

Unifying the care experience.

## **ASX ANNOUNCEMENT**

### **Oneview Healthcare and Samsung SDS America announce a Distribution Agreement to offer SaaS digital care solutions in North America**

**Dublin, Ireland — February 1st, 2021** — Oneview Healthcare (ASX.ONE), a global healthcare technology company has signed a Distribution Agreement with Samsung SDS America, Inc. (Samsung SDSA), the enterprise IT solutions provider of Samsung, to offer a bundled solution for bedside digital services for patients in the United States.

The Agreement will initially enable Samsung SDSA to distribute Oneview's Cloud Start product to healthcare-focused enterprise resellers, commencing in February 2021. Cloud Start, which can be rapidly deployed to support COVID-19 response or as a platform for bedside digital services, runs exclusively on Samsung tablets. Bundling Cloud Start will make it simple for end-customers to get started with Oneview's Care Experience Platform, streamlining the procurement and implementation process.

Oneview's Cloud Start is a proven technology deployed across 4 world-class hospitals in New York at the height of the COVID crisis. The solution enables the secure reliable and scalable delivery of apps and digital services at patient bedside, including virtual rounding, virtual visitation and virtual translation. For end-customers requiring more advanced features and integrations, there is an upgrade path to the Cloud Enterprise tier with additional features such as personalized education delivery, meal ordering and patient service requests, to provide better control and quality of care for both patients and care providers.

James Fitter, Oneview CEO, commented "Our move to the cloud accelerates speed to market and opens new possibilities for distribution, making it faster, easier and lower-cost for end-customers to benefit from the digital platform at the bedside. Never has this need been so apparent. Our partnership with Samsung provides a unique opportunity to address new virtual models of care and provide the solution for Samsung SDSA to enhance the value proposition for their reseller network."

"With the US health system focused on continually improving the patient care experience, Samsung SDSA is committed to providing mobile-focused solutions to help serve our customers," said Mingu Lee, Chief Business Officer and Senior Vice President, Samsung SDS America. "Our distribution partnership with Oneview Healthcare enables us to deliver a more cost-effective and impactful solution, allowing caregivers to work efficiently while providing a connected experience for patients."

Unifying the care experience.

### **About Samsung SDS America**

Samsung SDS America (Samsung SDSA) is the U.S. subsidiary of Samsung SDS, a global software solutions and IT services company. Samsung SDSA helps organizations optimize their productivity and make smarter business decisions using our enterprise software solutions for secure mobility, HPC managed services, DOOH, and advanced analytics and contextual marketing. We enable our customers in healthcare, financial services, retail, and other industries to drive business and improve their competitive positions in a hyper-connected economy.

### **About Oneview Healthcare**

For healthcare systems who lead on exemplary care, Oneview Healthcare provides digital tools for patients, families and caregivers to improve the care experience. Unifying a facility's systems, content and services into one digital platform with dedicated devices at the point of care, Oneview helps deliver more control for patients and families, more time for care teams, and less complexity for executives and IT teams. Oneview is proud to partner with leading healthcare systems in the US, Australia, the Middle East and Asia.

This release has been approved by the Board of Oneview Healthcare Plc.
