ANTILLES GOLD LISTS IN THE US ON THE OTCQB MARKETS

Antilles Gold Limited (“Antilles Gold” or “the Company”) (ASX: AAU, OTCQB: ANTMF) is pleased to announce that it has received listing approval and has commenced trading of its common shares in the USA via the OTCQB® Venture Market (“OTCQB”) exchange under the symbol (“ANTMF”).

The OTCQB® Venture Market is regarded as a premier marketplace for early stage and developing US and international companies that is committed to providing a high-quality trading and information experience for US investors. Investors can find real-time quote and market information for **Antilles Gold** on the OTC website at www.otcmarts.com/stock/ANTMF/overview.

Antilles Gold anticipates that trading on the OTCQB Venture Market will establish a significant shareholder base in the US and provide the Company with additional liquidity.

Commenting on the US listing, Antilles Gold Executive Chairman, Brian Johnson said:

"Given its proximity to the US, and President Biden's announced plans to ultimately normalise relations between the two countries, I believe a particular segment of the US investing market will be most interested in the emerging mining sector in mineral rich Cuba, and in Antilles Gold's potential growth through its existing and future gold projects."

This announcement has been authorised by the Company Secretary of Antilles Gold Limited.

ABOUT ANTILLES GOLD LIMITED:

Antilles Gold is focussed on growth through near term gold projects in mineral rich Cuba, and on realising the value of assets it holds in the Dominican Republic.

The Company is at the forefront of the emerging gold mining sector in Cuba and intends to participate in the sequential development of two projects through a 49:51 joint venture with Cuban Government mining company, GeoMinera SA, with prospects for additional developments in the future.

The joint venture's current projects are the proposed development of the La Demajagua gold/silver mine to produce high quality sulphide gold concentrate, and an in depth review of the potential of the Golden Hills and Florencia sulphide gold deposits which could also produce concentrate.
