SCI APPOINTS EXPERIENCED TECHNICAL DIRECTOR

Silver City Minerals Limited (ASX: **SCI**) (**Silver City** or **Company**), is pleased to announce the appointment of Mr Leo Horn to the board of the Company as a Non-Executive Director.

Mr Horn is a technical geologist with over 20 years' experience in the exploration and mining industry for precious, base and rare earth metals, diamonds and uranium across Australia, Asia, North and South America and Africa. During that time Mr Horn has contributed to several significant discoveries including leading the team that delineated several large, high grade uranium resources in the prolific Athabasca Basin of Canada. In addition to key exploration management roles, Mr Horn has extensive experience in executive officer positions in which he has developed valuable corporate finance, marketing and capital raising experience.

Mr Horn holds a Bachelor of Science with Majors in Geology & Geomorphology and Honours in Geology from the University of Western Australia and is a member of the Australian Institute of Geoscientists.

SCI Director Mr Sonu Cheema commented, "The appointment of Mr Horn is aligned with Silver City's development and exploration programs, in particular his significant experience in the Broken Hill area through his previous role as Chief Operating Officer of Impact Minerals Limited. Silver City has one of the largest individual land holdings of any Company in the Broken Hill region and Mr Horn's appointment represents a valuable and important knowledge base for Silver City through his broad range of technical and geological skill sets."

The Company wishes to advise that Mr Roland Gotthard has resigned as Non-Executive Director of the Company and is pleased to confirm he will remain a technical geological consultant for Silver City.

This announcement has been authorised by the Board of Directors of Silver City Minerals Limited.

ABOUT Silver City Minerals Limited

Silver City Minerals Limited (SCI) is a base and precious metal explorer focused on the Broken Hill District of western New South Wales, Australia. It takes its name from the famous Silver City of Broken Hill, home of the world's largest accumulation of silver, lead and zinc; the Broken Hill Deposit. SCI was established in May 2008 and has been exploring the District where it controls Exploration Licenses through 100% ownership and various joint venture agreements. It has a portfolio of highly prospective projects with drill-ready targets focused on high grade silver, gold and base-metals.

Caution Regarding Forward Looking Information

This document contains forward looking statements concerning Silver City Minerals Limited. Forward-looking statements are not statements of historical fact and actual events and results may differ materially from those described in the forward looking statements as a result of a variety of risks, uncertainties and other factors. Forward-looking statements are inherently subject to business, economic, competitive, political and social uncertainties and contingencies. Many factors could cause the Company's actual results to differ materially from those expressed or implied in any forward-looking information provided by the Company, or on behalf of, the Company. Such factors include, among other things, risks relating to additional funding requirements, metal prices, exploration, development and operating risks, competition, production risks, regulatory restrictions, including environmental regulation and liability and potential title disputes. Forward looking statements in this document are based on Silver City's beliefs, opinions and estimates of Silver City Minerals as of the dates the forward looking statements are made, and no obligation is assumed to update forward looking statements if these beliefs, opinions and estimates should change or to reflect other future development.

No New Information

To the extent that this announcement contains references to prior exploration results and Mineral Resource estimates, which have been cross referenced to previous market announcements made by the Company, unless explicitly stated, no new information is contained. The Company confirms that it is not aware of any new information or data that materially affects the information included in the relevant market announcements and, in the case of estimates of Mineral Resources that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.
