Overview

The pandemic continued to impact revenue as State Governments introduced restrictions limiting travel activity throughout the half. Most notably a 112-day lockdown in Melbourne and State border closures during the December 2020 holiday period interrupted the rate of recovery.

For the six months ended 31 December 2020 (1H21) A2B recorded revenue of \$50.7 million, down 51.7% (1H20 \$105 million) and recorded a statutory net loss of \$6.2 million (1H20 \$3.6 million profit).

During 1H21 A2B maintained its financial resilience while continuing to invest in product, brand and service and supporting our Operators and Drivers. As at 31 December 2020 A2B's available net cash was \$19.2 million. A2B's \$25 million finance facility remains undrawn.

Unless otherwise stated, half year results disclosed in this review of operations are underlying results from continuing operations excluding significant items. Underlying profit is a non-statutory measure for the purpose of assessing the performance of the Group.

Operational activity

During the half year fleet levels began recovering in all States with the exception of Victoria. Growth of 2.5% or 172 vehicles vs 30 June 2020 was supported by moderate growth in affiliated and bureau fleets. 13cabs expanded its services to Yarram, Broken Hill, Gilgandra, Geraldton and Mandurah through bureau fleets.

Support to Operators and Drivers continued during the half year through reduced network fees. These fees have increased gradually in most States depending on local economic recovery.

In 1H21 taxi fares processed ended at \$228.5 million, down 54.7% vs prior year. Taxi fare volumes experienced a decline of up to 80% in the initial stages of the pandemic in March 2020. The rate of recovery has been fluid since restrictions were lifted initially on 19 April 2020. Initial recovery rates in April 2020 were encouraging until a stage 4 lockdown was imposed in Victoria on 2 August 2020. Throughout 1H21 A2B experienced fluctuations in the rate of recovery as restrictions were implemented and subsequently reversed on a State-by-State basis. However, the quick rate of recovery in Taxi fares processed once restrictions are lifted is encouraging.

Financial results

Revenue reduced by \$54.3 million or 51.7% to \$50.7 million compared to last year. Of this revenue reduction 95% is attributable to \$26 million lower network subscription revenue, \$13.9 million lower Taxi licence plate revenue and \$11.6 million lower Taxi service fee revenue. Revenue has continued to improve gradually month on month since its low point in April 2020.

The revenue reduction of \$54.3 million was partly offset by:

- \$24.3 million or 27.4% reduction in cash expenses, including \$16.2 million or 59.8% reduction in volume cash expenses and \$8.1 million or 13% reduction in non-volume cash expenses
- \$12.2 million in JobKeeper payments
- \$2.2 million of industry support by State Governments

The outlined revenue reduction coupled with cost mitigation measures and additional other income resulted in an EBITDA of \$0.8 million (1H20 \$16.3 million), down \$15.5 million on last year.

Depreciation and amortisation charges ended at \$8.2 million, down \$0.9 million or 9.4%. This reduction is primarily driven by a reduction in depreciation charges on eftpos equipment. Net finance costs ended in line with last year at \$0.7m.

Underlying net loss after tax was \$5.6 million (1H20 \$4.6 million profit) while statutory net loss ended at \$6.2 million (1H20 \$3.6 million profit). Pre-tax underlying adjustments relate to \$0.2 million in MTI employee retention costs and \$0.6 million in employee separation costs.

Cash flow and liquidity

A2B entered the coronavirus period in a strong financial position and with the operational leverage to adapt to a changing environment. Through a disciplined approach to cost and cash preservation A2B maintained this strong financial position without compromising its ability to continue to invest in product development and brand.

In 1H21 A2B generated cash flow from operations of \$0.3 million and incurred capital expenditure of \$3.5 million. As at 31 December 2020 A2B was in a net cash position of \$19.2 million and had access to an undrawn finance facility of \$25 million.

Events subsequent to balance date

There have been no events subsequent to the reporting date that would have a material impact on the Group's consolidated financial statements as at 31 December 2020.

Lead auditor's independence declaration

The lead auditor's independence declaration is set out on page 4 and forms part of the Directors' Report for the half year ended 31 December 2020.

Rounding

The Company is of a kind referred to in ASIC Corporations Instrument 2016/191 (Rounding in Financial/Directors' Reports) and in accordance with that Instrument, amounts in the consolidated financial statements and the Directors' Report have been rounded off to the nearest thousand dollars, unless otherwise stated.

Notes to the consolidated half yearly financial statements

1. Basis of preparation of the consolidated half yearly financial statements

a) Reporting entity

A2B Australia Limited (the "Company") is a for-profit company domiciled in Australia. The Consolidated Half Yearly Financial Statements of the Company as at and for the six months ended 31 December 2020 comprise the Company and its subsidiaries (together referred to as the "Group").

b) Statement of compliance

The consolidated half yearly financial statements are general purpose financial statements which have been prepared in accordance with AASB 134 Interim Financial Reporting and the Corporations Act 2001.

The consolidated half yearly financial statements do not include all of the information required for a full annual financial report and should be read in conjunction with the consolidated annual financial report of the Group as at and for the year ended 30 June 2020.

These consolidated half yearly financial statements were authorised for issue by the board of directors on 25 February 2021.

The Company is of a kind referred to in ASIC Corporations Instrument 2016/191 (Rounding in Financial/Directors' Reports) and in accordance with that Instrument, amounts in the consolidated interim financial statements and the Directors' Report have been rounded off to the nearest thousand dollars, unless otherwise stated.

c) Going concern

During the half year reporting period, ending 31 December 2020, stringent measures were put in place by Government and subsequently reversed. Most notably a 112-day lockdown in Melbourne commencing on 2 August 2020 and State border closures commencing mid-December 2020. In January and February 2021, some State governments in Australia implemented new State based restrictions while others lifted recently introduced restrictions.

Given the fluid nature of the current situation, the Group continues to regularly review forward looking assumptions and economic scenarios. In preparing the financial report the Directors considered the current impact of the COVID-19 pandemic and general economic and business conditions.

During the half-year COVID-19 continued to negatively impact the Group's revenue with total revenue ending \$54 million or 52% below last year. These impacts have been partially mitigated through cost reductions (\$26 million), Government and industry assistance (\$14.4 million) and a range of other initiatives.

As at 31 December 2020 the Group retained its strong financial position with available net cash of \$19.2 million and access to an undrawn finance facility of \$25 million.

Taking into account the Group's strong liquidity position and the current known impacts of the COVID-19 pandemic, the Directors are satisfied that the company will continue as a going concern and realise assets and discharge liabilities in the normal course of business. Accordingly the Directors have prepared the financial statements on this basis.

d) Significant accounting policies

The accounting policies applied by the Group in these consolidated half yearly financial statements are the same as those applied by the Group in its consolidated financial report as at and for year ended 30 June 2020.

e) Estimates

The preparation of consolidated half yearly financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing these consolidated half yearly financial statements, the judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated annual financial report as at and for the year ended 30 June 2020.

2. Revenue and income

The disaggregation of the Group's revenue from contracts with customers are as follows:

	Dec 2020 \$'000	Dec 2019 \$'000

Total turnover

Total turnover does not represent revenue in accordance with Australian Accounting Standards. Total turnover represents the value of Taxi hire charges (fares) paid through the Cabcharge Payment System plus the Cabcharge Payments Taxi service fee plus the Group's revenue from other sources. The Group's credit risk is based on turnover rather than revenue.

	Dec 2020	Dec 2019
	\$'000	\$'000
Total turnover	279,186	609,550

3. Tax expense

Tax expense is recognised based on management's best estimate of the weighted average annual income tax rate expected for the full financial year applied to the pre-tax income of the interim reporting period.

	Dec 2020	Dec 2019
	\$'000	\$'000

Adjustment for prior years	11	40
Income tax (benefit) / expense	(2,559)	1,540

The Group's consolidated effective tax rate in respect of continuing operations for the six months ended 31 December 2020 presents as 29.4% (for the six-months ended 31 December 2019: 30.2%).

4. Business combination

Gold Coast Cabs

In FY20, on 2 July 2019 the Group acquired the business operations and various assets of Gold Coast Cabs ("GCC") for a purchase consideration of \$2.4 million. GCC is the Taxi network and operations business of Regent Taxis Ltd and has been trading for over 80 years on the Gold Coast providing transport services from Coolangatta to Ormeau. The assets of GCC include a 33.3% share in Tweed Heads Coolangatta Taxi Service Pty Ltd ("THCT").

The Group owned a 22.2% share in THCT prior to this acquisition. In accordance with AASB 10, the Group assessed that it had control of THCT on 2 July 2019. The results of the acquired business have been consolidated in the Group results from 2 July 2019.

The Group incurred acquisition related costs of \$145,000 included in general administrative expenses.

Goodwill of \$1,199,000 is attributable to the knowledge and expertise of the workforce, the location of the business acquired and the synergies expected to be achieved. None of the goodwill recognised is expected to be deductible for tax purposes.

The fair value of the identifiable net assets and liabilities acquired as at the date of acquisition were as follows:

	2 July 2019

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia.

We have also fulfilled our other ethical responsibilities in accordance with the Code. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the Directors of A2B Australia Limited, would be in the same terms if given to the Directors as at the time of this Auditor's Review Report.

Responsibilities of the Directors for the Half-year Financial Report

The Directors of the Company are responsible for:

- the preparation of the Half-year Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Half-year Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Half-year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Half-year Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2020 and its performance for the Half-Year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
