HomeSend KPI Update

15 October 2020

Wameja (LSE: WJA.L & ASX: WJA.AX), a joint venture partner with Mastercard in the HomeSend global payment hub, is pleased to provide the following update on the performance of HomeSend for the quarter to 30 September 2020.

KPI	Q3 2020	Previous Quarter Q2 2020
Average Transaction Value	4% decline over prior quarter	9% increase over prior quarter
Gross Value Flows across HomeSend platform	23.0% increase over prior quarter	93.2% increase over prior quarter
Payments terminating to a bank account on the HomeSend network as a percentage of Gross Value Flows	59%	64%
Key Destination Markets* Covered	74	71

*Key Destination Markets are markets in which HomeSend has a ubiquitous reach through banking partners.

The third quarter saw an increase in growth in Gross Value Flows, however the trend from Q2 2020 continued with the growth in the MTO network transactions exceeding the growth in bank transfers. This increase in the value of MTO transactions across the network explains the decline in Average Transaction Value and the Payments terminating to a bank account on the HomeSend network as a percentage of Gross Value Flows, compared to the continuing increase in Gross Value Flows during the period.
