

ASX RELEASE

Activity Report and Appendix 4C December 2020 Quarter

Sydney, Australia, 20 January 2021: Jaxsta Limited ACN 106 513 580 (**Jaxsta** or the **Company**, ASX: JXT) the world's largest dedicated database of official music credits, is pleased to release its consolidated quarterly cash flow and business activity report for the period ending 31 December 2020.

Business Activities

Jaxsta's business activities for the quarter ended 31 December 2020 are set out below:

- **Increased Membership:** now over 83,000 Jaxsta Pro members, as compared to 73,000 at the time of the September 4C Update;
- Prepared its commercial API for customer engagement;
- Extension of data contract and continued enhancement and addition of new features to Jaxsta Pro.

As at 31 December 2020, Jaxsta had \$2.659 million in cash and cash equivalents. This is \$0.603 million down from the previous quarter period end of \$3.262 million and comes after an operating net cash burn of \$0.506 million which was a 15% reduction on the previous quarter's \$0.592 million operating net cash burn. The reduction was mostly due to the collection of the final R&D concession balance for FY2020.

During the quarter, the business funded its operating activities from its working capital reserves and finalised the sale of Marine Rescue Technologies (MRT) by collecting the final balance of \$320,000.

Summary of expenditure

When looking at the Company's cash expenditure for the quarter and comparing it to the quarter ending 30 September 2020, the company continued its focus on cost containment whilst moving its efforts to commence commercial activities in its Data Solutions and Jaxsta Pro segments in the coming year. The focus was to deliver the technical requirements to allow users to engage our paid applications. This resulted in a mix of changes that drove the final cash flow level:

- There was an increase in staff and admin costs of \$91K due to increased costs for moving the board and C-Suite back to full salaries or fees for the quarter, offset by redundancies enacted in the previous quarter;

- The expenditure mix shifted more funds to product development and operating activities as part of the preparation of the Jaxsta API for commercial release for a net increase of ;
- These was a \$13K reduction in marketing costs as the Jaxsta Pro campaign has shifted to focus on the targeted members for its commercial release in 2021.;
- The Company obtained the final \$320K for the sale of MRT;
- Lastly the completion of the R&D concession refund triggered the repayment of the funds advanced under the R&D facility of \$423K.

During the quarter ended 31 December 2020, the Company used its cash assets in a manner consistent with the prospectus issued on 7 September 2018.

Payments to related parties and their associates

The Company paid \$257K to its related parties comprising salaries, directors fees, reimbursable expense payment and travel allowances to directors including the Chief Executive Officer. No payments were made to associates of any related parties.
