Announcement: Peter Menadue appointed as General Manager – Microsoft Solutions and Partnerships

3 September 2021

IT Solutions Integrator and Microsoft Gold Partner, MOQdigital, has announced the commencement of Peter Menadue in the role of General Manager – Microsoft Solutions and Partnerships in order to accelerate the Microsoft go-to-market and further strengthen the partnership between Microsoft and MOQdigital.

Peter joins MOQdigital from NTT Limited/Dimension Data where he was responsible for growing the global Microsoft business and establishing a global strategic alliance with Microsoft. “I am looking forward to the opportunity with the MOQdigital team and helping the business to grow their already strong Microsoft partnership to the next level. MOQdigital has been incredibly successful at delivering digital transformation to clients and I believe there is huge potential for further growth, and I am looking forward to having an impact on that.” Peter said.

MOQdigital has invested significantly into the Microsoft partnership over the last two years and further strengthened this through the recent acquisitions of Dienst Consulting and WARDY IT Solutions. “Microsoft is a strategic partner for MOQdigital and provides a range of revenue growth opportunities in addition to service offerings. Appointing Peter to accelerate the digital transformation for our customers through our Microsoft alignment aligns with our focus on Microsoft Azure” said MOQdigital CEO Joe D’Addio.

MOQdigital is continuing to expand its services into new markets and this initiative aims to drive growth for the business through its partnership with Microsoft.
