Explanatory Memorandum

These Explanatory Notes set out information in connection with the business to be considered at the Meeting to be held on 30 September 2021.

ORDINARY BUSINESS

Resolution – Approval to enter into, and issue Convertible Notes under, the Convertible Note Subscription Agreement and the Deed to Amend the General Security Deed

The Resolution seeks the approval of Shareholders for the Company to enter into the:

- a) The Convertible Note Subscription Agreement with Moshav Custodian Pty Ltd (Moshav), a related party of the Company under Listing Rules 10.1 and 10.11, for the issue of 2,000,000 Convertible Notes to Moshav; and
- b) The Deed to Amending the General Security Deed which will secure the obligations of the Company under the Convertible Notes, over all of the Company's assets,

(together, the Agreements).

Background

In February 2020 and subsequently in November 2020, shareholders approved the issue of 4,000,000 convertible notes to Moshav and the entry into a General Security Deed whereby the convertible notes were secured over all of the assets of the Company (2020 Approvals). By agreement between the parties, the Maturity Date of the convertible notes the subject of the 2020 Approvals has been extended to 31 October 2022.

Under the terms of the Agreements the subject of this Notice, but subject to shareholder approval being granted, Moshav will subscribe for an additional 2,000,000 secured Convertible Notes and provide \$1,000,000 to the Company within 7 days of shareholder approval being granted.

Mr Tal Silberman is a director of the Company, and also a shareholder and director of Moshav. Under the terms of the Agreements, and subject to shareholder approval in accordance with this Notice of Meeting, Moshav will provide up to \$1,000,000 to the Company to be used for development of new business opportunities consistent with the plans outlined in the 2018 prospectus, the ongoing development of its Wealth Management subsidiary Pulse Markets Pty Ltd and other working capital purposes. In consideration, the Company will issue up to 2,000,000 secured Convertible Notes each at a face value of \$1 to Moshav. The issue price of the Convertible Notes is at a 50% discount to the face value of the Convertible Notes.

Terms of Issue of Convertible Notes

The secured Convertible Notes accrue interest at 5% per annum on the face value of the Convertible Notes on issue. The effective rate of interest is 10% on the amount loaned, which is equivalent to 5% of the face value of the Convertible Notes. Any accrued interest is payable in full on the Maturity Date or on the date of Conversion (as those terms are defined in the Agreements), or in part in proportion to any prepayment of the Convertible Notes. However, if the Convertible Notes are repaid or redeemed prior to the Maturity Date, the Company is entitled to a 50% discount on the effective interest rate.

The Convertible Notes are secured over all of the assets of the Company.

If Shareholder approval is granted pursuant to this Resolution, and the Convertible Notes are not prepaid, or repaid in full by the Maturity Date (as that term is defined in the Agreements), Moshav may convert the Convertible Notes to Shares at a conversion price which is the aggregate Face Value of the Convertible Notes,

divided by the 5 day volume weighted average price of the Shares as traded on the ASX as at the date immediately before Moshav provided the Notice of Conversion to the Company.

The Company's capital structure before and after the issue of the Convertible Notes is:

Capital Structure		Fully Paid Ordinary Shares	Convertible Notes	Assumed Conversion Price (1)	Fully Paid Ordinary Shares converted	Moshav or related Party Ownership	
						\$	%
1	Before the issue of the Convertible Notes	81,250,370				9,024,386	11%
2	After the issue and allotment of the Original 4 million convertible notes	81,250,370	4,000,000			9,024,386	11%
3	After the issue and allotment of this additional 2 million convertible notes	81,250,370	6,000,000			9,024,386	11%
4	Assuming conversion of all of the convertible notes into shares	239,145,107		0.038	157,894,737	166,919,123	70%

SENSITIVITY

Total at different Conversion Prices

15% higher	218,550,141		0.044	137,299,771	146,324,157	67%
15% lower	262,829,317		0.033	181,578,947	190,603,333	73%

(1) aggregate Face Value of the Notes, divided by the 5 day volume weighted average price of the Shares as traded on the Australia Stock Exchange as at the date immediately before the date of the Notice of Conversion

If on conversion of the Convertible Notes, the voting power of Moshav and its associates in the Company will increase above 20%, then Moshav may require the Company to seek the approval of Shareholders to that conversion under section 611 item 7 of the Corporations Act.

Summary of Material Terms of the Convertible Note Subscription Agreement ("Note Agreement")

Completion of the issue of and the subscription for the Convertible Notes is subject to the following conditions precedent:

- the preparation of a Notice of Meeting to obtain shareholder approval in a form satisfactory to Moshav – this has been satisfied;
- obtaining a report from an Independent Expert as to whether in the expert's opinion the Transaction is fair and reasonable to the holders of Shares whose votes in favour of the Transaction are not excluded by

operation of law – this has been satisfied and Shareholders are referred to the Independent Expert's Report annexed to this Notice of Meeting;

- delivering to Moshav documentary evidence that the Resolution the subject of this Notice of Meeting has been passed by the Shareholders able to vote on the Resolution; and
- the Company complying with all relevant regulatory and statutory requirements for convening the meeting of the Company's Shareholders.

If the Resolution is not passed the third and fourth conditions precedent set out above will not be satisfied and Moshav will have no obligation to subscribe for \$1 million of Convertible Notes and no obligation to pay \$1 million to the Company, and the Company will not issue the Convertible Notes.

The Convertible Notes, if issued, do not confer a right to vote or attend general meetings of the Company, nor do they entitle Moshav to participate in dividends of the Company unless the Convertible Notes have been converted into Shares prior to the record date for the dividend.

Interest accrues daily on the outstanding Face Value of the Convertible Notes at the rate of 10% p.a. from the date of issue. Where any interest payment is made on or before the Maturity Date, other than on the occurrence of an Event of Default, the Company is entitled to a 50% discount on the interest payment.

The Company may redeem some or all of the Convertible Notes at any time before the Maturity Date without penalty by paying to Moshav:

- 50% of the Face Value of the Convertible Notes to be redeemed; and
- All interest accrued and outstanding on those Convertible Notes (subject to a 50% discount on the interest payment).

No later than 5 business days before the Maturity Date, the Company must give Moshav a notice that:

- a. It will redeem any outstanding Convertible Notes on the Maturity Date in which case it must pay to Moshav 50% of the Face Value of the outstanding Convertible Notes plus all accrued and outstanding interest subject to the 50% discount on the interest rate; or
- b. It will not redeem the outstanding Convertible Notes on the Maturity Date in which case Moshav may issue a Notice of Conversion. If Moshav fails to issue a Notice of Conversion, an Event of Default will have occurred.

If a Notice of Conversion is issued by Moshav, the Company must issue to Moshav the number of Shares to which Moshav is entitled at a conversion price which is the aggregate Face Value of the Convertible Notes, divided by the 5 day volume weighted average price of the Shares as traded on the ASX as at the date immediately before Moshav provided the Notice of Conversion to the Company. The issue of any Shares will be subject to such Shareholder approval or other action as may be required.

If an Event of Default occurs, the whole of the Convertible Notes become immediately redeemable, and the Company must repay to Moshav 50% of the Face Value of the Convertible Notes together with all accrued but

unpaid interest. If the Company fails to satisfy its obligations to redeem the Convertible Notes, Moshav may exercise its security under the General Security Deed.

Summary of Material Terms of the Deed to Amend the General Security Deed (Amending Deed)

The Convertible Note Subscription Agreement requires the Company to provide security to Moshav. Pursuant to shareholder approval obtained at an Extraordinary General Meeting held on 6 February 2020, the Company and Moshav entered into a General Security Deed ("General Security Deed").

The General Security Deed provides that the Company and Moshav may designate a document to be a Finance Document and by so doing the obligations under the General Security Deed apply to that document. Pursuant to the Amending Deed, the Company and Moshav have designated the Convertible Note Subscription Agreement, the subject of this notice of meeting, to be a designated Finance Document for the purposes of the General Security Deed.

The General Security Deed secures the obligations of the Company to repay the Face Value of the Convertible Notes, at a 50% discount to the Face Value, plus any interest accruing on them.

If the Company fails to satisfy its obligations under the Convertible Note Agreement, Moshav may exercise its security under the General Security Deed as amended by the Amending Deed

Under the General Security Deed, the Company has granted a PPSA Security Interest over any PPSA Personal Property and a fixed and floating charge over all of the Company's assets.

The General Security Deed ranks first in priority in relation to the Collateral.

ASX Listing Rule 7.1

ASX Listing Rule 7.1 requires an entity to seek shareholder approval prior to issuing or agreeing to issue more than 15% of its issued capital in a 12month period. Exception 14 in Listing Rule 7.2 exempts an entity from complying with Listing Rule 7.1 if the shares are issued with the approval of shareholders under rule 10.11.

ASX Listing Rule 10.1

The Company is proposing to issue the Convertible Notes ("Transaction").

Listing Rule 10.1 provides that a listed company must not acquire or agree to acquire a substantial asset from, or dispose of or agree to dispose of a substantial asset to:

10.1.1 a related party;

10.1.2 a child entity;

10.1.3 a person who is, or was at any time in the 6 months before the transaction, a substantial (10%+) holder in the company;

10.1.4 an associate of a person referred to in Listing Rules 10.1.1 to 10.1.3; or

10.1.5 a person whose relationship with the company or a person referred to in Listing Rules 10.1.1 to 10.1.4 is such that, in ASX's opinion, the issue or agreement should be approved by shareholders,

unless it obtains the approval of its shareholders.

As stated above Moshav is a related party of the Company.

A “substantial asset” is an asset whose value or the value of the consideration being paid or received by the entity (or in the opinion of ASX) is 5% or more of the equity interests of the entity as set out in the entity’s last accounts lodged with ASX (under Listing Rule 10.2). The total equity interests stated in the Company’s Annual Report for the year ended 31 December 2021 was negative (\$1,607,734). 5% of that figure is equal to (\$80,371.70).

Accordingly, the Transaction falls within Listing Rule 10.1.1 and involves the disposal of a substantial asset to a related party of the Company. It therefore requires the approval of the Company’s shareholders under Listing Rule 10.1.

The Resolution seeks the required shareholder approval to the Transaction under and for the purposes of Listing Rule 10.1.

If the Resolution is passed, the Company will be able to proceed with the Transaction and it will have adequate funds to operate its business in the future.

If the Resolution is not passed, the Company will have to source funds from other sources which are likely to be of higher cost. As outlined in the June 2020 Appendix 4C, the Company had \$197,000 in cash at the end of June. Based on historical performance, without further funding, this cash balance level is not sufficient to maintain ongoing operations.

ASX Listing Rule 10.11

The Company is proposing to issue the Convertible Notes as part of the Transaction referred to above (“Issue”). Equity securities are defined to include Convertible Notes.

Listing Rule 10.11 provides that unless one of the exceptions in Listing Rule 10.12 applies, a listed company must not issue or agree to issue equity securities to:

10.11.1 a related party;

10.11.2 a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (30%+) holder in the company;

10.11.3 a person who is, or was at any time in the 6 months before the issue or agreement, a substantial (10%+) holder in the company and who has nominated a director to the board of the company pursuant to a relevant agreement which gives them a right or expectation to do so;

10.11.4 an associate of a person referred to in Listing Rules 10.11.1 to 10.11.3; or

10.11.5 a person whose relationship with the company or a person referred to in Listing Rules 10.11.1 to 10.11.4 is such that, in ASX’s opinion, the issue or agreement should be granted by its shareholders,

unless it obtains the approval of its shareholders.

The Issue falls within Listing Rule 10.11.1 and does not fall within any of the exceptions in Listing Rule 10.12. It therefore requires the approval of the Company’s shareholders under Listing Rule 10.11.

A “related party” for the purposes of the Listing Rules is defined widely and includes a director of the public company or an entity controlled by a director of the public company. Mr Tal Silberman controls Moshav, and therefore Moshav, and any of its associates, are a “related party” of the Company. Accordingly, the Issue falls within Listing Rule 10.11.1.

Approval for the entry into the Agreements, and issue of the secured Convertible Notes to Moshav, is sought in accordance with Listing Rule 10.11. As stated above, Shareholder approval will not be required for the Resolution under Listing Rule 7.1 if approval is given under Listing Rule 10.11. If approval is given, the Company intends to allot 2,000,000 of the Convertible Notes, subject to the receipt of an executed subscription notice from Moshav in accordance with the Agreements, not more than one (1) month after the date of the Meeting. The Company believes all information required pursuant to Listing Rules 10.5 and 10.13 is contained in the Notice of Meeting and this Explanatory Memorandum. The terms and conditions of the Convertible Notes are as set out in Annexure A accompanying this Notice.

Exception 7 in Listing Rule 10.12 provides that an issue of Shares on conversion of the Convertible Notes is exempt from compliance with Listing Rule 10.11. The Company will subsequently not be required to seek approval of Shareholders for the issue of Shares on conversion of the Convertible Notes to Moshav.

Chapter 2E of the Corporations Act

Section 208 of the Corporations Act provides that a public company must not, subject to certain exceptions, give a financial benefit to a related party without approval of the company's members. Section 228 of the Corporations Act defines a "related party" for the purposes of Chapter 2E to include:

- directors of the public company (section 229(2)(a)); and
- an entity controlled by directors of the public company (section 228(4)).

Moshav is a related party of the Company for the purposes of Chapter 2E of the Corporations Act. A "financial benefit" is defined in section 229 of the Corporations Act and includes issuing securities or granting an option to a related party. The nature of the financial benefit to be given to Moshav is the interest in the ordinary shares upon conversion of the Convertible Notes which are to be issued to Moshav.

Section 210 of the Corporations Act provides an exception to the requirement to obtain shareholder approval for giving a financial benefit to a related party, where the financial benefit is on terms which would be reasonable in the circumstances if the public company and the related party were dealing at arm's length.

Accompanying this Notice is an Independent Expert's Report prepared by Hall Chadwick (NSW). The Independent Expert's Report considers whether the potential acquisition of Shares by Moshav through the future conversion of the Convertible Notes (Proposed Transaction) is fair and reasonable to the Shareholders not associated with Moshav.

The report concludes that the Proposed Transaction is fair and reasonable to the holders of the Company's ordinary securities whose votes in favour are not to be disregarded under Listing Rule 14.11.

The Company considers that the Proposed Transaction will be on arm's length and as such the Company considers that the proposed issue falls within one of the exceptions set out in section 210 of the Corporations Act.

Directors' Recommendation

Mr Tal Silberman declines to make a recommendation on the Resolution because he has a material personal interest in the outcome of the Resolution.

The Board (other than Mr Silberman) unanimously recommends that Shareholders vote in favour of the Resolution as it allows the Company to raise necessary finance for its continuing operations.

The Directors
BIR Financial Limited
Level 2,
350 Kent Street
Sydney, NSW, 2000

Dear Sirs,

**Independent Expert's Report on the proposed issue of a
Convertible Notes in the Company**

1. INTRODUCTION

Background

- 1.1 BIR Financial Limited ("BIR" or "the Company") is an Australian public listed financial services company.
- 1.2 As announced to the market on 26 July 2021, BIR will, subject to shareholder approval, enter into a new Convertible Note Subscription Agreement ("Agreement") with Moshav Custodian Pty Ltd ("Moshav"), a company affiliated with Mr Tal Silberman, a director of the Company.
- 1.3 Under the Agreement Moshav intends to invest up to \$1,000,000 in the Company through the subscription for 2,000,000 Convertible Notes ("Notes").
- 1.4 The granting of the Notes, and the issue of Shares on conversion of the Notes ("Note Conversion") is referred to in this report as the "Transaction", which is subject to BIR obtaining Shareholder approval.

Purpose of Report

- 1.5 You have requested Hall Chadwick Corporate (NSW) Limited ("HCC") to prepare an Independent Expert's Report to advise the shareholders of BIR other than those associated with the proposed issue of BIR shares to Moshav ("Non-Associated Shareholders"), whether the proposed Transaction is fair and reasonable when considered in the context of the interests of Non-Associated Shareholders and to set out the reasons for our conclusions.
- 1.6 HCC understands and has agreed that this report will accompany the notice to convene a meeting of BIR shareholders, to assist the Non-Associated Shareholders in their consideration of the resolutions to be put at a General Meeting.

Opinion

- 1.7 In our opinion, the proposed Transaction is ***fair and reasonable*** to the Non-Associated Shareholders of BIR.
- 1.8 The ultimate decision however on whether to accept the proposed Transaction should be based on BIR shareholders own assessment of their circumstances.

2. THE PROPOSED TRANSACTION

- 2.1 In February 2020 and subsequently in November 2020, shareholders approved the issue of 4,000,000 convertible notes to Moshav and the entry into a General Security Deed whereby the convertible notes were secured over all of the assets of the Company.
- 2.2 Under the terms of the new Agreement, but subject to shareholder approval being granted, Moshav will subscribe for an additional 2,000,000 secured Convertible Notes and provide \$1,000,000 to the Company within 7 days of shareholder approval being granted. BIR is also entering into a Deed to amend the General Security Deed so that it extends the security provided to the proposed issue of new Notes under this Transaction, subject to shareholder approval.
- 2.3 Mr Tal Silberman, is a director of the Company, and also a shareholder and director of Moshav. Under the terms of the Agreements, Moshav will provide up to \$1,000,000 to the Company to be used for the development of new business opportunities, ongoing development of its Wealth Management subsidiary Pulse Markets Pty Ltd and other working capital purposes. In consideration, the Company will issue up to 2,000,000 secured Convertible Notes each at a face value of \$1 to Moshav.
- 2.4 If Shareholder approval is granted, Moshav may at any time before the Maturity Date convert the Notes to Shares at a conversion price which is the aggregate Face Value of the Notes, divided by the 5 day volume weighted average price of the Shares as traded on the Australia Stock Exchange (“ASX”) as at the date immediately before Moshav provided the Notice of Conversion to the Company (“Conversion Price”).
- 2.5 The secured Convertible Notes accrue interest at 5% per annum on the face value of the Convertible Notes on issue. The effective rate of interest is 10% on the amount loaned, which is equivalent to 5% of the face value of the Convertible Notes. Any accrued interest is payable in full on the Maturity Date or on the date of Conversion, or in part in proportion to any prepayment of the Convertible Notes. However, if the Convertible Notes are repaid or redeemed prior to the Maturity Date, the Company is entitled to a 50% discount on the effective interest rate.
- 2.6 The Maturity Date for the Notes is one year after the Issue Date, at which point the Notes are converted to Shares, subject to any Event of Default occurring before this date.
- 2.7 Moshav may at any time before the Maturity Date convert the Notes to Shares by providing to the Company a duly completed Notice of Conversion requesting that the Company convert the Notes the subject of the Notice of Conversion to Shares.
- 2.8 It is only if an Event of Default occurs that Moshav can request that the Notes be redeemed. The whole of the Notes become immediately repayable if, on the occurrence of an Event of Default, the Subscriber gives the Company written notice that the Notes have become redeemable. An Event of Default means an event causing the Company to become Insolvent; or the Company breaching any of its obligations under the Note terms, and failing to remedy such breach to the reasonable satisfaction of the Subscriber within 30 days of demand by the Subscriber requiring the Company to remedy the breach.
- 2.9 If the Notes are redeemed (i.e. repaid in cash in the event of default) the repayment amount is 50% of the Face Value of the Notes (i.e. the \$1,000,000 loaned) plus accrued interest. If

the Notes are converted and repaid in the form of shares, the repayment amount is \$2,000,000 (i.e. the Face Value) plus accrued interest.

- 2.10 The Company's capital structure before and after the issue of the Convertible Notes is shown in the table below. The table shows the percentage interests if the Convertible Notes are converted into shares. However we note this has not occurred as at the date of this report.

Capital Structure		Fully Paid Ordinary Shares	Convertible Notes	Assumed Conversion Price (1)	Fully Paid Ordinary Shares converted	Moshav or related Party Ownership	
						\$	%
1	Before the issue of the Convertible Notes	81,250,370				9,024,386	11%
2	After the issue and allotment of the original 4 million convertible notes	81,250,370	4,000,000			9,024,386	11%
3	After the issue and allotment of this additional 2 million convertible notes	81,250,370	6,000,000			9,024,386	11%
4	Assuming all of the convertible notes are converted into shares	239,145,107		0.038	157,894,737	166,919,123	70%

(1) aggregate Face Value of the Notes, divided by the 5-day volume weighted average price of the Shares as traded on the Australia Stock Exchange as at the date immediately before the date of the Notice of Conversion. Share trading information is included at section 6.3

Total at different Conversion Prices

15% higher	218,550,141	0.044	137,299,771	146,324,157	67%
15% lower	262,829,317	0.033	181,578,947	190,603,333	73%

- 2.11 We note that Moshav currently holds an 11% equity interest in the Company. This report relates to the Shareholder approval being sought for the issue of the Convertible Notes only as detailed above. The terms of the Convertible Notes specify that the Company may be required to convene a meeting to obtain shareholder approval in the event Moshav decides to convert the Convertible Notes into shares in the Company and that conversion results in Moshav's voting power increasing above 20%. If all Convertible Notes are converted, Moshav's equity interest would increase to 70%. A further Independent Experts Report would also be required at that point under Sections 606(1) and 611 of the Corporations Act.

STRUCTURE OF REPORT

Our report is set out under the following headings:

- 3 PURPOSE OF REPORT
- 4 OPINION
- 5 BASIS OF EVALUATION
- 6 OVERVIEW OF BIR
- 7 ASSESSMENT OF NOTES AND IMPACT OF TRANSACTION
- 8 ADVANTAGES AND DISADVANTAGES OF THE TRANSACTION
- 9 CONCLUSION AS TO FAIRNESS AND REASONABLENESS

APPENDICES

- I SOURCES OF INFORMATION
- II STATEMENT OF DECLARATION & QUALIFICATIONS
- III FINANCIAL SERVICES GUIDE

3 PURPOSE OF REPORT

- 3.1 The purpose of this report is to advise the Non-Associated Shareholders of BIR of the fairness and reasonableness of the Transaction. This report provides an opinion on whether or not the terms and conditions in relation to the Transaction are fair and reasonable to the BIR shareholders whose votes are not to be disregarded in respect of the transaction (that is, the Non-Associated Shareholders).
- 3.2 The ultimate decision whether to accept the terms of the Transaction should be based on each shareholders' assessment of their own circumstances, including their risk profile, liquidity preference, tax position and expectations as to value and future market conditions. If in doubt about the Transaction or matters dealt with in this report, shareholders should seek independent professional advice.
- 3.3 For the Transaction to be fair, the BIR Notes must be issued on arms-length market terms and provide no additional benefit to the Subscriber. To be reasonable the shareholders must obtain an overall benefit if the Transaction proceeds.
- 3.4 This report has been prepared to satisfy the requirements of the ASX Listing Rules. ASX Listing Rule 10.1 requires shareholder approval for an entity to acquire a "substantial asset" from, or dispose of a substantial asset to, a related party (amongst others). Moshav is a related party under Listing Rule 10.11. A "substantial asset" is an asset whose value or the value of the consideration being paid or received by the entity (or in the opinion of ASX) is 5% or more of the equity interests of the entity as set out in the entity's last accounts lodged with ASX (under Listing Rule 10.2). The issue of the Convertible Notes, and the grant of a security over all of the assets of the Company, are each deemed to be the disposal of an asset by the Company, exceeding 5% of BIR equity.
- 3.5 Listing Rule 10.11 requires shareholder approval for a company to issue equity securities to a related party. Equity securities are defined to include Convertible Notes. A "related party" for the purposes of the Listing Rules is defined widely and includes a director of the public company or an entity controlled by a director of the public company. Mr Tal Silberman controls Moshav, and is therefore a "related party" of the Company. Approval for the entry into the Agreements, and issue of the secured Convertible Notes to Moshav, is sought in accordance with Listing Rule 10.11.
- 3.6 Australian Securities and Investments Commission ("ASIC") Regulatory Guide 111 "Content of Experts Reports" requires, amongst other things, that directors of a company need to provide shareholders with an analysis of whether a proposed transaction is fair and reasonable, when considered in the context of the interests of the non-associated shareholders. Regulatory Guide 111 recommends that this analysis should include an independent expert's report. The independent expert is required to state whether, in their opinion, the proposal is fair and reasonable having regard to the interests of non-associated shareholders and state the reasons for forming that opinion. This report provides such an opinion.
- 3.7 This report relates to the Shareholder approval being sought for the issue of the Convertible Notes only as detailed above. If all Convertible Notes are converted, Moshav's equity interest would increase to 70%. A further Independent Experts Report would be required at that point the under Sections 606(1) and 611 of the Corporations Act.

4. OPINION

4.1 In our opinion, the proposed Transaction is *fair and reasonable* to the Non-Associated Shareholders of BIR.

4.2 Our opinion is based solely on information available as at the date of this report. The principal factors that we have considered in forming our opinion are summarised below.

Fair

4.3 In assessing the fairness of the Transaction, we must consider the initial issue of the Notes as well as the Conversion Shares issued to Moshav on receipt of a Notice of Conversion.

4.3.1 The Notes are being issued on arms-length commercial terms with a 12-month term and interest accruing at 5% of the Face Value of the Notes (10% per annum on the amount loaned) payable in full on the Maturity Date or on the date of Conversion. We have assessed these terms, including the effective interest rate of 10%, as being on arms-length market terms, as detailed at section 7.0.0

4.3.2 The Notes also have a right attached, representing an option to convert Notes to Shares at a Conversion Price equivalent to the aggregate Face Value of the Notes, divided by the 5-day volume weighted average price of the Shares as traded on the ASX as at the date immediately before the date of the Notice of Conversion.

4.3.3 Valuing a right to acquire shares is based on the current value of the share and assumptions relevant to how the share value is likely to vary over the exercise period. However in this case the exercise price is not fixed and the Notes will convert to Shares at a variable price equivalent to the market price of the shares at the time of conversion. Therefore there is no additional value attributed to the right to convert the Notes to Shares.

4.3.4 Therefore, for the reasons detailed below, we are of the opinion that the Transaction is *fair*:

- a) The Notes are being issued at arms-length commercial terms; and
- b) The Conversion Price is a market-based price immediately prior to conversion, therefore no additional value is being attributed to the right to convert the Notes to Shares.

4.3.5 Moshav currently holds an 11% equity interest in the Company. This report relates to the Shareholder approval being sought for the issue of the Convertible Notes only. If all Convertible Notes are converted, Moshav's equity interest would increase to 70%. A further Independent Experts Report would be required at that point under Sections 606(1) and 611 of the Corporations Act.

Reasonable

4.4 ASIC Regulatory Guide 111 states that a transaction is reasonable if:

- The Transaction is fair; or
- Despite not being fair the expert believes that there are sufficient reasons for security holders to accept the Transaction.

4.4.1 We have concluded that the Transaction is reasonable. In forming our opinion, we have considered the following relevant factors:

- The funds received from the issue of the Notes will contribute to the development of new business opportunities, ongoing development of its Wealth Management subsidiary Pulse Markets Pty Ltd and other working capital purposes.
- The subsequent Note Conversion results in a reduction in debt associated with the initial issue of the Notes and associated interest costs;
- The Transaction will provide an opportunity for BIR to increase shareholder value and put the Company in a better financial position due to the cash injection from the Notes;
- The BIR Board are of the opinion that the Transaction is in the best interests of the Company's Shareholders.

4.5 *Accordingly, in our opinion, the Transaction is fair and reasonable to the Non-Associated Shareholders of BIR.*

5 BASIS OF EVALUATION

- 5.1 In our assessment of whether the Transaction is fair and reasonable to BIR Non-Associated Shareholders, we have given due consideration to the Regulatory Guides issued by the ASIC, in particular, Regulatory Guide 74 “Acquisitions Agreed to by Shareholders”, Regulatory Guide 111 “Content of Experts Reports” and Regulatory Guide 112 “Independence of Experts Reports”.
- 5.2 ASIC Regulatory Guide 74 requires, amongst other things, that shareholders are provided with sufficient information to make an effective, informed decision on whether the proposed Transaction is fair and reasonable. Under Regulatory Guide 111, a transaction is “fair” if the value of the asset is equal to or greater than the value of the instrument or securities being issued. Additionally, under Regulatory Guide 111 an offer is “reasonable” if it is fair. It is possible for an offer to be reasonable despite being unfair, if after considering other non-financial factors the shareholders should still accept the Transaction.
- 5.3 Our report has compared the likely advantages and disadvantages to Non-Associated Shareholders if the Transaction is agreed to, with the advantages and disadvantages to those shareholders if it is not.
- 5.4 Normal valuation practice is to determine the fair market value of an asset assuming a counter party transaction between a willing and not anxious buyer and a willing but not anxious seller, clearly at arm’s length. We have adopted this approach in determining market values for this Transaction.
- 5.5 In evaluating the Transaction, we have considered the terms of the Notes being issued, including the terms of conversion. We consider that the Transaction will be fair and reasonable if, on balance, the Non-Associated Shareholders in BIR will be better off if the Transaction is approved. We will also consider the Non-Associated Shareholder’s interests should the Transaction not proceed.
- 5.6 In our assessment of the Transaction we have considered, in particular the following:
- The operational and financial position of BIR;
 - The value of the Note and BIR shares; and
 - The advantages and disadvantages associated with approving the Transaction.
- 5.7 The documents and information relied on for the purpose of this valuation are set out in Appendix I. We have considered and relied upon this information and believe that the information provided is reliable, complete and not misleading and we have no reason to believe that material facts have been withheld. The information provided was evaluated through analysis, enquiry and review for the purpose of forming an opinion as to whether the Transaction is fair and reasonable. However, in assignments such as this, time is limited and we do not warrant that our enquiries have identified or verified all of the matters which an audit or more extensive examination might disclose. None of these additional tasks have been undertaken.
- 5.8 We understand the accounting and other financial information that was provided to us has been prepared in accordance with generally accepted accounting principles.

- 5.9 An important part of the information used in forming an opinion of the kind expressed in this report is the opinions and judgement of management. This type of information has also been evaluated through analysis, enquiry and review to the extent practical. However, it must be recognised that such information is not always capable of external verification or validation.
- 5.10 The auditors of BIR are Hall Chadwick Chartered Accountants and Business Advisors Sydney Partnership (“HC Sydney”) The partners of HC Sydney have a 100% interest in HCC. HCC adopts internal procedures and structures to safeguard our independence and manage any perceived conflict of interest arising from the role of HC Sydney as auditor of BIR. We have analysed and reviewed information provided by the Directors and management of BIR and made further enquiries where appropriate.
- 5.11 This report has been prepared after taking into consideration the current economic and market climate. We take no responsibility for events occurring after the date of this report which may impact upon this report or which may impact upon the assumptions referred to in the report.

6. OVERVIEW OF BIR

6.1 Business Overview

- 6.1.1 BIR is an Australian public listed company, which through its subsidiary, Pulse Markets Pty Ltd (“Pulse Markets”), operates as a financial services company in Australia.
- 6.1.2 BIR completed the acquisition of Pulse Markets on 28 June 2018 and during the 2019 financial year, was re-quoted on the ASX.
- 6.1.3 Pulse Markets is a diversified financial services business operating since 2001 with products and services encompassing equity capital markets (including corporate advisory services) and securities trading. Pulse Markets is providing financial services to hundreds of clients, consisting of wholesale / sophisticated, institutional, corporate and private clients.
- 6.1.4 Pulse Markets is driving the growth of its business through maintaining and growing its core business offerings, while introducing new and innovative financial products and services both to existing Pulse Markets’ clients and through new partnered distribution channels (Business-to-business (**B2B**) and wholesale).
- 6.1.5 Pulse Markets currently provides the following products and services:
- Core, foundational business: equity capital markets (**ECM**) (including corporate advisory services and capital raisings) and securities trading (equities and derivatives, and fixed income) services to wholesale/sophisticated investors; and
 - Individually Managed Account (**IMA**) services.
- 6.1.6 Equity Capital Markets consists of two parts, corporate advisory services and capital raisings for companies. Corporate advisory involves the provision of strategic, due diligence and financial advice in relation to transactions such as mergers and acquisitions, equity capital markets (initial public offerings or IPOs and other capital raisings), restructuring, recapitalisations and other corporate matters. Pulse Markets provides corporate advisory services to ASX listed and privately-owned companies. Corporate advisory services are usually, but not always, offered as a prelude to a capital raising (i.e., ECM services).
- 6.1.7 Pulse Markets has entered into an exclusive distributor partnership agreement with Moshav Financial Wholesale Pty Limited (AFSL: 439903) (a company affiliated with Mr Tal Silberman, a director of the Company) for Pulse Markets to be the exclusive distributor of a proposed new financial product, called MNotes, however the implementation of this product has been put on hold as a result of the COVID impact on sourcing foreign investment funds.
- 6.1.8 An MNote is a secured mortgage investment instrument which gives the note holder the opportunity to fund loans to creditworthy borrowers through a fractionalised loan structure. Each loan is secured by a registered first ranking mortgage over real property and is typically provided for construction funding and short-term finance (for example, 2 years). MNotes will be structured to pay regular returns to investors, often at a rate higher than that offered by institutional banks for savings or term deposit accounts, subject to the terms of the investment. The proposed platform for the distribution of MNotes will allow

investors to select which MNote instrument(s) they wish to hold, and therefore which underlying loans they wish to invest in.

6.3.2 The table below sets out the movement of BIR share price and trading volumes up to and including 26 July 2021:

	Low \$	High \$	VWAP (1)	Volume

6.3.3 The closing share price on 26 July 2021 was \$0.038.

7. ASSESSMENT OF NOTES AND IMPACT OF TRANSACTION

7.1 Arms-length terms of Notes

- 7.1.1 In assessing the fairness and reasonableness of the Transaction we have considered the terms of the Notes and whether they are considered to be on arms-length commercial terms.
- 7.1.2 The Notes will accrue interest at 5% per annum on the face value of the Notes on issue, payable in full on the Maturity Date or on the date of Conversion. As the amount loaned is 50% of the total face value of the Notes, the effective interest rate on the amount loaned is 10% per annum.
- 7.1.3 We have considered current interest rates in the market from both bank and non-bank lenders. Based on the following data analysed ¹, we are of the opinion that the 10% interest rate attributed to the Notes is a fair market rate:
- Secured loans above \$1 million with a one-year term have comparison rates ranging from 5.46% to 13.09%;
 - Personal loan comparison rates range from 8.29% to 17.40%;
 - Private first mortgage rates can range between 9.5% and 12.5%;
 - Based on research undertaken and our knowledge of financial markets, a 10% interest rate is consistent with similar convertible note instruments issued in the market.
- 7.1.4 The BIR board of Directors, based on their many years' experience in the finance industry, considered the interest rate to be standard for a transaction of this nature.
- 7.1.5 The balance of the terms of the Notes have also been reviewed and are considered standard commercial terms for a transaction of this nature.

7.2 Impact of Cash Injection and Conversion Terms

- 7.2.1 In determining that the terms of the Notes are commercial and at arms-length, we have considered the fact that the Transaction enables the Company to obtain working capital within a relatively short timeframe and we are advised that there is a lack of alternate funding options.
- 7.2.2 We have also considered that the Conversion Price, being based on the 5-day volume weighted average price of the Shares as traded on the ASX immediately before the date of the Notice of Conversion, is a fair representation of market value. The market value of the shares listed on the ASX reflects all publicly available information on the Company and therefore we believe it is a reliable reflection of the market value of the Company's shares and it is likely would continue to be.
- 7.2.3 Moshav currently holds an 11% equity interest in the Company. This report relates to the Shareholder approval being sought for the issue of the Convertible Notes only. If all Convertible Notes are converted, Moshav's equity interest would increase to 70%. A further Independent Experts Report would be required at that point under Sections 606(1) and 611 of the Corporations Act.

8. ADVANTAGES & DISADVANTAGES OF THE TRANSACTION

8.1 Approach to assessing Fairness and Reasonableness

HCC has followed the guidelines of ASIC Regulatory Guide 111 in assessing the fairness and reasonableness of the Transaction. In forming its conclusions in this report, HCC compared the advantages and disadvantages for Non-Associated Shareholders if the Transaction proceeds.

8.2 Advantages of the Transaction

- 8.2.1 The funds received from the issue of the Notes will contribute to the working capital required for the Company.
- 8.2.2 The Notes are being issued on arms-length commercial terms with a 12-month term and interest accruing at 5% of the Face Value of the Notes (10% per annum on the amount loaned) payable in full on the Maturity Date or on the date of Conversion. We have assessed these terms as being on arms-length market terms.
- 8.2.3 The subsequent Note Conversion results in a reduction in debt associated with the initial issue of the Notes and associated interest costs;
- 8.2.4 The Notes will convert to Shares at a variable price equivalent to the market price of the shares at the time of conversion, therefore there is no additional value being attributed to the right to convert.
- 8.2.5 The Transaction may provide an opportunity for BIR to increase shareholder value and put the Company in a better financial position due to the cash injection from the Notes.
- 8.2.6 If the Transaction does not proceed, the Company may have insufficient cash to continue operations.

8.3 Disadvantages of the Transaction

- 8.3.1 The Transaction may result in the dilution of Non-Associated Shareholders ownership interest in BIR. If the Notes are converted, the Shares issued on conversion of the Notes will represent up to 70%² of the post-Transaction shares on issue, assuming the full face value of the Notes is converted and no other shares are issued to the date of conversion.
- 8.3.2 In the event the Notes are converted, Moshav will obtain a controlling interest in BIR and an opportunity may be lost to obtain a takeover premium for the company's shares unless Moshav sold their interest or subscribed for a 100% interest.
- 8.3.3 If there is an Event of Default the Notes become immediately repayable and the Subscriber can give the Company written notice that the Notes have become redeemable. An Event of Default means an event causing the Company to become Insolvent; or the Company breaching any of its obligations under the Note terms, and failing to remedy such breach to the reasonable satisfaction of the Subscriber within 30 days of demand by the Subscriber requiring the Company to remedy the breach.

² Based on a note conversion price of \$0.038

- 8.3.4 In the event that the Notes are not converted into Shares and are repayable by BIR, the Company must repay to the Subscriber the Subscription Value (being 50% of the Face Value of the Notes), together with all accrued but unpaid interest.

9. CONCLUSION AS TO FAIRNESS AND REASONABLENESS

9.1 Fairness

- 9.1.1 In assessing the fairness of the Transaction, we must consider the initial issue of the Notes as well as the Conversion Shares issued to Moshav on receipt of a Notice of Conversion.
- 9.1.2 The Notes are issued on arms-length commercial terms with a 12-month term and interest accruing at 5% of the Face Value of the Notes (10% per annum on the amount loaned) payable in full on the Maturity Date or on the date of Conversion. We have assessed these terms, including the effective interest rate of 10%, as being on arms-length market terms.
- 9.1.3 The Notes also have a right attached, representing an option to convert Notes to Shares at a Conversion Price equivalent to the aggregate Face Value of the Notes, divided by the 5 day volume weighted average price of the Shares as traded on the ASX as at the date immediately before the date of the Notice of Conversion.
- 9.1.4 Valuing a right to acquire shares is based on the current value of the share and assumptions relevant to how the share value is likely to vary over the exercise period. However in this case the exercise price is not fixed and the Notes will convert to Shares at a variable price equivalent to the market price of the shares at the time of conversion. Therefore there is no additional value attributed to the right to convert the Notes to Shares.
- 9.1.5 Therefore, for the reasons detailed below, we are of the opinion that the Transaction is *fair*:
 - a) The Notes are being issued at arms-length commercial terms; and
 - b) The Conversion Price is a market-based price immediately prior to conversion, therefore no additional value is being attributed to the right to convert.
- 9.1.6 Moshav currently holds an 11% equity interest in the Company. This report relates to the Shareholder approval being sought for the issue of the Convertible Notes only. If all Convertible Notes are converted, Moshav's equity interest would increase to 70%. A further Independent Experts Report would be required at that point under Sections 606(1) and 611 of the Corporations Act.

9.2 Reasonableness

- 9.2.1 ASIC Regulatory Guide 111 states that a transaction is reasonable if the Transaction is fair, or despite not being fair, the expert believes that there are sufficient reasons for security holders to accept the Transaction.
- 9.2.2 We have concluded that the Transaction is fair and therefore also reasonable, after considering the advantages and disadvantages of the Transaction detailed at section 8.
- 9.2.3 Having considered the above, in our opinion the Non-Associated Shareholders of BIR should benefit if the Transaction proceeds and therefore, in our opinion the Transaction is reasonable.

Yours faithfully
Hall Chadwick Corporate (NSW) Limited
