# IMPORTANT INFORMATION AND DISCLAIMER

This investor presentation (**Presentation**) has been prepared by Orocobre Limited (ACN 112 589 910) (the **Company** or **Orocobre**). It contains general information about the Company as at the date of this Presentation. The information in this Presentation should not be considered to be comprehensive or to comprise all of the material which a shareholder or potential investor in the Company may require in order to determine whether to deal in Shares of Orocobre. The information in this Presentation is of a general nature only and does not purport to be complete. It should be read in conjunction with the Company's periodic and continuous disclosure announcements which are available at [www.orocobre.com](http://www.orocobre.com) and with the Australian Securities Exchange (**ASX**) announcements, which are available at [www.asx.com.au](http://www.asx.com.au).

This Presentation does not take into account the financial situation, investment objectives, tax situation or particular needs of any person and nothing contained in this Presentation constitutes investment, legal, tax, accounting or other advice, nor does it contain all the information which would be required in a disclosure document or prospectus prepared in accordance with the requirements of the *Corporations Act 2001* (Cth) (**Corporations Act**). Readers or recipients of this Presentation should, before making any decisions in relation to their investment or potential investment in the Company, consider the appropriateness of the information having regard to their own individual investment objectives and financial situation and seek their own professional investment, legal, taxation and accounting advice appropriate to their particular circumstances.

This Presentation does not constitute or form part of any offer, invitation, solicitation or recommendation to acquire, purchase, subscribe for, sell or otherwise dispose of, or issue, any Shares or any other financial product. Further, this Presentation does not constitute financial product, investment advice (nor tax, accounting or legal advice) or recommendation, nor shall it or any part of it or the fact of its distribution form the basis of, or be relied on in connection with, any contract or investment decision.

The distribution of this Presentation in other jurisdictions outside Australia may also be restricted by law and any restrictions should be observed. Any failure to comply with such restrictions may constitute a violation of applicable securities laws. See the section of this Presentation entitled "International Selling Restrictions". By accepting this Presentation, you warrant and represent that you are entitled to receive this Presentation in accordance with the above restrictions and agree to be bound by the limitations therein.

Past performance information given in this Presentation is given for illustrative purposes only and should not be relied upon as (and is not) an indication of future performance.

Forward-looking statements are based on current expectations and beliefs and, by their nature, are subject to a number of known and unknown risks and uncertainties that could cause the actual results, performances and achievements to differ materially from any expected future results, performances or achievements expressed or implied by such forward-looking statements, including but not limited to, the risk of further changes in government regulations, policies or legislation; the risks associated with the implementation of the merger between the Company and Galaxy Resources Ltd (the "Merger"), risks that further funding may be required, but unavailable, for the ongoing development of the Company's projects including those projects acquired in the Merger; fluctuations or decreases in commodity prices; uncertainty in the estimation, economic viability, recoverability and processing of mineral resources; risks associated with development of the Company's projects including those projects acquired by the Company as a result of the Merger; unexpected capital or operating cost increases; uncertainty of meeting anticipated program milestones at the Olaroz Project or the Company's other projects including those projects acquired by the Company as a result of the Merger; risks associated with investment in publicly listed companies, such as the Company; risks associated with general economic conditions; the risk that the historical estimates for Borax Argentina's properties that were prepared by Rio Tinto, Borax Argentina and/or their respective consultants (including the size and grade of the resources) are incorrect in any material respect; as well as those factors disclosed in the Company's Annual Report for the financial year ended 30 June 2021 and Sustainability Report 2020 available on the ASX website and at [www.sedar.com](http://www.sedar.com).

# IMPORTANT INFORMATION AND DISCLAIMER (CONT.)

Certain statements in this Presentation are forward-looking statements. You can identify these statements by the fact that they use words such as “anticipate”, “estimate”, “expect”, “project”, “intend”, “plan”, “believe”, “target”, “may”, “assume”, “should”, “could”, “predict”, “propose”, “forecast”, “outlook” and words of similar import. Indications of, and guidance on, future earnings and financial position and performance are also forward-looking statements. Forward-looking information may include, but is not limited to, the successful ramp-up of the Olaroz Lithium Production Project (**Olaroz Project**) and the Naraha Lithium Hydroxide Project (**Naraha Project**), and the timing thereof; the design production rate for lithium carbonate at the Olaroz Project; the expected brine grade at the Olaroz Project; the future financial and operating performances, including production, rates of return, operating costs and capital costs of and cash flows resulting from the Olaroz Project and Naraha Project; the comparison of such expected costs to expected global operating costs; the ongoing working relationship between Orocobre and the Provinces of Jujuy and Salta in Argentina; the on-going working relationship between Orocobre and the Olaroz Project's financiers, being Mizuho Bank and Mizuho and the satisfaction of lending covenants; the future financial and operating performance of the Company, its affiliates and related bodies corporate, including Borax Argentina S.A. (**Borax Argentina**); the estimation and realisation of mineral resources at the Company's projects; the viability, recoverability and processing of such resources; timing of future exploration of the Company's projects; timing and receipt of approvals, consents and permits under applicable legislation; trends in Argentina relating to the role of government in the economy (and particularly its role and participation in mining projects); adequacy of financial resources, forecasts relating to the lithium and boron markets; the potential processing of brines from the Cauchari Project and the incremental capital cost of such processing, optimisation of Borax Argentina's operations and any synergies relating thereto and other matters related to the development of the Company's projects and the timing of the foregoing matters.

Prospective investors should have regard to the risks outlined in this Presentation when making their investment decision.

No representation, warranty or assurance (express or implied) is given or made by the Company that the forward-looking statements contained in this Presentation are accurate, complete, reliable or adequate or that they will be achieved or prove to be correct. No independent third party has reviewed the reasonableness of any such statements or assumptions.

Subject to any continuing obligation under applicable law or relevant listing rules of the ASX, the Company disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statements in this Presentation to reflect any change in expectations in relation to any forward-looking statements or any change in events, conditions or circumstances on which any such statements are based. Nothing in this Presentation shall under any circumstances create an implication that there has been no change in the affairs of the Company since the date of this Presentation.

US investors should note that while the Company's reserve and resource estimates comply with the JORC Code, they may not comply with Industry Guide 7, which governs disclosures of mineral reserves in registration statements filed with the US Securities and Exchange Commission (SEC). In particular, Industry Guide 7 does not recognise classifications other than proven and probable reserves and, as a result, the SEC generally does not permit mining companies to disclose their mineral resources in SEC filings. You should not assume that quantities reported as “resources” will be converted to reserves under the JORC Code or any other reporting regime or that the Company will be able to legally and economically extract them.

By attending an investor presentation or briefing, or by accepting, accessing or reviewing this Presentation, you acknowledge and agree to the terms set out in this disclaimer.

# OLAROZ STAGE 1

## Long life, low-cost and sustainable brine operation

### Strong cashflow and pricing momentum in June quarter

- Gross cash margin of \$4,371/tonne and gross margin of 52%
- Realised average price of US\$8,476/ tonne, up 45% qoq and 117% pcp
- Significant cost reductions achieved

### Improved product quality and production

- Aim to deliver higher processing capability and improved product quality and consistency
- FY21 production of 12.6kt lithium carbonate
- In June quarter, 66% of total product was battery grade
- Ongoing refinement of the pond management system and brine inventory

### Robust Sales

- FY21 sales of 13.3kt, up 27% yoy
- Budgeted FY22 production is fully contracted and substantially subject to variable pricing with exposure to continued price increases
- Retain previous guidance of US\$9,000/tonne for the first half

# OLAROZ STAGE 2

Construction underway to expand Olaroz to produce an additional 25ktpa of lithium carbonate

- Expected completion in H1 2022 and production to commence in H2, have spent US\$216 million to 30 June excluding VAT, working capital and finance costs
- Production of primary grade lithium carbonate will ramp up over 2 years to full capacity
- At the end of June, most infrastructure is complete, many ponds have been built.
- Additional accommodation facilities were completed in the quarter with over 650 personnel on site
- Lime plant #1 (services Stage 1) is fully operational and Lime plant #2 was commissioned in February providing additional capacity. Lime plant #3 will more than double the combined capacity of Plants 1 and 2 and will be completed in H2 2021
- Construction of the carbonation plant and soda ash plant are 10% and 14% complete respectively. The soda ash plant is expected to be complete during CY2021 and will service both Stages 1 and 2 providing additional efficiencies

# NARAHHA

Designed to convert Olaroz lithium carbonate into battery grade lithium hydroxide

- The 10ktpa Naraha Plant is the first of its kind to be built in Japan
- First lithium carbonate is expected to be shipped from Olaroz Stage 1 to Naraha in Q3 CY21
- Capital spend to 30 June is US\$57m
- Commissioning is expected to commence in Q1 CY22, ramping up to full production in CY22
- Construction now mostly complete, commissioning in Q1 CY22 due to COVID-19 delays to travel by international technicians
- Conversion costs (excluding primary grade lithium carbonate feedstock costs) are estimated at approximately US\$1,500/tonne

Non-controlling interest	(29.9)	(15.2)
<b>Total profit/(loss) for the year after tax</b>	<b>(89.5)</b>	<b>(67.2)</b>

- Olaroz sales of 13,319 tonnes (FY20 10,514 tonnes) of lithium carbonate at average FOB price of US\$4,983/t in FY21 compared to US\$5,520/t in FY20
- Olaroz cash cost of goods sold of US\$3,860<sup>1</sup>/t are lower than prior period (US\$4,387/t) predominantly due to increase in production (+6%), higher brine grades, better recoveries, reduced consumption of raw materials and improved plant performance
- EBITDAIX profit of US\$2.9 million in FY21 resulting from Olaroz higher sales volume (+26%) and better margins with proportional sales of battery grade material nearly doubling over the period
- Higher depreciation and amortisation costs relative to the prior year are mainly due to increased sales volumes
- Net finance costs of US\$21.1 million includes interest income of US\$1.9 million, offset by financing cost of US\$23 million for project finance, working capital facilities, non-controlling shareholder loans and changes in fair value. Non-cash items included in the amount total US\$8.4 million related to period end fair valuation of assets and liabilities and related party interest on shareholder loans
- Net realisable value of inventory/impairment of US\$17.2 million includes the release of a provision for the write down of finished goods and brine inventory in the prior financial year, given the inventory was sold at improved sales prices during the current period. Such amount was partially offset by US\$0.9 million impairment related to Borax and a US\$0.7M adjustment to brine in ponds inventory at Olaroz.
- Share of losses of associates relates to Naraha's administration costs
- Income tax expense predominately represents the effect of corporate tax rate changes in Argentina and revaluation of tax losses in Olaroz due to the ARS devaluation and tax inflation.

# UNDERLYING LOSS RELATES MOSTLY TO NON-CASH DEPRECIATION & AMORTISATION

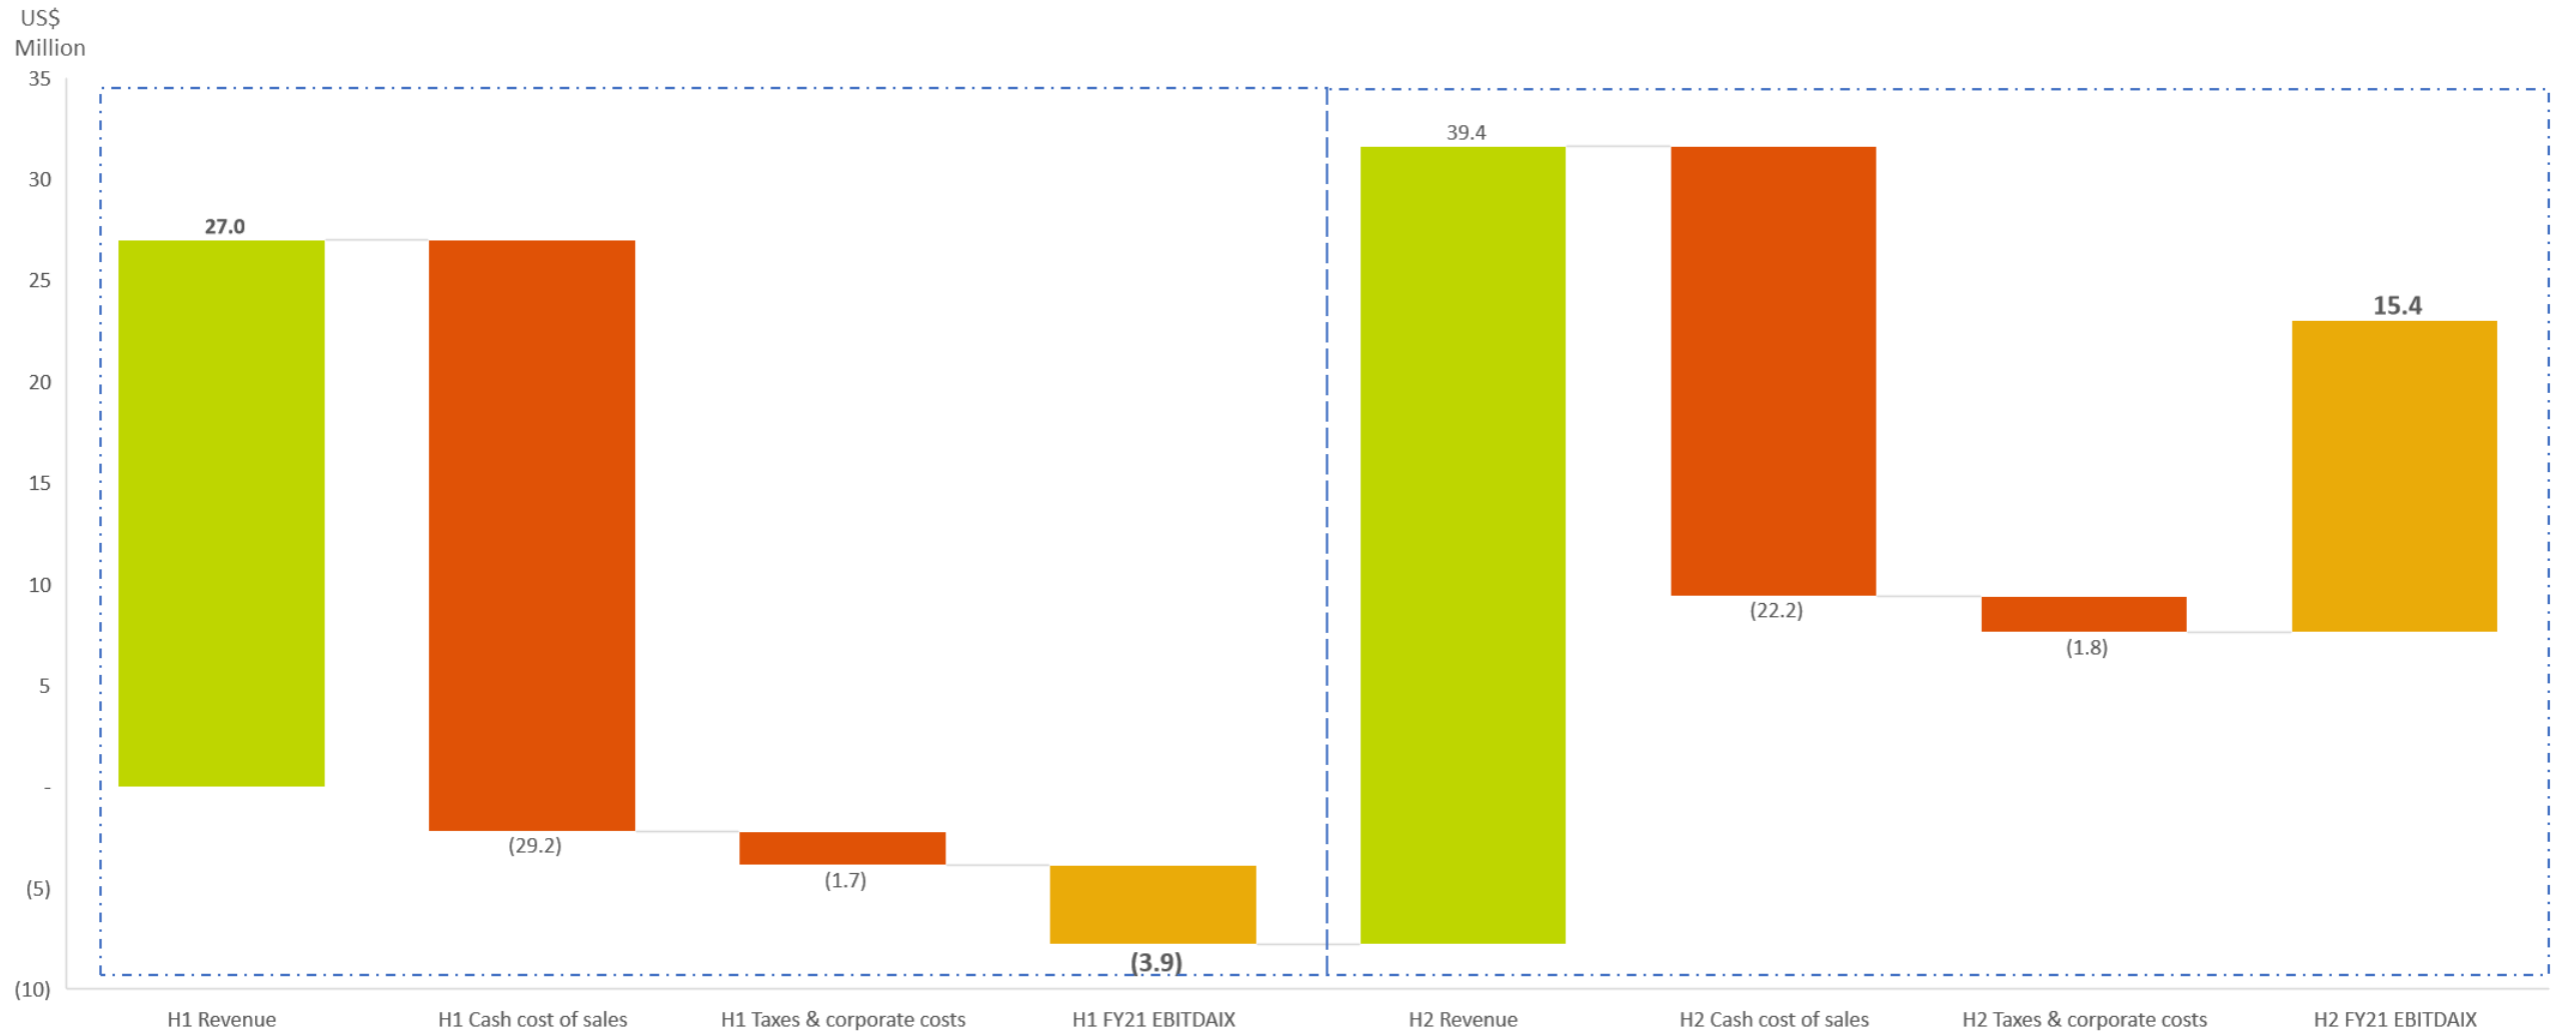

# OLAROZ EBITDAIX UP US\$5.9M DESPITE COVID IMPACT ON 1<sup>ST</sup> HALF

Weak market prices in H1 FY21 were offset by higher sales volume and material cost reductions leaving the business well positioned for improving market conditions in FY22.

<b>Total liabilities</b>	<b>623.6</b>	<b>455.3</b>
<b>Net assets</b>	<b>725.1</b>	<b>690.6</b>

- Increase in cash mainly due to the equity raise during the period
- Increase in trade and other receivables mainly due to Olaroz higher revenues in the last quarter
- Increase in current inventory is mainly due to the release of the NRV provisions in line with improvement of lithium market conditions as well as build up of finished goods inventory
- Increase in Property, Plant and Equipment due to investment in Stage 2 partially offset by Stage 1 depreciation
- Decrease in current loans and borrowings is due to repayment of loans, as well as a reclassification of related party shareholder loan to non-current
- Non-current loans and borrowings increased due to project finance for Stage 2 and reclassification of related party shareholder loans from current
- Net deferred tax liability increase is mostly due to the effect of Argentine corporate tax rate change and the effect of the inflation and devaluation

Effect of exchange rates on cash holdings in foreign currencies	(2.4)	0.6
<b>Cash and cash equivalents, net of overdrafts, at the end of period</b>	<b>258.3</b>	<b>171.8</b>

- Cash generated from operations is higher than prior year due to an increase in Olaroz revenues
- Net interest paid is higher mostly due to lower term deposit interest rates
- Purchase of property, plant and equipment mainly relates to the Expansion project
- Capital was raised during the period via a placement and share purchase plan
- Proceeds from borrowings represents drawdown of project financing for Stage 2 and loans from shareholders i.e. TTC
- Repayment of borrowings relates to repayment of the stage 1 project finance facility to Mizuho and working capital facilities

# LITHIUM MARKET UPDATE

# LITHIUM MARKET

## Underlying fundamentals will support strong demand into the future

- Robust demand for lithium in China continues to push up global prices with weighted average prices of lithium carbonate and lithium hydroxide up YTD by 64% and 46% respectively according to Benchmark Minerals Intelligence
- Recent reported spot sales for spodumene realizing +US\$1,000/tn. Average weighted prices up +100% YTD
- Increasing long-term contracts between OEMs and lithium producers to secure supply availability ahead of expected strong demand growth.

Source: Benchmark Minerals: lithium forecast Q2 2021

# LITHIUM MARKET

Underlying fundamentals underpin significant sector growth and robust lithium demand

## EV demand is forecast to rise to ~20-30% CAGR in coming decade

- ✓ EV global sales of 2.65M units June YTD up by 168%, with Europe and China leading growth 180% and 210% yoy respectively. Forecast for H2 2021 +3.5M units.

## Underpinned by a global transition to carbon neutrality

- ✓ Carbon emission targets and penalties
- ✓ Government regulations and subsidies
- ✓ Increasing range of EV models by OEM's
- ✓ EV production ratio of ~1.2 in China and ~0.8 in Europe (relative to ICE)

## Significant build-out of capacity throughout the lithium-ion supply chain

- ✓ Pipeline global lithium-ion battery cell production capacity for 2030 rises to ~4,200 GWh, a 30% June YTD increase

### Canada

- Targeting 30% EV penetration by 2030
- Quebec targeting zero emissions by 2050

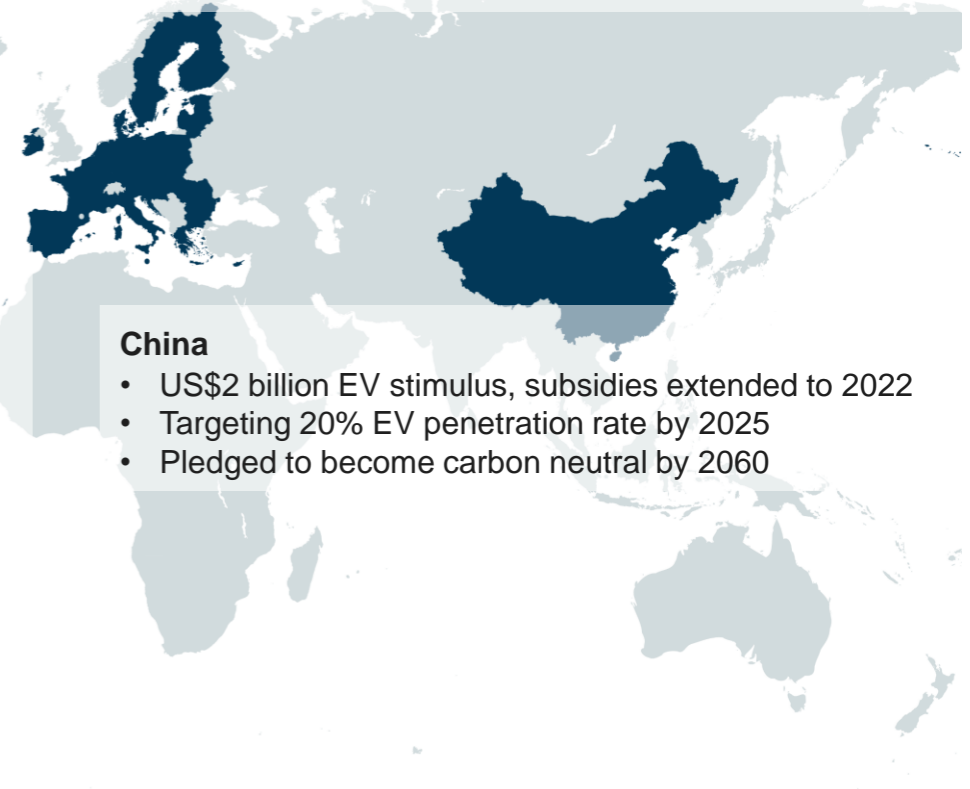

### United States of America

- Current US administration has committed to halving greenhouse emissions by 2030, supported by US\$7.5B on EV infrastructure
- Washington state targeting 100% BEV passenger and light duty vehicles by 2030
- California and New York targeting zero emissions on passenger vehicles by 2035, and heavy duty vehicles by 2045

### Europe

- “Fit for 55” package targeting reduction on new vehicle emissions by 55% from 2030 and 100% from 2035.
- Norway & Netherlands proposed to end ICE sales by 2035
- Attractive EV subsidies and tax penalties for ICE purchases

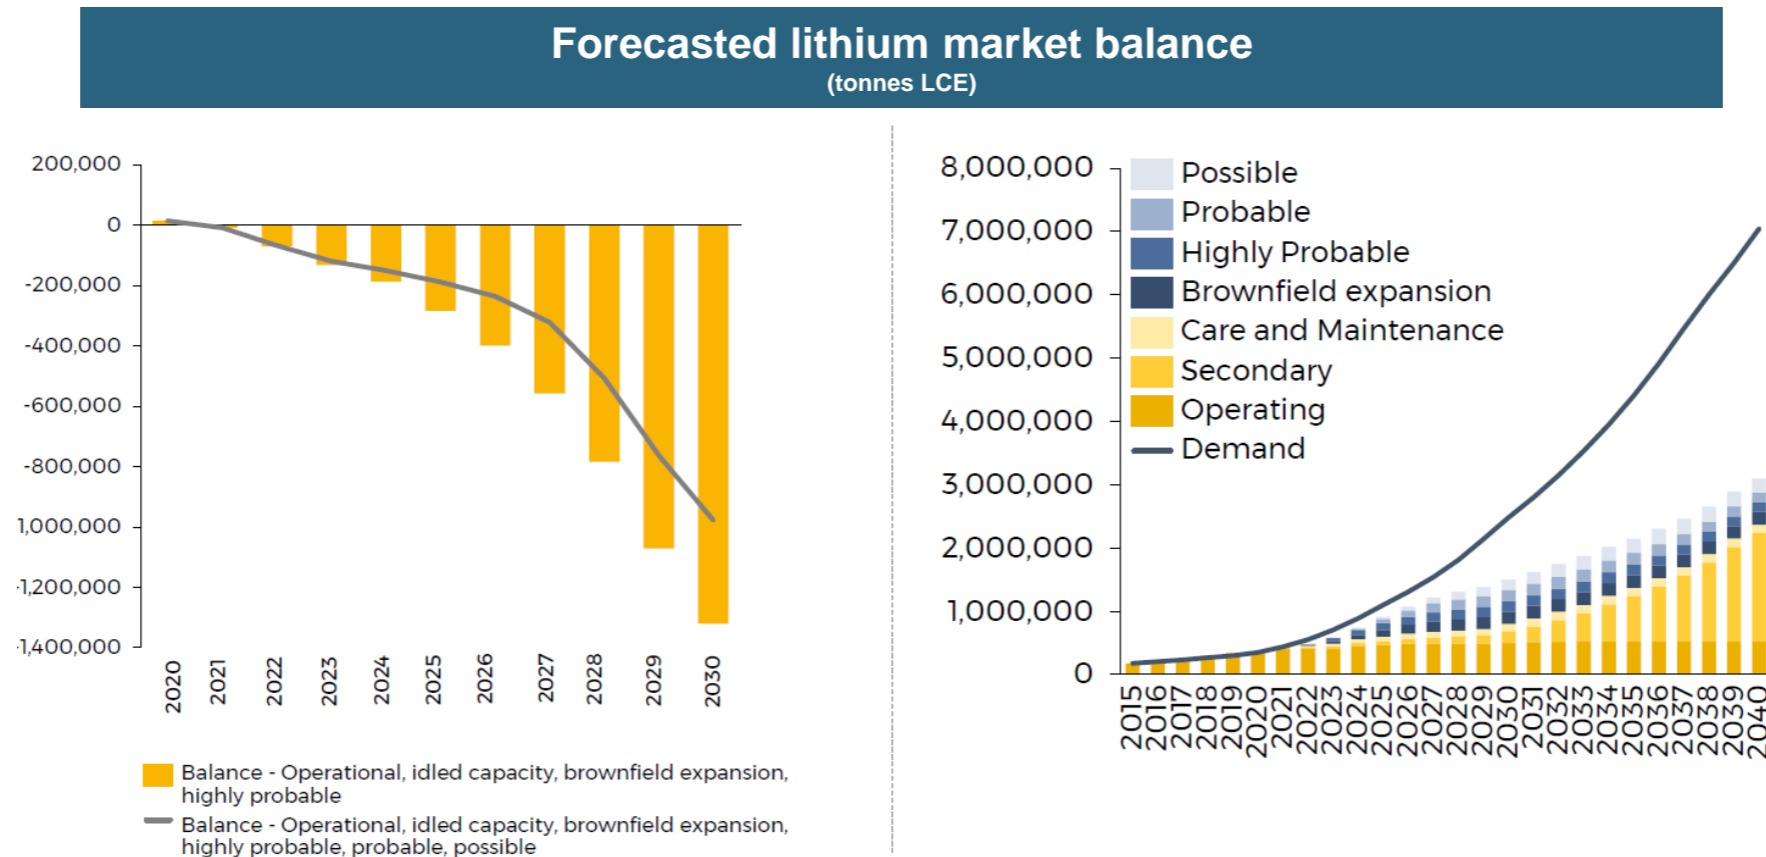

### China

- US\$2 billion EV stimulus, subsidies extended to 2022
- Targeting 20% EV penetration rate by 2025
- Pledged to become carbon neutral by 2060

# GLOBAL EV ADOPTION TO DRIVE A LITHIUM DEMAND SURGE

Delivery of new supply is critical in meeting oncoming demand

- Structural deficit from 2021 onwards due to the absence of significant supply-side developments
- Market tightness and price momentum is evident with strong pricing required to provoke the required supply

# MERGER UPDATE

# CREATING A GLOBAL LITHIUM CHEMICALS COMPANY

Our core goals underpin everything we do

# MERGER NOW COMPLETE

## Recap on the merger

### TRANSACTION RECAP

- On 19 April 2021, Orocobre and Galaxy agreed to merge via a Galaxy Scheme of Arrangement (the “**Scheme**”) pursuant to which Orocobre would acquire 100% of the fully paid ordinary shares in Galaxy (the “**Transaction**”)
- Galaxy shareholders received 0.569 new fully paid ordinary shares in Orocobre for each Galaxy share held
- Unanimously recommended by the Galaxy Board, subject to no superior proposal emerging for Galaxy and the Independent Expert concluding that the Scheme is in the best interests of Galaxy shareholders.
- Endorsed by the Orocobre Board, subject to no superior proposal for Orocobre emerging

### SCHEME RESULTS

- Shareholders voted on the Scheme on 6 August 2021
- The requisite majorities of Galaxy’s Shareholders voted in favour of the proposed merger
  - 96.94% of Galaxy Shareholders present and voting (in person or by proxy, attorney or corporate representative) voted in favour of the Scheme
  - 98.69% of the votes cast by Galaxy Shareholders were in favour of the Scheme

### COURT APPROVAL

- The Supreme Court of Western Australia made orders approving the proposed merger pursuant to which Orocobre will acquire all of the shares in Galaxy by way of a scheme of arrangement on 13 August 2021
- The Scheme became legally effective on 16 August 2021
- Galaxy’s shares were suspended from trading at the close of 16 August 2021
- New shares are expected to be issued and begin trading on a normal settlement basis on 26 August 2021

# TRANSACTION RATIONALE

A top 5 global lithium chemicals company with a standout value proposition

1

## CREATING A TOP 5 GLOBAL LITHIUM CHEMICALS COMPANY

- Creates a leading ASX lithium company with c.40ktpa LCE production capacity and a top 5 lithium company globally (top 3 outside of China)<sup>1</sup>
- One of the world's largest, most geographically diversified producers of lithium chemicals
- Vertically integrated and able to service multiple markets and customers

2

## HIGHLY COMPLEMENTARY PORTFOLIO OF ASSETS

- Diversified across geography, lithium source and end products
- Combines two complementary, large-scale tier-one assets
- Vertically integrated product strategy for all key assets

3

## INDUSTRY LEADING GROWTH PROFILE

- Significant portfolio of upstream and downstream growth projects
- Growth pipeline evenly balanced between production optimisation, construction, advanced projects, brownfield expansions and early-stage projects
- Unique platform of expertise, capacity and geographic presence to consider further inorganic growth alternatives

4

## UNIQUE SYNERGIES

- Combined management and technical expertise across the merged group and shared IP to further de-risk Sal de Vida and optimise Olaroz
- Expect substantial savings in Argentina from expertise sharing, employee and contractor sharing and procurement savings
- Marketing synergies expected from expanded customer relationships and a broader product base

5

## HIGHLY EXPERIENCED BOARD & MANAGEMENT TEAM

- Global team with significant technical expertise to deliver brine projects in Argentina
- Proven track record of successfully delivering projects across brine, hard rock, and processing
- Extensive experience within Argentina shared across the combined board and senior management team

6

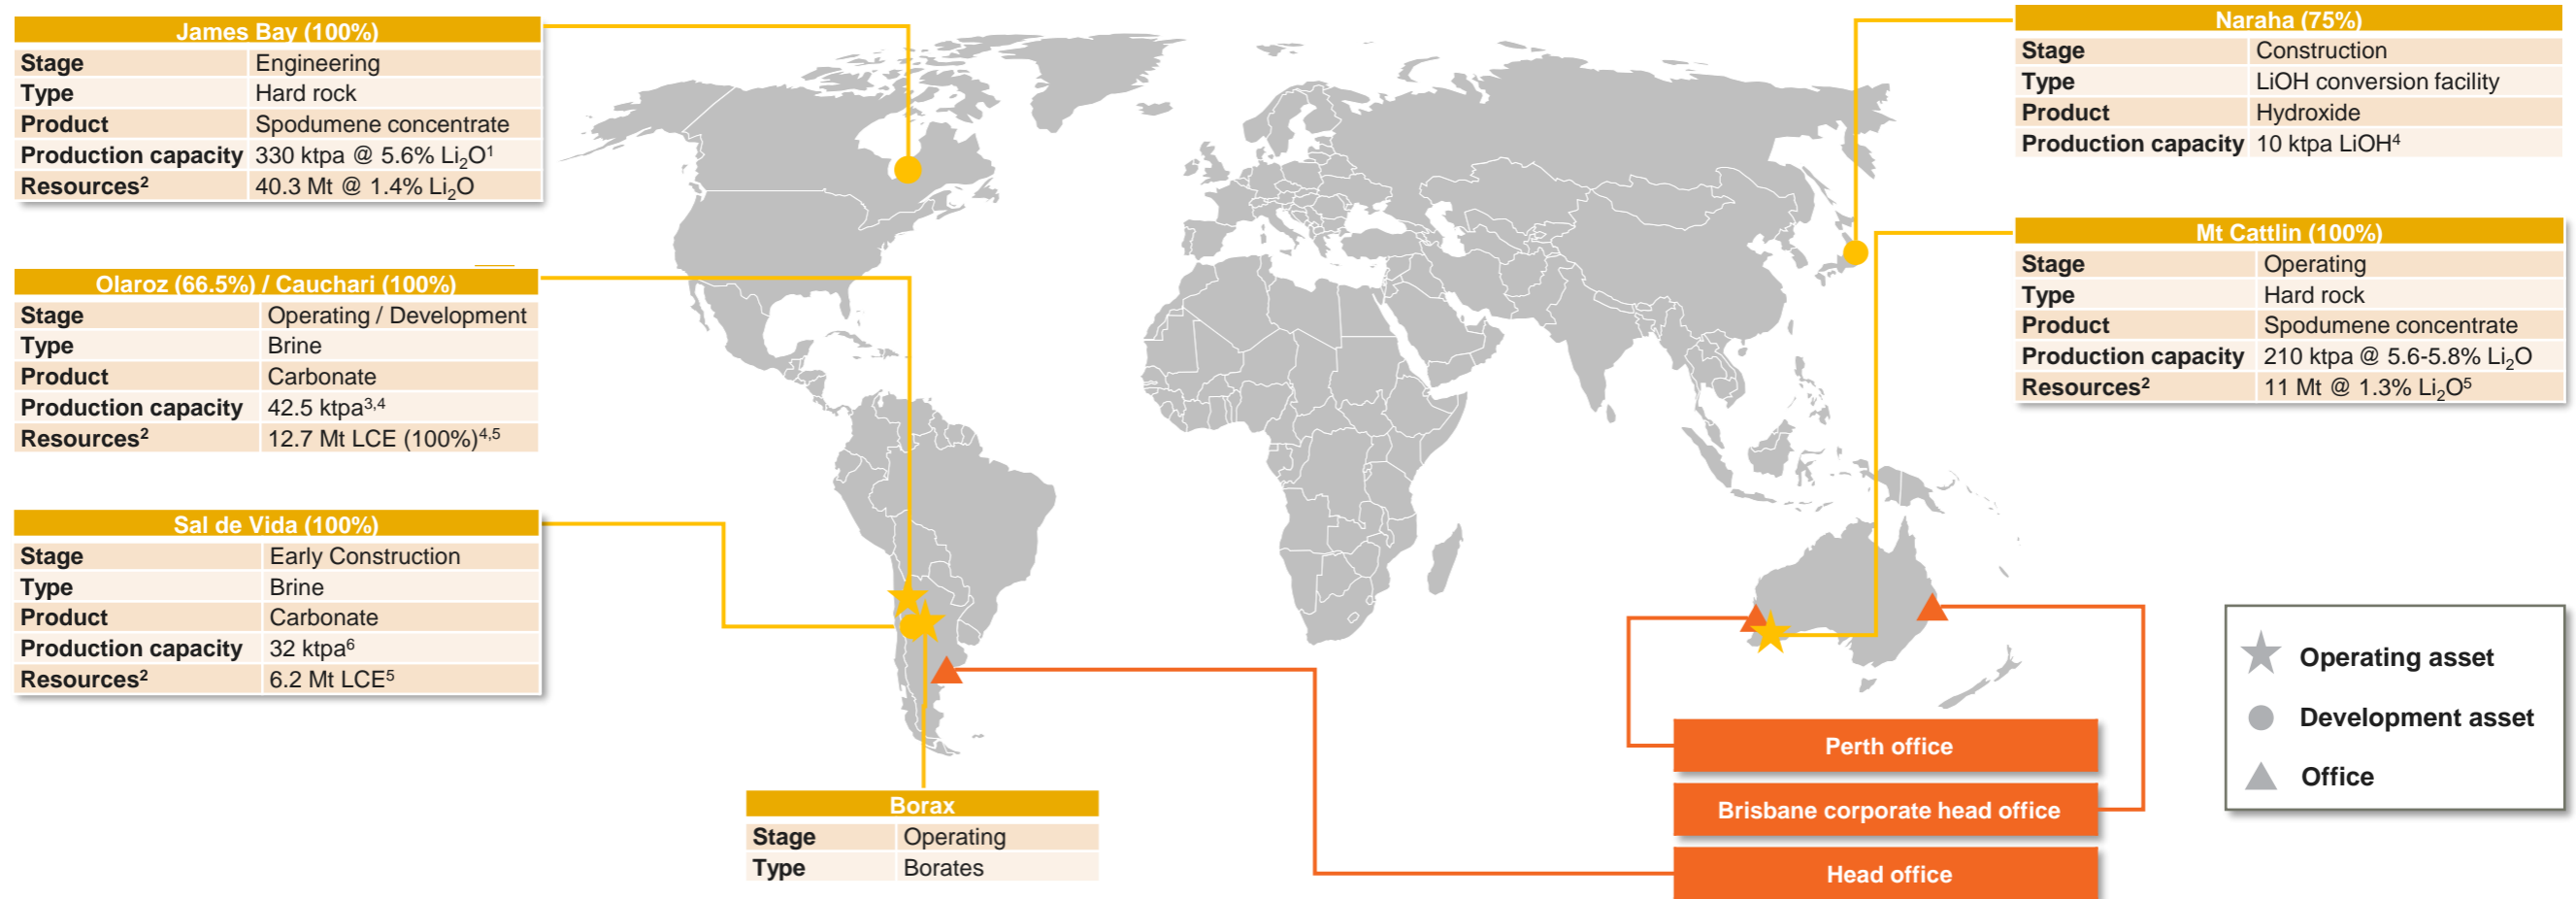

## ENHANCED SCALE AND FINANCIAL CAPACITY

- Combined entity is included in the ASX 200 index and expected to qualify for the ASX 100 index
- Significantly enhanced liquidity and capital markets profile
- Strengthened balance sheet with pro forma gross cash of US\$471m<sup>2</sup> well placed to deliver a world class project pipeline

# HIGHLY COMPLEMENTARY PORTFOLIO OF ASSETS

Diversified portfolio across geography, lithium source, stage of asset and end products

1. Refer to Galaxy's ASX announcement dated 9 March 2021 titled "James Bay Development Plan" for further details, including the material assumptions on which production capacity is based  
 2. Refer to appendix of this presentation in relation to Ore Reserve and Mineral Resource Estimates for Orocobre and Galaxy  
 3. Based on Stage 1 and 2  
 4. Numbers shown on a consolidated 100% basis  
 5. Includes inferred resources  
 6. Refer to Galaxy's ASX announcement dated 14 April 2021 titled "Sal de Vida Development Plan" for further details including the material assumptions on which production capacity is based. This capacity assumes that Stages 1, 2 and 3 of the project are successfully completed in accordance with Galaxy's Feasibility and Pre-Feasibility studies referred to in that announcement.

# DEVELOPMENT PRIORITIES

Focus on optimising current production assets, commissioning near term growth projects, and progressing studies to optimize the value of our attractive portfolio of development projects

- Strong financial position to support development of committed projects and advancement of project studies
- Leverage combined technical resources to study an optimised development pathway for expansions at Olaroz, Sal de Vida and the development of James Bay
- Apply Orocobre's brine project development expertise and to assess the potential for a larger second stage project at Sal de Vida
- Leverage significant hydroxide expertise developed at Naraha to assess and develop an integrated downstream strategy for James Bay
- Sufficient scale and talent to continue to deliver improved performance at Olaroz and Mt Cattlin, commissioning at Naraha and deliver Sal de Vida stage 1 in parallel

## KEY PROJECT WORKSTREAMS

Project	DELIVERABLES
<b>Olaroz</b>	<ul style="list-style-type: none"><li>• Complete Stage 2 construction</li><li>• Commitment to progress Stage 3 DFS</li><li>• Optimisation of Olaroz Stage 1</li></ul>

# IMPLEMENTATION PROGRESS

## Designing the company of the future

### WHAT HAS BEEN DONE

- Detailed review of business structure, reporting structure, cultural integration and communications with external advisers
- Re-aligned reporting structure around geographic distribution of assets and personnel
  - Key operating and corporate leadership positions in place
  - Work programs underway to pool key technical and project development knowledge in order to optimise growth projects
- Launched a rebranding exercise that is aligned with the global and chemicals products focus of the merged group

### WHAT IS UNDERWAY

- Progress delivery of cost savings in Argentina from expertise sharing, employee and contractor sharing and procurement
- Integration of marketing processes to deliver synergies from expanded customer relationships and a broader product base
  - TTC to remain as marketing partner for Olaroz stages 1 & 2, and an integral partner for the foundation PPES contract
- Work with global search firms to identify and hire new Technology Lead and Chief of Staff
- Progress detailed strategic plan for delivering substantial growth pipeline, including optimising the development configuration of key growth projects, capital and timetable baselines, and determine optimal funding models utilising strong existing cash and balance sheet flexibility
- Progressing to committed debt financing facilities for Sal de Vida stage 1, and advancing debt funding options analysis for subsequent expansion

### FUTURE MILESTONES AND TARGETS

- Finalise construction and commissioning of Naraha and Olaroz stage 2
- Progress development of Sal de Vida stage 1
- Communication of detailed strategic plan for growth projects expected within 6 months, including development pathway for subsequent stages of Naraha, Olaroz, Sal de Vida and the James Bay project

### The basis of proforma financial statements preparation

The ORE financial information is extracted from the audited financial statement for the year ended 30 June 2021. The GXY balance sheet data is extract from its unaudited financial statements at 30 June 2021 and its profit and loss and cash flow information has been compiled using the unaudited financial information for the 6 months ended 30 June 2021 and 30 June 2020 and audited financial information for the year ended 31 December 2020. Such information is an aggregation of both companies financial statements and has not been audited nor reviewed.

Provisional purchase price accounting has not been completed at the date given merger implementation date of 25 August 2021 and the current presentation and proforma of Merged Co financial statements excludes such estimate. Purchase price accounting will result in material adjustments to exploration & evaluation, deferred tax liabilities and share capital.

# TAXATION IN ARGENTINA

## Corporate tax change applies from FY22

- Argentinean Congress approved in June 2021 an increase in the corporate tax rate from 30% to 35% for fiscal years beginning from 1<sup>st</sup> January 2021 for corporate taxpayers with earnings above ~US\$ 500K (ARS 50M). Withholding tax on dividends remain fixed at 7%.
- Shareholders from Countries in which Argentina has a Double Taxation Agreement with, may access a lower withholding tax rate on dividend distributions if the receiver of the dividend has a certificate of fiscal residence
- Generally tax losses can be carried forward up to 5 years. Under the mining law this period can be extended based on the generation of taxable income and Fixed Assets useful life
- Export Tax: Fixed percentage of 4.5% on export sales revenue from SDJ and Borax from January 2021. Previous levy was calculated at ARS\$3 for each US\$1 (approximately 5% in FY20 and 3.9% during the six-month period from 1 July to 31 December 2020)
- Withholding taxes:
  - Withholding tax on interest is generally 35% but can be reduced to 15% in certain instances
  - Withholding tax on royalties and fees is 35%

# OROCOBRE COMPETENT PERSONS' STATEMENT

## Technical Information, Competent Persons' and Qualified Persons Statement

Orocobre is not in possession of any new information or data relating to historical estimates that materially impacts on the reliability of the estimates or the Company's ability to verify the historical estimates as mineral resources, in accordance with the JORC Code. The supporting information provided in the initial market announcement on 21/08/12 continues to apply and has not materially changed. Additional information relating to Orocobre's Olaroz Lithium Facility is available on the Company's website in "Technical Report – Salar de Olaroz Lithium-Potash Project, Argentina" dated May 13 2011, which was prepared by John Houston, Consulting Hydrogeologist, together with Mr. Michael Gunn, Consulting Processing Engineer, in accordance with NI 43-101.

The information in this report that relates to exploration reporting at the Cauchari project has been prepared by Mr. Murray Brooker. Mr. Brooker is a geologist and hydrogeologist and is a Member of the Australian Institute of Geoscientists. Mr. Brooker is an employee of Hydrominex Geoscience Pty Ltd and is independent of Orocobre. Mr. Brooker has sufficient relevant experience to qualify as a competent person as defined in the 2012 edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. He is also a "Qualified Person" as defined in NI 43-101. Mr. Brooker consents to the inclusion in this announcement of this information in the form and context in which it appears.

## Caution Regarding Forward-Looking Information

Forward-looking information may include, but is not limited to, the successful ramp-up of the Olaroz Project, and the timing thereof; the design production rate for lithium carbonate at the Olaroz Project; the expected brine concentration at the Olaroz Project; the Olaroz Project's future financial and operating performance, including production, rates of return, operating costs, capital costs and cash flows; the comparison of such expected costs to expected global operating costs; the ongoing working relationship between Orocobre and the Provinces of Jujuy and Salta in Argentina; the on-going working relationship between Orocobre and the Olaroz Project's financiers, being Mizuho Bank and JOGMEC and the satisfaction of lending covenants; the future financial and operating performance of Orocobre, its affiliates and related bodies corporate, including Borax Argentina S.A. (Borax Argentina); the estimation and realisation of mineral resources at Orocobre's projects; the viability, recoverability and processing of such resources; timing of future exploration of Orocobre's projects; timing and receipt of approvals, consents and permits under applicable legislation; trends in Argentina relating to the role of government in the economy (and particularly its role and participation in mining projects); adequacy of financial resources, forecasts relating to the lithium, boron and potash markets; potential operating synergies between the Cauchari Project and the Olaroz Project; the potential processing of brines from the Cauchari Project and the incremental capital cost of such processing, expansion, growth and optimisation of Borax Argentina's operations; the integration of Borax Argentina's operations with those of Orocobre and any synergies relating thereto and other matters related to the development of Orocobre's projects and the timing of the foregoing matters.

Forward-looking statements are based on current expectations and beliefs and, by their nature, are subject to a number of known and unknown risks and uncertainties that could cause the actual results, performances and achievements to differ materially from any expected future results, performances or achievements expressed or implied by such forward-looking statements, including but not limited to, the risk of pandemic, further changes in government regulations, policies or legislation; that further funding may be required, but unavailable, for the ongoing development of Orocobre's projects; fluctuations or decreases in commodity prices; uncertainty in the estimation, economic viability, recoverability and processing of mineral resources; risks associated with development of the Olaroz Project; unexpected capital or operating cost increases; uncertainty of meeting anticipated program milestones at the Olaroz Project or Orocobre's other projects; exceptional or prolonged adverse weather conditions; risks associated with investment in publicly listed companies, such as the Company; risks associated with general economic conditions; the risk that the historical estimates for Borax Argentina's properties that were prepared by Rio Tinto, Borax Argentina and/or their respective consultants (including the size and grade of the resources) are incorrect in any material respect; the inability to efficiently integrate the operations of Borax Argentina with those of Orocobre; as well as those factors disclosed in the Company's Annual Report for the financial year ended 30 June 2020 and Sustainability Report 2020 available on the ASX website and at [www.sedar.com](http://www.sedar.com).

The Company believes that the assumptions and expectations reflected in such forward-looking information are reasonable. Assumptions have been made regarding, among other things: the timely receipt of required approvals and completion of agreements on reasonable terms and conditions; the ability of the Company to obtain financing as and when required and on reasonable terms and conditions; the prices of lithium, potash and borates; market demand for products and the ability of the Company to operate in a safe, efficient and effective manner. Readers are cautioned that the foregoing list is not exhaustive of all factors and assumptions which may have been used. There can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, readers should not place undue reliance on forward-looking information. The Company does not undertake to update any forward-looking information, except in accordance with applicable securities laws.
