25 May 2021

ETIX Everywhere growing to 2.25MW with 0.6MW of organic capacity expansion across two sites

Page 1 of 2

Global Data Centre Group (ASX:GDC) is pleased to announce that ETIX Everywhere (ETIX) has commenced 0.6MW of organic capacity expansion projects at its joint venture locations in Nantes and Liege. The capacity expansion projects are contained within our existing building footprints and will be completed by the end of the calendar year 2021.

These expansions are driven by high utilisation of existing space coupled with current organic sales expectations. These projects will lift IT capacity across the ETIX sites from 1.65MW to 2.25MW which equates to 214 new racks.

The cost to ETIX of the expansion will be approximately A\$2.8m¹ and which will be wholly debt funded from our existing European banking partners.

ETIX CEO Louis Blanchot commented “This increased investment is a major milestone in our European expansion and our ambition to be a leader in Edge in Europe. It is also signifies to our Customers and Partners the definitive intent and conviction of GDC to support ETIX’s investment strategy to meet our Customers’ and Partners’ growth demands matched with flexible and scalable IT capacity.”

About ETIX Everywhere

An established and branded data centre operating business in Western Europe with a foothold in Latin America. ETIX contains a portfolio of 6 edge operating data centres with 2 of these wholly owned and the remaining 4 in 50:50 joint ventures. This currently represents 1.65MW of deployed capacity with expansion capability to 4MW within the existing footprint.

Authorised for release by Kimberley Child, Company Secretary 360 Capital FM Limited.
