitions in AASB 3 Business Combinations because, as a result of the Acquisition, the former shareholders of the RPM group entities (the legal acquiree) obtained accounting control of RPM1 (the legal parent). RPM1 has been treated as the accounting acquiree. In accordance with the principles of AASB 3 in a multiple entity combination transaction, one of the combining entities that existed before the business combination shall be identified as the accounting acquirer for the transaction, this has been identified as Revolution Racegear Pty Ltd ("REV").

The Acquisition of REV did not meet the definition of a business combination in accordance with AASB 3 Business Combinations as the acquiree was deemed not to be a business for accounting purposes and, therefore, the transaction was not a business combination within the scope of AASB 3. Instead the Acquisition has been accounted for as a share-based payment transaction using the principles of share based payment transactions in AASB 2, and in particular the guidance in AASB 2 that any difference between the fair value of the shares issued by the accounting acquirer (REV) and the fair value of the accounting acquiree's (RPM1's) identifiable net assets represents a service received by REV, including payment for a service of an ASX stock exchange listing which will be expensed through the consolidated entity's profit and loss statement in the year ended 30th June 2020.

The acquisition of the other RPM group entities have been assessed under AASB 3 and accounted for as business combinations in accordance with AASB 3 with REV as the accounting acquiror.

Accordingly the consolidated financial report of the Group has been prepared as a continuation of the business and operations of REV with one adjustment being the retrospective adjustment of the REV legal capital to reflect the capital of RPM1. The comparative information for the year ended 30th June 2019 and as at 30th June 2019 presented in the financial report are those of REV only.

The impact of the reverse asset acquisition on each of the primary statements is as follows:

Consolidated statement of comprehensive income:

- The statement for the period ended 30 June 2020 comprises 12 months of operating results of RPM1 and all acquired RPM Group businesses
- The statement for the period to 30 June 2019 comprises 12 months of operating results REV.

Consolidated statement of financial position:

- The consolidated statement of financial position at 30 June 2020 contains the assets and liabilities of RPM1, including all acquired businesses, as at that date.
- The consolidated statement of financial position at 30 June 2019 represents the assets and liabilities of REV as at that date.

Statement of changes in equity:

- The consolidated statement of changes in equity for the period ended 30 June 2020 comprises the REV balance at 1 July 2019, the profit/loss for the 12 months and transactions with equity holders for the 12 months of RPM1.
- The consolidated statement of changes in equity for the period ended 30 June 2019 comprises 12 months of REV's changes in equity.

Statement of cash flows:

- The consolidated cash flow statement for the period ended 30 June 2020 comprises the cash balance of REV, as at 1 July 2019, the cash transactions for the 12 months of the Group and the cash balance of the Group at 30 June 2020.
- The consolidated cash flow statement for the period ended 30 June 2019 comprises 12 months of REV cash transactions.

References throughout the financial statements to “reverse acquisition” or “reverse takeover” are in reference to the above-mentioned Acquisition and the accounting treatment described above.

b. Business combinations

Business combinations occur where an acquirer obtains control over one or more businesses.

A business combination is accounted for by applying the acquisition method, unless it is a combination involving entities or businesses under common control. The business combination will be accounted for from the date that control is obtained, whereby the fair value of the identifiable assets acquired and liabilities (including contingent liabilities) assumed is recognised (subject to certain limited exemptions).

When measuring the consideration transferred in the business combination, any asset or liability resulting from a contingent consideration arrangement is also included. Subsequent to initial recognition, contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity. Contingent consideration classified as an asset or liability is remeasured in each reporting period to fair value, recognising any change to fair value in profit or loss, unless the change in value can be identified as existing at acquisition date.

All transaction costs incurred in relation to business combinations, other than those associated with the issue of a financial instrument, are recognised as expenses in profit or loss when incurred.

The acquisition of a business may result in the recognition of goodwill or a gain from a bargain purchase.

c. Goodwill

Goodwill is carried at cost less any accumulated impairment losses. Goodwill is calculated as the excess of the sum of:

- (i) the consideration transferred at fair value;
- (ii) any non-controlling interest (determined under either the fair value or proportionate interest method); and
- (iii) the acquisition date fair value of any previously held equity interest;

over the acquisition date fair value of any identifiable assets acquired and liabilities assumed.

The acquisition date fair value of the consideration transferred for a business combination plus the acquisition date fair value of any previously held equity interest shall form the cost of the investment in the separate financial statements.

Goodwill is tested for impairment annually and is allocated to the Group's cash-generating units or groups of cash-generating units, representing the lowest level at which goodwill is monitored and not larger than an operating segment. Gains and losses on the disposal of an entity include the carrying amount of goodwill related to the entity disposed of.

d. **Income Tax**

The income tax expense (income) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to profit or loss is the tax payable on taxable income for the current period. Current tax liabilities (assets) are measured at the amounts expected to be paid to (recovered from) the relevant taxation authority using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year.

A deferred tax liability shall be recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from: (a) the initial recognition of goodwill; or (b) the initial recognition of an asset or liability in a transaction which: (i) is not a business combination; and (ii) at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised, unless the deferred tax asset relating to temporary differences arises from the initial recognition of an asset or liability in a transaction that:

- is not a business combination; and
- at the time of the transaction, affects neither accounting profit nor taxable profit (tax loss).

e. **Fair Value of Assets and Liabilities**

The Group measures some of its assets and liabilities at fair value on either a recurring or non-recurring basis, depending on the requirements of the applicable Accounting Standard.

Fair value is the price the Group would receive to sell an asset or would have to pay to transfer a liability in an orderly (ie unforced) transaction between independent, knowledgeable and willing market participants at the measurement date.

As fair value is a market-based measure, the closest equivalent observable market pricing information is used to determine fair value. Adjustments to market values may be made having regard to the characteristics of the specific asset or liability. The fair values of assets and liabilities that are not traded in an active market are determined using one or more valuation techniques. These valuation techniques maximise, to the extent possible, the use of observable market data.

f. **Inventories**

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct materials, direct labour and an appropriate proportion of variable and fixed overheads. Overheads are applied on the basis of normal operating capacity. Costs are assigned on the basis of weighted average costs.

g. **Property, Plant and Equipment**

Plant and equipment

Plant and equipment are measured on the cost basis and therefore carried at cost less accumulated depreciation and any accumulated impairment. In the event the carrying amount of plant and equipment is greater than the estimated recoverable amount, the carrying amount is written down immediately to the estimated recoverable amount and impairment losses are recognised in profit or loss. A formal assessment of recoverable amount is made when impairment indicators are present.

NOTES TO THE FINANCIAL STATEMENTS

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the asset's employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

h. Depreciation

The depreciable amount of all fixed assets including buildings and capitalised leased assets, but excluding freehold land, is depreciated on a straight-line basis over the asset's useful life to the Consolidated Group commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful lives of the improvements.

Memorabilia assets are not depreciated and held based on Directors valuation.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed Asset	Depreciation Rate
Leasehold improvements	10-50%
Plant and equipment	5-20%
Motor vehicles	20%

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are recognised in profit or loss in the period in which they arise. Gains shall not be classified as revenue. When revalued assets are sold, amounts included in the revaluation surplus relating to that asset are transferred to retained earnings.

i. Leases

The Group as lessee

At inception of a contract, the Group assesses if the contract contains or is a lease. If there is a lease present, a right-of-use asset and a corresponding lease liability are recognised by the Group where the Group is a lessee. However, all contracts that are classified as short-term leases (ie a lease with a remaining lease term of 12 months or less) and leases of low-value assets are recognised as an operating expense on a straight-line basis over the term of the lease.

Initially the lease liability is measured at the present value of the lease payments still to be paid at the commencement date. The lease payments are discounted at the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses the incremental borrowing rate.

Lease payments included in the measurement of the lease liability are as follows:

- fixed lease payments less any lease incentives;
- variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- the amount expected to be payable by the lessee under residual value guarantees;
- the exercise price of purchase options, if the lessee is reasonably certain to exercise the options;
- lease payments under extension options, if the lessee is reasonably certain to exercise the options; and
- payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, any lease payments made at or before the commencement date and any initial direct costs. The subsequent measurement of the right-of-use assets is at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the lease term or useful life of the underlying asset, whichever is the shortest.

Where a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group anticipates to exercise a purchase option, the specific asset is depreciated over the useful life of the underlying asset.

Initial Application of AASB 16: Leases

The Group has adopted AASB 16: *Leases* retrospectively with the cumulative effect of initially applying AASB 16 recognised at 1 July 2019. In accordance with AASB 16 the comparatives for the 2019 reporting period have not been restated.

The Group has recognised a lease liability and right-of-use asset for all leases (with the exception of short-term and low-value leases) recognised as operating leases under AASB 117: *Leases* where the Group is the lessee.

Lease liabilities are measured at the present value of the remaining lease payments. The Group's incremental borrowing rate as at 1 July 2019 was used to discount the lease payments.

The following practical expedients have been used by the Group in applying AASB 16 for the first time:

- For a portfolio of leases that have reasonably similar characteristics, a single discount rate has been applied.
- Leases that have remaining lease term of less than 12 months as at 1 July 2019 have been accounted for in the same way as short-term leases.
- The use of hindsight to determine lease terms on contracts that have options to extend or terminate.
- Applying AASB 16 to leases previously identified as leases under AASB 117: *Leases* and Interpretation 4: *Determining whether an arrangement contains a lease* without reassessing whether they are, or contain, a lease at the date of initial application.
- Not applying AASB 16 to leases previously not identified as containing a lease under AASB 117 and Interpretation 4.

The Group's weighted average incremental borrowing rate on 1 July 2019 applied to the lease liabilities was 4.4%.

j. Financial Instruments

Initial recognition and measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions to the instrument. For financial assets, this is the date that the Group commits itself to either the purchase or sale of the asset (ie trade date accounting is adopted).

Financial instruments (except for trade receivables) are initially measured at fair value plus transaction costs, except where the instrument is classified "at fair value through profit or loss", in which case transaction costs are expensed to profit or loss immediately. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted.

Trade receivables are initially measured at the transaction price if the trade receivables do not contain a significant financing component or if the practical expedient was applied as specified in AASB 15.63 .

Classification and subsequent measurement*Financial liabilities*

Financial instruments are subsequently measured at:

- amortised cost; or
- fair value through profit or loss.

A financial liability is measured at fair value through profit and loss if the financial liability is:

- a contingent consideration of an acquirer in a business combination to which AASB 3: *Business Combinations* applies;
- held for trading; or
- initially designated as at fair value through profit or loss.

All other financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest expense in profit or loss over the relevant period. The effective interest rate is the internal rate of return of the financial asset or liability. That is, it is the rate that exactly discounts the estimated future cash flows through the expected life of the instrument to the net carrying amount at initial recognition.

A financial liability is held for trading if:

- it is incurred for the purpose of repurchasing or repaying in the near term;
- part of a portfolio where there is an actual pattern of short-term profit taking; or

Any gains or losses arising on changes in fair value are recognised in profit or loss to the extent that they are not part of a designated hedging relationship are recognised in profit or loss.

The change in fair value of the financial liability attributable to changes in the issuer's credit risk is taken to other comprehensive income and are not subsequently reclassified to profit or loss. Instead, they are transferred to retained earnings upon de-recognition of the financial liability. If taking the change in credit risk in other comprehensive income enlarges or creates an accounting mismatch, then these gains or losses should be taken to profit or loss rather than other comprehensive income.

A financial liability cannot be reclassified.

Financial assets

Financial assets are subsequently measured at:

- amortised cost;
- fair value through other comprehensive income; or
- fair value through profit or loss.

Measurement is on the basis of two primary criteria:

- the contractual cash flow characteristics of the financial asset; and
- the business model for managing the financial assets.

A financial asset that meets the following conditions is subsequently measured at amortised cost:

- the financial asset is managed solely to collect contractual cash flows; and
- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates.

A financial asset that meets the following conditions is subsequently measured at fair value through other comprehensive income:

- the contractual terms within the financial asset give rise to cash flows that are solely payments of principal and interest on the principal amount outstanding on specified dates;
- the business model for managing the financial assets comprises both contractual cash flows collection and the selling of the financial asset.

By default, all other financial assets that do not meet the measurement conditions of amortised cost and fair value through other comprehensive income are subsequently measured at fair value through profit or loss.

The Group initially designates a financial instrument as measured at fair value through profit or loss if:

- it eliminates or significantly reduces a measurement or recognition inconsistency (often referred to as "accounting mismatch") that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases;
- it is in accordance with the documented risk management or investment strategy, and information about the groupings was documented appropriately, so that the performance of the financial liability that was part of a group of financial liabilities or financial assets can be managed and evaluated consistently on a fair value basis;
- it is a hybrid contract that contains an embedded derivative that significantly modifies the cash flows otherwise required by the contract.

The initial designation of the financial instruments to measure at fair value through profit or loss is a one-time option on initial classification and is irrevocable until the financial asset is derecognised.

Regular way purchases and sales of financial assets are recognised and derecognised at settlement date in accordance with the Group's accounting policy.

De-recognition

De-recognition refers to the removal of a previously recognised financial asset or financial liability from the statement of financial position.

De-recognition of financial liabilities

A liability is derecognised when it is extinguished (ie when the obligation in the contract is discharged, cancelled or expires). An exchange of an existing financial liability for a new one with substantially modified terms, or a substantial modification to the terms of a financial liability is treated as an extinguishment of the existing liability and recognition of a new financial liability.

The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

De-recognition of financial assets

A financial asset is derecognised when the holder's contractual rights to its cash flows expires, or the asset is transferred in such a way that all the risks and rewards of ownership are substantially transferred.

All of the following criteria need to be satisfied for de-recognition of financial asset:

- the right to receive cash flows from the asset has expired or been transferred;
- all risk and rewards of ownership of the asset have been substantially transferred; and
- the Group no longer controls the asset (ie the Group has no practical ability to make a unilateral decision to sell the asset to a third party).

On de-recognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On de-recognition of a debt instrument classified as at fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is reclassified to profit or loss.

On de-recognition of an investment in equity which was elected to be classified under fair value through other comprehensive income, the cumulative gain or loss previously accumulated in the investment revaluation reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Impairment

The Group recognises a loss allowance for expected credit losses on:

- financial assets that are measured at amortised cost or fair value through other comprehensive income;
- loan commitments that are not measured at fair value through profit or loss; and
- financial guarantee contracts that are not measured at fair value through profit or loss.

Loss allowance is not recognised for:

- financial assets measured at fair value through profit or loss; or
- equity instruments measured at fair value through other comprehensive income.

Expected credit losses are the probability-weighted estimate of credit losses over the expected life of a financial instrument. A credit loss is the difference between all contractual cashflows that are due and all cashflows expected to be received, all discounted at the original effective interest rate of the financial instrument.

The Group uses the following approaches to impairment, as applicable under AASB 9: Financial Instruments:

- the simplified approach

Simplified Approach

The simplified approach does not require tracking of changes in credit risk at every reporting period, but instead requires the recognition of lifetime expected credit loss at all times. This approach is applicable to:

- trade receivables or contract assets that result from transactions within the scope of [AASB 15 : Revenue from Contracts with Customers](#) and which do not contain a significant financing component; and
- lease receivables.

In measuring the expected credit loss, a provision matrix for trade receivables was used taking into consideration various data to get to an expected credit loss (ie diversity of customer base, appropriate groupings of historical loss experience, etc).

Recognition of expected credit losses in financial statements

At each reporting date, the Group recognises the movement in the loss allowance as an impairment gain or loss in the statement of profit or loss and other comprehensive income.

The carrying amount of financial assets measured at amortised cost includes the loss allowance relating to that asset.

Assets measured at fair value through other comprehensive income are recognised at fair value, with changes in fair value recognised in other comprehensive income. Amounts in relation to change in credit risk are transferred from other comprehensive income to profit or loss at every reporting period.

For financial assets that are unrecognised (eg loan commitments yet to be drawn, financial guarantees), a provision for loss allowance is created in the statement of financial position to recognise the loss allowance.

k. **Impairment of Assets**

At the end of each reporting period, the Group assesses whether there is any indication that an asset may be impaired. If such an indication exists, an impairment test is carried out on the asset by comparing the recoverable amount of the asset, being the higher of the asset's fair value less costs of disposal and value in use, to the asset's carrying amount. Any excess of the asset's carrying amount over its recoverable amount is recognised immediately in profit or loss, unless the asset is carried at a revalued amount in accordance with another Standard (eg in accordance with the revaluation model in [AASB 116](#) : *Property, Plant and Equipment*). Any impairment loss of a revalued asset is treated as a revaluation decrease in accordance with that other Standard.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Impairment testing is performed annually for goodwill, intangible assets with indefinite lives and intangible assets not yet available for use.

When an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

l. **Intangible Assets Other than Goodwill**

Trademarks and licences

Patents and trademarks are recognised at cost of acquisition. They have a finite life and are carried at cost less any accumulated amortisation and any impairment losses. Patents and trademarks are amortised over their useful lives ranging from 15 to 20 years.

m. **Foreign Currency Transactions and Balances**

Functional and presentation currency

The functional currency of each of the Group's entities is the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars, which is the functional currency of all the entities in the group.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in profit or loss, except exchange differences that arise from net investment hedges.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is recognised in other comprehensive income; otherwise the exchange difference is recognised in profit or loss.

n. **Employee Benefits**

Short-term employee benefits

Provision is made for the Group's obligation for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Group's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as part of current trade and other payables in the statement of financial position. The Group's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position

Other long-term employee benefits

Provision is made for employees' long service leave and annual leave entitlements not expected to be settled wholly within 12 months after the end of the annual reporting period in which the employees render the related service. Other long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any re-measurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur.

The Group's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Group does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

o. **Provisions**

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

p. **Cash and Cash Equivalents**

Cash and cash equivalents include cash on hand, deposits available on demand with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are reported within borrowings in current liabilities on the statement of financial position.

r. **Revenue and Other Income**

Revenue recognition

Revenue generated by the Group is categorised into the following reportable segments:

(i) **Motorsport**

- Sale of specialised motorsport accessories
- Manufacture and sale of FIA accredited motorsport racing suits using our trademarked RPM branding which is recognised and associated with our Revolution Racegear retail outlets.

(ii) **Repairs and Roadside**

- Carline licensee of auto repair workshops
- Roadside assistance specialising in Tyre repair and replacement for the Trucking and Large plant and equipment.
- Two company owned retail outlets

(iii) **Wheels and Tyres**

- Wholesale of Truck, Heavy Equipment and Motor vehicle tyres.

(iv) **Accessories**

- Manufacture of specialised automotive accessories for the automotive aftermarket.

The Group recognises revenue as follows:

Revenue is recognised at an amount that reflects the consideration to which the Group is expected to be entitled in exchange for transferring goods or services to their customers. For each contract with a customer, the Group:

- identifies the contract with a customer;
- identifies the performance obligations in the contract;
- determines the transaction price which takes into account estimates of variable consideration and the time value of money;
- allocates the transaction price to the separate performance obligations on the basis of the relative stand-alone selling price of each distinct good or service to be delivered; and
- recognises revenue when or as each performance obligation is satisfied in a manner that depicts the transfer to the customer of the goods or services promised.

Variable consideration within the transaction price if any, reflects concessions provided to the customer such as discounts, rebates and refunds and any other contingent events. Such estimates are determined using either the 'expected value' or 'most likely amount method'. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are initially recognised as deferred revenue in the form of a separate refund liability.

Motorsport

Revenue from the sale of motorsports clothing, parts and accessories is recognised at the point in time when the buyer obtains control of the goods, which is generally at the point of time of purchase of the goods by the customer.

Repairs and Roadside

Repairs and Roadside service work on customers vehicles is carried out under instructions from the customer. Repairs and Roadside service is recognised over time based on either a fixed price or hourly rate. Revenue arising from the sale of parts fitted to customers vehicles during the Repairs and Roadside service is recognised at the point of time upon delivery of the fitted part to the customer upon completion of the service.

Revenue from retail sale and fitment of tyres on customer's vehicles is carried out under instructions from the customer. Retail revenue is recognised over time based on either a fixed price or hourly rate. Revenue arising from the sale of parts fitted to customers vehicles during the retail sale and fitment service is recognised at the point of time upon delivery of the fitted part to the customer upon completion of the service.

Wheels and Tyres

Revenue from the wholesale of tyres is recognised at the point in time when the buyer obtains control of the goods, which is generally at the point of time of delivery of the goods.

Performance & Accessories

Revenue from accessories is recognised at the point of time when the buyer obtains control of the goods, which is generally at the time of delivery of the vehicle.

Commercial Rebates

Commercial rebates are recognised when the right to receive payment is established.

NOTES TO THE FINANCIAL STATEMENTS

s. Trade and Other Payables

Trade and other payables represent the liabilities for goods and services received by the entity that remain unpaid at the end of the reporting period. The balance is recognised as a current liability with the amounts normally paid within 30 days of recognition of the liability. Trade and other payables are initially measured at fair value and subsequently measured at amortised cost using the effective interest method.

t. Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

u. Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with other receivables or payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows included in receipts from customers or payments to suppliers.

v. Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

The comparative figures are those of Revolution Racegear Pty Ltd.

w. Earnings per share

Basic earnings per share is calculated as net profit attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted earnings per share is calculated as net profit attributable to members of the parent, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

x. Segment reporting

An operating segment is a component of the entity that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. Operating segments have been identified based on the information provided to the chief operating decision makers, being the executive management team.

y Critical Accounting Estimates and Judgements

The directors evaluate estimates and judgements incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

Key estimates**(i) Impairment**

The Group assesses impairment at the end of each reporting period by evaluating the conditions and events specific to the Group that may be indicative of impairment triggers for relevant assets. Recoverable amounts of relevant assets are reassessed using value-in-use calculations which incorporate various key assumptions.

Goodwill

Goodwill is assessed for impairment annually. Goodwill is allocated to cash generating units (CGU) according to management's expectations regarding which assets will be expected to benefit from the synergies arising from the business combination that gave rise to the goodwill. The recoverable amount of a CGU is based on value in use calculations. These calculations are based on projected cashflows approved by management. Managements determination of cash flow projections and gross margins are based on past performance and its expectations for the future. The present value of future cash flows has been calculated based on the key assumptions as disclosed in note 12 of the financial statements.

Inventories

Management has assessed the value of inventory which is likely to be sold below cost/written off in future periods. This analysis is based on past experience and judgement on the likely sell through rates of various lines of inventory. Based on managements analysis no provision has been deemed required at 30 June 2020

Key judgements**(i) Performance obligations under AASB 15**

To identify a performance obligation under AASB 15, the promise must be sufficiently specific to be able to determine when the obligation is satisfied. Management exercises judgement to determine whether the promise is sufficiently specific by taking into account any conditions specified in the arrangement, explicit or implicit, regarding the promised goods or services. In making this assessment, management includes the nature/ type, cost/ value, quantity and the period of transfer related to the goods or services promised.

(ii) Lease term and Option to Extend under AASB 16

The lease term is defined as the non-cancellable period of a lease together with both periods covered by an option to extend the lease if the lessee is reasonably certain to exercise that option; and also periods covered by an option to terminate the lease if the lessee is reasonably certain not to exercise that option. The decision on whether or not the options to extend are reasonably going to be exercised is a key management judgement that the entity will make. The Group determines the likeliness to exercise on a lease-by-lease basis looking at various factors such as which assets are strategic and which are key to future strategy of the entity.

z New accounting standards and interpretations***New accounting standards and interpretations issued but not yet effective***

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Company for the annual reporting period ended 30 June 2020. The Company's assessment of the impact of relevant new or amended Accounting Standards and Interpretations, most relevant to the Company is not material and have minimal impact on the financial statements.

NOTES TO THE FINANCIAL STATEMENTS

2. Reverse Takeover

On 1st July 2019, the Company formerly named Kairiki Energy Limited completed the 100% acquisition of Revolution Racegear Pty Ltd (REV) and changed its name to RPM Automotive Group Limited. The acquisition of REV resulted in the shareholders of REV obtaining control of the merged entity. In addition, the Board of Directors of the merged entity was restructured such that two of the four Directors was comprised of REV nominees.

Nominees of REV serve as Chief Executive Officer and the REV management team has assumed responsibility for the management of the merged entity. Consequently, the acquisition has been accounted for with reference to the guidance for reverse acquisitions set out in AASB 3 “Business Combinations”.

The application of the reverse acquisition guidance contained in AASB 3 has resulted in the Company (the legal parent) being accounted for as the subsidiary and REV (the legal subsidiary) being accounted for as the parent entity.

At the time the Company’s acquisition of REV completed, its operations did not fall within the scope of a “business” under AASB 3. Consequently, the acquisition did not meet the definition of a “business combination” under AASB 3, and the principles of AASB 3 could not be applied in their entirety.

Instead the acquisition has been accounted for as a “Share-based Payment” whereby REV is deemed to have issued shares in exchange for the net assets and listing status of RPM Automotive Group. In accordance with AASB 2, the difference between the fair value of the deemed consideration paid by REV and the fair value of the identifiable net assets of RPM Automotive Group, is required to be recognised as an expense.

Details of the fair value of the identifiable net assets acquired and the excess consideration are set out below.

	Consolidated
	2020
	\$
Deemed Purchase Consideration	
Deemed Fair Value of Consideration Shares paid on Acquisition	2,358,936
Cash and equivalents	(19,983)
Trade and other receivables	141,287
Listing expenses recognised on reverse acquisition	2,480,240
Other Share Listing expenses	617,572

RPM AUTOMOTIVE GROUP LIMITED AND ITS CONTROLLED ENTITIES

NOTES TO THE FINANCIAL STATEMENTS

3. Business Combinations

Under the adopted accounting policy for the reverse acquisition on 1st July 2019, the Company formerly named Revolution Racegear Pty Ltd completed the 100% acquisition of RPM Automotive Group of entities.

Details of the fair value of the identifiable net assets acquired and the excess consideration are set out below.

	Consolidated
	2020
	\$
Deemed Purchase Consideration	
Fair value of cash and shares transferred	15,012,789
Less Fair Value of net identifiable assets acquired	2,146,173
Excess Consideration – Goodwill on Acquisition	12,866,616
The fair value of the identifiable assets and liabilities of the Company at the date of acquisition was as follows:	
Cash and equivalents	498,844
Trade and other receivables	4,041,541
Inventory	2,648,682
Property Plant and Equipment	1,120,846
Intangibles	1,860
Other Assets	135,301
Liabilities	
Trade and other payables	(4,160,198)
Provisions	(252,124)
Taxation	(117,584)
Borrowings	(1,770,995)
Total identifiable net assets at fair value	2,146,173

The goodwill is attributable to the profitability of the acquired business, assembled workforce and significant synergies that are expected to arise from the group's operations.

The goodwill that arose from the business combination is not expected to be deductible for tax purposes.

Contributions since acquisitions

For the financial year 30th June 2020 the business acquired contributed revenue of \$27,296,952 and a profit after listing expenses and tax of \$(1,027,107) which is included in the consolidated profit/loss for the year.

Receivable from sale of assets	750,000	-
Receivable from a related party	580,261	-
Total Current	5,936,536	196,466
Non-Current		
Deposits	87,908	23,286
	6,024,444	219,752

Receivable from sale of assets is the amount due under binding Royalty Sale and Purchase Agreement pursuant to which RPM has sold a royalty on select tenements within Black Cat Syndicate Limited's advanced exploration state Bulong Gold Project to Vox Royalty Group. The consideration is \$750,000 comprising \$400,000 in cash and \$350,000 in Vox Royalty Corp Shares. To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due. The loss allowance provision as at 30th June 2020 is determined based on weighted average expected losses as determined from managements assessment.

The following table shows the movement in lifetime expected credit loss that has been recognised for trade and other receivables in accordance with the simplified approach set out in AASB 9: Financial Instruments.

	Opening balance 1 July 2018	Net measure- ment of loss allowance	Amounts written off	Closing balance 30 June 2019
a. Lifetime Expected Credit Loss: Credit Impaired				
(i) Current trade receivables	-	-	-	-
	-	-	-	-
	Opening balance 1 July 2019	Net measure- ment of loss allowance	Amounts written off	Closing balance 30 June 2020
(i) Current trade receivables	-	(46,236)	-	(46,236)
	-	(46,236)	-	(46,236)

Fair Value and Risk Exposures

(i) Due to the short term nature of these receivables, their carrying value is assumed to approximate their fair value. As at 30th June 2020, an aging analysis of those trade receivables are as follows:

Not overdue	2,219,919	91,993
1 – 30 Days	1,000,354	48,740
31 – 60+ Days	978,087	8,954
	4,198,360	149,687

RPM AUTOMOTIVE GROUP LIMITED AND ITS CONTROLLED ENTITIES

NOTES TO THE FINANCIAL STATEMENTS

<i>9. Inventories</i>	Consolidated	
	2020	2019
	\$	\$
Current		
Finished Products	5,396,121	2,853,727
Goods in transit	1,054,332	-
Work in progress	252,710	-
Total Inventories	6,703,163	2,853,727

Management has assessed the value of inventory which is likely to be sold below cost/written off in the future periods. This analysis is based on past experience, recoverability from the Business Sales Agreements inventory terms for each business and judgements on the likely sell through rates of various lines of inventory. Based on managements analysis no provision has been deemed to be required at 30 June 2020.

10. Right of use assets

The Group's lease portfolio includes premises in different locations. These leases have a term from 5 to 10 years including the option to extend.

Options to Extend or Terminate

The options to extend or terminate are contained in several of the property leases of the Group. These clauses provide the Group opportunities to manage leases in order to align with its strategies. All of the extension or termination options are only exercisable by the Group. The extension options or termination options which management were reasonably certain to be exercised have been included in the calculation of the lease liability.

Additions	-	53,427
Acquisitions through business combinations	12,866,616	-
Closing value at 30 June 2020	13,466,616	250,735

As per group policies, patents and trademarks are amortised over their expected useful life. Management has determined that as at 30th June 2020 the current years amortisation is immaterial and has not been accounted for.

The recoverable amount of each cash generating unit below is determined based on value-in-use calculations. Value-in use is calculated based on the present value of the cashflow projections over a five year period. The cash flows are discounted using the yield of a 5 year weighted average cost of capital (WACC) at the beginning of the period.

The following key assumptions were used in the value-in use calculations:

	Average Growth Rate	Discount Rate
Motorsport	7.5%	10%
Repairs & Roadside	7.5%	10%
Tyres	7.5%	10%
Accessories	7.5%	10%

Management has based the value-in-use calculations on budgets for each reporting segment. These budgets use current results and management assumptions of growth rates to project revenue. Costs are calculated taking into account historical gross margins. Discount rates are pre-tax and are adjusted to incorporate risks associated with a particular segment. No reasonably possible changes in any of the key assumptions would result in a statutory impairment.

NOTES TO THE FINANCIAL STATEMENTS

	Consolidated	
	2020	2019
	\$	\$
13. Trade and Other Payables		
Current		
Trade creditors	5,908,407	379,492
Other creditors	196,363	141,229
ATO Liabilities	896,219	44,287
Total Trade and Other Payables	7,000,989	565,008

Fair Value and Risk Exposures

- (i) Due to the short term nature of these payables, their carrying value is assumed to approximate their fair value.
(ii) Details regarding liquidity risk are disclosed in Note 24.

Trade and other payables are unsecured and usually paid within 60 days of recognition.

14. Lease liabilities

The following information relates to the current reporting period only and is presented in accordance with AASB 16 Leases (which was applied by the Group for the first time in the current reporting period. Also refer to Note 10.

Lease Liabilities

Current lease liabilities	646,240	-
Non-current lease liabilities	1,673,290	-
	2,319,530	-

15. Borrowings

Current

Bank borrowings	1,100,457	15,708
Related party loans	658,771	644,680
	1,759,228	660,388

Non Current

Bank borrowings	3,260,180	1,601,141
Related party loans	703,762	-
	3,963,942	1,601,141

The bank loans are secured over all present and future rights, property and undertakings of RPM Automotive Group Ltd and the following subsidiary – RPM Automotive Holdings Pty Ltd.

The covenant imposed by the bank in respect to this loan as at 30 June 2020 was in breach of the DEBT/ EBITDA covenant due to the additional costs associated with the listing of the businesses on the ASX during the year. The bank when setting up the facility were aware of these costs and acknowledged that it would breach our covenant. As a result and even though the covenants are tested in December 2020 the directors approached the bank in advance. The bank on this occasion have taken no action with the breach and the next testing date attached to the bank facility is at 31st December 2021.

Based on this, the Directors have decided to continue classifying that amount of borrowings which is not due at least until twelve months from the reporting date as non-current balance in the statement of financial position.

Details of key borrowing facilities are:

	Balance 30 June 2020	Facility Expiry Date	Interest rate (30 June 2020)
NAB Business Markets Loan	3,111,800	30 th Sept 2022	3.6%
NAB Business Options Loan	250,000	16 th June 2023	4.5%

For key terms of related party loans refer to Note 22 Related Party Transactions.

During the period 8 listed options were exercised (30 June 2019: Nil)

No unlisted options are outstanding as at 30 June 2020

(d) Terms and conditions of contributed equity*Ordinary Shares:*

Ordinary shares have the right to receive dividends as declared and, in the event of winding up the Company, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and amounts paid up on shares held.

Ordinary shares entitle their holder to one vote, either in person or by proxy, at a meeting of the Company.

Capital Management

When managing capital, management's objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. Management also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity.

Management may in the future adjust the capital structure to take advantage of favourable costs of capital and issue further shares in the market. Management has no current plans to adjust the capital structure other than as disclosed in the financial statements.

20. Contingent Assets and Liabilities*Contingent Assets*

RPM Automotive Group Ltd (formerly Kairiki Energy Limited) holds interests in certain permits/tenements which are valued nil as at 30 June 2020. The Group may be able to realise income from these in future years. Financial effect of this unknown due to uncertainty and absence of reliable estimate. During the year the Group was successful in a royalty sale agreement and recognised income of \$750,000 (refer to note 8a).

Contingent Liabilities

There are no contingent liabilities.

21. Commitments

Lease Commitments – Finance	\$	\$

NOTES TO THE FINANCIAL STATEMENTS

24. Financial Risk Management Objectives and Policies

The Group's principal financial instruments comprise cash and short-term deposits. The main purpose of these financial instruments is to provide working capital for the Group's operations.

The Group has various other financial instruments such as trade creditors, which arise directly from its operations.

It is the Group's policy that no trading in financial instruments shall be undertaken.

	Consolidated 2020	2019
	\$	\$
Financial assets at amortised cost		
Cash and cash equivalents	2,083,173	81,334
Trade and other receivables	5,936,536	196,466
Total financial assets	8,019,709	277,800
 Financial liabilities at amortised cost		
Trade and other payables	7,000,989	565,008
Borrowings	4,360,637	1,616,849
Related Party Loans	1,362,533	644,680
Lease Liabilities	2,319,530	-
Total financial liabilities	15,043,689	2,826,537

The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, credit risk and foreign currency risk. The Board reviews and agrees on policies for managing each of these risks and they are summarised below.

Interest Rate Risk

At balance date the Group's exposure to market risk for changes in interest rates relates primarily to the Company's short-term cash deposits and bank borrowings. The Group constantly analyses its exposure to interest rates, with consideration given to potential renewal of existing positions, the mix of fixed and variable interest rates and the period to which deposits may be fixed.

At balance date, the Group had the following financial assets exposed to variable interest rates that are not designated in cash flow hedges:

Cash and cash equivalents held in interest-bearing accounts	94,161	-
Bank borrowings	(3,361,800)	(1,600,000)
Net exposure	(3,267,639)	(1,600,000)

The following sensitivity analysis is based on the interest rate risk exposures in existence at the reporting date. The 1.0% sensitivity is based on reasonably possible changes, over a financial year, using an observed range of historical bank interest rate movements over the last three years.

At 30 June 2020, if interest rates had moved as illustrated in the table below, with all other variables held constant, post tax profit and equity relating to financial assets of the Group would have been affected as follows:

Judgements of reasonably possible movements:

Post tax profit and equity - higher / (lower)

+ 1.0%	(32,676)	(16,000)
- 1.0%	32,676	16,000

RPM AUTOMOTIVE GROUP LIMITED AND ITS CONTROLLED ENTITIES

NOTES TO THE FINANCIAL STATEMENTS

Liquidity Risk

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of its cash and funding requirements.

The table below reflects all contractually fixed pay-offs, repayments and interest resulting from recognised financial liabilities as of 30 June 2020. These amounts represent contractual undiscounted cash flows.

The contractual maturities of the Group's total reported financial liabilities are:

	Consolidated	
	2020	2019
	\$	\$
Within six months	7,000,989	
Within one year	2,405,468	
Within one to five years	5,637,232	

The contractual maturities of the Group's total undiscounted lease liabilities are:

	Consolidated	
	2020	2019
	\$	\$
Within six months	366,218	-
Within one year	366,670	-
Within one to five years	1,833,167	-

Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted the policy of dealing with creditworthy counterparties and obtaining sufficient collateral or other security where appropriate, as a means of mitigating the risk of financial loss from defaults. The Company measures credit risk on a fair value basis.

The maximum exposure to credit risk, excluding the value of any collateral or other security held, is equivalent to the carrying amount (net of any allowance for expected credit losses) as presented in the statement of financial position and notes to the financial statements.

Cash is primarily deposited only with Australian banks. The Company does not have any other significant credit risk exposure to a single counterparty or any group of counterparties having similar characteristics.

Foreign Currency Risk

The Group manages its foreign exchange risk by constantly reviewing its exposure to commitments payable and ensuring cash balances are maintained in appropriate currencies to meet operational commitments. The Group's main exposure is from purchases made in USD. The Group offset this exposure by maintaining foreign currency USD account. Transactions in other foreign currencies are not significant and Group has insignificant exposure as at 30 June 2020.

No reasonable movement in the Australian Dollar (AUD) rates (for example 10% up or down) used to determine the fair value of the groups financial assets/liabilities would result in a significant impact on profit or equity.

Fair Value

The methods of estimating fair value are outlined in the relevant notes to the financial statements.

RPM AUTOMOTIVE GROUP LIMITED AND ITS CONTROLLED ENTITIES

NOTES TO THE FINANCIAL STATEMENTS

25. *Operating Segment*

The Groups segments represent strategic business units that offer different products and operate in different segments of the automotive aftermarket. They are consistent with the way the CEO monitors and assesses the business performance in order to make decisions about resource allocation over the Group. Performance assessment is based on EBIT (Earnings Before Interest and Tax) and EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation). These measures are different from the profit and loss reported in the consolidated financial statements which is shown after net interest and tax expense. This is because decisions that affect the net interest expenses and tax expense are made a Group level. It is not considered appropriate to measure segment reporting at the net profit after tax level.

Segment assets and liabilities are not disclosed here as the CEO does not regularly receive such segmental information, the groups assets and liabilities are detailed throughout these financial statements.

The Groups operating segments are detailed in significant accounting policies at Item r.

27. Events Subsequent to the Reporting Period

No matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years other than:

- On 31st October 2020 the Group will acquired 100% of the issued capital of Citic Autoparts Pty Ltd, a wholesale tyre trading business established in late 1994, and is considered to be a major distributor in the Australian Tyre Industry. Citic Autoparts Pty Ltd carry a comprehensive product range and pride themselves on customer-oriented service. Purchase price comprises a 20% discount to the tangible net asset value of the business and will be paid using a hybrid of treasury, debt and vendor finance
- On 30th June 2020 the Group entered an agreement to acquire 100% of the issued capital of Gully Mobile Tyres Pty Ltd, a repair and roadside business specialising in the repair and replacement of on-site heavy-duty plant and equipment tyres. Purchase price is \$195,000 payable \$160,000 in RPM shares valued at the lower of 25c per share or market price at 28th August 2020 and vendor loan of \$35,000 payable in seven equal instalments commencing July 2020. The effective date for this acquisition has been determined to be subsequent to 30 June 2020 as per the terms of completion of the transaction in the agreement.

RPM AUTOMOTIVE GROUP LIMITED AND ITS CONTROLLED ENTITIES

DIRECTORS' DECLARATION

1. In the opinion of the Directors:
 - a) The consolidated financial statements and notes that are set out on pages 29 to 63 and the Remuneration report on pages 8 to 11 in the Directors' Report, are in accordance with the Corporations Act 2001, including:
 - i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2020 and of its performance for the financial year ended on that date; and
 - ii) complying with Accounting Standards and the Corporations Regulations 2001; and
 - b) the financial statements and notes thereto are in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board, as disclosed in note 1; and
 - c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.
2. The directors have been given the declarations required by Section 295A of the Corporations Act 2001 from the Chief Executive Officer for the financial year ended 30 June 2020.

This declaration is signed in accordance with a resolution of the Board of Directors.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF RPM AUTOMOTIVE GROUP LIMITED

Report on the Audit of the Financial Report

Opinion

We have audited the financial report of RPM Automotive Group Limited (the Company) and its subsidiaries (collectively the Group), which comprises the consolidated statement of financial position as at 30 June 2020, the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the Directors' declaration.

In our opinion the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 30 June 2020 and of its performance for the year then ended; and
- (b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants* (including independence standards) (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current year. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters.

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF RPM AUTOMOTIVE GROUP LIMITED (Continued)**

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Financial Report.

Key audit matter	
<p>Goodwill impairment assessment <i>Refer to Note 1, 3 "Business Combinations" and 12 "Intangible Assets"</i></p>	
Why significant:	How our audit addressed the key audit matter
<p><i>We considered the assessment of impairment of goodwill to be a key audit matter given:</i></p> <ul style="list-style-type: none"> the carrying value of goodwill is material (\$13,466,616); the range of judgements and assumptions used in the impairment assessment model; and the significant carrying value of goodwill, which represent approximately 41% of the total assets on the statement of financial position, this is an area considered to be risk of material misstatement. 	<p><i>Our procedures included, amongst others:</i></p> <ul style="list-style-type: none"> evaluated the Group's cash flow forecasts and compare the basis of the Group's forecasts for the next five years, with the actual results for the current year and assess the accuracy of forecasting; assessed the assumptions and methodology used for the impairment test, in particular, those assumptions relating to the discount rate, gross margin percentage retention and growth, revenue and expense growth rates, and terminal growth rates; tested the sensitivity of the calculations by varying key assumptions and applying other values within a reasonably possible range, for example by reducing certain growth assumptions as a risk assessment procedure; checked the calculations in the valuations model for mathematical accuracy; evaluated the adequacy of the disclosures made in Note 12 in relation to the key assumptions used in the impairment assessment in light of outcomes of the above analysis and the requirements of Australian Accounting Standards.

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF RPM AUTOMOTIVE GROUP LIMITED (Continued)**

Going concern assessment <i>Refer to Note 1 "Going concern and Covid-19" and Note 15 "Borrowings"</i>	
Why significant:	How our audit addressed the key audit matter
<p>The financial statements have been prepared on a going concern basis as discussed in note 1.</p> <p>The Group reported net loss before tax of \$1,340,255 and negative operating cash outflows of \$1,376,581 for the year ended 30 June 2020. The group was also in breach of Debt/EBIDTA (leverage ratio) covenant imposed by the financial institution with respect to the certain borrowing facilities used by the Group.</p> <p><i>We considered the going concern assessment to be a key audit matter given:</i></p> <ul style="list-style-type: none"> the availability of sufficient funding for the Group to meet its obligations is considered key part of our going concern assessment and therefore a significant aspect of our audit; and the significant of availability and continuation of banking facilities to the Group to manage its cash flows. 	<p><i>We performed a number of procedures to assess going concern including the following:</i></p> <ul style="list-style-type: none"> obtained and reviewed the correspondence between the financial institution and management of the Group; assessed the current and non-current classification of bank borrowings in the statement of financial position; analysed the cash flow forecast and enquire with the Group to gain an understanding of the inputs and process underpinning the cash flow model prepared for the purpose of going concern assessment; assessed whether the cash flow model accurately reflected the budget that was approved by the Directors; evaluated the external inputs and assumptions used within the going concern evaluation model by comparing them to assumptions and estimate used elsewhere in the preparation of the financial report; assessed the sensitivity and stress testing that the Group performed on the going concern forecast considering potential downside scenarios and the resultant impact on available funds; read Group's ASX announcements particularly in relation to post year end acquisitions and expansion plans.

**INDEPENDENT AUDITOR’S REPORT
TO THE MEMBERS OF RPM AUTOMOTIVE GROUP LIMITED (Continued)**

Accounting for the reverse acquisition and business combination <i>Refer to Note 1, Note 2 “Reverse Takeover” and Note 3 “Business Combinations”</i>	
Why significant:	How our audit addressed the key audit matter
<p><i>(i) Reverse acquisition</i></p> <p>To facilitate a listing on the ASX, Revolution Racegear Pty Ltd (REV) (part of RPM Group consisting of several entities) undertook a transaction with RPM Automotive Group Limited, previously known as Kairiki Energy Limited (the Company)</p> <p>The transaction resulted in the Company, as the listed entity, being acquired via a reverse acquisition by REV. The continuing entity was renamed RPM Automotive Group Limited. Management assessed the acquisition of the other RPM Group entities to be accounted under ‘AASB 3 Business Combinations’ REV being accounting acquirer.</p> <p><i>We considered this to be a key audit matter due to:</i></p> <ul style="list-style-type: none"> the complexity of the transaction, and the level of audit effort involved; materiality of the transaction and resulting balances; significance and complexity of the associated accounting and disclosures. 	<p><i>(i) Reverse acquisition</i></p> <p><i>Our procedures included, amongst others:</i></p> <ul style="list-style-type: none"> assessed the use of reverse acquisition accounting as the basis of preparation of the financial statements; reviewed the sale and purchase agreements between the entities involved and listing document; reviewed independent accounting specialist advice provided to us by the management on the process and treatment of the transaction; challenged conclusions reached by management; assessed the Group’s conclusions against the requirements of the relevant accounting standards, including interpretation guidance and authoritative support; evaluated the methodology and tested the mathematical accuracy of the calculation of the consideration transferred and the resulting transaction accounting expense; and reviewed the comparative information disclosed in the financial statements to check that it is of the continuing business of the accounting acquirer, REV.
<p><i>(ii) Business combination</i></p> <p>Management exercised judgement on the basis of advice provided to them by independent accounting expert, that in the above reverse acquisition transaction, all the entities except REV within RPM Group were acquired by REV under ‘AASB 3 Business Combinations’</p>	<p><i>(ii) Business combination</i></p> <p><i>Our procedures included, but were not limited to the following:</i></p> <ul style="list-style-type: none"> reviewed purchase and sale agreements to understand the terms and conditions of the acquisitions;

<p><i>We considered this to be a key audit matter due to:</i></p> <ul style="list-style-type: none"> materiality of the transaction and resulting balances; Accounting for acquisition is complex and involves a number of significant judgements and estimates as disclosed in Note 3. The key area of significant judgment an estimation in relation to acquisition of entities within RPM Group by REV were: <ul style="list-style-type: none"> determination of fair value of the consideration including deferred consideration; identification and measurement of the fair value of assets and liabilities acquired. 	<ul style="list-style-type: none"> reviewed independent expert advice provided to management by independent accounting firm in relation to the acquisition accounting of entities in RPM Group excluding REV; assessed and evaluated the treatment and accounting of this transaction under 'AASB 3 Business Combinations'; assessed the estimation of consideration by challenging the key assumptions; assessed the methodology and assumptions used as basis to identify and determine the fair value of assets acquired and liabilities assumed; and assessed the adequacy of disclosures in Note 3.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2020, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon, with the exception of the Remuneration Report and our related assurance opinion.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF RPM AUTOMOTIVE GROUP LIMITED (Continued)

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
 - Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
-
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF RPM AUTOMOTIVE GROUP LIMITED (Continued)**

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

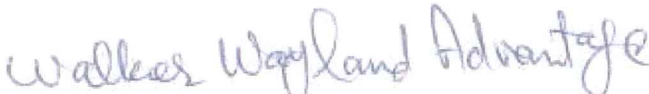

Opinion on the Remuneration Report

We have audited the Remuneration Report included on pages 8 to 11 of the directors' report for the year ended 30 June 2020.

In our opinion, the Remuneration Report of RPM Automotive Group Limited, for the year ended 30 June 2020, complies with section 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
