

NB Global Corporate Income Trust (ASX: NBI) Investor Presentation | Webinar

With more than 60% of global bonds yielding less than 1%[#], finding attractive returns from fixed income investments is a challenge. However as accommodative monetary policy and increased government spending across key economies drives higher near-term economic growth rates, the environment and fundamentals for High yield corporate bonds is positive.

We believe a global high yield portfolio can offer attractive total returns with geographic diversification benefits across developed markets and emerging markets. In this webinar, Joe Lind, Senior Portfolio Manager of the Neuberger Berman Non-Investment Grade Credit team, will provide an update on the NB Global Corporate Income Trust (ASX: NBI). He will share his views on the current investment opportunities in the global high yield market and why we believe NBI continues to be an attractive solution for investors seeking a regular, consistent and predictable income stream.
