

## Anatara launches IBS-D clinical trial recruitment website; subject screening to commence

### Key highlights

- **Irritable Bowel Syndrome – diarrhoea subtype (IBS-D) trial recruitment website launched with participant screening to commence**
- **Clinical trial of Anatara's unique Gastrointestinal Re-Programming (GaRP) complementary medicine used for the indication of IBS-D, following strong pre-clinical data results**
- **First phase anticipated to be completed in March 2022**
- **This clinical trial is part of Anatara's program to commercialise evidence-based solutions for gastrointestinal tract (GIT) health**

MELBOURNE, 20 August 2021: Anatara Lifesciences (ASX: ANR), a developer of evidence based solutions for gastrointestinal diseases in animals and humans, is pleased to announce the launch of its IBS-D Clinical Trial recruitment website.

Anatara has strong pre-clinical data to support GaRP use in IBS (Irritable Bowel Syndrome) and IBD (Inflammatory Bowel Disease), with IBS the most commonly diagnosed gastrointestinal condition and a significant cost burden on health care. Anatara received Human Research Ethics Committee approval to undertake a clinical trial of GaRP for participants with irritable bowel syndrome - diarrhoea subtype (IBS-D), in February 2021.

The Company has now launched the trial recruitment website will begin screening prospective participants for enrolment in the trial. Recruitment for phase one of the trial is anticipated to be completed in January 2022 and following this an analysis is anticipated in March 2022 which will determine the dose of GaRP that will progress to phase two of the trial. Phase one of the trial involves 3 equal pools of participants that compares a placebo group against the other groups on the 2 different doses of GaRP.

The 12-week study targeted towards adults ages 18 to 65 who have IBS-D and no history of inflammatory immune-mediated gastrointestinal disorder will examine the efficacy of GaRP use in managing the many troublesome symptoms.

Eligible applicants can register their interest to participate via:
