Significant changes in the state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Funds that occurred during the financial half-year.

Matters subsequent to the end of the financial half-year

No matter or circumstance has arisen since 31 December 2020 that has significantly affected, or may significantly affect:

- (i) the operations of the Funds in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Funds in future financial years.

Likely developments and expected results of operations

The Funds will continue to be managed in accordance with the investment objectives and guidelines as set out in the Funds' PDS and in accordance with the provisions of the Funds' Constitutions.

The results of the Funds' operations will be affected by a number of factors, including the performance of the investment markets in which the Funds invest, which will be affected by each market's reaction to the continuing COVID-19 pandemic. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

The future returns are dependent upon the performance of the Underlying Index. The Funds' investment objective and strategy remains unchanged which is to track the performance of the Underlying Index.

Directors' report (continued)

Indemnity and insurance of officers

No insurance premiums are paid for out of the assets of the Funds in regards to insurance cover provided to either the officers of the Responsible Entity or the auditors of the Funds. So long as the officers of the Responsible Entity act in accordance with the Funds' Constitutions and the Law, the officers remain indemnified out of the assets of the Funds against losses incurred while acting on behalf of the Funds.

Indemnity of auditors

The auditors of the Funds are in no way indemnified out of the assets of the Funds.

Proceedings on behalf of the Funds

No person has applied for leave of Court to bring proceedings on behalf of the Funds or intervene in any proceedings to which the Funds is a party for the purpose of taking responsibility on behalf of the Funds for all or any part of those proceedings.

The Funds were not a party to any such proceedings during the half-year.

Environmental regulation

The operations of the Funds are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Rounding of amounts to the nearest thousand dollars

The Funds are entities of a kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the Directors' report. Amounts in the Directors' report have been rounded to the nearest thousand dollars in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 7.

This report is made in accordance with a resolution of the directors.

Auditor's Independence Declaration to the Directors of VanEck Investments Limited, as Responsible Entity for VanEck Vectors Global Equity ETFs

For the following VanEck Vectors Global Equity ETFs (collectively the "Funds"):

- VanEck Vectors MSCI World ex Australia Quality ETF
- VanEck Vectors FTSE Global Infrastructure (Hedged) ETF
- VanEck Vectors MSCI International Sustainable Equity ETF
- VanEck Vectors MSCI Multifactor Emerging Markets Equity ETF
- VanEck Vectors China New Economy ETF
- VanEck Vectors FTSE China A50 ETF
- VanEck Vectors Gold Miners ETF
- VanEck Vectors Morningstar Wide Moat ETF
- VanEck Vectors MSCI World ex Australia Quality (Hedged) ETF
- VanEck Vectors FTSE International Property (Hedged) ETF

As lead auditor for the review of the half-year financial report of the Funds for the half-year ended 31 December 2020, I declare to the best of my knowledge and belief, there have been:

- a) No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- b) No contraventions of any applicable code of professional conduct in relation to the review.

VanEck Vectors MSCI World ex Australia Quality ETF was constituted on 12 September 2014 and started trading on ASX on 31 October 2014.

VanEck Vectors FTSE Global Infrastructure (Hedged) ETF was constituted on 16 March 2016 and started trading on ASX on 3 May 2016.

VanEck Vectors MSCI International Sustainable Equity ETF was constituted on 13 October 2017 and started trading on ASX on 8 March 2018.

VanEck Vectors MSCI Multifactor Emerging Markets Equity ETF was constituted on 13 October 2017 and started trading on ASX on 12 April 2018.

VanEck Vectors China New Economy ETF was constituted on 3 September 2018 and started trading on ASX on 9 November 2018.

VanEck Vectors FTSE China A50 ETF was constituted on 27 June 2019 and started trading on ASX on 9 October 2019.

VanEck Vectors Gold Miners ETF was constituted on 27 June 2019 and started trading on ASX on 9 October 2019.

VanEck Vectors Morningstar Wide Moat ETF was constituted on 27 June 2019 and started trading on ASX on 9 October 2019.

VanEck Vectors MSCI World ex Australia Quality (Hedged) ETF was constituted on 15 February 2019 and started trading on ASX on 25 March 2019.

VanEck Vectors FTSE International Property (Hedged) ETF was constituted on 7 February 2019 and started trading on ASX on 2 April 2019.

The Funds will terminate in accordance with the provisions of the Funds' Constitutions.

The Responsible Entity of the Funds is VanEck Investments Limited (the "Responsible Entity"). The Responsible Entity's registered office is Aurora Place, Level 4, Suite 3, 88 Phillip Street, Sydney, NSW, Australia, 2000.

These financial statements are presented in Australian dollars, which is the Funds' functional and presentation currency.

The financial statements were authorised for issue by the directors on 10 March 2021. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

The custodian and administrator of the Funds is State Street Australia Limited (the "Custodian"). The ultimate holding company of the Custodian is State Street Corporation (incorporated in the United States of America).

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied throughout the period presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards AASB 134 Interim Financial Reporting and Interpretations issued by the Australian Accounting Standards Board ("AASB") and the Corporations Act 2001 in Australia. Compliance with AASB 134 ensures compliance with International Financial Reporting Standards IAS 34 Interim Financial Reporting.

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

The Funds are for-profit funds for the purpose of preparing the financial statements.

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Statements of financial position are presented on a liquidity basis.

Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets at fair value through profit or loss and net assets attributable to unitholders.

The Funds manage financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within twelve months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unitholders, the units are redeemable on demand at the unitholders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within twelve months cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards (IFRS)

The financial statements of the Funds also comply with IFRS as issued by the International Accounting Standards Board (IASB).

(b) Financial instruments

(i) Recognition/derecognition

The Funds recognise financial assets and financial liabilities on the date it becomes party to the contractual agreement (trade date) and recognise changes in fair value of the financial assets or financial liabilities from this date. Financial assets are derecognised when the right to receive cash flows from the investments have expired or the Funds has transferred substantially all risks and rewards of ownership.

(ii) Classification

The Funds classify its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

Financial assets

The Funds classify its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The entity's business model for managing the financial assets
- The contractual cash flow characteristics of the financial asset

Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Funds include in this category short-term non-financing receivables.

Financial assets measured at fair value through profit or loss (FVPL)

A financial asset is measured at fair value through profit or loss if:

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(ii) Classification (continued)

- Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding;
- It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell; or
- At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The equity securities are mandatorily classified as fair value through profit or loss.

In applying that classification, a financial asset or financial liability is considered to be held for trading if it is:

- acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- on initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

Financial liabilities

Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured at fair value through profit or loss. The Funds include in this category short-term payables.

Financial liabilities measured at FVPL

A financial liability is measured at FVPL if it meets the definition of held for trading. Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Funds that are not designated as hedging instruments in hedge relationships as defined. The Funds include in this category derivative contracts in a liability position.

The derivatives are mandatorily classified as fair value through profit or loss.

(iii) Measurement

Financial assets and financial liabilities at fair value through profit or loss are recorded in the Statement of financial position initially at fair value. All transaction costs for such instruments are recognised directly in the Statement of comprehensive income. Financial assets and liabilities, other than those classified as FVPL, are initially measured at fair value adjusted by transaction costs and subsequently measured using the effective interest rate method less impairment losses for financial assets, if any

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of comprehensive income in the period in which they arise.

2 Summary of significant accounting policies (continued)

(b) Financial instruments (continued)

(iii) Measurement (continued)

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets is subsequently based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs. The quoted market price used for financial assets and liabilities held by the Funds is the last traded price.

The fair value of financial assets and liabilities that are not traded in an active market are determined using valuation techniques. The Funds uses a variety of methods and makes assumptions that are based on market conditions existing at each reporting date. Valuation techniques used include the use of comparable recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, option pricing models and other valuation techniques commonly used by market participants making the maximum use of market inputs and relying as little as possible on entity-specific inputs. Further details on how the fair values of financial instruments are determined are disclosed in note 3.

(iv) Impairment of Financial assets

The Funds holds only cash and cash equivalents, receivables and due from brokers with no financing component and which have maturities of less than 12 months at amortised cost and, as such, has chosen to apply the simplified approach for expected credit losses (ECL) under AASB 9. Therefore, the Funds does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date

(c) Significant accounting policies

The significant accounting policies adopted in the preparation of these financial statements are consistent with those applied in the preparation of the Funds' financial statements for the year ended 30 June 2020.

There are no other standards, interpretations or amendments to existing standards that are effective for the first time for the half-year beginning 1 July 2020 that have a material impact on the amounts recognised in the prior periods or will affect the current or future periods.

(d) Significant accounting judgements and estimates

The preparation of the Funds' financial statements requires management to make judgements, estimates and assumptions that affect the amounts recognised in the financial statements. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

The significant accounting policies have been consistently applied in the current financial period and the comparative period, unless otherwise stated.

(e) Redeemable participating units

Units are classified as equity. Notwithstanding the obligation of the Funds to redeem the units at the unitholder's option, the Responsible Entity considers the Units to meet the requirements for equity classification within AASB 132.16A and B. The Constitution states that the distributions are at the discretion of directors. The units can be put back to the Funds at any time for cash based on the redemption price. The fair value of redeemable units is measured at the redemption amount that is payable (based on the redemption unit price) at the end of the reporting period if unitholders exercised their right to redeem the units in the Funds.

2 Summary of significant accounting policies (continued)

(f) Capital management

The Responsible Entity manages its net assets attributable to unitholders as equity. The amount of the net assets attributable to unitholders can change significantly on a basis as the Funds are subject to daily applications and redemptions at the discretion of unitholders.

The Responsible Entity monitors the level of daily applications and redemptions relative to the liquid assets in the Funds.

In order to maintain or adjust the capital structure, the Responsible Entity may return capital to unitholders. The Funds are not subject to any externally imposed capital requirements.

(g) Cash and cash equivalents

For the purpose of presentation in the Statements of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are classified as liabilities in the Statements of financial position.

Cash and cash equivalents are measured at amortised cost using the effective interest rate method, reduced by impairment losses.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Funds' main income generating activity.

(h) Investment income

Interest income is recognised in the Statements of comprehensive income using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Funds estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, including transaction costs and all other premiums or discounts.

Dividend and distribution income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense. The Funds currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the Statements of comprehensive income.

Net changes in fair value of financial assets and liabilities at fair value through profit or loss are recognised as income and are determined as the difference between the fair value at the balance date or consideration received (if sold during the financial year) and the fair value as the prior balance date or initial fair value (if acquired during the financial year). This includes both realised and unrealised gains and losses, but does not include interest or dividend income.

(i) Expenses

All expenses are recognised in the Statements of comprehensive income on an accruals basis.

(j) Income tax

Under current legislation, the Funds are not subject to income tax as the income tax liability is attributed to unitholders under the AMIT regime.

The benefits of tax credits paid are passed on to unitholders.

2 Summary of significant accounting policies (continued)

(j) Income tax (continued)

The Funds currently incurs withholding tax imposed by certain countries on investment income. Such income is recorded gross of withholding tax in the Statements of comprehensive income.

(k) Distributions

In accordance with the Funds' Constitutions, the Funds usually pay a distribution on an annual or quarterly basis. The distributions to unitholders are recognised in the Statements of changes in equity.

(l) Foreign currency translation

(i) Functional and presentation currency

Items included in the Funds' financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Funds compete for funds and are regulated. The Australian dollar is also the Funds' presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year/reporting period end exchange rates, of monetary assets and liabilities denominated in foreign currencies are recognised in the Statements of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities carried at fair value are reported in the Statements of comprehensive income on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

(m) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered as at period end. Trades are recorded on trade date, and for equities, normally settled within three business days.

(n) Receivables

Receivables may include amounts for dividends, trust distributions, interest and applications received for units in the Funds.

Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of the reporting period from the time of last payment. Amounts are generally received within 30 days of being recorded as receivables.

(o) Payables

Payables include liabilities and accrued expenses owed by the Funds which are unpaid as at the end of the reporting period.

The distribution amount payable to unitholders as at the end of the reporting period is recognised separately on the Statements of financial position as unitholders are presently entitled to the distributable income under the Funds' Constitution.

2 Summary of significant accounting policies (continued)

(p) Applications and redemptions

Application amounts can be paid by cash or in the form of a parcel of prescribed securities transferred to the Responsible Entity's custodian. The parcel of securities related to in-specie applications generally reflect the characteristics of the Funds. Investors may purchase units by trading on ASX.

Unitholders can only redeem units if they are "Authorised Participants", as defined in the Funds' product disclosure statement. Units can be sold by trading on ASX.

Unit prices are determined by reference to the net assets of the Funds divided by the number of units on issue. For unit pricing purposes, net assets are determined using the last reported trade price for securities. These prices may differ from the market.

(q) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Funds by third parties such as management, administration and custodian services where applicable have been passed onto the Funds. The Funds qualify for Reduced Input Tax Credits (RITC) at a rate of at least 55%. Hence, fees for these services and any other expenses have been recognised in the Statements of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office (ATO). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the Statements of financial position. Cash flows relating to GST are included in the Statements of cash flows on a gross basis.

(r) Use of estimates

The Funds may make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For certain other financial instruments, including amounts due from/to brokers, accounts payable and accrued expenses, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments.

(s) Derivative financial instruments

The Funds use derivative financial instruments such as forward currency contracts to economically hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently remeasured at fair value with movements through profit or loss. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

(t) New accounting standards and interpretations not yet adopted

There are no standards that are not yet effective and that are expected to have a material impact on the Funds in the current or future reporting periods and on foreseeable future transactions.

(u) Rounding of amounts

The Funds are entities of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest thousand dollars in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

3 Fair value measurement

The Funds measure and recognise the following assets and liabilities at fair value on a recurring basis:

- Financial assets / liabilities at fair value through profit or loss (see note 4 and note 5)
- Derivative financial instruments

The Funds have no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3)

(i) Fair value in an active market (level 1)

The fair value of financial assets and liabilities traded in active markets is based on their quoted market prices at the end of the reporting period without any deduction for estimated future selling costs.

The Funds value their investments in accordance with the accounting policies set out in note 2 to the annual financial statements.

The quoted market price used for financial assets held by the Funds are the last traded price; the appropriate quoted market price for financial liabilities is the last traded price. When the Funds hold derivatives with offsetting market risks, they use mid-market prices as a basis for establishing fair values for the offsetting risk positions and apply this last traded price to the net open position, as appropriate.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) Valuation techniques used to derive level 2 and level 3 fair value

The fair value of financial assets and liabilities that are not traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Funds would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Funds hold. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

The Funds' policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

(i) Transfers between levels

There were no transfers between the levels in the fair value hierarchy for the half-year ended 31 December 2020 and year/period ended 30 June 2020. There were also no changes made to any of the valuation techniques applied as at 31 December 2020.

(ii) Fair value measurements using significant unobservable inputs (level 3)

The Funds did not hold any financial instruments with fair value measurements using significant unobservable inputs during the half year ended 31 December 2020 or year/period ended 30 June 2020.

(iii) Fair values of other financial instruments

Due to their short-term nature, the carrying amounts of receivables and payables are assumed to approximate fair value.

As stipulated within the Funds' Constitutions, a unit confers an equal undivided, vested, and indefeasible interest in the assets as a whole, subject to the liabilities. There are no separate classes of units and each unit has the same rights attaching to it as all other units of the Funds.

6 Units in issue (continued)

Capital risk management

The amount of net assets attributable to unitholders can change significantly on a daily basis as the Funds are subject to daily applications and redemptions at the discretion of unitholders.

Daily applications and redemptions are reviewed relative to the liquidity of the Funds' underlying assets on a daily basis by the Responsible Entity. Under the terms of the Funds' Constitutions, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders.

7 Distributions to unitholders

8 Events occurring after the reporting period

No significant events have occurred since the end of the reporting period which would impact on the financial position of the Funds disclosed in the Statements of financial position as at 31 December 2020 or on the results and cash flows of the Funds for the half-year ended on that date.

9 Contingent assets and liabilities and commitments

There are no outstanding contingent assets, liabilities or commitments as at 31 December 2020 and 30 June 2020.

Directors' declaration

In the opinion of the directors of the Responsible Entity:

- (a) the interim financial statements and notes set out on pages 8 to 48 are in accordance with the *Corporations Act 2001*, including:
 - (i) complying with Australian Accounting Standards, the *Corporations Regulations 2001* and other mandatory professional reporting requirements; and
 - (ii) giving a true and fair view of the Funds' financial position as at 31 December 2020 and of its performance for the half-year ended on that date; and
- (b) there are reasonable grounds to believe that the Funds will be able to pay their debts as and when they become due and payable.
- (c) Note 2(a) confirms that the financial statements also comply with the International Financial Reporting Standards IAS 34 *Interim Financial Reporting* as issued by the International Accounting Standards Board.

This declaration is made in accordance with a resolution of the directors.

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of the Funds, which comprises the statement of financial position as at 31 December 2020, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year financial report of the Funds is not in accordance with the *Corporations Act 2001*, including:

- a) Giving a true and fair view of the Funds' financial position as at 31 December 2020 and of its financial performance for the half-year ended on that date; and
- b) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Directors' Responsibility for the Half-Year Financial Report

The directors of VanEck Investments Limited, the Responsible Entity of the Funds, are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

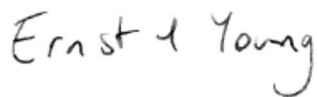

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Funds' financial position as at 31 December 2020 and its financial performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of the Funds, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
