Delivering on medium-term priorities

In August 2019 when Aidan Williams commenced as CEO the following medium-term priorities were set and published for the business.

Medium-term Priorities

Achievements

Investing to double Audinate's engineering and R&D functions over the next two years	 Recruitment of Cambridge team put the business on track for 75% achievement at year end. Full achievement likely pushed back by six months post COVID hiring freeze
Putting in place the business infrastructure platform to support long term growth	 New merchant of record payment infrastructure implemented 1H21 Billing platform and Information Security Framework to be completed in FY21
Developing next generation Dante audio and video software implementations	 Audio largely complete with DEP and IP Core generating material royalties Video software a priority for the new Cambridge team
Making Dante video the technology of choice for OEMs	 Release of first OEM Dante video products expected in FY21 Ongoing progress with further design wins in 1H21 & growing pipeline
Expanding Total Addressable Market with the addition of video & software products	 New Bluetooth & USB C AVIO adaptors released in 1H21 Encouraging signs that COVID has accelerated transition to networked audio in a number of segments

Audinate response to COVID-19

Recap on 2H20 Response

- Additional contract manufacturing established in Malaysia just prior to outbreak
- Q4 US\$ revenue \downarrow 25%
- Qualified for JobKeeper in May circa \$0.2m per month
- Prudent response measures undertaken
 - Downsized headcount and paused near-term recruitment
 - FY20 cash bonuses forfeited and pay freeze implemented
- Ramped up webinars (77) and certification training (40k people)
- Record growth in products & all operational metrics

1H21 Strong Recovery

- \$40m capital raise completed in July & August
- Revenue returns to pre-COVID levels
- Hiring for growth restored
- Cambridge team recruited & other opportunities emerge
- Growing pressure on global chip supplies as demand surges across many industries
- Move to subscription pricing drives a record 51 design wins
- Higher education & corporate conferencing markets experience tailwinds but live sound remains challenging
- Financial metrics restored to pre COVID levels & record levels achieved in operational metrics

"We remain prudently focused on delivering our medium-term strategic priorities whilst positioning Audinate to capitalise on economic recovery when it occurs" *CEO Aidan Williams (20th August 2020)*

FINANCIAL PERFORMANCE

4.04

Increased software sales drives growth in units shipped

- US\$ Revenue growth of >19% from 2H20 with GP margin growing from 75% historically to > 77% due to software growth
- Chips, cards & modules (CCM) includes AVIO adapters
- Software includes royalties, retail software, Dante Embedded Platform, Dante Application Library, Dante Domain Manger (DDM) & IP core
- Audinate invoices customers & pays COGs in USD

- Software revenue growth driven by royalties including DEP & IP Core (>50%) & to a lesser degree retail software sales (40%) and DDM (>50%)
- Significant growth in AVIO adapters (>50%) and good performance from Broadway (>50%) & Ultimo (28%) have partially offset COVID impacted Brooklyn sales
- Trends in units shipped broadly consistent with sales trends

Revenue (US\$M)

Income statement

- Revenue flat in US\$ decline driven by currency impacts
- Gross margin remained consistent at 77%
- Employee expenses was consistent with prior year with headcount increasing from 106 to 116, offset by the prior CEO exit costs (\$0.6m) incurred in 1H20
- Operating expenses decreased due to savings on travel, trade shows and currency impacts
- Depreciation and amortisation increase due to increasing development costs capitalised reflecting expansion of the engineering team
- Income tax expense includes write-off of Australian tax losses

Operating leverage supports increasing investment in R&D

- Operating leverage in the cost base is once again evident as additional revenue drives EBITDA
- Business growth and the recent capital raise allows continued investment
- Ongoing focus on innovation and R&D to maximise future growth opportunities

Drive short term revenue opportunities Further product and pricing initiatives under consideration in 2H21 . Capital raise plus better than expected 1H21 performance allows for • Manage total net cash expenditure continued investing for growth in 2H21

Improved outlook for industry adoption

50% increase in propensity to adopt AV over IP

- System integrators are a key part of the AV industry designing, specifying and installing AV systems for end-users
- Industry surveys show an increasing propensity to adopt AVoIP and more positive business sentiment for CY21
- Encouraging signs that COVID has accelerated transition to networked audio

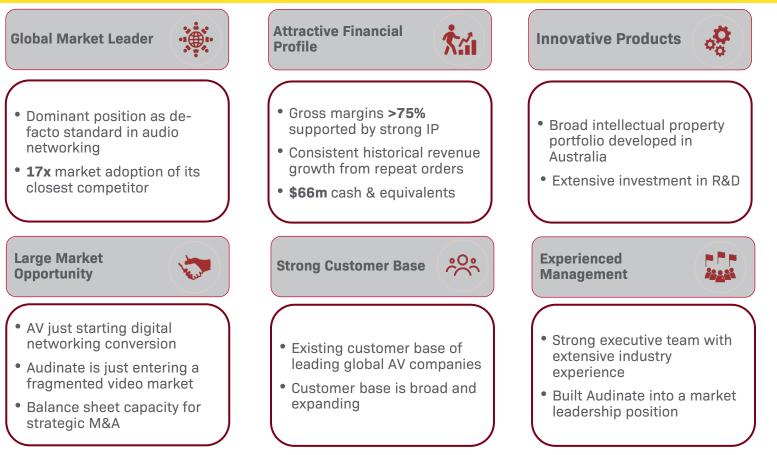

Improved outlook as confidence returns

- Confidence returning amongst OEMs, system integrators and endusers resulting in an improved overall industry outlook for CY21
- COVID related risks remain (including to global supply chains), abating with vaccine roll-out
- Good trading conditions have continued into the beginning of 2H21, albeit that we expect Brooklyn revenue to continue to be impacted by the downturn in live events and live sound
- Accelerated investing for growth, sees a target of headcount of >140 staff (inclusive of Cambridge) by the end of FY21 and a resulting increase in operating costs of between \$2m - \$3m in the second half
- Further trading updates will continue to be provided throughout FY21 given the nature of the trading environment

Appendices

Audinate is driving the transformation of the AV industry

- Networked digital connectivity is replacing traditional, point-to-point analogue cabling in the AV industry
- Software-based AV systems are replacing hardware AV systems, in the next wave of industry transformation
- Transformation analogous to the impact of VOIP on the telecom industry

Audinate Total Addressable Market ('TAM')*

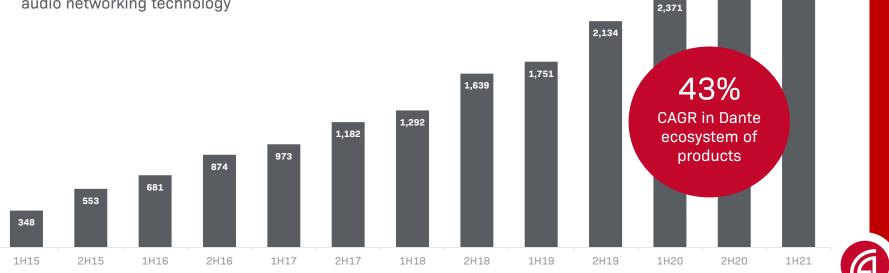

Accelerating OEM adoption: pipeline for growth

During the period the Group added 36 new OEMs brands who are currently developing their first Dante products. A periodic review removed 45 OEM brands who are no longer considered likely to develop a Dante product for a variety of reasons including COVID, acquisition, bankruptcy, cancelled projects etc.

Consistent growth in product ecosystem

- Product ecosystem with over **3,000** Danteenabled products and growing with over **518** OEMs
- 43% CAGR in product ecosystem
- >17x number of products than the next digital audio networking technology

Consoles & Signal

Dante Audio

- Hardware based implementations for a range of product counts and price points
- · Transports uncompressed audio signals across standard computer networks

Dante Adaptors

- · Connects legacy equipment to Dante (mostly analogue)
- · Adds Dante to existing audio products (analogue, USB and AES3)
- · Pulls through other Dante products and software
- · Established a global distribution channel of online retailers and country distributors
 - 80 resellers and growing
 - Strong initial demand with sales performance and repeat orders
- Adapter modules sold direct to **OFMS**

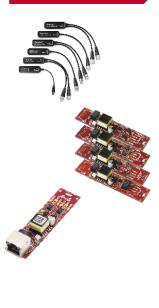

Broadway

- 8 & 16 audio channel counts
- Used in networked Amplifiers and Ceiling Microphones

Ultimo

- 2 & 4 audio channel counts
- Used in networked Speakers and Microphones

Dante Controller

Dante Controller

- · Free system setup tool
 - · Downloadable from Audinate homepage
 - · Registration required
 - Makes virtual wires
 - > 250,000 downloads
- Manages audio and video signals
- Simple & easy to use
 - · Standard industry matrix view
 - Training provided via Dante Certification
- Devices appear automatically
 - · Intuitive device names
 - · No magic numbers, MAC or IP addresses
- Devices remember configuration
 - No need for Dante Controller to remain connected to the network
- Provide performance logs
 - Details of each device on the network for trouble-shooting
- More background on Dante Controller: <u>https://www.audinate.com/products/software/dante-controller</u>

Dante Controller is the free configuration tool integrators use to create the "virtual wiring" between transmitting devices (e.g. microphones) and receiving devices (e.g. speakers)

Software Products

Dante Application Library (DAL)

- Dante for PC/Mac applications
- Simple way for software developers to add Dante to their products
- Launched June 2019, commercially available
- Initial customer with Zoom, conferencing application
- Continue to drive adoption, revenue commenced 1H21

Dante Embedded Platform (DEP)

- Dante for Linux OS, targeting manufacturers (OEMs)
- Supports Intel/x86 & ARM
 processors
- Launched June 2019, commercially available
- Initial customer with QSC (x86)
- Initial partner with Analog Devices, ARM-based DSP chips
- Drive adoption & partnerships, revenue commenced 1H21

Software products enable:

- Wider proliferation, thru lowered marginal cost of adding Dante
- Retro-fit and upgrade of products already in the field

Dante Domain Manager

Dante Domain Manager Complete Network Management System

- Security
 - Usernames/passwords identify users
 - Roles control access to the system
- Scalability
 - Create Dante systems
 spanning campus networks
 - Group Dante devices into logical managed systems
- Visibility
 - Centralise Dante
 system management
 - Monitor system status and changes from anywhere

Management software could more than double the revenue opportunity associated with Audinate's core business
