Appendix 4C and Quarterly Activities Report

The Directors of Site Group International Limited ("Site", ASX:SIT) have released the Appendix 4C quarterly cash flow for the quarter ended 31 December 2020.

The results for the quarter saw revenues reduce to \$4.5m with an EBITDA loss of (\$0.3m). The cash position of Site at the end of the December was \$0.14m with undrawn facilities of \$0.54m. Operating cash for the quarter was a net outflow of (\$0.3m).

As previously reported COVID-19 continues to significantly impact economies around the world. Site continues to provide services in most jurisdictions albeit in a reduced or intermittent delivery in some places such as Philippines, Myanmar, PNG and KSA. The decline in international revenues experienced towards the end of FY20 has continued into the second quarter of FY21, however renewals on the contracts in Kingdom of Saudi Arabia for 2 years at the existing NCTC facility and likely contract awards on new projects in the Kingdom provide predicted relief and return to full services in the Kingdom. The expectations of further significant training contracts in KSA and Bahrain previously alluded to are likely indicators that the Middle East and North Africa region will drive significant growth for the International business during 2021.

The investment made by the company in pursuing these markets with our consortium partners has been significant however with increasing signs of a return to more normalised operations, particularly as COVID-19 vaccinations roll out should see a vastly improved and growing International business.

In Australia there has been a return towards previous levels of skills and licence training. There is significant industry improvement in QLD, NT and WA driven by record exports of commodities, particularly Iron Ore.

Clark Property

As previously announced Site continues to pursue the potential development of its 30 hectare Clark Leasehold property as part of the strategy to maximise international asset values. The progress continues to be hampered by COVID-19 however commercial discussions around the property are continuing with parties in discussions involving partnering and directly investing in the project. Currently a market evaluation process is underway.

Expenditure on these activities consists of employee costs and consultant and advisor fees to legal and property specialists.

Regulatory Actions

The company is awaiting the outcome of the hearing with the ACCC in the Federal Court in June 2020 and expect a decision potentially within this financial year.

In December 2020 Site announced it is appealing its adverse decision received in the Administrative Appeals Tribunal in December. A hearing date is expected to be determined this calendar year.

Expenditure on these activities comprised professional fees for legal costs as well as salaries and wages to employees.

Authorised for release by the Board.
