**Appendix 5B** 

June 2021

#### **Quarterly Activity Report June 2021**

#### SUMMARY OF ACTIVITY

A summary of the major items of activity for White Energy Company Limited ("White Energy", "WEC" or the "Company") during the quarter ended **30 June 2021** is outlined below.

## **HIGHLIGHTS**

- Sale of 51% interest in Mountainside Coal Company (USA)
- Tranche Three judgement reserved for the litigation proceedings against Bayan Resources Tbk
- Yankuang Group is investigating the use of BCB technology in China
- River Energy is pursuing opportunities for BCB projects in South Africa

## 1. NORTH AMERICA - MOUNTAINSIDE COAL COMPANY ("MCC") - WEC 51%

White Energy sold its 51% interest in MCC on 15 April 2021 to Kentucky based miner Clay Laurel Mining, Inc., for a total consideration of US\$4.067 million, which equated to \$5.3 million. A US dollar deposit equivalent to \$2.9 million was released on completion, with \$2 million received by WEC, and \$0.9 million placed in escrow and released to WEC in July 2021. The remaining \$2.4 million is to be paid in installments from July to December 2021, which is delayed from the previously agreed start time of May due to the new owner completing their finance arrangements.

MCC had no coal sales revenue during the two weeks of April before MCC was sold, with coal production suspended since April 2018.

Reclamation activity continued, with applications being made for bond releases as rehabilitation work in each area was completed. Expenditure related to production and development activities of \$48,000 was incurred during April before the sale of MCC.

MCC had additional permits in various stages of approval and many acres containing low ash Blue Gem coal resources in Kentucky that were in the final permitting phase. MCC continued to advance the permitting process and additional leases were sought as mine plans for new areas were progressed.

#### 2. AUSTRALIA

#### South Australia – EL6566 (previously EL5719) and PELA674

During the quarter, work continued on examining coal gasification and emerging hydrogen opportunities from coal, planning for future exploration activities. Capital expenditure related to exploration activities of \$10,000 was incurred during the quarter.

#### BCB

WEC is investigating the implementation of its BCB technology for use in Yankuang Group's coal briquetting business in China. Testing of coals from Shandong and Shanxi Provinces has been successfully conducted at WEC's test facility in Cessnock and the Company's briquetting machines were despatched for larger scale tests in China. The two briquetting machines which were loaned to Yankuang have been returned to Cessnock.

### **Quarterly Activity Report June 2021**

Yankuang Group have constructed a small pilot plant in Shandong Province using WEC's patented BCB technology, and this is the first step in commercialisation of the technology in China. Design of a 200,000 tonnes per annum BCB plant for a mine site in Shanxi Province is well advanced, and a contract for construction of the plant, that is funded by the customer, will be under White Energy's design and engineering supervision. The travel restrictions imposed for COVID-19 have slowed contractual discussions and the ability of WEC engineers to visit the various sites in China.

#### 3. AFRICA – RIVER ENERGY JOINT VENTURE - WEC 51%

White Energy's 51%-owned subsidiary, River Energy JV Limited, through Proterra Investment Partners (Proterra, 49%), is in discussion with a number of South African coal miners interested in the Group's Binderless Coal Briquetting (BCB) technology.

Extensive testing by River Energy, including successful briquetting and combustion trials, has previously demonstrated that a saleable export grade coal product can be produced from South African reject tailings. Proterra is pursuing opportunities, from their offices in Johannesburg, on mine sites in South Africa to secure access to fine coal to support BCB projects.

Using the BCB process, a briquetted 6 tonne sample of fines from a mine in the Middelburg region has been successfully tested by a South African power producer. A further bulk sample of up to 50 kt has been requested to carry out a commercial scale trial. White Energy is assisting Proterra in the design of a small demonstration plant to facilitate this work and other trials in South Africa.

The BCB process provides an attractive solution for coal producers seeking to maximise mine yield and facing the environmental challenges posed by reject coal fines. In South Africa alone, it is estimated that there are over 1 billion tonnes of discarded coal in tailings facilities, much of which may eventually need to be reclaimed.

## 4. GENERAL CORPORATE

The Company has no significant secured corporate debt. Non-recourse shareholder loans provided to the Group's 51% owned operations in the UK and Mauritius by both White Energy and the minority shareholders in proportion to their ownership interests are repayable in January 2023.

As outlined in Section 6 of the Appendix 5B, directors' fees and salaries including superannuation paid during the quarter to Directors and their associates totaled \$80,000.

## COVID-19 Update

White Energy continues to maintain appropriate measures to ensure the health and safety of its employees, contractors and the public, in compliance with government directives on COVID-19. Operations are continuing normally, although progress on BCB projects has been slowed due to travel restrictions affecting our key potential customers, particularly in China.

# PT Kaltim Supacoal ("KSC") - WEC 51%

White Energy is engaged in legal proceedings in the Singapore International Commercial Court ("SICC") initiated by subsidiaries of White Energy, BCBC Singapore Pte Ltd ("BCBCS") and Binderless Coal Briquetting Company Pty Limited, against PT Bayan Resources Tbk and Bayan International Pte Ltd (collectively, "Bayan") in connection with the KSC joint venture.

### **Quarterly Activity Report June 2021**

Tranche three of the proceedings was heard by the SICC from 21 to 30 September 2020. Cross examination of witnesses from both sides is now complete. Written closing submissions were provided by both sides on 19 November 2020 and replies were filed on 10 December 2020. The final oral submissions from the parties' legal representatives were made on 9 January 2021. The judgement is reserved.

The only issues remaining to be determined by the SICC in the third tranche relate to the damages which may be payable to BCBCS. The SICC has, in the earlier tranche of the proceedings, already made a conclusive determination that Bayan has both breached and repudiated the joint venture deed.

The claim for damages can be broadly summarised as follows:

- (i) BCBCS claims for wasted expenditure, being expenses incurred by BCBCS which were rendered futile by reason of Bayan's breach and repudiation of the joint venture;
- (ii) Further, BCBCS claims for loss of the chance of expanding the capacity of the joint venture to at least 3 million tonnes per annum; and
- (iii) Interest on damages award and legal costs.

As shareholders may be aware, PT Bayan Resources Tbk has recently commenced mining of the concession held by PT Tiwi Abadi, a subsidiary of Kangaroo Resources Limited ("KRL"). The Company has written to Bayan's solicitors who have confirmed that such mining does not breach the terms of the freezing order to enforce the damages and costs award, implicit in which is a confirmation by Bayan that is has not diminished the value of its shares in KRL. The Company will continue to monitor these activities.

#### 5. INTERESTS IN MINING TENEMENTS

Below is a listing of the Company's interest in mining tenements, where they are situated and the percentage interest the Company holds in each.

The Company and its subsidiaries hold an interest in the following mining tenements:

Tenement	Locality	Licensee	Interest
Coal Permit			
N/A <sup>(a)</sup>			
<b>Coal Exploration</b>			
Licence and			
Retention Lease			
EL6566 and	Lake Phillipson, South Australia	South Australian Coal Pty Ltd	100%
RL104 <sup>(b)</sup>			
<u>Petroleum</u>			
<b>Application</b>			
PELA674	Lake Phillipson, South Australia	White Energy Company Limited	100%

- (a) The US Coal Permits were sold with former subsidiary Mountainside Coal Company, Inc. on 15 April 2021.
- (b) The renewal of RL104 has been applied for and is pending.

4.5	Effect of movement in exchange rates on cash held	1	(50)
4.6	Cash and cash equivalents at end of period	2,223	2,223

5.	Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$A'000	Previous quarter \$A'000
5.1	Bank balances	541	133
5.2	Call deposits	1,682	1,872
5.3	Bank overdrafts	-	-
5.4	Other (provide details)	-	-
5.5	Cash and cash equivalents at end of quarter (should equal item 4.6 above)	2,223	2,005

In addition to the cash and cash equivalents at the end of the quarter, \$2.0 million is held as a security bond by the Supreme Court of Western Australia as security for the freezing order held by BCBCS in relation to Bayan's shares in Kangaroo Resources Limited (refer section 4 of the Summary of Activity).

6.	Payments to related parties of the entity and their associates	Current quarter \$A'000
6.1	Aggregate amount of payments to related parties and their associates included in item 1	80
6.2	Aggregate amount of payments to related parties and their associates included in item 2	Nil

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments

# Appendix 5B Mining exploration entity or oil and gas exploration entity quarterly cash flow report

7.	Financing facilities  Note: the term "facility' includes all forms of financing arrangements available to the entity.  Add notes as necessary for an understanding of the sources of finance available to the entity.	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1	Loan facilities	29,647	29,647
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	29,647	29,647
7.5	Unused financing facilities available at qu	arter end	
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		tional financing
	7.1 Represents shareholder loans from minority s	hareholders with a 49% inte	rest in River

Energy which are repayable in January 2023 and bear interest at fixed rates between 5.01% and 7.67% pa, payable on maturity. Additional loans may be drawn-down as agreed between the

shareholders to fund future activities of River Energy.

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(1,815)
8.2	Payments for exploration & evaluation classified as investing activities (item 2.1(d))	(3)
8.3	Total relevant outgoings (item 8.1 + Item 8.2)	(1,818)
8.4	Cash and cash equivalents at quarter end (item 4.6)	2,223
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	2,223
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	1.22

Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.

- 8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:
  - 8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

# Appendix 5B Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Answer: White Energy expects it will continue to have negative operating cash flows in the near to medium term, based on the current activities being undertaken by WEC, being:

- the ongoing development and exploitation of WEC's binderless coal briquetting technology ("BCB");
- the evaluation of mining exploration assets; and
- the continuing engagement in legal proceedings against PT Bayan Resources TBK and Bayan International Pte Ltd.
- 8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: The steps in place to raise further cash to fully fund operations and the likelihood of success are set out below:

- White Energy sold its 51% interest in Mountainside Coal Company Inc. ("MCC") on 15 April 2021 for a total consideration of \$5.3 million. Consideration of \$2 million was received on sale date and further instalments totaling \$3.3 million are expected to be received from July to December 2021 (Further instalments comprises: September quarter: \$2.6 million; and December quarter: \$0.7 million);
- White Energy has designed a 200,000 tonne per annum BCB plant for a mine site in China and the contract to allow construction to commence is under discussion. If finalised, WEC will receive funds for the sale of equipment and an ongoing royalty;
- As previously foreshadowed, the Company plans to raise additional equity funds for the ongoing activities of WEC, as required. The Company has been successful in raising equity funds through the issue of new shares recently and in the past;
- WEC's 51% owned subsidiaries River Energy JV Ltd and River Energy JV UK
  Limited continue to have access to funds from their 49% minority shareholder
  under existing shareholder loan agreements (in conjunction with WEC's 51%
  contributions) to enable them to meet their debts as and when they fall due; and
- The Directors believe, based on past experience, that they can raise third party debt financing to part fund any future project capital expenditure requirements.
- 8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: The Company expects to be able to continue its operations and to meet its business objectives on the basis of the information disclosed in 8.8.2 above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.

#### **Notes**

- 1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, AASB 6: Exploration for and Evaluation of Mineral Resources and AASB 107: Statement of Cash Flows apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
- 3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
- 4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
- If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
