About this Prospectus

This Prospectus relates to the offer by Macquarie Group Limited (ABN 94 122 169 279) (“MGL”) of Macquarie Group Capital Notes 5 (“MCN5”) to raise \$500 million with the ability to raise more or less (the “Offer”).

This Prospectus is dated Monday, 15 February 2021 and a copy was lodged with the Australian Securities and Investments Commission (“ASIC”) on that date pursuant to section 713(1) of the *Corporations Act 2001* (Cth) (“Corporations Act”) (as modified by the ASIC Corporations (Regulatory Capital Securities) Instrument 2016/71). This Prospectus expires 13 months after that date and no MCN5 will be issued on the basis of this Prospectus after that expiry date.

Neither ASIC nor ASX Limited (“ASX”) take any responsibility for the contents of this Prospectus or for the merits of investing in MCN5.

Exposure Period

Under the Corporations Act, MGL is prohibited from accepting Applications in the seven day period after Monday, 15 February 2021, being the date on which this Prospectus was lodged with ASIC (“Exposure Period”). The Exposure Period may be extended by ASIC by up to a further seven days. The purpose of the Exposure Period is to enable this Prospectus to be examined by market participants prior to the raising of funds. No Application Forms will be available during the Exposure Period.

Status of MCN5

MCN5 are fully paid, unsecured, subordinated, non-cumulative, mandatorily convertible notes.

MCN5 are not deposit liabilities and are not protected accounts of Macquarie Bank Limited (ABN 46 008 583 542) (“MBL”) under the *Banking Act 1959* (Cth) (“Banking Act”) and are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction. MGL is not an authorised deposit-taking institution (“ADI”) for the purposes of the Banking Act and its obligations do not represent deposits or other liabilities of MBL. The investment performance of MCN5 is not guaranteed by MGL, MBL or any other member of the Macquarie Group.

Claims in respect of MCN5 are subordinated in a winding up of MGL so as to rank after all creditors, equally with the holders of certain preference shares and other equal ranking instruments and ahead only of holders of Ordinary Shares. Further, if MGL is in financial difficulty some or all MCN5 may be required to be Exchanged into Ordinary Shares or Written-Off. If Exchange occurs, you would be in the position of a holder of Ordinary Shares and those shares may be worth significantly less than your investment in MCN5. If an MCN5 is Written-Off you lose all of your investment in that MCN5.

MCN5 are unsecured notes for the purposes of section 283BH of the Corporations Act.

MCN5 are issued by MGL under the MCN5 Terms and the Trust Deed and holders of MCN5 have no claim on MGL except as provided in the MCN5 Terms and the Trust Deed.

MGL recommends that you seek guidance from your licensed financial adviser or other professional adviser before deciding whether to invest. You can find this guidance by searching “hybrid securities” at www.moneysmart.gov.au. Investment overview

This section provides a summary of information that is key to deciding whether to invest in MCN5.

1.1. Key features of the Offer

Topic	Summary	Further information
1.1.1. What is the Offer?	- The Offer is for the issue of MCN5 to raise approximately \$500 million, with the ability to raise more or less. - The Offer includes the Reinvestment Offer, which is a priority offer to Eligible MCN2 Holders to reinvest some or all of their MCN2 in MCN5.	Sections 2 and 3
1.1.2. Who is the Issuer?	MGL, a public company incorporated with limited liability in Australia.	Section 4
1.1.3. What are MCN5?	- MCN5 are: fully-paid – the Issue Price (\$100 per MCN5) must be paid to MGL before the MCN5 are issued; subordinated – MCN5 are subordinated to claims of Senior Creditors in a Winding Up of MGL. They rank equally with Equal Ranking Obligations and rank ahead of Ordinary Shares; non-cumulative – if a Distribution is not paid when scheduled, then that Distribution may never be paid and MCN5 Holders will have no rights to receive that Distribution in the future; unsecured – MCN5 are not deposit liabilities and are not protected accounts of MBL or MGL and are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction. The investment performance of MCN5 is not guaranteed by MGL or any other member of the Macquarie Group; mandatorily convertible – subject to certain conditions, MCN5 must be Exchanged into Ordinary Shares of MGL on 18 September 2030; perpetual – if the conditions for Exchange are not met, MCN5 may remain on issue indefinitely; and automatically convertible – in certain circumstances, including where a Non-Viability Event occurs, MCN5 must be immediately Exchanged into Ordinary Shares or, if that does not occur where a Non-Viability Event occurs, Written-Off. - The terms of the MCN5 are complex and derived from the detailed capital requirements which the Australian Prudential Regulation Authority (“APRA”) applies to these instruments. MGL’s ability to pay Distributions or to repay MCN5 is dependent upon APRA either not objecting or giving prior written approval (as well as other conditions).	Section 2
1.1.4. Will MCN5 be quoted on ASX?	MGL will apply for MCN5 to be quoted on ASX and MCN5 are expected to trade under ASX code MQGPE.	Section 8.6.3
1.1.5. What is the Issue Price?	\$100 per MCN5. This is the price you need to pay to apply for each MCN5 under this Prospectus.	Section 8.4
1.1.6. Who is the Trustee?	- MGL has appointed Equity Trustees Limited (ACN 004 031 298) as Trustee for MCN5 Holders. The Trustee holds certain rights in relation to the MCN5 on trust for MCN5 Holders under the Trust Deed and all MCN5 Holders are bound by the terms of the Trust Deed. - The Trustee is obliged to take action to enforce the MCN5 Terms only if conditions in the Trust Deed are met, including that it is directed by MCN5 Holders, its liability is limited and it is indemnified to its satisfaction.	Section 7.1

Topic	Summary	Further information
1.1.7. Why is MGL issuing MCN5?	- As at the Issue Date, MCN5 will constitute eligible regulatory capital of Macquarie Group in a manner which satisfies APRA's regulatory capital requirements. The MCN5 and MGL's other regulatory capital instruments and equity capital provide a buffer which protects Senior Creditors against losses that may be incurred by the Macquarie Group. - MGL expects to redeem the MCN2 on 17 March 2021 and replace them with the MCN5. The Offer includes the Reinvestment Offer under which Eligible MCN2 Holders can reinvest some or all of their MCN2 in MCN5. - The net proceeds of the Offer will be used for general corporate purposes.	Sections 2.9

1.2. Key features of MCN5

Topic	Summary	Further information
1.2.1. Do MCN5 have a maturity date?	- MCN5 are perpetual and do not have a fixed maturity date and, if MCN5 are not Exchanged, Redeemed or Written-Off, they could remain on issue indefinitely and the Issue Price may not be repaid. - MCN5 will Exchange into Ordinary Shares on 18 September 2030, subject to certain Exchange Conditions being satisfied, unless they are Exchanged, Redeemed or Written-Off earlier. - If the Exchange Conditions have not been satisfied on the above date then MCN5 will Exchange on the next Distribution Payment Date on which the Exchange Conditions are satisfied, unless they are Exchanged, Redeemed or Written-Off earlier.	Sections 2.2 to 2.8
1.2.2. What Distributions are payable?	- Distributions are scheduled to be paid quarterly in arrears commencing on 18 June 2021 until all MCN5 are Exchanged, Redeemed or Written-Off, subject to the Payment Conditions – see below. - The Distribution Rate is based on the Reference Rate plus the Margin, adjusted for franking. - The Margin will be determined under a Bookbuild and is expected to be between 3.00% and 3.20%. This range is indicative only and the Margin may be outside this range depending on the outcome of the Bookbuild. The Bookbuild will occur before the Offer opens and the Margin will be set for the life of MCN5, regardless of any deterioration or improvement in market conditions. - Distributions on MCN5 are discretionary, which means MGL can decide not to pay them. Distributions can also only be paid if certain Payment Conditions are met (including that MGL is able to pay Distributions without breaching APRA's capital adequacy requirements or becoming insolvent). - Distributions are non-cumulative, which means that if a Distribution is not paid on a Distribution Payment Date then MGL has no obligation to pay the Distribution at any later date. Failure to pay a Distribution is not an event of default. - Unless a Distribution is paid in full within 10 Business Days of the Distribution Payment Date, in most circumstances MGL is restricted from paying any dividends or returning capital on Ordinary Shares until the next Distribution Payment Date.	Section 2.1

Topic	Summary	Further information
1.2.3. Will Distributions be franked?	- Distributions on MCN5 are frankable. - Distributions are expected to be franked at the same rate as dividends on Ordinary Shares. MGL currently franks dividends on Ordinary Shares at 40%. The level of franking may vary over time and Distributions may be partially, fully or not franked. - A higher Franking Rate for a Distribution will result in a lower Distribution Rate and a lower cash Distribution, reflecting the value of the franking credit attached to the Distribution. - If Distributions are franked, the value and availability of franking credits to an MCN5 Holder will depend on that MCN5 Holder's particular circumstances and the tax rules that apply at the time of each Distribution. The availability of franking credits is not guaranteed. MCN5 Holders should refer to the Australian taxation summary at section 6.1.	Sections 2.1.3, 2.1.4, 5.1.7, 5.1.8, 5.1.22 and 6
1.2.4. When will the Issue Price be repaid?	- MGL has no obligation to return the Issue Price on any fixed date, therefore capital invested by MCN5 Holders may never be returned. - Whether and when the capital invested by MCN5 Holders may be returned will depend on what happens to MCN5. What may happen to MCN5 is uncertain and depends on a number of factors, including whether: - the Exchange Conditions are satisfied in respect of a Relevant Mandatory Exchange Date; - a Non-Viability Event, Acquisition Event, Regulatory Event or Tax Event occurs; - MGL elects for an Optional Exchange, Redemption or Resale to occur; and - APRA approval is given when it is required under the MCN5 Terms. - MCN5 Holders will have no right to request that MGL Exchange, Redeem or Resell any MCN5. - If a Non-Viability Event occurs MCN5 will be Exchanged for Ordinary Shares or Written-Off if Exchange does not occur for any reason. If MCN5 are Written-Off, the relevant MCN5 Holders' rights will be terminated and they will not receive any return of capital invested.	Sections 2.2 to 2.8
1.2.5. Will MCN5 be Redeemed?	- If APRA gives prior written approval, MGL has a right, but not an obligation, to Redeem all or some MCN5: - on 18 September 2027, 18 March 2028 or 18 September 2028;² or - if a Tax Event or Regulatory Event occurs. - Redemption cannot occur unless MCN5 are replaced with securities forming part of Eligible Capital of the same or better quality from APRA's perspective or APRA is satisfied that MGL's capital position is sufficient after Redemption. - If MCN5 are Redeemed MCN5 Holders will receive \$100 for each MCN5 Redeemed and, if the Payment Conditions are met, a Distribution for the period since the last Distribution Payment Date to (but excluding) the Redemption Date.	Section 2.5
1.2.6. Will MCN5 be Resold?	- MGL has a right, but not an obligation, to Resell all or some MCN5 in the same limited circumstances as when Redemption may occur. - If a Resale occurs, the relevant MCN5 will be mandatorily sold to one or more nominated third parties. MCN5 Holders will receive a cash amount of \$100 for each MCN5 Resold and, if the Payment Conditions are met, a Distribution for the period since the last Distribution Payment Date to (but excluding) the Resale Date.	Section 2.6

2. Due to the Business Day convention, the Scheduled Optional Exchange Dates are deferred from 18 September 2027 to 20 September 2027, and from 18 March 2028 to 20 March 2028.

Topic	Summary	Further information
1.2.7. Will MCN5 be Exchanged for Ordinary Shares?	MCN5 may be Exchanged for Ordinary Shares in the following circumstances: • Mandatory Exchange: All MCN5 are scheduled to be Exchanged on 18 September 2030, unless the Exchange Conditions relevant to that date are not met (in which case, Exchange will be deferred until the first quarterly Distribution Payment Date where the Exchange Conditions relevant to that date are met). The Exchange Conditions (where applicable) are intended to ensure that MCN5 Holders will receive approximately \$101 worth of Ordinary Shares per MCN5 on Exchange (based on the VWAP during the 20 ASX Trading Days before the Relevant Mandatory Exchange Date) and that the Ordinary Shares are capable of being sold on ASX. • Exchange at MGL's option: MGL may also choose to Exchange all or some MCN5 on 18 September 2027, 18 March 2028 or 18 September 2028,³ or if there has been a Tax Event or Regulatory Event, provided certain conditions are met. • Acquisition Event: MGL will be required to Exchange all MCN5 for Ordinary Shares if an Acquisition Event occurs (broadly, a change of control of MGL by takeover bid, scheme of arrangement or otherwise), provided certain conditions are met. • Non-Viability Event: MGL will be required to immediately Exchange all or some MCN5 for Ordinary Shares (or, if Exchange has not occurred for any reason within 5 Business Days, Write-Off all or some MCN5) if a Non-Viability Event occurs. Exchange under these circumstances is not subject to any conditions.	Sections 2.3, 2.4, 2.7 and 2.8
1.2.8. What will MCN5 Holders receive on Exchange?	• If Exchange occurs as a result of Mandatory Exchange, or at MGL's option, MCN5 Holders will receive approximately \$101 worth of Ordinary Shares per MCN5, but those shares may be worth more or less than \$101 by the time they are issued. • If Exchange occurs as a result of an Acquisition Event, MCN5 Holders should receive approximately \$101 worth of Ordinary Shares per MCN5, except in limited circumstances where the Directors determine that it is in the best interests of MCN5 Holders as a whole for Exchange to proceed, notwithstanding that MCN5 Holders will receive less than \$101 worth of Ordinary Shares. Similarly to Mandatory Exchange or Exchange at MGL's option, those shares may be worth more or less than \$101 by the time they are issued. • The number of Ordinary Shares to be received by each MCN5 Holder in respect of its aggregate holding of the MCN5 will also be rounded down to the nearest whole number. • See below for what MCN5 Holders receive on Exchange as a result of a Non-Viability Event.	Sections 2.3 and 2.4
1.2.9. What will MCN5 Holders receive on Exchange on a Non-Viability Event?	• MGL is required to immediately Exchange MCN5 into Ordinary Shares where a Non-Viability Event occurs. MCN5 Holders will not receive prior notice of the Exchange. • Broadly, a Non-Viability Event occurs if APRA has notified the Issuer in writing that (1) Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable or (2) APRA has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable. As at the date of this Prospectus, APRA has not provided specific guidance as to how it would determine non-viability. • Exchange on account of a Non-Viability Event is not subject to any conditions. As a result, MCN5 Holders may receive less, or significantly less, than the Issue Price per MCN5 and an MCN5 Holder may suffer loss as a consequence.	Section 2.7
1.2.10. What happens if Exchange following a Non-Viability Event does not occur?	• If, for any reason, MCN5 that are required to be Exchanged on account of a Non-Viability Trigger Event have not been Exchanged within 5 Business Days of the Non-Viability Exchange Date, they will never be Exchanged and must be Written-Off. • If a Write-Off of an MCN5 occurs, the MCN5 Holder's rights under that MCN5 (including to payment of the Liquidation Amount and Distributions) are immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date and MCN5 Holders will suffer a total loss of their investment in that MCN5 as a consequence.	Section 2.7

3. Due to the Business Day convention, the Scheduled Optional Exchange Dates are deferred from 18 September 2027 to 20 September 2027, and from 18 March 2028 to 20 March 2028.

- Please see the Glossary for full definitions.
- MCN5 Holders should not expect that APRA's approval will be given for any Redemption.
- The Exchange Conditions applicable to a Mandatory Exchange differ from those applicable to a Tax Event, Regulatory Event, Acquisition Event or an Optional Exchange. See sections 2.3, 2.4, 2.7 and 2.8.
- If Exchange (other than on account of a Non-Viability Event), Redemption or Resale occurs on a day that is not a scheduled quarterly Distribution Payment Date, MCN5 Holders which are being Exchanged, Redeemed or Resold will also receive a Distribution in respect of those MCN5 for the period from the immediately preceding Distribution Payment Date to the date on which the Exchange, Redemption or Resale occurs (provided the Directors have decided to pay the Distribution and the other Payment Conditions are met).
- The value of Ordinary Shares is determined over a period of ASX Trading Days immediately prior to Exchange (generally the period is 20 ASX Trading Days, with 5 ASX Trading Days for Non-Viability Exchange). At the time they are issued, the value of Ordinary Shares received on Exchange may be more or less than \$101.
- May be less if Directors determine that Exchange is in the best interests of MCN5 Holders as a whole, notwithstanding that MCN5 Holders will suffer loss, or that the Ordinary Shares may not be listed. See section 2.8.
- Whilst APRA approval is not required for an Exchange due to a Non-Viability Event, APRA must determine that a Non-Viability Event has occurred.
- MCN5 are perpetual and, if the Exchange Conditions are never met, Exchange may never occur and MCN5 may remain on issue indefinitely. Unless Redeemed, Exchanged or Written-Off earlier, MCN5 will be mandatorily Exchanged on 18 September 2030 provided the Exchange Conditions are met, or on the next Distribution Payment Date on which the Exchange Conditions are satisfied.
- * Due to the Business Day convention, the Scheduled Optional Exchange Dates are deferred from 18 September 2027 to 20 September 2027 and from 18 March 2028 to 20 March 2028.
- Whilst APRA approval is not required to give a Resale Notice, the terms of appointment of a Nominated Party may require APRA approval.

Topic	Summary	Further information														
1.2.12. Ranking of MCN5 in a Winding Up of MGL	- In a Winding Up of MGL, MCN5 will rank ahead of Ordinary Shares, equally with Equal Ranking Obligations, but behind all Senior Creditors of MGL. The table below illustrates this ranking, if the MCN5 have not been Exchanged or Written-Off. - However, any return on MCN5 may be adversely affected or reduced to zero if a Non-Viability Event occurs. If APRA determines that a Non-Viability Event occurs, some or all of the MCN5 are required to be Exchanged or, if that does not occur, Written-Off. Where an Exchange occurs, the MCN5 Holders will become holders of Ordinary Shares (ranking equally with other Ordinary Shares). If MCN5 are Written-Off, the MCN5 Holders will have no claim at all on MGL (even though Ordinary Shares will still be on issue). <table> <tr> <th>Ranking</th><th colspan="2">Illustrative examples</th></tr> <tr> <td rowspan="5"> Higher  Lower </td><td>Preferred and secured debt</td><td>Liabilities preferred by law including employee entitlements and secured creditors.</td></tr> <tr> <td>Unsubordinated and unsecured debt</td><td>Unsubordinated and unsecured bonds and notes, trade and general creditors.</td></tr> <tr> <td>Subordinated and unsecured debt</td><td>Subordinated and unsecured debt obligations.</td></tr> <tr> <td>Preference shares and equal ranking securities</td><td> Equal Ranking Obligations and MCN5 (if a Non-Viability Event has not occurred). Those shares may be worth significantly less than the Issue Price of MCN5. 1.2.13. MCN5 are not guaranteed	- MCN5 are not guaranteed by any member of the Macquarie Group and are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction, or by any other person. - MCN5 are not deposit liabilities or protected accounts for the purposes of the depositor protection provisions in Division 2 of Part II of the Banking Act or of the Financial Claims Scheme established under Division 2AA of Part II of the Banking Act. 1.2.14. 1.3. What are the key risks of investing in MCN5?

There are risks associated with an investment in MCN5, many of which are outside the control of MGL. These risks include those in this section 1.3 and section 5 and other matters referred to in this Prospectus.

Before applying for MCN5, you should consider whether MCN5 are a suitable investment for you. MCN5 are a complex investment and may be difficult to understand, even for experienced investors.

A summary of the key risks associated with an investment in MGL and the Macquarie Group generally are described in section 5.2.

Topic	Summary	Further information
1.3.1. Market Price and Liquidity of MCN5	• The market price of MCN5 may go up or down due to many factors and there is no guarantee MCN5 will trade at or above their Issue Price. For example, the market price of MCN5 may decline if better rates of return are available on other securities. • The market price of MCN5 may also decline due to the impact of the COVID-19 pandemic on global, regional and national economies and markets. The expected duration and magnitude of the COVID-19 pandemic and its potential impacts on the economy and market price of MCN5 are unclear. • The market price of MCN5 may also be significantly impacted by the market price for Ordinary Shares. • There may be no liquid market for MCN5. • MCN5 Holders who wish to sell their MCN5 may be unable to do so at a price acceptable to them, or at all.	Section 5.1.3
1.3.2. Market price and liquidity of Ordinary Shares	• If MCN5 are Exchanged into Ordinary Shares, the value of those Ordinary Shares is determined over a period of up to 20 ASX Trading Days immediately prior to Exchange. At the time they are issued, the price at which the Ordinary Shares received by MCN5 Holders can be sold may be more or less than the anticipated \$101. • Additionally, in various circumstances the market price of Ordinary Shares may determine whether Exchange can occur. This will affect when Exchange occurs (and may mean that Exchange never occurs). • The COVID-19 pandemic has, and will likely continue to, severely impact global, regional and national economies and markets. The expected duration and magnitude of the COVID-19 pandemic and its potential impacts on the economy and the market price for Ordinary Shares are unclear. • The market price for Ordinary Shares will vary due to many factors including the availability and rates of return on other securities, investor perceptions of the Macquarie Group's financial position and performance and general economic and market conditions. • The market for Ordinary Shares may be less liquid than other securities and may not be liquid at all, so that MCN5 Holders may be unable to sell the Ordinary Shares they may receive for an acceptable price, or at all.	Section 5.1.4
1.3.3. Distributions may not be paid	• MGL has absolute discretion to determine whether or not to pay Distributions. • Furthermore, a Distribution can only be paid if the Payment Conditions are met, including that MGL is able to pay the Distribution without MGL breaching APRA's capital adequacy requirements or becoming insolvent and APRA does not object to the payment of the Distribution. This means that there is a risk that Distributions may not be paid. • Distributions are non-cumulative. Accordingly, if a Distribution is not paid for any reason, MCN5 Holders will have no rights to receive that Distribution in the future.	Section 5.1.5

Topic	Summary	Further information
1.3.4. Changes in Distribution Rate	- The Distribution Rate is a floating rate equal to the sum of the Reference Rate plus a Margin, adjusted for the Tax Rate and the Franking Rate. - Although the Margin remains fixed for as long as MCN5 are on issue, the Distribution Rate will fluctuate (both increasing and decreasing) over time as a result of movements in the Reference Rate. - A higher Franking Rate for a Distribution will result in a lower Distribution Rate and a lower cash Distribution, reflecting the value of the franking credit attached to the Distribution. - There is a risk that the Distribution Rate may become less attractive when compared to the rates of return available on comparable securities or investments.	Section 5.1.6
1.3.5. Level of franking	- The level of franking of Distributions on MCN5 is affected by the level of MGL's available franking credits and distributable profits. MGL's level of franking credits may be affected by a wide range of factors, including its business performance, the jurisdictions in which the Macquarie Group makes profits and pays tax and the amount of other frankable distributions. MGL's distributable profits may also be affected by a wide range of factors including its level of earnings and other distributions it makes. - The value and availability of franking credits to an MCN5 Holder will depend on that MCN5 Holder's particular circumstances and the tax rules that apply at the time of each Distribution. MCN5 Holders should refer to the Australian taxation summary in section 6.1.	Sections 5.1.7, 5.1.8, 5.1.22 and 6
1.3.6. MCN5 are perpetual and may never be Exchanged, Redeemed or Resold	MCN5 are a perpetual instrument but will Exchange for Ordinary Shares on 18 September 2030 if they are still on issue and the Exchange Conditions are satisfied. If the Exchange Conditions are not met on this date MCN5 will Exchange on the next subsequent Distribution Payment Date on which the Exchange Conditions are met. There is a risk that the Exchange will not occur on any of these dates and may never occur because these Exchange Conditions cannot be satisfied.	Section 5.1.11
1.3.7. MGL has rights for Exchange, Redemption or Resale at its election	- MGL may elect to Exchange, Redeem or arrange a Resale of all or some MCN5 in certain circumstances, subject to a number of conditions, including prior written approval from APRA when required under the MCN5 Terms. - Where required, APRA's approval is at the complete discretion of APRA and may or may not be granted. - The choice to elect the Exchange, Redemption or Resale of all or some MCN5 is entirely at MGL's discretion and MCN5 Holders have no right to either request or alter the timing of any Exchange, Redemption or Resale. - It is uncertain whether and when Exchange, Redemption or Resale may occur. The timing of any Exchange, Redemption or Resale may not suit MCN5 Holders.	Sections 5.1.10 to 5.1.13
1.3.8. Losses due to an Acquisition Event	If an Acquisition Event occurs, and the Directors determine it is in the best interests of MCN5 Holders, Exchange may occur even though MCN5 Holders would receive less (and possibly significantly less) than \$101 worth of Ordinary Shares or even though those Ordinary Shares are unlisted and MCN5 Holders may suffer a loss as a result.	Section 5.1.14
1.3.9. Losses due to a Non-Viability Event	- If Exchange occurs following a Non-Viability Event, MCN5 Holders may receive significantly less than \$101 worth of Ordinary Shares per MCN5 and may receive unlisted Ordinary Shares. - If, for any reason, an MCN5 which is required to be Exchanged is not Exchanged within 5 Business Days of the Non-Viability Exchange Date then that MCN5 will be Written-Off (in which case the MCN5 Holders' rights under the relevant MCN5 will be immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date). In these circumstances, an MCN5 Holder will suffer a total loss of its investment in that MCN5.	Section 5.1.15 and 5.1.16

Topic	Summary	Further information
1.3.10. Restrictions on rights and ranking in a Winding Up of MGL	- MCN5 are not deposit liabilities or protected accounts of MBL or MGL or any other member of the Macquarie Group and are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction or by any other person. The investment performance of MCN5 is not guaranteed by MGL, MBL or any other member of the Macquarie Group. - In the event of a Winding Up of MGL, MCN5 Holders will rank behind all Senior Creditors, equally with Equal Ranking Obligations and ahead of Ordinary Shares. Any return in a Winding Up of MGL may be adversely affected if a Non-Viability Event occurs. If this happens some or all MCN5 will be required to be Exchanged or, if Exchange has not occurred within 5 Business Days of the Non-Viability Exchange Date, Written-Off. If an MCN5 is Exchanged, the MCN5 Holder will become a holder of Ordinary Shares and those shares may be worth significantly less than their investment in MCN5. If an MCN5 is Written-Off, the MCN5 Holder will suffer a total loss of their investment in that MCN5. - If there is a shortfall of funds on a Winding Up of MGL, MCN5 Holders will lose some or all of their investment in that MCN5.	Sections 5.1.1 and 5.1.18

1.4. Comparison between MCN5 and other investments

You should consider these differences in light of your investment objectives, financial situation and particular needs (including financial and taxation issues) before deciding to apply for MCN5. About MCN5

This section provides additional information about MCN5. Where indicated, more detailed information is provided in other sections of this Prospectus. If you have any questions, you should seek advice from your financial adviser or other professional adviser. The full MCN5 Terms are contained in Appendix A. Rights and liabilities attaching to MCN5 may also arise under the Corporations Act, ASX Listing Rules and other applicable laws.

2.1. Distributions

MCN5 are expected to pay quarterly Distributions commencing on 18 June 2021 which are expected to be 40% franked initially, but may not be franked, or may be franked to a different level in the future. A Distribution will be paid subject to the Payment Conditions, including MGL's discretion.

The Distribution Rate is a floating rate (i.e. it will fluctuate), and is equal to the sum of the Reference Rate plus a Margin (as determined under the Bookbuild), adjusted for the Tax Rate and the Franking Rate.

Distributions are non-cumulative.

Topic	Summary	Further information
2.1.1. What are Distributions?	- Distributions on MCN5 are discretionary, non-cumulative floating rate payments. - Distributions are scheduled to be paid quarterly in arrears commencing on 18 June 2021, subject to the Payment Conditions – see below. - Distributions are expected to be franked at the same rate as dividends on Ordinary Shares. MGL currently franks dividends on Ordinary Shares at 40%. The level of franking may vary over time and Distributions may be partially, fully or not franked.	Clause 2 of the MCN5 Terms
2.1.2. What are the Payment Conditions?	- Distributions may not always be paid. The payment of each Distribution will be made unless: - MGL, in its absolute discretion, determines that the Distribution is not payable to MCN5 Holders; - payment of the Distribution would result in MGL breaching APRA's capital adequacy requirements applicable to it; - payment of the Distribution would result in MGL becoming, or being likely to become, insolvent for the purposes of the Corporations Act; or - APRA objects to the payment of the Distribution. These conditions are referred to in this Prospectus as the “Payment Conditions”. - Failure to pay a Distribution when scheduled will not constitute an event of default and MCN5 Holders have no claim or entitlement in respect of non-payment or any right to receive that Distribution at any later time. However, the Dividend Restriction may apply in this scenario – see section 2.1.9.	Clause 2 of the MCN5 Terms
2.1.3. How will the Distribution Rate be calculated?	- The Distribution Rate is calculated using the following formula: Distribution Rate = (Reference Rate + Margin) x Franking Adjustment Factor where: <i>Reference Rate</i> means, the Reference Rate on the first day of that Distribution Period – see section 2.1.5; <i>Margin</i> is expected to be in the range of 3.00% and 3.20%, and will be set by way of Bookbuild and is expected to be announced to the market on Friday, 19 February 2021. The Margin may be outside that range depending on the outcome of the Bookbuild; <i>Franking Adjustment Factor</i> = $\frac{(1-T)}{1 - [T \times (1 - F)]}$ where: <i>T</i> is the Tax Rate; and <i>F</i> is the Franking Rate.	Clause 2.1 of the MCN5 Terms

Topic	Summary	Further information																
2.1.3. How will the Distribution Rate be calculated? continued	- Due to the effect of the Franking Adjustment Factor, the Distribution Rate will be lower if franking applies to a Distribution. - For example, assuming the Reference Rate for the first Distribution Period is 0.0108% per annum, the Margin is 3.0000% per annum and using the Macquarie Group's current franking rate of 40%, then the Distribution Rate for that Distribution Period would be calculated as follows: <table><tr><th></th><th>Partially franked Distribution</th></tr><tr><td>(1) Reference Rate</td><td>0.0108%</td></tr><tr><td>(2) Margin</td><td>3.0000%</td></tr><tr><td>(3) = (1)+(2)</td><td>3.0108%</td></tr><tr><td>(4) Tax Rate</td><td>30%</td></tr><tr><td>(5) Franking Rate</td><td>40%</td></tr><tr><td>(6) Franking Adjustment Factor (per formula above)</td><td>85.3659%</td></tr><tr><td>(7) Distribution Rate = (3)×(6)</td><td>2.5702%</td></tr></table> - It is possible for the Reference Rate to become negative. Should this occur, the negative amount will be taken into account in calculating the Distribution Rate. For example, if the Reference Rate is -1.00% per annum, the Margin is 3.0000% per annum and the Franking Adjustment Factor is 85.3659% then the Distribution Rate will be 1.7073% per annum. If the Distribution Rate was negative as a result, MCN5 Holders would not receive a distribution and there would be no obligation on MCN5 Holders to pay MGL. 2.1.4. What is the impact of Franking credits?	- Distributions are expected to be franked at the same rate as Ordinary Shares. MGL currently franks dividends on Ordinary Shares at 40%. The level of franking may vary over time and Distributions may be partially, fully or not franked. - MGL's ability to frank dividends on Ordinary Shares and Distributions on MCN5 is affected by its level of available franking credits and distributable profits. MGL's level of franking credits may be affected by a wide range of factors, including its business performance, the jurisdictions in which the Macquarie Group makes profits and pays tax, the applicable Australian corporate tax rate and the amount of other frankable distributions. MGL's distributable profits may also be impacted by a wide range of factors, including its level of earnings and other distributions it makes. See section 5.1.7. - A higher Franking Rate for a Distribution will result in a lower Distribution Rate and a lower cash Distribution, reflecting the value of the franking credit attached to the Distribution. - MCN5 Holders should be aware that the potential value of any franking credit does not accrue at the same time as the receipt of any cash Distribution. MCN5 Holders should also be aware that the ability to use the franking credits, either as an offset to a tax liability or by claiming a refund after the end of the income year, will depend on the individual tax position of each MCN5 Holder and the tax rules that apply at the time of each distribution. - The laws relating to the availability of franking may change. MCN5 Holders should refer to the Australian taxation summary in section 6.1 and seek professional advice in relation to their tax position. - If the Distribution is fully or partially franked, the franking credits attached to a Distribution (expressed as a percentage of the Issue Price) will be equal to: Distribution Rate × Tax Rate × Franking Rate (1-Tax Rate)	Sections 5.1.3, 5.1.7, 5.1.8, 5.1.22 and 6

2.1.4. What is the impact of Franking credits? continued	- The amount of franking credits attached to a Distribution will be notified to MCN5 Holders in Distribution notices shortly after a Distribution is paid. - Taking the example in section 2.1.3, the amount of franking credits (expressed as a percentage) would be calculated as: <table><tr><th></th><th>Partially franked Distribution</th></tr><tr><td>Distribution Rate</td><td>2.5702%</td></tr><tr><td>Tax Rate</td><td>30%</td></tr><tr><td>Franking Rate</td><td>40%</td></tr><tr><td>Franking credit rate (per formula above)</td><td>0.4406%</td></tr></table>		Partially franked Distribution	Distribution Rate	2.5702%	Tax Rate	30%	Franking Rate	40%	Franking credit rate (per formula above)	0.4406%	Sections 5.1.3, 5.1.7, 5.1.8, 5.1.22 and 6

2.1.5. What is the Reference Rate?	- The Reference Rate means, for a Distribution Period, the rate designated “BBSW” in respect of prime bank eligible securities having a tenor closest to the Distribution Period which rate ASX (or its successor as administrator of that rate) publishes through information vendors at approximately 10:30am on the first day of that Distribution Period. - The rate is administered by ASX and is published on various information services (e.g. Thomson Reuters page BBSW). - The rate changes to reflect supply and demand in the cash and currency markets and provides a reference for the pricing, rate setting and valuation of Australian dollar financial securities. - The graph below illustrates the movement in the Reference Rate over the last 20 years. The rate on 10 February 2021 was 0.0108% per annum.  Percent 2009 2011 2013 2015 2017 2019 2021 — BBSW3m Index - The above graph is for illustrative purposes only and does not indicate, guarantee or forecast the actual Reference Rate. The actual Reference Rate for the first and subsequent Distribution Periods may be higher or lower than the rates in the above graph. - If MGL determines that BBSW has been affected by a “Reference Rate Disruption Event”, MGL may select an alternative reference rate that it considers appropriate and make other related changes to the Terms (subject, in each case, to APRA’s prior written approval). - Broadly, a “Reference Rate Disruption Event” occurs where BBSW has been discontinued or has ceased to be generally accepted in the Australian market for securities such as MCN5. MGL is required to act in good faith and in a commercially reasonable manner in selecting an alternative reference rate, and may consult with sources that it considers appropriate, but may otherwise exercise its discretion.	Clause 2.1 of the MCN5 Terms

2.1.6. How will the Distribution be calculated for each Distribution Payment Date?	Distributions scheduled to be paid on each Distribution Payment Date on each MCN5 will be calculated using the following formula: $\frac{\\$100 \times \text{Distribution Rate} \times N}{365}$ where: – <i>Distribution Rate</i> means the rate (expressed as a percentage per annum) calculated as set out in section 2.1.3; and – <i>N</i> means the number of days in the Distribution Period. • As an example, if the Distribution Rate was 2.5702% per annum then the Distribution on each MCN5 for the Distribution Period (if the Distribution Period was a quarterly period of 91 days) would be calculated as follows: <table><tr><td>Distribution Rate</td><td>2.5702%</td></tr><tr><td>Multiplied by the Issue Price</td><td>x \$100</td></tr><tr><td>Multiplied by the number of days in the Distribution Period</td><td>x 91</td></tr><tr><td>Divided by 365</td><td>÷ 365</td></tr></table> Indicative Distribution payment for the quarterly Distribution Period per MCN5 \$0.6408 • The first Distribution Period commences on the Issue Date and ends on 18 June 2021 and, accordingly, the number of days included in that Distribution Period is expected to be 93 days. Using a Distribution Rate of 2.5702%, an indicative first Distribution payment would be \$0.6549. • The above example is for illustrative purposes only and does not indicate, guarantee or forecast the actual Distribution payable for the first or any subsequent Distribution Period. Actual Distributions may be higher or lower than this example. 2.1.7. When are the Distribution Payment Dates?	Distributions are payable (subject to the Payment Conditions, including the discretion of MGL) quarterly in arrears commencing on 18 June 2021. The Distribution Payment Dates are 18 March, 18 June, 18 September and 18 December each year. If MCN5 are Redeemed, Resold or Exchanged (other than on account of a Non-Viability Event) the Redemption Date, Resale Date or Exchange Date will also be a Distribution Payment Date. If any of these dates is not a Business Day, the Distribution Payment Date will be the next day which is a Business Day.	Clauses 2.1, 2.2 and 2.3 of the MCN5 Terms								

Topic	Summary	Further information
2.1.8. How will Distributions be paid?	- Distributions will be paid in Australian dollars. MGL will only pay Distributions to Australian resident investors directly into an Australian dollar account held with a financial institution. - MGL will not pay Distributions on MCN5 to Australian resident investors by cheque. - If you are allotted any MCN5, when you are sent your Holding Statement you will also be sent instructions on how to provide details of your Australian dollar account held with a financial institution. - If you are an Australian resident and do not provide these account details to the Registrar, or if any Distribution paid to you is unsuccessful, then you will be sent a notice advising you of the amount of the Distribution and the funds will be held in a bank account as a non-interest bearing deposit until the first to occur of the following: - you provide valid account details to the Registrar; - the MCN5 Holder or any legal personal representative of the MCN5 Holder claims the amount; - the Issuer is entitled to refuse any claim in respect of the amount on the ground that payment has not been made within 5 years from the date on which it first became due, in which case the Issuer may treat the amount as its own; or - the Issuer is entitled or obliged to deal with the amount in accordance with the legislation relating to unclaimed moneys. - Investors who are not Australian residents may be eligible to opt in to receive payments converted into foreign currency and paid to their local bank account through OFX Limited. Those investors who are not Australian residents who do not wish to opt into the service may receive Distributions by cheque. - MGL reserves the right to vary the way in which any Distribution is paid in accordance with the MCN5 Terms (provided that a Distribution must always be paid in cash).	Clause 11 of the MCN5 Terms
2.1.9. What is the Dividend Restriction and when will it apply?	- If for any reason an amount of any Distribution has not been paid in full on a Distribution Payment Date, unless it is paid in full within 10 Business Days of that date, MGL must not: - determine, declare or pay a dividend on any Ordinary Shares; or - undertake any Buy-Back or Capital Reduction, from the Distribution Payment Date until and including the next Distribution Payment Date, subject to certain exceptions, without the approval of a Special Resolution of the MCN5 Holders. - The MCN5 Terms contain no events of default and accordingly, failure to pay a Distribution when scheduled will not constitute an event of default.	Clauses 2.4, 2.5, 10.1 and 18.2 of the MCN5 Terms

2.2. Term

Topic	Summary	Further information
2.2.1. Do MCN5 have a maturity date?	MCN5 are perpetual and do not have a fixed maturity date. If they are not Exchanged, Redeemed or Written-Off in accordance with the MCN5 Terms they could remain on issue indefinitely.	
	Exchange If still on issue, MCN5 will Exchange into Ordinary Shares on 18 September 2030 if the Exchange Conditions are satisfied in respect of that date. If the Exchange Conditions are not satisfied in respect of that date MCN5 will Exchange on the next subsequent Distribution Payment Date on which the Exchange Conditions are satisfied.	Section 2.3
	- Subject to certain restrictions, MGL may elect to Exchange some or all MCN5: – on a Scheduled Optional Exchange Date; or – after the occurrence of a Tax Event or Regulatory Event, (together, “Optional Exchange Dates”).	Section 2.4
	MGL must also Exchange all MCN5 following an Acquisition Event except in certain circumstances. If Exchange occurs following these events, MCN5 Holders would generally⁴ receive Ordinary Shares worth approximately \$101 (determined on the basis of the Exchange calculations described in section 2.3.4 below) although by the time of Exchange the market value of the Ordinary Shares received may be more or less than \$101 when they are issued or at any time after that.	Section 2.8
	- MGL must Exchange some or all (depending on the circumstances) MCN5 for Ordinary Shares on the occurrence of a Non-Viability Event: – This Exchange is not subject to the Exchange Conditions. – If, for any reason, this Exchange does not occur within 5 Business Days of the Non-Viability Exchange Date then the relevant MCN5 will be Written-Off. That MCN5 Holder will suffer a total loss of their investment and will not receive any compensation.	Section 2.7
	Resale On an Optional Exchange Date MGL may instead elect to arrange for a Resale of all or some MCN5. If Resale occurs, MCN5 Holders will receive the Issue Price (\$100) for each MCN5 they hold. Any subsequent redemption or repurchase of Resold MCN5 is subject to APRA's prior written approval.	Section 2.6
	Redemption On an Optional Exchange Date, subject to APRA's prior written approval, MGL may instead elect to Redeem all or some MCN5. If Redemption occurs, MCN5 Holders will receive the Issue Price (\$100) for each MCN5 they hold. There are conditions on MGL's ability to Redeem or Resell MCN5 for cash. Importantly, MGL may only elect to Redeem MCN5 with APRA's prior written approval. MCN5 Holders should not expect that APRA's approval, if requested, will be given.	Section 2.5

4. As with other types of Exchange (other than Exchange on account of an Automatic Exchange Event), there are conditions to Exchange on an Acquisition Event which are designed to ensure that an MCN5 Holder will receive approximately \$101 worth of Ordinary Shares for each MCN5 they hold and the Ordinary Shares received are capable of being sold on the ASX. However, these conditions do not apply if the Directors determine that the Exchange is in any event in the best interests of MCN5 Holders as a whole.

2.3. Mandatory Exchange

MGL must Exchange MCN5 into Ordinary Shares on 18 September 2030 (if the MCN5 have not been Redeemed, Exchanged or Written-Off beforehand) provided that certain Exchange Conditions are satisfied.

The conditions to Mandatory Exchange and the associated Exchange calculations (described in this section) are designed to ensure that if Exchange occurs MCN5 Holders will receive approximately \$101 worth of Ordinary Shares for each MCN5 held, and that the Ordinary Shares they receive following the Exchange are capable of being sold on ASX.

Topic	Summary	Further information
2.3.1. What happens on Scheduled Mandatory Exchange?	If MCN5 have not already been Redeemed, Resold, Exchanged or Written-Off, MCN5 Holders will receive Ordinary Shares on Exchange of MCN5 on 18 September 2030, the “Scheduled Mandatory Exchange Date”, unless the Exchange Conditions are not satisfied. Upon Exchange on the Mandatory Exchange Date, MCN5 Holders will receive approximately \$101 worth of Ordinary Shares per MCN5 based on the VWAP calculated over the 20 ASX Trading Days immediately preceding the Exchange Date and a 1% discount on Exchange. This VWAP will most likely differ from the Ordinary Share price on or after the Scheduled Mandatory Exchange Date. This means that the value of Ordinary Shares received may be more or less than \$101 when they are issued, or at any time after that. As a result of any Exchange of MCN5 for Ordinary Shares, MCN5 Holders will become holders of Ordinary Shares, which will rank equally with existing Ordinary Shares from the date of issue. The value of any holding of Ordinary Shares may fluctuate from time to time.	Clauses 3 and 9 of the MCN5 Terms
2.3.2. What happens if the Exchange Conditions are not met on the Scheduled Mandatory Exchange Date (18 September 2030)?	• If still on issue, the MCN5 will be Exchanged on the Scheduled Mandatory Exchange Date, provided that the Exchange Conditions are satisfied on this date. • If any of the Exchange Conditions are not satisfied on this date, then the Exchange will be deferred until the next quarterly Distribution Payment Date, a “Deferred Mandatory Exchange Date”, where all of the Exchange Conditions are satisfied. This means that if the Exchange Conditions are never satisfied MCN5 may never be Exchanged. • The Scheduled Mandatory Exchange Date and each Deferred Mandatory Exchange Date are referred to as “Relevant Mandatory Exchange Dates”. • Distributions will continue to be paid (subject to the Payment Conditions) until Exchange occurs.	Clause 3.2 of the MCN5 Terms and section 2.3.3

Topic	Summary	Further information
2.3.3. What are the Exchange Conditions?	- In summary, the Exchange Conditions in respect of a Relevant Mandatory Exchange Date are as follows: First Exchange Condition: the Daily VWAP on the 25th Business Day immediately preceding the Relevant Mandatory Exchange Date is greater than 56% of the Issue Date VWAP; Second Exchange Condition: the VWAP during the 20 ASX Trading Days immediately preceding the Relevant Mandatory Exchange Date is such that the number of Ordinary Shares to be issued would be less than or equal to the applicable Maximum Exchange Number; Third Exchange Condition: no Suspension Event applies in respect of the Relevant Mandatory Exchange Date (broadly, a Suspension Event occurs where Ordinary Shares have been suspended from trading for the 5 preceding Business Days); and Fourth Exchange Condition: MGL is not Delisted as at the Relevant Mandatory Exchange Date (broadly, MGL will be Delisted where Ordinary Shares cease to be listed on ASX or where an Inability Event (as described in section 2.7.6) subsists). - Exchange on a Mandatory Exchange Date cannot occur unless all four Exchange Conditions are satisfied. - The First Exchange Condition and Second Exchange Condition are intended to ensure MCN5 Holders will not receive less than \$101 worth of Ordinary Shares per MCN5 on Exchange (based on the VWAP during the 20 ASX Trading Days before the Mandatory Exchange Date). - The Third Exchange Condition and Fourth Exchange Condition are intended to provide protection to MCN5 Holders by making Exchange conditional on MCN5 Holders receiving Ordinary Shares which are capable of being sold on ASX. - The following diagram sets out the timeframes that are relevant for testing whether Exchange will occur, using the Scheduled Mandatory Exchange Date (18 September 2030). These dates are indicative only and may change.	Clause 3.3 of the MCN5 Terms

Note: The dates in the diagram above assume that trading of Ordinary Shares takes place on 14 August 2030 and each of the Business Days between 21 August 2030 and 17 September 2030, which may not be the case due to public holidays or if trading in Ordinary Shares is suspended during the period leading up to the possible Mandatory Exchange Date.

Topic	Summary	Further information
2.3.4. How many Ordinary Shares will an MCN5 Holder receive on a Relevant Mandatory Exchange Date?	- An MCN5 Holder will receive on a Relevant Mandatory Exchange Date a number of Ordinary Shares per MCN5 (“Exchange Number”) calculated in accordance with the following formula: $\frac{\\$100}{99\% \times \text{Exchange Date VWAP}}$ where <i>Exchange Date VWAP</i> is the volume weighted average price of Ordinary Shares during the VWAP Period (being the period of 20 ASX Trading Days immediately preceding the Relevant Mandatory Exchange Date). - The Exchange Number can never be greater than the Maximum Exchange Number (see section 2.3.5). The Exchange Conditions prevent Exchange from occurring on a Relevant Mandatory Exchange Date where the Exchange Number would be limited by the Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date. - Broadly, the Exchange Date VWAP will be adjusted to reflect: - dividends or other distributions that are reflected in the Ordinary Share price that will not be payable to MCN5 Holders after Exchange and vice versa (e.g. where the price is quoted cum dividend but the dividend is paid before the Exchange); and - any division, consolidation or reclassification of MGL’s share capital (not involving any cash payment or other distribution or compensation to or by holders of Ordinary Shares or to or by any entity in the Macquarie Group) occurring during the calculation period. - The number of Ordinary Shares to be received by an MCN5 Holder will also be rounded down so that only a whole number of Ordinary Shares is issued in connection with the MCN5 Holder’s aggregate holding of MCN5 (with entitlements of the MCN5 Holder to a part only of an Ordinary Share disregarded).	Clauses 9.1, 9.3 and 9.4 of the MCN5 Terms

Topic	Summary	Further information
2.3.5. What is the Maximum Exchange Number?	- The Maximum Exchange Number is calculated as: $\frac{\\$100}{\text{Issue Date VWAP} \times \text{Relevant Percentage}}$ where: - the Issue Date VWAP is the VWAP during the 20 ASX Trading Days immediately preceding, but not including, the Issue Date; and - the Relevant Percentage, for Exchange on a Relevant Mandatory Exchange Date, is 50%. - Under no circumstances will MCN5 be Exchanged for more than the Maximum Exchange Number of Ordinary Shares. - Other than for an Exchange on account of a Non-Viability Event (see section 2.7.4) or an Acquisition Event (see section 2.8), the Exchange Conditions prevent an Exchange from occurring where the Ordinary Shares which MCN5 Holders would receive are worth less than approximately \$101 based on the Exchange Date VWAP. - The Issue Date VWAP (and consequently the Maximum Exchange Number) will be adjusted where: - dividends or other distributions are reflected in the Ordinary Share price in the Issue Date VWAP calculation period that will not be payable to MCN5 Holders (e.g. where the price is quoted cum dividend); - a pro-rata bonus issue of Ordinary Shares (other than a bonus share plan, employee or executive share plan, executive option plan, share top up plan, share purchase plan or dividend reinvestment plan) occurs while MCN5 are on issue; or - any division, consolidation or reclassification of MGL's share capital (not involving any cash payment or other distribution or compensation to or by holders of Ordinary Shares or to or by any entity in the Macquarie Group) occurs while the MCN5 are on issue. The adjustment to Issue Date VWAP will not be made for any other capital activity including a rights issue or other essentially pro rata issue. The MCN5 Terms do not restrict MGL from undertaking any activity of this kind. Where the adjustment to Issue Date VWAP would be less than 1%, no adjustment will be made (although the adjustment balance will be carried forward for any subsequent adjustments).	Clauses 9.1 and 9.3 to 9.9 of the MCN5 Terms
2.3.6. Example of the Exchange calculations	Illustrative example of Exchange This example is for illustrative purposes only. The figures in it are not forward looking statements and do not indicate or guarantee the Issue Date VWAP or future VWAP or other price of Ordinary Shares. For the example of the Mandatory Exchange on 18 September 2030, assume the Issue Date VWAP was \$147.37. The Exchange Conditions are tested and the number of Ordinary Shares to be received on Exchange would be determined as follows: Step 1: passing the Exchange Conditions First Exchange Condition This condition requires that the VWAP on the 25th Business Day immediately preceding 18 September 2030 (assuming there is trading of Ordinary Shares on that day) is greater than 56% of the Issue Date VWAP, which would be \$82.5272 (being 56% of \$147.37). Assume the VWAP on 14 August 2030 (expected to be the 25th Business Day immediately preceding, but not including, 18 September 2030) is \$90.00. Since the VWAP on 14 August 2030 is greater than \$85.5272, the First Exchange Condition is satisfied.	

Topic	Summary	Further information
2.3.6. Example of the Exchange calculations continued	Second Exchange Condition The Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date is calculated on the basis that the Relevant Percentage is 50%. The effect of this is that the Second Exchange Condition applicable to a Relevant Mandatory Exchange Date will be met if the VWAP during the 20 ASX Trading Days immediately preceding 18 September 2030 is greater than 50.505% of the Issue Date VWAP, which would be \$74.4292 (being 50.505% of \$147.37). - Assume the VWAP during the period from 21 August 2030 to 17 September 2030 (expected to be the 20 ASX Trading Days immediately preceding, but not including, 18 September 2030) is \$90.00. Since the VWAP during the period from 21 August 2030 to 17 September 2030 is greater than \$72.4292, the Second Exchange Condition is satisfied. Third Exchange Condition This condition requires that no Suspension Event applies on 18 September 2030. - Assume on 18 September 2030, trading in Ordinary Shares is not suspended on that date and has not been suspended during the five preceding Business Days. In these circumstances, the Third Exchange Condition is satisfied. Fourth Exchange Condition This condition requires that MGL is not Delisted on 18 September 2030. - Assume on 18 September 2030, MGL is listed on ASX and no Inability Event subsists. In these circumstances, the Fourth Exchange Condition is satisfied. Step 2: calculating the number of shares received on Exchange On 18 September 2030, MCN5 Holders would be entitled to receive in respect of MCN5, the Exchange Number of Ordinary Shares determined as follows: $\frac{\$100}{99\% \times \text{Exchange Date VWAP}}$ - Assume the Exchange Date VWAP, being the VWAP during the period from 21 August 2030 to 17 September 2030 (being the 20 ASX Trading Days immediately preceding 18 September 2030) is \$90.00. The Exchange Number would be 1.1223 (being \$100 divided by (99% × \$90)). Assuming an MCN5 Holder has 100 MCN5, the total number of Ordinary Shares to which they would be entitled would be 112 (i.e. 100 × 1.1223, which number is rounded down to disregard the fraction of the Ordinary Share). Maximum Exchange Number In this example, the Exchange Number will not be impacted by the Maximum Exchange Number: If the Issue Date VWAP is \$147.37, the Maximum Exchange Number would be 1.3571 (being \$100 divided by (50% × \$147.37)). As the Exchange Number (1.1223) is less than the Maximum Exchange Number (1.3571), there will be no restriction on the number of Ordinary Shares an MCN5 Holder receives.	

2.4. Exchange at option of MGL

On any of the Scheduled Optional Exchange Dates, being 18 September 2027, 18 March 2028 and 18 September 2028,⁵ MGL may elect to Exchange MCN5 into Ordinary Shares. MGL may also elect to Exchange MCN5 into Ordinary Shares following the occurrence of a Tax Event or Regulatory Event.

There are certain conditions and restrictions that apply to an Optional Exchange. The conditions to Optional Exchange and the associated Exchange calculations (described in this section) are designed to ensure that if Exchange occurs MCN5 Holders will receive approximately \$101 worth of Ordinary Shares for each MCN5 held, and that the Ordinary Shares they receive following the Exchange are capable of being sold on ASX.

Topic	Summary	Further information
2.4.1. When can MGL choose to Exchange MCN5?	• MGL may choose to Exchange all or some MCN5 on: – 18 September 2027; – 18 March 2028; or – 18 September 2028, (each a “Scheduled Optional Exchange Date”);⁶ or – after a Tax Event or a Regulatory Event. Upon Optional Exchange, MCN5 Holders will receive approximately \$101 worth of Ordinary Shares per MCN5 based on the VWAP during the 20 ASX Trading Days immediately preceding the Optional Exchange Date. The calculation of the Exchange Number of Ordinary Shares that MCN5 Holders will receive upon Optional Exchange is the same as described in section 2.3.4 for a Relevant Mandatory Exchange Date (with the Optional Exchange Date substituted for the Relevant Mandatory Exchange Date) and using the Maximum Exchange Number applicable to an Optional Exchange Date as described in section 2.4.5. The VWAP during this period will most likely differ from the Ordinary Share price on or after the Optional Exchange Date. This means that the value of Ordinary Shares received may be more or less than approximately \$101 when they are issued or at any time after that. MGL’s right to elect to Exchange is restricted in the circumstances described further in section 2.4.4, and is also subject to certain conditions as described further in section 2.4.5. MCN5 Holders have no right to request Exchange of MCN5.	Clauses 5.1, 5.2 and 9.1 of the MCN5 Terms
2.4.2. What is a Tax Event?	A Tax Event means, broadly, that: • MGL receives advice that as a result of a change in law or regulation affecting taxation in Australia on or after the Issue Date (which was not expected by MGL as at the Issue Date), there is more than an insubstantial risk that, in connection with MCN5: – an additional franking debit will arise in the franking account of MGL in respect of any Distribution; – any Distribution would not be frankable; or – MGL would be exposed to a more than <i>de minimis</i> increase in its costs (including any amount of taxes, duties, assessments or other government charges or the loss of any deductions). MGL is not aware of, nor expects, any Tax Event as at the date of this Prospectus.	Clause 18.2 of the MCN5 Terms

5. Due to the Business Day convention, the Scheduled Optional Exchange Dates are deferred from 18 September 2027 to 20 September 2027 and from 18 March 2028 to 20 March 2028.

6. Due to the Business Day convention, the Scheduled Optional Exchange Dates are deferred from 18 September 2027 to 20 September 2027 and from 18 March 2028 to 20 March 2028.

Topic	Summary	Further information
2.4.3. What is a Regulatory Event?	A Regulatory Event will, broadly, occur if as a result of a change of law or regulation, or a statement, order or directive from APRA, on or after the Issue Date, MGL determines that: - any of the MCN5 are not eligible for inclusion as Eligible Capital; - additional requirements would be imposed in connection with the MCN5 which MGL determines, in its absolute discretion, might have a material adverse effect on MGL or otherwise be unacceptable; or - to have any of the MCN5 outstanding would be unlawful or impractical or that the Macquarie Group would be exposed to a more than <i>de minimis</i> increase in its costs in connection with those MCN5.	Clause 18.2 of the MCN5 Terms
2.4.4. What are the requirements for Exchange to be elected?	- MGL may not elect to Exchange MCN5 if an Optional Exchange Restriction applies. - Further, if MGL has elected to Exchange MCN5, MGL may not proceed to Exchange if, on the Optional Exchange Date, certain further Exchange Conditions are not satisfied. In that case, the Exchange will be deferred until the first quarterly Distribution Payment Date on which the Optional Exchange Restrictions and the further Exchange Conditions are satisfied. - The Optional Exchange Restrictions are: First Optional Exchange Restriction: the Daily VWAP on the second Business Day before the date on which an Optional Exchange Notice is to be sent by MGL (or, if that Business Day is not an ASX Trading Day, the last ASX Trading Day prior to that day) ("Non-Exchange Test Date") is less than or equal to 25% of the Issue Date VWAP; or Second Optional Exchange Restriction: MGL is Delisted as at the Non-Exchange Test Date.	Clauses 5.4 and 5.5 of the MCN5 Terms
2.4.5. Further conditions to an Optional Exchange	- The Second Exchange Condition, Third Exchange Condition and Fourth Exchange Condition (as described in section 2.3.3) apply to an Optional Exchange as if the date on which the Optional Exchange is to occur were a Mandatory Exchange Date, except that the Second Exchange Condition is tested on the basis of the Maximum Exchange Number applicable to an Optional Exchange Date. - The Maximum Exchange Number applicable to an Optional Exchange Date is calculated on the basis that the Relevant Percentage is 20%. As a result, the Maximum Exchange Number in the event of an Optional Exchange is higher than the Maximum Exchange Number applicable on a Relevant Mandatory Exchange Date. The effect of this is that the Second Exchange Condition applicable to an Optional Exchange will be met if the VWAP during the 20 ASX Trading Days immediately preceding the Optional Exchange Date is greater than 20.202% of the Issue Date VWAP.	Clause 5.5 and 9.1 of the MCN5 Terms

2.5. Redemption at option of MGL

On any of the Scheduled Optional Exchange Dates, being 18 September 2027, 18 March 2028 and 18 September 2028,⁷ or after a Tax Event or Regulatory Event, MGL may elect to Redeem all or some MCN5 with APRA's prior written approval. If Redemption occurs, MCN5 Holders will receive the Issue Price (\$100) for each of their MCN5 which is Redeemed.

There are conditions on MGL's ability to Redeem MCN5. Importantly, MGL may only elect to Redeem MCN5 with APRA's prior written approval. MCN5 Holders should not expect that APRA's approval, if requested, will be given for any Redemption.

Topic	Summary	Further information
2.5.1. When can MGL choose to Redeem MCN5?	• MGL may choose to Redeem all or some MCN5: – on any Scheduled Optional Exchange Date; or – after a Tax Event or Regulatory Event. MGL's right to elect to Redeem is subject to APRA's prior written approval and is restricted in the circumstances described further in section 2.5.3. That approval is at the complete discretion of APRA and may or may not be granted. MCN5 Holders have no right to request Redemption of MCN5.	Clause 7 of the MCN5 Terms
2.5.2. What will MCN5 Holders receive if MCN5 are Redeemed?	On Redemption, an MCN5 Holder will receive \$100 for each MCN5 they hold which is Redeemed and, if the Payment Conditions are met, a Distribution will be paid on Redeemed MCN5 for the period since the last Distribution Payment Date to the date of Redemption.	Clause 7.4 of the MCN5 Terms
2.5.3. What are the requirements for Redemption?	• A Redemption must not occur unless either: – MCN5 which are to be Redeemed are replaced, concurrently with the Redemption or beforehand, with securities forming part of Eligible Capital of the same or better quality from APRA's perspective, and the replacement of those MCN5 is done under conditions which are sustainable for the income capacity of the Macquarie Level 3 Group; or – APRA is satisfied that the capital position of the Macquarie Level 3 Group is sufficient after the MCN5 are Redeemed. • Redemption requires APRA's prior written approval. MCN5 Holders should not expect that APRA's approval will be given for Redemption.	Clauses 7.1 and 7.2 of the MCN5 Terms

7. Due to the Business Day convention, the Scheduled Optional Exchange Dates are deferred from 18 September 2027 to 20 September 2027 and from 18 March 2028 to 20 March 2028.

2.6. Resale at option of MGL

On any of the Scheduled Optional Exchange Dates, being 18 September 2027, 18 March 2028 and 18 September 2028,⁸ or following a Tax Event or Regulatory Event, MGL may elect to Resell all or some MCN5. If Resale occurs, MCN5 Holders will receive the Issue Price (\$100) for each of their MCN5 which is Resold.

Topic	Summary	Further information
2.6.1. When can MGL choose to Resell MCN5?	- MGL may choose to Resell all or some MCN5: - on any Scheduled Optional Exchange Date; or - after a Tax Event or Regulatory Event. Any subsequent redemption or repurchase of the Resold MCN5 is subject to APRA's prior written approval. That approval is at the complete discretion of APRA and may or may not be granted. If MGL elects to Resell MCN5, MGL will appoint one or more third parties ("Nominated Parties") to purchase some or all MCN5. If MGL appoints more than one Nominated Party, MGL can determine the allocation of MCN5 purchased by each Nominated Party. MGL may appoint a Nominated Party on such terms as it may agree with the Nominated Party, including as to the conditions of any Resale, the procedures for settlement of such Resale, the substitution of a Nominated Party and the terms on which any MCN5 acquired by a Nominated Party may be Exchanged or otherwise dealt with. To the extent that such terms may cause the MCN5 to cease to be Relevant Securities forming part of Eligible Capital, such terms are subject to the prior written approval of APRA. MCN5 Holders have no right to request Resale of MCN5.	Clause 8 of the MCN5 Terms
2.6.2. What will MCN5 Holders receive if MCN5 are Resold?	Each MCN5 Holder will receive \$100 for each MCN5 it holds which is being Resold and, if the Payment Conditions are met, a Distribution will be paid by MGL in respect of Resold MCN5 for the period since the last Distribution Payment Date to the date of Resale.	Clause 8.3 of the MCN5 Terms
2.6.3. If a Nominated Party does not pay the Resale Price will MCN5 Holders continue to hold MCN5?	If for any reason a Nominated Party does not pay the Resale Price on or within two Business Days of the Resale Date, the Resale to that Nominated Party will not occur and MCN5 Holders will continue to hold the relevant MCN5 in accordance with the MCN5 Terms.	Clause 8.6 of the MCN5 Terms

8. Due to the Business Day convention, the Scheduled Optional Exchange Dates are deferred from 18 September 2027 to 20 September 2027 and from 18 March 2028 to 20 March 2028.

2.7. Non-Viability Event Exchange

MGL is required to immediately Exchange MCN5 into Ordinary Shares if a Non-Viability Event occurs. Broadly, a Non-Viability Event occurs if APRA has notified the Issuer in writing that (1) Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable or (2) APRA has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable.

The Exchange Conditions do not apply to an Exchange following a Non-Viability Event. The number of Ordinary Shares that MCN5 Holders will receive on an Exchange in these circumstances will not be greater than the Maximum Exchange Number applicable to a Non-Viability Exchange Date.

As an Exchange in these circumstances would most likely occur during a time of financial difficulty for MGL, depending on the market price of Ordinary Shares at the relevant time, MCN5 Holders may receive less, or significantly less, than \$101 worth of Ordinary Shares per MCN5 and an MCN5 Holder may suffer loss as a consequence.

If, for any reason, MCN5 that are required to be Exchanged on account of a Non-Viability Event are not Exchanged within 5 Business Days of the Non-Viability Exchange Date, they will be Written-Off. If a Write-Off occurs, the MCN5 Holder's rights under that MCN5 are immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date and MCN5 Holders will suffer a total loss of their investment.

Topic	Summary	Further information
2.7.1. Why do the MCN5 Terms include a Non-Viability Event?	The global bank Basel III capital framework includes requirements for conversion or write-off of capital instruments if the issuer becomes non-viable. APRA has implemented this framework for Australian banks with effect from 1 January 2013. In order to gain treatment as Eligible Capital under the NOHC Authority, it is also required that MCN5 be Exchanged or Written-Off on the occurrence of a Non-Viability Event.	
2.7.2. What is a Non-Viability Event?	- A Non-Viability Event means APRA has notified the Issuer in writing that: - Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable; or - APRA has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable. - If a Non-Viability Event occurs which involves determination by APRA that a public sector injection of capital would be required, all MCN5 must be Exchanged. - If a Non-Viability Event occurs which does not involve a determination by APRA that a public sector injection of capital would be required, MGL must immediately Exchange some or all MCN5. In determining the number of MCN5 which must be Exchanged, the following applies: - the aggregate face value of all Relevant Securities subject to Loss Absorption must equal the amount APRA has notified the Issuer (or if APRA has not notified the Issuer of that amount, the amount determined by the Issuer) to be necessary to satisfy APRA that the Issuer will not become non-viable; - Relevant Securities that are Equal Ranking Obligations must be subject to Loss Absorption before other Relevant Securities are subject to Loss Absorption (unless the terms of such other Relevant Securities otherwise provide); and - MCN5 and other Relevant Securities that are Equal Ranking Obligations must be subject to Loss Absorption on a proportionate basis (unless the terms of any such other security provide for that security to be subject to Loss Absorption other than on a proportionate basis with MCN5 and other such securities), or such other basis as the Issuer considers fair and reasonable (subject to such adjustment as the Issuer may determine to take into account the effect on marketable parcels and whole numbers of Ordinary Shares and any MCN5 or other Relevant Securities that are Equal Ranking Obligations).	Clauses 4 and 18.2 of the MCN5 Terms

Topic	Summary	Further information
2.7.2. What is a Non-Viability Event? continued	- Nothing in the making of the determination or the adjustments is to delay or impede the immediate Exchange of the MCN5 on the Non-Viability Exchange Date. - There is no requirement that MGL's Ordinary Shares are cancelled or Written-Off before APRA determines a Non-Viability Event, or before MCN5 are required to be Exchanged or Written-Off on account of a Non-Viability Event. - As at the date of this Prospectus, MGL has three other outstanding issues of Relevant Securities that are Equal Ranking Obligations (MCN2, MCN3 and MCN4). If a Non-Viability Event were to occur and MGL is required to Exchange only some of the Relevant Securities then on issue, MGL will endeavour to apply the exchanged balances proportionally across the Relevant Securities (where it is permitted by their terms), or such other basis that MGL considers is fair and reasonable. As a result, the proportion of MCN5 to be Exchanged (which may be all of the MCN5) may be lower if other Relevant Securities are on issue. There is no obligation on any member of the Macquarie Group to issue any Relevant Securities or maintain on issue MCN2, MCN3, MCN4 or any other Relevant Securities in the future. - If some (but not all) MCN5 are to be Exchanged on account of a Non-Viability Event: - MGL will endeavour to treat MCN5 Holders on an approximately proportionate basis, but may discriminate to take account of the effect on marketable parcels of MCN5 and other similar considerations and the need to effect Exchange immediately; and - where Relevant Securities that are Equal Ranking Obligations are not all in the same currency, MGL may treat them as if converted into a single currency of MGL's choice at the rate of exchange that is specified in the terms of such securities or at such other rate as MGL in good faith considers reasonable.	Clauses 4 and 18.2 of the MCN5 Terms
2.7.3. What does non-viable mean?	- APRA has not provided specific guidance as to how it would determine non-viability. However, APRA has indicated that non-viability is likely to arise prior to the insolvency of an ADI. - Non-viability could be expected to include serious impairment of MGL's financial position and insolvency. However, it is possible that APRA's definition of non-viable may not necessarily be confined to solvency measures or capital levels and may also include other matters such as liquidity. - APRA has indicated that at this time it will not publish guidance on the specific parameters used to determine non-viability.	
2.7.4. How many Ordinary Shares will MCN5 Holders receive on the Non-Viability Exchange Date?	- The number of Ordinary Shares an MCN5 Holder will receive per MCN5 on account of an Exchange following a Non-Viability Event is the Exchange Number (calculated as described below) but cannot be more than the Maximum Exchange Number applicable to a Non-Viability Exchange Date. - The Exchange Number on account of a Non-Viability Event Exchange is calculated in the same manner as for a Relevant Mandatory Exchange Date (see section 2.3.4). - However, the Exchange Date VWAP in this case is the volume weighted average price of Ordinary Shares during the period of 5 ASX Trading Days immediately preceding (but not including) the Non-Viability Exchange Date. - The Maximum Exchange Number applicable to a Non-Viability Exchange Date is calculated on the basis that the Relevant Percentage is 20%. As a result, the Maximum Exchange Number on account of a Non-Viability Event Exchange is higher than the Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date. - Since Exchange Conditions do not apply to a Non-Viability Event, the Exchange Number of Ordinary Shares may be limited to the Maximum Exchange Number applicable to a Non-Viability Exchange Date. Accordingly, the Ordinary Shares an MCN5 Holder may receive in these circumstances may be worth significantly less than the Issue Price of MCN5 and an MCN5 Holder may suffer a loss as a consequence.	Clause 9.1 of the MCN5 Terms

Topic	Summary	Further information
2.7.5. Are there any conditions to Exchange if a Non-Viability Event occurs?	- If a Non-Viability Event occurs, MGL must immediately Exchange some or all MCN5 into Ordinary Shares. - Exchange on the occurrence of a Non-Viability Event is not subject to the Exchange Conditions being satisfied and is required to occur immediately on the date the Non-Viability Event occurs. - MGL expects any ASX trades in MCN5 that have not been settled on the date a Non-Viability Event occurs will continue to settle in accordance with the normal ASX settlement, although MGL expects the seller will be treated as having delivered, and the buyer will be treated as having acquired, the Exchange Number of Ordinary Shares into which MCN5 have been Exchanged as a result of the Non-Viability Event. - MGL must give MCN5 Holders notice as soon as practicable that a Non-Viability Event has occurred, including details of the number of MCN5 Exchanged.	Clauses 4.2, 4.5, 4.6 and 4.7 of the MCN5 Terms
2.7.6. What happens if MCN5 are not Exchanged following a Non-Viability Event?	- If, following a Non-Viability Event, for any reason (including, without limitation, an Inability Event), Exchange of MCN5 as required on account of a Non-Viability Event does not occur within 5 Business Days of the Non-Viability Exchange Date, then Exchange will not occur and each relevant MCN5 will be Written-Off. - An Inability Event will arise if MGL or any of its Related Bodies Corporate is prevented, for any reason, from observing or performing their obligations in respect of an Exchange (including in connection with the issue of Ordinary Shares). An example of when an Inability Event may occur would be if MGL were prevented by an applicable law or order of any court, or action of any government authority, from issuing Ordinary Shares. As at the date of this Prospectus, such laws could include Shareholding Laws (broadly, laws that relate to financial sector shareholdings, foreign acquisitions and takeovers and company takeovers). Other such laws may in future be specified by regulations made under the Banking Act. - However, Write-Off will also occur if the Exchange has not occurred for reasons other than an Inability Event. - If an MCN5 is Written-Off, the MCN5 Holder's rights under that MCN5 are immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date, and MCN5 Holders will suffer a total loss of their investment.	Clauses 4.5, 9.17 and 18.2 of the MCN5

2.8. Exchange on an Acquisition Event

MGL is required to Exchange MCN5 into Ordinary Shares where a person acquires control of MGL (except in certain circumstances).

There are conditions to Exchange on an Acquisition Event which are designed to ensure that an MCN5 Holder will receive approximately \$101 worth of Ordinary Shares for each MCN5 they hold and the Ordinary Shares received are capable of being sold on ASX. However, these conditions do not apply if the Directors determine that the Exchange is in any event in the best interests of MCN5 Holders as a whole.

Topic	Summary	Further information
2.8.1. What is an Acquisition Event?	- An Acquisition Event broadly means either: - a takeover bid is made to acquire all or some Ordinary Shares and the offer is, or becomes, unconditional and as a result the bidder has a relevant interest in more than 50% of the Ordinary Shares on issue; - a court approves a scheme of arrangement which, when implemented will result in a person having a relevant interest in more than 50% of the Ordinary Shares on issue; or - a person acquires, or enters into an agreement (which is or becomes unconditional) to beneficially acquire more than 50% of the voting shares in the capital of MGL. - However, an Acquisition Event will not occur where that event occurs as part of a solvent reorganisation of MGL which, is initiated by the Directors or, in the reasonable opinion of MGL, would not be materially adverse to the interests of MCN5 Holders as a whole, and the acquiring entity assumes corresponding obligations to issue ordinary shares to MCN5 Holders where MGL would be required to issue Ordinary Shares. Such an entity is referred to as an Approved Acquirer.	Clause 18.2 of the MCN5 Terms

Topic	Summary	Further information
2.8.2. What are the consequences of an Acquisition Event for MCN5 Holders?	• If an Acquisition Event occurs, all MCN5 will be Exchanged for the Exchange Number of Ordinary Shares (subject to the Exchange Number being no greater than the Maximum Exchange Number applicable to an Acquisition Exchange Date) unless the Directors determine that: – as at the Acquisition Exchange Date, MGL will be, or is likely to be, Delisted; or – the Exchange Number of Ordinary Shares to be issued in exchange for an MCN5 would exceed the Maximum Exchange Number applicable to that Acquisition Exchange Date (except in limited circumstances). • The Maximum Exchange Number applicable to an Acquisition Exchange Date is calculated on the basis that the Relevant Percentage is 20%. As a result, the Maximum Exchange Number in the event of an Exchange on an Acquisition Event is higher than the Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date. The effect of this is that the second of the Exchange Conditions referred to in the paragraph above will be met if the VWAP during the 20 ASX Trading Days immediately preceding the Acquisition Exchange Date is greater than 20.202% of the Issue Date VWAP. • If either of the conditions in the first paragraph above applies, Exchange will still occur if the Directors determine that the Exchange would be in the best interests of the MCN5 Holders as a whole, notwithstanding that MGL will be, or is likely to be, Delisted or the number of Ordinary Shares is limited by the Maximum Exchange Number applicable to an Acquisition Exchange Date. In this situation MCN5 Holders would receive less than \$101 worth of Ordinary Shares and/or may be unable to trade the Ordinary Shares received.	Clauses 6.1 and 9.1 of the MCN5 Terms
2.8.3. How many Ordinary Shares will MCN5 Holders receive on the Acquisition Exchange Date?	In the ordinary course, Exchange of MCN5 following an Acquisition Event will be for approximately \$101 worth of Ordinary Shares per MCN5, based on the VWAP calculated over a period of up to 20 ASX Trading Days immediately preceding the Acquisition Exchange Date (calculated in the same manner as for a Relevant Mandatory Exchange Date as described in section 2.3.4 with the Acquisition Exchange Date substituted for the Relevant Mandatory Exchange Date). The VWAP during this period may differ from the Ordinary Share price on or after the Acquisition Exchange Date. This means that the value of Ordinary Shares received may be more or less than approximately \$101 when they are issued or at any time after that. If MGL will be, or will be likely to be, Delisted on the Acquisition Exchange Date, Exchange will only occur if the Directors determine that it would be in the best interests of the MCN5 Holders, taken as a whole. This means that upon Exchange, MCN5 Holders may be issued with the Exchange Number (subject to the Maximum Exchange Number applicable to an Acquisition Exchange Date) of Ordinary Shares, based on the VWAP for a VWAP Period when MGL was listed. At the time of Exchange, the value of Ordinary Shares may be uncertain and MCN5 Holders may be unable to trade those Ordinary Shares. If the Exchange Number (calculated as if it were not limited by the Maximum Exchange Number applicable to an Acquisition Exchange Date) is greater than the Maximum Exchange Number applicable to an Acquisition Exchange Date then Exchange will not occur unless the Directors determine that the Exchange would be in the best interests of the MCN5 Holders taken as a whole. If, in this situation, Exchange proceeds, MCN5 Holders will receive the Maximum Exchange Number applicable to an Acquisition Exchange Date of Ordinary Shares. The Maximum Exchange Number of Ordinary Shares may be worth significantly less than \$101 and an MCN5 Holder may suffer a loss as a consequence.	Clauses 6.1 and 9.1 of the MCN5 Terms
2.8.4. If Exchange does not occur following an Acquisition Event, will MCN5 Holders continue to hold MCN5?	Where Exchange does not occur following an Acquisition Event, MCN5 Holders will continue to hold MCN5 in accordance with the MCN5 Terms.	Clause 9.13 of the MCN5 Terms

2.9. Regulatory treatment of MCN5

Topic	Summary	Further information
2.9.1. What are MGL's prudential capital requirements?	MGL is a NOHC regulated by APRA. MGL is required by APRA to hold sufficient capital to meet the requirements of the Bank Group (based on APRA's ADI prudential standards) and the Non-Bank Group (calculated using the Macquarie Group's Economic Capital Adequacy Model ("ECAM")).	Section 4.7.3
2.9.2. Who is the Australian Prudential Regulation Authority (APRA)	- APRA is the prudential regulator of the Australian financial services industry. APRA oversees banks, credit unions, building societies, general insurance and reinsurance companies, life insurance companies, friendly societies and most members of the superannuation industry. - APRA's website at www.apra.gov.au includes further details of its functions and prudential standards.	
2.9.3. What is Regulatory capital?	- APRA's regulatory capital prudential standards aim to ensure that banks and non-operating holding companies of financial groups, like MGL, maintain adequate capital to support the risks associated with their activities and can withstand unexpected losses. - APRA has detailed guidance and restrictions on the types of capital instruments that are permitted to be included in a bank or financial conglomerate's regulatory capital base. Under Macquarie's NOHC authorisation, this capital is referred to as "Eligible Capital".	
2.9.4. What is the regulatory treatment of MCN5?	- APRA has assessed that MCN5 will be Eligible Capital under Macquarie's NOHC Authority. - If APRA's treatment of the MCN5 changes, a Regulatory Event may occur. See further section 2.4.3 on "Regulatory Event".	

2.10. Ranking of MCN5

Topic	Summary	For more information
2.10.1. How will MCN5 rank in a Winding Up of MGL	- If a Winding Up occurs in relation to MGL, MCN5 will rank ahead of Ordinary Shares, equally with Equal Ranking Obligations (which currently includes obligations in respect of MCN2, MCN3 and MCN4), but behind all Senior Creditors. - Any return in a Winding Up of MGL may be adversely affected if a Non-Viability Event occurs (see section 2.7). If this happens some or all MCN5 will be required to be Exchanged, or, if Exchange has not occurred within 5 Business Days, Written-Off. If an MCN5 is Exchanged, the MCN5 Holder would become a holder of Ordinary Shares and those shares may be worth significantly less than the Issue Price of the MCN5. If an MCN5 is Written-Off the MCN5 Holder will suffer a total loss of their investment in MCN5. In this case as Ordinary Shares will still be on issue, an MCN5 Holder is likely to be worse off than a holder of Ordinary Shares.	Clauses 1.5 and 16.1 of the MCN5 Terms and Section 2.7

2.11. Other

Topic	Summary	Further information
2.11.1. Can Ordinary Shares on Exchange be issued to a Sale Agent?	- In certain limited circumstances, Ordinary Shares may be issued to a Sale Agent instead of the relevant MCN5 Holder on Exchange. These circumstances include where: - the MCN5 Holder has requested MGL to do so; - the MCN5 are held by a Foreign Holder; - for any reason MGL does not have the information required to issue Ordinary Shares to an MCN5 Holder, or a FATCA Withholding is required to be made; or - MGL is of the opinion that the MCN5 Holder is prohibited from acquiring Ordinary Shares under an applicable Shareholding Law. - None of MGL, the Trustee or any Sale Agent owe any duty to the MCN5 Holder in relation to the price at which Ordinary Shares are sold. - If Ordinary Shares are required to be issued to a Sale Agent in respect of an Exchange that is not on account of a Non-Viability Event and the Sale Agent is unable to be appointed, the Issue of Ordinary Shares may be deferred for up to six months, when the rights of MCN5 Holders (other than to receive the proceeds of sale from the Sale Agent) cease.	Clauses 9.14 and 9.15 of the MCN5 Terms and section 5.1.17
2.11.2. Is set-off applicable?	An MCN5 Holder has no right to set-off any amounts owing by it to a member of the Macquarie Group against any claims owing by MGL or another member of the Macquarie Group to such MCN5 Holder. Equally, MGL has no right to set-off any amounts owing by it to an MCN5 Holder in respect of the MCN5 against any claims owing by the MCN5 Holder to it or any member of the Macquarie Group.	Clause 11.5 of the MCN5 Terms
2.11.3. What is the time limit on claims?	A claim against MGL for a payment under an MCN5 is void unless made within 5 years from the date on which payment first became due.	Clause 11.10 of the MCN5 Terms
2.11.4. Do MCN5 carry voting rights in respect of MGL?	- MCN5 Holders have no voting rights in respect of MGL or any other member of the Macquarie Group on account of holding MCN5. - MCN5 Holders may vote at meetings for MCN5 Holders in accordance with the Trust Deed.	Clause 15.2 of the MCN5 Terms
2.11.5. Can MGL issue further securities?	- MGL has the right in its absolute discretion to issue shares or other securities of any kind. - MCN5 confer no rights on an MCN5 Holder to subscribe for new securities or participate in any bonus issues of securities of MGL or any other member of the Macquarie Group.	Clause 1.7 of the MCN5 Terms and section 5.1.19
2.11.6. Are MCN5 Holders bound by determinations made by MGL?	Except in the case of manifest error or fraud, calculations, elections and determinations made by MGL under the MCN5 Terms are binding on MCN5 Holders.	Clause 18.1(i) of the MCN5 Terms
2.11.7. What is the power of attorney?	Each MCN5 Holder agrees to appoint MGL, its authorised officers and any external administrator severally to be its attorney to sign all documents and transfers and to do any other thing as may in the attorney's opinion be necessary or desirable to give effect to, record or perfect a Redemption, Resale, Exchange or Write-Off in accordance with the MCN5 Terms or to do all other things which the attorney reasonably believes to be necessary or desirable to give effect to the MCN5 Terms.	Clause 10.2(a) of the MCN5 Terms

Topic	Summary	Further information
2.11.8. Can MGL amend the MCN5 Terms and Trust Deed?	• Subject to complying with all applicable laws, and with APRA's prior written approval where required, MGL may amend the MCN5 Terms and Trust Deed without the consent of MCN5 Holders or the Trustee in certain circumstances. The amendments that MGL may make without such consent include changes: – of a formal, minor or technical nature, or made to correct any ambiguity or any manifest or proven error; – to facilitate the listing, clearing, offering for sale or Resale of the MCN5; – necessary to comply with the provisions of any statute or the requirements of any statutory authority; – in respect of any time or notice periods stated, required or permitted in connection with any Exchange; – to align the MCN5 Terms with the terms of any Relevant Securities eligible for inclusion as Eligible Capital issued after the Issue Date; – to give effect to any agreement with any Nominated Party; – necessary and appropriate to effect the substitution of an Approved Acquirer (as described below); or – that MGL does not consider to be materially adverse to the interests of MCN5 Holders as a whole. • However, any amendment to the MCN5 Terms or Trust Deed which may have an adverse effect on the Trustee's rights and obligations under the Trust Deed must in all cases first be approved by the Trustee. • Where MGL proposes to make certain amendments that it does not consider to be materially adverse to the interests of MCN5 Holders as a whole, MGL must give at least 35 days' prior notice of the proposed amendment to the Trustee. If the Trustee notifies MGL that the proposed amendment may be materially adverse to the interests of MCN5 Holders as a whole, the proposed amendment must be approved by an Ordinary Resolution. • MGL may also, with APRA's prior written approval to the extent any such amendments may cause the MCN5 to cease to be Relevant Securities eligible for inclusion as Eligible Capital, amend the MCN5 Terms and Trust Deed if the amendment has been approved by a Special Resolution and by the Trustee.	Clause 14 of the MCN5 Terms and section 5.1.28
2.11.9. What is an Approved Acquirer?	• As described in section 2.8.1, an Approved Acquirer may be substituted as issuer of listed ordinary shares in its capital whenever MCN5 are required to be Exchanged in the manner contemplated by the MCN5 Terms. The substitution of an Approved Acquirer is not an Acquisition Event. • MGL may make such amendments to the MCN5 Terms and Trust Deed that it considers necessary and appropriate to effect the substitution of the Approved Acquirer, with the prior written approval of APRA (to the extent that any such amendments may cause the MCN5 to cease to be Relevant Securities eligible for inclusion as Eligible Capital) but without the consent of the MCN5 Holders or the Trustee. • MCN5 Holders do not have any right to vote on the substitution of an Approved Acquirer. • Following the substitution of an Approved Acquirer as the issuer of Ordinary Shares on Conversion but prior to any Exchange of MCN5, MCN5 Holders continue to hold a note issued by MGL which ranks in the winding up of MGL as described in section 1.2.12 and which is convertible into ordinary shares in the Approved Acquirer in the same circumstances in which it would have otherwise been converted into Ordinary Shares in MGL.	Clause 14.2 of the MCN5 Terms
2.11.10. Can Macquarie Group purchase MCN5?	Subject to APRA's prior written approval, any member of the Macquarie Group may purchase MCN5 at any time and at any price.	Clause 15.4 of the MCN5 Terms

Topic	Summary	Further information
2.11.11. What are the taxation implications of investing in MCN5?	- The taxation implications of investing in MCN5 will depend on an investor's individual circumstances and the tax rules that apply at the time of each distribution. Prospective investors should obtain their own taxation advice. - A general outline of the Australian taxation implications for certain Australian investors participating in the Offer is included in the Australian taxation summary at section 6.1.	Section 6
2.11.12. About the
Reinvestment Offer

3.1. Overview

Topic	Summary
3.1.1. What are MCN2?	MCN2 are mandatorily convertible capital notes and constitute direct, subordinated and unsecured obligations of MGL. They were issued by MGL in 2015 and trade on ASX under the code MQGPB.
3.1.2. What is happening to the MCN2?	MGL expects to redeem the MCN2 on 17 March 2021. Assuming the redemption proceeds, MCN2 will cease trading on ASX on 5 March 2021 and on 17 March 2021: - a distribution of \$2.2354, which is expected to be 40% franked, will be paid to all MCN2 holders (subject to the distribution payment conditions in the MCN2 Terms); and - MCN2 will be redeemed for \$100 per MCN2. For Eligible MCN2 Holders who successfully participate in the Reinvestment Offer, this amount will be applied to subscribe for MCN5. While MGL expects to redeem MCN2, this redemption is subject to MGL giving a redemption notice. If the Offer does not proceed, the MCN2 redemption notice may not be given, in which case MCN2 would remain on issue.
3.1.3. Am I eligible to participate in the Reinvestment Offer?	You are eligible to participate in the Reinvestment Offer if you: - were registered as a holder of MCN2 at 7.00pm on Monday, 8 February 2021; - are shown on the MCN2 register as having an address in Australia; and - are not in the United States or acting as a nominee for, or for the account or benefit of, a person in the United States and not otherwise prevented from receiving the Reinvestment Offer or MCN5 under the laws of any jurisdiction. Also see section 7.9 – Foreign Selling Restrictions.
3.1.4. What is the Reinvestment Offer?	Under the Reinvestment Offer, MGL is proposing to redeem MCN2 for \$100 per MCN2. The Reinvestment Offer is a priority invitation to Eligible MCN2 Holders to: - apply to reinvest \$100 per MCN2 of the redemption price of all or some of their MCN2 in a corresponding number of MCN5; and - direct MGL to pay \$100 per Reinvested MCN2 as the Application Payment for the number of MCN5 applied for. Eligible MCN2 Holders will also have the opportunity to apply for additional MCN5. Applications for additional MCN5 will be dealt with under the Securityholder Offer. Reinvestment Offer Applications will be given priority over Securityholder Offer Applications in determining the allocation of MCN5. Eligible MCN2 Holders have a number of options in relation to their MCN2, which are set out in further detail in section 3.2. Important: There are important differences between MCN2 and MCN5 that Eligible MCN2 Holders should consider before deciding whether to apply to participate in the Reinvestment Offer. See section 3.4 which further describes the differences between MCN2 and MCN5.
3.1.5. How do I apply to participate?	See sections 3.2 and 8 for information on how to apply to participate in the Reinvestment Offer.
3.1.6. What is the purpose of the Reinvestment Offer?	The Reinvestment Offer gives Eligible MCN2 Holders the opportunity to reinvest in MCN5 and maintain an ongoing investment in securities issued by MGL. The funds raised through the Reinvestment Offer will be used to refinance some of the funding currently provided by MCN2.
3.1.7. Do I need to apply for a minimum number of MCN5?	There is no minimum number of MCN2 that you must hold to be able to participate in the Reinvestment Offer. However, if you are an Eligible MCN2 Holder and hold 50 MCN2 or fewer, you must apply to reinvest all your MCN2 in MCN5 if you wish to participate in the Reinvestment Offer. If you are an Eligible MCN2 Holder and own more than 50 MCN2, you can: - reinvest all of your MCN2; or - apply for a minimum number of 50 MCN5 (\$5,000) and increments of 10 MCN5 (\$1,000) thereafter.

Topic	Summary
3.1.8. Can I sell my MCN2 after I have completed and returned my Application Form?	No – once your Application has been received, a holding lock will be placed on the MCN2 the subject of your Application and you will not be able to deal with those MCN2 until they are released from the holding lock. If, on the Closing Date for the Reinvestment Offer, you hold a greater or lesser number of MCN2 than you elect to reinvest on your Reinvestment Offer Application Form, you will be taken to have applied for reinvestment of the lesser of the number of MCN2 specified on your Reinvestment Offer Application Form and the number of MCN2 registered in your name on the Closing Date for the Reinvestment Offer. An Application to participate in the Reinvestment Offer is irrevocable once submitted but will only be effective so long as it is accepted and the Reinvestment Offer proceeds.
3.1.9. Can I apply for additional MCN5?	Eligible MCN2 Holders may also apply for more MCN5 than the number of MCN2 registered in their name at 7.00pm on Monday, 8 February 2021. The minimum number of additional MCN5 you can apply for if you elect to reinvest your MCN2 as part of the Reinvestment Offer is 10 MCN5 (\$1,000) and thereafter your Application must be in increments of 10 MCN5 (\$1,000). An application for additional MCN5 will be dealt with under the Securityholder Offer. Eligible MCN2 Holders who do not wish to participate in the Reinvestment Offer may apply for MCN5 as part of the Securityholder Offer if they wish.
3.1.10. If I participate in the Reinvestment Offer, will I still receive the MCN2 distribution payment scheduled to be paid on 17 March 2021?	A distribution is scheduled to be paid in respect of all MCN2 on 17 March 2021, subject to the payment conditions in the MCN2 Terms (including MGL's absolute discretion to determine whether or not to pay distributions on MCN2). If those conditions are satisfied, MCN2 holders (including Eligible MCN2 Holders who successfully participate in the Reinvestment Offer) will receive a distribution is expected to be \$2.2354 per MCN2 which is expected to be 40% franked.
3.1.11. Can I elect to reinvest any MCN2 distribution I receive in MCN5?	No.
3.1.12. Will I receive a priority allocation of MCN5?	Reinvestment Offer Applications will be given priority over Securityholder Offer Applications in determining the allocation of MCN5. See section 8.5.2 for information on the Allocation policy.
3.1.13. Will all MCN2 Reinvestment Offer Applications be accepted?	MGL does not guarantee to accept Applications under the Reinvestment Offer. If your Application under the Reinvestment Offer is not accepted, your MCN2 may be redeemed on 17 March 2021. Should MGL give formal notice to redeem the MCN2, on 17 March 2021 you will receive the face value (\$100) for each non-Reinvested MCN2 that you hold on that date together with any distribution that MGL determines to pay (subject to the terms of issue of MCN2). See section 8.5.2 for information on the Allocation policy.
3.1.14. What are the tax implications of having my MCN2 redeemed and will any brokerage or stamp duty be payable?	A general outline of the taxation implications for certain Australian investors participating in the Offer (including through the Reinvestment Offer) can be found in the Australian taxation summary in section 6. No brokerage or commission is payable on the sale of your MCN2 to MGL or your Application for MCN5. MCN2 holders who choose to sell their MCN2 on market through their broker may be required to pay applicable brokerage (and applicable GST). No stamp duty is payable on the sale of your MCN2 to MGL or your Application for MCN5 provided that no person obtains, either alone or with an associate, an interest of 90% or more in MGL.
3.1.15. What will happen if I don't participate in the Reinvestment Offer?	While MGL expects to redeem MCN2, this redemption is subject to MGL giving a redemption notice. If the Offer does not proceed, the MCN2 redemption notice may not be given, in which case MCN2 would remain on issue. Should MGL give formal notice to redeem the MCN2, on 17 March 2021, you will receive the face value (\$100) for each non-Reinvested MCN2 that you hold on that date together with any distribution that MGL determines to pay (subject to the terms of issue of the MCN2).

Option	Summary
3.2.3. Option 3 – sell your MCN2 on market through your broker	• Prior to redemption of MCN2, you may choose to sell your MCN2 on market through your broker or otherwise at the prevailing market price in the usual course. • The market price of MCN2 is subject to change from time to time. Up-to-date information about the market price of MCN2 can be obtained from http://www.asx.com.au (ASX code “MQGPB”). • If selling through your broker, you should contact your broker before the last trading day for MCN2. • Under this option, you may have to pay brokerage and may receive a price greater or less than the face value of \$100 per MCN2. • If you have chosen to participate in the Reinvestment Offer, once your Application has been received, a holding lock will be placed on the MCN2 the subject of your Application and you will not be able to deal with those MCN2 until they are released from the holding lock.
3.2.4. Option 4 – take no action	• Eligible MCN2 Holders are not required to participate in the Reinvestment Offer and as such are not required to take any action. • MGL expects to redeem any MCN2 not reinvested under the Reinvestment Offer on 17 March 2021. • Should MGL give formal notice to redeem the MCN2, on 17 March 2021, you will receive the face value (\$100) for each non-Reinvested MCN2 that you hold on that date together with any distribution that MGL determines to pay (subject to the terms of issue of the MCN2). • Eligible MCN2 Holders who do not wish to participate in the Reinvestment Offer may apply for MCN5 as part of the Securityholder Offer if they wish.

3.3. Risks associated with participating in the Reinvestment Offer

If you are an Eligible MCN2 Holder and you apply under the Reinvestment Offer, you may receive an allocation of MCN5. As such, you will be subject to the risks associated with an investment in MCN5 and in MGL, many of which are outside the control of MGL and its Directors. These risks are outlined in section 5 and should be considered before you apply under the Reinvestment Offer.

Although there are similarities between MCN2 and MCN5, the Reinvestment Offer is not a simple rollover into an identical investment. MCN2 and MCN5 have different benefits and risks, which must be evaluated separately (see section 2). See section 3.4 below for a summary of the key differences between MCN2 and MCN5.

The \$100 per Reinvested MCN2 to which Eligible MCN2 Holders are entitled to in respect of their Reinvested MCN2 may be less than the ASX trading price of MCN2. Additionally, the Margin for MCN5 is expected to be lower than the margin for MCN2. The trading price for MCN5 may be lower than the trading price of MCN2 or less than \$100.

Therefore, rather than participating in the Reinvestment Offer, it is possible that Eligible MCN2 Holders may obtain a better financial outcome by selling their MCN2 on market or having their MCN2 redeemed, and subsequently investing the proceeds in MCN5 on market.

3.4. Key differences between MCN2 and MCN5

There are a number of differences between MCN2 and MCN5 which you should be aware of before deciding to reinvest your MCN2 under the Reinvestment Offer. The following table describes the key features of the MCN2 and MCN5 and highlights the main differences between them. You should consider these differences in light of your investment objectives, financial situation and particular needs (including financial and taxation issues) before deciding to apply for MCN5.

4.3. Organisational structure

The Macquarie Group's business operations are conducted through two groups, within which individual businesses operate: the Bank Group and the Non-Bank Group.

The Bank Group includes MBL and has two operating groups:

- Banking & Financial Services; and
- Commodities & Global Markets (excluding certain assets of the Credit Markets business and certain activities of the Commodity Markets and Finance business, and some other less financially significant activities).

The Non-Bank Group consists of:

- Macquarie Asset Management;
- Certain assets of the Credit Markets business and certain activities of the Commodity Markets and Finance business, and some other less financially significant activities of Commodities & Global Markets; and
- Macquarie Capital.

12. Operating income is classified as 'international' with reference to the geographic location from which the operating income is reported from a management perspective. This may not be the same geographic location where the operating income is recognised for reporting purposes. For example, operating income generated by work performed for clients based overseas but recognised in Australia for reporting purposes could be classified as 'international' income. Income earned in the Corporate segment is excluded from the analysis of international income.

Shared services are provided to both the Bank Group and the Non-Bank Group through the Corporate segment. The Corporate segment is not considered an operating group and currently comprises four central functions: Risk Management, Legal and Governance, Financial Management and Corporate Operations. Shared services include: Risk Management, Finance, Information Technology, Group Treasury, Settlement Service, Markets Operations, Human Resource Service, Business Services, Corporate Governance, Corporate Affairs, Taxation Services, Business Improvement and Strategy Services, Central Executive Services, and other services as may be agreed from time to time.

MBL and MGL have corporate governance and policy frameworks that meet APRA's requirements for ADIs and NOHCs, respectively. The Bank Group and the Non-Bank Group operate as separate sub-groups within MGL with clearly identifiable businesses, separate capital requirements and discrete funding programs. Although the Bank Group and the Non-Bank Group operate as separate sub-groups, both are integral to the Macquarie Group's identity and strategy as they assist the Macquarie Group in continuing to pursue value adding and diversified business opportunities while meeting its obligations under APRA rules. The following diagram shows the Macquarie Group's current organisational structure and reflects the composition of the Bank and Non-Bank Groups.

As at February 2021.

1. The MGL CEO has senior executive responsibility for the management of the business activities of the Banking Group. The MBL CEO has senior executive oversight of the Banking Group's position in order to protect MBL's interests and fulfil its responsibilities as an ADI.
2. Certain assets of the Credit Markets business, certain activities of the Cash Equities business and the Commodity Markets and Finance business, and some other less financially significant activities are undertaken from within the Non-Banking group.

Members of the MGL Board are listed at section 4.5.

MGL monitors and reviews on an ongoing basis the appropriateness of the Macquarie Group's structure, including the provision of shared services. From time to time, the optimal allocation of businesses between the Bank Group and the Non-Bank Group and within the Bank Group and the Non-Bank Group may be adjusted and we may make changes in light of relevant factors including business growth, regulatory considerations, market developments and counterparty considerations.

4.4. Business strategies

The Macquarie Group's purpose is in empowering people to innovate and invest for a better future. The way Macquarie fulfills its purpose is defined by three long held principals that determine how they conduct business and guide what they do everyday – Opportunity, Accountability and Integrity. The balance between opportunity and accountability, while operating with integrity within a strong risk management framework, is a feature of Macquarie's success and a key factor in Macquarie's long record of unbroken profitability.

Consistent with the Macquarie Group's *What We Stand For* principles, Macquarie Group's business strategy is focused on the medium-term with the following key aspects:

- **Risk Management Approach.** Adopting a conservative approach to risk management underpinned by a sound risk culture. Macquarie's robust risk management framework is embedded across all Operating and Central Service Groups.

- **Strong Balance Sheet.** Maintaining a strong and conservative balance sheet. This is consistent with Macquarie's longstanding policy of holding a level of capital which supports its business and managing its capital base ahead of ordinary business requirements. Macquarie remains well funded, with diversified funding sources. It continues to pursue the strategy of diversifying funding sources by growing its deposit base and accessing different funding markets.
- **Business mix.** Conducting a mix of annuity-style and capital markets facing businesses that deliver solid returns in a range of market conditions. Macquarie has dynamically developed its annuity-style businesses, providing steady returns to the business and Macquarie's shareholders, and stability to clients.
- **Diversification.** Operating a diversified set of businesses across different locations and service offerings: asset management and finance, banking, advisory and risk and capital solutions across debt, equity and commodities. Macquarie offers a range of services to government, institutional, corporate and retail clients. This diversity mitigates concentration risk and provides resilience to Macquarie.
- **Proven Expertise.** Utilising proven deep expertise has allowed Macquarie to establish leading market positions as a global specialist in sectors including renewables, infrastructure, resources and commodities, energy, financial institutions and real estate.
- **Adjacencies.** Expanding progressively by pursuing adjacencies through organic opportunities and selective acquisitions. These include products and geographies adjacent to Macquarie's established areas of expertise. This results in sustainable evolutionary growth.
- **Pursuit of Growth Opportunities.** Targeting continued evolution and growth through innovation. Macquarie starts with knowledge and skill, and encourages ingenuity and entrepreneurial spirit coupled with accountability. Ideas for new businesses are typically generated in the Operating Groups. Additionally, there are no specific businesses, markets or regions in which Macquarie's strategy dictates that it operates. This means it retains operational flexibility and can adapt the portfolio mix to changing market conditions within the boundaries of the Risk Appetite Statement (RAS) approved by the Board.

4.7.3. Capital position

As an APRA authorised and regulated NOHC, MGL is required to hold adequate regulatory capital to cover the risks for the whole Macquarie Group, comprising the Bank Group and the Non-Bank Group. MGL and APRA have agreed a capital adequacy framework for MGL, based on the MGL's Board-approved ECAM and APRA's capital standards for ADIs.

MGL's capital adequacy framework requires it to maintain minimum regulatory capital requirements calculated as the sum of:

- the Bank Group's minimum Tier 1 Capital requirement, based on a percentage of risk-weighted assets plus Tier 1 deductions (using prevailing APRA ADI prudential standards); and
- the Non-Bank Group's capital requirement, calculated using Macquarie Group's ECAM.

Transactions internal to the Macquarie Group are eliminated.

Eligible regulatory capital of MGL consists of ordinary share capital, retained earnings, certain reserves and eligible hybrid instruments. Eligible hybrid instruments currently include MCN2 issued in 2015, MCN3 issued in 2018, MCN4 issued in 2019 as well as Additional Tier 1 Capital of the Bank Group. MCN5 will qualify for inclusion as Eligible Capital.

APRA may require minimum capital levels above the published regulatory minimums and such requirements may increase in the future due to regulatory changes such as APRA's "unquestionably strong" proposal. Macquarie maintains a capital buffer in excess of the current regulatory minimums to meet the expectations of APRA, rating agencies and capital markets. As a result, the capital available for investment is lower than the surplus above the regulatory minimum shown.

Capital disclosures in this section include Harmonised Basel III¹³ and APRA Basel III¹⁴. The former is relevant for comparison with banks regulated by regulators other than APRA, whereas the latter reflects Macquarie's regulatory requirements under APRA Basel III rules.

The Macquarie Group regulatory capital surplus calculation as at 30 September 2020 is set out in the table below.

1. The September 2020 pro forma capital position has been calculated assuming the intended redemption of \$531m MCN2 and the issuance of \$500m MCN5.

2. In calculating the Bank Group's contribution to Macquarie's capital requirement, RWA internal to Macquarie are eliminated (30 September 2020: \$946 million).

3. Calculated at 8.5% of the Bank Group's RWAs. The 8.5% represents the Basel III minimum Tier 1 ratio of 6% plus 2.5% of capital conservation buffer (CCB).

4. Based on materiality, the countercyclical capital buffer (CCyB) of less than 1bps has not been included. The individual CCyB varies by jurisdiction and Bank Group's CCyB is calculated as the weighted average based upon exposures in different jurisdictions.

13. Harmonised Basel III relates to the Basel III rules defined by the Basel Committee on Banking Supervision, documented in the following: 'Basel III: a global regulatory framework for more resilient banks and banking systems', published December 2010 (revised June 2011) by the Bank for International Settlements (BIS).

14. APRA Basel III relates to the Prudential Standards released by APRA applying as at the date of this Prospectus.

Investment Risks

5. INVESTMENT RISKS

This section describes the risks associated with an investment in MCN5 and/or the Macquarie Group.

MGL believes that the following investment considerations may affect the investment returns under MCN5 issued under the Offer. These investment considerations are not intended to be exhaustive and are contingencies which may or may not occur and MGL is not in a position to express a view on the likelihood of any such contingency occurring.

Investment considerations which MGL believes may be material for the purpose of assessing the risks associated with an investment in MCN5 and the market for MCN5 generally are also described below.

MGL believes that the investment considerations described below represent the key risks inherent in investing in MCN5 issued under the Offer, but MGL may be unable to pay interest, principal or other amounts on or in connection with any MCN5, and MCN5 may not be able to be Exchanged, Redeemed or Resold for other reasons which may not be considered significant risks by MGL based on information currently available to it or which it may not currently be able to anticipate.

Before applying for MCN5, you should also read the detailed information set out elsewhere in this Prospectus and seek professional guidance from your financial adviser or other independent and qualified professional adviser as to the risks and investment considerations arising from an investment in MCN5, the appropriate tools to analyse such an investment, and the suitability of such an investment in the context of your particular circumstances.

MGL is not an ADI for the purposes of the Banking Act, and the obligations of MGL do not represent deposits or other liabilities of MBL. MBL does not guarantee or otherwise provide assurance in respect of the obligations of MGL.

5.1. Risks associated with investing in MCN5

5.1.1. Investments in MCN5 are an investment in MGL

Investments in MCN5 are an investment in MGL and may be affected by the ongoing performance, financial position and solvency of MGL and the Macquarie Group. MCN5 are not deposit liabilities and are not protected accounts for the purposes of the depositor protection provisions in Division 2 of Part II of the Banking Act or of the Financial Claims Scheme established under Division 2AA of Part II of the Banking Act. MCN5 are not guaranteed by any government, government agency or compensation scheme of Australia or by any other person or any other jurisdiction.

5.1.2. Suitability

MCN5 are a complex investment and may be difficult to understand, even for experienced investors. You should ensure that you understand the MCN5 Terms and risks of investing in MCN5 and consider whether it is an appropriate investment for your particular circumstances.

5.1.3. Market price and liquidity of MCN5

MCN5 may trade at a market price below their Issue Price. The market price of MCN5 may fluctuate due to various factors, including poor financial performance by MGL and the Macquarie Group, a change in Macquarie Group's financial position, investor perceptions, worldwide economic conditions, interest rates, movements in the market price of Ordinary Shares, foreign exchange rates, debt market conditions, the availability of better rates of return on other securities or investments and other factors that may affect the Macquarie Group's financial performance and position.

The market price of MCN5 may be affected by changes in laws relating to the taxation treatment of MCN5, including franking.

Where MCN5 are to be Exchanged, Redeemed or Resold for any reason, the announcement of these events may have a significant impact on the market price and/or liquidity of MCN5 and the Ordinary Shares.

Financial markets can be volatile, with the potential for significant fluctuations in the price of securities over a short period. This applies to the market price of both MCN5 and Ordinary Shares. You should carefully consider this risk before deciding to invest in MCN5.

Although MCN5 are to be quoted on ASX, there is no guarantee that a liquid market will develop for them. The market for MCN5 may be less liquid than the market for Ordinary Shares or other comparable securities. As a consequence, MCN5 Holders who wish to sell their MCN5 may be unable to do so at an acceptable price, or at all, if insufficient liquidity exists in the market for MCN5.

In addition, there is no guarantee that MCN5 will remain continuously quoted on ASX. Trading of ASX listed securities may be suspended in certain circumstances.

5.1.4. Market Price and liquidity of Ordinary Shares

Any Ordinary Shares issued on Exchange will rank equally with existing and future Ordinary Shares. Accordingly, the ongoing value of the Ordinary Shares received will depend on the market price of Ordinary Shares after an Exchange.

Upon Exchange, MCN5 Holders will generally receive approximately \$101 worth of Ordinary Shares per MCN5, based on the VWAP (which is calculated by reference to the daily volume weighted average sale price of Ordinary Shares) over a period of ASX Trading Days immediately preceding the Exchange Date. At the time they are issued, the market price of the Ordinary Shares will likely vary from that used to determine the Exchange Number and consequently the value of Ordinary Shares received will be more or less than \$101. The number of Ordinary Shares to be received by an MCN5 Holder in respect of its aggregate holding of MCN5 will be rounded down to a whole number (with entitlements of the MCN5 Holder to a part only of an Ordinary Share disregarded).

Additionally, the market price of Ordinary Shares is used to determine whether Exchange can occur in various conditions through the Exchange Conditions and Optional Exchange Restrictions. Therefore, fluctuations in the market price of Ordinary Shares can impact the timing of Exchange occurring (and may mean that Exchange never occurs).

The market price of Ordinary Shares may fluctuate due to various factors, including poor financial performance by MGL and the Macquarie Group, a change in Macquarie Group's financial position, investor perceptions, worldwide economic conditions, interest rates, foreign exchange rates, debt market conditions, the availability of better rates of return on other securities or investments and other factors that may affect the Macquarie Group's financial performance and position.

Where MCN5 are Exchanged for Ordinary Shares, there may be no liquid market for Ordinary Shares at the time of Exchange, or the market may be less liquid than that for comparable securities issued by other entities at the time of Exchange. As a consequence, MCN5 Holders who wish to sell the Ordinary Shares they may receive may be unable to do so at an acceptable price, or at all, if the market for Ordinary Shares is illiquid.

In addition, there is no guarantee that Ordinary Shares will remain continuously quoted on ASX. Trading of ASX listed securities may be suspended in certain circumstances.

5.1.5. Distributions may not be paid

There is a risk that Distributions may not be paid. The MCN5 Terms do not oblige MGL to pay Distributions, which are only payable at MGL's discretion.

If:

- MGL, in its absolute discretion, determines that the Distribution is not payable to Holders;
- the payment of a Distribution would result in MGL breaching APRA's capital adequacy requirements applicable to it;
- the payment of a Distribution would result in MGL becoming, or being likely to become, insolvent for the purposes of the Corporations Act; or
- APRA otherwise objects to the payment of a Distribution,

then that Distribution will not be paid. Changes in laws and regulations applicable to MGL may impose additional requirements which prevent MGL from paying a Distribution in additional circumstances.

MGL may issue securities or enter into financing which restrict it paying Distributions. Reduced capital adequacy levels in MGL could also restrict MGL's ability to pay Distributions.

Distributions are non-cumulative (that is, if not paid, they do not accrue), so if a Distribution is not paid for any reason, MCN5 Holders will have no right to receive that Distribution in the future. MCN5 Holders have no remedy for any non-payment. However, if a Distribution is not paid when scheduled for any reason and unless MGL subsequently pays the relevant Distribution in full within 10 Business Days of the applicable Distribution Payment Date, a Dividend Restriction will apply to MGL. This Dividend Restriction means that MGL must not, subject to certain exceptions, without the approval of a Special Resolution of MCN5 Holders determine, declare or pay a dividend on any Ordinary Shares, or undertake any Buy-Back or Capital Reduction, until and including the next Distribution Payment Date.

5.1.6. Changes in Distribution Rate

The Distribution Rate is calculated as the sum of the Reference Rate and the Margin (reduced where franking credits are attached) and is calculated for each Distribution Period. The Reference Rate will fluctuate (both increase and decrease) over time and is influenced by a number of factors. The chart in section 2.1.5 shows historical movements in the Reference Rate.

As the Reference Rate varies, there is a risk that the Distribution Rate payable will become less attractive when compared to the rates of return available on comparable securities issued by the Macquarie Group or other entities or other investments.

MGL does not guarantee any particular rate of return on MCN5.

5.1.7. Distributions may or may not be franked

MGL currently franks dividends on Ordinary Shares at 40% and Distributions are expected to be franked at the same rate as Ordinary Shares. However, there is no guarantee that this level of franking will continue to apply for the life of MCN5 and it is possible that at some time in the future Distributions on MCN5 may not be franked, or may be partially franked to a different level, or fully franked.

MGL's ability to frank Distributions on MCN5 is affected by the level of available franking credits and MGL's distributable profits. MGL's level of franking credits may be affected by a wide range of factors, including its business performance, the jurisdictions in which Macquarie Group makes profits and pays tax, the applicable Australian corporate tax rate and the amount of other frankable distributions. MGL's distributable profits may also be impacted by a wide range of factors, including its level of earnings and other distributions it makes.

If any Distribution is franked, the cash amount of that Distribution will be reduced. The payment of any franked Distribution is subject to the Payment Conditions.

5.1.8. Use of franking credits by MCN5 Holders

The value and availability of franking credits to an MCN5 Holder will differ depending on that MCN5 Holder's particular tax circumstances. MCN5 Holders should be aware that the potential value of any franking credits does not accrue at the same time as the receipt of any cash Distribution, and the ability to use the franking credits, either as an offset to a tax liability or by claiming a refund of tax after the end of the income year will depend upon the tax position of the individual MCN5 Holder.

An MCN5 Holder's entitlement to franking benefits may be denied where MGL, as issuer of the instrument, is entitled to a tax deduction in a foreign jurisdiction on Distributions if the so-called "anti-hybrid" rule in section 207-158 of the Tax Act ("Anti-hybrid Rule") applies. MGL does not anticipate being entitled to any foreign income tax deductions in relation to Distributions paid on the MCN5. As such, the Anti-hybrid Rule should not apply to deny an MCN5 Holder the benefit of either franking credits or tax offsets in relation to Distributions. However, the determination of foreign income tax deductions is complex and if such a foreign income tax deduction entitlement arises, the cash Distribution will not be adjusted or grossed up in the event that the franking credits are denied under the Anti-hybrid Rule. Further, the denial of franking benefits under the Anti-hybrid Rule would not give rise to a Tax Event.

Investors should refer to the taxation summary in section 6 and seek professional advice in relation to their tax position.

5.1.9. Dividend Restriction applies in limited circumstances

If a Distribution is not paid on MCN5, the Dividend Restriction will apply to limit MGL's ability to pay dividends on, buyback, and reduce capital in respect of Ordinary Shares, subject to certain exceptions. The Dividend Restriction applying under MCN5 does not apply to restrict distributions on any securities other than Ordinary Shares. In particular, it does not restrict MGL from making distributions on, or buying-back or returning capital on its equal ranking securities. In addition, the Dividend Restriction applies only until the next quarterly Distribution Payment Date. If Distributions are recommenced on MCN5, the Dividend Restriction will be lifted.

5.1.10. Risks upon Exchange for Ordinary Shares

Ordinary Shares are a different type of investment from MCN5. For example, dividends on Ordinary Shares are not determined by a formula. Ordinary Shares rank behind the claims of all other securities and debts of MGL in a Winding Up of MGL. Ordinary Shares trade in a manner that is likely to be more volatile than that of MCN5 and the market price is expected to be more sensitive to changes in the performance, prospects and business of the Macquarie Group.

Other events and conditions may affect the ability of MCN5 Holders to trade or dispose of Ordinary Shares issued on Exchange. For example, the willingness or ability of ASX to accept the Ordinary Shares issued on Exchange for quotation or any practical issues which affect that quotation, any disruption to the market for the Ordinary Shares or to capital markets generally, the availability of purchasers for Ordinary Shares and any costs or practicalities associated with trading or disposing of Ordinary Shares at that time.

5.1.11. MCN5 are perpetual and Exchange, Redemption or Resale may not occur

If not Redeemed, Exchanged, Resold or Written-Off beforehand, MCN5 are scheduled to be Exchanged for Ordinary Shares on 18 September 2030, subject to the Exchange Conditions being satisfied. However, there is a risk that the Exchange Conditions will not be satisfied. For example, if there is a large fall in the Ordinary Share price when compared to the Issue Date VWAP, the First Exchange Condition may not be satisfied. The Issue Date VWAP may only be adjusted for divisions, consolidations or reclassifications of MGL's share capital and bonus issues of Ordinary Shares. There are no adjustments for other capital transactions undertaken by MGL (e.g. pro rata issues, share placements) which might reduce the Ordinary Share price. The MCN5 Terms do not limit the ability of MGL to undertake such capital transactions or any similar action that may adversely affect the position of MCN5 Holders.

If Exchange does not occur on the Scheduled Mandatory Exchange Date, Exchange will then occur on the next quarterly Distribution Payment Date where the Exchange Conditions are all satisfied. There is no guarantee the Exchange Conditions will ever be satisfied and the Exchange may never occur. In this case Distributions will continue to be paid on MCN5, subject to MGL's discretion to pay Distributions and the other Payment Conditions. However, where an Exchange has not occurred, the market price and liquidity of MCN5 may be affected and MCN5 Holders who wish to sell their MCN5 may not be able to do so at an acceptable price, or at all. As such, MCN5 are a perpetual instrument and MCN5 Holders may never receive any return of their investment, either as cash or Ordinary Shares.

5.1.12. Exchange, Redemption or Resale at the option of MGL

MGL may elect to Exchange, Redeem or arrange a Resale on a Scheduled Optional Exchange Date, or the occurrence of a Tax Event or Regulatory Event. Whether any action takes place or which action is taken at these times is entirely at the option of MGL (subject to various restrictions and conditions). These choices (and consequently whether MCN5 Holders receive cash or Ordinary Shares) may be disadvantageous to MCN5 Holders and may not coincide with their individual preference or intended investment outcomes. MCN5 Holders have no right to request any of Exchange, Redemption or Resale at any time. Whilst, as at the date of this

Prospectus, no Regulatory Events or Tax Events are expected by MGL, these events are beyond the control of MGL and could occur at any future time. Any Exchange, Redemption or Resale at the option of MGL is subject to various restrictions and conditions, including, in the case of Redemption, that the MCN5 to be Redeemed are replaced with securities forming part of Eligible Capital of the same or better quality from APRA's perspective, under conditions that are sustainable for MGL's income capacity or that APRA is satisfied that the capital position of MGL is sufficient after the MCN5 are Redeemed. APRA must give written approval for any Redemption or Resale of MCN5. The granting of this approval is at the complete discretion of APRA.

As a consequence, Exchange, Redemption or Resale may not occur, or could occur at a time not previously contemplated by MCN5 Holders. This may disadvantage MCN5 Holders and not coincide with their individual preferences or intended investment outcomes. The rate of return at which MCN5 Holders may reinvest their funds may be lower than the Distribution Rate on MCN5.

5.1.13. Cash payment only in limited circumstances

MCN5 Holders will only receive a cash payment for their MCN5 where MGL chooses to Redeem or Resell MCN5. This choice of Redeeming or Reselling MCN5 is only available on specific dates or upon the occurrence of specific events and is entirely at the discretion of MGL. Further, these options are subject to conditions and restrictions, including requiring the written approval of APRA. It is not certain whether or not these tests will be met or the relevant events will occur, that APRA would give any approval, or that MGL would choose to Redeem or Resell MCN5 (or instead elect that MCN5 will be Exchanged (if possible at the relevant time)). As a consequence, there is no certainty that MCN5 Holders will receive a cash payment for their MCN5.

5.1.14. Exchange on an Acquisition Event

MGL is an ASX listed company, which may be affected by merger and acquisition activity, including the possibility of being acquired by or merged with another company, which may constitute an Acquisition Event. If an Acquisition Event occurs, an Exchange must occur (unless, the Directors determine that (a) on the Acquisition Exchange Date MGL will be, or will be likely to be, Delisted (except where, despite MGL being Delisted, the Exchange would be in the best interests of Holders as a whole) or (b) the Exchange Number of Ordinary Shares to be issued in exchange for an MCN5 (as if it were not limited by the Maximum Exchange Number applicable to an Acquisition Exchange Date) would exceed the Maximum Exchange Number applicable to an Acquisition Exchange Date and accordingly the MCN5 Holders may receive less than their Issue Price worth of Ordinary Shares (except where, despite the Exchange Number being limited to the Maximum Exchange Number applicable to an Acquisition Exchange Date, the Directors determine that the Exchange would be in the best interest of the MCN5 Holders taken as a whole)).

Such an Exchange could occur at a time not previously contemplated by MCN5 Holders, which may disadvantage MCN5 Holders and not coincide with their individual preferences or intended investment outcomes. Additionally, where the Exchange occurs because the Directors have determined it is in the MCN5 Holders best interests as a whole, that determination may not take into account the position of individual MCN5 Holders and may disadvantage individual MCN5 Holders.

5.1.15. Impact of a Non-Viability Event

If a Non-Viability Event occurs, MGL must immediately Exchange some or all MCN5 for Ordinary Shares. This could occur at any time and accordingly, is not subject to any Exchange Conditions.

A Non-Viability Event will occur if APRA has notified the Issuer in writing that:

- Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable; or
- APRA has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable.

APRA has not provided specific guidance as to how it would determine non-viability, or what would constitute equivalent support to a public sector injection of capital. However, APRA has indicated that it non-viability is likely to arise prior to the insolvency of an ADI. Non-viability could be expected to include serious impairment of MGL's financial position and solvency. However, APRA's definition of non-viability may not be confined to solvency or capital measures and APRA's position on these matters may change over time. As the occurrence of a Non-Viability Event is at the discretion of APRA, there can be no assurance given as to the factors and circumstances that may give rise to this event.

Non-viability may arise as a result of many factors including factors which impact the business, operation and financial condition of MGL. See the discussion of risks associated with MGL and the Macquarie Group, below. As a consequence, if a Non-Viability Event occurs, there are many ways and a greater likelihood that an MCN5 Holder may lose some or all of their investment.

If a Non-Viability Event occurs, some or all MCN5 on issue will be immediately Exchanged into Ordinary Shares. Exchange will occur automatically, without the need for any further action and MGL will treat MCN5 Holders as though the Exchange has occurred. MGL expects that any ASX trades in MCN5 that have not settled on the date of a Non-Viability Event will continue to settle in accordance with the normal ASX settlement, although the seller will be treated as having delivered and the buyer will be treated as having acquired Ordinary Shares into which the MCN5 have been Exchanged. Alternatively, trading in MCN5 and Ordinary Shares may be halted and unsettled transfers of MCN5 may not be registered. This disruption in trading may cause the MCN5 Holder to suffer a loss and be unable to deal in MCN5.

MCN5 Holders may not have prior notice of a Non-Viability Event and Exchange in these circumstances is not subject to the Exchange Conditions being satisfied. The Ordinary Shares that will be issued may not be quoted at the time of issue or at all and may not be tradable.

The number of Ordinary Shares that an MCN5 Holder will receive on an Exchange following a Non-Viability Event is calculated from a five ASX Trading Day VWAP prior to the Non-Viability Exchange Date and subject to the Maximum Exchange Number applicable to a Non-Viability Exchange Date. If a Non-Viability Event occurs the market price of Ordinary Shares may be volatile. Accordingly, an MCN5 Holder may receive significantly less than \$100 worth of Ordinary Shares per MCN5 and may suffer a loss as a result. This is because:

- the number of Ordinary Shares may be limited by the Maximum Exchange Number applicable to a Non-Viability Exchange Date and as a consequence the value of Ordinary Shares received may be reduced; and

- the market price of Ordinary Shares received may differ from the five ASX Trading Days VWAP used to determine the Exchange Number of Ordinary Shares.

There is no obligation on MGL to issue any Relevant Securities, or to maintain on issue any Relevant Securities that it has issued or may decide to issue in the future. As a result, if a Non-Viability Event requiring the Exchange of only some but not all Relevant Securities occurs, the relative impact on MCN5 Holders will depend on the amount of Relevant Securities other than MCN5 (if any) that are on issue at that time. The Maximum Exchange Number applicable to the Exchange of MCN5 may be different from the maximum exchange number applicable to Relevant Securities.

5.1.16. Impact of failure to Exchange leading to Write-Off

If the relevant MCN5 are not Exchanged within 5 Business Days of the Non-Viability Exchange Date then the Ordinary Shares will not be issued and the relevant MCN5 will be Written-Off. This may occur for any reason, including if MGL is prevented by applicable law, order of any court, action of any government authority from issuing Ordinary Shares. As at the date of this Prospectus, such laws could include Shareholding Laws (broadly, laws that relate to financial sector shareholdings, foreign acquisitions and takeovers and company takeovers). Other such laws may in future be specified by regulations made under the Banking Act.

In such cases, the MCN5 Holder will not receive any Ordinary Shares in respect of these MCN5, have no further claim on MGL and suffer a loss of their investment. The laws and circumstances under which an Inability Event arises may change and the change may be adverse to the interests of MCN5 Holders and MGL.

Recent changes to the law have given statutory recognition to conversion and write-off provisions in regulatory capital instruments such as MCN5, subject to limited exceptions (such as Shareholding Laws and other such laws that are in future specified by regulations made under the Banking Act).

5.1.17. Ordinary Shares issued to a Sale Agent

If MCN5 are to be Exchanged and:

- the MCN5 Holder has notified MGL that it does not wish to receive Ordinary Shares;
- the MCN5 are held by a person whose registered address is outside of Australia or who MGL believes is not an Australian resident and MGL believes the issue of Ordinary Shares would not be permitted by law or would be permitted only after compliance with conditions which MGL considers, in its absolute discretion, are not acceptable or are unduly onerous;
- MGL does not have the necessary information to issue the Ordinary Shares to a particular MCN5 Holder;
- a FATCA withholding is required to be made in respect of any Ordinary Shares to be delivered as a result of Exchange; or
- MGL believes it is not permitted to issue some or all Ordinary Shares to a particular MCN5 Holder under any Australian or foreign law which limits or restricts the number of shares in MGL which a person may hold; then

MGL will use reasonable endeavours to appoint a Sale Agent and, if a Sale Agent is appointed then, subject to applicable law and provided that MGL, the Trustee and the Sale Agent are satisfied that the Ordinary Shares otherwise to be Exchanged may lawfully be issued and sold by the Sale Agent without having to take steps which any of MGL, the Trustee or Sale Agent regard as onerous, MGL will instead issue the relevant Ordinary Shares to the Sale Agent which will at the first reasonable opportunity sell the Ordinary Shares (together with Ordinary Shares of each other MCN5 Holder similarly affected) and pay to the relevant MCN5

Holder its proportionate share of the net proceeds actually received from the sale (after deducting applicable brokerage, stamp duty and other taxes, charges and expenses).

If MGL appoints a Sale Agent to receive the issue of, and sell, Ordinary Shares in relation to an Exchange event, the appointment of the Sale Agent is to the exclusion of the Trustee (unless the Trustee is appointed as Sale Agent). In other words, in such a situation, the Trustee will have no role in connection with the sale of the relevant Ordinary Shares or the distribution of the sale proceeds. Instead, the sale process will be conducted by the Sale Agent. Your personal information (such as your name, contact details, account details and identification information) will be given to the Trustee and Sale Agent for the purposes of the sale. None of MGL, the Trustee, the Sale Agent nor any other person will owe any duties or obligations under the MCN5 Terms or Trust Deed to MCN5 Holders in connection with the Ordinary Shares issued to, and sold by, the Sale Agent.

MGL and the Sale Agent give no assurance as to whether a sale will be achieved or the price at which it may be achieved and each have no liability to MCN5 Holders for any loss suffered as a result of the sale of Ordinary Shares. The issue of the Ordinary Shares to the Sale Agent will satisfy all obligations of MGL in respect to the MCN5.

In these circumstances the sale of Ordinary Shares is beyond the control of the MCN5 Holder and may disadvantage the individual MCN5 Holder and not coincide with their individual preferences or intended investment outcomes. The amount received in respect of this sale may be less than the investment of the MCN5 Holder.

If either or both of MGL and the Sale Agent is of the opinion that Ordinary Shares cannot be issued to the Sale Agent (or issue would require onerous steps to be taken) or otherwise to the MCN5 Holder within 5 Business Days of a Non-Viability Exchange Date, then the relevant MCN5 will be Written-Off.

In the case of an Exchange on any other date, if MGL or the Sale Agent is of the opinion that the issue of Ordinary Shares to the Sale Agent cannot be made in accordance with applicable laws (or would require onerous steps to be taken), the issue of Ordinary Shares is deferred and the relevant MCN5 remain on issue until the Ordinary Shares are issued or the relevant MCN5 Redeemed. However, six months after the Exchange Date the rights of the relevant MCN5 Holder cease, other than the right to receive any net proceeds of the sale of Ordinary Shares issued to the Sale Agent before that time.

5.1.18. Restrictions on rights and ranking in a Winding Up

MCN5 are issued by MGL under the terms of the Trust Deed (including the MCN5 Terms). An MCN5 Holder has no claim on MGL in respect of the MCN5 except as provided in the MCN5 Terms and in the Trust Deed. For further information on the relevant provisions of the Trust Deed see section 7.1.

MCN5 are unsecured and subordinated obligations of MGL. In the event of a Winding Up of MGL and assuming that MCN5 have not been Exchanged, Redeemed or Resold and are not required to be Written-Off due to a Non-Viability Event, MCN5 Holders will be entitled to claim for the Liquidation Amount of each MCN5 equal to \$100 for each MCN5. The claim for the Liquidation Amount ranks equally with Equal Ranking Obligations but is subordinated to Senior Creditors. If, on a Winding Up of MGL:

- there is a shortfall of funds to pay all amounts ranking senior to MCN5, MCN5 Holders will not receive any of the Liquidation Amount; and

- all amounts ranking senior to MCN5 have been paid but there is a shortfall of funds to pay all amounts ranking equally with MCN5, MCN5 Holders may not receive all (or any) of the Liquidation Amount.

If the MCN5 have been Exchanged (including following the occurrence of a Non-Viability Event), MCN5 Holders will hold Ordinary Shares and rank equally with other holders of Ordinary Shares in a Winding Up.

Where a Non-Viability Event occurs, if for any reason (for example due to applicable laws, order of a court or action of any government authority) Exchange of any MCN5 has not occurred within 5 Business Days following such an event, then those MCN5 are Written-Off (that is, the MCN5 Holder's rights (including to Distributions) in relation to those MCN5 are immediately and irrevocably terminated for no consideration with effect on and from the Non-Viability Exchange Date). The MCN5 Holder's investment will lose all of its value and the MCN5 Holder will not receive any Ordinary Shares or other compensation.

MCN5 may pay a higher rate of distribution than comparable securities and instruments which are not subordinated. However there is a greater risk that an MCN5 Holder would lose some or all of their investment in MCN5 should MGL become insolvent or in a Winding Up of MGL. Where MCN5 are Written-Off, as Ordinary Shares will still be on issue, an MCN5 Holder is likely to be worse off than a holder of Ordinary Shares.

5.1.19. Other securities issued by MGL

MCN5 do not in any way restrict MGL from issuing further Ordinary Shares, other securities (including securities that rank equally with or ahead of the MCN5) or from incurring further debt. MGL's obligations under MCN5 are subordinate to Senior Creditors and obligations preferred by law. Accordingly, the obligations of MCN5:

- will not be satisfied unless MGL can satisfy in full all of its other obligations ranking senior to MCN5; and
- may not be satisfied in full unless MGL can also satisfy in full all of its other obligations ranking equally with MCN5,

and future issues of securities or debts by MGL may dilute the claim of MCN5 Holders or reduce the value of their investment or liquidity of MCN5. The future issue of such securities may be on terms such that they would be exchanged, converted or written-off other than on a proportionate basis with the MCN5 and affect the proportions of MCN5 Exchanged or Written-Off due to a Non-Viability Event.

An investment in MCN5 carries no right to participate in any future issue of securities issued by MGL.

No prediction can be made as to the effect, if any, which future issues of securities by MGL may have on the market price or liquidity of MCN5 or the likelihood of payments being made on MCN5.

An investment in MCN5 carries no right to be Redeemed or otherwise be repaid at the same time as MGL redeems or otherwise repays other securities.

5.1.20. Credit rating risk relating to securities

MGL's cost of funds, margins, access to capital markets and competitive position and other aspects of its performance may be affected by its credit ratings, including any long-term credit ratings (see section 5.2.5 for more information) or the ratings assigned to any class of its securities. Credit rating agencies may withdraw, revise or suspend credit ratings or change the methodology by which securities are rated. Even though MCN5 will not be rated, such changes could adversely affect the market price, liquidity and performance of MCN5 or Ordinary Shares received on Exchange.

5.1.21. Regulatory treatment

MCN5 are Eligible Capital of MGL, which currently qualify as regulatory capital of MGL for APRA purposes.

A Regulatory Event may occur if the Issuer determines that, as a result a change in law or regulation or determination of APRA:

- any of the MCN5 are not eligible for inclusion as Eligible Capital;
- additional requirements in connection with the MCN5 would be imposed on MGL or the Macquarie Group which the Issuer determines in its absolute discretion might have a material adverse effect on MGL or otherwise be unacceptable; or
- to have any of the MCN5 outstanding would be unlawful or impractical or that MGL or the Macquarie Group would be exposed to a more than *de minimis* increase in its costs in connection with those MCN5.

If a Regulatory Event occurs, MGL may be entitled to Exchange, Resell or, with the written approval of APRA, Redeem MCN5.

As a consequence, Exchange, Redemption or Resale may occur at any time and at a time not previously contemplated by MCN5 Holders, which may disadvantage MCN5 Holders and not coincide with their individual preferences or intended investment outcomes. The rate of return at which MCN5 Holders may reinvest their funds or receive in connection with any Ordinary Shares, may be lower than the Distribution Rate on MCN5.

The choice of Exchange, Redemption or Resale when they are available, is entirely at the option of MGL. The choice of these actions (and consequently whether MCN5 Holders receive cash or Ordinary Shares) may be disadvantageous to MCN5 Holders and may not coincide with their individual preference or intended investment outcomes.

5.1.22. Tax consequences

A general outline of the tax consequences of investing in MCN5 for certain potential investors who are Australian residents for tax purposes is set out in the taxation summary in section 6.1. This summary is in general terms and is not intended to provide specific advice addressing the circumstances of any particular potential investor. Accordingly, potential investors should seek independent advice concerning their own individual tax position.

If a change is made or announced in a law or regulation, or a judicial decision, or an administrative pronouncement, ruling or challenge from a government authority which was not expected at the time of issue of MCN5, which has an adverse effect on MGL in the amount of taxes, assessments or other governmental charges in connection with MCN5, or affects the withholding treatment of MCN5 or whether any Distribution would be frankable, then a Tax Event may occur.

If a Tax Event occurs, MGL may be entitled to Exchange, Resell or, with the written approval of APRA, Redeem MCN5.

As a consequence, Exchange, Redemption or Resale may occur at any time and at a time not previously contemplated by MCN5 Holders, which may disadvantage MCN5 Holders and not coincide with their individual preferences or intended investment outcomes. The rate of return at which MCN5 Holders may reinvest their funds may be lower than the Distribution Rate on MCN5.

The choice of Exchange, Redemption or Resale when they are available, is entirely at the option of MGL. The choice of these actions (and consequently whether MCN5 Holders receive cash or Ordinary Shares) may be disadvantageous to MCN5 Holders and may not coincide with their individual preferences or intended investment outcomes.

If the corporate tax rate in Australia changes, the cash amount of Distributions and any associated franking credits may change.

5.1.23. Powers of APRA

Under the Banking Act, APRA has power to issue directions to MGL. These powers of APRA are broad and may be exercised to intervene in the performance of obligations and the exercise of rights under the MCN5 (see further section 5.2.7).

The Banking Act gives APRA extensive powers to facilitate the resolution of the entities that it regulates (and their subsidiaries) in times of distress. Powers given to APRA include oversight, management and directions powers in relation to MGL, MBL and other Macquarie Group members, and powers with respect to statutory management. The Banking Act also gives statutory recognition to provisions for the conversion or write-off of an instrument such as the MCN5.

In addition, APRA has powers to require the compulsory transfer of all or part of the business of MGL pursuant to the *Financial Sector (Transfer and Restructure) Act 1999* (Cth) ("**FSTR Act**"). This power arises in circumstances where APRA has decided to make a compulsory transfer of the business of, or shares in, MBL. A transfer under the FSTR Act overrides anything in any contract or agreement to which MGL is a party, including the MCN5 Terms.

These powers of APRA may be exercised in a way which adversely affects the ability of MGL to comply with its obligations in respect of the MCN5 (including in connection with the Exchange of MCN5), and this may adversely affect the position of MCN5 Holders.

5.1.24. Accounting standards

New, or amendments to existing, accounting standards issued by either the International Accounting Standards Board or Australian Accounting Standards Board may affect the reported earnings and financial position of MGL in future financial periods. This may adversely affect the ability of MGL to pay Distributions.

5.1.25. Shareholding limits

Various laws, including Chapter 6 of the Corporations Act, the Foreign Acquisition and Takeovers Act 1975, the *Financial Sector (Shareholdings) Act 1998* ("**FSSA**") and Part IV of the Competition and Consumer Act 2010 may restrict the number of Ordinary Shares that any person may hold. Mergers, acquisitions and divestments of Australian public companies listed on ASX (such as MGL) are regulated by detailed and comprehensive legislation and the rules and regulations of ASX.

The FSSA restricts ownership of MGL by people (together with their associates) to a 20% stake. A shareholder may apply to the Australian Federal Treasurer to extend their ownership beyond 20%, but approval will not be granted unless the Treasurer is satisfied that the holding is in the national interest.

MCN5 Holders should take care to ensure that their holding of MCN5 (and any Ordinary Shares that they could be Exchanged for) do not breach any applicable restrictions on ownership.

Where, on an Exchange, the issue of any Ordinary Shares to any particular MCN5 Holder (either directly or indirectly) is prevented by law, MGL may be unable to Exchange those MCN5 and they will be Written-Off.

5.1.26. FATCA withholding and information reporting

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 ("FATCA") impose a reporting regime and potentially a 30% withholding tax with respect to certain payments. The Australian Government and the US Government signed an intergovernmental agreement ("IGA") in respect of FATCA on 28 April 2014, providing an alternative means for Australian financial institutions to comply with FATCA. Under the IGA, Australian financial institutions that may be involved in the MCN5 payment processes, such as custodians or nominees, may be required to provide the Australian Taxation Office ("ATO") with information about investors. As such, certain information may be requested from MCN5 Holders or beneficial owners of MCN5 which may be provided to the ATO. MGL does not anticipate any financial institutions involved in the payment processes (including MGL itself) being obliged to deduct any withholding for or on account of FATCA, but there can be no assurance that MGL or any relevant financial institution will not be required to deduct or withhold amounts on payments made to MCN5 Holders as a result of FATCA in the future.

If an amount was to be deducted or withheld in respect of FATCA from payments on MCN5 or deliveries of Ordinary Shares made in respect of MCN5, neither MGL nor any paying agent nor any other person would, pursuant to the conditions of MCN5, be required to pay additional amounts as a result of the deduction or withholding. As a result, MCN5 Holders may receive less Distributions, principal or Ordinary Shares than expected.

FATCA is particularly complex. Investors should consult their own tax advisers to determine how these rules may apply to payments they will receive under MCN5, particularly if they are a U.S. person or have financial dealings with a U.S. person.

5.1.27. Common Reporting Standard

The OECD Common Reporting Standard for Automatic Exchange of Financial Account Information in Tax Matters ("CRS") may require financial institutions involved in the MCN5 payment processes, such as custodians or nominees, to report information regarding MCN5 to their local tax authority and follow related due diligence procedures. MCN5 Holders may be requested to provide certain information and certifications to ensure compliance with the CRS. The Australian Government has enacted legislation amending, among other things, the *Taxation Administration Act 1953* (Cth) to give effect to the CRS. The CRS applies to Australian financial institutions with effect from 1 July 2017.

5.1.28. Amendment of MCN5 Terms or Trust Deed

In certain circumstances, MGL may, with APRA's prior written approval where required, amend the MCN5 Terms or Trust Deed without the approval of MCN5 Holders or the Trustee. These circumstances include where MGL is of the opinion that the amendments do not materially adversely affect the interests of the MCN5 Holders as a whole.

In this instance, MGL must give at least 35 days' prior notice of the proposed amendment to the Trustee. If the Trustee notifies MGL that the proposed amendment may be materially adverse to the interests of MCN5 Holders as a whole, the proposed amendment must be approved by an Ordinary Resolution.

MGL may also, with APRA's prior written approval where required, amend the MCN5 Terms or Trust Deed if the amendment has been approved by a Special Resolution of MCN5 Holders and the Trustee. Amendments under these arrangements are binding on all MCN5 Holders, despite the fact that an individual MCN5 Holder may not agree with the amendment, has voted against making the amendment or may be disadvantaged by the amendment.

MGL may also, with APRA's prior written approval, amend the MCN5 Terms in circumstances where the Reference Rate ceases to be available and replace the Reference Rate with an alternative rate that MGL considers appropriate, and make certain other amendments to the MCN5 Terms. Such amendments could adversely affect the interests of MCN5 Holders.

APRA's prior written approval of an amendment is required where the amendment may cause the MCN5 to cease to be Eligible Capital.

5.2. Risks associated with MGL and the Macquarie Group

The factors described below relate to an investment in MGL and the Macquarie Group.

Risks associated with MGL and the Macquarie Group are relevant to an investment in MCN5 because they may adversely affect MGL's ability to fulfil its obligations under the MCN5 Terms, the market value of MCN5 and the market value of, and any dividends paid on, Ordinary Shares issued on an Exchange of MCN5.

Risks may affect one or more of Macquarie Group's businesses.

5.2.1. Global credit and market conditions

MGL's and the Macquarie Group's business and financial condition have been and, may in the future be, negatively affected by global credit and other market conditions. The Macquarie Group's businesses operate in or depend upon the operation of global markets, including through exposures in securities, loans, derivatives and other activities. In particular, uncertainty and volatility in global credit markets, liquidity constraints, increased funding costs, constrained access to funding and the decline in equity and capital market activity have adversely affected, and may again adversely affect, transaction flow in a range of industry sectors.

The Macquarie Group's trading income may be adversely affected during times of subdued market conditions and client activity, and increased market risk can lead to trading losses or cause the Macquarie Group to reduce the size of its trading businesses in order to limit its risk exposure. Market conditions, as well as declines in asset values, may cause the Macquarie Group's clients to transfer their assets out of the Macquarie Group's funds or other products or their brokerage accounts and result in reduced net revenues.

The Macquarie Group's funds management fee income, including base and performance fees, may be adversely affected by volatility in equity values and returns from its managed funds. The value and performance of its loan portfolio may also be adversely affected by deteriorating economic conditions.

The Macquarie Group's returns from asset sales may also decrease if economic conditions deteriorate. If financial markets decline, revenues from the Macquarie Group's products are likely to decrease. In addition, increases in volatility increase the Macquarie Group's level of risk weighted assets and increase capital requirements. Increased capital requirements may require the Macquarie Group to raise additional capital at a time, and on terms, which may be less favourable than the Macquarie Group would otherwise achieve during stable market conditions.

Sudden declines and significant volatility in the prices of assets may substantially curtail or eliminate the trading markets for certain assets, which may make it very difficult to sell, hedge or value such assets. The inability to sell or effectively hedge assets reduces the Macquarie Group's ability to limit losses in such positions and difficulty in valuing assets may negatively affect the Macquarie Group's capital, liquidity or leverage ratios, increase funding costs and generally require the Macquarie Group to maintain additional capital.

The commercial soundness of many financial institutions may be closely interrelated as a result of credit, trading, clearing or other relationships among financial institutions. Concerns about, or a default by, one or more institutions or by a sovereign could lead to market-wide liquidity problems, losses or defaults by other institutions, financial instruments losing their value and liquidity, and interruptions to capital markets that may further affect the Macquarie Group. This is sometimes referred to as "systemic risk" and may adversely affect financial intermediaries, such as clearing agencies, clearing houses, banks, securities firms, hedge funds and exchanges that the Macquarie Group interacts with on a daily basis. If any of the Macquarie Group's counterpart financial institutions fail, the Macquarie Group's financial exposures to that institution may lose some or all of their value. Any of these events would have a serious adverse effect on the Macquarie Group's liquidity, profitability and value.

The market and economic disruptions associated with a recession may affect consumer confidence levels and spending, corporate investment and job creation, bankruptcy rates, levels of incurrence and default on consumer and corporate debt, economic growth rates and asset values, among other factors. Any such unfavourable conditions or developments could have an adverse impact on the Macquarie Group's business. For example, these developments can adversely affect investor and client confidence, resulting in declines in the size and number of underwritings, financial advisory transactions and increased market risk as a result of increased volatility.

5.2.2. Foreign exchange risk

Changes and increased volatility in currency exchange rates may adversely impact MGL's financial results and its financial and regulatory capital positions. While the Macquarie Group's consolidated financial statements are presented in Australian Dollars, a significant portion of the Macquarie Group's operating income is derived, and operating expenses are incurred, from its offshore business activities, which are conducted in a broad range of currencies. Changes in the rate at which the Australian Dollar is translated from other currencies can impact the Macquarie Group's financial statements and the economics of its business.

Although the Macquarie Group seeks to carefully manage its exposure to foreign currencies, in part through matching of assets and liabilities in local currencies and through the use of foreign exchange forward contracts to hedge its exposure, the Macquarie Group is still exposed to exchange risk. Insofar as the Macquarie Group is unable to hedge or has not completely hedged its exposure to currencies other than the Australian Dollar, the Macquarie Group's earnings, funding position or regulatory capital position could be affected. As well as potentially impacting the reported profit, this could impact the Macquarie Group's funding costs and adversely affect the Macquarie Group's ability to fund and grow its business as well as potentially requiring additional capital to be raised and impacting the competitiveness of its businesses.

5.2.3. Other market, asset and interest rate risk

MGL's and the Macquarie Group's businesses are subject to the risk of loss associated with falling prices in the equity and other markets in which they operate. MGL and the Macquarie Group are exposed to changes in the value of financial instruments and other financial assets that are carried at fair market value, as well as changes to the level of their advisory and other fees, due to changes in interest rates, exchange rates, equity and commodity prices and credit spreads and other market risks. These changes may result from changes in economic conditions, monetary and fiscal policies, market liquidity, availability and cost of capital, international and regional political events, acts of war or terrorism, corporate, political or other scandals that reduce investor confidence in capital markets, natural disasters or pandemics or a combination of these or other factors.

MGL and the Macquarie Group trade in foreign exchange, interest rate, commodity, bullion, energy, securities and other markets and are an active price maker in the derivatives market. Certain financial instruments that MGL and/or the Macquarie Group hold and contracts to which they are a party are complex and these complex structured products often do not have readily available markets to access in times of liquidity stress. MGL and the Macquarie Group may incur losses as a result of decreased market prices for products MGL trades, which decreases the valuation of its trading and investment positions, including its interest rate and credit products, currency, commodity and equity positions. In addition, reductions in equity market prices or increases in interest rates may reduce the value of MGL and the Macquarie Group's clients' portfolios, which in turn may reduce the fees MGL and the Macquarie Group earns for managing assets in certain parts of their business. Increases in interest rates or attractive prices for other investments could cause MGL's and the Macquarie Group's clients to transfer their assets out of its funds or other products.

The expected discontinuation of LIBOR or any other interest rate benchmarks (collectively, the "IBORs") and the adoption of alternate reference rates ("ARR") by the market introduce a number of risks for the Macquarie Group, its clients, and the financial services industry more widely. These include, but are not limited to:

- Conduct risks – where Macquarie's management of the transition may lead to customer complaints, regulatory sanctions or reputational impact.
- Legal and execution risks – relating to documentation changes required for new ARR products and for the transition of legacy contracts to ARRs and legal proceedings or other actions regarding the interpretation and enforceability of provisions in IBOR-based contracts; and regulatory investigations or reviews in respect of our preparation and readiness for the replacement of IBOR with alternative reference rates.

- Financial risks and pricing risks – arising from any changes in the pricing mechanisms of impacted financial instruments.
- Operational risks – due to the potential need for the Macquarie Group, its customers and the market to adapt IT systems, operational processes and controls to accommodate one or more ARR for a large volume of trades.

Further, interest rate risk arises from a variety of sources including mismatches between the repricing periods of assets and liabilities. As a result of these mismatches, movements in interest rates can affect earnings or the value of the Macquarie Group, including MGL.

5.2.4. Capital adequacy

The Macquarie Group seeks to maintain capital levels to ensure it can achieve strategic plans and objectives, manage the risks to which it is exposed, absorb unexpected losses and meet market expectations of capital levels. The Macquarie Group is required to maintain minimum levels determined by the risk profile of its operations and within the frameworks by which it is regulated. If the Macquarie Group fails to hold sufficient capital, including as a result of unexpected events affecting its business, operations and financial condition, there may be an increased risk of regulatory intervention in the operation of the business, and ultimately a greater risk of non-viability and insolvency. Reduced capital adequacy levels in MBL or MGL could also restrict those entities' ability to pay dividends or distributions.

Many of the capital frameworks that the Macquarie Group operates under have been recently reviewed or are currently under review. Changes to these frameworks can require the Macquarie Group to hold more capital and have an adverse impact on the Macquarie Group.

5.2.5. Credit ratings

Failure of MGL or the Macquarie Group to maintain their credit ratings and those of their subsidiaries could adversely affect their cost of funds, liquidity, competitive position and access to capital markets.

The credit ratings assigned to MGL or the Macquarie Group and certain of their subsidiaries by rating agencies are based on an evaluation of a number of factors, including the Macquarie Group's ability to maintain a stable and diverse earnings stream, strong capital ratios, strong credit quality and risk management controls, funding stability and security, disciplined liquidity management and its key operating environments, including the availability of systemic support in Australia. In addition, a credit rating downgrade could be driven by the occurrence of one or more of the other risks identified in this section or by other events that are not related to the Macquarie Group.

If these Macquarie Group entities fail to maintain their current credit ratings, this could adversely affect MGL's or the Macquarie Group's cost of funds and related margins, liquidity, competitive position, the willingness of counterparties to transact with the Macquarie Group and its ability to access capital markets. This may also trigger the MGL's or the Macquarie Group's obligations under certain bilateral provisions in some of their trading and collateralised financing contracts. Under these provisions, counterparties could be permitted to terminate contracts with the Macquarie Group or require it to post additional collateral. Termination of MGL's or a Macquarie Group entity's trading and collateralised financing contracts could cause them to sustain losses and impair their liquidity by requiring them to find other sources of financing or to make significant cash payments or securities movements.

5.2.6. Global economic, market and business risks with respect to the COVID-19 pandemic

The COVID-19 pandemic has caused, and will likely continue to cause, severe impact on global, regional and national economies and disruption to international trade and business activity. The COVID-19 pandemic has already caused increased unemployment and the levels of equity and other financial markets to decline sharply and to become volatile, and such effects may continue or worsen in the future. This may in turn reduce the level of activity in sectors in which certain of the Macquarie Group's businesses operate and thus have a negative impact on such businesses' ability to generate revenues or profits.

Governments and central banks around the world have reacted to the economic crisis caused by the pandemic by implementing stimulus and liquidity programs and cutting interest rates, however it is unclear whether these actions or any future actions taken by governments and central banks will be successful in mitigating the economic disruption. Additionally, any such fiscal and monetary actions are subject to withdrawal by the relevant governments or central banks, or may lapse without renewal. If the COVID-19 pandemic is prolonged and/or actions of governments and central banks are unsuccessful in mitigating the economic disruption, the negative impact on global growth and global financial markets could be amplified, and may lead to recessions in national, regional or global economies.

The Banking Group implemented a range of support measures, including deferral of certain loan repayments and payment plans, to provide short term financial assistance to customers facing difficulties as a consequence of COVID-19. A range of other support measures have also been implemented by the Macquarie Group for some of its other businesses. Although some of these initiatives are being scaled back and are expected to cease by 31 March 2021, Macquarie may implement in the future new measures for its customers in further response to the COVID-19 pandemic.

The impact of COVID-19 has and may lead to further reduced client activity and demand for Macquarie Group's products and services, higher credit and valuation losses in Macquarie Group loan and investment portfolios, impairments of financial assets, trading losses and other negative impacts on Macquarie Group's financial position, including possible constraints on capital and liquidity, as well as higher costs of capital, and possible changes or downgrades to MGL's credit ratings. If conditions deteriorate or remain uncertain for a prolonged period, the Macquarie Group's funding costs may increase and its ability to replace maturing liabilities may be limited, which could adversely affect the Macquarie Group's ability to fund and grow its business.

Additionally, despite the business continuity and crisis management policies currently in place, travel restrictions or potential impacts on personnel and operations may disrupt the Macquarie Group's business and increase operational risk losses. The expected duration and magnitude of the COVID-19 pandemic and its potential impacts on the economy and the Macquarie Group's personnel and operations are unclear. Should the impact of COVID-19 be prolonged or increasingly widespread and severe and the actions taken to control its spread be unsuccessful, the Macquarie Group's results of operations and financial condition may be adversely affected.

5.2.7. Legal and regulatory compliance risks

Many of MGL's and the Macquarie Group's businesses are highly regulated and they could be adversely affected by temporary and permanent changes in law, regulations and regulatory policy.

The Macquarie Group operates various kinds of businesses across multiple jurisdictions or sectors which are regulated by more than one regulator. Additionally, some members of the Macquarie Group own or manage assets and businesses that are regulated. The Macquarie Group's businesses include an ADI in Australia (regulated by APRA), bank branches in the United Kingdom, the Dubai International Finance Centre, Singapore and Hong Kong and representative offices in the United States, New Zealand and Switzerland. The regulations vary from country to country but generally are designed to protect depositors and the banking system as a whole, not holders of MGL's securities or creditors. In addition, as a diversified financial institution, many of the Macquarie Group's businesses are subject to financial services regulation other than prudential banking regulation.

Regulatory agencies and governments frequently review and revise banking and financial services laws, security and competition laws, fiscal laws and other laws, regulations and policies, including fiscal policies. Changes to laws, regulations or policies, including changes in interpretation or implementation of laws, regulations or policies, could substantially affect MGL and the Macquarie Group or their businesses, the products and services MGL and the Macquarie Group offer or the value of their assets, or have unintended consequences or impacts across MGL's and the Macquarie Group's business. These may include changing required levels of liquidity and capital adequacy, increasing tax burdens generally or on financial institutions or transactions, limiting the types of financial services and products that can be offered and/or increasing the ability of other providers to offer competing financial services and products, as well as changes to prudential regulatory requirements.

Global economic conditions and increased scrutiny of the culture in the banking sector have led to increased supervision and regulation, as well as changes in regulation in the markets in which MGL and the Macquarie Group operate and may lead to further significant changes of this kind, which may result in increased compliance costs and additional regulatory obligations for the Macquarie Group.

In some countries in which Macquarie Group does business or may in the future do business, in particular in emerging markets, the laws and regulations applicable to the financial services industry are uncertain and evolving, and it may be difficult for the Macquarie Group to determine the requirements of local laws in every market. The Macquarie Group's inability to remain in compliance with local laws in a particular market could have a significant and negative effect not only on its businesses in that market but also on its reputation generally.

In addition, regulation is becoming increasingly extensive and complex and some areas of regulatory change involve multiple jurisdictions seeking to adopt a coordinated approach or even an inconsistent approach or certain jurisdictions seeking to expand the territorial reach of their regulation. The nature and impact of future changes are unpredictable, beyond MGL's and the Macquarie Group's control and may result in potentially conflicting requirements, resulting in additional legal and compliance expenses and changes to their business practices that adversely affect their profitability.

MGL is regulated by APRA as a NOHC. APRA may introduce new prudential regulations or modify existing regulations, including those that apply to MGL as a NOHC. Any such event could result in changes to the organisational structure of the Banking Group and/or the Macquarie Group and adversely affect the Macquarie Group.

MGL is a holding company and many of its subsidiaries, including its broker-dealer and bank subsidiaries, such as MBL, are subject to laws that authorise regulatory bodies to block or reduce the flow of funds and dividends from those subsidiaries to MGL. Restrictions or regulatory action of that kind could impede access to funds that MGL needs to make payments on its obligations, including obligations such as MCN5, or dividend payments on Ordinary Shares. In particular, the availability of MBL's funding to meet the obligations of MGL or the Non-Banking Group is subject to regulatory restrictions.

The Australian government has also passed the *Treasury Laws Amendment (Design and Distributions Obligations and Product Intervention Powers) Act 2019* (Cth) which imposes design and distribution obligations on the issuers, providers and distributors of financial products. These laws may also affect the liquidity of funding instruments such as MCN5, if they lead to a material reduction in future issuance volumes or secondary trading activity by investors.

The Macquarie Group is also subject in its operations worldwide to laws and regulations relating to corrupt and illegal payments and money laundering obligations, as well as laws, sanctions and economic trade restrictions relating to doing business with certain individuals, groups and countries. The geographical diversity of its operations, employees, clients and customers, as well as the vendors and other third parties that it deals with, increases the risk that a member of the Macquarie Group may be found in violation of such rules or regulations. Any such violation could subject the Macquarie Group to significant penalties, revocation, suspension, restriction or variation of conditions of operating licences, adverse reputational consequences, litigation by third parties (including potentially class actions) or limitations on its ability to do business. The Macquarie Group's ability to comply with these laws is dependent on its ability to improve detection and reporting capabilities and reduce variation in control processes and oversight accountability.

5.2.8. Increased governmental and regulatory scrutiny

Governmental scrutiny from regulators, legislative bodies and law enforcement agencies with respect to matters relating to the financial services sector generally, and MGL's business operations, capital, liquidity and risk management, compensation and other matters, has increased dramatically over the past several years. The financial crisis and the subsequent political and public sentiment regarding financial institutions has resulted in a significant amount of adverse press coverage, as well as adverse statements or charges by regulators or other government officials, and in some cases, increased regulatory scrutiny, investigations and litigation. Responding to and addressing such matters, regardless of the ultimate outcome, is time-consuming, expensive, can adversely affect investor confidence and can divert the time and effort of the Macquarie Group's staff (including senior management) from their business.

Investigations, inquiries, penalties and fines sought by regulatory authorities have increased substantially over the last several years, and regulators have become assertive in commencing enforcement actions or with advancing or supporting legislation targeted at the financial services industry. If the Macquarie Group is subject to adverse regulatory findings, the financial penalties could have a material adverse effect on its results of operations. Adverse publicity, governmental scrutiny and legal and enforcement proceedings can also have a negative impact on the Macquarie Group's reputation with clients and on the morale and performance of its employees.

The Royal Commission into Misconduct in the Banking, Superannuation and Financial Services Industry was announced in December 2017 and concluded on 1 February 2019. The Royal Commission inquired into the causes of, and responses to, misconduct by financial services entities and conduct falling below community standards and expectations, and held rounds of public hearings on a wide range of matters, including consumer and SME lending, financial advice, superannuation, insurance, culture, governance, remuneration, and the remits of regulators. The Commission's Final Report published on 4 February 2019 contains 76 recommendations. No findings were made by the Commission in relation to the Macquarie Group. The Federal Government has introduced legislation to implement recommendations of the Commission. These measures are expected to be passed by Parliament and/or to take effect at various times during 2021. Further regulatory and industry practice changes are anticipated. Such changes may adversely impact Macquarie Group's business, operations, compliance costs, financial performance and prospects.

5.2.9. Litigation and regulatory actions

MGL and the Macquarie Group may, from time to time, be subject to material litigation and regulatory actions, for example, as a result of inappropriate documentation of contractual relationships, class actions or regulatory violations, which, if they crystallise, may adversely impact upon their results of operations and financial condition in future periods or their reputation. MGL and the Macquarie Group entities regularly obtain legal advice and make provisions, as deemed necessary. There is a risk that any losses may be larger than anticipated or provided for or that additional litigation, regulatory actions or other contingent liabilities may arise. Even where monetary damages may be relatively small, an adverse finding in a regulatory or litigation matter could harm MGL's and the Macquarie Group's reputation or brand, thereby adversely affecting their business.

5.2.10. Counterparty credit risks

Failure of third parties to honour their commitments in connection with MGL's and the Macquarie Group's trading, lending and other activities, including funds that they manage, may adversely impact their business.

MGL and the Macquarie Group are exposed to the potential for credit-related losses as a result of an individual, counterparty or issuer being unable or unwilling to honour its contractual obligations. MGL and the Macquarie Group are also exposed to potential concentration risk arising from large individual exposures or groups of exposures. Like any financial services organisation, MGL and the Macquarie Group assume counterparty risk in connection with their lending, trading, derivatives and other businesses where they rely on the ability of third parties to satisfy their financial obligations to them on a timely basis. MGL's and the Macquarie Group's recovery of the value of the resulting

credit exposure may be adversely affected by a number of factors, including declines in the financial condition of the counterparty, the value of property they hold as collateral and the market value of the counterparty instruments and obligations they hold. Credit losses can and have resulted in financial services organisations realising significant losses and in some cases failing altogether. MGL and the Macquarie Group are also subject to the risk that their rights against third parties may not be enforceable in all circumstances. MGL's and the Macquarie Group's inability to enforce their rights may result in losses.

Historically, MGL and the Macquarie Group have generated a portion of their income from the sale of assets to third parties, including their funds. If buyers are unable to obtain financing to purchase assets that MGL and the Macquarie Group currently hold or purchase with the intention to sell in the future, MGL and the Macquarie Group may be required to hold investment assets for a longer period than they intended or sell these assets at lower prices than they historically would have expected to achieve, which may lower their rate of return on these investments and require funding for periods longer than they have anticipated.

In addition, MGL and the Macquarie Group have historically derived a portion of their income from mergers and acquisitions advisory fees which are typically paid upon completion of a transaction. Clients that engage in mergers and acquisitions often rely on access to credit markets to finance their transactions. The lack of available credit and the increased cost of credit may adversely affect the size, volume and timing of MGL's and the Macquarie Group's clients' merger and acquisition transactions – particularly large transactions – and may also adversely affect their financial advisory and underwriting businesses.

5.2.11. Funds and write-downs

MGL's and the Macquarie Group's dependence on the revenue they generate from managing funds and transacting with the assets they manage exposes them to risks of financial loss.

The Macquarie Group's revenue from Assets under Management is derived principally from three sources: (i) management fees, based on the size of its funds; (ii) incentive income, based on the performance of its funds; and (iii) investment income based on its investments in the funds, which are referred to as their "principal investments". If any of the Macquarie Group's funds perform poorly due to market conditions or the Macquarie Group's underperformance, the Macquarie Group's revenue and results of operations may decline. If the return of a fund is negative in any period, this may also have a long-term effect on incentive income. This is because a deficit against a performance benchmark will usually be carried forward until the deficit has been eliminated. In addition, in some cases investors may withdraw their investments in these funds or may decline to invest in future funds the Macquarie Group establishes.

MGL and the Macquarie Group may experience write-downs of their funds management assets, investments, loans and other assets. Further credit and other impairments may be required in future periods if the market value of assets similar to those held were to decline. Credit and other impairment charges may also vary following a change to the inputs or forward looking information used in the determination of expected credit losses.

5.2.12. Staff recruitment and retention

MGL's and the Macquarie Group's ability to retain and attract qualified employees is critical to the success of their businesses. The Macquarie Group's employees are their most important resource, and the Macquarie Group's performance largely depends on the talents and efforts of highly skilled individuals. MGL's and the Macquarie Group's continued ability to compete effectively in their businesses and to expand into new business areas and geographic regions depends on their ability to retain and motivate their existing employees and attract new employees. Competition from within the financial services industry and from businesses outside the financial services industry, such as professional service firms, hedge funds, private equity funds and venture capital funds, for qualified employees has historically been intense and is expected to increase during periods of economic growth.

In order to attract and retain qualified employees, MGL and the Macquarie Group must compensate such employees at or above market levels. Typically, those levels have caused employee remuneration to be the Macquarie Group's greatest expense as its performance-based remuneration has historically been cash and equity based and highly variable. Recent market events have resulted in increased regulatory and public scrutiny of corporate remuneration policies and the establishment of criteria against which industry remuneration policies may be assessed. As a regulated entity, MGL may be subject to limitations on remuneration practices (which may or may not affect its competitors). These limitations may require MGL and the Macquarie Group to further alter their remuneration practices in ways that could adversely affect their ability to attract and retain qualified and talented employees.

Current and future laws (including laws relating to immigration and outsourcing) may restrict MGL's and the Macquarie Group's ability to move responsibilities or personnel from one jurisdiction to another. This may impact MGL's and the Macquarie Group's ability to take advantage of business and growth opportunities or potential efficiencies, which could adversely affect the Macquarie Group's profitability.

5.2.13. Operational and process failure risk

MGL and the Macquarie Group may incur financial loss, adverse regulatory consequences or reputational damage due to inadequate or failed internal or external operational systems and risk management processes.

MGL and the Macquarie Group's businesses depend on their ability to process and monitor, on a daily basis, a very large number of transactions, many of which are highly complex, across numerous and diverse markets in many currencies. While MGL and the Macquarie Group employ a range of risk monitoring and risk mitigation techniques, those techniques and the judgments that accompany their application cannot anticipate every economic and financial outcome or the specifics and timing of such outcomes. As such, MGL and the Macquarie Group may, in the course of their activities, incur losses. There can be no assurance that the risk management processes and strategies that MGL and the Macquarie Group have developed will adequately anticipate or be effective in addressing market stress or unforeseen circumstances.

As MGL's and the Macquarie Group's client base, business activities and geographical reach expands, developing and maintaining their operational systems, processes and infrastructure becomes increasingly challenging. MGL and the Macquarie Group must continuously update these systems and processes to support their operations and growth, which may entail significant costs and risks of successful integration. MGL's and the Macquarie Group's financial, accounting, data processing or other operating systems and facilities may fail to operate properly or become disabled as a result of events that are wholly or partially beyond their control, such as a spike in transaction volume or disruption in internet services provided by third parties.

MGL and the Macquarie Group are exposed to the risk of loss resulting from human error, the failure of internal or external processes and systems, such as from the disruption or failure of their IT systems, or from external suppliers and service providers, including cloud-based outsourced technology platforms, or external events. Such operational risks may include theft and fraud, employment practices and workplace safety, improper business practices, mishandling of client moneys or assets, client suitability and servicing risks, product complexity and pricing, and valuation risk or improper recording, evaluating or accounting for transactions or breaches of their internal policies and regulations. There is increasing regulatory and public scrutiny concerning outsourced and off-shore activities and their associated risks, including, for example, the appropriate management and control of confidential data. If MGL and the Macquarie Group fail to manage these risks appropriately, they may incur financial losses and/or regulatory intervention and penalties, and their reputation and ability to retain and attract clients may be adversely affected.

There have been a number of highly publicised cases around the world involving actual or alleged fraud or other misconduct by employees in the financial services industry in recent years, and MGL and the Macquarie Group run the risk that employee, contractor and external service provider misconduct could occur. Human errors, malfeasance and other misconduct, including the intentional misuse of client information in connection with insider trading or for other purposes, even if promptly discovered and remediated, can result in reputational damage and material losses and liabilities for MGL and the Macquarie Group. It is not always possible to deter or prevent employee misconduct and the precautions MGL and the Macquarie Group take to prevent and detect this activity may not be effective in all cases, which could result in financial losses, regulatory intervention and reputational damage.

MGL and the Macquarie Group also face the risk of operational failure, termination or capacity constraints of any of the counterparties, clearing agents, exchanges, clearing houses or other financial intermediaries MGL and the Macquarie Group use to facilitate their securities or derivatives transactions. As MGL and the Macquarie Group's interconnectivity with their clients and counterparties grows, the risk to MGL and the Macquarie Group of failures in their clients' and counterparties' systems also grows. Any such failure, termination or constraint could adversely affect MGL's and the Macquarie Group's ability to effect or settle transactions, service their clients, manage their exposure to risk, meet their obligations to counterparties or expand their businesses or result in financial loss or liability to their clients and counterparties, impairment of their liquidity, disruption of their businesses, regulatory intervention or reputational damage.

5.2.14. Reputation risk

MGL and the Macquarie Group's businesses depend on the Macquarie Group's brand and reputation. The Macquarie Group believes its reputation in the financial services markets and the recognition of the Macquarie brand by its customers are important contributors to its business. Many companies in the Macquarie Group and many of the funds managed by entities owned, in whole or in part, by MGL use the Macquarie name.

The Macquarie Group's business may be adversely affected by negative publicity or poor financial performance in relation to any of the entities using the Macquarie name, including any Macquarie-managed fund or funds that Macquarie has promoted or is associated with. Investors and lenders may associate such entities and funds with the name, brand and reputation of the Macquarie Group and other Macquarie-managed funds. If funds that use the Macquarie name or are otherwise associated with Macquarie-managed infrastructure assets, such as roads, airports, utilities and water distribution facilities that people view as community assets, are perceived to be managed inappropriately, those managing entities could be subject to criticism and negative publicity, harming MGL's and the Macquarie Group's reputation and the reputation of other entities that use the Macquarie name.

5.2.15. Cyber and information security risk

A cyber attack, information or security breach, or a technology failure of MGL or the Macquarie Group or of a third party could adversely affect MGL and the Macquarie Group's ability to conduct their business, manage their exposure to risk or expand their businesses, result in the disclosure or misuse of confidential or proprietary information and increase their costs to maintain and update their operational and security controls and infrastructure.

The Macquarie Group's businesses depend on the security and efficacy of its information technology systems, as well as those of third parties with whom it interacts or on whom it relies. Macquarie Group's businesses rely on the secure processing, transmission, storage and retrieval of confidential, proprietary and other information in their computer and data management systems and networks, and in the computer and data management systems and networks of third parties. To access its network, products and services, its customers and other third parties may use personal mobile devices or computing devices that are outside of its network environment and are subject to their own cyber security risk. The Macquarie Group implements measures designed to protect the security, confidentiality, integrity and availability of its computer systems, software and networks, including maintaining the confidentiality of information that may reside on those systems. However, a breach of the Macquarie Group's security measures may result in the loss or destruction of confidential, proprietary and other information of the Macquarie Group, damages to systems or material disruptions to its business operations or its customers.

Information security risks for financial institutions have increased in recent years, in part because of the proliferation of new technologies, the use of internet and telecommunications technology and the increased sophistication and activities of attackers (including hackers, organised criminals, terrorist organisations, hostile foreign governments, disgruntled employees or vendors, activists and other external parties, including those involved in corporate espionage). Targeted social engineering attacks are becoming more sophisticated and are extremely difficult to prevent. The techniques used by hackers change frequently, may not be recognised until launched and may not be recognised until well after a breach has occurred. Additionally, the existence of cyber attacks or security breaches at third parties with access to Macquarie Group's data, such as vendors, may not be disclosed to it in a timely manner.

Despite efforts to protect the integrity of the Macquarie Group's systems and implement controls, processes, policies and other protective measures, it may not be able to anticipate all security breaches or implement preventive measures against such security breaches which may require the Macquarie Group to increase the resources it allocates to enhance its protective measures or investigate and remediate incidents.

As a result of increasing consolidation, interdependence and complexity of financial entities and technology systems, a technology failure, cyber attack or other information or security breach that significantly degrades, deletes or compromises the systems or data of one or more financial entities could have a material impact on counterparties or other market participants, including the Macquarie Group. This consolidation interconnectivity and complexity increases the risk of operational failure, on both individual and industry-wide bases, as disparate systems need to be integrated, often on an accelerated basis. Any third-party technology failure, cyber attack or other information or security breach, termination or constraint could, among other things, adversely affect the Macquarie Group's ability to effect transactions, service its clients, manage its exposure to risk or expand its businesses.

5.2.16. Environmental and social risk

The Macquarie Group's businesses could suffer losses due to environmental and social factors. The Macquarie Group is subject to the risk of unforeseen, hostile or catastrophic events, many of which are outside of its control, including natural disasters, extreme weather events (such as persistent winter storms or protracted droughts), leaks, spills, explosions, release of toxic substances, fires, accidents on land or at sea, terrorist attacks or other hostile or catastrophic events. Any significant environmental change or external event (including increased frequency and severity of storms, floods and other catastrophic events such as earthquake, pandemic (such as COVID-19), other widespread health emergencies, civil unrest or terrorism events) has the potential to disrupt business activities, impact the Macquarie Group's operations or reputation, increase credit risk and other credit exposures, damage property and otherwise affect the value of assets held in the affected locations and the Macquarie Group's ability to recover amounts owing to it.

The Macquarie Group's businesses could also suffer losses due to climate change. Climate change is systemic in nature and is a significant long-term driver of both financial and non-financial risks. Climate change related impacts include physical risks from changing climatic conditions and transition risks such as changes to laws and regulations, technology development and disruptions and consumer preferences. A failure to respond to the potential and expected impacts of climate change may affect the Macquarie Group's performance and could have wide-ranging impacts for the Macquarie Group. These include, but are not limited to, impacts on the probability of default and losses arising from defaults, asset valuations and collateral. Failure to effectively manage these risks could adversely affect the Macquarie Group's business, prospects, reputation, financial performance or financial condition.

The occurrence of any such events may prevent the Macquarie Group from performing under its agreements with clients, may impair its operations or financial results, and may result in litigation, regulatory action, negative publicity or other reputational harm. The Macquarie Group may also not be able to obtain insurance to cover some of these risks and the insurance that it has may be inadequate to cover its losses. In addition, adverse environmental or social consequences could prompt the Macquarie Group to exit certain businesses altogether, and could have an adverse impact on economic activity, consumer and investor confidence, or the levels of volatility in financial markets.

5.2.17. Insurance risk

Failure of the Macquarie Group's insurance providers or its failure to maintain adequate insurance cover could adversely impact its results of operations.

The Macquarie Group maintains insurance that it considers to be prudent for the scope and scale of its activities. If the Macquarie Group's insurance providers fail to perform their obligations to the Macquarie Group and/or its third-party insurance cover is insufficient for a particular matter or group of related matters, its net loss exposure could adversely impact its results of operations.

5.2.18. Strategic risk

MGL's and the Macquarie Group's business may be adversely affected by their failure to adequately manage the risks associated with strategic opportunities and new businesses, including acquisitions, and the exiting or restructuring of existing businesses. MGL and other entities in the Macquarie Group are continually evaluating strategic opportunities and undertaking acquisitions of businesses, some of which may be material to their operations. MGL's and/or the Macquarie Group's completed and prospective acquisitions and growth initiatives may cause the Macquarie Group to become subject to unknown liabilities of the acquired or new business and additional or different regulations, which may result in increased expenses, unforeseen liabilities for the Macquarie Group or misjudgement of the business opportunities available.

Future growth, including through acquisitions, mergers and other corporate transactions, may place significant demands on the Macquarie Group's legal, accounting, IT, risk management and operational infrastructure and result in increased expenses. A number of the Macquarie Group's recent and planned business initiatives and further expansions of existing businesses are likely to bring it into contact with new clients, new asset classes and other new products or new markets. These business activities expose the Macquarie Group to new and enhanced risks, including reputational concerns arising from dealing with a range of new counterparties and investors, actual or perceived conflicts of interest, regulatory scrutiny of these activities, potential political pressure, increased credit related and operational risks, including risks arising from IT systems and reputational concerns with the manner in which these businesses are being operated or conducted. Any time MGL and such other Macquarie Group entities make an acquisition, they may over-value the acquisition, not achieve expected synergies, achieve lower than expected cost savings or otherwise incur losses, lose customers and market share, face disruptions to their operations resulting from integrating the systems, processes and personnel (including in respect of risk management) of the acquired business into the Macquarie Group, or their management's time may be diverted to facilitate the integration of the acquired business into MGL or the relevant Macquarie Group entity. MGL and other entities in the Macquarie Group may also underestimate the costs associated with outsourcing, exiting or restructuring existing businesses. Where MGL's and/or the Macquarie Group's acquisitions are in foreign jurisdictions, or are in emerging or growth economies in particular, they may be exposed to heightened levels of regulatory scrutiny and political, social or economic disruption and sovereign risk in emerging and growth markets.

5.2.19. Competitive pressure

The competitive pressure, both in the financial services industry, as well as in the other industries in which MGL and the Macquarie Group operate, could adversely impact its business. MGL and the Macquarie Group face significant competition from local and international competitors, which compete vigorously in the markets and sectors across which MGL operates. MGL and the Macquarie Group compete, both in Australia and internationally, with asset managers, retail and commercial banks, private banking firms, investment banking firms, brokerage firms, internet based firms, commodity trading firms and other investment and service firms as well as businesses in adjacent industries in connection with the various funds and assets they manage and services they provide. This includes specialist competitors that may not be subject to the same capital and regulatory requirements and therefore may be able to operate more efficiently. In addition, digital technologies and business models are changing consumer behaviour and the competitive environment. The use of digital channels by customers to conduct their banking continues to rise and emerging competitors are increasingly utilising new technologies and seeking to disrupt existing business models, including in relation to digital payment services and open data banking, that challenge, and could potentially disrupt, traditional financial services. MGL and the Macquarie Group face competition from established providers of financial services as well as from businesses developed by non-financial services companies.

Any consolidation in the global financial services industry may create stronger competitors with broader ranges of product and service offerings, increased access to capital, and greater efficiency and pricing power which may enhance the competitive position of the Macquarie Group's competitors. The effect of competitive market conditions, especially in the Macquarie Group's main markets, products and services, may lead to an erosion in its market share or profit margins.

5.2.20. Conflicts of interest

Conflicts of interest could limit the Macquarie Group's current and future business opportunities. As the Macquarie Group expands its businesses and its client base, it increasingly has to address potential or perceived conflicts of interest, including situations where its services to a particular client conflict with, or are perceived to conflict with, its own proprietary investments or other interests or with the interests of another client, as well as situations where one or more of its businesses have access to material non-public information that may not be shared with other businesses within the Macquarie Group. While Macquarie Group believes it has adequate procedures and controls in place to address conflicts of interest, including those designed to prevent the improper sharing of information among its businesses, appropriately dealing with conflicts of interest is complex and difficult. The Macquarie Group's reputation could be damaged and the willingness of clients or counterparties to enter into transactions may be adversely affected if the Macquarie Group fails, or appears to fail, to deal appropriately with conflicts of interest. In addition, potential or perceived conflicts could give rise to claims by and liabilities to clients, litigation or enforcement actions.

5.2.21. Tax risk

MGL's and the Macquarie Group's business operations expose them to potential tax liabilities that could have an adverse impact on their results of operation and reputation. MGL and Macquarie Group are exposed to risks arising from the manner in which the Australian and international tax regimes may be applied and enforced, both in terms of their own tax compliance and the tax aspects of transactions on which they work with clients and other third parties. MGL's and the Macquarie Group's international, multi-jurisdictional platform increases their tax risks. In addition, as a result of increased funding needs by governments employing fiscal stimulus measures, revenue authorities in many of the jurisdictions in which MGL and the Macquarie Group operate have become more active in their tax collection activities. Any actual or alleged failure to comply with or any change in the interpretation, application or enforcement of applicable tax laws and regulations could adversely affect MGL and the Macquarie Group's reputation and affected business areas, significantly increase its own tax liability and expose MGL and the Macquarie Group to legal, regulatory and other actions.

5.2.22. Accounting standards

Changes in accounting standard, policies, interpretations, estimates, assumptions and judgments could have a material impact on the financial results of MGL and the Macquarie Group.

MGL and the Macquarie Group's accounting policies are fundamental to how they record and report their financial position and results of operations. These policies require the use of estimates, assumptions and judgements that affect the reported value of MGL and the Macquarie Group's assets or liabilities and results of operations. Management is required to determine estimates and apply subjective and complex assumptions and judgements about matters that are inherently uncertain. Changes in those estimates, assumptions and judgements are accounted for prospectively as a change in accounting estimate unless it is determined that either there was an error in the estimates, assumptions or judgements, or the accounting policy which sets out the application of those estimates, assumptions and judgements has changed, in which case the previous reported financial information is represented.

Accounting standard setting bodies issue new accounting standards and interpretations in response to outreach activities, evolving interpretations, application of accounting principles as well as changes in market developments. In addition, changes in interpretations by accounting standard setting bodies, regulators, and MGL's and the Macquarie Group's independent external auditor may also arise from time to time. The timing and nature of these changes may be difficult to predict. The application of new requirements and interpretations may impact how MGL and the Macquarie Group prepare and report their financial statements. In some cases, MGL and the Macquarie Group may be required to apply a new or revised standard or change in interpretation retrospectively, resulting in a requirement to represent their previously reported financial information.

The description of risks in this section 5 is not exhaustive and you should read this prospectus in its entirety and consult your financial adviser or other professional adviser before deciding whether to invest in MCN5.

Taxation Summary

6.1. Summary of Australian tax consequences for MCN5 Holders

The following is a summary of the Australian tax consequences for certain Australian resident MCN5 Holders who subscribe for MCN5 under the Offer.

This summary is not intended to be exhaustive and you should seek advice from your own financial or tax adviser or other professional adviser before deciding to invest in MCN5. In particular, this summary does not consider the consequences for MCN5 Holders who:

- are not Australian residents for tax purposes;
- are Australian residents but acquire and/or hold the MCN5 through a permanent establishment outside Australia;
- acquire MCN5 otherwise than under the Offer;
- hold MCN5 in their business of share trading or dealing in securities, or who otherwise hold their MCN5 on revenue account or as trading stock; or
- are subject to the “taxation of financial arrangements” provisions in Division 230 of the Tax Act in relation to their holding of MCN5.

This summary is not intended to be, nor should it be constituted as being, investment, legal or tax advice to any particular MCN5 Holder.

This summary is based on Australian tax laws and regulations, interpretations of such laws and regulations, and administrative practices as at the date of this Prospectus.

6.1.1. Class ruling sought on MCN5

MGL has applied to the ATO for a Class Ruling to confirm certain Australian tax consequences for Australian resident MCN5 Holders. The ATO will only issue a Class Ruling after the issue of MCN5. When issued, copies of the Class Ruling will be available from www.macquarie.com and on the ATO website.

6.1.2. Distributions on MCN5

MCN5 should constitute non-share equity interests and Distributions under the MCN5 Terms should constitute non-share dividends that are frankable.

MCN5 Holders should include such Distributions in their assessable income. Generally, provided that an MCN5 Holder is a “qualified person” (see below) and the ATO does not make a determination under certain anti-avoidance rules (see below), an MCN5 Holder should include any franking credits in their assessable income and be entitled to a tax offset equal to the franking credits received.

An MCN5 Holder that is an individual or complying superannuation fund may be able to receive a tax offset refund from the ATO in a particular year if the franking credits attached to the dividend exceed the tax payable on the MCN5 Holder's total taxable income.

An MCN5 Holder that is a company should be entitled to a franking credit and a tax offset in respect of any franking credits attached to a Distribution. However, the company will not be entitled to a tax offset refund of the excess franking credits. Rather, the surplus franking credits may be converted to a tax loss which can be carried forward to future years (subject to the corporate MCN5 Holder satisfying certain loss carry forward rules).

MCN5 Holders who are residents of Australia for tax purposes who are neither individuals nor trustees of complying superannuation funds nor companies should consider how they should be treated in relation to the taxation of the Distributions. Such MCN5 Holders include exempt bodies and the trustees of trusts other than complying superannuation funds.

Holding period rule

Under the “holding period rule”, in order to qualify for a franking offset MCN5 Holders are required to hold their MCN5 “at risk” for a continuous period of at least 90 days (excluding the days of acquisition and disposal) during the period beginning on the day after the MCN5 is acquired and ending on the 90th day after the day that the MCN5 becomes ex-distribution (commonly referred to as the “primary qualification period”).

If an MCN5 Holder, or an associate, is obliged to make a “related payment” which has the effect of passing on the benefit of the Distribution to other entities, the MCN5 Holder will also be required to hold their MCN5 “at risk” for at least 90 days during the period from 90 days before to 90 days after MCN5 become ex-distribution.

To be held “at risk”, an MCN5 Holder must effectively retain 30% or more of the risks and benefits associated with holding MCN5. This may be affected by any risk management strategies undertaken by an MCN5 Holder in relation to their MCN5 (for example, by the use of limited recourse loans, options or other derivatives).

An MCN5 Holder that holds their MCN5 at risk for at least the primary qualification period and does not make a related payment or undertake any risk management strategies should satisfy the “holding period rule” in relation to the franking credits included in the Distribution.

The “holding period rule” does not apply to MCN5 Holders that are individuals if the total amount of the tax offsets in respect of franked distributions to which the MCN5 Holder is entitled to, in a particular income year, is \$5,000 or less, provided they are not under an obligation to make a “related payment” as described above. In this instance, the MCN5 Holder should be entitled to the benefit of franking credits whether or not their MCN5 are held at risk for the requisite period of time.

Anti-avoidance rules

There are anti-avoidance rules that may apply in certain circumstances to deny the benefit of franking credits to MCN5 Holders.

One such rule, being the so called “anti-hybrid” rule in section 207-158 of the Tax Act (“**Anti-hybrid Rule**”), applies when the issuer of the instrument (here, MGL) is entitled to a deduction in a foreign jurisdiction in relation to distributions paid on the instrument. MGL does not anticipate being entitled to any foreign income tax deductions in relation to Distributions paid on the MCN5. As such, the Anti-hybrid Rule should not apply to deny an MCN5 Holder the benefit of either franking credits or tax offsets in relation to Distributions. However, the determination of foreign income tax deductions is complex and if such a foreign income tax deduction entitlement arises, the cash Distribution will not be adjusted or grossed up in the event that the franking credits are denied under the Anti-hybrid Rule.

Another rule is in section 177EA of the Tax Act which is intended to apply to prevent schemes that are entered into for the purpose of obtaining a franking benefit and this purpose is more than an incidental purpose of entering into the scheme. Under this rule, the ATO may make a determination based on a number of objective factors as to whether a scheme has such a purpose.

The application of this rule was reviewed by the Australian High Court in *Mills v Commissioner of Taxation* [2012] HCA 51 (“the Mills case”) where it was concluded that the instruments issued in that case, that were classified as Tier 1 capital, were not subject to section 177EA.

Having regard to the objective factors which the ATO may consider under section 177EA and in light of the High Court’s decision in the Mills case, MGL does not expect section 177EA to apply to Distributions on MCN5.

MGL also does not expect any other anti-avoidance provisions to apply to Distributions on MCN5, subject to the particular circumstances of an MCN5 Holder.

6.1.3. CGT cost base and acquisition date for MCN5

The cost base (or reduced cost base) of each MCN5 acquired by an MCN5 Holder should include \$100 (being the Issue Price of each MCN5) and any non-deductible incidental costs (e.g. broker fees, adviser fees) associated with the acquisition and disposal of MCN5. This will be relevant in determining the capital gain or capital loss arising on a disposal of MCN5 (discussed further below).

Each MCN5 will be taken to have been acquired by an MCN5 Holder on the Issue Date.

6.1.4. Exchange of MCN5 into Ordinary Shares

Specific capital gains tax provisions under the Tax Act should apply to disregard any gain or loss that may arise on Exchange of MCN5 into Ordinary Shares such that the gain or loss is effectively deferred.

As a consequence, the MCN5 Holder’s cost base in the Ordinary Shares acquired on Exchange should be equal to their cost base in MCN5. The Ordinary Shares are taken to be acquired at the date of the relevant exchange event for capital gains tax purposes (including for the purposes of determining the 12 month ownership period for the “CGT Discount Concession” discussed below).

6.1.5. Write-Off of MCN5

If Exchange has not occurred, for any reason, within 5 Business Days of a Non-Viability Exchange Date, an MCN5 Holder’s rights under the MCN5 will be Written-Off and they will terminate for no consideration.

A CGT event will happen for MCN5 Holders if and when MCN5 are Written-Off. As no consideration will be received by MCN5 Holders for their Written-Off MCN5, where the MCN5 have no market value for tax purposes, MCN5 Holders should make a capital loss equal to the reduced cost base of their Written-Off MCN5.

6.1.6. Sale of MCN5 on ASX

Any gain or loss on the sale of MCN5 on ASX by an MCN5 Holder should be included in the calculation of the MCN5 Holder’s taxable income.

The Class Ruling application has requested that the ATO confirm that MCN5 should not constitute “traditional securities” and MGL expects that the Class Ruling will conclude that MCN5 are not “traditional securities”. On this basis, any gains or losses made by MCN5 Holders on the sale of MCN5 should be taxed under the CGT rules.

CGT Discount Concession

Where an MCN5 Holder realises a capital gain on disposal of MCN5, certain MCN5 Holders who have held their MCN5 for at least 12 months prior to disposal (excluding the days of acquisition and disposal) should be eligible for the 50% CGT discount (for individuals and trusts) or 33⅓% CGT discount (for complying superannuation funds) on any capital gain made on disposal.

The Government has announced that “managed investment trusts” (MITs) and “attribution MITs” (AMITs) will no longer be entitled to the CGT discount at the trust level. This change was previously scheduled to apply from 1 July 2020, but has now been delayed and will instead apply for income years commencing on or after the date that is three months from the date of Royal Assent of the enabling legislation. While there can be no certainty at this time in relation to when this change will come into effect, the Government has indicated that it is committed to legislating this measure. Once this change comes into effect, MITs and AMITs that derive capital gains will continue to be able to distribute those amounts as capital gains that may be subject to the CGT discount in the hands of those beneficiaries who are entitled to the CGT discount. Investors should monitor any potential changes on an ongoing basis.

Where a capital loss is realised on the sale of MCN5, the capital loss is generally only deductible against capital gains, but can be carried forward for use in a later year.

6.1.7. Resale of MCN5

MGL may elect to Resell MCN5 in certain circumstances. For each MCN5 subject to a Resale, an MCN5 Holder will be entitled to receive the Resale Price (which is equal to the Issue Price) from the Nominated Party. A Resale will constitute a disposal of MCN5 by the MCN5 Holder for CGT purposes. Accordingly, an MCN5 Holder may realise a capital gain or capital loss on such disposal to the extent that the Resale proceeds are greater or less than the MCN5 Holder’s cost base or reduced cost base for the MCN5.

If MCN5 have been held for at least 12 months prior to the Resale (excluding the days of acquisition and disposal), a qualifying MCN5 Holder (an individual, qualifying trust or complying superannuation fund) may be entitled to the CGT discount concession in respect of any capital gain arising on disposal, in the manner discussed in section 6.1.6 above.

6.1.8. Redemption of MCN5

MGL may also elect to Redeem MCN5 in certain circumstances, in which case MGL must pay a cash amount equal to the Redemption Price in respect of each MCN5.

Redemption of MCN5 will be a CGT event and give rise to a capital gain if the proceeds exceed the MCN5 Holder's CGT cost base of the MCN5. Conversely, a capital loss will result if the proceeds are less than the MCN5 Holder's reduced cost base.

The Redemption proceeds will be an amount equal to the Issue Price of each MCN5, unless the market value of an MCN5 on the Redemption Date (determined as if Redemption of the MCN5 had not occurred or been proposed to occur) is greater or less than the Issue Price. In that case, the greater or lesser market value amount will be deemed to be the capital proceeds of the Redemption, instead of the Issue Price actually received. Based on recently published guidance from the ATO, where the MCN5 are Redeemed on the first Scheduled Optional Exchange Date, the ATO should accept that the market value of each MCN5 (and therefore the Redemption proceeds) is equal to the Issue Price of the MCN5. The Redemption proceeds should not be treated as a dividend on the basis that they will be debited against an amount standing to the credit of MGL's non-share capital account. A qualifying MCN5 Holder (an individual, qualifying trust or complying superannuation fund) may be entitled to the CGT discount concession for any capital gain, in the manner discussed in section 6.1.6 above.

6.1.9. Ordinary Shares following Exchange

The dividends received on Ordinary Shares should give rise to similar tax consequences outlined in section 6.1.2 in relation to Distributions on MCN5.

Any gain or loss realised on the sale of Ordinary Shares should be taxable under the CGT rules. As outlined above, the Ordinary Shares acquired on Exchange will be taken to have been acquired on the date of Exchange. This means that the Ordinary Shares would need to be held for at least 12 months after the date of Exchange in order for eligible MCN5 Holders (individuals, qualifying trusts and complying superannuation funds) to qualify for the CGT discount concession on the disposal of Ordinary Shares.

6.1.10. Provision of TFN and/or ABN

MCN5 Holders may choose to provide their tax file number, Australian Business Number or a relevant exemption to MGL.

In the event that MGL is not notified, the *Taxation Administration Act 1953* (Cth) imposes withholding tax on the payment of distributions on certain types of investments such as the unfranked part (if any) of Distributions. The rate of withholding is currently 47%.

6.1.11. GST

GST should not be payable on the issue, receipt, disposal, Exchange, Redemption or Resale of MCN5.

6.1.12. Stamp duty

Under current law, no stamp duty should be payable by an MCN5 Holder on the issue, transfer, Redemption, Exchange or Resale of MCN5 as long as MGL is listed, its shares are quoted on ASX at all relevant times and no MCN5 Holder (alone or with associates) will acquire or hold a 90% or more interest in MGL. The stamp duty legislation generally requires the interests of associates to be included in working out whether the threshold is reached. In some circumstances, the interests of unrelated entities can also be aggregated together in working out whether the threshold is reached.

6.2. Summary of certain tax consequences for MCN2 holders

Under the Reinvestment Offer, Eligible MCN2 Holders may apply to reinvest the redemption price of all or some of their MCN2 in a corresponding number of MCN5. This will be effected via a payment direction to MGL to apply the MCN2 redemption price as payment for MCN5.

MGL intends to redeem the MCN2 on 17 March 2021 and replace them with the MCN5. This means that any MCN2 not reinvested under the Reinvestment Offer may be redeemed on this date. Should MGL give formal notice to redeem the MCN2, on 17 March 2021, you will receive the face value (\$100) for each non-Reinvested MCN2 that you hold on that date together with any distribution that MGL determines to pay (subject to the terms of issue of the MCN2).

We have set out below some high-level comments regarding the redemption of the MCN2 and the Reinvestment Offer in relation to MCN2 holders who are subject to Class Ruling CR 2015/108. This summary is not exhaustive and MCN2 holders should seek advice from a financial or tax adviser or other professional adviser before deciding to participate in the Reinvestment Offer.

In particular, this summary does not consider the consequences for MCN2 holders who:

- are not Australian residents for tax purposes;
- are Australian residents but acquired and/or hold the MCN2 through a permanent establishment outside Australia;
- acquired MCN2 otherwise than under the initial offer of MCN2 on 18 December 2015;
- hold MCN2 in their business of share trading or dealing in securities, or who otherwise hold their MCN2 on revenue account or as trading stock; or
- are subject to the "taxation of financial arrangements" provisions in Division 230 of the Tax Act in relation to their holding of MCN2.

6.2.1. MCN2 distributions

All MCN2 holders, including Eligible MCN2 Holders who elect to participate in the Reinvestment Offer, will be paid a distribution on the MCN2 on 17 March 2021, subject to the satisfaction of the distribution payment conditions in the MCN2 Terms. This distribution will be subject to the same taxation treatment as other distributions paid on the MCN2 as outlined in Class Ruling CR 2015/108.

6.2.2. CGT consequences for Australian residents

A CGT event will occur for MCN2 holders upon redemption of the MCN2. This will apply to all MCN2 holders (i.e. both Eligible MCN2 Holders who participate in the Reinvestment Offer and MCN2 holders that do not participate in the Reinvestment Offer).

MCN2 holders may make a capital gain if their capital proceeds from the redemption are more than their “cost base” for their MCN2, or may make a capital loss if their capital proceeds are less than their “reduced cost base” for their MCN2:

- **Cost base or reduced cost base:** the first element of an MCN2 holder’s cost base, or reduced cost base, for their MCN2 should be the amount paid by the MCN2 holder for their MCN2. Certain other non-deductible costs associated with the acquisition or disposal of the MCN2, such as broker fees, may be included in the cost base or reduced cost base.
- **Capital proceeds:** the capital proceeds that will be received by an MCN2 holder from the redemption should be \$100 per MCN2 (based on recently published guidance from the ATO, the ATO should accept that the capital proceeds is equal to the issue price of the MCN2).

A qualifying Eligible MCN2 Holder (an individual, qualifying trust or complying superannuation fund) may be entitled to the CGT discount concession in relation to any capital gain realised on the redemption of their MCN2 (including the Reinvested MCN2). In this regard, the CGT discount concession outlined in section 6.1.6 above should be equally applicable to the redemption of the MCN2.

6.2.3. CGT cost base and acquisition date for MCN5 acquired under the Reinvestment Offer

The amount of an Eligible MCN2 Holder’s redemption price that is applied in subscribing for MCN5 under the Reinvestment Offer should be included in the Eligible MCN2 Holder’s cost base (and reduced cost base) for the purposes of determining any future capital gain or capital loss on the disposal, Exchange, Redemption or Resale of MCN5.

Each MCN5 acquired by an Eligible MCN2 Holder under the Reinvestment Offer will be taken to have been acquired by that holder on the Issue Date.

Additional Information

This section provides information about a number of other matters not covered elsewhere in this Prospectus.

7.1. Trust Deed

MGL has entered into the Trust Deed with the Trustee. The MCN5 Terms are set out as a schedule to the Trust Deed. A copy of the Trust Deed can be obtained from www.MCN5Offer.com.au.

In accordance with the requirements in Chapter 2L of the Corporations Act, the Trustee will act as note trustee for the MCN5 Holders under the Trust Deed. All MCN5 Holders are bound by the terms of the Trust Deed.

All payment, Exchange and other obligations under the MCN5 are the direct obligations of MGL. Neither the Trustee nor any of its directors, employees, officers, affiliates, agents, advisers, intermediaries, or Related Bodies Corporate guarantee, or are otherwise responsible for, the payment, Exchange or any other obligation of MGL under the MCN5.

The Trustee is not responsible for monitoring any breach of the Trust Deed, the MCN5 Terms, the occurrence of any event which may trigger an Exchange or the activities, financial position, business or status of MGL except as required by law. In this regard, the Trustee is subject to certain statutory duties imposed on it under Chapter 2L of the Corporations Act including to:

- exercise reasonable diligence to ascertain whether:
 - the property of MGL that is or should be available will be sufficient to repay the amounts lent by MCN5 Holders in respect of MCN5 when such amounts become due; and
 - MGL has breached the MCN5 Terms, the Trust Deed or the provisions of Chapter 2L of the Corporations Act; and
- unless the Trustee is satisfied a breach of the MCN5 Terms, the Trust Deed or the provisions of Chapter 2L of the Corporations Act is not materially prejudicial to the MCN5 Holders' interests, do everything in its power to ensure MGL remedies any breach which is known to the Trustee.

The following is a summary only of the principal provisions of the Trust Deed.

7.1.1. Appointment of Trustee and declaration

The Trustee has been appointed under the Trust Deed and holds on trust for itself and the MCN5 Holders:

- a trust settlement sum of \$10;
- the right to enforce, on behalf of MCN5 Holders, MGL's obligations to pay amounts payable under the MCN5 Terms and under the Trust Deed;
- the right to enforce, on behalf of MCN5 Holders, all other duties and obligations of MGL under the MCN5 Terms, the provisions of the Trust Deed and Chapter 2L of the Corporations Act; and
- any other property and benefits which the Trustee from time to time receives or holds on such trust (including, without limitation, the benefit of any covenants, undertakings, representations, warranties, rights, powers, benefits or remedies in favour of the Trustee under the Transaction Documents).

7.1.2. MGL undertakings

MGL has undertaken to the Trustee (on behalf of each MCN5 Holder) that it will, amongst other things:

- pay any amounts due and payable in respect of MCN5 (subject to any obligation of MGL to Exchange or Write-Off any MCN5);
- comply with its obligations under the MCN5 Terms, and comply with all laws applicable to it (including Chapter 2L of the Corporations Act) where failure to do so would have or be likely to have a material adverse effect in relation to the MCN5; and
- comply with any conditions imposed by ASX in connection with the MCN5 except to the extent those conditions may cause the MCN5 to cease to be Relevant Securities forming part of Eligible Capital.

7.1.3. Trustee limitation of liability

The Trustee is not liable to MGL, MCN5 Holders or any other person in any capacity other than as Trustee of the Trust. A liability of the Trustee is limited to and can be enforced against the Trustee only to the extent to which the Trustee is actually indemnified out of the Trust Fund in respect of that liability.

However, this limitation only applies to a liability of the Trustee to the maximum extent permitted by section 283DB of the Corporations Act and does not apply to a liability of the Trustee:

- to the extent that there is a reduction in the extent of the Trustee's indemnification from the assets of the Trust in respect of the liability as a result of the Trustee's fraud, negligence, wilful default or breach of section 283DA(a), (b) or (c) of the Corporations Act ("Trustee Default"); or
- in respect of which the Trustee is not entitled to be indemnified, out of the assets of the Trust, as a result of a Trustee Default.

The Trustee is not obliged to do or refrain from doing anything under the Trust Deed or MCN5 Terms unless the Trustee's liability is limited in the same manner as set out in the Trust Deed (which is summarised in this section 7.1.3).

7.1.4. Action by Trustee

The Trustee is required, at all times, to act in accordance with its obligations under the MCN5 Terms, the Trust Deed, the Corporations Act and applicable law. Subject to the MCN5 Terms and to section 283DA(h) of the Corporations Act, the Trustee must take action to enforce its rights and the rights of MCN5 Holders under the Trust Deed and the MCN5 Terms in accordance with their terms where all the following conditions are met and is not required to act in accordance with any direction from the MCN5 Holders or any of them unless:

- the Trustee is requested in writing to take action by MCN5 Holders who hold between them at least 25% of the outstanding principal amount of MCN5 then outstanding or it has been so directed by a Special Resolution of the MCN5 Holders;
- the Trustee is indemnified to its reasonable satisfaction against all actions to which it may render itself liable by taking such action and costs which it may incur and all management time spent by employees or officers of the Trustee in relation to such action; and
- the action is permitted under the Transaction Documents.

The Trustee may not take any enforcement action which is contrary to the Transaction Documents.

7.1.5. Direct action by MCN5 Holder

No MCN5 Holder is entitled to proceed directly against MGL to enforce the performance of any of the provisions of the Trust Deed or the MCN5 Terms (including any rights, powers or remedies in connection with the MCN5, whether arising under the Trust Deed or any other Transaction Document), unless the Trustee, having become bound to proceed, fails to do so within 14 days and such failure is continuing, in which case any MCN5 Holder may itself institute proceedings against MGL for the relevant remedy to the same extent (but not further or otherwise) that the Trustee would have been entitled to do so. Any such proceeding must be brought in the name of the MCN5 Holder and not the Trustee.

MCN5 Holders should be aware that, even if action is taken by the Trustee in accordance with the MCN5 Terms, the Trust Deed, the Corporations Act or applicable law, there can be no guarantee that such action will ensure the performance of all (or any) of MGL's obligations under the MCN5 Terms. Further, MCN5 Holders should be aware that the Trustee may not take any action to enforce any obligation of MGL in connection with the MCN5 unless the enforcement of that obligation is in accordance with the MCN5 Terms, the Trust Deed and applicable law. Neither the Trustee nor any MCN5 Holder may exercise any powers in a manner inconsistent with the Trust Deed and the MCN5 Terms.

7.1.6. Fees and expenses

Under the Trust Deed, MGL will pay the Trustee by way of a fee for its services such amounts as may be agreed between MGL and the Trustee from time to time. The Trustee may also be entitled to additional remuneration from MGL where it is required to undertake duties of an exceptional nature or otherwise outside its normal duties. MGL will also pay to the Trustee on demand:

- its reasonable costs, charges and expenses incurred in connection with the negotiation, preparation and execution of the Trust Deed, this Prospectus and the MCN5 Terms and any subsequent consent, agreement, approval, waiver or amendment relating to the Transaction Documents;
- all costs, charges, expenses, losses and other liabilities it incurs in connection with exercising, enforcing or preserving, or attempting to exercise, enforce or preserve, rights under the Trust Deed and the MCN5 Terms; and
- all losses, costs, charges and expenses and other liabilities it suffers or properly incurs which arise out of, or in the course of, acting as the trustee of the Trust, except where such expenses are incurred by the Trustee as a direct result of a Trustee Default.

7.1.7. Retirement and removal

The Trustee may retire by giving written notice to MGL, which will not take effect until at least 60 days after the date of the notice has passed (or such other period as the Trustee and MGL may agree) and provided that the appointment of a new trustee is effective and in compliance with all applicable statutory requirements. The Trustee may be removed by MGL by MGL giving not less than 60 days' notice (or such other period as the Trustee and MGL may agree) to the Trustee if, amongst other things:

- the Trustee is in material breach of its obligations under the Trust Deed or the MCN5 Terms and has not rectified the breach within 7 Business Days of receiving a notice from MGL specifying the breach and requesting that it be remedied;
- a Trustee Default has occurred and is continuing;
- the Trustee ceases to carry on business or becomes subject to an insolvency event (such as being placed in liquidation, being wound-up or dissolved) or a receiver or similar official is appointed to it;

- the Trustee is no longer permitted to act as a trustee under the Corporations Act;
- any licence, consent, authorisation or similar thing the Trustee is required to hold to carry out its obligations under the Trust Deed is revoked or not renewed;
- MGL is authorised or requested to do so by a Special Resolution of the MCN5 Holders; or
- MGL becomes aware that the Trustee has ceased to exist, has not been validly appointed, cannot be a trustee under section 283AC of the Corporations Act or has failed or refused to act as trustee.

When the Trustee retires or is removed, the Trustee is, to the extent permitted by law, discharged and released from its obligations, covenants and liabilities under the Trust Deed arising after the date it retires or is removed.

Notwithstanding the retirement or removal of the Trustee, the outgoing Trustee:

- is entitled to its remuneration up to the date of its retirement or removal;
- will continue to be entitled to the rights of reimbursement and indemnities contained in the Trust Deed in relation to all acts and omissions occurring up to the date of its retirement, removal or replacement;
- may retain copies of any documents and records required by it and which it reasonably considers to be relevant; and
- will be given reasonable access to any other documents and records by the incoming Trustee.

7.1.8. Meetings

A meeting of MCN5 Holders has the power to:

- by Ordinary Resolution, give directions to the Trustee as to, or authorise, ratify or confirm anything the Trustee has done or omitted to do in respect of, the performance or exercise of any of its duties, rights, powers and remedies under the Trust Deed or MCN5; and
- by Special Resolution:
 - approve the release of the Trustee from liability for anything done or omitted to be done by the Trustee or any other person before the release is given; and
 - approve alterations to the Trust Deed or amendments to the MCN5 Terms (subject to the other conditions described in section 5.1.28 being complied with).

To the extent any matter arising from a meeting of MCN5 Holders may cause the MCN5 to cease to be Relevant Securities forming part of Eligible Capital, such matter requires the prior written approval of APRA.

Each MCN5 Holder is entitled to one vote on a show of hands. On a poll, each MCN5 Holder is entitled to one vote for each MCN5 with respect to which it is the registered holder.

To the extent permitted by law, the Trustee is not liable to an MCN5 Holder, MGL or any other person for acting on directions, authorisations, resolutions or confirmations given by the MCN5 Holders.

An MCN5 Holder has no entitlement to attend or vote at a general meeting of MGL or to receive a copy of the MGL annual report or other financial information sent to holders of Ordinary Shares.

7.2. Offer Management Agreement (“OMA”)

MGL has entered into an OMA with the Joint Lead Managers. Macquarie Capital (Australia) Limited is sole Arranger and a Joint Lead Manager. Under the OMA, the Joint Lead Managers have agreed to conduct a Bookbuild for the purpose of establishing the Margin.

The following is a summary of the principal provisions of the OMA.

7.2.1. Fees

The fees payable to the Joint Lead Managers are set out in section 7.6.

7.2.2. Representations, warranties and undertakings under the OMA

MGL makes various representations and warranties in relation to this Prospectus and conduct of the Offer in accordance with this Prospectus, the MGL Constitution, the OMA and the Corporations Act. MGL also warrants that it has the power (including under the MGL Constitution) to enter into and perform transactions and agreements in connection with the OMA and the Offer.

7.2.3. Termination events

A Joint Lead Manager may terminate its obligations under the OMA after the happening of any one or more of the following events (among others):

- a material statement contained in this Prospectus is misleading or deceptive (including by omission);
- a waiver or approval from ASX, having been granted, is subsequently withdrawn, qualified (other than customary pre-listing conditions) or withheld;
- ASIC issues a stop order or similar proceeding in relation to this Prospectus;
- this Prospectus does not comply in all material respects with the Corporations Act, the ASX Listing Rules or any other applicable law or regulation;
- the credit rating assigned to MGL at the date of the OMA by Standard & Poor's or Moody's Investor Services is downgraded by two or more notches or withdrawn; or
- MGL withdraws this Prospectus or indicates that it does not intend to proceed with the Offer.

In addition, a Joint Lead Manager may terminate its obligations under the OMA after the happening of any one or more of the following events (among others) where in the reasonable opinion of the Joint Lead Manager this event has or is likely to have a material adverse effect on the success or settlement of the Offer or could give rise to a material liability of that Joint Lead Manager under the Corporations Act or any other applicable law:

- an adverse change in the assets, liabilities, financial position or performance, profits, losses, or prospects of the Macquarie Group (in so far as the position of an entity in the Macquarie Group affects the overall position of MGL);

- a change in senior management as described in this Prospectus or the Board of Directors of MGL other than the appointment of an additional Director to the MGL Board, or a change in the constitution of MGL;
- a change in law is introduced or proposed to be introduced (other than a law or proposal which has been announced before the date of the OMA) which does or is likely to prohibit or adversely regulate the Offer, capital issues, or stock markets or adversely affect the tax treatment of MCN5; or
- one of the following occurs:
 - a general moratorium on commercial banking activities in Australia, the United States or the United Kingdom is declared by the relevant central banking authority in any of those countries, or there is a disruption in commercial banking or security settlement or clearance services in any of those countries;

 - there is a suspension or limitation in trading in MGL's securities on ASX (other than in connection with the Bookbuild);
- after the successful completion of the Bookbuild:
 - there is an outbreak of hostilities or major escalation of existing hostilities involving any one or more of Australia, the United States, the United Kingdom, Hong Kong, China, any member of the European Union, Japan or Singapore or the declaration by any of these countries of a war, or a major terrorist attack is perpetrated on any of those countries; or
 - the declaration of a national emergency by any of the United Kingdom, Hong Kong, China, any member of the European Union, Japan or Singapore, or the occurrence of any major calamity or crisis or any change in financial, political or economic conditions or currency exchange rates or controls in Australia, the United States or the United Kingdom, excluding where any of these events occur or escalate in connection with the COVID-19 pandemic;
- a warranty granted by MGL contained in the OMA is not true or correct.

7.2.4. Indemnity

MGL indemnifies the Joint Lead Managers and their affiliates (including their related bodies corporate) and each of their officers, directors, partners, employees, agents and advisers against all liabilities arising in connection with or as a result of their appointment, the Offer or this Prospectus except to the extent that those liabilities arise from the fraud, recklessness, wilful misconduct or negligence of those parties, or their breach of the settlement support obligations under the OMA.

7.3. Summary of rights attaching to Ordinary Shares

Ordinary Shares will be issued to MCN5 Holders on certain events – see sections 2.3, 2.4, 2.7 and 2.8 for further details of Exchange and when it may occur.

The rights and liabilities attaching to Ordinary Shares are set out in the MGL Constitution and are also regulated by the Corporations Act, the ASX Listing Rules and the general law.

This section briefly summarises the key rights attaching to Ordinary Shares. It is not intended to be an exhaustive summary of the rights and obligations of holders of Ordinary Shares.

The key rights attaching to Ordinary Shares are as follows:

- the right to vote at general meetings of MGL on the basis of:
 - on a show of hands – one vote for each member present in person or represented by proxy, attorney or other representative; and
 - on a poll – one vote for each member present in person or represented by proxy, attorney or other representative per fully paid Ordinary Share (or the number of votes in proportion to the capital paid up on any partly paid Ordinary Shares held);
- the right to receive dividends declared from time to time in proportion to the capital paid up on the Ordinary Shares held by each holder (subject to the rights of holders of securities with special rights as to dividend);
- the right to receive information required to be distributed under the Corporations Act and the ASX Listing Rules; and
- the right to participate in a winding up of MGL at the discretion of the liquidator.

7.4. Interests and benefits of MGL's Directors

3.3. Exchange Conditions

The Exchange Conditions in respect of a Relevant Mandatory Exchange Date are:

- (a) the Daily VWAP on the 25th Business Day immediately preceding (but not including) the Relevant Mandatory Exchange Date (or, if that day is not an ASX Trading Day, the last ASX Trading Day prior to that day) is greater than 56% of the Issue Date VWAP (“First Exchange Condition”);

- (b) the VWAP during the 20 ASX Trading Days immediately preceding (but not including) the Relevant Mandatory Exchange Date is such that the number of Ordinary Shares to be issued (calculated in accordance with clause 9.1 as if it were not limited by the Maximum Exchange Number applicable to the Relevant Mandatory Exchange Date) is less than or equal to the Maximum Exchange Number applicable to a Relevant Mandatory Exchange Date (“**Second Exchange Condition**”);
 - (c) no Suspension Event applies in respect of the Relevant Mandatory Exchange Date (“**Third Exchange Condition**”); and
 - (d) the Issuer is not Delisted as at the Relevant Mandatory Exchange Date (“**Fourth Exchange Condition**”),
- together, the “**Exchange Conditions**”.

3.4. Mandatory Exchange Notices

- (a) Between the 25th and 21st Business Day (inclusive) before a Relevant Mandatory Exchange Date, the Issuer will notify Holders as to whether or not the First Exchange Condition is satisfied in relation to that Relevant Mandatory Exchange Date and, if it is not, that Exchange will not occur.
- (b) If the First Exchange Condition is satisfied in relation to that Relevant Mandatory Exchange Date, and any of the other Exchange Conditions are not satisfied in relation to a Relevant Mandatory Exchange Date, the Exchange will not occur and the Issuer will notify Holders on or as soon as practicable after the Relevant Mandatory Exchange Date that Exchange did not occur.

Failure to give a notice when required by this clause 3.4 (including where in accordance with clause 13 such notice takes effect only after the last date for the giving of that notice) does not affect the obligations of the Issuer and the Holders to Exchange each MCN5 for Ordinary Shares when required in accordance with these Terms.

4. Non-Viability Event Exchange

4.1. Non-Viability Event

A “**Non-Viability Event**” will occur if APRA has notified the Issuer in writing that:

- (a) Relevant Securities must be subject to Loss Absorption because, without such Loss Absorption, APRA considers the Issuer would become non-viable; or
- (b) it has determined that without a public sector injection of capital, or equivalent support, the Issuer would become non-viable.

4.2. Exchange on account of a Non-Viability Event

Subject to this clause 4, if a Non-Viability Event occurs, the Issuer must immediately, in accordance with this clause 4 and clause 9, Exchange:

- (a) in the case of a Non-Viability Event described in clause 4.1(a), some or all MCN5 in the amount determined in accordance with clause 4.3; or
- (b) in the case of a Non-Viability Event described in clause 4.1(b), all MCN5.

4.3. Determination of number of MCN5 to be Exchanged

In determining the number of MCN5 which must be Exchanged in accordance with this clause 4 the following applies:

- (a) the aggregate face value of all Relevant Securities subject to Loss Absorption must equal the amount APRA has notified the Issuer (or if APRA has not notified the Issuer of that amount, the amount determined by the Issuer) to be necessary to satisfy APRA that the Issuer will not become non-viable;
- (b) Relevant Securities that are Equal Ranking Obligations must be subject to Loss Absorption before other Relevant Securities are subject to Loss Absorption (unless the terms of such other Relevant Securities otherwise provide); and
- (c) MCN5 and other Relevant Securities that are Equal Ranking Obligations must be subject to Loss Absorption on a proportionate basis (unless the terms of any such other security provide for that security to be subject to Loss Absorption other than on a proportionate basis with MCN5 and other such securities), or such other basis as the Issuer considers fair and reasonable (subject to such adjustment as the Issuer may determine to take into account the effect on marketable parcels and whole numbers of Ordinary Shares and any MCN5 or other Relevant Securities that are Equal Ranking Obligations),

provided always that nothing in the making of the determination or the adjustments is to delay or impede the immediate Exchange of the MCN5 on the Non-Viability Exchange Date.

4.4. Treatment of Holders

- (a) If, in accordance with clauses 4.2 and 4.3, only some MCN5 are to be Exchanged:
- (i) the Issuer will endeavour to treat Holders on an approximately proportionate basis, but may discriminate to take account of the effect of marketable parcels and other similar considerations and the need to effect the Exchange immediately; and
 - (ii) where the specified currency of Relevant Securities that are Equal Ranking Obligations is not the same for all such Relevant Securities, the Issuer may treat them as if converted into a single currency of the Issuer's choice at the rate of exchange that is specified in the terms of such securities or at such other rate as the Issuer in good faith considers reasonable.
- (b) In determining the identity of the Holder at the time that the Exchange is to take effect on the Non-Viability Exchange Date the Issuer may make any decision as may be necessary or desirable to ensure Exchange occurs in an orderly manner, including disregarding any transfers of MCN5 that have not been settled or registered at that time.

4.5. Exchange is automatic and irrevocable

If a Non-Viability Event has occurred and all or some of the MCN5 are required to be Exchanged in accordance with clause 4.2, then, subject to clause 4.6:

- (a) Exchange of the relevant MCN5 will be taken to have occurred in accordance with clause 9 immediately upon the date of occurrence of the Non-Viability Event;
- (b) none of the following shall prevent, impede or delay the Exchange of the MCN5 as required by clause 4.2:
- (i) any failure to or delay in the conversion or write-off of other securities issued as Relevant Securities;
 - (ii) any failure to or delay in giving a Non-Viability Exchange Notice;
 - (iii) any failure or delay in quotation of the Ordinary Shares to be issued on or arising from the Exchange;
 - (iv) any requirement to select or adjust the amount of the MCN5 to be Exchanged in accordance with clause 4.3; or
 - (v) any obligation to treat Holders proportionately or any right to make determinations or adjustments in accordance with clause 4.4; and
- (c) from the Non-Viability Exchange Date the Issuer shall, subject to clause 15.2(b), treat the Holder in respect of its MCN5 as the holder of the Exchange Number of Ordinary Shares and will take all such steps, including updating any register, required to record the Exchange.

4.6. Conditions to Exchange on account of a Non-Viability Event

An Exchange on account of a Non-Viability Event is not subject to the Exchange Conditions or any other condition except as provided in this clause 4 and clause 9.17.

4.7. Non-Viability Exchange Notices

As soon as practicable after the occurrence of a Non-Viability Event, the Issuer must give notice that the Exchange has occurred ("Non-Viability Exchange Notice") to the Holders, the Trustee, the Registrar and ASX.

A Non-Viability Exchange Notice must specify:

- (a) the details of the Non-Viability Event to which the Non-Viability Exchange Notice relates;
- (b) the date on which the Exchange occurred; and
- (c) the number of MCN5 Exchanged and the number of other Relevant Securities and other Relevant Securities that are Equal Ranking Obligations that are subject to Loss Absorption.

Failure to give a Non-Viability Exchange Notice when required by this clause 4.7 (including where in accordance with clause 13 such notice takes effect only after the Non-Viability Exchange Date) does not affect the obligations of the Issuer and the Holders to Exchange each MCN5 for Ordinary Shares when required in accordance with these Terms or affect or impede the Exchange in any way.

4.8. Priority of Exchange obligations

An Exchange on account of a Non-Viability Event takes place on the relevant date, and in the manner required by clause 9 notwithstanding anything in clauses 3, 5, 6, 7, 8 or 16 (and any Optional Exchange Notice, Acquisition Exchange Notice, Redemption Notice or Resale Notice in respect of the MCN5 given before the Non-Viability Exchange Date but in respect of which the Exchange, Redemption or Resale has not completed will be taken to be revoked and of no force or effect).

5. Optional Exchange

5.1. Optional Exchange

Subject to this clause 5 and to clause 16, by notice (an “Optional Exchange Notice”) to Holders the Issuer may, in its sole discretion, elect to:

- (a) Exchange all or some of the MCN5 on any Scheduled Optional Exchange Date; and
- (b) Exchange all or some of the MCN5 following the occurrence of a Tax Event or a Regulatory Event.

An Optional Exchange Notice is irrevocable and takes effect despite anything in clause 3, except as provided in clauses 4.8 and 16.

5.2. Scheduled Optional Exchange Dates

The Scheduled Optional Exchange Dates are the Distribution Payment Dates falling on or about:

- (a) 18 September 2027 (the “First Scheduled Optional Exchange Date”);
- (b) 18 March 2028 (the “Second Scheduled Optional Exchange Date”); and
- (c) 18 September 2028 (the “Third Scheduled Optional Exchange Date”),

(each a “Scheduled Optional Exchange Date”).

5.3. Contents of the Optional Exchange Notice

An Optional Exchange Notice must specify:

- (a) in the case of an Optional Exchange Notice given following the occurrence of a Tax Event or Regulatory Event, the details of the Tax Event or Regulatory Event to which the Optional Exchange Notice relates; and
- (b) the date on which the Exchange is to occur (an “Optional Exchange Date”), which:
 - (i) in the case of Exchange on a Scheduled Optional Exchange Date, is the relevant Scheduled Optional Exchange Date falling no earlier than 25 Business Days after the date of the Optional Exchange Notice;
 - (ii) in the case of a Tax Event or Regulatory Event, will be a day no earlier than 25 Business Days nor more than 60 Business Days after the date of the Optional Exchange Notice; or
 - (iii) in any case, is such other date as APRA may require.

5.4. Optional Exchange Restriction

The Issuer may not elect to Exchange under this clause 5 if:

- (a) on the 2nd Business Day before the date on which an Optional Exchange Notice is to be sent by the Issuer (or, if that Business Day is not an ASX Trading Day, the last ASX Trading Day prior to that day) (the “Non-Exchange Test Date”) the Daily VWAP on that date is less than or equal to 25% of the Issue Date VWAP (the “First Optional Exchange Restriction”); or
- (b) the Issuer is Delisted as at the Non-Exchange Test Date (the “Second Optional Exchange Restriction” and together with the First Optional Exchange Restriction, the “Optional Exchange Restrictions”).

5.5. Conditions to Exchange occurring once elected by the Issuer

If the Issuer has given an Optional Exchange Notice but, if the Exchange Date were a Relevant Mandatory Exchange Date for the purposes of clause 3, any one or more of the Second Exchange Condition (tested on the basis of the Maximum Exchange Number applicable to an Optional Exchange Date), the Third Exchange Condition or the Fourth Exchange Condition would not be satisfied in respect of that date, then, notwithstanding any other provision of these Terms:

- (a) the Exchange Date will be deferred until the first Distribution Payment Date (within the meaning of paragraph (a) of the definition of that term) on which:
 - (i) the Daily VWAP on the 25th Business Day immediately preceding (but not including) that Distribution Payment Date (or, if that day is not an ASX Trading Day, the last ASX Trading Day prior to that day) is greater than 25% of the Issue Date VWAP; and
 - (ii) each of the Second Exchange Condition (tested on the basis of the Maximum Exchange Number applicable to an Optional Exchange Date), the Third Exchange Condition and the Fourth Exchange Condition would be satisfied if that Distribution Payment Date were a Relevant Mandatory Exchange Date for the purposes of clause 3,(the “Deferred Exchange Date”);

- (b) the Issuer must Exchange the MCN5 on the Deferred Exchange Date (unless the MCN5 are Exchanged or Redeemed earlier in accordance with these Terms); and
 - (c) until the Deferred Exchange Date, all rights attaching to the MCN5 will continue as if the Optional Exchange Notice had not been given.
- The Issuer will notify Holders on or as soon as practicable after an Exchange Date in respect of which this clause 5.5 applies that Exchange did not occur on that Exchange Date (a “Deferred Exchange Notice”).

6. Acquisition Event Exchange

6.1. Exchange on account of an Acquisition Event

If an Acquisition Event occurs, subject to clause 4.8, the Issuer must Exchange all but not some of the MCN5 in accordance with this clause 6, unless the Directors determine that:

- (a) as at the Acquisition Exchange Date the Issuer will be, or will be likely to be, Delisted (except where, despite the Issuer being Delisted, the Exchange would be in the best interests of Holders as a whole); or
- (b) the Exchange Number of Ordinary Shares to be issued in Exchange for an MCN5 (calculated in accordance with clause 9.1 as if it were not limited by the Maximum Exchange Number applicable to an Acquisition Exchange Date) would exceed the Maximum Exchange Number applicable to an Acquisition Exchange Date (except where, despite the Exchange Number being limited to the Maximum Exchange Number applicable to an Acquisition Exchange Date, the Directors determine that the Exchange would be in the best interests of Holders as a whole).

Exchange on account of an Acquisition Event is not subject to any Exchange Conditions or other conditions except as expressly provided in this clause 6.1.

6.2. Acquisition Exchange Notice

No later than 5:00pm (Sydney time) on the 10th Business Day after the occurrence of the Acquisition Event, the Issuer must give each Holder a notice (an “Acquisition Exchange Notice”) specifying:

- (a) details of the Acquisition Event to which the notice relates; and
- (b) if an Exchange is to occur:
 - (i) the date on which the Exchange is to occur (an “Acquisition Exchange Date”), which is to be:
 - (A) no later than the 2nd Business Day prior to the date reasonably determined by the Issuer to be the last date on which holders of Ordinary Shares can participate in the bid, scheme or arrangement concerned;
 - (B) such other earlier date as the Issuer may reasonably determine having regard to the best interests of Holders as a whole and the timing of the Acquisition Event concerned (provided that the Acquisition Exchange Date must be at least 25 Business Days after the date of the Acquisition Exchange Notice); or
 - (C) such other date as APRA may require; and
 - (ii) whether any Distribution will be paid in respect of the MCN5 on the Acquisition Exchange Date; or
- (c) otherwise, the reason why an Exchange is not to occur.

7. Optional Redemption

7.1. Optional Redemption

Subject to clause 7.2, by notice (a “Redemption Notice”) to Holders, the Issuer may, in its sole discretion, but with APRA’s prior written approval of such Redemption, elect to:

- (a) Redeem all or some of the MCN5 on a Scheduled Optional Exchange Date; or
- (b) Redeem all or some of the MCN5 following the occurrence of a Tax Event or a Regulatory Event.

A Redemption Notice, once given, is irrevocable and takes effect despite anything in clause 3, except as provided in clauses 4.8 and 16.

Holders should not expect that APRA’s approval will be given for any Redemption of the MCN5.

7.2. Redemption conditions

A Redemption in accordance with clause 7.1 must not occur unless either:

- (a) the MCN5 which are to be Redeemed are replaced, concurrently with the Redemption or beforehand, with securities forming part of Eligible Capital of the same or better quality from APRA's perspective, and the replacement of those MCN5 is done under conditions which are sustainable for the income capacity of the Level 3 Group; or
- (b) APRA is satisfied that the capital position of the Level 3 Group is sufficient after the MCN5 are Redeemed.

7.3. Contents of the Redemption Notice

A Redemption Notice must specify:

- (a) in the case of Redemption following the occurrence of a Tax Event or Regulatory Event, the details of the relevant Tax Event or Regulatory Event;
- (b) the date on which the Redemption is to occur (the "Redemption Date"), which:
 - (i) in the case of a Scheduled Optional Exchange Date, will be the next Scheduled Optional Exchange Date falling no earlier than 5 Business Days after the date of the Redemption Notice; and
 - (ii) in the case of a Tax Event or Regulatory Event, will be a day no earlier than 5 Business Days nor more than 60 Business Days after the date of the Redemption Notice; and
- (c) if less than all of the outstanding MCN5 are to be Redeemed, the proportion of each Holder's holding which is to be Redeemed.

7.4. Redemption Price

On the Redemption Date:

- (a) each MCN5 being Redeemed will be Redeemed by payment of the Issue Price of that MCN5 (the "Redemption Price") to the relevant Holder recorded on the Register at 10:00am on the Redemption Date (or such other time required by the ASX Listing Rules); and
- (b) Distributions from (and including) the immediately preceding Distribution Payment Date and up to (but excluding) the Redemption Date will be paid in respect of the MCN5 being Redeemed on such date, to the extent the conditions of payment of Distributions under clause 2.3 are met.

7.5. No right of Holders to require Redemption

No MCN5 can, or will, be Redeemed at the option of a Holder.

7.6. Effect of Redemption

Upon the Redemption Price being paid (or taken to be paid in accordance with clause 11) and any Distribution payable on the Redemption Date, all other rights conferred, or restrictions imposed, by each MCN5 being Redeemed on that date will no longer have effect and that MCN5 will be cancelled.

7.7. Partial Redemption or Resale

If some but not all of the outstanding MCN5 are Redeemed in accordance with this clause 7 or Resold in accordance with clause 8, the Issuer must select the MCN5 to be Redeemed or Resold:

- (a) in a manner that is, in the opinion of the Issuer, fair and reasonable; and
- (b) in compliance with any applicable law, directive or requirement of ASX.

8. Resale

8.1. Issuer may give Resale Notice

On any date on which it may issue a Redemption Notice, in lieu of such Redemption Notice, the Issuer may, in its sole discretion, issue to each Holder a notice (a "Resale Notice") specifying that all or some of each Holder's holding of the MCN5 will be Resold.

A Resale Notice to a Holder must specify:

- (a) the date on which the Resale is to occur (the "Resale Date"), which:
 - (i) in the case of a Scheduled Optional Exchange Date, will be the next Scheduled Optional Exchange Date falling no earlier than 5 Business Days after the date of the Resale Notice; and
 - (ii) in the case of a Tax Event or Regulatory Event, will be a day no earlier than 5 Business Days nor more than 60 Business Days after the date of the Resale Notice; and

- (b) the name of each Nominated Party to whom that Holder's offer under clause 8.3 is being made and, where there is more than one Nominated Party, the basis for determining the MCN5 to be purchased by each Nominated Party, and any special provisions to be applied if there is a Non-Completing Nominated Party; and
 - (c) any conditions that will apply to the Resale,
- and, subject to clauses 4.8, 8.2, 8.6 and 16, once given is irrevocable.

8.2. Appointment of Nominated Party

- (a) The Issuer may not appoint itself or a Related Entity of the Issuer as a Nominated Party.
- (b) The Issuer may appoint one or more Nominated Parties for the Resale on such terms as may be agreed between the Issuer and the Nominated Parties (and, to the extent any such conditions may cause the MCN5 to cease to be Eligible Capital, with the prior written approval of APRA) including:
 - (i) as to the conditions of any Resale, the procedures for settlement of such Resale and the circumstances in which the Resale Notice may be amended, modified, added to or restated;
 - (ii) as to the substitution of another entity (not being the Issuer or a Related Entity of the Issuer) as Nominated Party if, for any reason, the Issuer is not satisfied that the Nominated Party will perform its obligations under this clause 8; and
 - (iii) as to the terms on which any MCN5 acquired by a Nominated Party may be Exchanged or otherwise dealt with.
- (c) If the Issuer appoints more than one Nominated Party in respect of a Resale, all or any of the MCN5 held by a Holder which are being Resold may be purchased for the Resale Price by any one or any combination of the Nominated Parties, as determined by the Issuer.

8.3. Irrevocable offer to sell

- (a) If the Issuer gives a Resale Notice in accordance with clause 8.1 each Holder on the Resale Date is taken to irrevocably offer to sell the MCN5 that are the subject of the Resale Notice to the Nominated Party or Nominated Parties on the Resale Date for a purchase price per MCN5 equal to the Issue Price of that MCN5 (the "Resale Price").
- (b) Subject to payment of the Resale Price on the Resale Date and any other conditions to the Resale specified in the Resale Notice, each MCN5 which is to be Resold will be transferred to the relevant Nominated Party or Nominated Parties free from any Encumbrance.
- (c) Clause 11 applies to the payment of the Resale Price as if references in clause 11 to the Issuer were references to the Nominated Party.

8.4. Effect of transfer

The transfer will convey to the relevant Nominated Party all rights to:

- (a) Distributions payable on the MCN5 in respect of any Distribution Payment Date arising after the Resale Date;
- (b) be issued with Ordinary Shares on Exchange on or after the Resale Date; and
- (c) any Redemption Price payable on or after the Resale Date,

but excluding any Distribution payable on the MCN5 in respect of any Distribution Payment Date on or before the Resale Date, which, to the extent the conditions of payment of Distribution under clause 2.3 are met, shall be paid by the Issuer to the Holder of the MCN5 entitled to such amounts as otherwise provided in these Terms.

8.5. Terms after Resale

If any MCN5 are Resold in accordance with these Terms, subject to clause 8.2, these Terms will apply in all respects to the MCN5 held by the Nominated Party on and from the Resale Date.

8.6. Nominated Party not completing

If, for any reason, a Nominated Party does not pay the Resale Price in full on the relevant Resale Date (a "Non-Completing Nominated Party"):

- (a) unless the Resale Price is paid in full within 2 Business Days following the Resale Date, the Resale Notice will be void insofar as it relates to MCN5 referable to the Non-Completing Nominated Party and any obligations of the Holder and Non-Completing Nominated Party in respect of the Resale of the MCN5 that is the subject of the Resale Notice will terminate;
- (b) the Holder will continue to hold the MCN5 that are the subject of the Resale Notice which are referable to the Non-Completing Nominated Party; and
- (c) the Issuer has no liability for the Non-Completing Nominated Party not paying the Resale Price and the Resale Date will not be a Distribution Payment Date unless:
 - (i) such date would otherwise have been a Distribution Payment Date; or
 - (ii) a Distribution is paid on that date to Holders whose MCN5 have been transferred to a Nominated Party on or within 2 Business Days following that date.

8.7. No right of Holders to require Resale

No MCN5 can, or will, be Resold at the option of a Holder.

9. Exchange Mechanics

9.1. Exchange

On an Exchange Date, subject to clauses 4.8, 9.14 and 9.17, the Issuer will allot and issue the Exchange Number of Ordinary Shares to the Holders (or as they may direct) for each MCN5 held by the Holder.

The “Exchange Number” will be calculated by the Issuer in accordance with the following formula:

$$\text{Exchange Number} = \frac{\text{Issue Price}}{0.99 \times \text{Exchange Date VWAP}}$$

subject to the Exchange Number being no greater than the Maximum Exchange Number, where:

- (a) “Exchange Date VWAP” (expressed in Australian Dollars) means the VWAP during the VWAP Period;
- (b) “VWAP” means, subject to any adjustment under clauses 9.3 or 9.4, for a period or relevant number of days, the average of the Daily VWAPs (such average being rounded to the nearest full cent) of Ordinary Shares sold on ASX during the relevant period or on the relevant days; and
- (c) “VWAP Period” means, for the purposes of calculating the Exchange Date VWAP and the Exchange Number:
 - (i) in the case of an Exchange on a Relevant Mandatory Exchange Date or an Optional Exchange Date, the 20 ASX Trading Days immediately preceding, but not including, that Exchange Date;
 - (ii) in the case of an Exchange on account of an Acquisition Event, the lesser of 20 ASX Trading Days and the number of ASX Trading Days that Ordinary Shares are entitled to trade on ASX after the occurrence of the Acquisition Event immediately preceding, but not including, the Acquisition Exchange Date; and
 - (iii) in the case of an Exchange on account of a Non-Viability Event, the 5 ASX Trading Days immediately preceding, but not including, the Non-Viability Exchange Date; and
- (d) the “Maximum Exchange Number” will be calculated by the Issuer on the Issue Date in accordance with the following formula for each MCN5 held by the Holder:

$$\text{Maximum Exchange Number} = \frac{\text{Issue Price}}{\text{Exchange Floor Price}}$$

where:

- (i) “Exchange Floor Price” means Issue Date VWAP multiplied by the Relevant Percentage;
- (ii) “Issue Date VWAP” is the VWAP during the 20 ASX Trading Days immediately preceding, but not including, the Issue Date (as such number may be adjusted under clauses 9.5, 9.6 or 9.7); and
- (iii) “Relevant Percentage” is:
 - (A) if the Exchange is occurring on a Relevant Mandatory Exchange Date, 50%; and
 - (B) if the Exchange is occurring on any other Exchange Date, 20%.

Each Holder’s rights (including to payment of Distributions other than the Distribution (if any) payable on the Exchange Date) in relation to each MCN5 that is being Exchanged will be immediately and irrevocably terminated for an amount equal to the Issue Price of that MCN5 and the Issuer will apply that Issue Price by way of payment for the subscription for the Ordinary Shares to be allotted and issued under this clause 9.1. Each Holder is taken to have irrevocably directed that any amount payable under this clause 9.1 is to be applied as provided for in this clause 9.1 and no Holder has any right to payment in any other way.

If the total number of Ordinary Shares to be allotted to a Holder in respect of their aggregate holding of MCN5 upon Exchange includes a fraction of an Ordinary Share, that fraction of an Ordinary Share will be disregarded.

9.2. Holder information

Each Holder agrees to provide to the Issuer (and, where clause 9.14 applies, the Sale Agent) any information necessary or desirable to give effect to an Exchange.

9.3. Adjustments to VWAP

For the purposes of calculating VWAP in these Terms:

- (a) where, on some or all of the ASX Trading Days in the relevant VWAP Period, Ordinary Shares have been quoted on ASX as cum dividend or cum any other distribution or entitlement and the MCN5 will be Exchanged for Ordinary Shares after the date those Ordinary Shares no longer carry that dividend or any other distribution or entitlement, then the VWAP on the ASX Trading Days on which those Ordinary Shares have been quoted cum dividend or cum any other distribution or entitlement shall be reduced by an amount ("Cum Value") equal to:
 - (i) in case of a dividend or other distribution, the amount of that dividend or other distribution including, if the dividend or other distribution is franked, the amount that would be included in the assessable income of a recipient of the dividend or other distribution who is both a resident of Australia and a natural person under the Tax Act and eligible to receive a franked distribution;
 - (ii) in the case of any other entitlement that is not a dividend or other distribution under clause 9.3(a)(i) and which is traded on ASX on any of those ASX Trading Days, the volume weighted average sale price of all such entitlements sold on ASX during the VWAP Period on the ASX Trading Days on which those entitlements were traded; or
 - (iii) in the case of any other entitlement which is not traded on ASX during the VWAP Period, the value of the entitlement as reasonably determined by the Directors; and
- (b) where, on some or all of the ASX Trading Days in the VWAP Period, Ordinary Shares have been quoted on ASX as ex dividend or ex any other distribution or entitlement, and the MCN5 will be Exchanged for Ordinary Shares which would be entitled to receive the relevant dividend or other distribution or entitlement, the VWAP on the ASX Trading Days on which those Ordinary Shares have been quoted ex dividend or ex any other distribution or entitlement shall be increased by the Cum Value.

9.4. Adjustments to VWAP for divisions and similar transactions

- (a) Where during the relevant VWAP Period there is a change in the number of the Ordinary Shares on issue as a result of a Reclassification, in calculating the VWAP for that VWAP Period the Daily VWAP applicable on each day in the relevant VWAP Period which falls before the date on which trading in Ordinary Shares is conducted on a post Reclassification basis shall be adjusted by multiplying the VWAP by the following fraction:

$$\frac{A}{B}$$

where:

- (i) "A" means the aggregate number of Ordinary Shares immediately before the Reclassification; and
 - (ii) "B" means the aggregate number of Ordinary Shares immediately after the Reclassification.
- (b) Any adjustment made by the Issuer in accordance with clauses 9.3 and 9.4(a) will be effective and binding on Holders under these Terms and these Terms will be construed accordingly. Any such adjustment must be notified to all Holders as soon as reasonably practicable following its determination by the Issuer.

9.5. Adjustments to Issue Date VWAP

For the purposes of determining the Issue Date VWAP, adjustments to VWAP will be made in accordance with clauses 9.3 and 9.4(a) during the VWAP Period for the Issue Date VWAP. On and from the Issue Date, adjustments to the Issue Date VWAP:

- (a) may be made in accordance with clauses 9.6 and 9.7; and
- (b) if so made, will correspondingly cause an adjustment to the Maximum Exchange Number.

9.6. Adjustments to Issue Date VWAP for bonus issues

- (a) Subject to clause 9.6(b) below, if the Issuer makes a pro rata bonus issue of Ordinary Shares to holders of Ordinary Shares generally, the Issue Date VWAP will be adjusted immediately in accordance with the following formula:

$$V = V_0 \times \frac{RD}{RD + RN}$$

where:

- (i) "V" means the Issue Date VWAP applying immediately after the application of this formula;
- (ii) "V₀" means the Issue Date VWAP applying immediately prior to the application of this formula;
- (iii) "RN" means the number of Ordinary Shares issued pursuant to the bonus issue; and
- (iv) "RD" means the number of Ordinary Shares on issue immediately prior to the allotment of new Ordinary Shares pursuant to the bonus issue.

- (b) Clause 9.6(a) does not apply to Ordinary Shares issued as part of a bonus share plan, employee or executive share plan, executive option plan, share top up plan, share purchase plan or a dividend reinvestment plan.
- (c) For the purpose of clause 9.6(a), an issue will be regarded as a pro rata issue notwithstanding that the Issuer does not make offers to some or all holders of Ordinary Shares with registered addresses outside Australia, provided that in so doing the Issuer is not in contravention of the ASX Listing Rules.
- (d) No adjustments to the Issue Date VWAP will be made under this clause 9.6 for any offer of Ordinary Shares not covered by clause 9.6(a), including a rights issue or other essentially pro rata issue.
- (e) The fact that no adjustment is made for an issue of Ordinary Shares except as covered by clause 9.6(a) shall not in any way restrict the Issuer from issuing Ordinary Shares at any time on such terms as it sees fit nor be taken to constitute a modification or variation of rights or privileges of Holders or otherwise requiring any consent or concurrence.

9.7. Adjustment to Issue Date VWAP for divisions and similar transactions

- (a) If at any time after the Issue Date there is a change in the number of Ordinary Shares on issue as a result of a Reclassification, the Issuer shall adjust the Issue Date VWAP by multiplying the Issue Date VWAP applicable on the Business Day immediately before the date of any such Reclassification by the following fraction:

$$\frac{A}{B}$$

where:

- (i) “A” means the aggregate number of Ordinary Shares immediately before the Reclassification; and
 - (ii) “B” means the aggregate number of Ordinary Shares immediately after the Reclassification.
- (b) Each Holder acknowledges that the Issuer may consolidate, divide or reclassify securities so that there is a lesser or greater number of Ordinary Shares at any time in its absolute discretion without any such action constituting a modification or variation of rights or privileges of Holders or otherwise requiring any consent or concurrence.

9.8. No adjustment to Issue Date VWAP in certain circumstances

Despite the provisions of clauses 9.6 and 9.7, no adjustment shall be made to the Issue Date VWAP where such cumulative adjustment (rounded if applicable) would be less than 1% of the Issue Date VWAP then in effect. Any adjustment not made in accordance with this clause 9.8 shall be carried forward and taken into account in determining whether any subsequent adjustment shall be made.

9.9. Announcement of adjustment to Issue Date VWAP

If the Issuer determines an adjustment to the Issue Date VWAP under clauses 9.6 and 9.7, such an adjustment will be:

- (a) determined as soon as reasonably practicable following the relevant event; and
- (b) notified to Holders (an “Adjustment Notice”) within 10 Business Days of the Issuer determining the adjustment.

The adjustment set out in the Adjustment Notice will be final and binding on Holders and these Terms will be construed accordingly.

9.10. Listing of Ordinary Shares

The Issuer agrees to use all reasonable endeavours to list the Ordinary Shares issued or arising from an Exchange on ASX.

9.11. Status of Ordinary Shares

The Ordinary Shares issued or arising from an Exchange will rank equally with all other fully paid Ordinary Shares.

9.12. Effect of Exchange

When an Exchange of an MCN5 occurs all other rights conferred or restrictions imposed on that MCN5 under these Terms will no longer have effect (except for rights relating to a Distribution which is payable but has not been paid on or before the Exchange Date) and the MCN5 is cancelled.

9.13. Failure to Exchange

- (a) Subject to clauses 9.14(g) and 9.17, if, in respect of an Exchange of an MCN5, the Issuer fails to issue the Ordinary Shares in respect of an MCN5 to, or in accordance with the instructions of, the relevant Holder on the applicable Exchange Date or to the Sale Agent where clause 9.14 applies, that MCN5 remains on issue (and, without limitation, clause 2 applies) until:
- (i) the Ordinary Shares are issued to, or in accordance with the instructions of, that Holder or, where clause 9.14 applies, to the Sale Agent; or
 - (ii) that MCN5 is Redeemed in accordance with these Terms,
- and the remedies of the Trustee and a Holder in respect of that failure are limited to seeking an order for specific performance of the Issuer's obligations to issue Ordinary Shares.
- (b) This clause 9.13 does not affect the obligation of the Issuer to deliver the Ordinary Shares or of the Holder to transfer MCN5 when required in accordance with these Terms.

9.14. Holders whose Ordinary Shares are to be sold

Subject to clause 9.17, if any MCN5 of a Holder are required to be Exchanged and if:

- (a) the Holder has notified the Issuer that it does not wish to receive Ordinary Shares as a result of the Exchange (whether entirely or to the extent specified in the notice), which notice may be given at any time on or after the Issue Date and no less than 15 Business Days prior to the Exchange Date;
- (b) the MCN5 are held by a Foreign Holder;
- (c) for any reason (whether or not due to the fault of a Holder):
 - (i) the Issuer does not receive any information required by it in accordance with these Terms so as to impede the Issuer from issuing the Ordinary Shares to the Holder on the Exchange Date; or
 - (ii) a FATCA Withholding is required to be made in respect of any Ordinary Shares to be delivered as a result of that Exchange; or
- (d) the Issuer is of the opinion that under an Applicable Shareholding Law the Holder is prohibited from acquiring some or all of the Exchange Number of Ordinary Shares on the Exchange Date, (to the extent it is so prohibited, an "Ineligible Holder"),

then the Issuer will use reasonable endeavours to appoint a "Sale Agent" (which is not the Issuer or any Related Body Corporate of the Issuer) on such terms as the Issuer considers reasonable, who will act in accordance with paragraph (f) where the Issuer, the Trustee and the Sale Agent can be satisfied that the obligation in paragraph (f) may be performed in respect of the relevant Holder and the relevant Ordinary Shares in accordance with all applicable laws and without the Issuer, the Trustee or the Sale Agent having to take steps which any of them regard as onerous.

On the Exchange Date:

- (e) where paragraph (a), (b) or (d) applies, the Issuer will issue the Exchange Number of Ordinary Shares to the Holder only to the extent (if at all) that:
 - (i) where paragraph (a) applies, the Holder's notice referred to in paragraph (a) indicates the Holder wishes to receive them;
 - (ii) where paragraph (b) applies, the Issuer is satisfied that the laws of both Australia and the Foreign Holder's country of residence permit the issue of the Exchange Number of Ordinary Shares to the Foreign Holder as contemplated by this clause 9 (but as to which the Issuer is not bound to enquire), either unconditionally or after compliance with conditions which the Issuer, in its absolute discretion, regards as acceptable and not unduly onerous; and
 - (iii) where paragraph (d) applies, the issue would result in the Holder receiving the maximum number of Ordinary Shares the Holder is permitted to acquire in compliance with an Applicable Shareholding Law as at the Exchange Date;
- (f) otherwise, subject to paragraph (g) and clause 9.17, the Issuer will issue:
 - (i) where paragraph (a), (b) or (d) applies, the balance of the Exchange Number of Ordinary Shares; or
 - (ii) where paragraph (c) applies, the Exchange Number (in full),

in respect of that Holder to the Sale Agent on the terms that, at the first reasonable opportunity to sell the Ordinary Shares, the Sale Agent will arrange for their sale and pay to the relevant Holder on a date determined by the Sale Agent a cash amount equal to the Attributable Proceeds of the relevant Holder or, where paragraph (c)(ii) applies, the Sale Agent will deal with the Ordinary Shares in accordance with FATCA. The issue of Ordinary Shares to the Sale Agent will satisfy all obligations of the Issuer in connection with the Exchange, the MCN5 will be deemed Exchanged and will be dealt with in accordance with clause 9.1 and, on and from the issue of Ordinary Shares, the rights of a Holder the subject of this clause 9.14 are limited to its rights in respect of the Ordinary Shares or the Attributable Proceeds as provided in this clause 9.14; and

- (g) where paragraph (f) applies in respect of a Holder and a Sale Agent is unable to be appointed, or either or both of the Issuer and the Sale Agent is of the opinion that the issue of Ordinary Shares to the Sale Agent and subsequent sale in accordance with paragraph (f) cannot be undertaken in accordance with an Applicable Shareholding Law or other applicable law (or can be undertaken in accordance with an Applicable Shareholding Law or applicable law only after the Issuer or the Sale Agent take steps which either or both the Issuer and the Sale Agent regard as onerous), then:
 - (i) in respect of a Non-Viability Exchange Date, but without in any way limiting clause 9.17, if either or both of the Issuer and the Sale Agent is of the opinion that the issue of Ordinary Shares cannot be undertaken within 5 Business Days of the Non-Viability Exchange Date to the Sale Agent in accordance with paragraph (f) or otherwise to the relevant Holder in accordance with this clause 9, then the relevant MCN5 will be Written-Off; or
 - (ii) in respect of an Exchange Date other than a Non-Viability Exchange Date:
 - (A) the issue of Ordinary Shares to the Sale Agent in accordance with paragraph (f) shall occur as soon as practicable after the Issuer is able to issue the relevant Ordinary Shares to the Sale Agent in accordance with an Applicable Shareholding Law and other applicable laws (and without the Issuer or the Sale Agent taking steps which either or both of the Issuer and the Sale Agent regard as onerous); and
 - (B) on and from the Exchange Date, the MCN5 of the relevant Holder remain on issue (and, without limitation, clause 2 applies) until the first to occur of:
 - (aa) the issue of the relevant Ordinary Shares in accordance with paragraphs (f) and (g)(ii)(A) or otherwise to that relevant Holder in accordance with this clause 9;
 - (ab) the relevant MCN5 are Redeemed in accordance with these Terms; or
 - (ac) the date which is 6 months after the Exchange Date, upon which date an Exchange will not occur in respect of the balance of the Holder's MCN5 at that date and such MCN5 will be automatically cancelled for no consideration.

Nothing in this clause 9.14 shall affect the Exchange of MCN5 to a Holder which is not a person to which any of paragraphs (a) to (d) (inclusive) applies.

9.15. No duty on sale

For the purpose of clause 9.14, none of the Issuer, the Trustee, the Sale Agent or any other person owes any obligations or duties to the Holders in relation to the price at which Ordinary Shares are sold or has any liability for any loss suffered by a Holder as a result of the sale of Ordinary Shares.

9.16. No right of Holders to require Exchange

No MCN5 can, or will, be Exchanged at the option of a Holder.

9.17. Write-Off on failure to perform Exchange

- (a) Notwithstanding any other provisions of this clause 9, if, for any reason (including, without limitation, an Inability Event) an MCN5 which, but for this clause this clause 9.17 would be required to be Exchanged, has not been Exchanged within 5 Business Days of the Non-Viability Exchange Date, then Exchange of that MCN5 will not occur and that MCN5 will instead be Written-Off.
- (b) The Issuer must give notice to Holders if that Exchange has not occurred by operation of this clause 9.17, but failure to give that notice shall not affect the operation of this clause 9.17.

10. Acknowledgements and appointments

10.1. Acknowledgements

Each Holder, by subscribing for, purchasing or otherwise acquiring an MCN5:

- (a) is taken to have notice of, and irrevocably agrees to be bound by, the terms of the MCN5 Trust Deed and these Terms;
- (b) upon an Exchange, consents to becoming a member of the Issuer and agrees to be bound by the constitution of the Issuer;
- (c) agrees that any Redemption, Resale or Exchange shall occur on a Redemption Date, Resale Date or Exchange Date (as the case may be) in accordance with these Terms;

-
- (d) agrees that it is obliged to accept the Ordinary Shares in respect of its MCN5 upon an Exchange Date, notwithstanding anything which might otherwise affect the Exchange including:
- (i) any change in the financial position of the Issuer or the Macquarie Group since the Issue Date;
 - (ii) any disruption to the market or potential market for the Ordinary Shares or to capital markets generally;
 - (iii) it being impossible or impracticable to list the Ordinary Shares on ASX; or
 - (iv) it being impossible or impracticable to sell or otherwise dispose of the Ordinary Shares;
- (e) acknowledges and agrees that Exchange must occur immediately on the occurrence of a Non-Viability Event and that may result in disruption or failures in trading or dealings in the MCN5;
- (f) acknowledges and agrees that:
- (i) if Exchange does not occur in the circumstances contemplated in clauses 9.14(g) or 9.17, each MCN5 will be Written-Off; and
 - (ii) each of clause 9.14(g) and 9.17 is a fundamental term of the MCN5 and where it applies, no other conditions or events will affect its operation;
- (g) agrees to provide to the Issuer any information that the Issuer considers necessary or desirable, or to take any and all such action as is within the reasonable control of that Holder, to give effect to a Redemption, Resale or an Exchange;
- (h) acknowledges and agrees that it has:
- (i) no right to request a Redemption, Resale or an Exchange;
 - (ii) to the fullest extent permitted by law:
 - (A) no right to initiate the Winding Up of the Issuer or any other member of the Macquarie Group or to have any such entity placed in administration; or
 - (B) to cause a receiver or receiver and manager to be appointed in respect of any such entity, merely on the grounds that a Distribution or any other amount is not paid; and
 - (iii) no rights against any member of the Macquarie Group in connection with the MCN5 except as expressly provided in these Terms and under the MCN5 Trust Deed;
- (i) acknowledges and agrees that these Terms contain no events of default (however described, determined or defined). Accordingly (but without limitation), failure to pay in full, for any reason, a Distribution on the scheduled Distribution Payment Date will not constitute an event of default; and
- (j) acknowledges and agrees it has no remedies on account of a failure by the Issuer to issue Ordinary Shares in accordance with clause 9 other than (and subject always to clauses 9.14(g) and 9.17) to seek specific performance of the obligation to issue the Ordinary Shares.

10.2. Appointment of attorneys, agents and directions

Each Holder irrevocably:

- (a) appoints each of the Issuer, the Issuer's Authorised Officers and any liquidator, administrator, statutory manager or other similar official of the Issuer (each an "**Appointed Person**") severally to be the attorneys of the Holder and the agents of the Holder, with the power in the name and on behalf of the Holder to:
- (i) do all such acts and things (including, without limitation, signing all documents, instruments or transfers or instructing CHES) as may, in the opinion of the Appointed Person, be necessary or desirable to be done in order to give effect to, record or perfect a Redemption, Resale or Exchange in accordance with clauses 3, 4, 5, 6, 7, 8 and 9 or, where clauses 9.14(g) and 9.17 apply, a Write-Off in accordance with that clause; or
 - (ii) do all other things which an Appointed Person reasonably believes to be necessary or desirable to give effect to these Terms; and
 - (iii) appoint in turn its own agent or delegate; and

- (b) authorises and directs the Issuer and/or the Registrar to make such entries in the Register, including amendments and additions to the Register, which the Issuer and/or the Registrar may consider necessary or desirable to record:
 - (i) a Redemption, Resale or an Exchange; or
 - (ii) where clause 9.14(g) or 9.17 applies, a Write-Off in accordance with that clause.

The power of attorney given in this clause 10.2 is given for valuable consideration and to secure the performance by the Holder of the Holder's obligations under these Terms and is irrevocable and shall survive and not be affected by the subsequent disability or incapacity of the Holder (or, if such Holder is an entity, by its dissolution or termination). An Appointed Person shall have no liability in respect of any acts duly performed in accordance with the power of attorney given in this clause 10.2.

11. Payments to Holders

11.1. Currency of payments

All payments of amounts in respect of any MCN5 will be made in Australian Dollars.

11.2. Calculation of payments

All calculations of payments will be rounded to the nearest four decimal places (with 0.00005 being rounded to 0.0001). For the purposes of making any payment in respect of a Holder's aggregate holding of MCN5, any amount less than A\$0.01 will be disregarded.

11.3. Payments and issues and deliveries of securities subject to laws

All payments and issues and deliveries of securities are subject in all cases to:

- (a) compliance by the Issuer with applicable laws; and
- (b) any applicable fiscal or other laws in the place of payment, issue or delivery, but without prejudice to the provisions of clause 11.4.

No commissions or expenses shall be charged to the Holders in respect of such payments (except in respect of the calculation of Attributable Proceeds in accordance with clause 9.14(f)).

11.4. Deductions

- (a) The Issuer, the Trustee, the Sale Agent and any financial institutions or intermediaries through which payments are made or securities issued or delivered, may withhold or deduct from any amount payable or securities issuable or deliverable to a Holder the amount of any withholding, deduction or other tax, duty or levy required by law to be withheld or deducted in respect of such payment, including, without limitation:
 - (i) any withholding or deduction of taxes, interest or penalties required under FATCA ("FATCA Withholding"); or
 - (ii) where the Issuer, the Trustee, the Sale Agent and any financial institution or intermediary (as applicable) has reasonable grounds to suspect that a Holder or a beneficial owner of any MCN5 (or any financial institution or intermediary through which the payment is to be made) may be subject to a FATCA Withholding in respect of the payment of that amount.

For the avoidance of doubt, any withholding or deduction required under FATCA is a tax, the withholding or deduction of which is required by applicable law for purposes of this clause 11.

- (b) In addition, where Ordinary Shares are required to be delivered to a Holder upon an Exchange, and the Issuer is required or entitled to make a FATCA Withholding, then the Issuer is entitled to deal with any Ordinary Shares comprising that FATCA Withholding in accordance with clause 9.14.
- (c) Each Holder shall be deemed to authorise the Issuer, the Trustee, the Sale Agent and any financial institutions or intermediaries through which payments are made to deal with payments, securities to be issued or delivered and the Holder's MCN5 in accordance with FATCA, including remitting, or otherwise dealing with, any amounts or securities comprising a FATCA Withholding, or reporting payment or account or other information to the IRS or other relevant revenue or taxing authority in accordance with the applicable requirements under FATCA.
- (d) If any withholding or deduction is required by applicable law, the Issuer, the Trustee or the Sale Agent, (as applicable) must remit the full amount required to be withheld or deducted, or remit or otherwise deal with the total number of securities, to or as required by the relevant revenue or taxing authority within the time allowed for such remittance or dealing without incurring a penalty under the applicable law.

(e) If:

- (i) a withholding or deduction is made in accordance with this clause 11;
- (ii) the amount of the withholding or deduction is, or number of or rights in respect of securities withheld are, accounted for by the Issuer, the Trustee or the Sale Agent (as applicable) to the relevant revenue or taxing authority; and
- (iii) the balance of the amount payable has been paid, or the balance of the securities to be issued or delivered are issued or delivered, to the Holder,

then the Issuer's or the Trustee's (or Sale Agent's) (as applicable) obligation to make the payment to the Holder is taken to have been satisfied in full.

11.5. No set-off

A Holder has no right to set-off any amounts owing by it to a member of the Macquarie Group against any claims owing by the Issuer or another member of the Macquarie Group to such Holder. The Issuer has no right to set-off any amounts owing by it to a Holder in respect of the MCN5 against any claims owing by the Holder to it or any member of the Macquarie Group.

11.6. Payment method

Subject to clauses 11.1 and 11.3, all moneys payable by the Issuer to a Holder may be paid in any manner the Issuer decides, which may include any of the following:

- (a) by any method of direct crediting determined by the Issuer to the Holder or Holders shown on the Register or to such person or place directed by them;
- (b) by sending on or before the payment date a cheque, through the post at the Holder's risk directed to the physical or postal address of the Holder as shown in the Register or, in the case of joint Holders, to the physical or postal address notified to the Registrar for receipt of such moneys (and in default of notification, to the physical or postal address shown in the Register as the address of the joint Holder first named in that Register); or
- (c) by cheque sent through the post directed to such other physical or postal address as the Holder or joint Holders in writing direct.

A cheque sent through the post on or before the date for payment is taken to have been received on the payment date.

11.7. Unpresented cheques

- (a) Cheques issued by the Issuer that are not presented within 6 months of being issued, or such lesser period as determined by the Issuer, may be cancelled.
- (b) Where a cheque which is cancelled was drawn in favour of a Holder, the moneys are to be held by the Issuer for the Holder as a non-interest bearing deposit until the Holder or any legal personal representative of the Holder claims the amount or the amount is paid by the Issuer according to the legislation relating to unclaimed moneys.

11.8. Unsuccessful attempts to pay

Subject to applicable law, where the Issuer:

- (a) decides that an amount is to be paid to a Holder by a method of direct credit and the Holder has not given a direction as to where amounts are to be paid by that method;
- (b) attempts to pay an amount to a Holder by direct credit, electronic transfer of funds or any other means and the transfer is unsuccessful; or
- (c) has made reasonable efforts to locate a Holder but is unable to do so,

the amount of the unsuccessful payment will be held by the Issuer for the Holder as a non-interest bearing deposit with a bank selected by the Issuer until the first to occur of the following:

- (i) the Holder or any legal personal representative of the Holder claims the amount;
- (ii) the Issuer determines as permitted by clause 11.10 to refuse any claim in respect of the amount, in which case the Issuer may treat the amount as its own; or
- (iii) the Issuer is entitled or obliged to deal with the amount in accordance with the legislation relating to unclaimed moneys.

When this clause 11.8 applies the amount payable in respect of the MCN5 shall be treated as having been paid on the date scheduled for payment and Holders will not be entitled to any interest or other payment for any delay after the due date in receiving the amount due.

11.9. Payment to joint Holders

A payment to any one of joint Holders will discharge the Issuer's liability in respect of the payment.

11.10. Time limit for claims

A claim against the Issuer for a payment under an MCN5 is void unless made within 5 years from the date on which payment first became due.

12. Title and transfer of MCN5

12.1. Title

Title to an MCN5 passes when details of the transfer are recorded in the Register.

12.2. Effect of entries in the Register

Each entry in the Register for an MCN5 constitutes an entitlement to the benefits given to the Holder under these Terms and the MCN5 Trust Deed in respect of the MCN5.

12.3. Register conclusive as to ownership

An entry in the Register in relation to an MCN5 constitutes conclusive evidence that the person so entered is the absolute owner of that MCN5, subject to correction for fraud or error.

12.4. Non-recognition of interests

- (a) Except as required by clause 9 and by law, and save as provided below, the Issuer and the Registrar must treat the person entered in the Register in respect of an MCN5 as the absolute owner of that MCN5.
- (b) No notice of any trust, Encumbrance or other interest in, or claim to, any MCN5 will be entered in the Register. None of the Issuer or the Registrar need take notice of any trust, Encumbrance or other interest in, or claim to, any MCN5, except as ordered by a court of competent jurisdiction or required by law.
- (c) This clause 12.4 applies whether or not a payment has been made when scheduled on an MCN5 and despite any notice of ownership, trust, Encumbrance or other interest in the MCN5.

12.5. Joint Holders

Where two or more persons are entered in the Register as joint Holders of an MCN5 then they are taken to hold the MCN5 jointly, but the Registrar is not bound to register more than four persons as joint Holders of an MCN5.

12.6. Transfers

A Holder may transfer an MCN5:

- (a) in accordance with the rules and regulations of CHES;
- (b) by a proper transfer under any other applicable computerised or electronic system recognised by the Corporations Act (or as the Issuer may otherwise accept); or
- (c) subject to clause 1.4, by any proper or sufficient instrument of transfer of marketable securities under applicable law, provided such instrument is delivered to the Registrar with any evidence the Registrar requires to prove title to or the right to transfer the MCN5.

The Holder is responsible for any stamp duty or other similar taxes which are payable in any jurisdiction in connection with a transfer, assignment or other dealing with MCN5.

12.7. Transferee takes subject to terms

A transferee of, or any person claiming, an interest in an MCN5 takes subject to these Terms and the MCN5 Trust Deed.

12.8. Other transfers void

A purported transfer otherwise than in accordance with these Terms and the MCN5 Trust Deed or grant of an interest in an MCN5 otherwise than by way of transfer is, to the fullest extent permitted by law, void.

12.9. Issuer may request holding lock or refuse to register transfer

If MCN5 are quoted on ASX, and if permitted to do so by the ASX Listing Rules and the Corporations Act, the Issuer may:

- (a) request the CS Facility Operator or the Registrar (as the case may be) to apply a holding lock to prevent a transfer of MCN5 approved by and registered on the CS Facility's electronic subregister or MCN5 registered on an issuer-sponsored subregister (as the case may be); or
- (b) refuse to register a transfer of any MCN5.

12.10. Issuer must request holding lock or refuse to register transfer

- (a) The Issuer must request the CS Facility Operator or the Registrar (as the case may be) to apply a holding lock to prevent a transfer of MCN5 approved by and registered on the CS Facility's electronic subregister or MCN5 registered on an issuer-sponsored subregister (as the case may be) if the Corporations Act or the ASX Listing Rules require the Issuer to do so.
- (b) The Issuer must refuse to register any transfer of any MCN5 if the Corporations Act or the ASX Listing Rules require the Issuer to do so.

12.11. Notice of holding locks and refusal to register transfer

If, in the exercise of its rights under clauses 12.9 and 12.10, the Issuer requests the application of a holding lock to prevent a transfer of MCN5 or refuses to register a transfer of MCN5, it must, within 2 months after the date on which the transfer was lodged with it, give written notice of the request or refusal to the Holder, to the transferee and the broker lodging the transfer (if any). Failure to give such notice does not, however, invalidate the decision of the Issuer.

12.12. Delivery of instrument

If an instrument is used to transfer any MCN5 according to clause 12.6, it must be delivered to the Registrar, together with such evidence (if any) as the Registrar reasonably requires to prove the title of the transferor to, or right of the transferor to transfer, the MCN5.

12.13. Refusal to register

- (a) A transferor of an MCN5 is deemed to remain a Holder until the transfer is Registered and the name of the transferee is entered in the Register.
- (b) The Issuer may refuse to register a transfer of any MCN5 if:
 - (i) such registration would contravene these Terms; or
 - (ii) the Corporations Act or any other law or regulation binding on the Issuer forbids registration.

If the Issuer refuses to register a transfer, the Registrar must give the lodging party notice of the refusal and the reasons for it within 5 Business Days after the date on which notice of the transfer was delivered to it.

12.14. No liability to persons other than Holders

The Issuer is not liable to pay any amount to any person claiming an interest in an MCN5 in connection with that MCN5 other than the Holder.

13. Notices and other communications

13.1. Notices to Holders

All notices and other communications to Holders must be in writing and must be:

- (a) left at the address of or sent by prepaid post (airmail, if appropriate) to the address of the Holder as shown on the Register;
- (b) (if available) issued to Holders through CHESS in accordance with any applicable rules and regulations of CHESS;
- (c) so long as the MCN5 are quoted on ASX, by publication of an announcement on ASX;
- (d) given by an advertisement published in the Australian Financial Review, The Australian or in any other newspaper nationally circulated within Australia;
- (e) sent by email or electronic message to the electronic address (if any) of the Holder as shown on the Register; or
- (f) given in any other way agreed between the Issuer and any Holder (and in agreeing in such way, the Issuer and such Holders may have regard to the dates by which notice is to be given under these Terms).

13.2. Notices to the Issuer or the Trustee

All notices and other communications to the Issuer or the Trustee must be in writing and must be:

- (a) if to the Issuer left at the address, or sent by prepaid post (airmail, if appropriate) to the address, set out below:

Name: Macquarie Group Limited
Address: 50 Martin Place
Sydney NSW 2000
Australia
Attention: Company Secretary

- (b) if to the Trustee, addressed as specified from time to time in accordance with the MCN5 Trust Deed; and
- (c) given in any other way reasonably determined by the Issuer or, in the case of clause 13.2(b), the Trustee and notified to Holders.

For the purposes of this clause 13.2, the Issuer's address for notices and other communications is the address set out above or as otherwise notified by the Issuer to Holders.

13.3. When effective

Communications take effect from the time they are received or taken to be received under clause 13.4 (whichever happens first) unless a later time is specified.

13.4. When taken to be received

Communications are taken to be received:

- (a) if sent by post, the day immediately following the day on which the notice was posted;
- (b) if addressed and transmitted to the Issuer or the Trustee in accordance with clause 13.2, on the Business Day following its transmission;
- (c) if sent by e-mail, to the electronic address in respect of the Holder as specified in accordance with clause 13.1, on the day following its transmission to that electronic address;
- (d) if issued to Holders through CHESS, on the date of the issuance unless the sender receives an automated message that the e-mail has not been delivered;
- (e) if announced on ASX, on the date of the announcement; or
- (f) if published in a newspaper, on the first date that publication has been made in the required newspaper.

13.5. Receipt outside business hours

Despite clauses 13.3 and 13.4, if communications are received or taken to be received under clause 13.4 after 5:00pm in the place of receipt or on a non-Business Day, they are taken to be received at 9:00am in the place of receipt on the next Business Day and take effect from that time unless a later time is specified.

13.6. Effect of failure to give notice

If the Issuer is required to give a notice in relation to any act, matter or determination, the accidental omission to give that notice to a Holder does not invalidate the notice in relation to Holders generally, or affect the validity of that act, matter or determination.

14. Amendment of Terms

14.1. Amendment without consent

Subject to complying with the Corporations Act and all other applicable laws and directives, the Issuer may amend these Terms and the MCN5 Trust Deed, with the prior written approval of APRA (to the extent any such amendment may cause the MCN5 to cease to be Relevant Securities forming part of Eligible Capital) but without the consent of the Holders or the Trustee:

- (a) if the Issuer is of the opinion that the amendment is:
 - (i) of a formal, minor or technical nature;
 - (ii) made to correct any ambiguity or any manifest or proven error;
 - (iii) expedient for the purpose of enabling the MCN5 to be listed for quotation or to retain a listing on any Stock Exchange, to be cleared or settled through any clearing system or to retain clearance and settlement through any clearing system or to be offered for sale, Resold, or subscribed for, under the laws for the time being in force in any place and, in each case, it is otherwise not considered by the Issuer to be materially adverse to the interests of Holders as a whole;
 - (iv) necessary to comply with the provisions of any statute or the requirements of any statutory authority;
 - (v) in respect of any time or notice period stated, required or permitted in respect of any Exchange, as is necessary or appropriate to give effect to such Exchange; or

(vi) made to:

(A) alter the terms of any MCN5:

(aa) to be or otherwise to remain as a Relevant Security forming part of Eligible Capital; or

(ab) to align them with any other Relevant Security eligible for inclusion as Eligible Capital issued after the issue date of such MCN5; or

(B) alter the definition of Relevant Securities on account of the issue (after the date of any MCN5) of any other Relevant Securities forming part of Eligible Capital; or

(C) give effect to any agreement with the Nominated Party to which MCN5 have been Resold; or

(b) if the Issuer is of the opinion that the amendment does not, taken as a whole and in conjunction with all other amendments (if any) made contemporaneously with the amendments, materially adversely affect the interests of Holders as a whole,
