## A share price premium to NTA

Wilson Asset Management is a specialist listed investment company (LIC) manager with a strong track record of delivering risk-adjusted returns for investors and making a difference for shareholders and the community for more than 20 years. Our investment team is comprised of 14 highly experienced investment professionals with combined investment experience of more than 190 years. Shares in the majority of LICs managed by Wilson Asset Management trade at a premium to their underlying NTA.

We are focused on achieving a share price premium to NTA and have agreed to deliver on the Premium Target for shareholders, the first of its kind in the Australian market. The Premium Target requires the Company's share price to trade at a premium to its pre-tax NTA for a period of one month at least three times within the next five years. If this target is not reached, shareholders have the right to vote to terminate the management agreement with Wilson Asset Management and liquidate the Company. We are confident that we can achieve the Premium Target and are pleased to provide shareholders with certainty if it is not met.

We are committed to and aligned with ensuring the success of WAM Alternative Assets. I have recently increased my holding in the Company and currently hold 7.4 million shares, representing over 3.8% of the Company.

If you have any questions about WAM Alternative Assets, please call me, Dania or Corporate Affairs Advisor Olivia Harris on (02) 9247 6755 or email [info@wilsonassetmanagement.com.au](mailto:info@wilsonassetmanagement.com.au). We hope that you enjoy WAM Vault and look forward to meeting you in person when it is safe to do so.

Yours sincerely,

Geoff Wilson AO
