Tinybeans Chief Executive Officer Eddie Geller, said:

"I'm pleased to report another quarter of strong growth despite COVID disruptions to our operations and to our brand partners. The new financial year has commenced extremely well across all aspects of the company. User engagement grew hitting 4M monthly, whilst revenue hit an all-time high of \$2.5M.

Historically, Q1 is seasonally a slower quarter in the U.S. advertising market, however, a 15% revenue growth in USD terms during difficult economic times is very promising. In this climate, we are thrilled to see the evidence of our upgraded and enhanced offer resonating in the market and driving growth.

We kicked off initiatives incorporating richer commerce recommendations across our parenting content, which began to see positive results. E-Commerce revenues are tied back to product/service recommendations inside the content and allow our parents to take action with it.

We have plans to significantly grow this offering as more and more content gets integrated across the app. E-commerce is a complementary addition to the platform and a total addressable market in the baby/kids category in the U.S. of over 1 trillion dollars¹.

I am delighted with the way the team is executing our clear growth strategy. With our upgraded capabilities and enhanced offer, we are well placed to drive scale with ongoing growth and operating leverage."

Revenue

Revenues for Q1 reached a record high of **\$2.5M**, an increase of 123% on the prior year. This record result was in a historically quiet period of the year. Premium subscriptions grew strongly reaching a record 21.8k paying subscribers. 100% of the Company's revenues are now in the United States.

	Q1-FY19	Q1-FY20	Q1-FY21	% Growth
<i>Advertising Revenue</i>	\$ 406,668	\$ 851,132	\$ 2,116,002	149%
<i>Subscription Revenue</i>	\$ 162,302	\$ 229,424	\$ 279,065	22%
<i>E-commerce Revenue</i>	\$ 351	\$ 865	\$ 59,608	6789%
<i>Printing Revenue</i>	\$ 17,055	\$ 35,954	\$ 44,532	24%
<i>Total Revenue</i>	\$ 586,377	\$ 1,117,375	\$ 2,499,207	124%

With over \$1.5M in forward booked revenues already confirmed for Q2-FY21, the Company is expecting another strong performance in the December quarter. Revenue will be recognised on these contracts monthly from October and onwards this is because although these contracts are signed, the client can postpone, delay or cancel these contracts.

The pipeline has continued to grow and now stands at over \$6M USD, which, it is anticipated, will drive revenue growth for the rest of 2020 and the first half of calendar 2021.

EBITDA

With the increase in revenues through Q1, the Company also saw a marked reduction in operating loss. While revenues increased to \$2.5M for the quarter, operating loss as a percentage of revenue hit an all-time low of 13%. This demonstrates the high operating margin across the business, so as revenue accelerates the rate at which costs grow are substantially lower. The calculations used in the table and chart below include one-off costs except for acquisition costs in Q3-FY20.

Approximately 25% of our overall costs are being invested in new product and future revenue streams, mostly related to staff costs. This work is critical and relates to the evolution of the product, to drive increased user growth and accelerated revenues.

	Q1-FY20	Q2-FY20	Q3-FY20	Q4-FY20	Q1-FY21
<i>Revenue</i>	\$ 1,117,375	\$ 1,218,479	\$ 1,285,441	\$ 2,358,155	\$ 2,499,207
<i>Operating Expenses</i>	\$ 1,671,030	\$ 2,313,088	\$ 2,762,217	\$ 3,404,506	\$ 2,868,943
<i>EBITDA</i>	\$ (553,655)	\$ (1,102,191)	\$ (976,544)	\$ (666,895)	\$ (331,826)
<i>Operating Loss %</i>	-50%	-90%	-76%	-28%	-13%

Note. The line in the above graph demonstrates the lower percentage of operating loss and improving vastly over the last 15 months.

Cash flows

Cash burn for Q1-FY21 was \$832k, which excluding one-off costs of \$17k, was an operating cash burn of \$815k. Cash balance as at the end of the quarter was **\$4.55M**.

The operating cash burn of \$815k (excluding one-off costs) was mainly driven by the following:

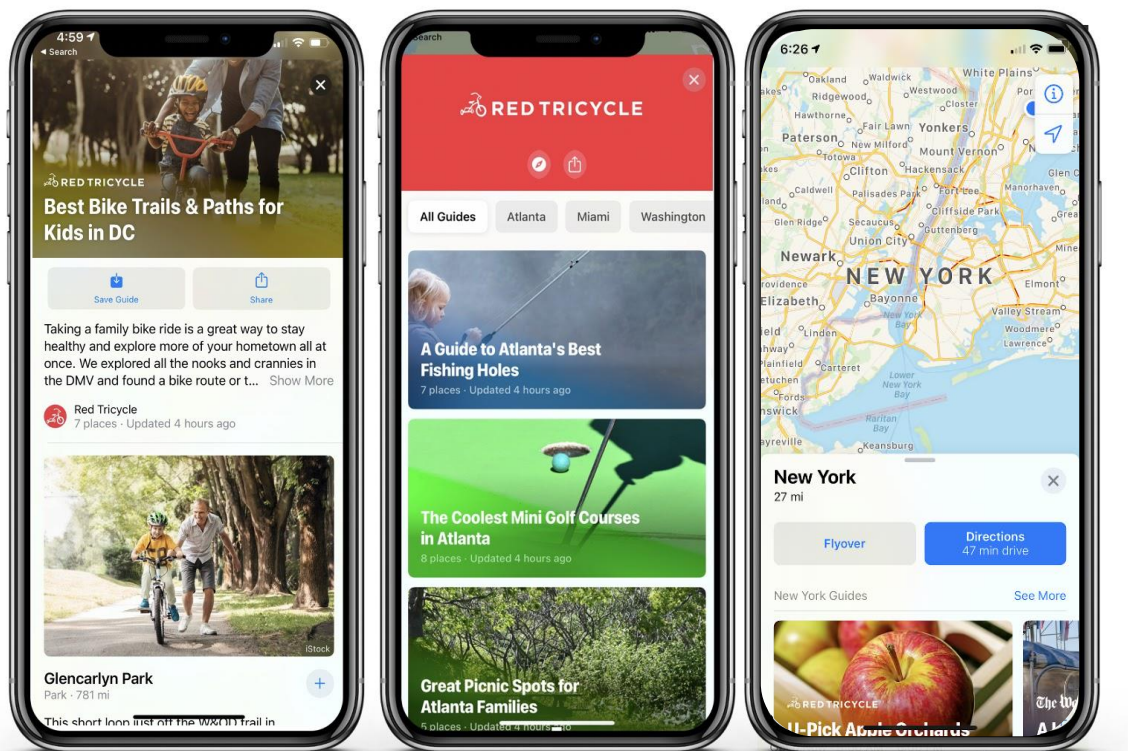

1. Accelerated hiring which led to an increase in recruitment and hiring costs across the brand partnerships team. Tinybeans recruited two new sellers in NY and supporting ad operations staff to support this growth; and
2. Continued the shift to building scale with a growing pipeline of new, larger advertising partners – leveraging YouTube, Walmart and Kraft success – extends sales and payment cycles.

Product & Marketing

Monthly Active Users grew to over **4M**, an increase of **300k new active users**. This growth was across both the redtri.com site and Tinybeans app/website.

Excitingly, the Company announced its partnership with Apple, whereby Apple Maps—the core maps app on iOS—will include our parenting content natively to its experience. The results of which will be known in future months.
