SMS Innovative Mining Pty Ltd receivable update

The Company refers to the previous ASX announcements made on 15 July 2019 and 12 February 2021 which respectively confirmed award of and subsequent termination of a material drill and blast contract.

The contract was between the Company's wholly owned subsidiary Mitchell Operations Pty Ltd (MO) and SMS Innovative Mining Pty Ltd (SMS). The decision to terminate was reached on the basis that SMS had continually failed to pay invoices that were due and owing to MO pursuant to the terms of the contract and today the Company provides the following update.

A statutory letter of demand was served by MO on SMS on 10 February 2021 for the full amount of all invoices that were due and owing as at the date of the demand, being \$6.2m. The total amount of all unpaid invoices (not necessarily due and owing yet) is approximately \$9.3m post demobilisation from site. SMS has now made an application to set aside the statutory demand alleging there is a dispute as to the existence of the debt and asserting an offsetting claim. The application will be heard in the Melbourne Supreme Court on 10 March 2021.

The Company will continue to vigorously pursue the outstanding debt owed to it by SMS.
