## Directors' report (continued)

### Significant changes in the state of affairs

Beginning in January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of a novel coronavirus known as COVID-19. The outbreak of COVID-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. The effects of COVID-19 have and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the Funds' performance.

In the opinion of the directors, there were no other significant changes in the state of affairs of the Funds that occurred during the financial half-year.

### Matters subsequent to the end of the financial half-year

No matter or circumstance has arisen since 31 December 2020 that has significantly affected, or may significantly affect:

- (i) the operations of the Funds in future financial half-years, or
- (ii) the results of those operations in future financial half-years, or
- (iii) the state of affairs of the Funds in future financial half-years.

### Likely developments and expected results of operations

The Funds will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Funds and in accordance with the provisions of the Funds' Constitutions.

The results of the Funds' operations will be affected by a number of factors, including the performance of investment markets in which the Funds invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

The Funds' investment objectives and strategies remain unchanged which are to track the performance of their underlying indexes. Accordingly the future returns of the Funds are dependent on the performance of their underlying indexes.

### Rounding of amounts to the nearest dollar

The Funds are entities of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the Directors' report. Amounts in the Directors' report have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

### Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 6.

This report is made in accordance with a resolution of the directors.

### (a) Significant accounting policies

The significant accounting policies applied in these interim financial statements are the same as those applied to the Funds' financial statements for the year ended 30 June 2020.

### (b) Segment information

Each fund as an individual entity is organised into one main segment which operates solely in the business of investment management within Australia.

The Funds operate in Australia and hold investments in Australia.

### (c) Changes in accounting standards

There were no new standards, interpretations or amendments to existing standards effective for the first time for the half-year beginning 1 July 2020 that had a material impact on the amounts recognised in financial statements. There are no new accounting standards, interpretations or amendments to existing standards that have been issued, but not yet effective, that are expected to be material to the financial statements or have been early adopted for the 31 December 2020 reporting period.

### (d) Interim measurement

The nature of the Funds' operations is such that income and expenses are incurred in a manner which is not impacted by any form of seasonality.

This interim report is prepared based upon an accrual concept, which requires income and expenses to be recorded as earned or incurred and not as received or paid throughout the period.

The Responsible Entity of the Funds is State Street Global Advisors, Australia Services Limited (the "Responsible Entity"). The Responsible Entity's registered office is Level 14, 420 George Street, Sydney, NSW 2000.

## 1 Basis of preparation of interim report (continued)

### (d) Interim measurement (continued)

This interim report was authorised for issue by the directors on 24 February 2021. The directors of the Responsible Entity have the power to amend and reissue the interim report.

There have been no changes in the risk management policies and processes of the Funds since year end.

A copy of the 30 June 2020 Annual Report containing detail of the accounting policies and other disclosures can be found at [www.ssga.com/au](http://www.ssga.com/au).

### (e) Comparative revisions

Comparative information has been revised where appropriate to enhance comparability. Where necessary, comparative figures have been adjusted to conform with changes in presentation in the current half-year.

## 2 Fair value measurement

The Funds measure and recognise Financial assets / liabilities at fair value through profit or loss (see note 3 and 4) on a recurring basis.

The Funds have no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

### (i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their last traded prices at the end of the reporting period without any deduction for estimated future selling costs.

The Funds value their investments in accordance with the accounting policies set out in notes to the financial statements as at 30 June 2020.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

### (ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

## 2 Fair value measurement (continued)

### (ii) Valuation techniques used to derive level 2 and level 3 fair value (continued)

The fair value of derivatives that are not exchange traded is estimated at the amount that the Funds would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Funds hold. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

### Recognised fair value measurement

The tables below set out the Funds' financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 31 December 2020 and 30 June 2020.

#### (iii) Valuation processes

Portfolio reviews are undertaken regularly by management to identify securities that potentially may not be actively traded or have stale security pricing. This process identifies securities which possibly could be regarded as being level 3 securities. Further analysis, should it be required, is undertaken to determine the accounting significance of the identification. For certain security types, in selecting the most appropriate valuation model, management performs back testing and considers actual market transactions. Changes in allocation to or from level 3 are analysed at the end of each reporting period.

#### (iv) Fair values of other financial instruments

The Funds did not hold any financial instruments which were not measured at fair value in the Statements of financial position. Due to their short-term nature, the carrying amounts of margin accounts, receivables and payables are assumed to approximate fair value.

## Report on the Half-Year Financial Report

### Conclusion

We have reviewed the accompanying half-year financial report of SPDR Australian Equities ETFs (the Funds), which comprises the statements of financial position as at 31 December 2020, the statements of comprehensive income, statements of changes in equity and statements of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the Directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of the Funds is not in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Funds' financial position as at 31 December 2020 and of their financial performance for the half-year ended on that date; and
- b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

### Directors' Responsibility for the Half-Year Financial Report

The directors of the Responsible Entity of the Funds are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Funds' financial position as at 31 December 2020 and their financial performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Funds ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
