ASX/Media Release

INVESTOR PRESENTATION AND FIRST HALF 2022 UPDATE

SYDNEY, 8 September 2021 – As part of its regular investor communications program, Macquarie Group (ASX: MQG; ADR: MQBKY) will be presenting at the Jefferies Asia Forum, held virtually between 8 and 10 September 2021. The presentation (attached) includes a 1H22 update to the short-term outlook statement Macquarie provided at the Group's Annual General Meeting on 29 July 2021 as well as an update to the factors impacting short-term outlook on slide 52.

We currently expect the 1H22 result to be slightly down on 2H21, noting:

- 1H22 included the Macquarie Infrastructure Corporation (MIC) disposition fee in Macquarie Asset Management
- Favourable market conditions contributing to a stronger 1H22 Commodities and Global Markets result than anticipated together with the sale of the UK commercial and industrial smart meter portfolio

The range of factors that may influence our short-term outlook include:

- The duration of COVID-19, speed of the global economic recovery and extent of government support for economies
- Market conditions including significant volatility events and the impact of geopolitical events
- Potential tax or regulatory changes and tax uncertainties
- Completion of period-end reviews and the completion rate of transactions
- The geographic composition of income and the impact of foreign exchange

We continue to maintain a cautious stance, with a conservative approach to capital, funding and liquidity that positions us well to respond to the current environment

Macquarie's response to COVID-19

Overview of Macquarie

Employees

- Gradual return to office commenced in 90% of locations where safe to do so and in numbers that allow for social distancing
- Systems and processes have been resilient to ongoing remote working, reflecting long-term investment in technology and flexible working culture
- Investment in leadership capability, technology and the workplace continues as we respond to the evolving culture of work and promote greater flexibility
- Additional support provided to staff in India during the current acute phase of COVID-19 infections

We have been agile in adapting our approach to a rapidly-changing environment in each location, capturing regular feedback from staff to address immediate needs and test and learn for longer-term shifts and opportunities.

Staff engagement¹ Staff working remotely at peak >98%

Clients

- Enhanced client support and lending relief offered between Mar 20 and Mar 21. Clients that now experience difficulty in payments are supported via our usual client financial assistance relief. Most clients have now resumed payments
- Continued engagement and monitoring across our portfolios for impacted clients to provide ongoing support where required

We recognise the structural shift COVID-19 has prompted for some clients, giving rise to near and longer-term changes in our approach to meeting their needs and ensuring their ongoing access to opportunities.

Clients accessing assistance² Peak ~13% <0.01%

Portfolio Companies

- · Ongoing work with Private Markets and Macquarie Capital portfolio companies including projects under construction to ensure business continuity, financial resilience and employee wellbeing
- Maintained essential community services and connected best practice across assets, industries and regions
- Capacity upgrades to Private Markets-managed digital infrastructure assets have left them able to handle significant activity increases resulting from shift to virtual engagement

Community

- \$A20m allocation to Macquarie Group Foundation to help combat COVID-19. \$A19.5m allocated to date:
- \$A7.1m has been allocated across 27 non-profits internationally that are focused on direct relief
- \$A10.4m to twelve organisations that are supporting workers and businesses in restarting economic activity.
- \$A2m has been allocated to two Australian research projects
- In early FY22, \$A1m was committed to support COVID-19 relief in India

Our longstanding approach to crisis planning has underpinned the ability of assets to withstand economic impacts and maintain and extend essential services, while also identifying new ways to respond to disruption on behalf of the community.

Daily users of essential services

Macquarie's evolution is driven by our people

Our people are closest to client needs and markets

We seek to identify **opportunity** and realise it for our clients, community, shareholders and our people

From positions of deep expertise, we pursue opportunities adjacent to existing businesses, largely via organic growth

We are **accountable** for all our actions to our clients, our community, our shareholders and each other

We act with **integrity** and earn the trust of our clients, colleagues, community and shareholders through the quality of our work and our high ethical standards

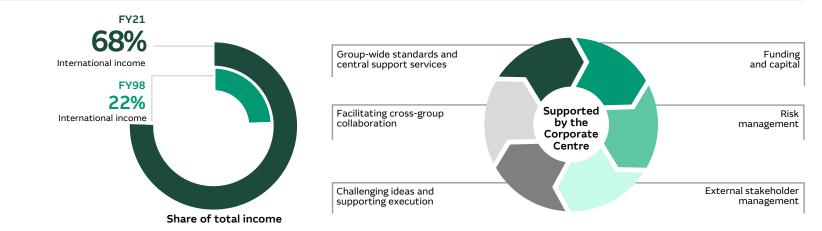

We pursue opportunities that deliver real outcomes to achieve an appropriate and resilient long-term return on capital

Macquarie's approach to risk management

Strong focus on business accountability and risk ownership

Stable and robust core risk management principles

Supported by our longstanding approach to establishing and maintaining an appropriate risk culture

Principles stable for **30+ years**A key factor in our 52 years of unbroken profitability

Our approach is consistent with the 'three lines of defence' model with clear accountability for risk management

The three lines of defence model, which is a widely adopted standard across the industry, sets risk ownership responsibilities functionally independent from oversight and assurance

Line 1	Primary responsibility for risk management lies with the business.
Line 2	The Risk Management Group (RMG) forms the second line of defence and independently assesses material risks.
Line 3	Internal Audit provides independent and objective risk-based assurance on the compliance with, and effectiveness of, Macquarie's financial and risk management framework.

Our commitment to net zero

As global commitments to tackling climate change accelerate, and in keeping with our culture of innovation and evolution, we are strengthening our own commitment on climate in four key areas.

01

We are strengthening our support for clients and portfolio companies to manage the transition to net zero and achieve their decarbonisation ambitions

02

We are increasing our investment in climate mitigation and adaptation solutions

03

We will align the emissions of our financing activities with the objective of enabling and accelerating the world's pathway to net zero by 2050

04

We will **continue to reduce the emissions** of
our own business
operations. We are
committed to reaching
net zero operational
emissions by 20251

^{1.} Operational emissions include scope 1 and scope 2 emissions, and emissions from business travel.

1Q22 Update

1. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax.

Improved trading conditions with 1Q22 operating group contribution significantly up on the prior corresponding period (pcp) (1Q21) which had mixed trading conditions

- Macquarie's annuity-style businesses (MAM and BFS) combined 1Q22 net profit
 contribution¹ slightly up on pcp, primarily due to higher average volumes and lower
 provisions in BFS. This was partially offset by reduced contribution from MAM in
 the absence of the gain on sale of the rail operating lease business in the pcp,
 partially offset by the Macquarie Infrastructure Corporation (MIC) disposition fee
 in 1Q22
- Macquarie's markets-facing businesses (CGM and Macquarie Capital) combined 1Q22 net profit contribution¹ significantly up on pcp primarily due to the sale of the UK commercial and industrial smart meter portfolio which, as foreshadowed, was partially offset by the timing of income recognition on storage and transport contracts in CGM, together with significantly higher investment-related income in Macquarie Capital

^{1.} Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax.

- Public Investments: \$A495.2b in AUM, up 35% on Mar 21, predominantly driven by acquisition of Waddell & Reed, combined with positive impacts from market movements, foreign exchange and net flows
- Private Markets: \$A147.9b in EUM 3 , up 4% on Mar 21 predominantly driven by equity raised and FX movements
- Private Markets: \$A3.3b in new equity raised; \$A1.3b of equity invested; \$A0.6b equity divested in 1022
- Private Markets: \$A29.2b of equity to deploy at Jun 21
- Macquarie Infrastructure Corporation (MIC), subject to shareholder approval, agreed to sell its Atlantic Aviation and MIC Hawaii businesses, marking the conclusion of MIC's pursuit of strategic alternatives. Following the sales MIC will be delisted from the NYSE
- MAM completed its acquisition of Waddell & Reed Financial, Inc on 30 Apr 21
- MAM entered into an agreement to acquire AMP Capital's Global Equity and Fixed Income business on 08 Jul 21
- Continued strong Public Investments performance with 59% of AUM outperforming their respective 3-year benchmarks⁴

- Business banking loan portfolio of \$A10.8b at Jun 21, up 6% on Mar 21
- Vehicle finance portfolio⁷ of \$A11.2b at Jun 21, down 3% on Mar 21

1. Based on FY21 net profit contribution from operating groups as reported on 7 May 21. Net profit contribution is management accounting profit before unallocated corporate costs, profit share and income tax. 2. Assets under Management (AUM) is calculated as the proportional ownership interest in the underlying assets of funds and mandated assets that Macquarie actively manages or advises for the purpose of wealth creation, adjusted to exclude cross-holdings in funds and reflect Macquarie's proportional ownership interest of the fund manager. AUM excludes uninvested equity in Private Markets. 3. Private Markets' total EUM includes market capitalisation at measurement date for listed funds, the sum of original committed capital less capital subsequently returned for unlisted funds and mandates as well as invested capital for managed businesses. 4. As at 30 Jun 21, gross of fees. 5. BFS deposits exclude corporate/wholesale deposits. 6. Funds on platform includes Macquarie Wrap and Vision. 7. Includes general plant & equipment.

1Q22

Markets-facing businesses

Commodities and Global Markets

~42%

FY21 contribution¹

- Favourable market conditions contributed to strong results across the commodities platform, particularly in North American Gas & Power and Resources driven by trading and client hedging opportunities
- Solid client activity continued across Financial Markets businesses including fixed income and foreign exchange, albeit trading opportunities were more subdued
- Asset Finance benefitted from the divestment of its UK commercial and industrial smart meter portfolio, which was a small portion of its overall UK portfolio which is largely focused on residential metering
- Maintained ranking as No.2 physical gas marketer in North America²
- Named Derivatives House of the Year and Oil and Products House of the Year³

Macquarie Capital

~11%

FY21 contribution¹

- 115 transactions valued at \$A98.9b completed globally⁴, up on pcp

Capital management update

Dividend Payout Policy

- Macquarie has seen strong capital deployment over an extended period, with \$A3.8b growth in capital requirements across all four operating groups since Sep 20. Operating groups are continuing to seek opportunities to deploy additional capital, provided the projected risk-adjusted returns are attractive for shareholders
- In order to allow additional flexibility to support business growth, the Board has resolved to update the annual dividend payout policy range to 50-70%

Dividend Reinvestment Plan (DRP)

- The Board determined that a 1.5% discount would apply to shares allocated under the DRP for the 2H21 dividend
- On 2 Jul 21, 2,892,121 ordinary shares were issued and allocated at \$A149.45 per share1 under the DRP reflecting a participation rate of 35.7%, and a total issuance of \$A432m

Macquarie Group Employee Retained Equity Plan (MEREP)

• On 9 Jun 21, a total of 4,014,722 Macquarie ordinary shares were issued pursuant to the Macquarie Group Employee Retained Equity Plan (MEREP). The shares were issued and allocated at \$A151.73 per share2, with a total issuance of \$A609m

Loss-Absorbing Capital (LAC) - Tier 2 Capital

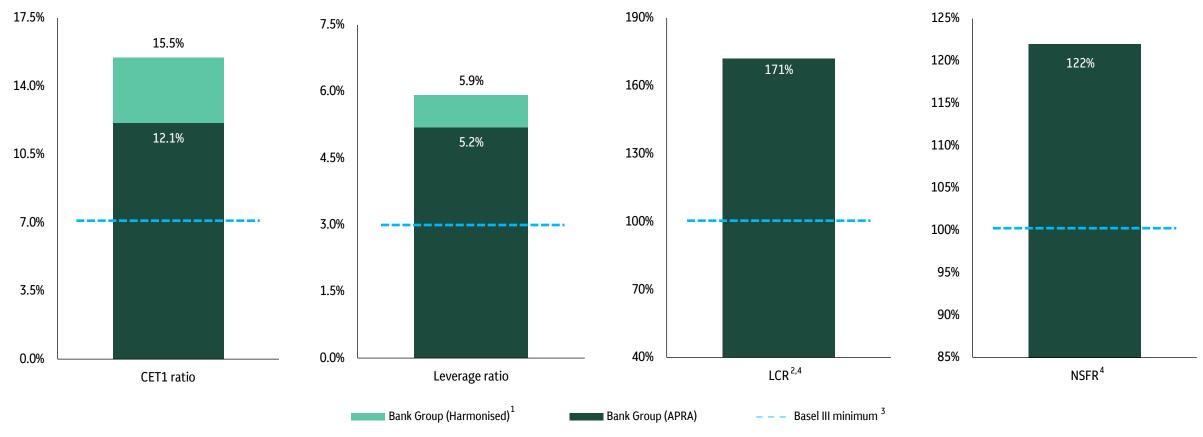

• On 9 Jun 21, MBL issued \$A750m Tier 2 capital at 3mth BBSW + 155bps, as part of its programme to meet Loss-Absorbing Capacity requirements

^{1.} The DRP price was determined in accordance with the DRP Rules, being the arithmetic average of the daily volume-weighted average price of all Macquarie Group shares sold through a normal trade on the ASX automated trading system of the 10 business days from 24 May 21 to 4 Jun 21 inclusive, less a discount of 1.5%. 2. The price at which the shares to satisfy the MEREP requirements were issued was calculated in the same manner and over the same pricing period as the DRP shares, excluding the 1.5% discount.

Strong regulatory ratios

Bank Group Level 2 Ratios (Jun 21)

^{1. &#}x27;Harmonised' Basel III estimates are calculated in accordance with the BCBS Basel III framework. 2. Average LCR for Jun 21 quarter is based on an average of daily observations. 3. Includes the capital conservation buffer in the minimum CET1 ratio requirement. APRA has released a draft update to 'Prudential Standard APS 110 Capital Adequacy' proposing a minimum requirement for the leverage ratio of 3.5% effective Jan 23. 4. Reported liquidity ratios include a 15% add-on to Net Cash Outflows for LCR and a 1% decrease to Available Stable Funding for NSFR imposed by APRA as of 1 Apr 21.

Regulatory update

Australia

- APRA is in the process of implementing changes to a number of regulatory standards¹
- APRA released a letter on 21 Jul 21 outlining proposed policy settings for the Bank Capital Reforms and will conduct a further Quantitative Impact Study (QIS) to finalise the calibration of these reforms². APRA is aiming to release the final prudential standards in Nov 21, which will come into effect 1 Jan 23
- Based on current information available, it remains Macquarie's expectation that it will have sufficient capital to accommodate likely additional regulatory Tier 1 capital requirements as a result of the proposed changes, noting that the final impact is uncertain given a number of these are subject to consultation and finalisation
- As previously noted, APRA is in discussions with Macquarie on resolution planning. APRA expects to progress the development of the prudential standard in the year ahead, with a view to releasing a draft standard for consultation in late 2021 or early 2022³
- On 12 Nov 20, APRA released its revised remuneration standard for consultation. Macquarie provided a submission on 12 Feb 21. The new standard requires boards to strengthen incentives to manage non-financial risks, regularly assess for risk management failings and have deferral arrangements that allow boards to reduce remuneration for poor risk outcomes. APRA released the new Prudential Practice Guide ("CPG 511") on 30 Apr 21 for consultation, Macquarie provided a submission on 23 Jul 21. The final versions of CPS 511 and CPG 511 will be published in the second half of 2021⁴ and will come into effect on 1 Jan 23. Increased disclosure requirements will also be required, defined through a future consultation expected late 2021
- On 1 Apr 21, APRA announced actions required regarding MBL's risk management practices and ability to calculate and report key prudential ratios⁵. APRA increased MBL's operational risk capital requirement and made adjustments to requirements for certain liquidity prudential ratios, effective from 1 Apr 21. The actions relate to specific intra-group funding arrangements as well as breaches of APRA's reporting standards on liquidity between 2018 and 2020. APRA noted that the breaches are historical and do not impact the current overall soundness of Macquarie Group's capital and liquidity positions. While specific historical matters leading to these actions have been addressed, Macquarie acknowledges that continued work is required on its risk governance and operating platform and has programs in place to strengthen capital and liquidity reporting and its risk management framework. Macquarie will work closely with APRA on these programs through a period of intensified supervision and is working with APRA to determine any necessary restatements of selected historical returns
- On 16 Jul 21, Treasury released the Exposure Draft Financial Accountability Regime Bill 2021 (and related materials) for consultation with submissions from interested parties due by 13 Aug 21. The proposed Financial Accountability Regime ("FAR") extends, with some modifications, the existing Banking Executive Accountability Regime ("BEAR") to all other APRA-regulated entities including Macquarie Group Limited ("MGL") as a non-operating holding company, Macquarie Investment Management Limited ("MIML") as a registrable superannuation entity licensee; and Macquarie Life Limited ("MLL") as an insurer. Treasury intends for FAR to commence for MGL and MBL on 1 Jul 22 and for MIML and MLL on 1 Jul 23

Germany

• Macquarie continues to respond to requests for information about its historical activities as part of the ongoing, industry-wide investigation in Germany relating to dividend trading. As previously noted, in total, the German authorities have designated as suspects approximately 100 current and former Macquarie staff, most of whom are no longer at Macquarie. The total amount at issue is not material and MGL has provided for the matter

^{1.} These changes include APS 110, APS 111, APS 112, APS 113, APS 115, APS 116, APS 117, APS 220, APS 222. 2. O5 Outlook

Short-term outlook

Factors impacting short-term outlook

Annuity-style businesses

Markets-facing businesses

Non-Banking Group

Macquarie Asset Management (MAM)

- Excluding Waddell & Reed,
 - Base fees expected to be broadly in line
 - Net Other Operating Income¹ expected to be slightly down due to significant one-off items in FY21
- Waddell & Reed acquisition not expected to provide a meaningful net profit contribution in FY22 due to integration and one-off costs

Macquarie Capital (MacCap)

- Improved transaction activity expected to continue through FY22
- Improved outlook for investment realisations and increased balance sheet deployment, with investment-related income expected to be significantly up on FY21

Banking Group

Banking and Financial Services (BFS)

- Ongoing momentum in loan portfolio and platform volumes
- Competitive dynamics to continue to drive margin pressure
- Ongoing monitoring of provisioning in the COVID-19 environment
- Higher expenses to support volume growth, technology investment and increased regulatory investment

Commodities and Global Markets² (CGM)

- Commodities income is expected to be down following a strong FY21, albeit volatility may create opportunities
- As foreshadowed, the positive impact from the timing of income recognition on storage and transport contracts in FY21 is not anticipated to recur, with 1H22 expected to be negative
- Consistent client contribution across the financial markets platform
- Continued contribution from Specialised and Asset Finance linked to business activity
- 1H22 to include disposal of certain assets in Specialised and Asset Finance

Corporate

• Compensation ratio expected to be within the range of historical levels

• The FY22 effective tax rate is expected to be broadly in line with historical levels

1. Net Other Operating Income includes all operating income excluding base fees. 2. Certain assets of the Credit Markets business and certain activities of the Commodity Markets and Finance business, and some other less financially significant activities are undertaken from within the Non-Banking Group.

Short-term outlook

We currently expect the 1H22 result to be slightly down on 2H21, noting:

- 1H22 included the Macquarie Infrastructure Corporation (MIC) disposition fee in Macquarie Asset Management
- Favourable market conditions contributing to a stronger 1H22 Commodities and Global Markets result than anticipated together with the sale of the UK commercial and industrial smart meter portfolio

The range of factors that may influence our short-term outlook include:

- The duration of COVID-19, speed of the global economic recovery and extent of government support for economies
- Market conditions including significant volatility events and the impact of geopolitical events
- Potential tax or regulatory changes and tax uncertainties
- Completion of period-end reviews and the completion rate of transactions
- The geographic composition of income and the impact of foreign exchange

We continue to maintain a cautious stance, with a conservative approach to capital, funding and liquidity that positions us well to respond to the current environment

Medium-term outlook

Macquarie remains well-positioned to deliver superior performance in the medium term

Deep expertise in major markets

Build on our strength in business and geographic diversity and continue to adapt our portfolio mix to changing market conditions

- Annuity-style income is primarily provided by two Operating Groups' businesses which are delivering superior returns following years of investment and acquisitions
 - Macquarie Asset Management and Banking and Financial Services
- Two markets-facing businesses well positioned to benefit from improvements in market conditions with strong platforms and franchise positions
- Commodities and Global Markets and Macquarie Capital
 Ongoing program to identify cost saving initiatives and efficiency
 Strong and conservative balance sheet
- Well-matched funding profile with minimal reliance on short-term wholesale funding
- Surplus funding and capital available to support growth Proven risk management framework and culture

Medium term

Annuity-style businesses

Markets-facing businesses

Non-Banking Group

Macquarie Asset Management (MAM)

 Leading specialist global asset manager, well-positioned to respond to current market conditions and grow assets under management through its diversified product offering, track record and experienced investment teams

Macquarie Capital (MacCap)

- Positioned to benefit from further recovery in transaction activity
- Continues to tailor the business offering to current opportunities and market conditions including providing flexible capital solutions across sectors and regions
- Opportunities for project development and balance sheet investment by the group and in support of partners and clients subject to market conditions

Banking Group

Banking and Financial Services (BFS)

- Growth opportunities through intermediary and direct retail client distribution, platforms and client service
- Opportunities to increase financial services engagement with existing business banking clients and extend into adjacent segments
- Modernising technology to improve client experience and support growth

Commodities and Global Markets¹ (CGM)

- Opportunities to grow commodities business, both organically and through acquisition
- Development of institutional and corporate coverage for specialised credit, rates and foreign exchange products
- Tailored financing solutions globally across a variety of industries and asset classes
- Continued investment in asset finance portfolio
- Growing client base across all regions

Net interest and trading income of \$A5,677m, up 20% on FY20

- Higher income in CGM mainly driven by Inventory management and trading in North American Gas and Power, Oil and Precious Metals due to market dislocations and increased volatility as well as the timing of income recognition on Oil and Gas storage contracts and transport agreements
- Lower expense in MAM driven by the sale of the MAF business to a joint venture during the prior year
- Higher income in BFS mainly driven by growth in home loans and deposits partially offset by margin compression on deposits and a decrease in the vehicle finance portfolio
- Lower income in Corporate primarily due to greater accounting volatility from changes in the fair value of economic hedges in the prior year

Fee and commission income of \$A5,176m, down 11% on FY20

- Lower performance fees in FY21 following a strong FY20. The current year included fees from a range of funds including MIP II, MIP III, MEIF4, MSCIF and other Private Markets-managed funds, managed accounts and co-investors
- Lower mergers and acquisitions fee income in Macquarie Capital
- Reduced demand for commodity risk premia products and reduced client brokerage activity in CGM

Net operating lease income of \$A466m, down 37% on FY20 predominantly due to the sale of the MAF business to a joint venture in the prior year in MAM

Share of net losses from associates and joint ventures of \$A3m, significantly lower than FY20, primarily driven by **losses from MAF** due to the impact of COVID-19 on aircraft leasing income and related aircraft impairments in MAM, partially offset by lower share of net losses in Macquarie Capital due to changes in the composition and improved performance of investments in the portfolio

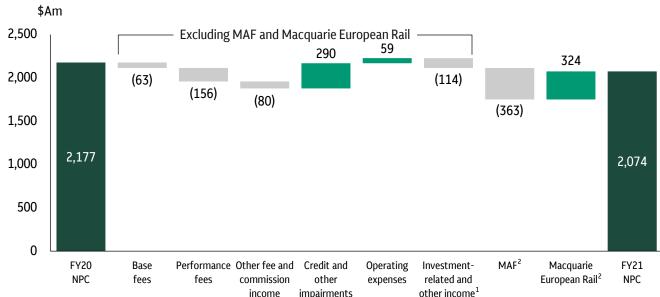

Lower credit and other impairment charges recognised across the Group compared to FY20 mainly due to improving current and expected macroeconomic conditions. 2H21 included the reversal of a central overlay provision for expected credit losses reflecting management's current view of the improvement in the outlook of the Group's portfolio

Investment income of \$A2,023m, up 18% on FY20, primarily due to **gain on sale of Macquarie European Rail** in MAM and gains on listed equity investments in CGM, partially offset by **fewer material asset realisations** compared to prior year in Macquarie Capital

Total operating expenses of \$A8,867m, in line with FY20. Higher Employment expenses due to **higher performance-related profit share expense** mainly as a result of Group performance and higher leave provisions due to less holiday entitlements being taken by staff, driven by COVID-19, partially offset by foreign exchange movements. Higher employment expenses were partially offset by lower Other operating expenses primarily due to **reduced travel and entertainment expenses** across the Group, driven by COVID-19

Macquarie Asset Management

Strong performance despite challenging conditions. Decrease driven by lower Macquarie AirFinance (MAF) income, lower performance fees and lower other fee and commission income, partially offset by gain on sale of Macquarie European Rail and net reversal of impairments

1. Investment-related income includes net income on equity, debt and other investments and share of net (losses)/profits from associates and joint ventures. Other income includes net interest and trading expense, net operating lease income, other income, internal management revenue and non-controlling interests. 2. MAF and Macquarie European Rail includes the net impact of operating income and expenses excluded from the other categories. 3. Macquarie sold the MAF business into a newly formed joint venture in 1H20 in which Macquarie held a 75% interest. In 2H20, Macquarie sold a 25% interest in the joint venture.

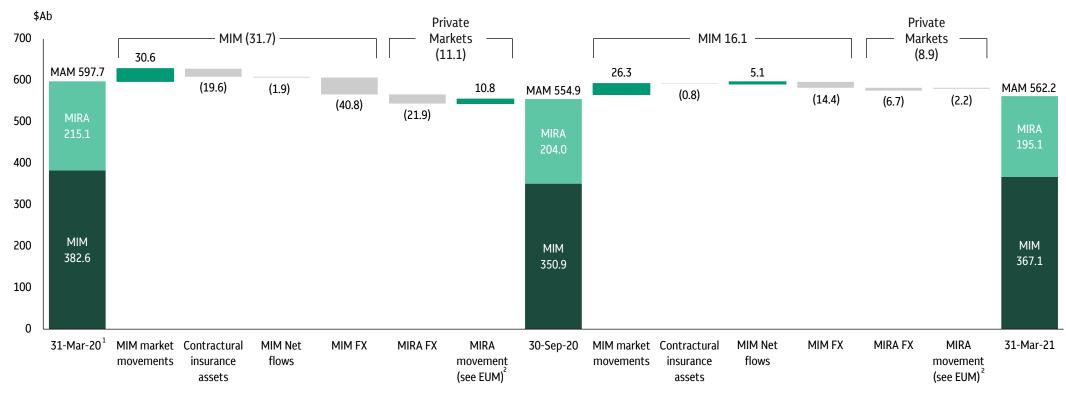

impairments income

Key drivers

- Base fees down due to:
 - Foreign exchange movements, asset realisations in Private Markets-managed funds and the full year impact of FY20 net flows in MIM
- partially offset by MIM market movements, investments made by Private Markets-managed funds and mandates and contributions from MIM as a result of additional assets acquired in the prior year
- Lower performance fees in FY21 following a strong FY20. The current year included fees from a range of funds including MIP II, MIP III, MEIF4, MSCIF and other Private Markets-managed funds, managed accounts and co-investors
- Lower other fee and commission income largely due to lower income from private capital markets, True Index products and transaction fees, partially offset by a disposition fee from MIC in relation to the divestment of IMTT
- Lower credit and other impairment charges includes a partial reversal of the impairment previously recognised on Private Markets's investment in MIC
- Lower operating expenses primarily driven by **foreign** exchange movements and reduced travel on account of COVID 19. This was partially offset by increased charges from Central Service Groups and expenses related to the acquisition of new business
- Lower investment-related and other income primarily driven by the non-recurrence of a one-off payment from ALX for the termination of management rights related to APRR in FY20 and lower gains on sale and reclassification of investments, partially offset by a gain on revaluation of property investments in FY21
- Lower MAF income primarily driven by the impact of COVID-19 on **equity-accounted** aircraft leasing income and related aircraft impairments, as well as the selldown of 50%³ of the business during FY20
- Macquarie European Rail driven by gain on sale in FY21

MAM AUM movement

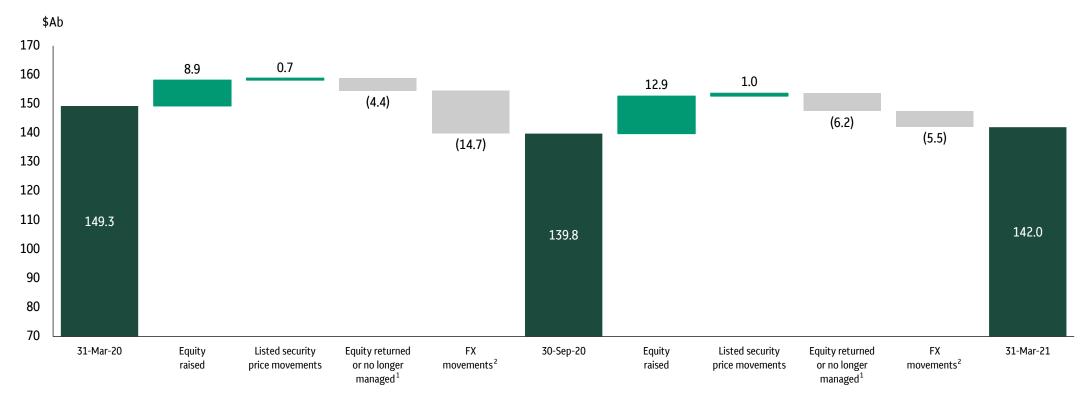

Decrease due to impacts from foreign exchange and a reduction in contractual insurance assets, partially offset by MIM market movements and investment by Private Markets-managed funds

^{1.} AUM at 31 Mar 20 has been restated to reflect an immaterial misstatement in total MAM AUM reported on 8 May 20. 2. Private Markets tracks its funds under management using an EUM measure as base management fee income is typically aligned with EUM. EUM and AUM are calculated under different methodologies and as such, EUM movement is the more relevant metric for analysis purposes - refer to Private Markets EUM movement on slide 29. Private Markets capital subsequently returned for listed funds, the sum of original committed capital less capital subsequently returned for unlisted funds and manadates as well as invested as proportional enterprise value at measurement date including equity value and net debt of the underlying assets of funds and managed assets. AUM excludes uninvested equity in Private Markets. Refer MD&A 57 for further information with respect to EUM and AUM measures.

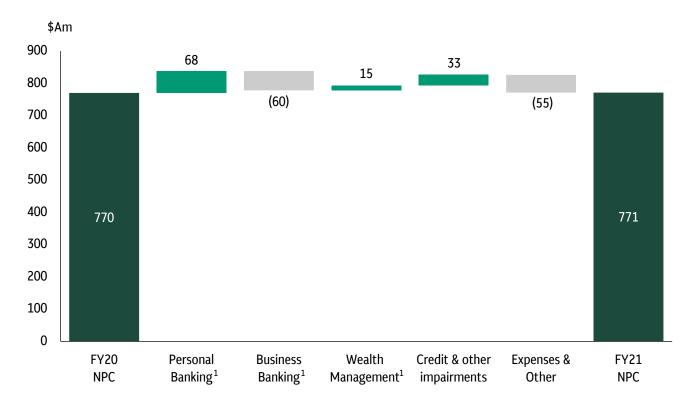

Private Markets EUM movement

Decrease of 5% due to impacts from foreign exchange and equity returned, partially offset by continued capital raisings

^{1.} Committed capital returned by unlisted funds or under mandates due to asset divestments, redemption or other capital distributions as well as capital no longer management rights or expiry of asset management agreements. 2. FX reflects the movement in EUM driven by changes in FX rates. EUM is calculated using capital commitments translated at period end FX rates are used for security price movements.

Strong home loan and deposits growth and lower credit impairment charges broadly offset by margin compression on deposits, higher expenses and a decrease in the vehicle finance portfolio

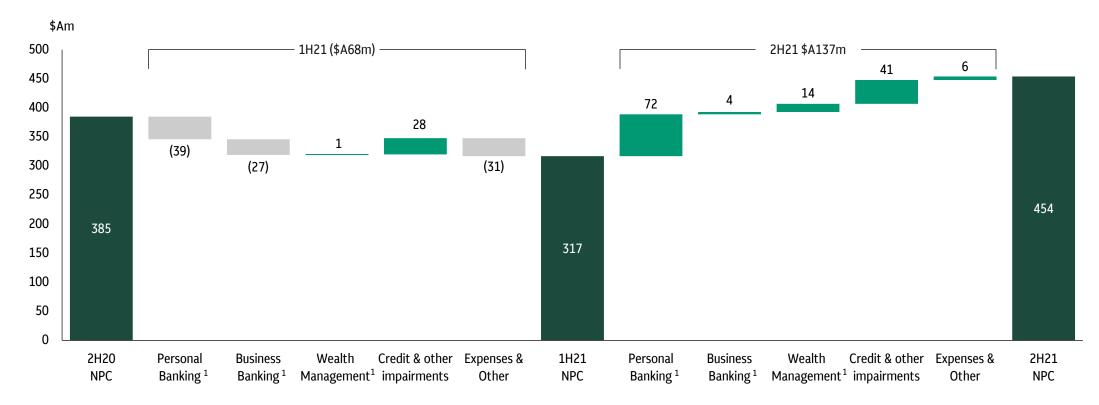

1. Includes brokerage, commission and trading-related fee expenses.

Key drivers

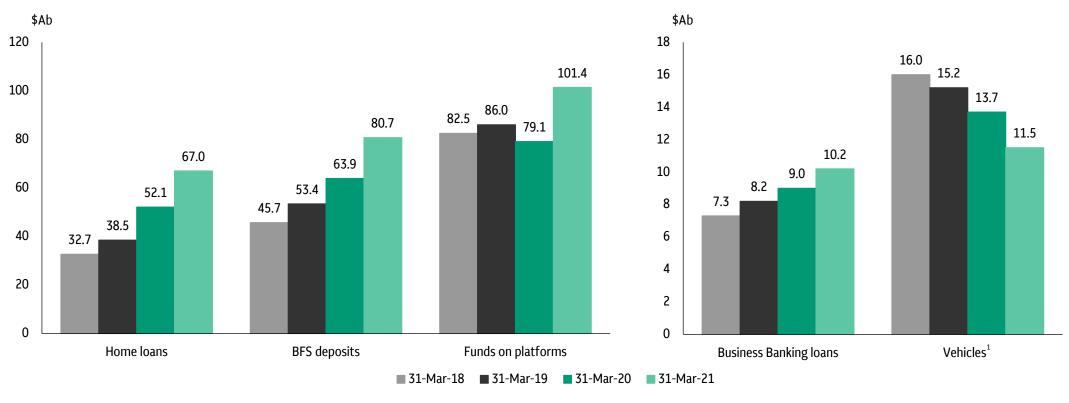

- Higher Personal Banking income driven by 27% growth in average home loan volumes, partially offset by lower vehicle finance average volumes and deposit margin compression
- Lower Business Banking income driven by deposit margin compression and 21% lower average vehicle finance volumes, partially offset by growth in average business deposit volumes of 14% and average business banking loan volumes growth of 10%
- Wealth income driven by 30% growth in average CMA volumes and lower Wealth management expenses, partially offset by margin compression on both deposits and Platform products
- Lower credit and other impairment charges due to improved macroeconomic environment and exit of clients from payment pause
- Higher Expenses and Other primarily due to additional headcount to support volume growth and clients impacted by COVID-19, increased costs associated with investment in technology to support business growth and meet regulatory requirements, partially offset by revaluation of an equity investment

Record 2H21 result - driven by growth in home loan portfolio, growth in deposits and lower credit impairment charges

1. Includes brokerage, commission and trading-related fee expenses.

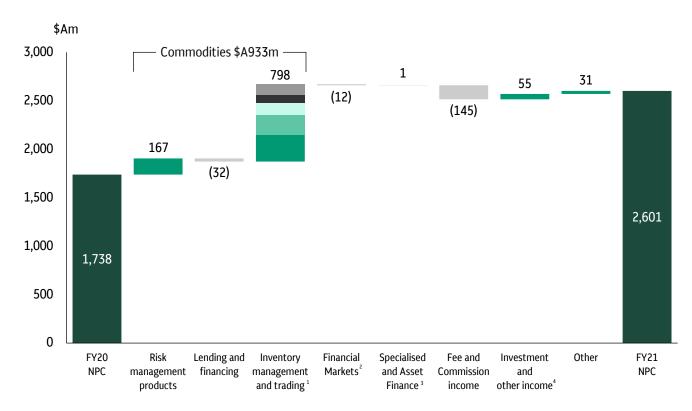

Strong growth across home loans, deposits and funds on platform

Data based on spot volumes at period end. 1. Includes General plant & equipment.

Commodities and Global Markets

Strong underlying client business

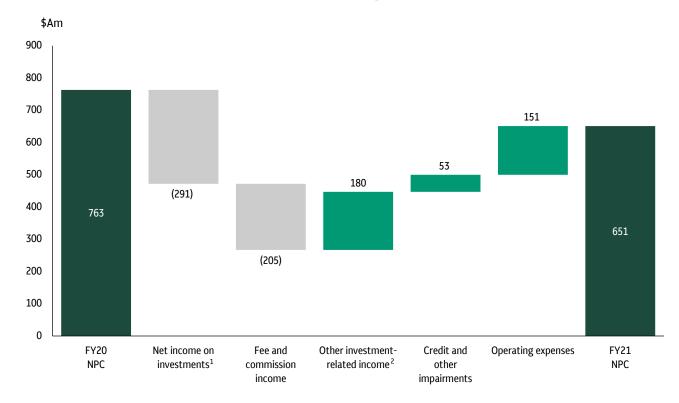

1. Inventory management and trading increase includes Oil, Gas, Power and Metals trading and timing of income recognition on Oil and Gas storage contracts and transport agreements. 2. Financial Markets includes FX, interest rates and credit and equities. 3. Specialised and Asset Finance includes net interest and trading income and net operating lease income. 4. Includes net income on equity, debt and other investments, share of net profits from associates and joint ventures, internal management revenue and other income.

Key drivers

- Commodities
 - Increased Risk Management revenue across the commodities platform driven by increased contributions from Resources, North American Gas and Power, EMEA Gas and Power and Agriculture due to increased client activity
 - Lower Lending and Financing income due to impact of FX and volume reduction impacting specific sectors
 - Increased opportunities across multiple sectors in inventory management and trading driven by market dislocations and increased volatility. Strong results were recorded in Oil, North American Gas and Power, and Precious Metals. FY21 also included gains of \$A232m associated with the timing of income recognition on Oil and Gas storage contracts and transport agreements
- Financial Markets and Specialised and Asset Finance results were broadly in line with the prior year
- Decrease in fee and commission income driven by reduced demand for commodity risk premia products and reduced client brokerage activity in comparison to the prior year
- Increased investment and other income reflects gains on listed equity investments
- Other includes a reduction in brokerage, commission and trading-related fee expense

Macquarie Capital

Result reflects lower income on investments and lower fee and commission income partially offset by higher other investment related income and lower operating expenses

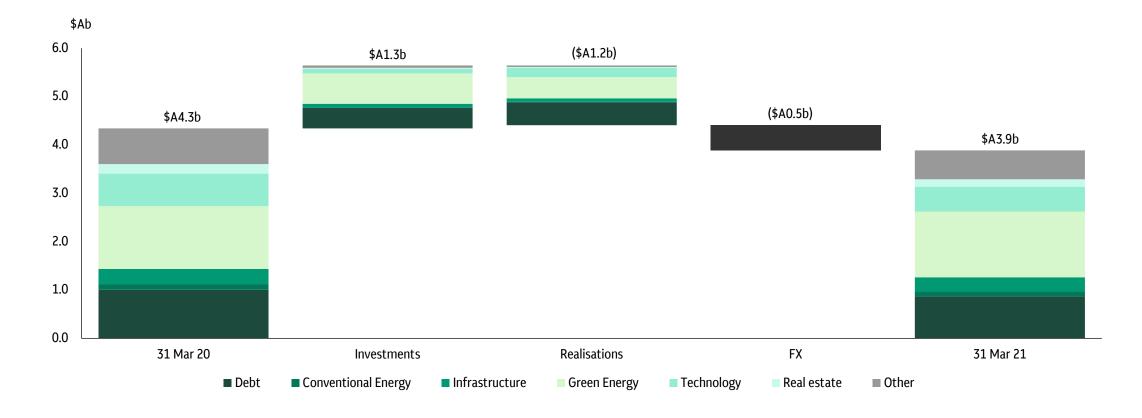

^{1.} Includes gains and losses from sale and revaluation of equity, debt and other investments 2. Includes share of net losses from associates and joint ventures, net interest and trading income/(expense) (which represents the interest earned from debt investments and the funding costs associated with Macquarie Capital's balance sheet positions), other expenses, internal management revenue and non-controlling interests.

Key drivers

- Lower net income on investments predominantly due to fewer material asset realisations compared to prior year
- Lower fee and commission income due to lower mergers and acquisitions fee income and debt capital markets fee income, partially offset by higher equity capital markets fee income
- Other investment-related income includes:
 - Lower share of net losses from associates and joint ventures due to changes in the composition and improved performance of investments in the portfolio
 - Higher net interest and trading income due to lower funding costs, higher interest income resulting from the growth in the debt portfolio and lower mark-to-market losses compared to prior year. Prior year included re-accretion and interest income on debt acquired at a discount and subsequently sold
 - Offset by, higher expenditure resulting from increased activity in relation to the development of green energy projects
- Lower credit and other impairments. The prior year included a deterioration in the forward-looking macroeconomic conditions as a result of COVID-19
- Lower operating expenses driven by the structural change in the prior year to refocus the Equities division on the Asia-Pacific region, active cost management throughout FY21 across Macquarie Capital resulting in lower headcount and lower employment expenses, and lower travel and entertainment expenses due to COVID-19

The funded balance sheet reclassifies certain balances to other funded balance sheet categories. 2. Issuances cover a range of tenors, currencies and product types and are AUD equivalent based on FX rates at the time of issuance and include undrawn facilities (does not include undrawn accessible TFF Allowance drawn as at 31 Mar 21. MBL has \$A1.3b of undrawn TFF Supplementary Allowance and had access to \$A4.6b of TFF Additional Allowance as at 31 Mar 21.

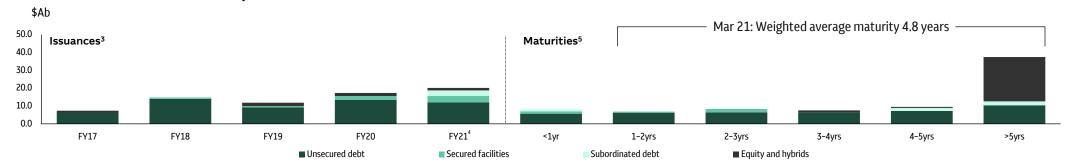

Diversified issuance strategy

Term funding as at 31 Mar 21 - diversified by currency¹, tenor² and type

Term funding beyond 1 year (including drawn TFF, excluding equity and securitisations) has a weighted average maturity of 4.8 years

Term Issuance and Maturity Profile

1. Equity has been allocated to the AUD currency category. 2. Securitisations have been presented on a behavioural basis and represent funding expected to mature in >1yr. 3. Issuances exclude securitisations and include undrawn facilities. Issuances are converted to AUD at the 31 Mar 21 spot rate. 4. Includes drawn TFF Initial Allowance of \$A1.7b. 5. Maturities exclude securitisations and are shown as at 31 Mar 21.

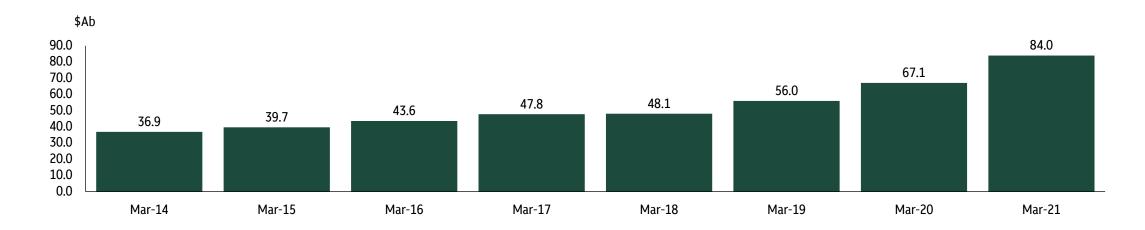

Continued customer deposit growth

Macquarie has seen continued success in its long-term strategy of diversifying funding sources by growing its deposit base

- Of approximately 1.7 million BFS clients, circa 780,000 are depositors
- Focus on the quality and composition of the deposit base

Macquarie's response to COVID-19

- CMA deposits of \$A40.0b, up 22% on Mar 20, including \$A8.3b in the CMA Accelerator
- Transaction and savings account deposits of \$A7.8b, with significant growth on Mar 20 driven by new-to-bank clients

Note: Total customer deposits include total BFS deposits of \$A80.7b and \$A3.3b of Corporate/Wholesale deposits.

 - Foreign exchange movements, asset realisations in Private Markets-managed funds and the full year impact of FY20 net flows in MIM
 - Partially offset by MIM market movements, investments made by Private Markets-managed funds and mandates, contributions from MIM as a result of additional assets acquired in the prior year and fees earned from MAF
- Performance fees of \$A653m, down on FY20
 - FY21 included performance fees from a range of funds including MIP II, MIP III, MEIF4, MSCIF and other Private Markets-managed funds, managed accounts and co-investors
 - FY20 included performance fees from MEIF, MEIF3, MEIF4, MIP, MIP II, GIF III, MSCIF and other Private Markets-managed funds, managed accounts and co-investors
- Net operating lease income of \$A79m, down on FY20, driven by the **sale of the MAF⁴ business** to a joint venture during the prior year and the sale of Macquarie European Rail in the current year
- Investment-related and other income of \$A752m, up on FY20 primarily driven by
 - Gain on sale of Macquarie European Rail, lower interest expense as a result of sale of the MAF business during the prior year, a gain on revaluation of property investments and a disposition fee from MIC in relation to the divestment of IMTT
 - Partially offset by an equity accounted loss from MAF, driven by the impact of COVID-19 on aircraft leasing income and related aircraft impairments, and lower income from private capital markets, True Index products and transaction fees. In addition, FY20 included a one-off payment from ALX for the termination of management rights related to APRR
- Credit and other impairment net reversal of \$A85m includes a partial reversal of the impairment previously recognised on Private Markets's investment in MIC
- Total operating expenses of \$A1,474m, down 5% on FY20 primarily driven by **foreign exchange movements, reduced travel** on account of COVID 19 and the sale of the MAF business to a joint venture during the prior year. This was partially offset by increased charges from Central Service Groups and expenses related to the acquisition of new business

^{1.} Investment-related income includes net income on equity, debt and other investments and share of net (losses)/profits from associates and joint ventures. - Specialised and Asset Finance interest and trading income of \$A144m, down 13% on FY20 which benefited from net proceeds from end of lease asset sales
- Fee and commission income of \$A485m, down 23% on FY20 driven by reduced demand for commodity risk premia products and reduced client brokerage activity following a strong prior year
- Net operating lease income of \$A383m, up 6% on FY20 primarily driven by higher secondary income from asset financing portfolio
- Investment and other income of \$A191m, up 40% on FY20 primarily reflecting gains on listed equity investments in the commodities sector
- Credit and other impairment charges of \$A237m, down 2% on FY20 driven by a reduction in specific credit
 provisions partially offset by an overlay for industry specific credit risks and impairments on a small number of
 underperforming assets
- Brokerage, commission and trading-related fee expenses of \$A388m, down 7% on FY20 primarily driven by reduced equities activity in EMEA and Asia
- Other operating expenses of \$A1,689m, broadly in line with FY20 driven by higher expenditure on technology infrastructure and increasing regulatory requirements partially offset by a reduction in travel and entertainment expenses

^{1.} Includes internal net interest expense and transfer pricing on funding provided by Group Treasury that is eliminated on consolidation in the Group's statutory P&L. 2. Generated from Specialised and Asset Finance. 3. - Fee and commission income of \$A1,387m, down 13% on FY20 due to **lower mergers and** acquisitions fee income and debt capital markets fee income, partially offset by higher equity capital markets fee income
- Net income from equity, debt and other investments of \$A1,139m, down 20% on FY20 predominantly due to:
 - Fewer material asset realisations compared to prior year
- Partially offset by other investment-related income, which includes:
 - Lower share of net losses from associates and joint ventures due to changes in the composition and improved performance of investments in the portfolio
 - Higher net interest and trading income due to lower funding costs, higher interest income resulting from the growth in the debt portfolio and lower mark-to-market losses compared to prior year. Prior year included re-accretion and interest income on debt acquired at a discount and subsequently sold
 - Higher expenditure resulting from increased activity in relation to the development of green energy projects
- Credit and other impairment charges of \$A229m, down 19% on FY20. FY21 primarily reflects a small number of underperforming loan facilities and the growth of the debt portfolio, partially offset by reversals due to loan sales and repayments. The prior year charge included a deterioration in the forward-looking macroeconomic conditions as a result of COVID-19
- Total operating expenses of \$A1,614m, down 9% on FY20 driven by the structural change in the prior year to refocus the Equities division on the Asia-Pacific region, active cost management throughout FY21 across Macquarie Capital resulting in lower headcount and lower employment expenses, and lower travel and entertainment expenses due to COVID-19

^{1.} Includes share of net losses from associates and joint ventures, net interest and trading income/(expense) (which represents the interest earned from debt investments and the funding costs associated with Macquarie Capital's balance sheet positions), other expenses. 2. Internal revenue allocations are eliminated on consolidation in the Group's statutory P&L. 3. Management accounting profit before unallocated corporate costs, profit share and income tax. 4.
