Peter King

Chief Executive Officer

1H21 Results – Overview.

Good progress on strategic priorities

- Mortgages – on track for major bank system growth in 2H21
- Simplifying portfolio – 3 more sales
- Cost reset commenced
- CORE program expanded – financial and non-financial risk

Earnings

- Cash earnings \$3.5bn, up \$1.9bn
- Cash ROE 10%
- Economy significantly better than expected last year

Balance sheet strength

- Asset quality metrics improved
- CET1 capital ratio at 12.34%
- 1H21 dividend of 58 cents per share – 60% payout

1H21 Earnings snapshot.

	1H20	2H20	1H21	Change 1H21-2H20	Change 1H21-1H20
Reported net profit	\$1,190m	\$1,100m	\$3,443m	213%	189%
Cash earnings ¹	\$993m	\$1,615m	\$3,537m	119%	256%
Impairment (charge)/benefit	(\$2,238m)	(\$940m)	\$372m	na	na
Cash EPS ²	27.7c	44.7c	97.1c	117%	251%
Return on equity ^{3,4}	2.9%	4.7%	10.2%	5.5ppts	7.3ppts
Dividend per share	-	31cps	58cps	87%	na
Cash earnings excluding notable items⁵					
Core earnings	\$5,771m	\$5,100m	\$5,120m	-	(11%)
Cash earnings ¹	\$2,392m	\$2,835m	\$3,819m	35%	60%
Cash EPS ²	66.8c	78.5c	104.8c	34%	57%
Return on equity ^{3,4}	7.1%	8.3%	11.0%	2.7ppts	3.9ppts

¹ Cash earnings is a measure of profit generated from ongoing operations for further detail see page 35 and 109. ² Cash EPS is cash earnings divided by weighted average ordinary shares. ³ Return on equity is cash earnings divided by average ordinary equity. ⁴ Cash earnings basis. ⁵ References to notable items in this slide include provisions related to AUSTRAC proceedings; estimated customer refunds, costs and litigation; write-down of intangible items; and asset sales/revaluations.

Refreshed executive team and new operating model.

Our strategy.

Purpose

Helping Australians and New Zealanders Succeed

Markets, products, customers

Banking for consumer, business and institutional customers

FIX

Address outstanding issues

- Risk management
- Risk culture
- Customer remediation & pain points
- IT complexity

Priorities

SIMPLIFY

Streamline & focus the business

- Exit non-core businesses and consolidate international
- Reduce products, simplify customer offers
- Lines of Business operating model
- Transform using digital and data to enhance the customer experience

PERFORM

Sustainable long-term returns

- Customer service – market leading
- Growth in key markets
- Reset cost base
- Enhance returns, optimise capital
- Strong balance sheet

Values HELPS

Helpful

Ethical

Leading Change

Performing

Simple

Fix.

Risk management and culture

Capability and capacity

- Added over 100 resources for credit decisioning, risk reporting and stress testing

CORE¹ Program

- Integrated plan approved by APRA 7 April
- 19 Workstreams, clear accountability
- Multi-year timeframe – quarterly assurance reporting, published each half

¹ CORE is customer outcomes and risk excellence.

Financial crime program

Capability and capacity

- 60% increase in team
- More than doubled people investigating and reporting on financial crime

Progress

- Addressed matters identified in the AUSTRAC Statement of Claim
- Upgraded risk assessment methodologies and monitoring solutions
- 250% increase in customer reviews – assessing high risks more frequently

Simplify.

Portfolio and Geographic simplification

Business sold	Announced	Completion targeted
Zip Co Ltd.	Oct 2020	Oct 2020
Vendor Finance	Aug 2020	Aug 2021
Westpac Pacific	Dec 2020	Dec 2021
General Insurance	Dec 2020	Sep 2021
Westpac LMI	Mar 2021	Sep 2021

Businesses to be sold

Westpac Life Insurance

Auto Finance

Superannuation, Platforms and Investments

Customers

- New Westpac app - faster and simpler
- Bringing 1,000 roles (including voice) back to Australia ~50% complete
- Removed over 100 consumer fees
- Combined Consumer & Business Banking leadership to
 - Simplify support
 - Better utilise shared assets
 - Improve the customer experience

Geographic

- Closing five Asian offices – Mumbai and Jakarta complete
- Offshore locations: London, New York, Singapore. Opening in Frankfurt

Perform – Mortgages, change via Lines of Business.

Simplify processes

- Reduced forms and documents by 80
- 60 process and policy changes

Enhance credit decisioning

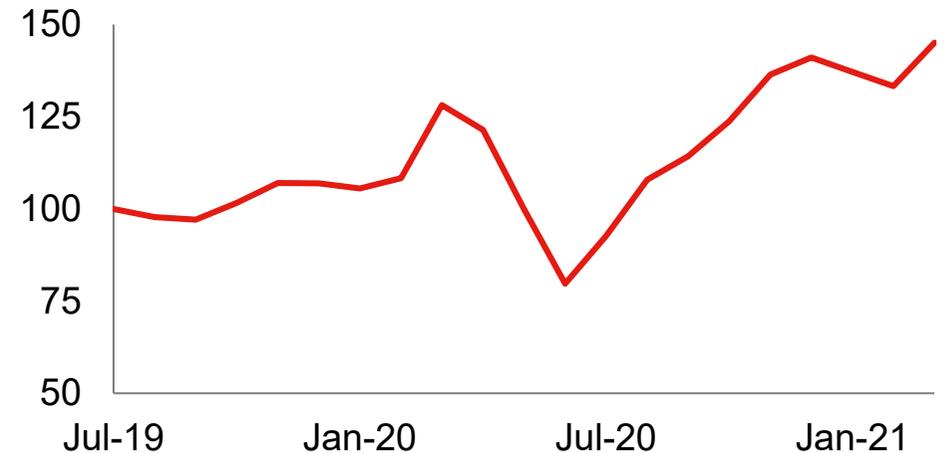

- ~68% of mortgages are credit auto-decisioned

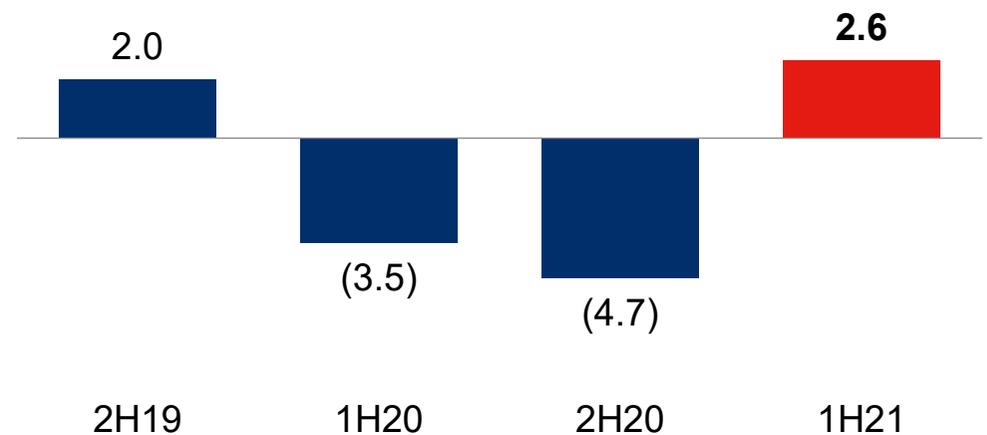

Increase digitisation

- ~70% of customers² accepting mortgage documents digitally
- First party digital origination process rolled out³
third party origination in pilot

Rolling quarterly mortgage applications¹
(indexed July-19 = 100)

Australian gross mortgage movement (\$bn)

¹ Indexed to 31 July 2019. ² 1st party mortgages originated via the new mortgage origination platform. ³ 1st party mortgages only. Excludes RAMS, Business Bank and Private Wealth.

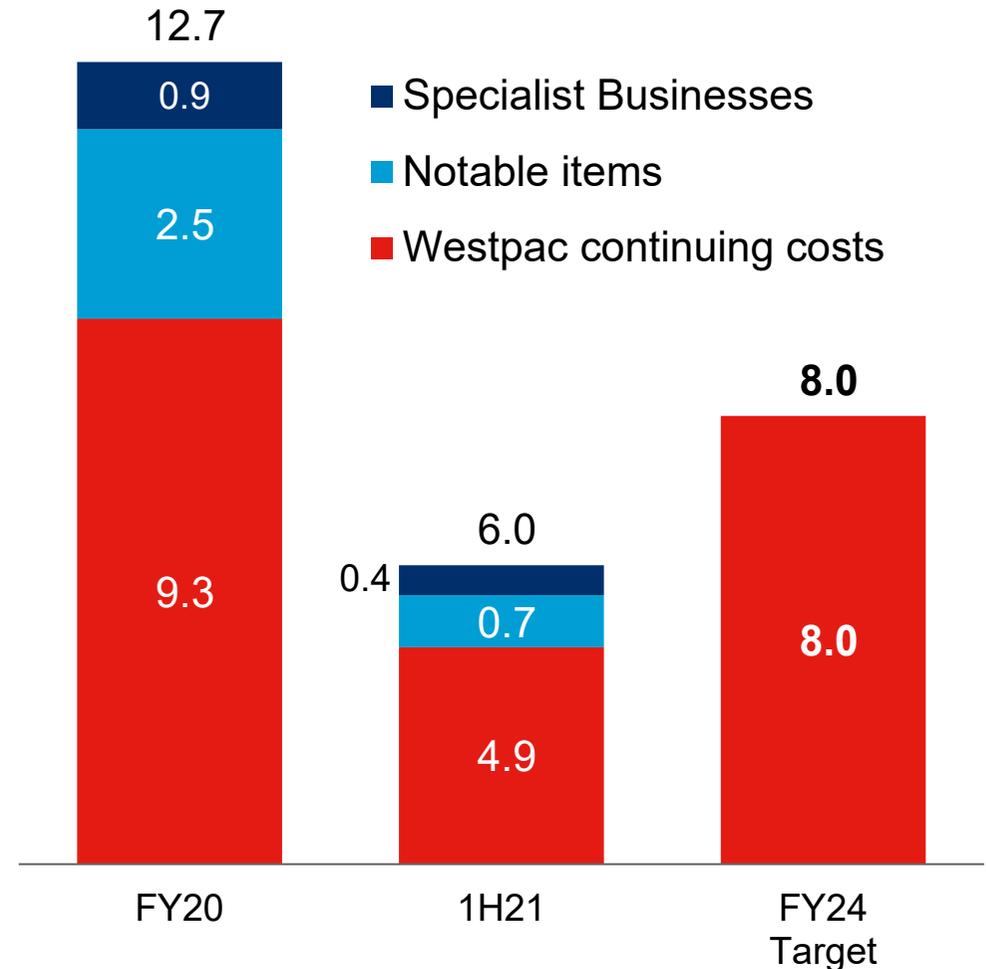

Perform – competitive cost base.¹

Targeting \$8bn by FY24. Continued investment – \$3.5-\$4bn over 3 years.

- Targeting a cost base of \$8bn by FY24
- Targets embedded in leader scorecards
- Expect to invest \$3.5bn to \$4bn over 3 years
- Sources of improvement
 - Investment in Fix initiatives to reduce notable items
 - Exit Specialist Businesses
 - Simplify the business, improve processes and digitise
 - Smaller head office

Expenses (\$bn)²

¹ This page contains 'forward-looking statements' and statements of expectation. Please refer to the disclaimer on page 117. ² Future periods exclude potential notable items. References to notable items include provisions related to AUSTRAC proceedings; estimated customer refunds, costs and litigation; write-down of intangible items; and asset sales/revaluations. Includes Westpac New Zealand.

1H21 fully franked dividend - 58 cps.

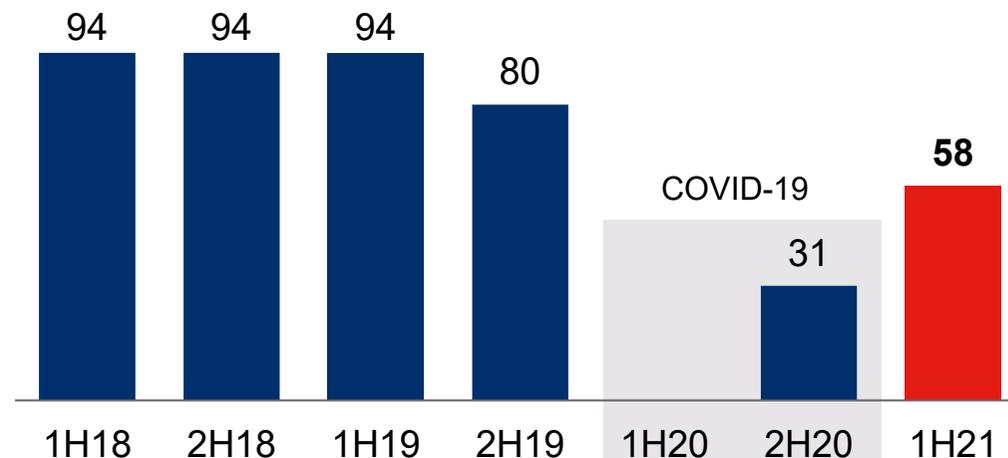

Dividend considerations

- Medium term outlook for return and growth
- Sustainable payout ratio ~60-65%
- Dividend yield 4.8%¹
- Seek to neutralise DRP (arrange to purchase shares on market), no discount on DRP market price

Capital considerations

- Well above APRA's CET1 "unquestionably strong" capital ratio
- Announced sales – 32bps
- Will reset preferred CET1 operating range once capital rules finalised

Dividends per ordinary share (cents)

Dividend payout ratio (%)

	Historic payout (FY17 – FY19) ²	1H21
Cash earnings	83	60
Effective (after DRP)	67	60
Cash earnings (ex notable items) ³	77	56

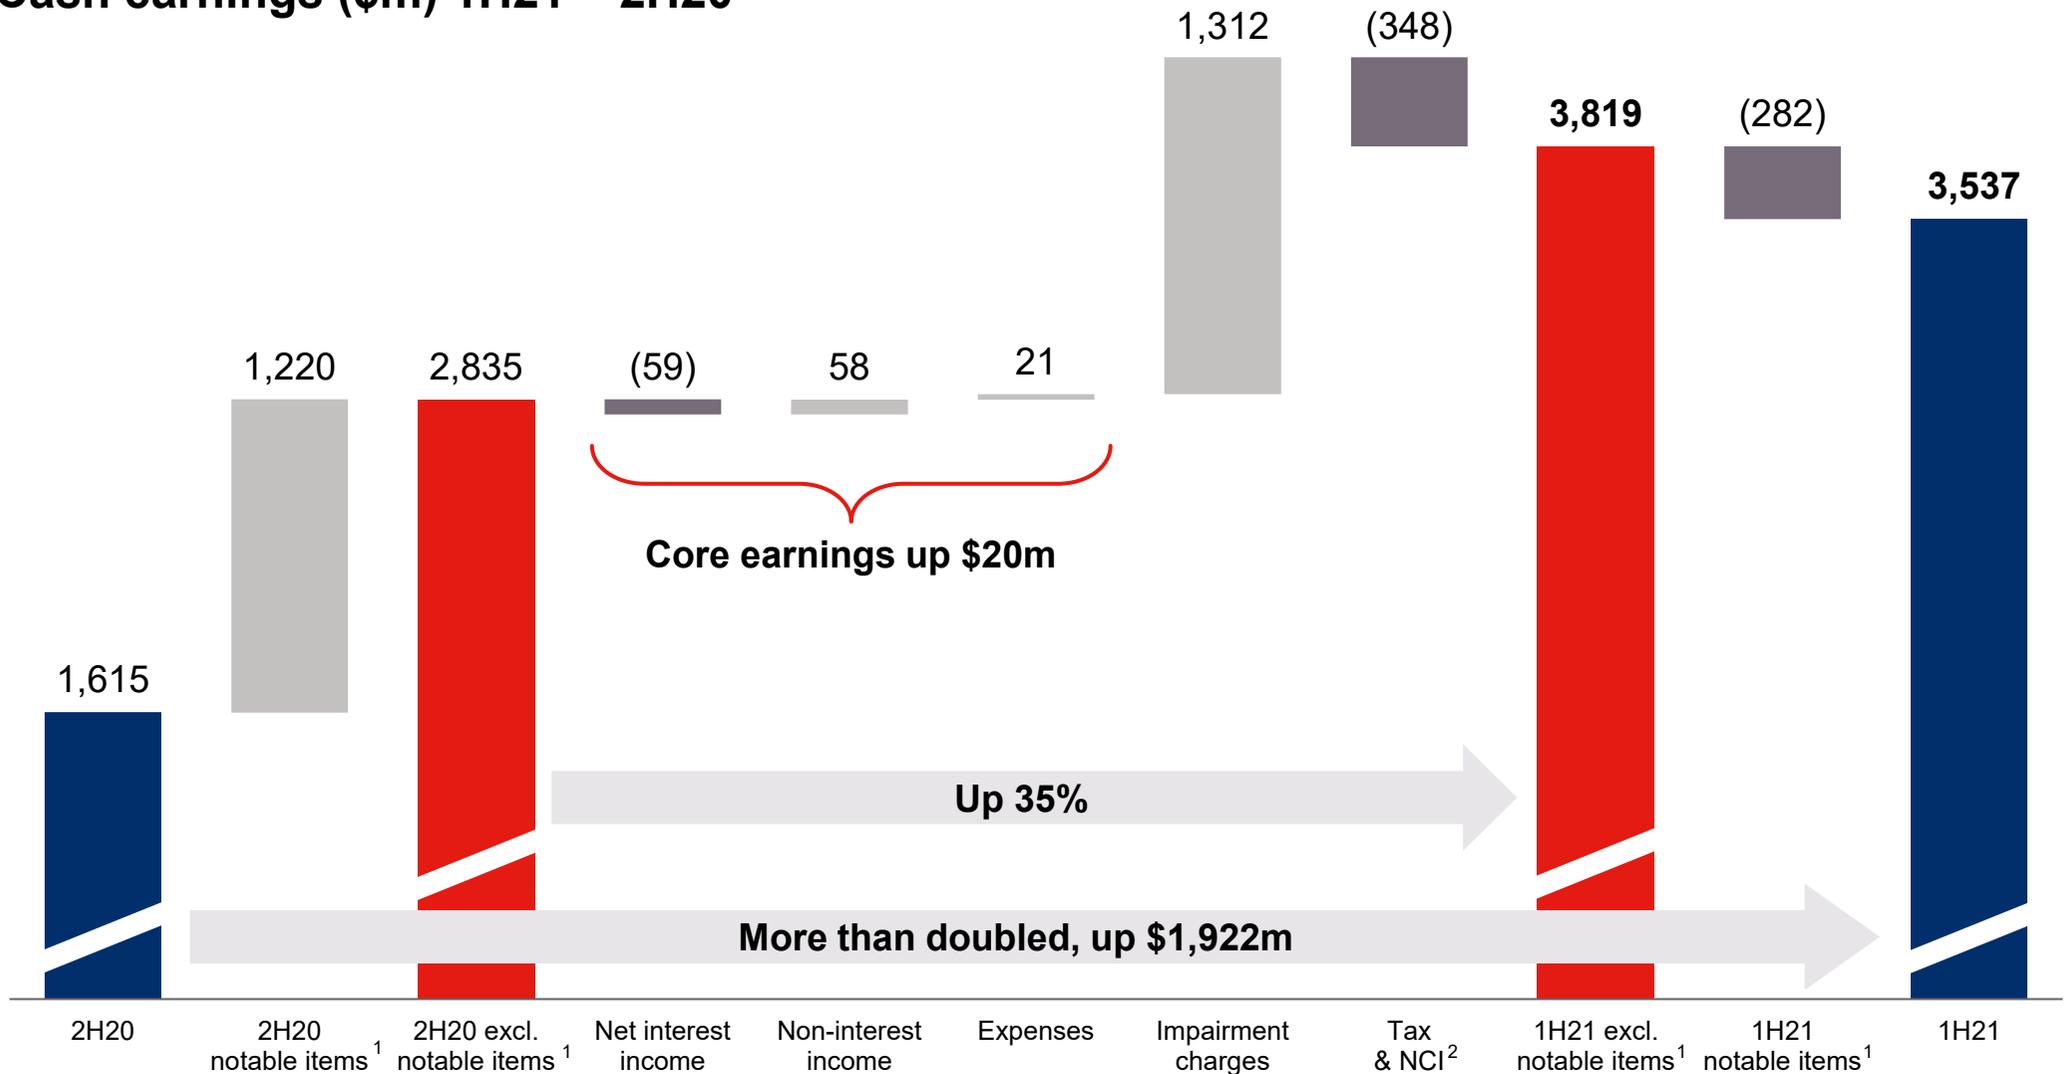

¹ At 31 March closing price of \$24.41. ² Average payout ratio in each half over period. ³ References to notable items in this release include (after tax) provisions related to AUSTRAC proceedings; estimated customer refunds, costs and litigation; write-down of intangible items; and asset sales/revaluations.

Michael Rowland

Chief Financial Officer

1H21 earnings.

Cash earnings (\$m) 1H21 – 2H20

¹ References to notable items in this release include (after tax) provisions related to AUSTRAC proceedings; estimated customer refunds, costs and litigation; write-down of intangible items; and asset sales/revaluations. ² NCI is non-controlling interests.

Notable items and simplification impacts.

Notable items

(\$m after tax)	1H20	2H20	1H21
AUSTRAC proceedings	(1,027)	(415)	-
Remediation and litigation	(258)	(182)	(276)
Intangible write-downs	(46)	(568)	(199)
Asset sales / revaluation	(68)	(55)	193
Total cash earnings impact	(1,399)	(1,220)	(282)

- Remediation higher in Advice and Specialist Businesses, lower in Business
- Settled historical disputes

- Write-off of LMI goodwill and write-down of capitalised software balances

- Revaluation of Coinbase, final gain from Zip sale and earnout from Vendor Finance sale
- Partly offset by losses on sale and transaction costs

Impact of exits and simplification

P&L contribution (\$m) ¹	1H20	2H20	1H21
Net interest income	43	32	18
Non-interest income	124	59	27
Expenses	(40)	(41)	(26)
Core earnings	127	50	19

Exits and simplification includes

- New Zealand wealth sale
- Reduction in correspondent banking relationships
- Exit of Energy trading
- International consolidation
- Consumer fee simplification

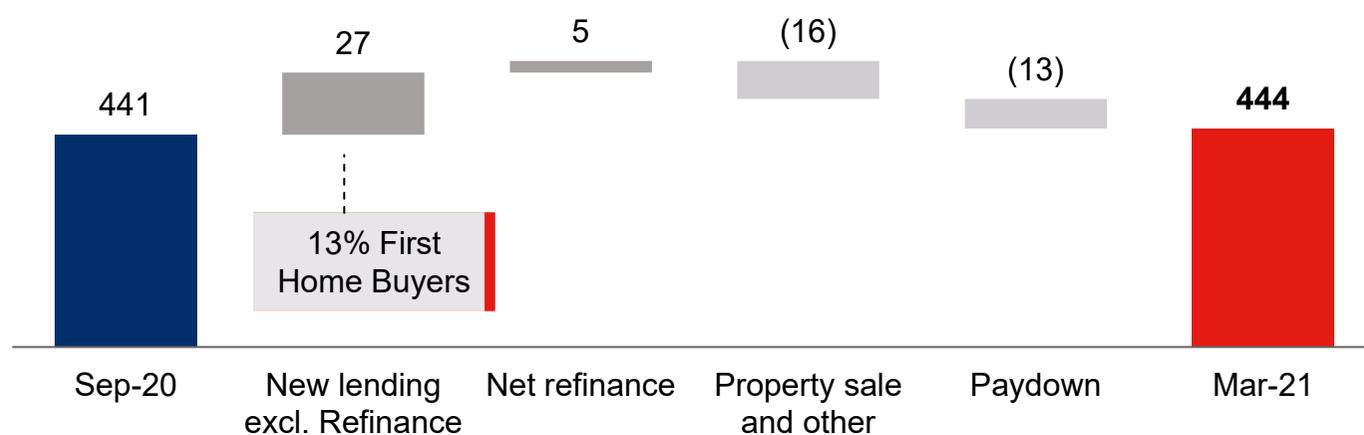

¹ Contribution of businesses exited or simplified in respective period.

Lending dynamics.

Loans (\$bn)

Australian mortgage flows (\$bn)

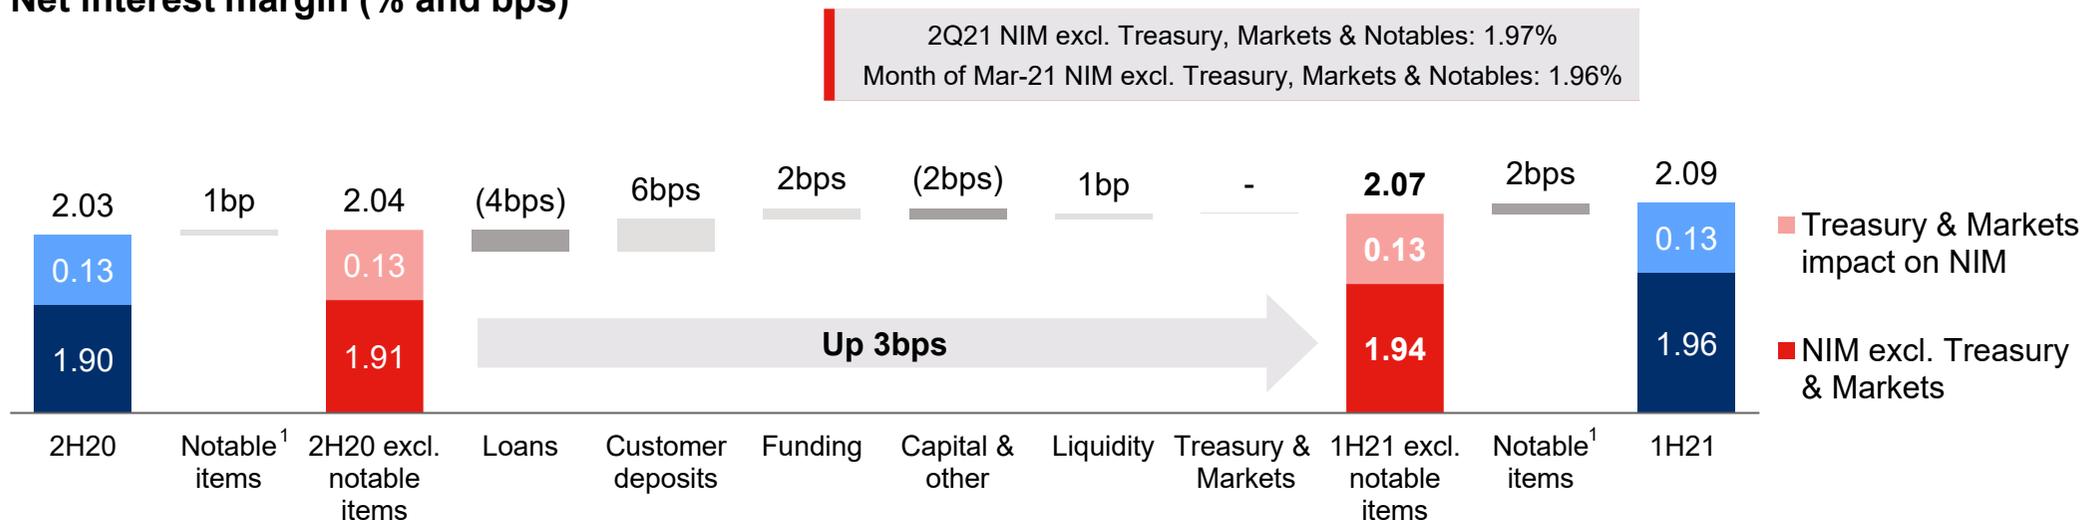

Aust mortgage composition (% of total)

	Stock Mar-20	Stock Mar-21	Flow 1H21
Interest only	23	18	14
Fixed rate	23	32	37
Investor	38	35	26

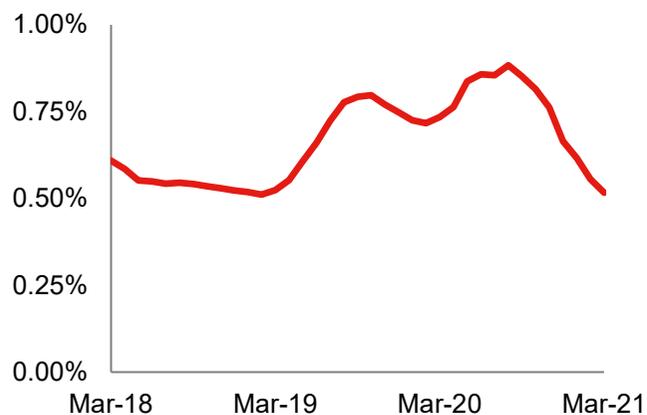

¹ Includes Line of Credit.

Margins.

Net interest margin (% and bps)

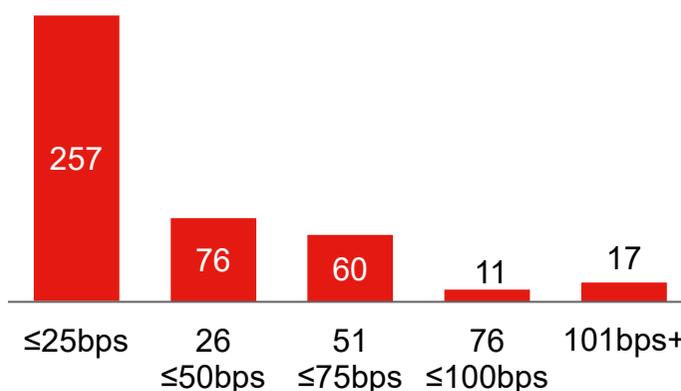

TD portfolio cost over benchmark² (%)

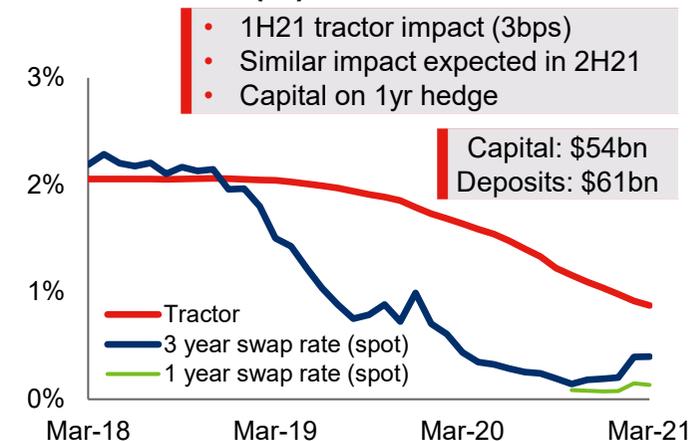

Australian deposits³ (\$bn)

Balances by interest rate (bps)

Tractor rate⁴ (%)

¹ References to notable items include; estimated customer refunds. ² Benchmark is based on market rates with terms consistent with the duration of the term deposits. ³ Excludes mortgage offset balances. ⁴ Tractor is the blended average rate earned on hedged capital and low rate deposits.

Non-interest income – up 3% excluding notable items.¹

Net fees¹ up \$26m

▲ 3%

- Higher cards from improved activity
- End of COVID-19 merchant waivers
- Other fees lower from simplification

Wealth & insurance¹ up \$8m

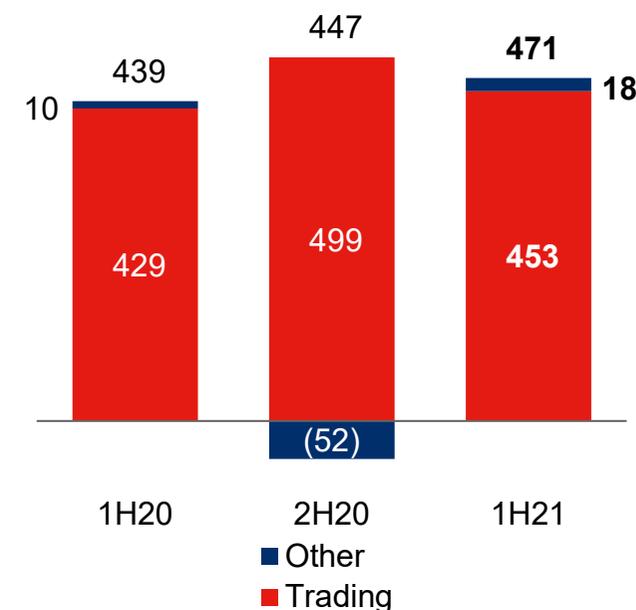

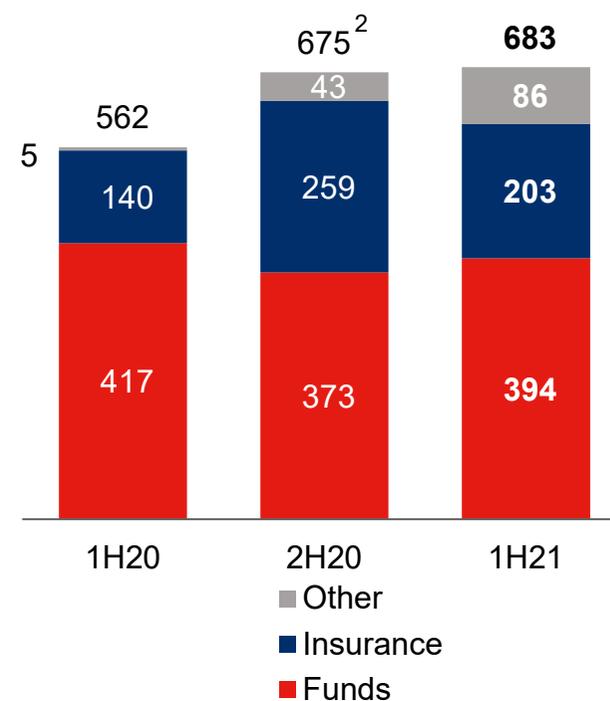

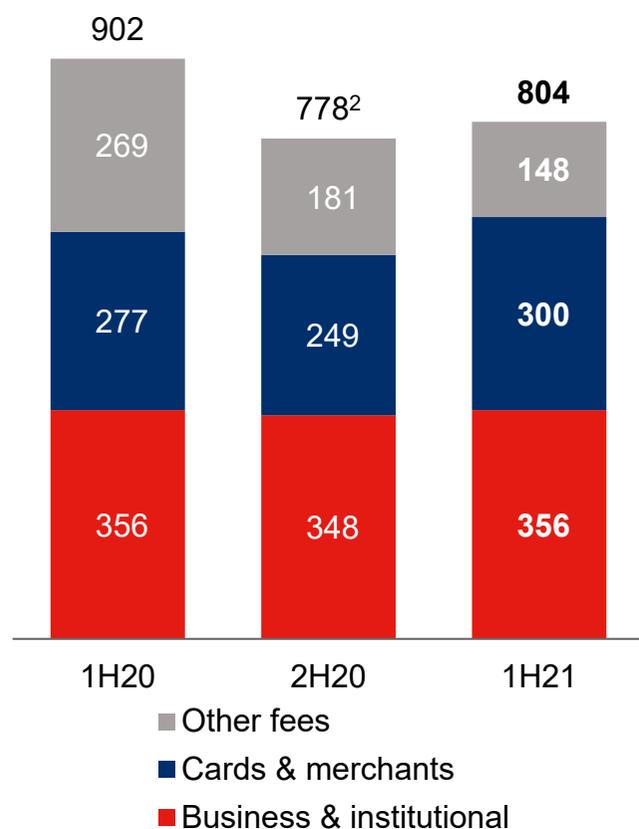

▲ 1%

- Higher insurance weather claims (\$55m)
- Funds up from higher FUA
- Other income higher from revaluation of Life insurance liabilities

Trading and other¹ up \$24m

▲ 5%

- Lower customer and non-customer income
- \$34m positive DVA movement
- Other income higher as 2H20 included Mumbai FCTR loss

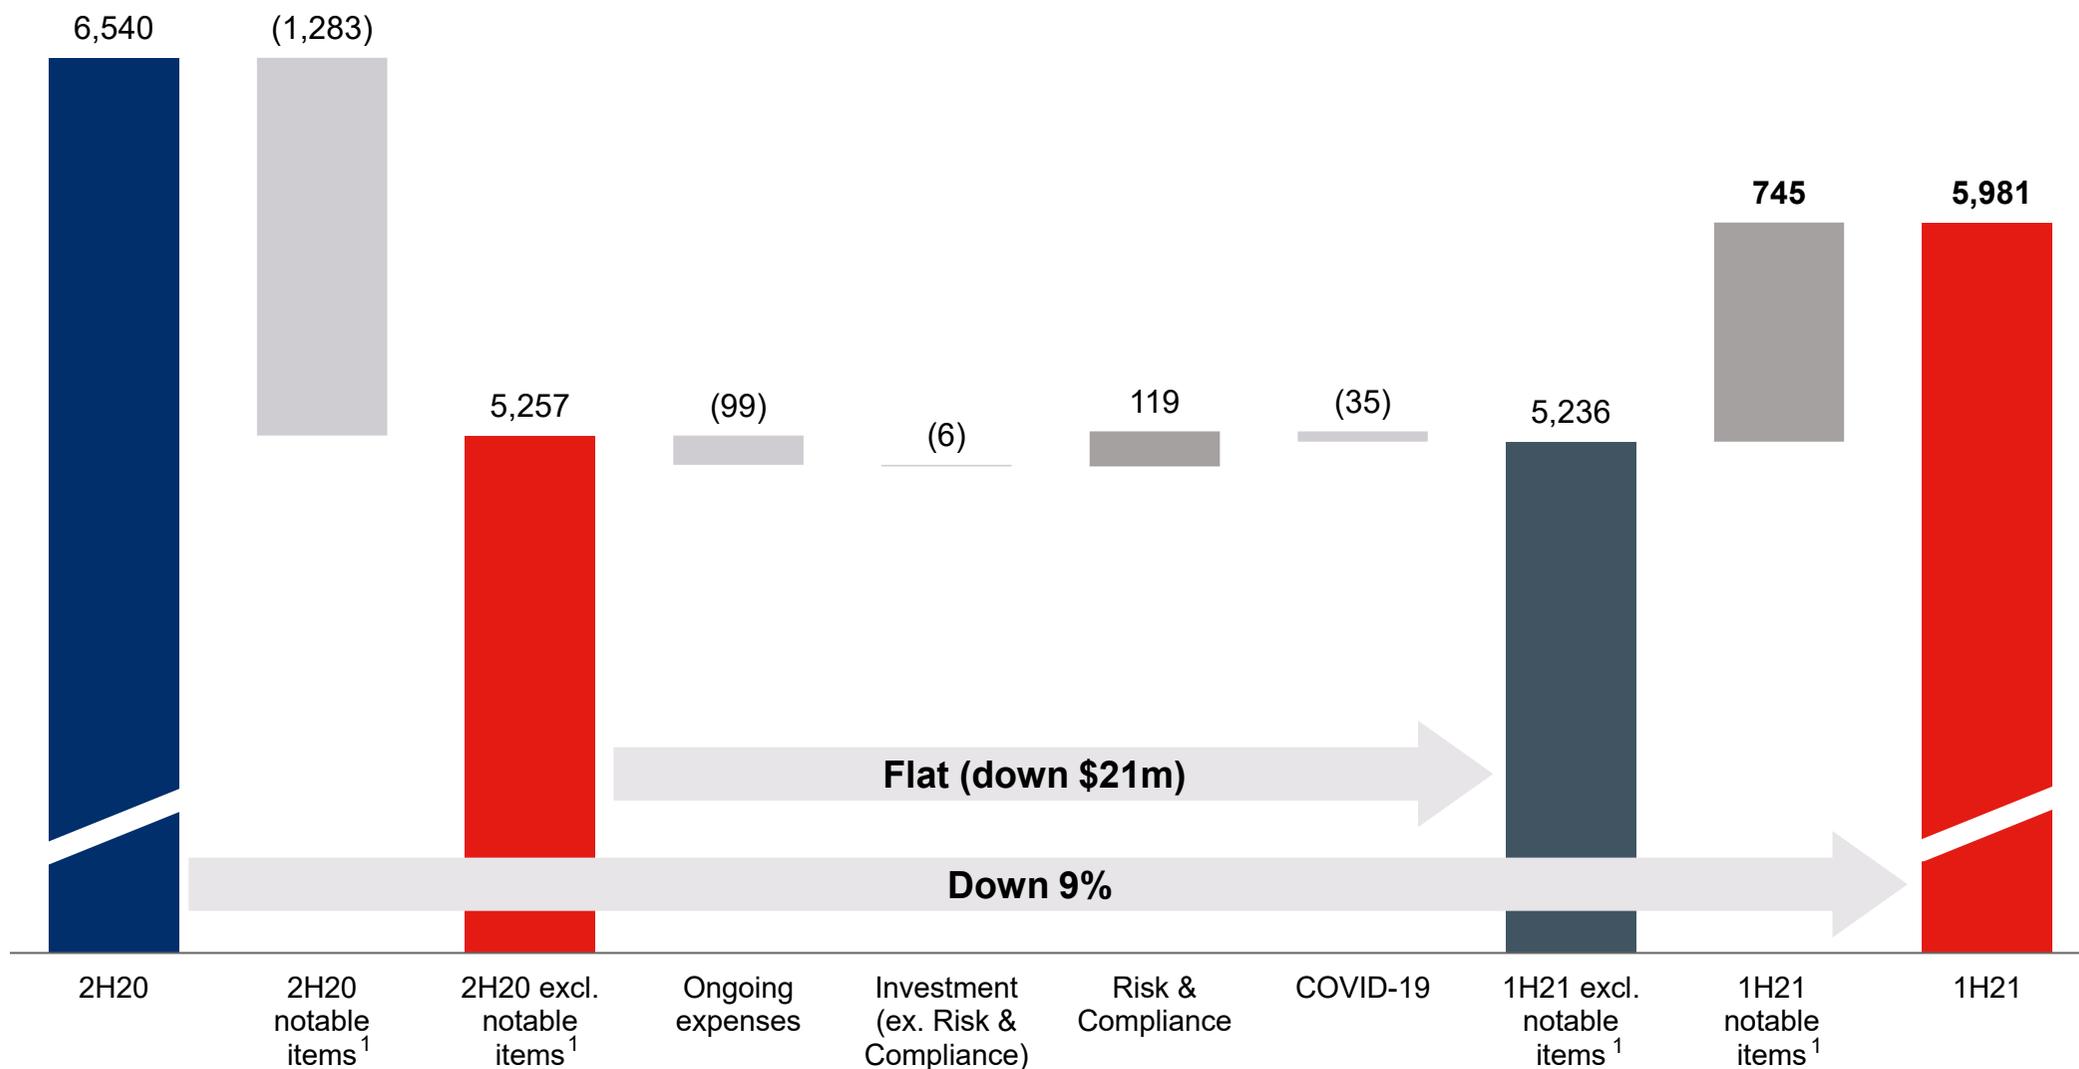

¹ Excluding notable items. References to notable items in this slide include provisions related to; estimated customer refunds, costs and litigation; and asset sales/revaluations. ² Total notable items in Non-interest income is unchanged. 2H20 has been restated to reflect \$45m of notable items allocated to net fee income, this has now been allocated \$30m to wealth management income and \$15m to insurance income.

1H21 expenses.

Down 9%, flat excluding notable items.¹

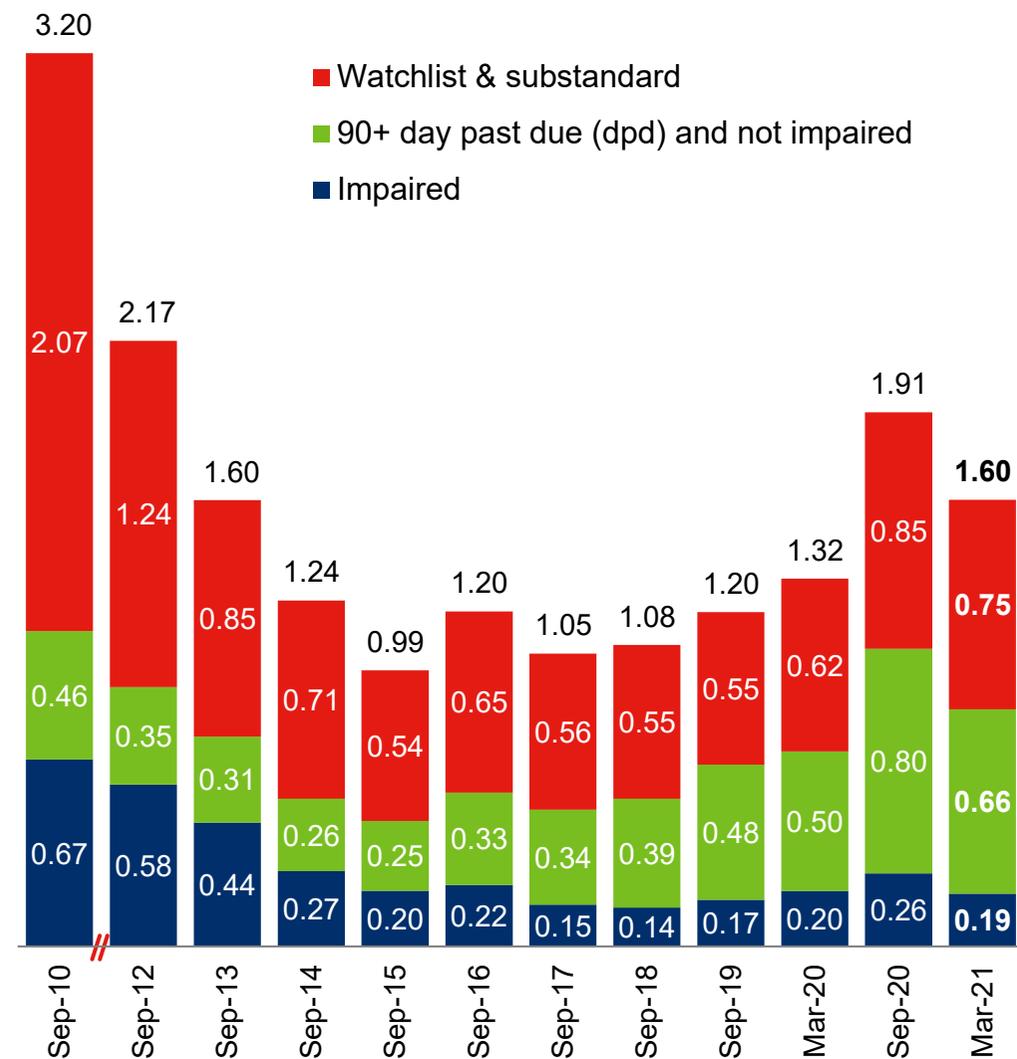

Expenses (\$m) 1H21 – 2H20

¹ References to notable items in this slide include provisions related to AUSTRAC proceedings; estimated customer refunds, costs and litigation; write-down of intangible items; and asset sales/revaluations.

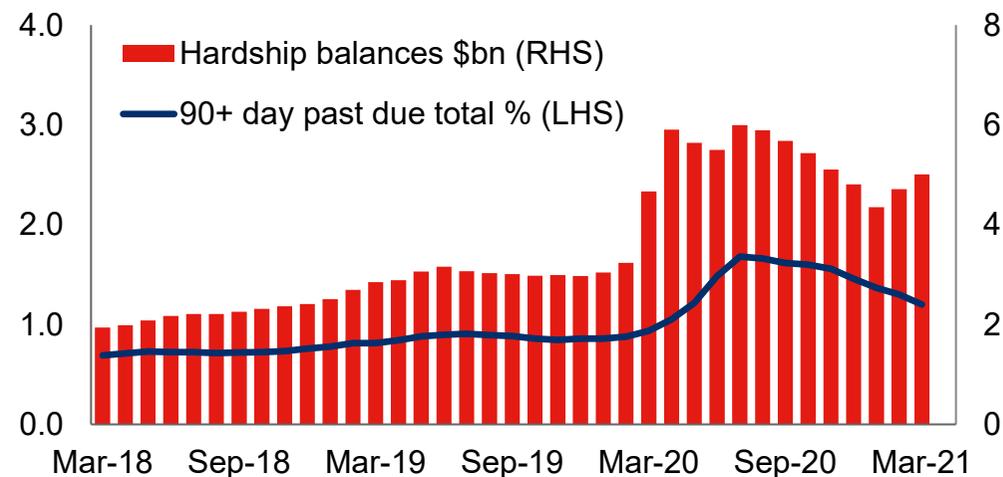

Credit quality metrics improved.

Stressed exposures as a % of TCE¹

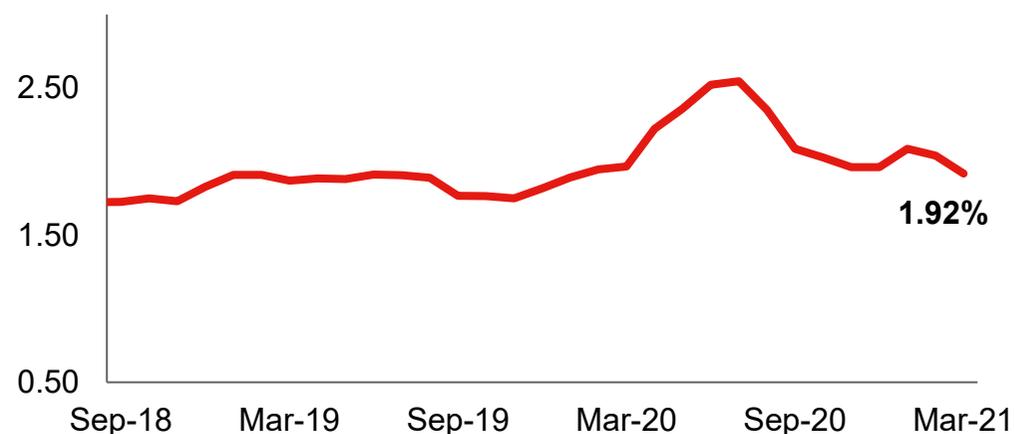

¹ TCE is total committed exposure.

Australian mortgage delinquencies and hardship (%, \$bn)

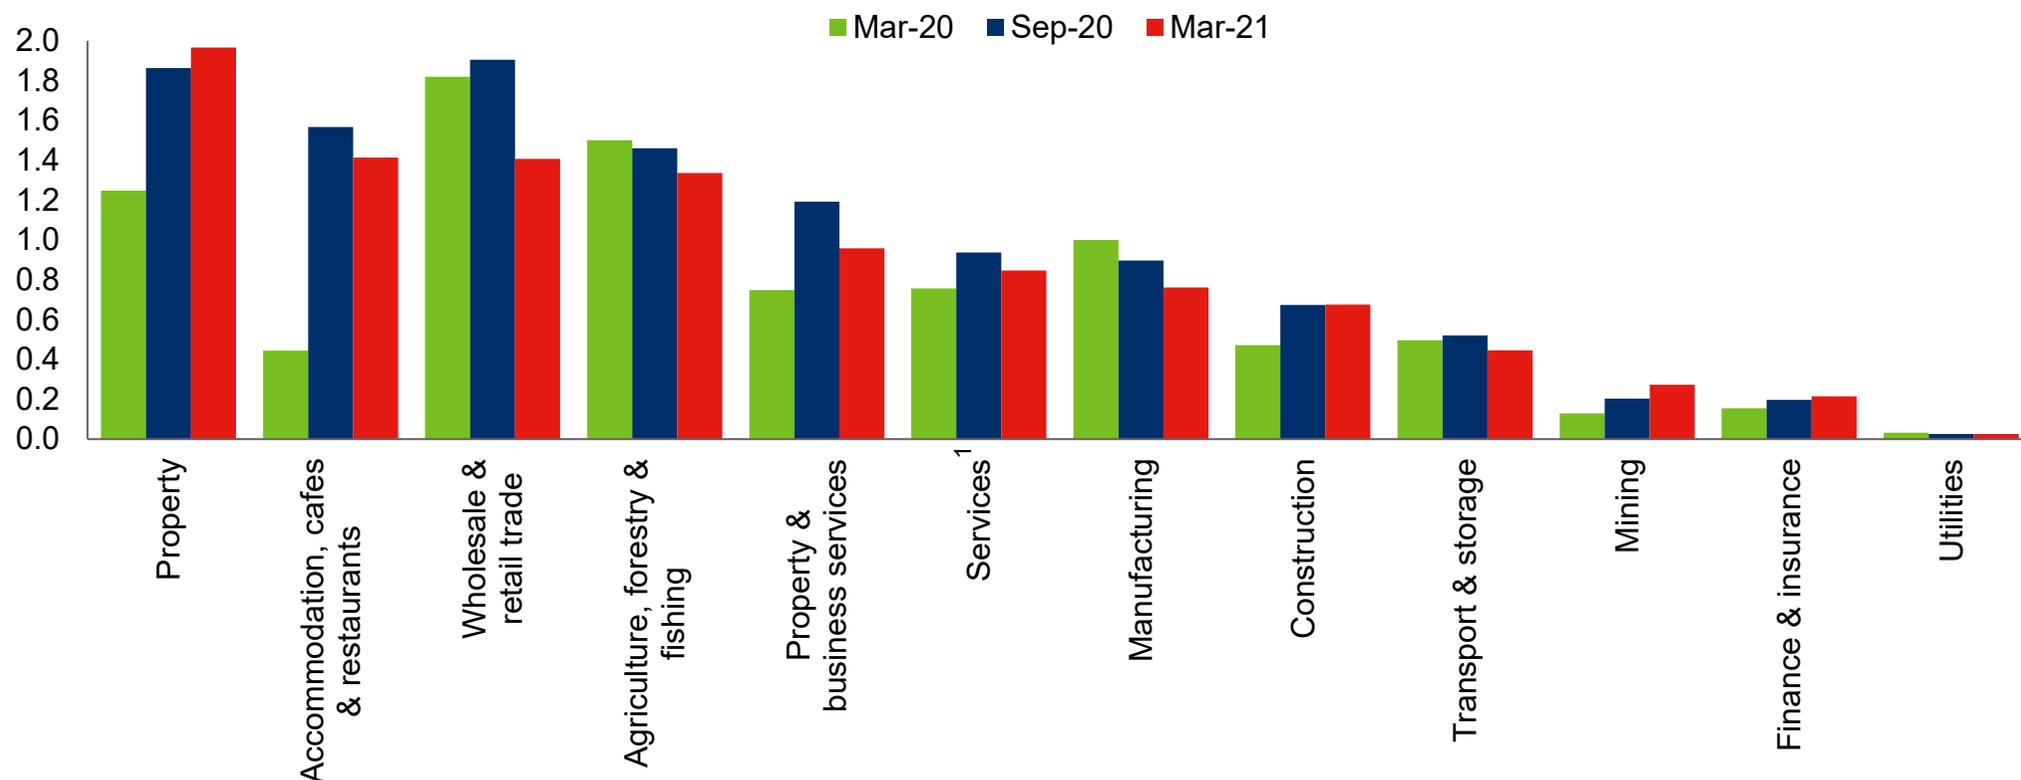

Australian unsecured 90+ day delinquencies (%)

Asset quality.

Corporate and business stressed exposures by industry sector (\$bn)

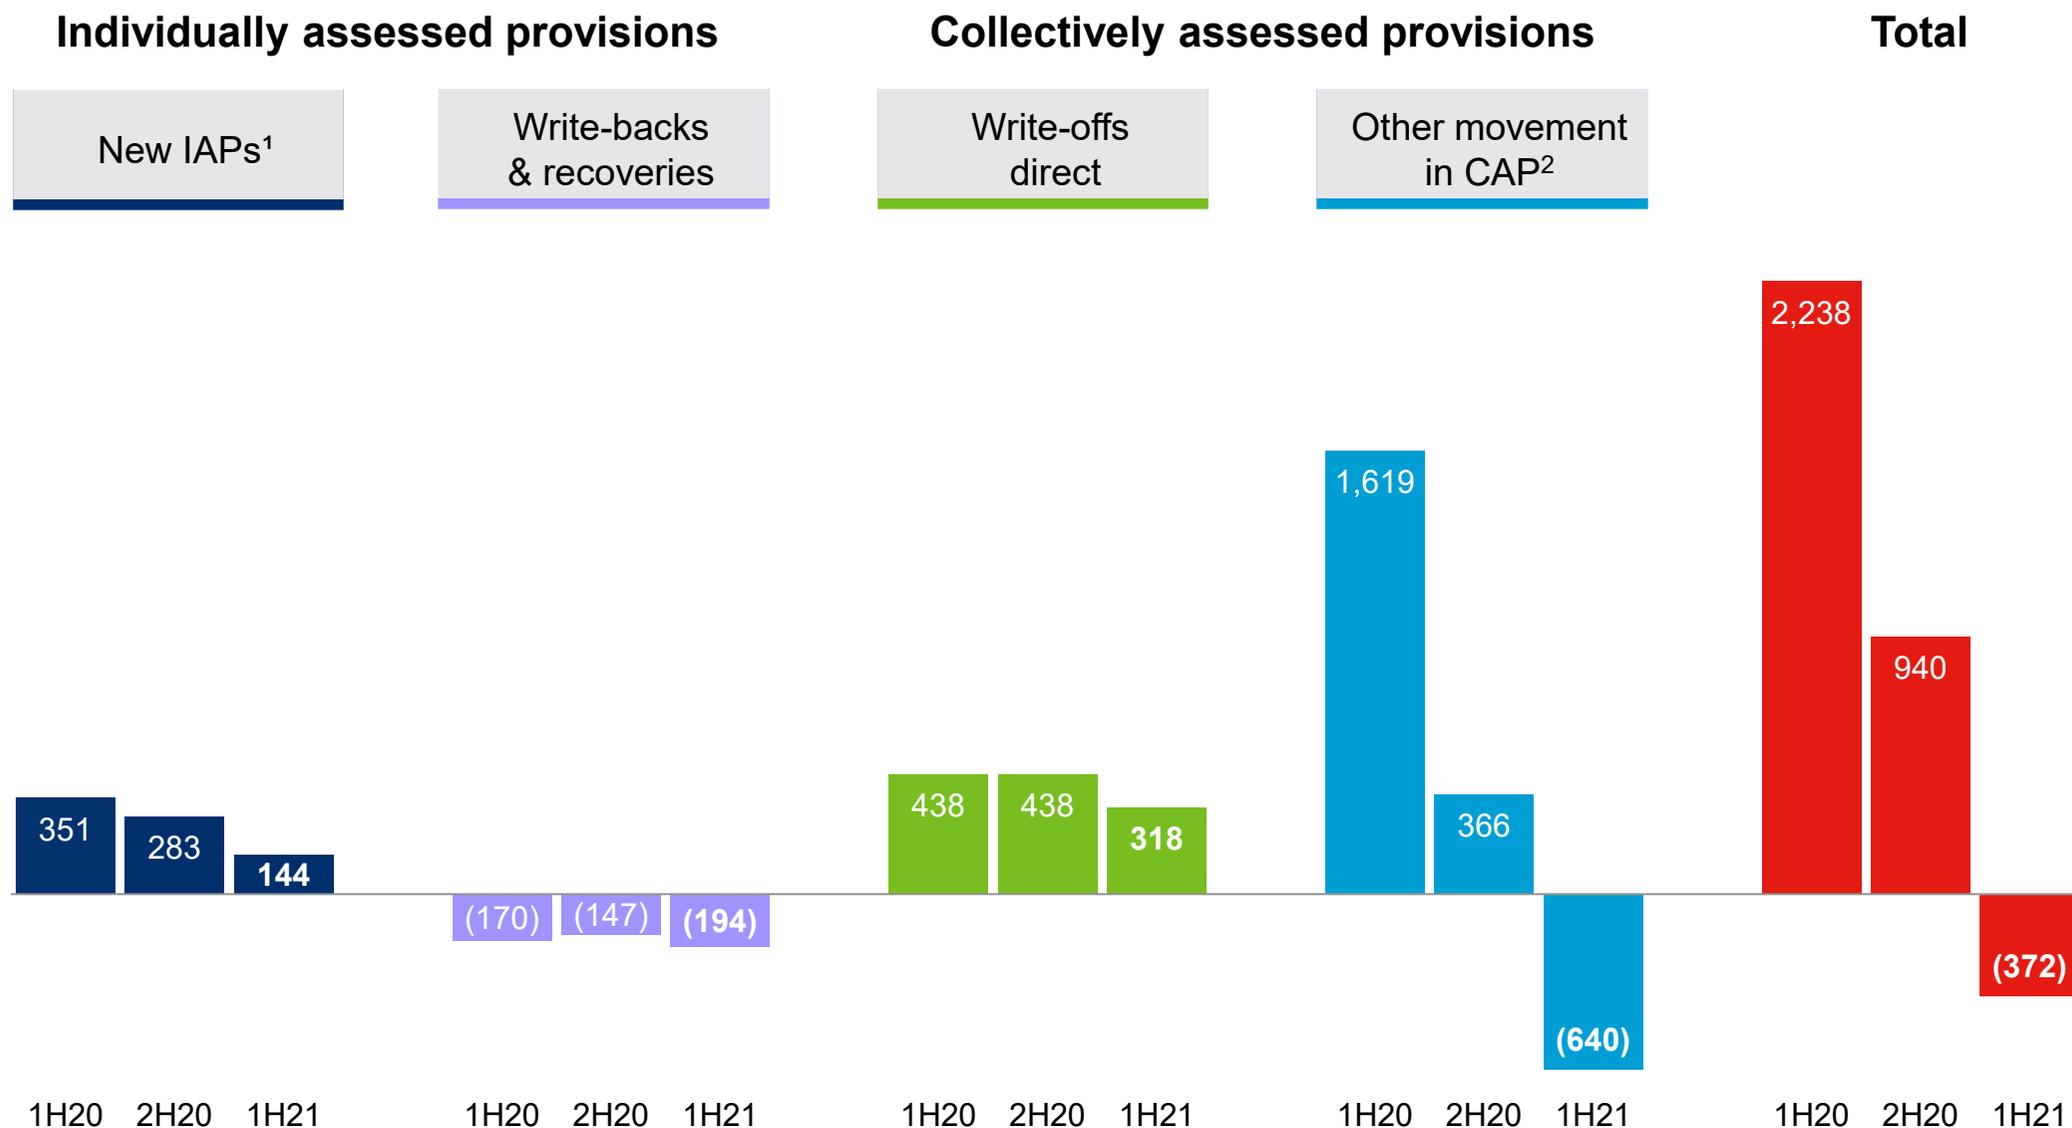

Stressed exposures to TCE by industry sector (%)

Sep-20	2.8	16.0	6.2	6.6	5.1	4.0	3.5	5.8	3.1	2.3	0.2	0.2
Mar-21	2.9	14.6	4.8	6.0	4.3	3.7	3.3	6.1	2.7	3.4	0.2	0.2

¹ Services includes education, health & community services, cultural & recreational services and personal & other services.

Credit impairment charge / (benefit) composition.

(\$m)

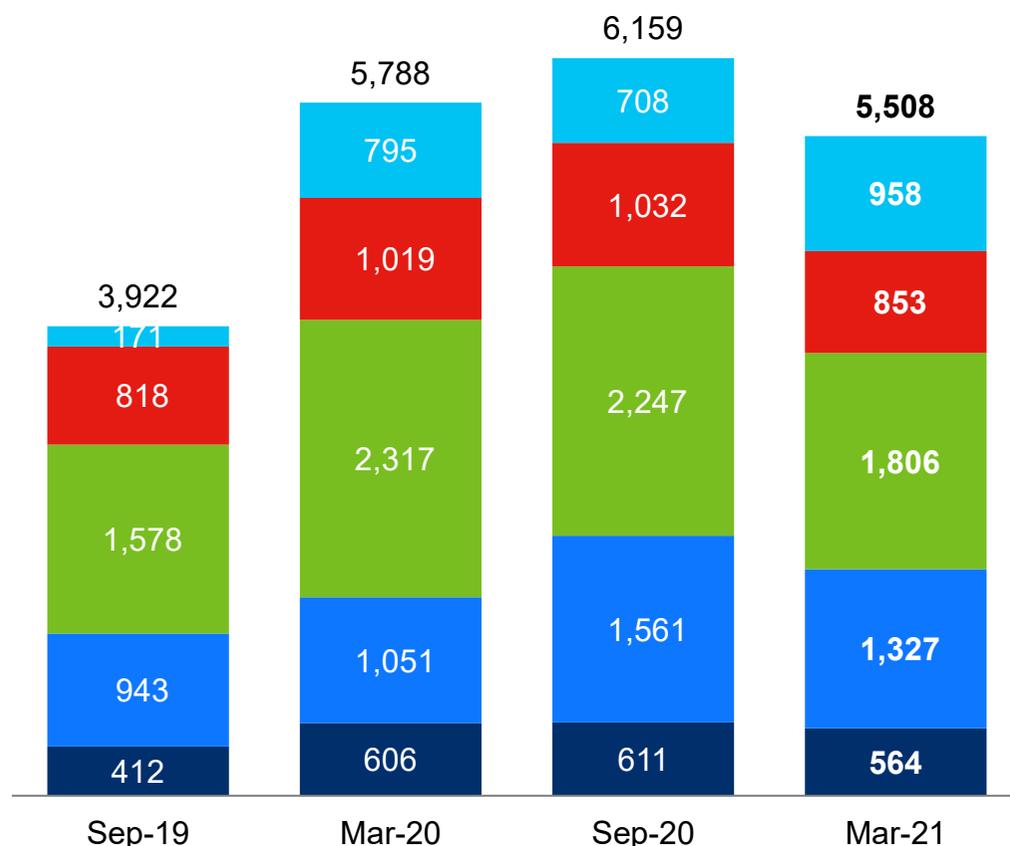

¹ IAP is individually assessed provisions. ² CAP is collectively assessed provisions.

Impairment provisions.

Total impairment provisions¹ (\$m)

- Overlay
- Stage 1 CAP
- Stage 2 CAP
- Stage 3 CAP
- Individually assessed provisions (Stage 3)

Provision coverage

	Sep-19	Sep-20	Mar-21
Provisions to Credit RWA	109bps	171bps	159bps
Provisions to TCE	37bps	58bps	51bps
IAP ² to Impaired assets	44.9%	41.5%	47.0%

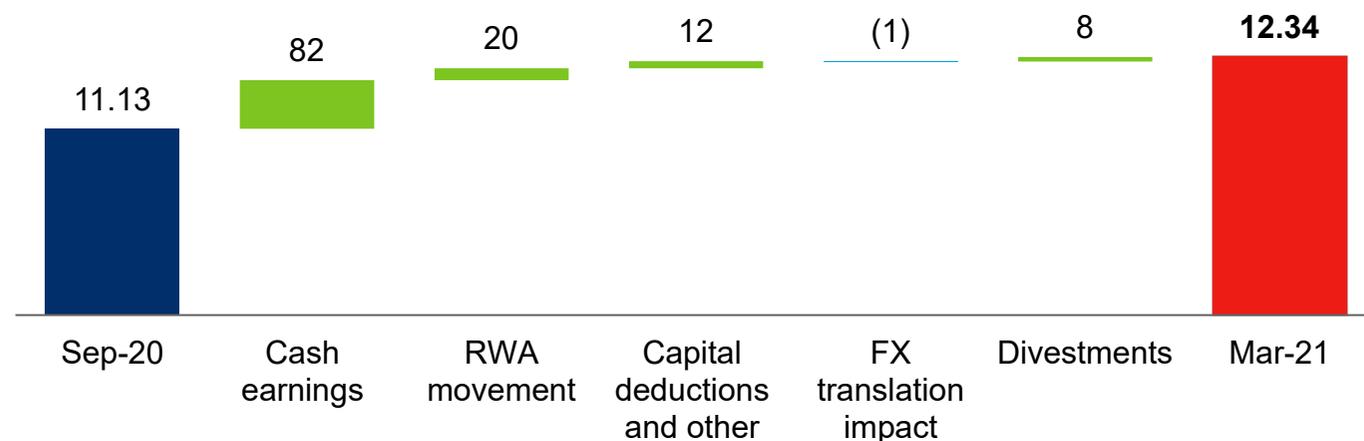

Forecasts used in base case economic scenario³

	At Sept 2020		At Mar 2021	
	2021	2022	2021	2022
GDP growth	2.5%	2.7%	4.0%	3.0%
Unemployment	7.5%	6.7%	6.0%	5.3%
Residential property price increase/(decrease)	(0.4%)	7.5%	10%	10%

¹ CAP is Collectively Assessed Provision. ² IAP is Individually Assessed Provision. ³ GDP and Residential property price growth is annual growth to December each year. Unemployment rate forecast is as at year end. Forecasts used for March 21 were determined in February 21.

Capital drivers.

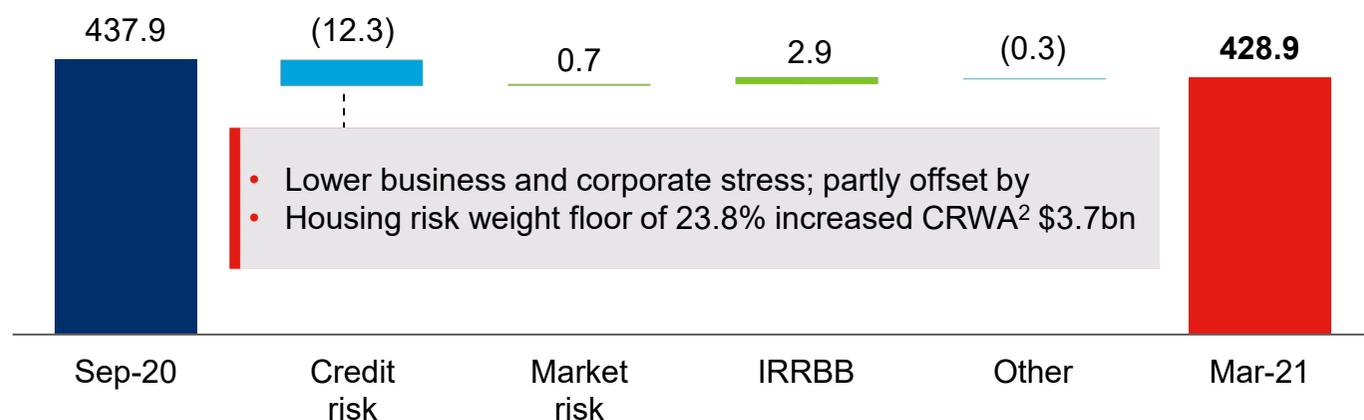

CET1¹ capital ratio (% and bps)

Expected divestment CET1 benefit (bps)³

Coinbase ⁴	7
Vendor Finance	-
Westpac Pacific ⁵	6
General Insurance	12
Westpac LMI	7

Risk weighted assets (\$bn)

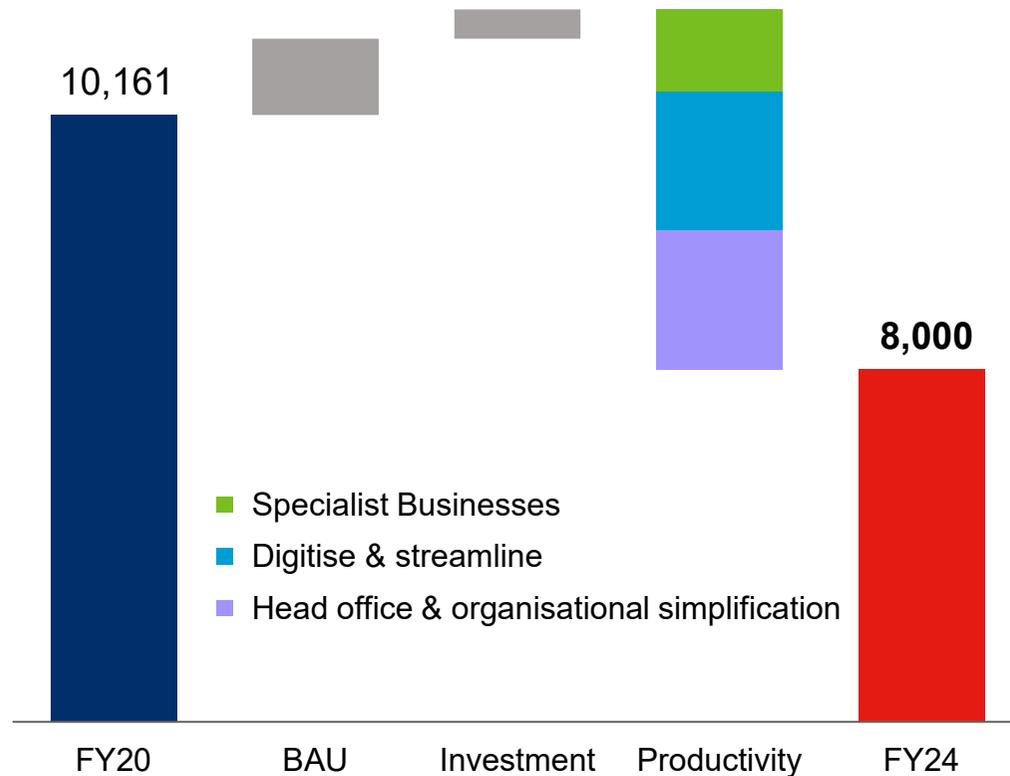

1 Common equity tier 1. 2 Credit Risk Weighted Assets. 3 Pro forma benefit at March 21 for expected divestments and at 30 April for Coinbase. 4 Initial estimate, depends on final capital streamed up to the Group. 5 Impact reflects the remaining CET1 impact expected to occur in the 2H21 (mainly from the release of risk weighted assets upon sale). The accounting loss on sale in Westpac Pacific included in First Half 2021 notable items impacted the CET1 ratio for March 21. In total, the sale of Westpac Pacific is expected to add approximately 3bps to Westpac's Common Equity Tier 1 capital ratio.

Targeting \$8bn cost base by FY24.¹

Cost target excluding notable items (\$m)²

Expenses (ex notables) expected to rise in FY21 compared to FY20. Targeting to reduce from FY22 onwards

Pathway to \$8bn

Specialist Businesses

- Exit non-core businesses

Digitise & streamline for customers

- Digital focus, reduce products and cost to serve
- Rationalise duplicate metro branches, smaller customised branches
- Reduce physical transactions
- Digitise sales and service

Head office & organisational simplification

- Remove costs linked to Specialist Businesses
- Rationalise corporate footprint
- Lower support costs
- Reduce third party/contractor spend

¹ This page contains 'forward-looking statements' and statements of expectation. Please refer to the disclaimer on page 117. ² All numbers exclude notable items. References to notable items in this slide include provisions related to AUSTRAC proceedings; estimated customer refunds, costs and litigation; write-down of intangible items; and asset sales/revaluations. Target includes Westpac New Zealand Limited.

Select cost reset targets.¹

	Metric	Baseline	1H21	FY24
Specialist Businesses	<ul style="list-style-type: none"> Exit non-core businesses 	1 under sale agreement	4 under sale agreement	7 transactions completed
Digitise & streamline for customers	<ul style="list-style-type: none"> Mortgages processed on digital origination platform² 	32% ²	62% ²	100%
	<ul style="list-style-type: none"> Consumer sales via digital³ 	42%	41%	70%
	<ul style="list-style-type: none"> Branch transactions³ 	29 million	22% less ⁴	~40% less
	<ul style="list-style-type: none"> Products for sale⁵ 	891	839	~345
Head office & organisational simplification	<ul style="list-style-type: none"> Offshore locations⁶ 	8	6	4
	<ul style="list-style-type: none"> Reduce third party and contractor spend by >\$200m per annum 			
	<ul style="list-style-type: none"> Reduce head office roles and corporate space ~ more than 20%⁷ 			

¹ This page contains 'forward-looking statements' and statements of expectation. Please refer to the disclaimer on page 117. ² Percentage of home loan applications through strategic platform for 1st party lending (excl. RAMS). FY24 target refers to both 1st and 3rd party across Consumer and Business. ³ Refer to slide115 for definition. ⁴ Reduction in 1H21 represents decrease on 1H20. ⁵ Represents Australian Consumer, Business and Institutional products for sale. ⁶ Represents international locations excluding New Zealand and Westpac Pacific. ⁷ Corporate Space represents head office and operations and excludes branches and business banking centres.

2H21 Considerations.¹

Lending	<ul style="list-style-type: none">• Maintain mortgage momentum• Stabilise Business lending
Net interest margin	<ul style="list-style-type: none">• Headwinds from competitive market continued flow through of low rates
Non-interest income	<ul style="list-style-type: none">• Improved economic activity and consumer spending• Impact of simplification to flow through
Expenses	<ul style="list-style-type: none">• FY21 expected to be higher than FY20 (excluding notable items) from:<ul style="list-style-type: none">- Seasonality of project spend – higher in 2H- Full period effect of higher FTE for Fix agenda
Asset quality	<ul style="list-style-type: none">• Maintain focus on supporting customers• Improved outlook, some impact from wind back of government support

¹ This page contains 'forward-looking statements' and statements of expectation. Please refer to the disclaimer on page 117.

CET1 Impact

Once announced sales are completed, they are expected to add 25bps² to the CET1 capital ratio

¹ Classified as held for sale in the Group's 2021 Interim Financial Results Announcement. ² CET1 impact is based on RWAs at 31 March 2021. Impact at the time of sale can vary based on RWA movements. The 31 March 2021 CET1 ratio includes the accounting loss on sale in Westpac Pacific included in 1H21 notable items.

Westpac New Zealand review.

Westpac is reviewing the most appropriate ownership structure for its New Zealand operations. The business has been a valuable contributor for many years. The review is ongoing.

Rationale for the review

- Banking is increasingly a local business
- BS11 – operational separation limits synergies

Considerations

- Potential value uplift from two locally focused businesses
- Separation and independence costs
- Impact of RBNZ reviews

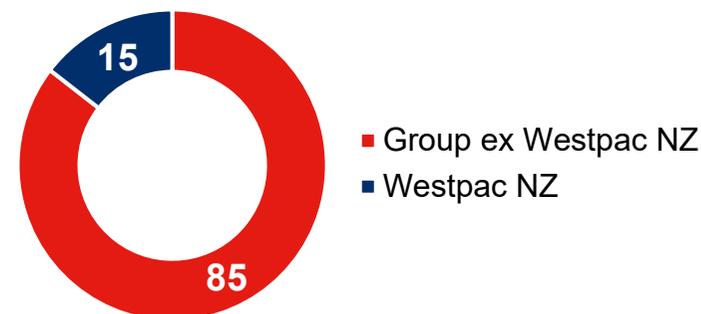

Status

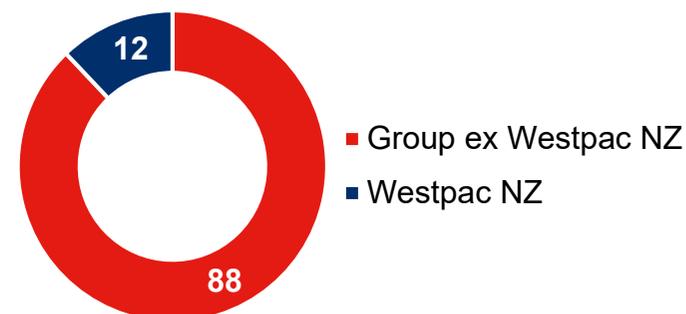

- Regulator engagement required
- Determining potential split of balance sheet in a demerger
- Progressing analysis

Contribution to Westpac Group

1H21 Cash earnings ex notables (%)

Lending (%)

Cash earnings and reported net profit reconciliation.

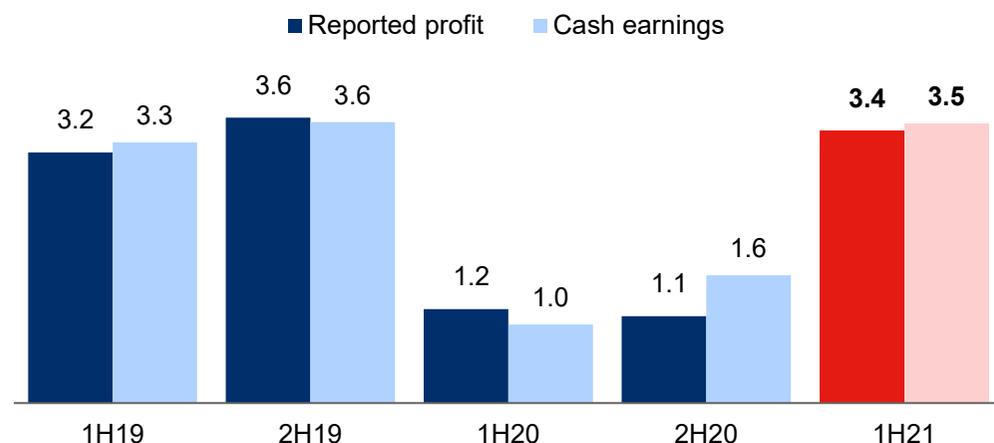

Results

Cash earnings¹ policy

- Westpac Group uses a measure of performance referred to as cash earnings to assess financial performance at both a Group and divisional level
- This measure has been used in the Australian banking market for over 15 years and management believes it is the most effective way to assess performance for the current period against prior periods and to compare performance across divisions and across peer companies
- To calculate cash earnings, reported net profit is adjusted for:
 - Material items that key decision makers at the Westpac Group believe do not reflect the Group's operating performance
 - Items that are not normally considered when dividends are recommended, such as the impact of treasury shares and economic hedging impacts
 - Accounting reclassifications between individual line items that do not impact reported results

	1H21 (\$m)	Change 1H21-2H20 (%)	Change 1H21-1H20 (%)
Cash earnings	3,537	119%	256%
Cash EPS (cents)	97.1	117%	251%
Reported net profit	3,443	213%	189%
Reported EPS (cents)	94.5	210%	185%

Reported net profit and cash earnings (\$bn)

Reported net profit and cash earnings adjustments (\$m)

	2H20	1H21

Fair value (gain)/loss on economic hedges	581	46
Ineffective hedges	(37)	48
Adjustments related to Pandal Group	(32)	-
Treasury shares	3	-
Cash earnings	1,615	3,537

¹ Cash earnings is not a measure of cash flow or net profit determined on a cash accounting basis, as it includes non-cash items reflected in net profit determined in accordance with AAS (Australian Accounting Standards). The specific adjustments outlined include both cash and non-cash items. Cash earnings is reported net profit adjusted for material items to ensure they appropriately reflect profits available to ordinary shareholders. All adjustments shown are after tax. For further details refer to page 109.

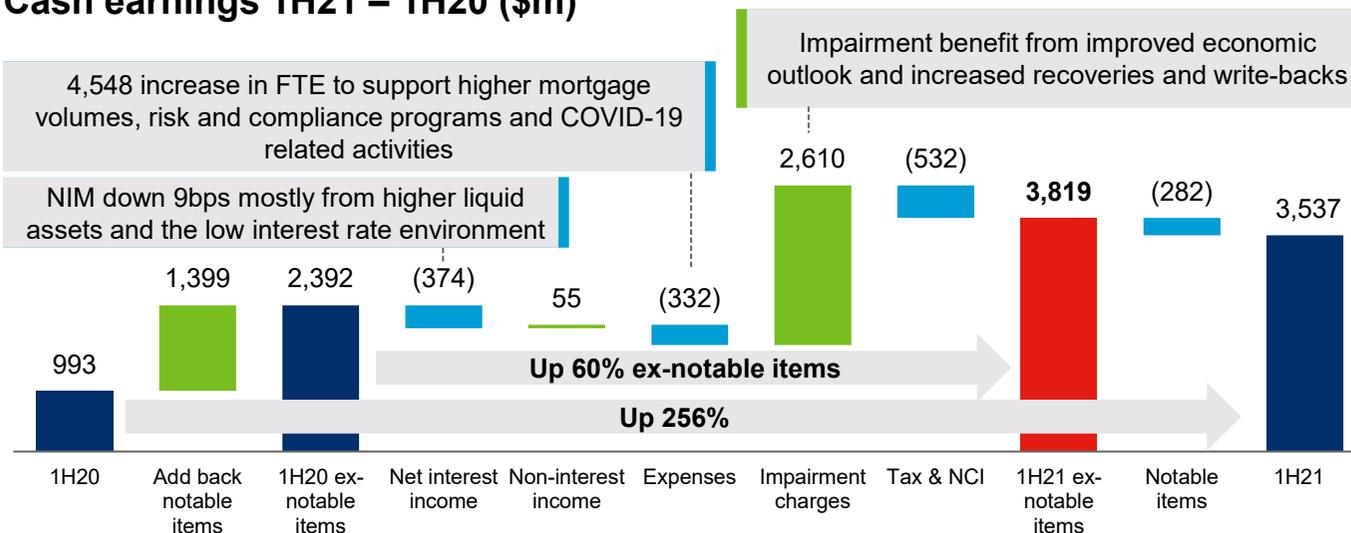

1H21 cash earnings.

	1H21 (\$m)	Change 1H21-2H20 (%)	Change 1H21-1H20 (%)

Cash earnings 1H21 – 2H20 (\$m)

Cash earnings 1H21 – 1H20 (\$m)

Notable items in 1H21 and 2H20.

Results

In 1H21 and 2H20, the Group recognised certain costs/provisions known throughout this document as “notable items” which relate to the following:

AUSTRAC proceedings¹ (\$0 1H21, \$415m 2H20)

Costs associated with the AUSTRAC proceedings including for a Court penalty, legal costs and costs of the Group’s response plan. There were no costs in 1H21 as the AUSTRAC proceedings have now been settled.

Estimated customer refunds, payments, associated costs and litigation¹ (\$276m 1H21, \$182m 2H20)

Additional provisions were raised in 1H21 for:

- Refunds for certain ongoing advice fees associated with the Group’s salaried financial planners and authorised representatives
- Refunds to superannuation and investment customers not advised of certain corporate actions
- Costs associated with ending the Group’s IOOF relationship
- Litigation including settlement of historical matters

Write-down of goodwill and intangible assets¹ (\$199m 1H21, \$568m 2H20)

Write-down of goodwill associated with our LMI business along with a write-down of capitalised software.

Asset sales and revaluations¹ (\$193m gain 1H21, \$55m loss 2H20)

This includes the revaluation gain on the Group’s stake in Coinbase, the gain on sale of the Group’s holding in Zip Co Limited and earn out payments from the sale of the Vendor Finance business. Partly offset by a loss on sale of Westpac Pacific and transaction costs related to announced sales.

Helping Australians and New Zealanders Succeed.

Customer franchise

COVID-19 support

- Supported customers to defer over \$70bn of lending via COVID-19 deferral packages helping over 200k customers
- Personalised support to customers exiting deferral packages and experiencing hardship
- Provided Government Guarantee loans
 - \$300m to ~2,500 customers in Australia
 - NZ\$65m to 229 customers in NZ
- Updated SME Government Guarantee loans launched April 2021
- Helped 160k superannuation fund members through access to \$1.9bn via early release scheme

Customers provided packages ('000s)

1 Insurance claims is before reinsurance. 2 Funds under administration.

Natural disasters

- Announced a \$10m Flood Support Fund to provide emergency grants for eligible customers in flood-affected areas. This included:
 - \$5,000 grants for businesses
 - \$3,000 grants for households
- Disaster relief packages provided to customers including deferrals
- Insurance claims of ~\$110m¹ for ~4,600 customers in 1H21 for floods and storms
- \$150k provided to The Salvation Army for flood support

Helping customers

- \$5.6bn of loans to first home buyers in 1H21
- Migrated \$11.3bn to new leading platform, with FUA² on Panorama \$50bn
- Customers can block their cards to limit gambling online, since launch over 2,500 customers have enabled this feature
- Provided financial education and literacy programs and tools through the Davidson Institute
- Launched capability to auto-detect and block abusive language and enable customers to report abusive messages in banking text. Since launch we have filtered and blocked more than 5,000 messages
- New app launched making it faster and simpler for customers to bank with us
- Improved cyber protection including Security Wellbeing Check within our banking app
- Simplified fee and products, eliminated over 100 fees in 1H21

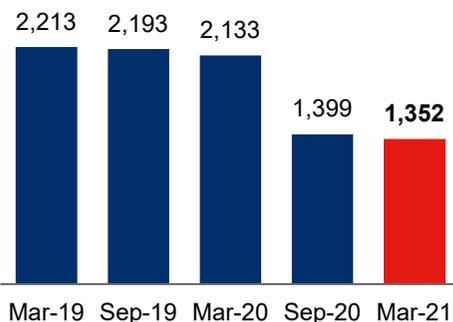

Continued migration to digital.

- New, search optimised calculators
- Property insights
- Loan, feature and rate comparison tools

- Apply online 24/7
- Pre-filled for existing customers
- Paperless application via branch / contact centres
- Upload photos of supporting documents at any point
- Auto-routing to available lenders for faster response

- Customers know what they can afford
- Understand maximum borrowing potential
- Clarity of repayments and buying costs
- Auto-verify using comprehensive credit reporting

- Track status through to settlement
- Real-time notifications on key moments
- Accept loan documents online
- Settlements done digitally (PEXA)

- Switch to fixed rate for existing customers

¹ Refers to 1st party origination platform and excludes RAMS, Private Wealth and Business.

Customer remediation.

Customer franchise

Progressing customer refunds:

- Conducted extensive product, process and policy reviews
- Over **\$200 million** in remediation payments have been made to over **570,000** customer accounts during the past six months following these reviews and regulator feedback
- Centralised the governance and reporting of remediation to ensure consistency and to speed up the process
- Substantial progress across Westpac, including ongoing advice and other wealth fees, National Consumer Credit Protection Act compliance and interest only products

Provisions for customer refunds, payments and associated costs:

Additional provisions of \$241m raised in 1H21 including for:

- Refunds associated with certain ongoing advice fees charged by the Group's salaried financial planners and authorised representatives
- Refunds to superannuation and investment customers not advised of certain corporate actions
- Released provisions previously raised for customer refunds related to businesses provided a business loan instead of a consumer loan regulated by the National Consumer Credit Protection Act and the National Credit Code which were no longer required
- Costs associated with the implementation and completion of the remediation program

Provisions for customer refunds, payments and associated costs¹ (\$m)

Strengthening risk governance and oversight.

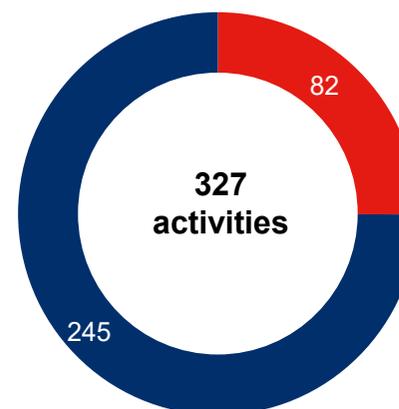

CORE Program; Integrated Plan delivery on track.

Integrated Plan

- A comprehensive and integrated program of work designed to strengthen risk governance and frameworks, further clarify accountability and improve the Group's risk culture
- It outlines how we are strengthening risk governance across both financial and non-financial risk
- Comprises 19 workstreams, underpinned by 80 deliverables and 327 activities
- Group Executive accountability and outcomes linked to executive remuneration decisions
- Multi-year completion timeframe – with 90 day delivery schedule
- APRA-approved and independently assured by Promontory Australia, with regular reporting to be made publicly available

Activity progress

Of the 327 activities, 82 have been submitted to Promontory for assurance and of those, 46 have been closed¹.

14% of total activities have been closed¹

Milestones

- Submitted
- Not yet due

Background and timeline

2018

Released Culture, Governance and Accountability self assessment (CGA self assessment), highlighting weaknesses in our management of non-financial risk. Included 45 recommendations

2019

Following AUSTRAC proceedings (December), APRA requested a reassessment (CGA reassessment) of the CGA self assessment. APRA also increased our operational risk capital add-on to \$1 billion

2020

Released CGA reassessment (July), which reinforced findings and identified further issues. The CORE Program was established to incorporate and address these findings on non-financial risk.

Following APRA's risk governance review, we entered into an Enforceable Undertaking with APRA to address deficiencies in risk governance (December)

2021

Expanded the CORE Program to improve financial and non-financial risk governance. Group Executive Financial Crime, Compliance & Conduct assigned responsibility for leading the CORE Program. Integrated Plan approved by APRA (April)

¹ At 29 April 2021. Closed means the independent reviewer has assessed the activity as complete.

CORE: Integrated Plan governance and oversight.

Clear lines of accountability. Independent assurance by Promontory.

CORE Program governance structure

Board	Approval of the Integrated Plan and material changes. Ongoing governance and oversight
Board Risk Committee	Primary Board-level oversight of the Integrated Plan
CEO	Overall management accountability for risk governance and delivery of the Integrated Plan
Executive Team Steering Committee	Responsible for oversight of the Integrated Plan delivery
Group Executive Sponsor	Accountable for CORE Program outcomes
Workstreams	All Group Executives are accountable for Divisional implementation. Each workstream has an accountable Group Executive
CORE Program Team	Accountable for risk governance program outcomes, key milestones and interdependencies tracking, change control and sequencing
Group Transformation Office	Enterprise frameworks, reporting and portfolio oversight

19 CORE Program workstreams:

- 1 Board risk governance
- 2 Executive culture and capability
- 3 Risk culture
- 4 Organisational design
- 5 Remuneration and consequence management
- 6 Risk roles and capability
- 7 Transformation capability and delivery
- 8 Risk management framework
- 9 Non-financial risk reporting and JUNO functionality
- 10 End-to-end risk and control environment
- 11 Assurance
- 12 Compliance management
- 13 Conduct risk
- 14 Customer complaints
- 15 Technology risk governance
- 16 Data risk governance
- 17 Credit risk governance
- 18 Market risk governance
- 19 Liquidity risk and capital adequacy risk governance

Committed to action on climate change.

Committed to managing our business in alignment with the Paris Agreement and a transition to a net zero economy by 2050.

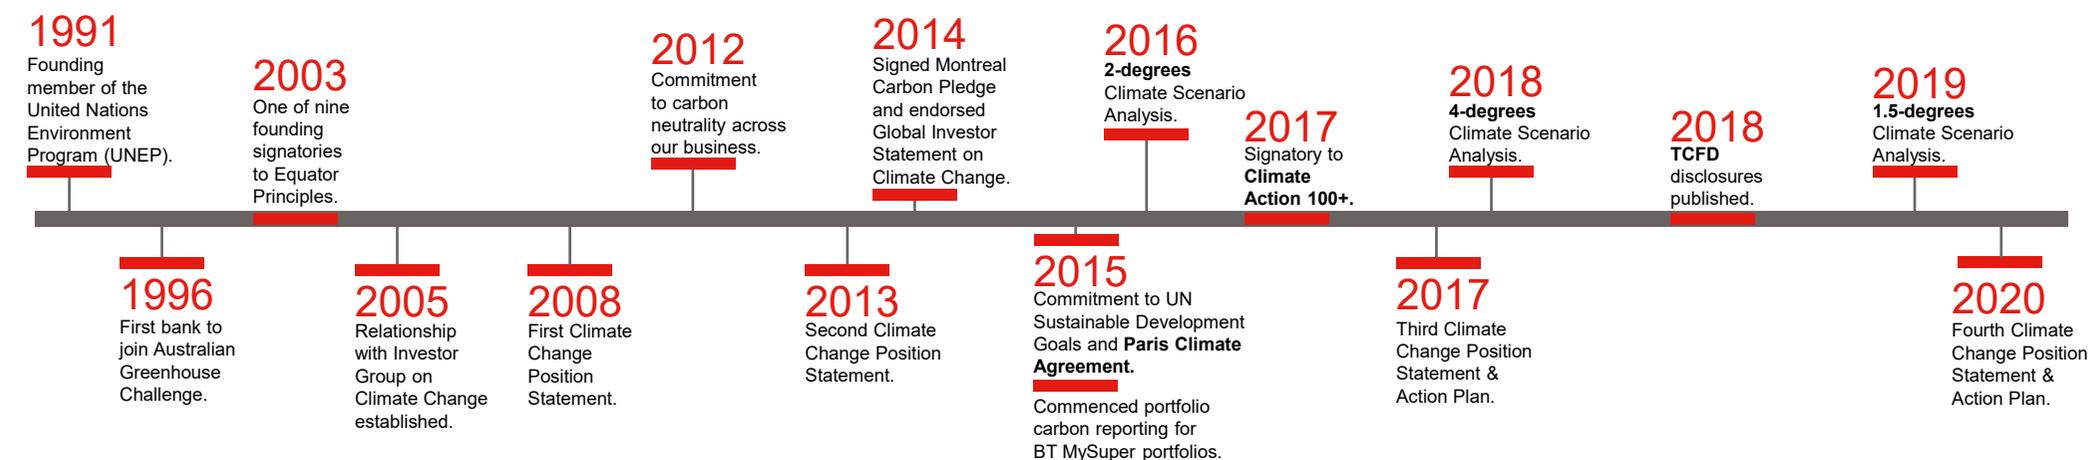

Progress and targets

Focus areas	Target	Year	Progress
New lending to climate change solutions	\$3.5bn \$15bn	2023 2030	\$0.5bn in 1H21
Thermal coal mining	\$0 exposure	2030	Total lending to coal mining of \$0.5bn. 56% is to thermal coal mining ¹
Electricity generation – portfolio emissions intensity ^{1,2}	0.23tCO ₂ -e/MWh 0.18tCO ₂ -e/MWh	2025 2030	0.25tCO ₂ -e/MWh Updated annually in November
Oil and gas (extraction, production and refining)	Establish sector criteria	2023	Updated scenario analysis. Developed internal assessment criteria ¹
Scope 1 & 2 emissions ^{2,3}	85% reduction 90% reduction	2025 2030	Down 27% from 2016 baseline. Updated annually in November
Scope 3 – supply chain emissions	35% reduction	2030	Updated annually in November

Participating in

- United Nations Environment Programme Finance Initiatives (UNEP FI) Principles for Responsible Banking
- Australian Sustainable Finance Initiative
- Australian Business Roundtable for Disaster Resilience and Safer Communities
- Corporate Sustainability Working Group of the Australian Banking Association
- RE100
- Investor Group on Climate Change
- Climate Action 100+
- Climate Leaders Coalition, New Zealand
- Sustainable Finance Forum of Aotearoa Circle, New Zealand

A proven track record in responding to climate change

1 WIB only. 2 At 30 September 2020. 3 FY16 Scope 1 & 2 emissions baseline: 147,620 tCO₂-e.

Climate-related disclosures – scenario analysis.

Transition risk – key points

- Transition climate risk includes domestic and market changes when moving to a greener economy, which can result in changes to costs, income and profits, investment preferences and asset viability
- Our analysis of transition risk focuses on our current Australian Business and Institutional lending¹ and exposure to sectors which may face growth constraints under 1.5-degree and 2-degree scenarios²
- Approximately 1.2% of our current Australian Business and Institutional lending is exposed to sectors that by 2030 may experience higher risk³ in a transition to a 1.5-degree economy. Under a 2050 scenario this is 2.5%
- During the half, we undertook transition risk analysis, and developed internal assessment criteria for the oil and gas sector (extraction, production and refining)⁴.
- Our updated approach means we will:
 - expect any new oil and gas exploration, production and refining customers, to whom we provide lending, to have publicly disclosed Paris-aligned business goals;
 - support existing customers to develop Paris-aligned financing strategies;
 - develop our approach and understanding of climate-related risk and opportunities in the oil and gas sector (including downstream segments) through engagement with our customers⁵; and
 - continue to provide annual updates on our progress

Alignment with the TCFD

- We continue to integrate the consideration of climate-related risks and opportunities into our operations. This includes alignment with the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD), referenced in APRA's draft Prudential Practice Guide on Climate Change Financial Risks.
- Climate change-related risks are managed within the Group's risk management framework
- Participating in APRA's 2021 Climate Vulnerability Assessment

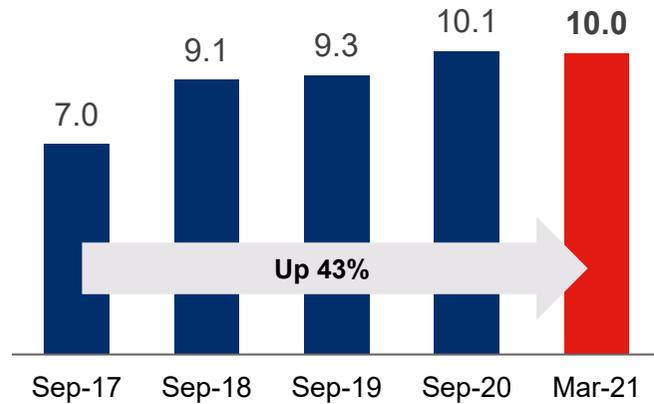

Physical risk – key points

- Physical climate risk refers to changes in climate and the frequency and magnitude of extreme weather events, with impacts including direct damage to assets or property
- Updated our approach to assessing the impact of extreme weather events under climate change scenarios on our Australian mortgage portfolio^{6,7}
- Focused on the Australian mortgage portfolio and exposure to locations that may face increased physical risk under an IPCC RCP⁸ 8.5 Scenario
- Approximately 2.0% of the current Australian mortgage portfolio may be exposed to higher physical risk⁹ under an IPCC RCP 8.5 Scenario by 2050

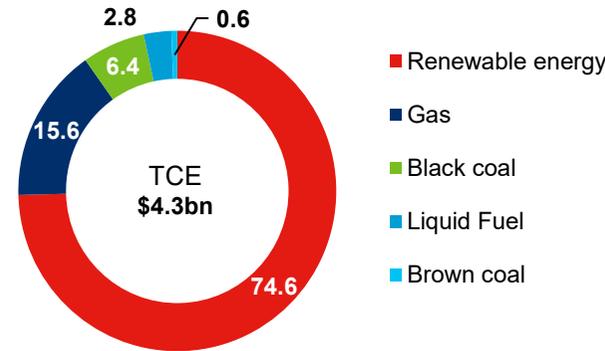

1 Australian Business and Institutional lending, excludes retail, sovereign, and bank exposures. 2 For further information see Westpac's FY20 Sustainability Performance Report. 3 Sectors whose medium (2030) and long-term (2050) performance under a scenario deviated by more than one standard deviation below average GDP growth, were classified as 'may face relatively higher growth constraints'. 4 For further information see 2021 Interim Financial Results. 5 WIB customers only. 6 Excludes RAMS and Equity Access. 7 Considered riverine flooding, coastal inundation, forest fire, extreme wind and soil subsidence. 8 Intergovernmental Panel on Climate Change (IPCC) Representative Concentration Pathway (RCP). 9 'Higher risk' were locations where insurance may become more expensive or unavailable.

Climate-related metrics.

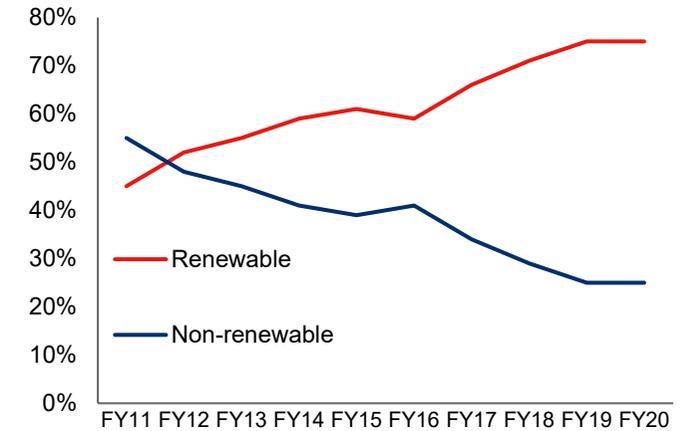

Lending to climate change solutions
(\$bn, TCE)

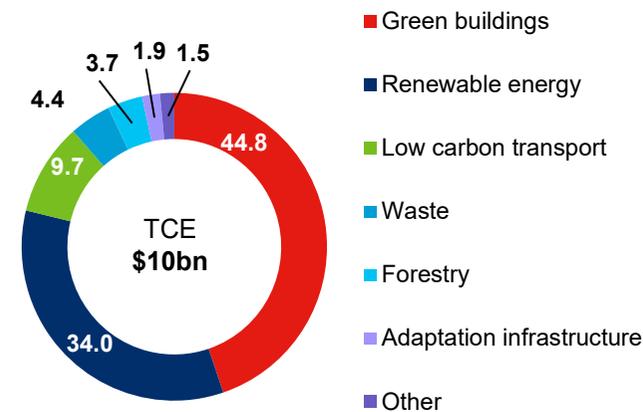

Electricity generation exposure
(% of TCE)¹ at 30 September 2020

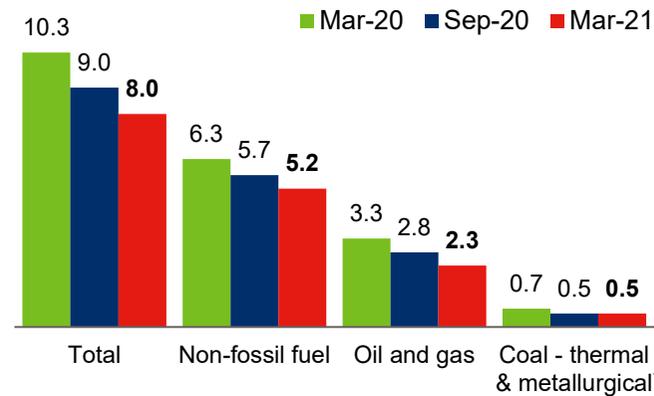

Lending to electricity generation
in Australia and New Zealand (% of total)

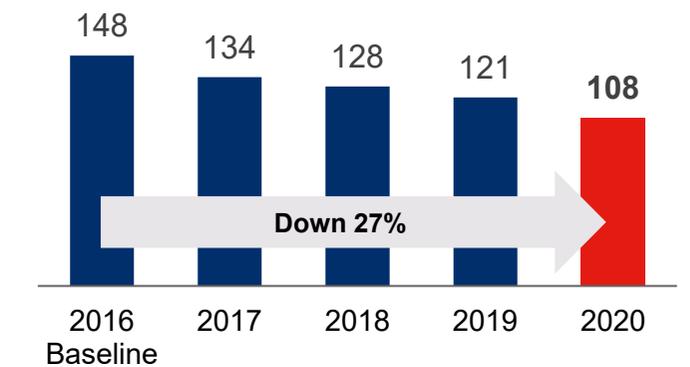

Climate change solutions exposure
(% of TCE)² at 31 March 2021

Mining exposure
(\$bn, TCE)³

Our scope 1 and 2 emission production⁵
(tCO₂-e 000's)

1 Exposures in WIB only. 2 Climate solutions definition is available in our 2020 Sustainability Datasheet glossary. 3 The reduction in lending to oil and gas extraction from September 2020 is mainly due to the consolidation of Westpac's international operations. 4 Lending to thermal coal mining is 56% of total coal mining in WIB. 5 FY16 Scope 1 & 2 emissions baseline: 147,620 tCO₂-e.

Respecting and advancing human rights.

Progressing our Human Rights Position Statement and 2023 Action Plan.

Salient human rights issues

- Vulnerable groups may be impacted by misuse of our services by others
- Remote Indigenous populations may face challenges with access to banking services
- Information security and data privacy

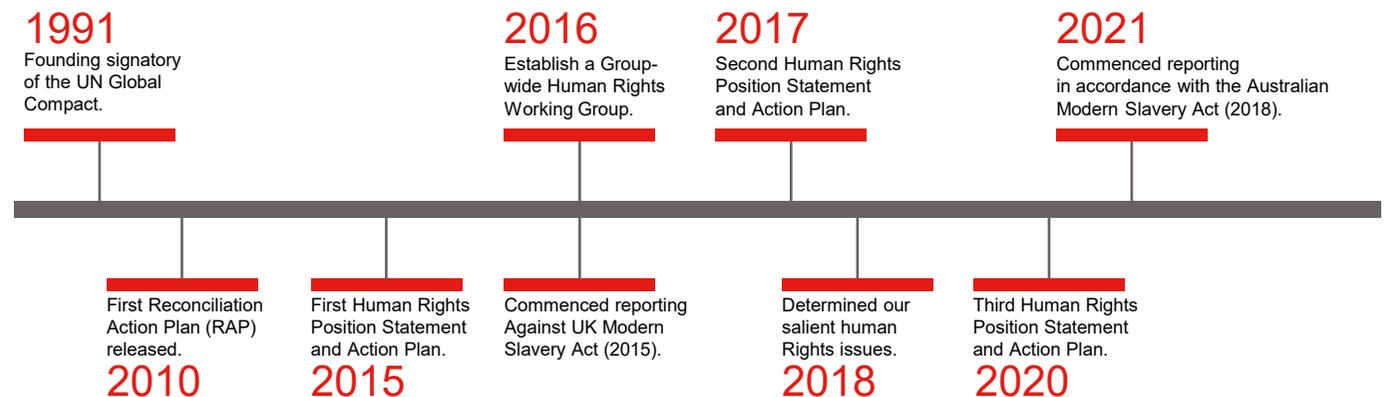

Progress in First Half 2021

- Supported customers at increased risk of vulnerability, with 18,000 customers receiving assistance through vulnerability specialist teams
 - Progressed program on financial crime risks
 - Progressed Safer Children, Safer Communities program
-
- Labour and land-related rights for vulnerable groups subject to marginalisation, discrimination or exploitation
 - Progressed implementation of our updated ESG Credit Risk Policy
 - Reviewed our position on certain sectors to include further guidance on human rights risks
-
- Reducing work-related mental ill-health and supporting employee wellbeing remains a priority
 - Refreshed Indigenous Cultural Awareness training
 - Supported the psychological health and safety of our workforce in response to COVID-19, including adapting to new ways of working
-
- Discrimination and harassment can impact our diverse workforce
 - Implemented an updated Responsible Sourcing Program and Code of Conduct
 - Submitted and published FY20 Modern Slavery Statement
-
- Workers in our supply chain may face unfair wages and working conditions

Embedding our principles

- Updated the Sustainability Risk Management Framework, to better embed the risk to people and to the business
- Commenced work on our 2021-23 Reconciliation Action Plan to better align with UN Declaration on the Rights of Indigenous Peoples
- **New risk appetite measures**, to improve tracking, monitoring and reporting on human rights

Our progress in taking action on human rights

Diversity and inclusion.

Diversity and inclusion strategy focused on 3 key pillars.

GENDER

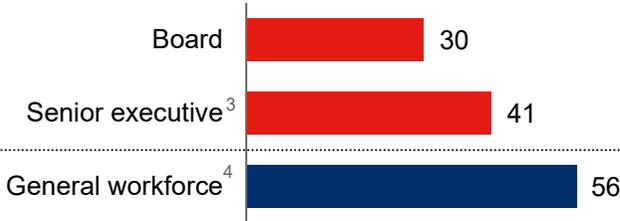

It starts with respect

- Elevated our Sexual Harassment Policy to a stand-alone policy aligned to the AHRC¹ *Respect@Work* recommendations and industry best practice
- Updated policy on consequences in cases of sexual harassment
- New HelpLine launched to support our people and report issues and incidents of sexual harassment
- New training on sexual harassment developed

Women in leadership² (%)

- Targeting 50% women in leadership (49% March 21)
- Annual Board-determined measurable objectives set for gender diversity in our board, senior executives and workforce

% women in leadership by category March 2021

1 Australian Human Rights Commission. 2 Refer slide 115 for definitions. 3 Refers to proportion of women in leadership in Group Executives and General Manager population. 4 Refers to % of women in total.

CULTURAL DIVERSITY

- Seeking to better identify and understand the cultural diversity of our workforce
- Will use this information to develop policies, training and development to support our people
- Promote development through a Group-wide Leadership Shadowing Program
- Employee Action Group with over 1,000 members with 62 different cultural heritages that work to promote awareness and inclusion of cultural diversity

INDIGENOUS PARITY

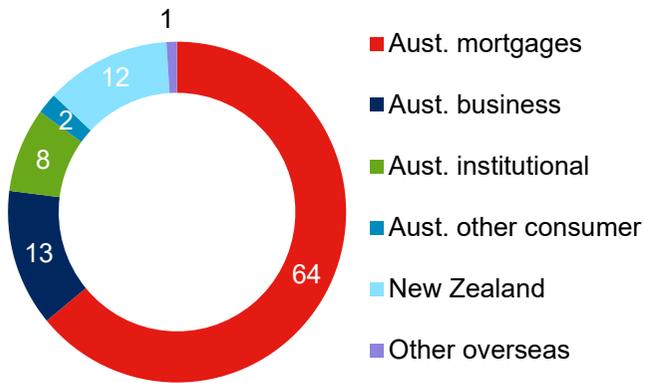

- Updating our Reconciliation Action Plan (RAP)
- Refreshed our cultural competency training, enabling our people to better support indigenous customers
- Supporting indigenous customers with translator services available through our Indigenous Connection Team
- Improved banking accessibility for over 4,500 indigenous and remote Australians through Yuri Ingkarninithi, our Indigenous Connection Team
- Providing access to capital for indigenous businesses through our partnership with First Australian's Capital
- Hired 55 indigenous employees in 1H21

Deferred acquisition costs	53	52	-
Other deferred expenses	29	31	8

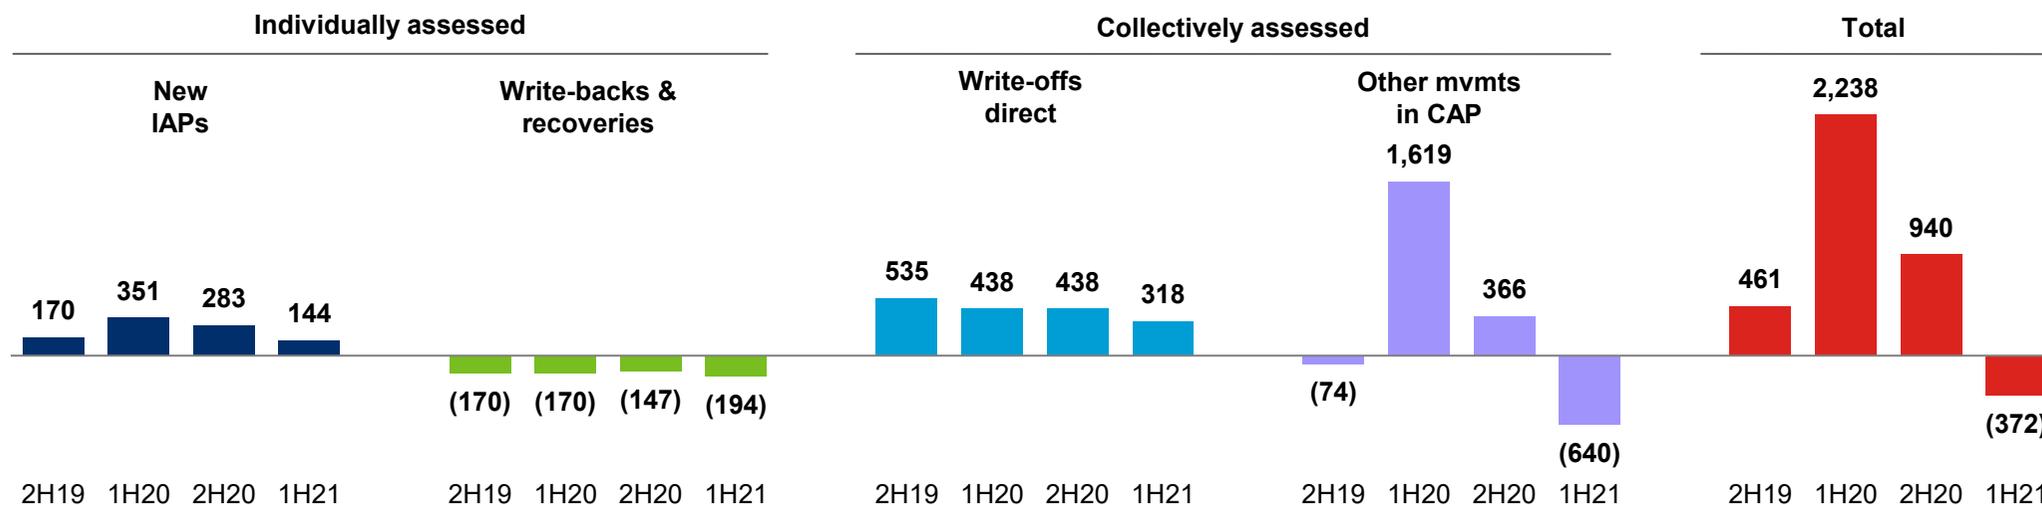

¹ Includes write-offs, impairments and foreign exchange translation. ² Deferred expenses principally relate to capitalised costs in Specialist Businesses. It does not include insurance deferred acquisition costs (which are offset to revenue) or mortgage broker costs (which are offset to net interest income). Other deferred expenses at March 2021 were lower from a reclassification to assets held for sale.

Impairment benefit in 1H21.

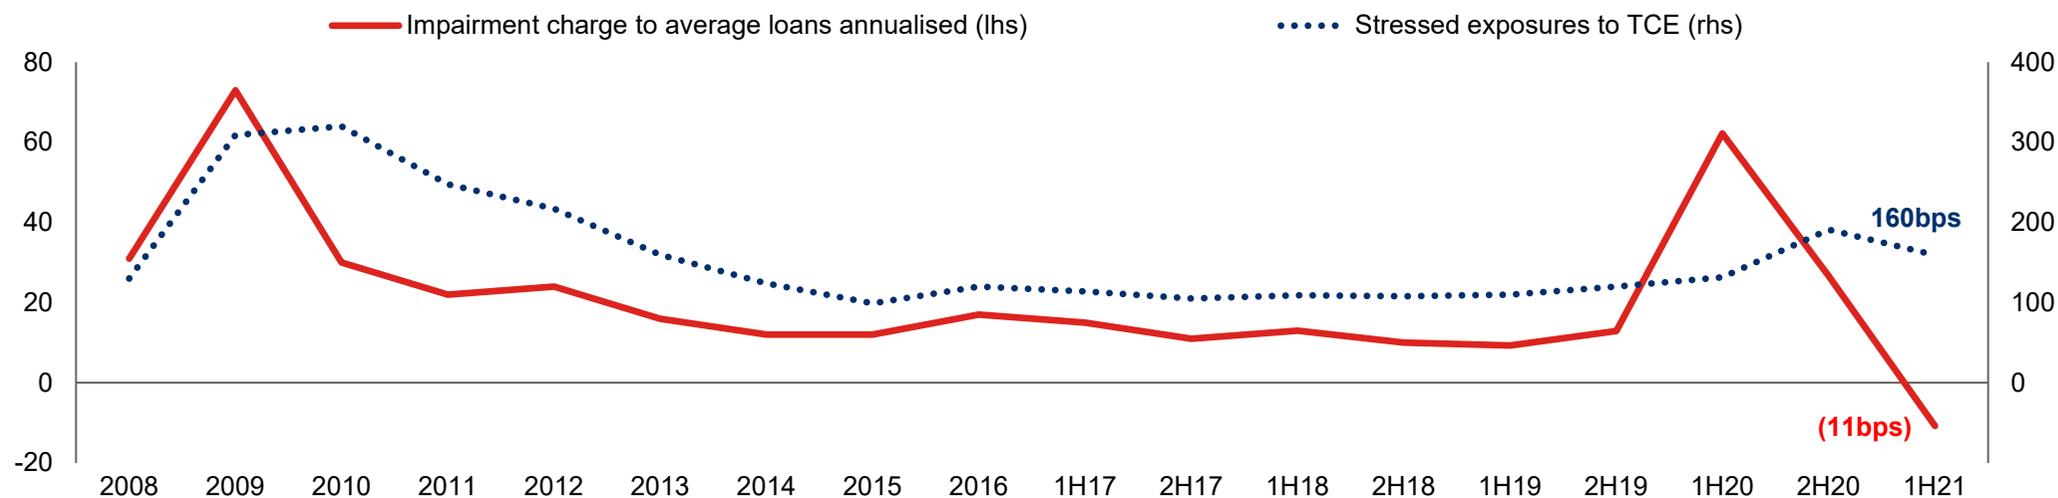

Impairment charges

Lower new IAPs, lower stress, better economic outlook.

Impairment charges (\$m)

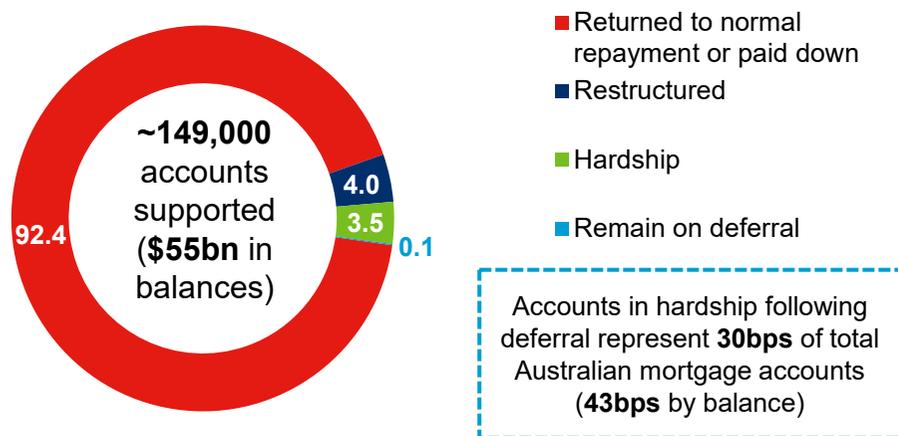

Impairment charges and stressed exposures (bps)

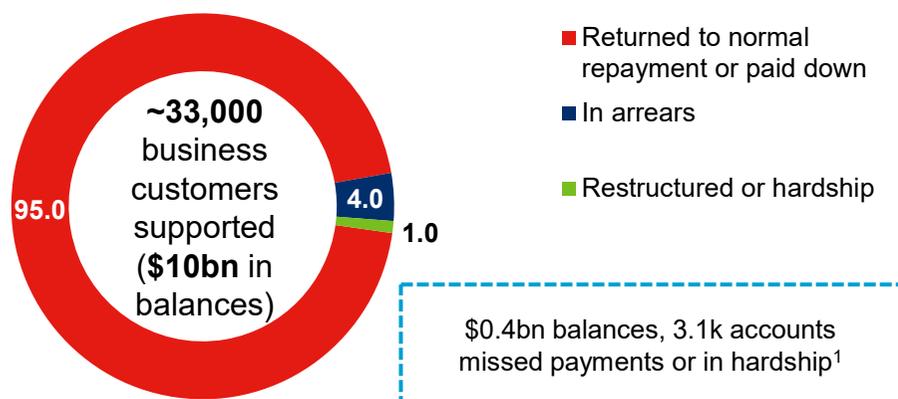

Credit quality and provisions

Australian deferrals.

Total mortgage deferral packages provided (% by balances)

Total business deferral packages provided (% by balances)

¹ Excludes Auto loans.

Mortgage deferrals update

- **139k** accounts had returned to full payments or paid down their loan (**\$50.8bn** in balances)
- **9.6k** accounts required further assistance (**\$4.1bn** in balances)
 - 4.5k accounts moved into hardship arrangements following the end of the deferral period (\$1.9bn in balances)
 - 5.1k accounts had their loans restructured, mostly moving to a 12-month interest only period (\$2.2bn in balances)
- A very small number of accounts remained in deferral in April

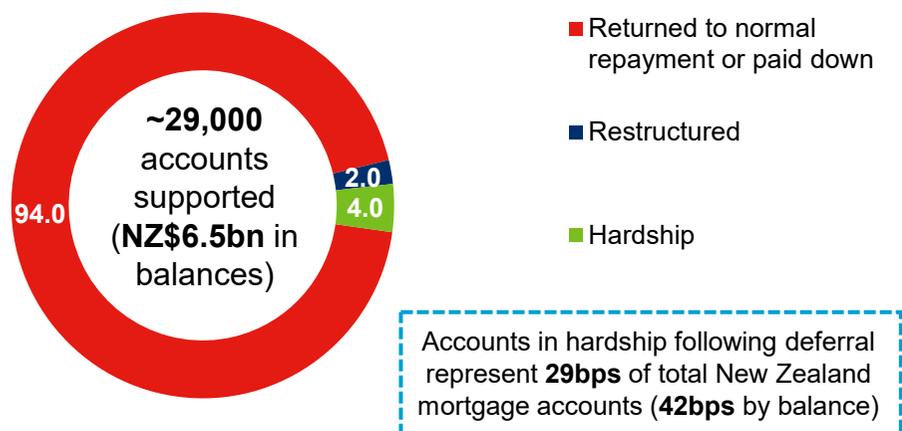

Business deferrals update

- Support provided to ~16% of eligible business lending balances
- At the end of March **95%** of customers returned to full payments and **<5%** requested further assistance. Of those that requested further assistance:
 - Most impacted industries were: Property & property services, Business services, and Accommodation and hospitality sectors; and
 - Most impacted states were: Victoria followed by NSW

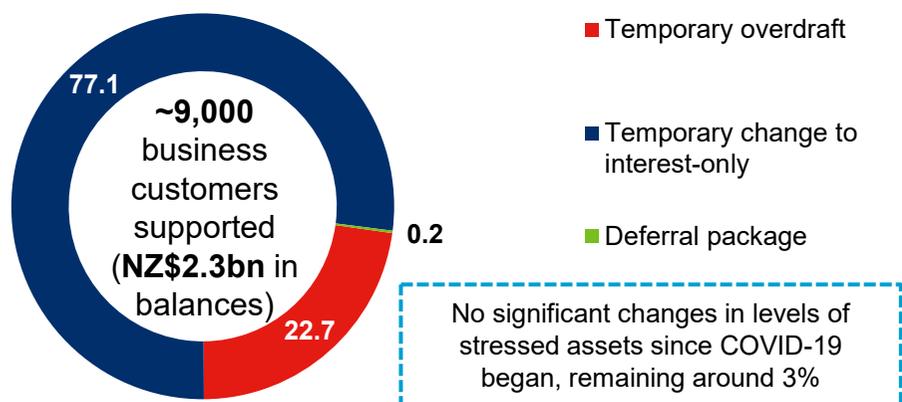

New Zealand deferrals.

Credit quality

Total mortgage deferral packages provided (% by balances)

Total business support packages provided (% by balances)

Mortgage deferrals update

- **29k** mortgage accounts supported with **NZ\$6.5bn** in balances (~11% of eligible mortgage lending)
- **1.6k** accounts required further assistance (**NZ\$0.4bn** in balances)
 - 1k accounts moved into hardship arrangements following the end of the deferral period (NZ\$0.2bn in balances)
 - 0.6k accounts had their loans restructured (NZ\$0.1bn in balances)
- A very small number of accounts remained in deferral in April

Business support packages update

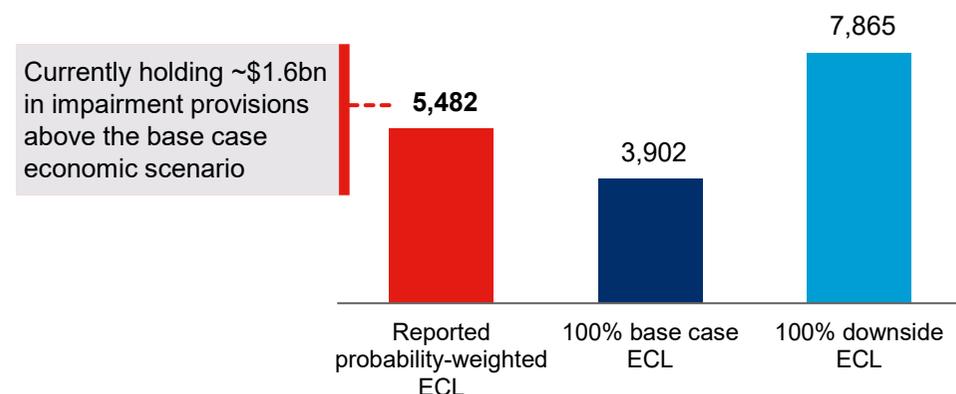

- **9k** business accounts supported with **NZ\$2.3bn** in balances (~9% of eligible business lending balance)
- Support provided included temporary overdrafts, temporary change to interest only, and deferral packages, with the majority of customers choosing temporary overdrafts or changing to interest only
- At end of March 2021 no COVID-19 temporary support packages were outstanding with loans either paid down or returned to normal repayment
- No temporary support packages outstanding at end of March 2021

Provisions lower from improved outlook.

¹ Dynamic LVR is the loan-to-value ratio taking into account the current loan balance, changes in security value, offset account balances and other loan adjustments. Property valuation source CoreLogic. ² Based on outstanding balance. Excludes line of credit loans, I/O loans without date (including bridging loans and loans with construction purpose) and I/O loans that should have switched to P&I but for the previously announced mortgage processing error. ³ Includes amortisation. Calculated at account level where split loans represent more than one account. ⁴ Customer loans ahead on payments exclude equity/line of credit products as there are no scheduled principal payments.

Lenders mortgage insurance arrangements.

Mortgage asset quality

WLMI continues to provide mortgage insurance to Westpac.

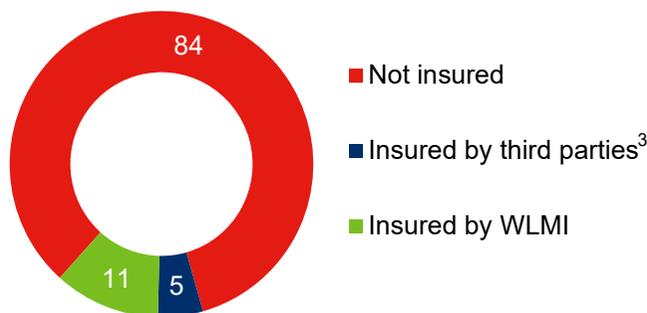

Lenders mortgage insurance (LMI)

- Where mortgage insurance is required, mortgages are insured through Westpac Lenders Mortgage Insurance¹ (WLMI), and reinsured through external LMI providers, based on risk profile
- In March, Westpac announced it would sell WLMI to Arch Capital Group (Arch) and enter into a 10-year exclusive supply agreement for Arch to provide lenders mortgage insurance to the Group
- Completion of this transaction is expected to occur by the end of August 2021, after which all LMI required on WBC mortgages will be underwritten by Arch
- Arch has provided reinsurance services to WLMI since 2011
- Westpac will retain responsibility for certain legacy matters and provide protection to Arch through customary warranties and indemnities
- WLMI remains well capitalised (separate from bank capital) and subject to APRA regulation. WLMI targets a capitalisation ratio of 1.2x PCR² and has consistently been above this target

Lenders mortgage insurance arrangements from 1 October 2020

LVR Band	Insurance

Insurance claims (\$m)	5	21	2
WLMI claims ratio ⁴ (%)	15	67	3
WLMI gross written premiums ⁵ (\$m)	89	91	154

¹ Since 18 May 2015 WLMI has underwritten all mortgage insurance, where required, on Westpac originated mortgages. The in-force portfolio of loans includes mortgage insurance provided by external providers. ² Prudential Capital Requirement (PCR) calculated in accordance with APRA standards. ³ Insured coverage is net of quota share. Third party has decreased compared to 30 September 2020 due to a reclassification of loans where the insurance is provided by WLMI and 100% reinsured through Arch LMI. ⁴ Loss ratio is claims over the total earned premium plus exchange commission. ⁵ LMI gross written premium includes loans >90% LVR reinsured with Arch Reinsurance Limited. 1H21 gross written premium includes \$104m from the arrangement (2H20: \$61m and 1H20: \$63m).

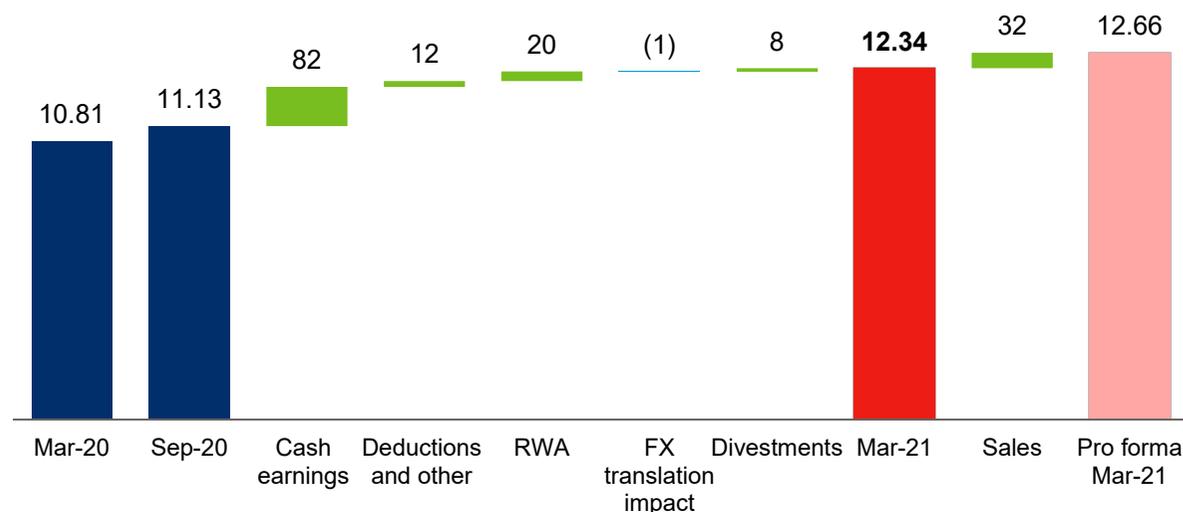

Capital, funding and liquidity

CET1 capital ratio 12.3%.

Capital, Funding and Liquidity

- CET1 capital ratio of 12.34%, up 121bps from 30 September 2020
- RWA declined 20bps mostly from lower credit RWA due to a reduction in lending and improved credit metrics
- Capital deductions and other capital movements mostly reflect deferred tax assets and higher other comprehensive income. Partly offset by higher earnings held in entities that are not consolidated for regulatory purposes
- Divestment impact 8bps from sale of Westpac's stake in Zip Co Limited
- 2020 final dividend paid was offset by the fully underwritten DRP
- Pro forma CET1 ratio includes the expected 32bp benefit from announced divestments (Vendor Finance, Westpac General Insurance, Westpac Pacific and Lenders Mortgage Insurance) and the sale of Coinbase

CET1 capital ratio movements (% , bps)

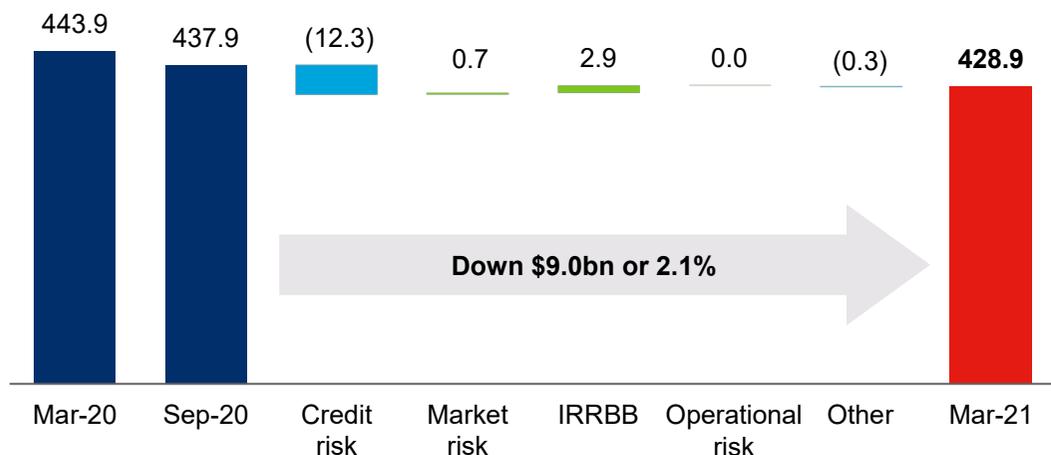

¹ Internationally comparable methodology aligns with the APRA study titled 'International Capital Comparison Study' dated 13 July 2015.

Key capital ratios (%)	Mar-20	Sep-20	Mar-21
CET1 capital ratio	10.8	11.1	12.3

CET1 capital ratio (internationally comparable)	15.8	16.5	18.1

Risk weighted assets.

Decrease from lower credit risk RWA.

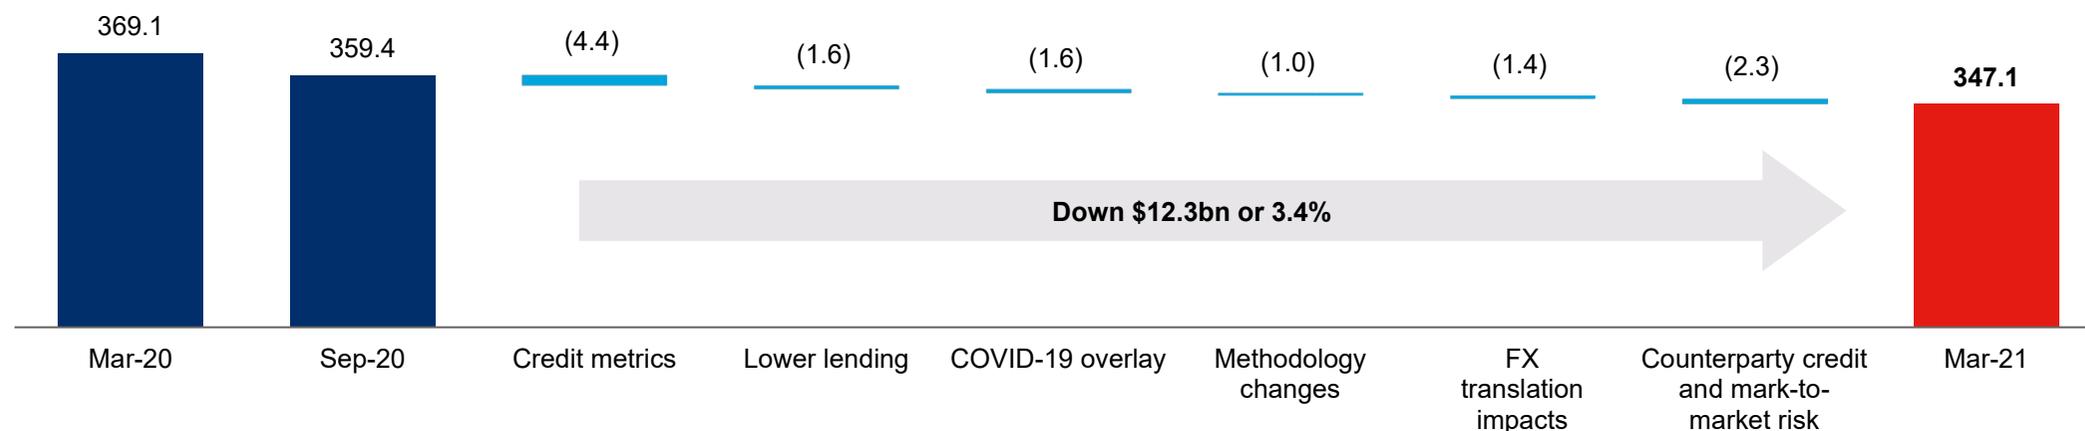

Risk weighted assets (\$bn)

Commentary

- RWA decreased \$9.0bn over 1H21, mostly from lower credit RWA (CRWA), partly offset by non-credit risk
- CRWA reduced \$12.3bn due to:
 - Lower corporate and business lending, partly offset by mortgage lending growth
 - Improved asset quality metrics across corporate and small business portfolios, including \$1.6 billion reduction in the RWA overlay for corporate, business and specialised lending
 - Lower counterparty credit and mark-to-market risk
 - RWA floor on mortgages to 23.8% increased CRWA \$3.7bn

Movement in credit risk weighted assets (\$bn)

Internationally comparable capital ratio reconciliation.

Capital, Funding and Liquidity

APRA's Basel III capital requirements are more conservative than those of the Basel Committee on Banking Supervision (BCBS), leading to lower reported capital ratios by Australian banks. In July 2015, APRA published a study that compared the major banks' capital ratios against a set of international peers¹. The following details the adjustments from this study and how Westpac's APRA Basel III CET1 capital ratio aligns to an internationally comparable ratio.

		(%)
Westpac's CET1 capital ratio (APRA basis)		12.3
Equity investments	Balances below prescribed threshold are risk weighted, compared to a 100% CET1 deduction under APRA's requirements	0.4
Deferred tax assets	Balances below prescribed threshold are risk weighted, compared to a 100% CET1 deduction under APRA's requirements	0.6
Interest rate risk in the banking book (IRRBB)	APRA requires capital to be held for IRRBB. The BCBS does not have a Pillar 1 capital requirement for IRRBB	0.5
Residential mortgages	Loss given default (LGD) of 15%, compared to the 20% LGD floor under APRA's requirements. APRA also applies a correlation factor for mortgages higher than the 15% factor prescribed in the Basel rules	1.9
Unsecured non-retail exposures	LGD of 45%, compared to the 60% or higher LGD under APRA's requirements	0.7
Non-retail undrawn commitments	Credit conversion factor of 75%, compared to 100% under APRA's requirements	0.5
Specialised lending	Use of internal-ratings based (IRB) probabilities of default (PD) and LGDs for income producing real estate and project finance exposures, reduced by application of a scaling factor of 1.06. APRA applies higher risk weights under a supervisory slotting approach, but does not require the application of the scaling factors	0.7
Currency conversion threshold	Increase in the A\$ equivalent concessional threshold level for small business retail and small to medium enterprise corporate exposures	0.2
Capitalised expenses	APRA requires these items to be deducted from CET1. The BCBS only requires exposures classified as intangible assets under relevant accounting standards to be deducted from CET1	0.3
Internationally comparable CET1 capital ratio		18.1
Internationally comparable Tier 1 capital ratio		21.0
Internationally comparable total regulatory capital ratio		25.9

¹ Methodology aligns with the APRA study titled "International capital comparison study", dated 13 July 2015.

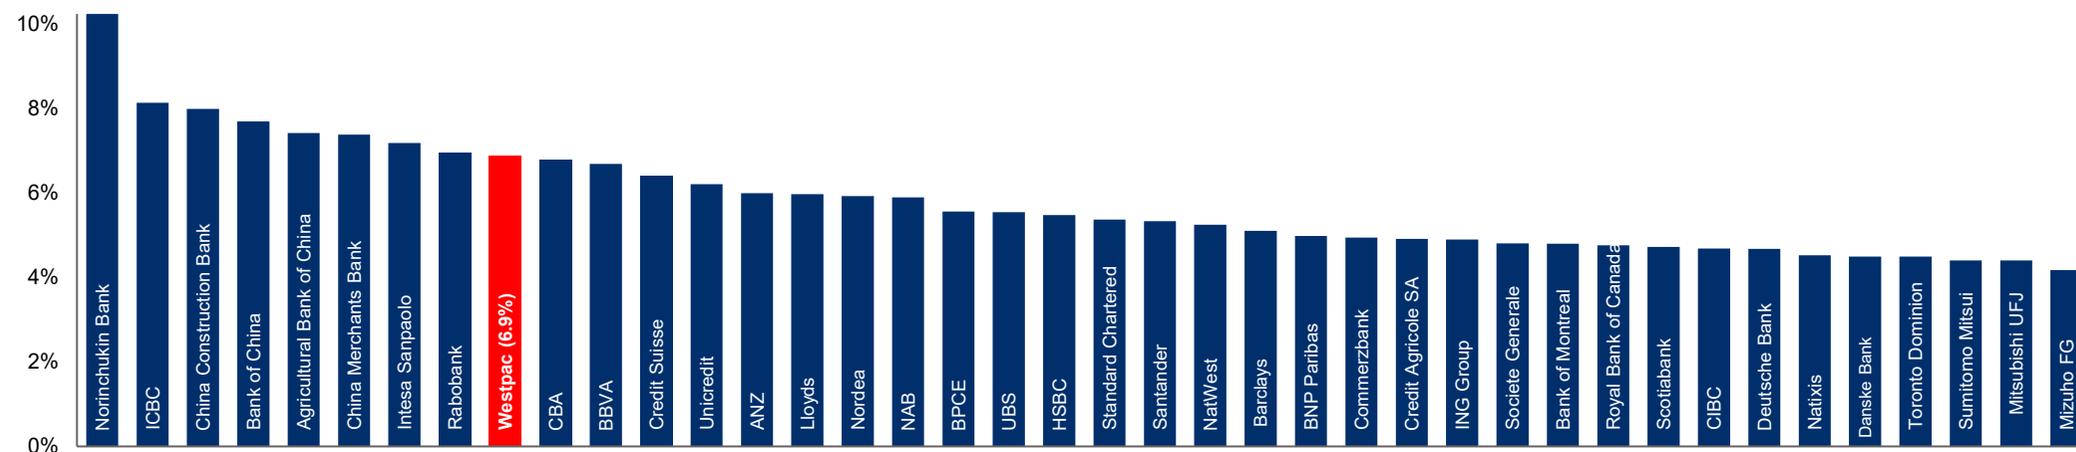

Well placed on internationally comparable.

CET1 and leverage ratios.

Common equity Tier 1 ratio (%)¹

Leverage ratio (%)¹

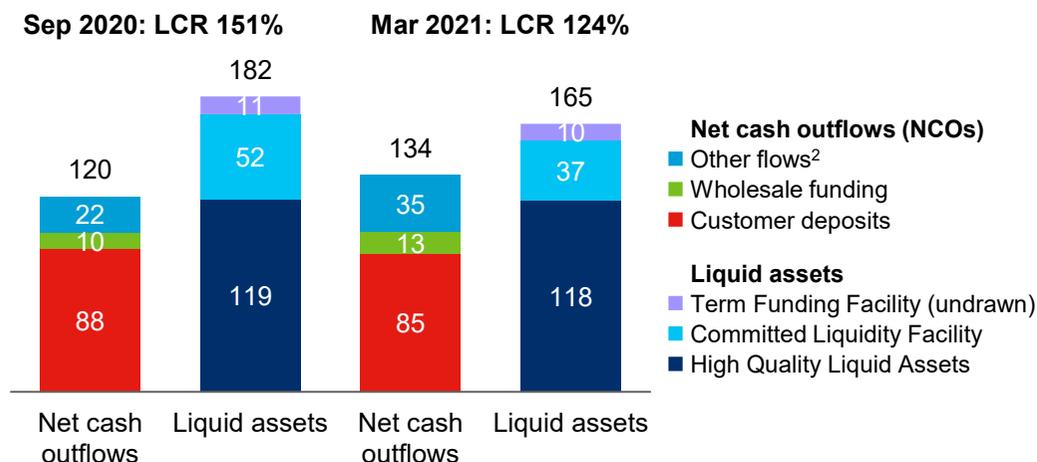

¹ Comparison group comprises listed commercial banks with assets in excess of A\$700bn and which have disclosed fully implemented Basel III ratios or provided sufficient disclosure to estimate. Based on company reports/ presentations. Ratios at 31 December 2020, except for Westpac which is at 31 March 2021, ANZ and NAB which are at 30 September 2020, and Bank of Montreal, Scotiabank, Royal Bank of Canada and Toronto Dominion are at 31 October 2020. Leverage ratio is on a transitional basis. Where accrued expected dividends have been deducted and disclosed, these have been added back for comparability. US banks are excluded from leverage ratio analysis due to business model differences, for example from loans sold to US Government sponsored enterprises. NAB has not disclosed an internationally comparable leverage ratio since September 2017. Shows ratios at the last reporting date, which may take account of measures taken by jurisdictions in response to COVID-19.

Liquidity and funding.

LCR lower from reduction in CLF and NCO overlay; NSFR little changed.

Liquidity coverage ratio¹ (LCR) (quarterly avg, \$bn)

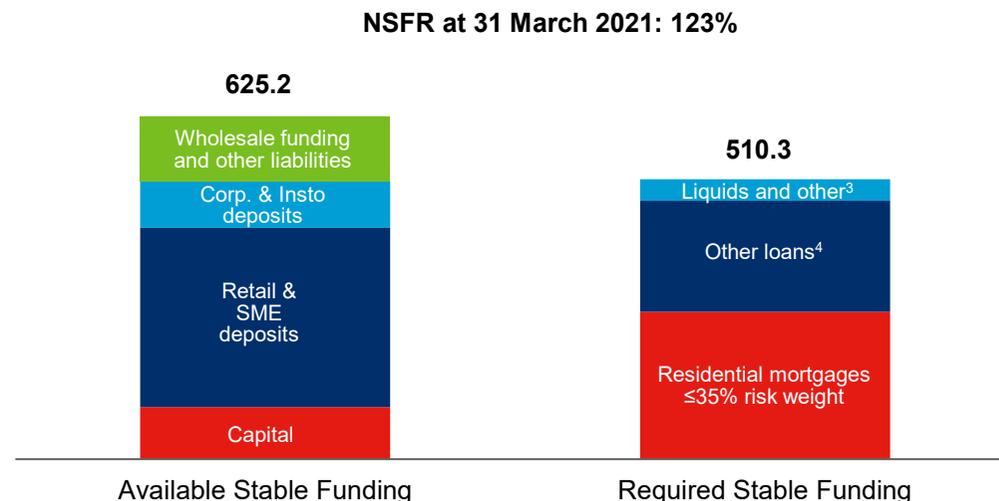

Bars do not add due to rounding

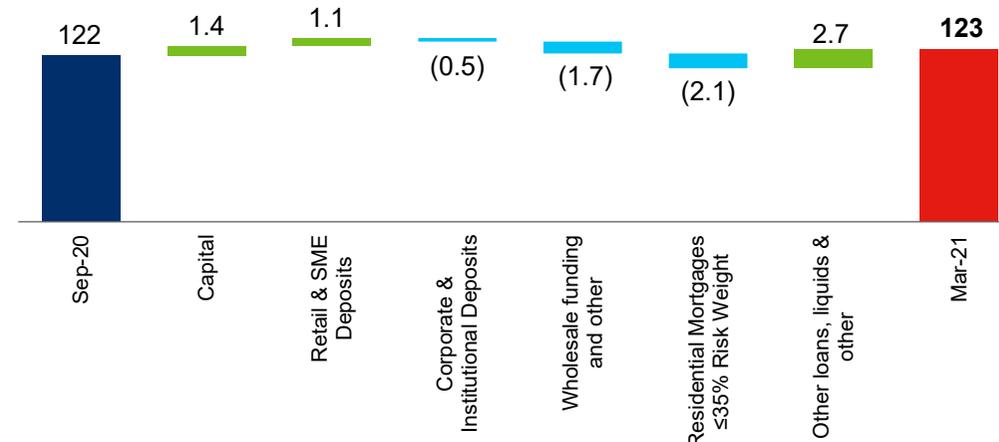

Liquidity coverage ratio¹ (quarterly average, %)

Net stable funding ratio (NSFR) (\$bn)

Net stable funding ratio (NSFR) (%)

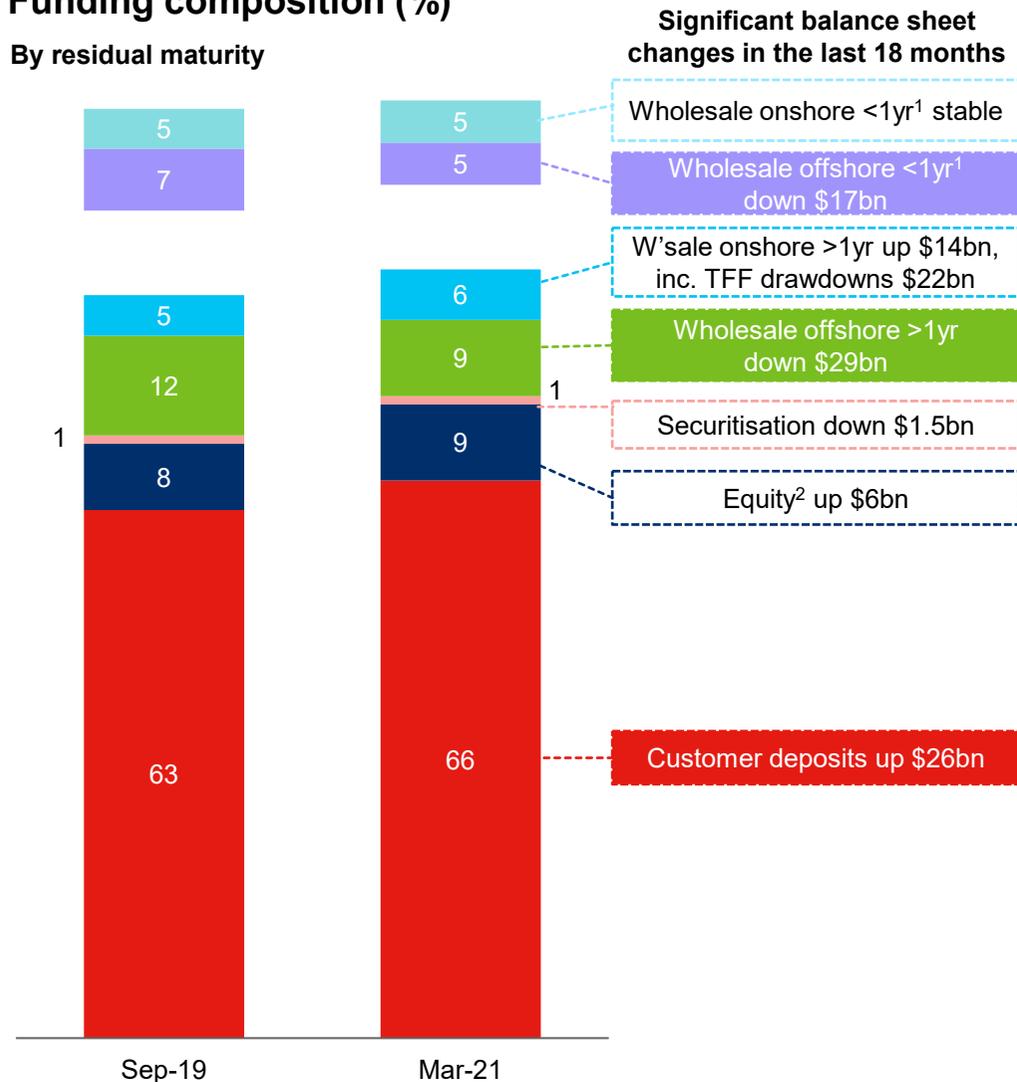

¹ LCR is calculated as the percentage ratio of stock of liquid assets over the total net cash outflows in a modelled 30 day defined stressed scenario. Liquid assets include HQLA as defined in APS 210, RBNZ eligible liquids, CLF eligible securities less RBA open repos funding end of day ESA balances with the RBA. The Committed Liquidity Facility (CLF) and Term Funding Facility (TFF) are made available to Australian Authorised Deposit-taking Institutions by the RBA that, subject to qualifying conditions, can be accessed to meet LCR requirements under APS210 – Liquidity. Other flows include credit and liquidity facilities, collateral outflows and inflows from customers. ² Other flows includes net cash outflow overlay. Effective 1 January 2021, the Group is required to increase the value of its net cash outflows by 10% for the purpose of calculating LCR, in response to action taken by APRA for breaches of Westpac's liquidity requirements predominantly relating to Westpac New Zealand Limited. This reduces the average LCR for the quarter ended 31 March 2021 by 12 percentage points. ³ Other includes derivatives and other assets. ⁴ Other loans includes off balance sheet exposures and residential mortgages >35% risk weight.

Balance sheet funding.

Shift in balance sheet: higher customer deposits, lower offshore wholesale funding

Funding composition (%)

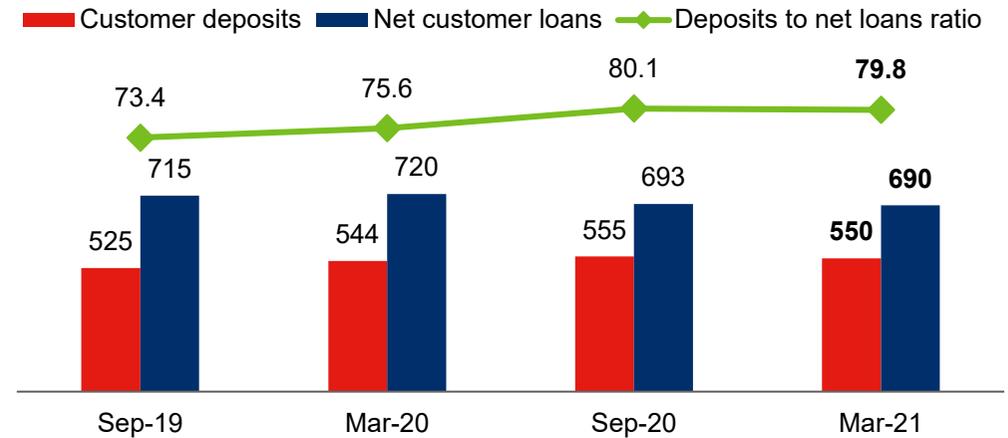

By residual maturity

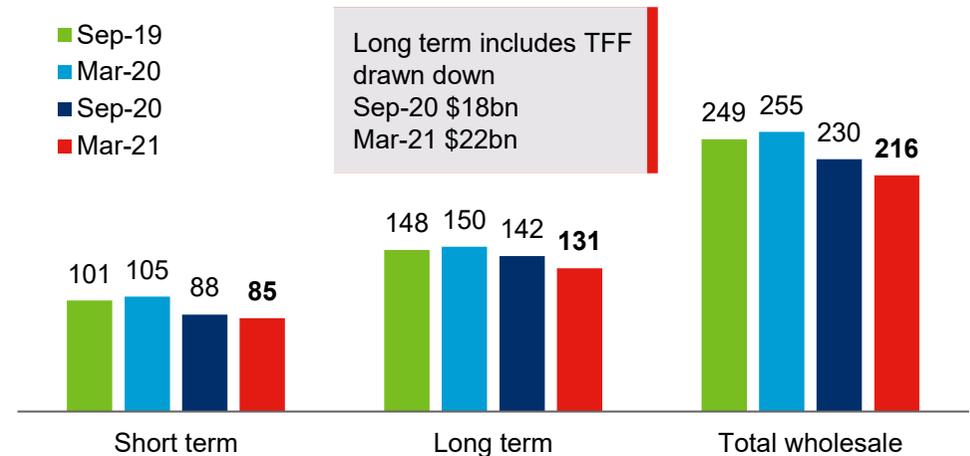

Bars may not add to 100 due to rounding

1 Includes long term wholesale funding with a residual maturity less than or equal to 1 year. 2 Equity excludes FX translation, Available-for-Sale securities and Cash Flow Hedging Reserves. 3 Short term funding includes scroll. Scroll represents wholesale funding with an original maturity greater than 12 months that now has a residual maturity less than 12 months. Long term includes securitisation.

Customer deposits to net loans ratio (%)

Wholesale funding by residual maturity³ (\$bn)

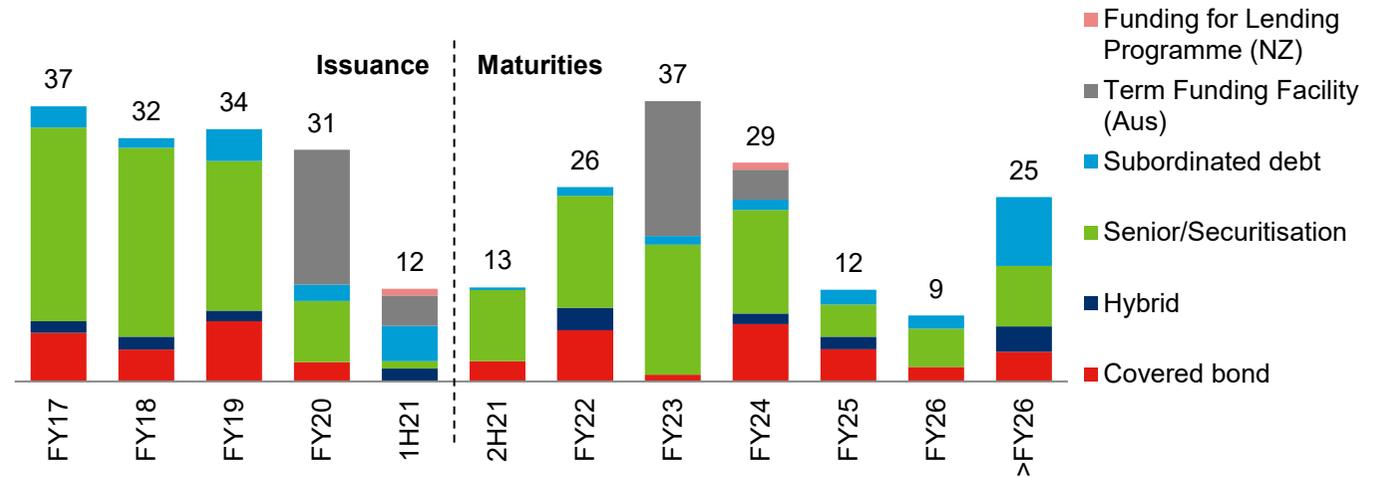

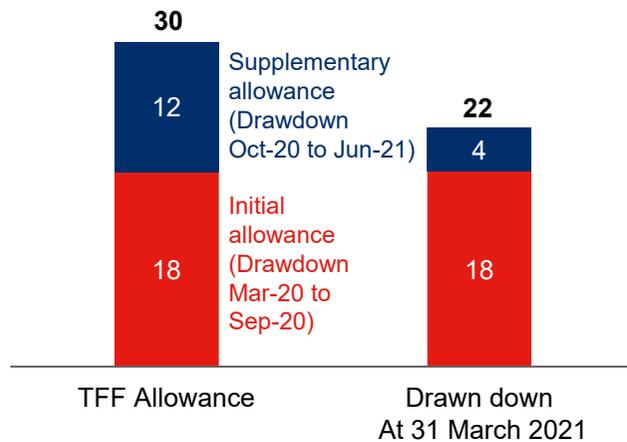

Long term wholesale funding.

Funding in 1H21 limited to meeting TLAC and capital needs.

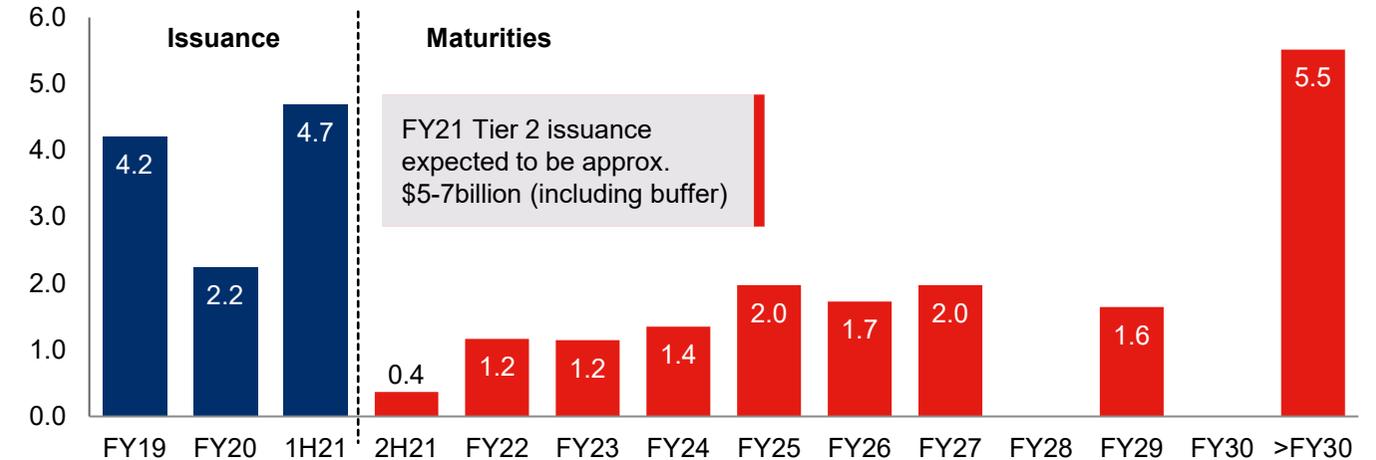

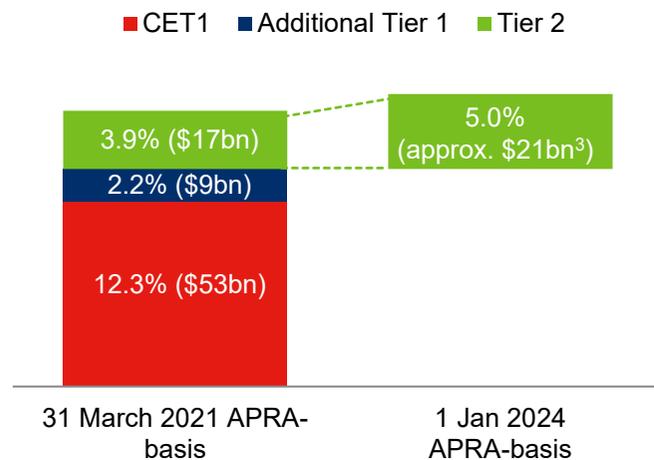

Term Funding Facility¹ (TFF) (\$bn)

Term debt issuance and maturity profile² (\$bn)

Westpac Total Regulatory Capital

Westpac Tier 2 issuance and calls/maturities⁴ (notional amount, A\$m)

¹ Westpac's Additional Allowance at 31 March 2021 was zero. ² Based on residual maturity and FX spot currency translation. Includes all debt issuance with contractual maturity greater than 13 months excluding US Commercial Paper and Yankee Certificates of Deposit. Contractual maturity date for hybrids and callable subordinated instruments is the first scheduled conversion date or call date for the purposes of this disclosure. Perpetual sub debt has been included in >FY26 maturity bucket. Maturities exclude securitisation amortisation. ³ Based on current capital regulation. Does not include balance sheet growth or management buffer. ⁴ Represents AUD equivalent notional amount using spot FX translation at date of issue for issuance and spot FX translation at 31 March 2021 for maturities. Securities in callable format profiled to first call date, excluding the Perpetual Floating Rate Notes issued 30 September 1986. Securities in bullet format profiled to maturity date.

Milk price (NZ\$)

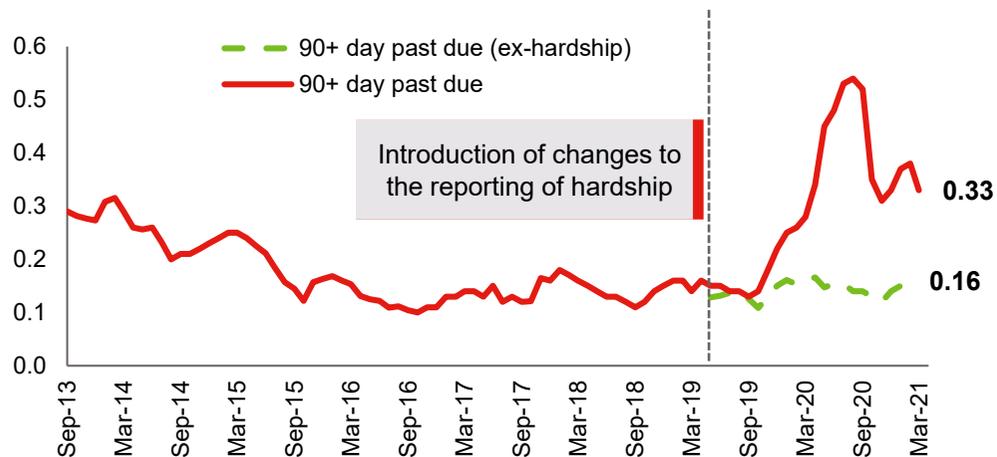

Dairy portfolio summary

- Overall portfolio health remains sound with risk profiles improving as a result of the higher milk prices paid over the last two seasons. Focus remains on supporting existing dairy customers with proven long-term viability
- Global dairy prices have increased on the back of rebounding Chinese and South-East Asian demand. Fonterra has revised its 2020/21 milk price forecast range to \$7.30/kg - \$7.90/kg, while Westpac has lifted its forecast to \$7.90/kg
- Uncertainty around environmental regulations, rising compliance costs, Fonterra's financial performance and labour shortages are ongoing risks to the dairy sector outlook

New Zealand housing market.

Major policy shift.

Economics

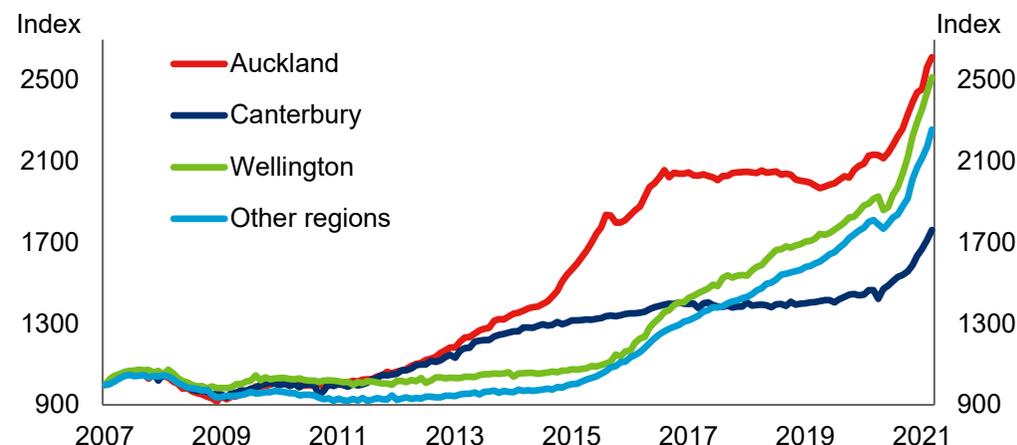

Changes to housing market policies

- The Government has announced a suite of new housing market policies affecting both demand and supply
- The most significant changes relate to the tax treatment of mortgage interest costs
- This will erode the financial incentives for property investors and tilt housing market conditions more in favour of owner occupiers
- Westpac expects these policy changes will prompt a flattening off of house prices over the remainder of 2021. That follows a period of very strong growth since the economy exited lockdown.

The major changes introduced by the Government include:

- Removing the ability to offset mortgage costs on residential investment properties against the income earned on those properties
 - This change will take effect from 1 October 2021 for properties purchased after 27 March 2021 and will be gradually phased in over the next four years for existing property owners
 - The Government is also looking at exceptions for new builds
- The holding period for taxing capital gains on residential investment properties (otherwise known as the 'Bright-line test') has been extended from 5 to 10 years
 - The holding period remains at 5 years for investors who buy new builds
- A \$3.8bn Housing Acceleration Fund is being established to assist with the development of infrastructure (such as pipes and roads) to support new housing
- Additional financial assistance for first home buyers with changes in First Home Loans and Grants settings, including increases in income caps, as well as changes to regional price caps

Appendix and Disclaimer

Appendix 1:

Cash earnings adjustments.

Cash earnings adjustment (\$m)	1H20	2H20	1H21	Description
Reported net profit	1,190	1,100	3,443	Net profit attributable to owners of Westpac Banking Corporation
Fair value (gain)/loss on economic hedges	(219)	581	48	<p>Fair value on economic hedges (which do not qualify for hedge accounting under AAS) comprise:</p> <ul style="list-style-type: none"> The unrealised fair value (gain)/loss on foreign exchange hedges of future New Zealand earnings impacting non-interest income is reversed in deriving cash earnings as they may create a material timing difference on reported results but do not affect the Group's cash earnings over the life of the hedge. Westpac has ceased this activity, and at this stage no further adjustments will be recognised; and The unrealised fair value (gain)/loss on hedges of accrual accounted term funding transactions are reversed in deriving cash earnings as they may create a material timing difference on reported results but do not affect the Group's cash earnings over the life of the hedge
Ineffective hedges	(24)	(37)	46	The unrealised (gain)/loss on ineffective hedges is reversed in deriving cash earnings because the gain or loss arising from the fair value movement in these hedges reverses over time and does not affect the Group's profits over time
Adjustments related to Pandal Group	63	(32)	-	Consistent with prior periods, this item has been treated as a cash earnings adjustment given its size and that it does not reflect ongoing operations. The adjustment relates to the mark-to-market of the shares. Westpac disposed of its holdings in Full Year 2020. As a result, no further adjustments will be recognised
Treasury shares	(17)	3	-	Under AAS, Westpac shares held by the Group in the managed funds and life businesses are deemed to be Treasury shares and the results of holding these shares cannot be recognised in the reported results. In deriving cash earnings, these results are included to ensure there is no asymmetrical impact on the Group's profits because the Treasury shares support policyholder liabilities and equity derivative transactions which are revalued in determining income. At 31 March 2021, there are no Treasury shares
Cash earnings	993	1,615	3,537

Appendix 4:

Definitions – Credit quality.

90 days past due and not impaired	<p>Includes facilities where:</p> <ul style="list-style-type: none"> contractual payments of interest and / or principal are 90 or more calendar days overdue, including overdrafts or other revolving facilities that remain continuously outside approved limits by material amounts for 90 or more calendar days (including accounts for customers who have been granted hardship assistance); or an order has been sought for the customer's bankruptcy or similar legal action has been instituted which may avoid or delay repayment of its credit obligations; and the estimated net realisable value of assets / security to which Westpac has recourse is sufficient to cover repayment of all principal and interest, or where there are otherwise reasonable grounds to expect payment in full and interest is being taken to profit on an accrual basis. <p>These facilities, while in default, are not treated as impaired for accounting purposes</p>	Stage 2: Lifetime ECL – performing	For financial assets where there has been a significant increase in credit risk since origination but where the asset is still performing a provision for lifetime expected losses is recognised. Interest revenue is calculated on the gross carrying amount of the financial asset
Provision for expected credit losses (ECL)	Expected credit losses (ECL) are a probability-weighted estimate of the cash shortfalls expected to result from defaults over the relevant timeframe. They are determined by evaluating a range of possible outcomes and taking into account the time value of money, past events, current conditions and future economic conditions	Impaired assets	For financial assets that are non-performing a provision for lifetime expected losses is recognised. Interest revenue is calculated on the carrying amount net of the provision for ECL rather than the gross carrying amount
Collectively assessed provisions (CAPs)	CAPs for expected credit loss under AASB 9 represent the Expected Credit Loss (ECL) which is collectively assessed in pools of similar assets with similar risk characteristics. This incorporates forward looking information and does not require an actual loss event to have occurred for an impairment provision to be recognised	<p>Includes exposures that have deteriorated to the point where full collection of interest and principal is in doubt, based on an assessment of the customer's outlook, cashflow, and the net realisation of value of assets to which recourse is held:</p> <ul style="list-style-type: none"> facilities 90 days or more past due, and full recovery is in doubt: exposures where contractual payments are 90 or more days in arrears and the net realisable value of assets to which recourse is held may not be sufficient to allow full collection of interest and principal, including overdrafts or other revolving facilities that remain continuously outside approved limits by material amounts for 90 or more calendar days; non-accrual facilities: exposures with individually assessed impairment provisions held against them, excluding restructured loans; restructured assets: exposures where the original contractual terms have been formally modified to provide for concessions of interest or principal for reasons related to the financial difficulties of the customer; other assets acquired through security enforcement (includes other real estate owned): includes the value of any other assets acquired as full or partial settlement of outstanding obligations through the enforcement of security arrangements; and any other facility where the full collection of interest and principal is in doubt 	
Individually assessed provisions (IAPs)	Provisions raised for losses that are known to be impaired and are assessed on an individual basis. The estimated losses on these impaired loans is based on expected future cash flows discounted to their present value and, as this discount unwinds, interest will be recognised in the income statement	Stressed exposures	Watchlist and substandard, 90 days past due and not impaired and impaired exposures. Stressed exposures do not include stressed exposures which are on an active COVID-19 deferral package as of 30 September 2020
Stage 1: 12 months ECL – performing	For financial assets where there has been no significant increase in credit risk since origination a provision for 12 months expected credit losses is recognised. Interest revenue is calculated on the gross carrying amount of the financial asset	Total committed exposures (TCE)	Represents the sum of the committed portion of direct lending (including funds placement overall and deposits placed), contingent and pre-settlement risk plus the committed portion of secondary market trading and underwriting risk
		Watchlist and substandard	Loan facilities where customers are experiencing operating weakness and financial difficulty but are not expected to incur loss of interest or principal

Appendix 4:

Definitions – Divisions, earnings drivers, capital and liquidity.

Divisions	
Consumer	Consumer provides banking products and services to Australian personal customers, including mortgages, credit cards, personal loans, and savings and deposit products
Business	Business serves the banking needs of Australian SME and Commercial customers (including Agribusiness) and provides banking and advisory services to high net worth individuals through Private Wealth
WIB	Westpac Institutional Bank (WIB) provides a broad range of financial products and services to corporate, institutional and government customers
Westpac NZ	Westpac New Zealand provides banking, wealth and insurance products and services for consumer, business and institutional customers in New Zealand
Specialist Businesses	Specialist Businesses provides auto finance, Australian life, general and lenders mortgage insurance, investment product and services (including margin lending and equities broking), superannuation and retirement products as well as wealth administration platforms. It also manages Westpac Pacific which provides a full range of banking services in Fiji and Papua New Guinea. Westpac has announced it has entered into a sales agreement for Westpac Pacific, Westpac Vendor Finance business, Westpac General Insurance, and Westpac Lenders Mortgage Insurance. These sales are expected to finalise in 2021, subject to regulator approvals
Group Businesses or GB	Group Businesses includes the results of unallocated support functions such as Treasury, Technology and Operations, and Core Support. It also includes Group-wide elimination entries arising on consolidation, centrally raised provisions and other unallocated revenue and expenses
Earnings drivers	
Average interest-earning assets (AIEA)	The average balance of assets held by the Group that generate interest income. Where possible, daily balances are used to calculate the average balance for the period
Cash earnings per ordinary share	Cash earnings divided by the weighted average ordinary shares (cash earnings basis)
Core earnings	Net operating income less operating expenses
Full-time equivalent employees (FTE)	A calculation based on the number of hours worked by full and part-time employees as part of their normal duties. For example, the full-time equivalent of one FTE is 76 hours paid work per fortnight

Capital and liquidity	
Capital ratios	As defined by APRA (unless stated otherwise)
Committed liquidity facility (CLF)	The RBA makes available to Australian Authorised Deposit-taking Institutions a CLF that, subject to qualifying conditions, can be accessed to meet LCR requirements under APS210 Liquidity
High quality liquid assets (HQLA)	Assets which meet APRA's criteria for inclusion as HQLA in the numerator of the LCR
Internationally comparable ratios	Internationally comparable regulatory capital ratios are Westpac's estimated ratios after adjusting the capital ratios determined under APRA Basel III regulations for various items. Analysis aligns with the APRA study titled "International capital comparison study" dated 13 July 2015
Leverage ratio	As defined by APRA (unless stated otherwise). Tier 1 capital divided by 'exposure measure' and expressed as a percentage. 'Exposure measure' is the sum of on-balance sheet exposures, derivative exposures, securities financing transaction exposures and other off-balance sheet exposures
Liquidity coverage ratio (LCR)	An APRA requirement to maintain an adequate level of unencumbered high quality liquid assets, to meet liquidity needs for a 30 calendar day period under an APRA-defined severe stress scenario. Absent a situation of financial stress, the value of the LCR must not be less than 100%, effective 1 January 2015. LCR is calculated as the percentage ratio of stock of HQLA and CLF over the total net cash out-flows in a modelled 30 day defined stressed scenario
Net stable funding ratio (NSFR)	The NSFR is defined as the ratio of the amount of available stable funding (ASF) to the amount of required stable funding (RSF) defined by APRA. The amount of ASF is the portion of an ADI's capital and liabilities expected to be a reliable source of funds over a one year time horizon. The amount of RSF is a function of the liquidity characteristics and residual maturities of an ADI's assets and off-balance sheet activities. ADI's must maintain an NSFR of at least 100%
Risk weighted assets or RWA	Assets (both on and off-balance sheet) are risk weighted according to each asset's inherent potential for default and what the likely losses would be in case of default. In the case of non-asset-backed risks (ie. market and operational risk), RWA is determined by multiplying the capital requirements for those risks by 12.5

Appendix 4:

Definitions – Other.

Branch transactions	Branch transactions are typically withdrawals, deposits, transfers and payments
Customer satisfaction or CSat	The Customer Satisfaction score is an average of customer satisfaction ratings of the customer's main financial institution for consumer or business banking on a scale of 0 to 10 (0 means 'extremely dissatisfied' and 10 means 'extremely satisfied')
CSAT (Main Bank Service Satisfaction) (Westpac NZ)	Source: 3 month rolling Retail Market Monitor data (survey conducted by Camorra Research). Respondents are asked to rate the overall level of service they receive from their main bank (self-selected which ONE bank is their main provider of financial services) on a scale of 1 (Poor) to 5 (Excellent). The rating represents % of respondents who scored 4 (Very Good) or 5 (Excellent)
CSat – overall consumer	Source: DBM Consultants Consumer Atlas, August 2018 – February 2021, 6MMA. MFI customers
CSat – overall business	Source: DBM Consultants Business Atlas, August 2018 – February 2021, 6MMA. MFI customers, all businesses
CSat – SME	Source: DBM Consultants Business Atlas, 6 months to September 2019, March 2020 and August 2020. MFI customers, Total SME businesses. Total SME businesses are those organisations with annual turnover under \$5 million (excluding Agribusinesses)
Digitally active	Australian consumer and business customers who have had an authenticated session (including Quickzone) on Westpac Group digital banking platforms in the prior 90 days
Digital sales	Sales refers to digital sales of consumer core products only. Sales with a funded deposit or activation constitute a quality sale. Includes new American Express credit card sales
Digital transactions	Digital transactions including payment and transfers that occur on Westpac Live and Compass platforms (excludes payments on other platforms such as Corporate Online and Business Banking Online)
MFI share	MFI share results are based on the number of customers who have a Main Financial Institution (MFI) relationship with an institution, as a proportion of the number of customers that have a MFI relationship with any institution
Consumer MFI share	Source: DBM Consultants Consumer Atlas, 6 months to February 2021. MFI customers

Net Promoter Score or NPS	Net Promoter Score measures the net likelihood of recommendation to others of the customer's main financial institution for retail or business banking. Net Promoter Score SM is a trademark of Bain & Co Inc., Satmetrix Systems, Inc., and Mr Frederick Reichheld. Using a 11 point numerical scale where 10 is 'Extremely likely' and 0 is 'Extremely unlikely', Net Promoter Score is calculated by subtracting the percentage of Detractors (0-6) from the percentage of Promoters (9-10)
NPS Agri (Westpac NZ)	6 month Agri Market Monitor data (survey conducted by Key Research). Respondents are asked about likelihood to recommend their main business bank to business colleagues, friends or family on a scale of 1 (extremely unlikely) to 10 (extremely likely). Net Promoter Score is represents % of Promoters (recommend score of 9 or 10) minus % of Detractors (recommend score of 1 to 6)
NPS Business (Westpac NZ)	Source: 6 month rolling Business Finance Monitor data (survey conducted by Kantar TNS among businesses with an annual turnover of \$5 to \$150 million). Respondents are asked about likelihood to recommend their main business bank to business colleagues and associates on a scale of 1 (extremely unlikely) to 10 (extremely likely). Net Promoter Score is represents % of Promoters (recommend score of 9 or 10) minus % of Detractors (recommend score of 1 to 6)
NPS Consumer (Westpac NZ)	Source: 3 month rolling Retail Market Monitor data (survey conducted by Camorra Research). Respondents are asked about likelihood to recommend their main bank to family and friends on a scale of 1 (extremely unlikely) to 10 (extremely likely). Net Promoter Score is represents % of Promoters (recommend score of 9 or 10) minus % of Detractors (recommend score of 1 to 6)
NPS – overall consumer	Source: DBM Consultants Consumer Atlas, August 2018 – February 2021, 6MMA. MFI customers
NPS – overall business	Source: DBM Consultants Business Atlas, August 2018 – February 2021, 6MMA. MFI customers, all businesses
St.George (SGB) Brands	SGB Brands (Consumer): St.George Bank, Bank of Melbourne, BankSA, RAMS, Dragondirect SGB Brands (Business): St.George Bank, Bank of Melbourne and BankSA
Women in Leadership	The proportion of women in leadership roles across the Group. It includes the CEO, Group Executives, General Managers, senior leaders with significant influence on business outcomes (direct reports to General Managers and their direct reports), large (3+) team people leaders three levels below General Manager, and Bank and Assistant Bank Managers. Senior Executive refers to the proportion of women in the combined Group Executives and General Manager populations

The material contained in this presentation is intended to be general background information on Westpac Banking Corporation (Westpac) and its activities.

The information is supplied in summary form and is therefore not necessarily complete. It is not intended that it be relied upon as advice to investors or potential investors, who should consider seeking independent professional advice depending upon their specific investment objectives, financial situation or particular needs. The material contained in this presentation may include information derived from publicly available sources that have not been independently verified. No representation or warranty is made as to the accuracy, completeness or reliability of the information.

All amounts are in Australian dollars unless otherwise indicated.

Unless otherwise noted, financial information in this presentation is presented on a cash earnings basis. Cash earnings is a non-GAAP measure. Refer to Westpac's 2021 Interim Financial Results (incorporating the requirements of Appendix 4D) for the six months ended 31 March 2021 available at www.westpac.com.au for details of the basis of preparation of cash earnings. Refer to page 35 for an explanation of cash earnings and Appendix 1 page 109 for a reconciliation of reported net profit to cash earnings.

This presentation contains statements that constitute "forward-looking statements" within the meaning of Section 21E of the US Securities Exchange Act of 1934. Forward-looking statements are statements about matters that are not historical facts. Forward-looking statements appear in a number of places in this presentation and include statements regarding our intent, belief or current expectations with respect to our business and operations, macro and micro economic and market conditions, results of operations and financial condition, including, without limitation, future loan loss provisions, financial support to certain borrowers, indicative drivers, forecasted economic indicators and performance metric outcomes.

We use words such as 'will', 'may', 'expect', 'intend', 'seek', 'would', 'should', 'could', 'continue', 'plan', 'estimate', 'anticipate', 'believe', 'probability', 'risk', 'aim', or other similar words to identify forward-looking statements. These forward-looking statements reflect our current views with respect to future events and are subject to change, certain risks, uncertainties and assumptions which are, in many instances, beyond our control, and have been made based upon management's expectations and beliefs concerning future developments and their potential effect upon us. There can be no assurance that future developments will be in accordance with our expectations or that the effect of future developments on us will be those anticipated. Actual results could differ materially from those which we expect, depending on the outcome of various factors. Factors that may impact on the forward-looking statements made include, but are not limited to, those described in the section titled 'Risk factors' in Westpac's 2021 Interim Financial Results (incorporating the requirements of Appendix 4D) for the six months ended 31 March 2021 available at www.westpac.com.au. When relying on forward-looking statements to make decisions with respect to us, investors and others should carefully consider such factors and other uncertainties and events. Except as required by law, we assume no obligation to update any forward-looking statements contained in this presentation, whether as a result of new information, future events or otherwise, after the date of this presentation.
