

## 7 January 2021

## Trading Update

Accent Group (ASX:AX1) advises that Group EBITDA (pre AASB16) for the half year ended 27 December 2020 is expected to be in a range of \$95 million to \$98 million. This represents growth of between 40% - 45% on H1 FY2020 EBITDA. We expect EBIT growth will be similar. The Company has not previously provided profit guidance for either H1 FY2021 or the FY2021 full year.

The strong H1 result has been driven by:

- Stronger than expected sales in November and December with total sales up 12.3% and LFL sales up 7.4% in these months
- Positive LFL sales for H1 which were up 2.7%
- H1 LFL sales growth excluding Auckland, Victorian and Adelaide stores (whilst stores were closed) up 12.3%
- Record digital sales for H1 of \$108.1 million, up 110% on prior year and representing 22.3% of sales
- Sales from new stores
- Strong gross margin, ahead of prior year
- The continuation of disciplined cost controls commenced in H2 last year, along with rental abatements and wages subsidies (July September)

Consistent with our people first approach, since June through the Victorian, Auckland and Adelaide shutdowns, and more recently in Sydney's Northern Beaches, all our permanent employees have remained on full pay despite store traffic levels in these areas being significantly impacted. The Company estimates that the net benefit of wage subsidies in H1 FY2021 was \$9.4 million.

Accent Group CEO, Daniel Agostinelli, said "I am delighted with the way our team has executed through the all-important November cyber events and the lead up to Christmas. Our strong focus and capability in digital, combined with operational excellence in merchandise and store execution has delivered a strong, trading led result. The Company's store network and best in class digital fulfilment capability, allowed us to fulfill significant volumes of online Christmas customer orders placed up until 22 December in time for Christmas Day."

Mr Agostinelli concluded "We continue our focus on Virtual, Vertical and VIP with our growth initiatives progressing well across the board. We are well set for the significant back to school trading period across our digital, virtual and store sales channels."

Due to the ongoing uncertainty relating to COVID-19 the Company has determined not to provide guidance for H2 FY2021 or the full year.

Authorised for release by the Board of Directors.
