During Q3 the Company has opened new markets in Africa on the back of this new service and initial sales contributed strongly to the Q3 result. This is expected to continue into Q4 and beyond when the Company will take the service to market in all other regions.
- The Company has been engaged throughout Q3 in joint development with Level 1 partner SHELT Global of a new advanced detection and response offering to be marketed as FirstCloud **CyberCision**. This offering is now ready for release and initially will build on the Company's current threat prevention capabilities for email but by the end of the calendar year the plan is to have also applied CyberCision to the Company's web, firewall and endpoint protection services.
- Other new service developments in Q3 included a multi-tenant firewall service based on Palo Alto Network technology (MT PAN) integrated onto the Company's unique Cloud Content

Security Platform (CCSP) to be released in early Q4 through the Company's partner Vodafone Idea (Vi) in India.

- The Company signed a one-year extension of its Product and Services Agreement (PSA) with Telstra that now runs until the end of February 2022.

    - Dimension Data Systems, one of Africa's leading technology services companies and part of the global NTT Group, and
  - an increase in the number of billing partners from 46 at the end of Q2 to 49 at the end of Q3, up from 26 at the start of the financial year.

#### **Cash Flow Highlights:**

- The cash used in the quarter was \$0.98m down 76.6% compared to \$4.19m in Q2. The main drivers for the improved performance were:
  - \$2.06m received in Government R&D grants.
  - Receipts from customers of \$742k up from \$75k in the previous quarter. This is still a long way short of the quarterly revenues due primarily to the removal and subsequent unwinding of the Telstra prepayment facility.
  - There was \$168k collected from exercised sub underwriter options and there remained \$793k in unexercised sub underwriter options at the end of the quarter.
  - Other items remained broadly in line with previous quarters.

As detailed in Item 6.1 of the accompanying Appendix 4C, the Company paid \$85.7k in relation to Directors' fees and associated superannuation.

The company has scheduled an update on FY21 Q3 performance via Teleconference at 9am (AEST) Friday, 30 April 2021. The presentation for this update will be uploaded to the ASX website prior to the teleconference.
