8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: This is totally dependant on lockdowns, which once eased will have a significant positive impact on cash flow. Additionally, Job Saver payroll subsidy, rent waivers, significantly lower wage costs will have a positive impact on net operating cashflow.	
8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: OLI is currently in discussions with its primary financier, PURE Asset Management and major shareholders and is considering a range of options to fund the business over the coming months. The Company had previously advised the market of our intention to raise capital via a Share Purchase Plan (SPP) to shareholders at 3 cents but due to the ASX suspension of OLI shares the Company currently believes an SPP equity raise would be unlikely to garner retail shareholder support. The Company remains of the view that the current discussions will achieve a successful outcome and will make an announcement once agreement is reached.	

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, as a result of the restructure, annualised costs of approximately \$4M have been stripped from the business and revenue is forecast to improve as Australia moves to ease lockdowns following a massive surge in vaccination rates.

*Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.*
