Calvin Kwok
Company Secretary

Pinnacle Fund Services Limited as responsible entity of Antipodes Global Shares (Quoted Managed Fund)

Commentary

Global equities were positive in May as strong US inflationary data was countered with below expected employment data (+1.7%). Cyclical sectors such as Financials, Energy and Materials were strong while Consumer discretionary was the laggard.

US equities (+0.6%) were stable as the cyclical Financials, Energy and Materials sectors lead. Europe (+4.5%) outperformed as the rollout for COVID-19 vaccinations accelerated.

Asia (+1.1%) was stable as Japan (+2.5%) outperformed due to an accelerating COVID-19 vaccine rollout program. Chinese equities (+1.8%) were positive despite regulators cracking down on commodity prices, while the People's Bank of China (PBOC) increased FX reserve requirements to control the appreciating Yuan.

Elsewhere, both Brent Crude (+4.6% in USD) and Gold (+7.8% in USD) continued their rally with the weaker USD (DXY -1.6%).

Key contributors included:

- Industrials, notably automakers VW and Toyota as the recovery in auto demand continues to take shape despite global semiconductor shortages. Toyota also reported strong FY results while forecasting 30% unit growth in its electrified vehicles in 2022. GE and Airbus were also notable performers as the global economic recovery improved the outlook for travel, as was Teck Resources with continued strength in base metal prices.

- Consumer Cyclical, notably Financials ING, HDFC Bank and KB Financial reflecting better than expected outcomes on asset quality during COVID-19 and a robust outlook as these economies continue to reopen. Trip.com reported better than expected results while also signalling that Chinese domestic hotel and air ticketing have fully recovered.
- KT Corp in Infrastructure/Property - Asia/EM after reporting strong results supported by growth in both 5G subscribers and revenues from the artificial intelligence and digital transformation business. KT also participated in a large capital increase by an associate company Kbank (a rapidly growing online bank).

Key detractors included:

- Hardware, notably MediaTek and Qorvo amidst weakness in handset demand in China and India.
- LG Chem, Siemens and Siemens Energy which were notable exceptions in the Industrials cluster. LG Chem announced a provision to replace a limited range of overheating energy storage system (ESS) batteries, while Siemens and Siemens Energy were impacted by speculation surrounding consolidation of its energy names.
- EDF in Infrastructure/Property - DM as management signalled there was no sign of an imminent agreement with the European Commission to progress nuclear power pricing reforms.

Investment Manager

- Global pragmatic value manager, long only and long-short
- Structured to reinforce alignment between investors and the investment team
- We attempt to take advantage of the market's tendency for irrational extrapolation, identify investments that offer a high margin of safety and build portfolios with a capital preservation focus

Fund features

- **Objective** – to achieve absolute returns in excess of the benchmark over the investment cycle (typically 3-5 years)
- **Global diversification** – Access to 30+ global companies via a single trade
- **Alignment of interests** – proportion of each team member's remuneration is invested into Antipodes funds. Antipodes also has a significant investment alongside unitholders
- **Simple access** – being exchange traded, investors can buy or sell AGX1 like a regular share during the trading day
