8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

The net operating cash flows are still impacted by the commodity prices (Gas, Oil & LPG) because of COVID-19. However, prices are continuing to rise.

Armour saw lower sales volumes temporarily due to the 2020 work program in the December 2020 quarter. The 2020 work program is now in its final stages with most of the wells coming back online at the end of the quarter. The cash generating ability of the Kincora Project will continue to increase as the Group's 2021 work program starts in the new calendar year.

In addition, the Company is continuing its cost reduction initiatives including payments in shares, minimisation of field expenditures and administration costs and overheads.

2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

Armour has a further \$9.2 million to be received from the recently announced \$12.5 million asset transaction in December.

Armour is continuing its focus is on its core assets. Armour is still working with Ocean Reach Advisory to assist with the potential farm-out of the NT McArthur Basin Project.

The Company can manage capital and liquidity by taking some or all of the following further actions:

- a. Raising additional capital or securing other forms of financing, as and when necessary to meet the levels of expenditure required to meet the Group's working capital requirements.
- b. Reducing its level of capital expenditure through farm-outs and/or joint ventures.
- c. Managing its working capital expenditure.
- d. Applying for Government incentives; and
- e. Disposing of non-core assets.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes, on the basis that Armour will see further increased production from the stimulation program and asset transactions, to which Ocean Reach Advisory have been appointed to assist. Together with the other cost reduction initiatives, Armour will fund its operations and meet its business objectives.
