

Quarterly Report to 31st December 2020

- Funds received regarding share issue
- Continued cost cutting review.
- Future funding opportunities.
- Drilling Program

Funds received regarding share issue.

Payment of the shares that were reported in the Annual report were finalised in December 2020. These funds were received as payment for the placement that occurred in previous years.

Continued Cost cutting review

Review of costs has continued in this quarter, identifying opportunities where the company can minimise costs into the future commensurate with the current operating conditions.

These include and are not limited to Newcastle site, Labour and administrative costs. Our forward target for monthly costs are \$ 35-40,000 per month. In the quarter a review was conducted into the company accounts and systems. This has led to further questions of previous management which we are currently following up.

Future funding opportunities

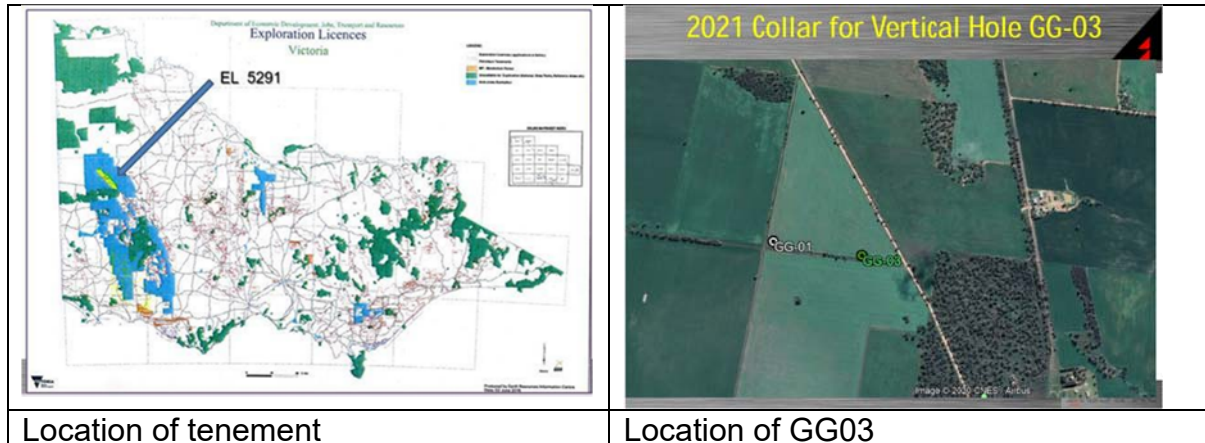

The board has engaged with a number of parties with the aim to develop new projects to be launched in the business. These are ongoing. A steel Industry partner is being sought to continue development of the process to a commercial scale.

Drilling program

In September 2020 our license was renewed by the Victorian Government.

In January 2020 new geophysical work was conducted at Nhill generating a great deal of information regarding the site and where we should locate Drill hole GG-03. Due to Covid 19 there was no work conducted on site since Mar 2020. Interpretation of the Geophysical work was undertaken in February March 2020 by Mike Smith. As a result of this work Mike has determined the best location for our drill hole GG03.

Expressions of interest have been sent out to drilling companies. These should all be returned in early February and decision on partner to conduct drilling at GG03 will be decided.

Through the interpretation of the Geophysical data a vertical hole will be drilled at location GG-03. This was chosen due to a focused strong target area based on modeling from the geophysical work conducted in Jan 2020.

The site was determined using 2 sources of data overlaid to give the best possible opportunity for success.

There are 2 dipping bodies one associated with GG-01 and a stronger target northeast. This is backed up with strong magnetic response and high density in the area of GG-03 The hole is located 550 m east of GG-01.

If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.

Mining exploration entity or oil and gas exploration entity quarterly report

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(346)
8.2 Capitalised exploration & evaluation (Item 2.1(d))	-
8.3 Total relevant outgoings (Item 8.1 + Item 8.2)	(346)
8.4 Cash and cash equivalents at quarter end (Item 4.6)	271
8.5 Unused financing funding (Item 7.5)	-
8.6 Total available funding (Item 8.4 + Item 8.5)	271
8.7 Estimated quarters of funding available (Item 8.6 divided by Item 8.3)	0.8

8.8 If Item 8.7 is less than 2 quarters please provide answers to the following questions:

- Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

The recent December quarter included numerous exceptional payments (1.8 - \$116,000 and 1.2(d) \$39,000). The above cash payments are unlikely to reoccur in the following two quarters. Management has estimated cash expenditures of around \$40,000 per month from hereon.

- Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The company has received proposals from financial institutions to fund projects for the business, subject to finalising dispute with previous management. These proposals are currently under review and consideration.

- Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

The business expects to continue its operations base on the future estimated cash expenditure of \$40,000 per month and plans to raise additional funds for the business - as noted in 2 above.

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement does give a true and fair view of the matters disclosed.

Date: 29 January 2021

Authorised by: By the board
(Name of body or officer authorising release - see note 4)

Notes

- 1 This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- 2 If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3 Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4 If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee - eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- 5 If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and give a true and fair value of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
