

## **Suspension date extension**

K2 Energy Limited (“K2”) advises that ASX granted an extension of the suspension date for the quotation of its securities on ASX for two months until 7 July 2021, for the purpose of facilitating KTE’s delisting from the official list of ASX.

K2 has made an application to be admitted to the Official List of the National Stock Exchange of Australia Limited (“NSX”) and for the quotation of its shares on the NSX and will further update shareholders once the outcome of that application is known.

ASX has advised that KTE’s securities will be suspended from trading on 7 July 2021, regardless of the application for admission to the official list of NSX not being finalised.
