Chairman's Letter

Dear Shareholder,

On behalf of the Board of Mosaic Brands Limited, I am pleased to offer you the opportunity to increase your investment in the Company by participating in a non-renounceable pro-rata entitlement offer of convertible notes (**Notes**) to raise approximately \$22 million (before costs) (**Entitlement Offer**).

Given the prolonged lockdown in New South Wales and Victoria and subsequent impact on cash flow, the Company is conducting a capital raise to provide the business with additional balance sheet support until lockdown measures are eased and stores re-open for trade.

Under the Entitlement Offer, Eligible Shareholders will have the opportunity to subscribe for 1 Note for every 4.39 Shares held as at the Record Date at an issue price of \$1.00 per Note. The terms of the Notes are set out in this Prospectus and include that:

- each Note has an initial face value of \$1.00;
- interest at a rate of 8% pa (**Cash Interest**) to be calculated quarterly in arrears and paid in cash if permitted by the Senior Debt Obligations and the Intercreditor Deed with the balance of the interest to capitalise;
- Notes will be secured by a second-ranking security behind the security granted in respect of the Senior Debt Obligations. The Senior Lender has provided consent to the issue of the Notes under the Existing Senior Debt Obligations;
- after approximately 12 months from their issue date, Notes are convertible (in whole or in part) into ordinary shares at the lower of \$0.515 and a 15% discount to the 30-day VWAP of shares (or the price of any equity raising of the Company during that period), subject to a minimum conversion price of \$0.25; and
- a 3 year term to maturity, maturing on 30 September 2024.

It is the intention of the Company that the Notes will be quoted on ASX.

Eligible Shareholders are also invited to apply for Additional Notes over and above their Entitlement under the Shortfall Offer. Applications for Additional Notes from Eligible Shareholders are capped at 50% of an Eligible Shareholder's Entitlement, such that the maximum aggregate amount of Notes an Eligible Shareholder can apply for under this Prospectus is 150% of their Entitlement.

The Prospectus also includes a separate offer of 10 million Notes at an issue price of \$1.00 per Note to raise a further \$10 million (before costs) (**Placement Offer**). The Placement Offer will comprise two tranches as follows:

- **Tranche 1:** approximately 3.6 million Notes to be issued on the Issue Date under the Company's existing ASX Listing Rule 7.1 placement capacity, to raise approximately \$3.6 million; and
- **Tranche 2:** subject to the availability of the Company's placement capacity and Shareholder approval for the issue of the Notes (to the extent required), approximately 6.4 million Notes, to raise a further approximately \$6.4 million.

The Company expects to issue approximately 2.4 million Notes under Tranche 2 of the Placement Offer as soon as it has placement capacity to do so under ASX Listing Rule 7.1A. If required, the Company will include resolutions to approve the issue of Tranche 2 of the Placement Offer (or any part of it) at its annual general meeting (proposed to be held in November 2021). Alceon Group has agreed to vote in favour of any resolution to issue Notes under Tranche 2 of the Placement Offer.

The Entitlement Offer and the Placement Offer are together referred to as the **Offers**.

The Offers are underwritten by Wilsons Corporate Finance Limited (AFSL 238383) (**Underwriter**), who is acting as the lead manager and underwriter of the Offers. The Underwriter has entered into sub-underwriting agreements with a number of investors to sub-underwrite the Entitlement Offer.

Investment trusts managed and controlled by Alceon Group Pty Ltd (**Alceon Group**) currently hold approximately 34.7 million Shares, representing combined voting power of approximately 35.9%. Alceon Group has pre-committed to taking up the investment trusts' full Entitlement under the Entitlement Offer. In addition, Alceon GT Pty Limited as trustee for the Alceon Group Trust (**AGT**), the parent entity of Alceon Group, has agreed to sub-underwrite a portion of the Shortfall. Assuming that Alceon Group takes up its full Entitlement and AGT subscribes for its full sub-underwriting commitment, and only the Notes issued to Alceon Group and AGT are converted, Alceon Group's voting power could increase from approximately 35.9% to a maximum of 63.0%¹. This is seen as an unlikely scenario as other Shareholders have committed to take up their full Entitlements. Alceon Group has informed the Company that it intends to pass the investment trusts' Entitlement through to the underlying investors within those trusts. The extent to which Alceon Group passes Entitlements through to the underlying investors within the investment trusts will decrease Alceon Group's maximum potential voting power in the Company.

The funds raised under the Offers will be used for general working capital purposes and estimated costs of the Offers.

Having considered the funding options available, the Board has decided that the issue of the Notes to Eligible Shareholders through the Entitlement Offer (alongside the Placement Offer) is the preferred capital raising structure for a number of reasons, including:

- that offering interest-bearing Notes, with second ranking security, is the most appropriate structure available to attract the necessary funds on terms acceptable to the Company and investors;
- the Conversion Period provides the potential for the capital raising to be less dilutive than an equivalent sized equity raising conducted on the same timeframe, but still allows investors to convert their Notes at a future date at a discount to the share trading price at that future date;
- an application will be made for the Notes to be listed; and
- all Eligible Shareholders have an opportunity to participate in the Entitlement Offer on a pro-rata basis, which reduces the dilution they would have experienced if the capital raising had been limited to the Placement Offer.

The Company expects to be able to meet all financial commitments under the Notes (i.e. to pay interest to the extent required under the Note Terms and to redeem the Notes as and when required under the Note Terms, subject to the terms of the Intercreditor Deed).

Full details of the Offers, including the terms of issue of the Notes, the effect of the Offers on the Company and the risks associated with an investment in the Notes, are set out in this Prospectus. I encourage you to read the entire Prospectus carefully and consider all the risks before deciding whether to participate in the Offers.

If you are uncertain whether the Notes are a suitable investment for you, please consult your professional adviser for appropriate advice.

The Directors encourage all Eligible Shareholders to participate in the Entitlement Offer.

¹ Assumes that the interest payable at the First Interest Payment Date is capitalised, no Additional Interest accrues or is capitalised and all other Cash Interest is paid in cash.

We look forward to your continued support and participation in the Company's exciting future.

Yours sincerely

What are the tax implications of investing in Notes?	Section 7 contains a summary of the tax consequences for potential Noteholders and is based on Australian tax law and administrative practice as at the date of this Prospectus. Accordingly, prospective Noteholders should seek their own tax advice, which is specific to their particular circumstances, as to the tax consequences of investing in, holding and disposing of the Notes. If you are unsure as to any aspect of the Offers or the Note Terms, or are unsure whether the Notes are a suitable investment for you, please consult a professional advisor.

Issue Price/Face Value	The Issue Price of the Notes is \$1.00 per Note. The Notes will be issued with an initial face value of \$1.00 each (Face Value).	Section 4.1.1(b)

Maturity Date	The Company will redeem all outstanding Notes at the Note Principal Amount on 30 September 2024 (Maturity Date) unless converted earlier by the Noteholders or redeemed or cancelled by the Company. Redemption is subject to the terms of the Intercreditor Deed. Refer to Section 2.8 for a description of the relevant provisions of the Intercreditor Deed.	Sections 2.8 and 4.1.4(a)
Interest	Interest at a rate of 8% pa (Cash Interest) to be calculated quarterly in arrears on 31 March, 30 June, 30 September and 31 December, up to and including the End Date (Interest Payment Date). This Cash Interest will be payable in cash if permitted by the Senior Debt Obligations and the Intercreditor Deed. Interest will not be paid in cash for the first Interest Payment Date, being 31 December 2021, instead interest will capitalise in respect of that quarter. Whether Cash Interest will be paid for the quarter ended 31 March 2022 will depend on how quickly stores closed as a result of government health orders open, and the revenue and earnings of the Group recover. To the extent the Senior Debt Obligations and the Intercreditor Deed limit the ability for the Company to pay the Cash Interest in cash on a particular Interest Payment Date, the balance of the Cash Interest will capitalise. If permitted by the Intercreditor Deed, the Company may, at a later date, pay some or all of the capitalised Cash Interest in cash. Payment of Cash Interest on the Notes in cash will only be permitted by the Senior Debt Obligations and the Intercreditor Deed so long as certain financial covenant levels are achieved and the Company remains in compliance with its obligations under the Senior Debt documents both immediately prior to and after making the relevant cash payment. Refer to Section 2.8 for further details of the relevant provisions of the Intercreditor Deed that may restrict the Company's ability to pay Cash Interest in cash. In addition, interest at a rate of 6% pa (Additional Interest) will be calculated quarterly in arrears on each Interest Payment Date and capitalised. The Additional Interest will only be payable if an Event of Default outlined in Section 4.1.8(a)(i) or 4.1.8(a)(ii) has occurred.	Sections 2.8, 4.1.2, 4.1.8(a)(i) and 4.1.8(a)(ii)
Conversion Period	The Notes are convertible from 30 September 2022 until the Maturity Date (Conversion Period).	Section 4.1.3(a)
Conversion	The Notes will be convertible into Shares at the election of the Noteholder, in whole or in part (if in part, subject to a minimum Note Principal Amount of \$2,000), during the Conversion Period at the Conversion Price. The number of Shares to which a Noteholder will be entitled on Conversion of each Note will be equal to the Face Value of the Note plus all capitalised interest of that Note (Note Principal Amount) divided by the Conversion Price. The table on the following page illustrates a worked example of the number of Shares issued on Conversion of 100 Notes.	Section 4.1.3

Note:

- The Additional Interest will only be payable if an Event of Default outlined in Section 4.1.8(a)(i) or 4.1.8(a)(ii) has occurred, in which case the Note Principal Amount will be the amount set out in column E in the table above, which will allow the Noteholder to have a higher secured claim. If no Event of Default outlined in Section 4.1.8(a)(i) or 4.1.8(a)(ii) has occurred, the Note Principal Amount of each Note will be deemed to be the Notional Note Principal Amount (column F) and the Additional Interest Rate will be deemed to be 0.00%.

The Shares to be issued upon conversion of the Notes will rank equally with all other fully paid ordinary shares in the capital of the Company on issue and the Company will apply to have those Shares listed on ASX as soon as practicable after conversion of the relevant Notes.

Conversion Price	The Conversion Price of the Notes is the lower of: (a) \$0.515; and (b) a 15% discount to the 30-day VWAP of Shares (as traded on the ASX) prior to the Conversion Date; and (c) a 15% discount to the price of any equity capital raising by MOZ that occurred in the 30-day period prior to the Conversion Date, subject to a minimum Conversion Price of \$0.25 (Minimum Price).	Section 4.1.3(c)

Redemption	<u>Early redemption by the Company</u> Subject to the Intercreditor Deed, the Company may redeem all of the Notes before their Maturity Date at their Note Principal Amount, together with any interest accrued on those Notes, by giving not less than 30 days' notice in writing to the Trustee, the Noteholders and ASX. Noteholders have a right to convert their Notes during this notice period. <u>Purchase</u> Subject to compliance with any applicable law or requirement of ASX the Company (or any of its related bodies corporate or any third party nominated by the Company) may, at any time, purchase Notes in the open market or otherwise and at any price. Notes purchased may be held, resold or cancelled at the discretion of the purchaser (and, if the Notes are to be cancelled, the Company).	Section 4.1.4

	<u>Redemption on Maturity Date</u> Subject to the Intercreditor Deed, each Note is redeemable by the Company on the Maturity Date at its Note Principal Amount, together with any interest accrued on that Note, unless: (a) the Note has been previously converted; (b) the Note has been previously redeemed; or (c) the Note has been purchased by the Company and cancelled. Where the Intercreditor Deed restricts the ability for the Company to redeem the Notes on the Maturity Date, it will be an Event of Default under the Note Terms.	
Takeover, scheme of arrangement or sale of main undertaking	If: (a) a takeover bid is made to acquire Shares and the offer under the takeover bid is, or becomes, unconditional and the bidder has acquired at any time a relevant interest in more than 50% of the Shares on issue; (b) a court approves a proposed scheme of arrangement which, when implemented, will result in a person having a relevant interest in more than 50% of the Shares on issue; or (c) there is a sale of the main undertaking of the Company that would require approval of the Shareholders in accordance with ASX Listing Rule 11.2, the Noteholder may elect to: (d) convert the Note at its Note Principal Amount; or (e) subject to the Intercreditor Deed, require the Company to redeem the Note at its Note Principal Amount, including any accrued but unpaid interest prior to the date of redemption. Notes will be redeemed at their Note Principal Amount, together with any interest accrued on those Notes, within 10 business days of that election.	Section 4.1.5
Trustee	Melbourne Securities Corporation Limited (AFSL 428289) (Trustee) has agreed to act as the trustee pursuant to Chapter 2L of the Corporations Act for the issue of the Notes and pursuant to the terms and conditions of the Trust Deed. The Trustee will also act as security trustee in relation to the securities and pursuant to the terms and conditions of the Trust Deed. A summary of the Trust Deed is set out in Section 6.1.	Section 6.1
Security	The Notes are secured by the security interests granted by the Group to the Trustee. The security interests are second ranking behind the security granted in respect of Senior Debt Obligations. The Trustee will hold the rights under the security on trust for the benefit of the Trustee and the Noteholders from time to time in accordance with the terms of the Trust Deed.	Section 4.1.6
What is the Intercreditor Deed?	The Offers are conditional on the Group and the Trustee entering into an intercreditor deed with the Senior Lender (Intercreditor Deed). The Intercreditor Deed will provide that: • all amounts owing in respect of the Notes and the security granted in favour of the Trustee (Transaction Security) will be subordinated to, and rank behind all amounts owing by the Group to the Senior Lender (Senior Debt) and the security granted in respect of the Senior Debt;	Section 2.8

Topic	Summary	For more information
	- no redemption or repayment of the Notes will be permitted until a period of up to 6 months after the Senior Debt has been finally repaid; - all enforcement rights in respect of the Notes and the Transaction Security cannot be exercised by the Trustee without the Senior Lender's consent; and - the payment of cash interest on the Notes will only be permitted so long as the Group can meet normalised financial covenant levels and the Group otherwise remains in compliance with its obligations under the Senior Debt documents. It is anticipated that the payment of cash interest will not be permitted by the Intercreditor Deed during the first quarter as a result of store closures required by government health orders across several states as a result of the COVID-19 pandemic and the impact such store closures has on the Group's ability to meet its normal financial covenants.	
Default	Following the occurrence and during the continuance of an Event of Default (summarised in Section 4.1.8(a)) the Notes will immediately be repayable including accrued interest. Subject to the terms of the Intercreditor Deed, the Trustee may take enforcement action against the Company in relation to the Event of Default. In addition, if an Event of Default set out in Sections 4.1.8(a)(iii) to 4.1.8(a)(ix) occurs and is continuing, interest accrues on the Note Principal Amount of each Note at a sum of the Interest Rate (being 8% pa) plus a default rate of 3.00% pa while the relevant Event of Default continues. Default interest is not payable if an Event of Default outlined in Section 4.1.8(a)(i) or 4.1.8(a)(ii) is continuing (in that case, Additional Interest is payable).	Sections 4.1.2(e) and 4.1.8
Negative Covenants	The Company must not, without the approval of an ordinary resolution of Noteholders: (a) incur any indebtedness, except in the limited circumstances set out in Section 4.1.7(a); (b) other than in the ordinary course of business: (i) create or permit to exist a security interest over any of its assets or attempt or agree to do so, except in the limited circumstances set out in Section 4.1.7(b)(i); or (ii) if the creation of a security interest cannot by law be restricted, create such a security interest over any of its assets without the holder of the security interest first entering into a deed of priority in form and substance acceptable to the Trustee; (c) declare or pay any dividends to Shareholders, unless: (i) such dividends are permitted under the Senior Debt Obligations; and (ii) at the time such dividends are declared, all amounts of Cash Interest that accrued on the Notes (including any amount that capitalised) have been paid or otherwise discharged; or (d) other than in respect of the Notes, redeem, purchase, cancel, reduce, return capital on or otherwise acquire any Share or other securities issued by the Company for repayment or return of capital in a winding up (Capital Reduction): (i) such Capital Reduction is permitted under the Senior Debt Obligations; and	Section 4.1.7

	(ii) at the time such Capital Reduction occurs, all amounts of Cash Interest that accrued on the Notes (including any amount that capitalised) have been paid or otherwise discharged.	
ASX quotation of Notes	The Company intends to apply for quotation of the Notes on the ASX, subject to satisfaction of the minimum quotation conditions under the ASX Listing Rules. If quotation of the Notes cannot be obtained, the Notes will remain unlisted.	Section 4.1.1(f)
Ranking	Each Note ranks for payment in a winding up of the Company: (a) after all Senior Debt Obligations and any Permitted New Debt; (b) equally with each other Note; (c) ahead of all present and future unsubordinated and unsecured debt obligations of the Company (subject to the laws and principles of equity affecting creditor rights or obligations preferred by mandatory provisions of applicable law); and (d) ahead of all Shares.	Section 4.1.6(c)
Participation rights	The Notes do not carry any participation rights or entitlements and Noteholders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Notes without converting the Notes into Shares. However, if at any time the issued capital of the Company is reconstructed, all rights of the Noteholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.	Section 4.1.1(g)
Voting	Noteholders do not have a right to vote at meetings of Shareholders. Noteholders may vote at meetings for Noteholders in accordance with the Trust Deed.	Sections 4.1.1(h) and 6.1
Reorganisation of capital	Subject to the ASX Listing Rules, if there is a reconstruction (including consolidation, subdivision, reduction or return) of the issued capital of the Company, the basis for Conversion of the Notes (being the Minimum Price) will be reconstructed in the same proportion as the issued capital of the Company is reconstructed.	Section 4.1.3(g)
Summary of key terms	• The Notes are issued by the Company. • The Notes have a fixed term of 3 years, maturing on 30 September 2024. • Interest at a rate of 8% pa (Cash Interest) to be calculated quarterly in arrears and paid in cash if permitted by the Senior Debt Obligations and the Intercreditor Deed, with the balance of the interest to capitalise. If permitted by the Intercreditor Deed, the Company may, at a later date, pay some or all of the capitalised Cash Interest in cash. • Notes will be secured by a second-ranking security behind the security granted in respect of the Senior Debt Obligations. The Senior Lender has provided consent to the issue of the Notes under the Existing Senior Debt Obligations. • After approximately 12 months from their issue date, the Notes are convertible (in full or in part) into Shares, allowing Noteholders the opportunity to participate in any increase in the market price of Shares above Conversion Price.

-------	---------	----------------------

- The Notes, once listed, can be sold on ASX prior to the Maturity Date.
- Subject to the Intercreditor Deed, the Notes must be redeemed by the Company on the Maturity Date (if the Note has not previously been converted, redeemed or purchased).

1.4 Effect of the Offers

Effect on capital structure	The Company currently has 96,662,930 Shares on issue. Under the Entitlement Offer, the Company intends to issue 22,018,890 Notes. Under the Placement Offer, the Company intends to issue up to 10,000,000 Notes. Refer to Section 3.2 for further information on the effect of the Offers on the capital structure.	Section 3.2
Effect on financial position	A pro forma statement of financial position has been prepared based on the Company's audited accounts as at 27 June 2021. The effect of the Offers will be a significant increase to cash reserves by approximately \$30,303,000 and non-current liabilities by approximately \$32,019,000 (before costs of the Offers).	Section 3.3
Effect on control	Assuming that the Underwriter is required to underwrite the maximum number of Notes under the Offers (being 32 million Notes), the Underwriter may acquire a voting power in the Company of approximately 57.5%⁴. The Underwriter's obligation to subscribe for Notes will reduce to the extent that Shareholders take up their Entitlements under the Entitlement Offer. The Underwriter has also entered into sub-underwriting agreements with a number of investors to sub-underwrite the Entitlement Offer. Investment trusts managed and controlled by Alceon Group Pty Ltd (Alceon Group) currently hold approximately 34.7 million Shares, representing combined voting power of approximately 35.9%. Alceon Group has pre-committed to taking up the investment trusts' full Entitlements under the Entitlement Offer. In addition, Alceon GT Pty Limited as trustee for the Alceon Group Trust (AGT), the parent entity of Alceon Group has agreed to sub-underwrite a portion of the Shortfall. Assuming that Alceon Group takes up its full Entitlement and AGT subscribes for its full sub-underwriting commitment, and only the Notes issued to Alceon Group and AGT are converted, Alceon Group's voting power could increase from approximately 35.9% to a maximum of 63.0%⁵. This is seen as an unlikely scenario as other Shareholders have committed to take up their full Entitlements. Alceon Group has informed the Company that it intends to pass the investment trusts' Entitlements through to the underlying investors within those trusts. The extent to which Alceon Group passes Entitlements through to the underlying investors within the investment trusts will decrease Alceon Group's maximum potential voting power in the Company. Shareholders who do not participate in the Entitlement Offer will have their shareholdings diluted if any Notes are converted into Shares.	Section 3.4

1.5 Key risks		
A summary of some of the risks associated with an investment in the Notes is set out below. Refer to Section 5 for more information on the risk factors associated with investing in the Notes, including Company related, industry specific and general risks.		
What are the key risks associated with the Offers?	A non-exhaustive list of potential risks associated with the Offers includes: (a) Potential for significant dilution: On implementation of Offers, assuming that all Notes offered pursuant to this Prospectus are issued, the number of Notes on issue will increase from nil currently on issue to 32 million and this has the potential to increase the number of Shares on issue from 96,662,930 to 227,300,001⁶. This means that each Share will represent a significantly lower proportion of the ownership of the Company. (b) Termination of Underwriting Agreement: If certain conditions are not satisfied or certain events occur, the Underwriter may terminate the Underwriting Agreement. Termination of the Underwriting Agreement may have a material adverse impact on the proceeds raised under the Offers and the Company's sources of funding for its intended purpose. Termination of the Underwriting Agreement could also materially adversely affect the Company's business, cash flow, financial condition and results. (c) Shareholder approval not obtained: A portion of Tranche 2 of the Placement Offer is subject to Shareholder approval. If Shareholder approval is not obtained, then approximately \$4 million less will be raised under the Offers. If this occurs, the Company may need to consider alternative funding options, including an equity raising. There is also a risk that this may result in an event of default under the Senior Debt Obligations if alternative funding is not raised in any applicable remedy period agreed by the Senior Lender. (d) Time delay risk: Any delays in satisfying the Offer Conditions will delay completion of the Offers and the issue of the Notes. Delays may be caused by various factors including delays in obtaining necessary regulatory approvals and in the negotiation of the terms of the Intercreditor Deed.	Section 5.2
What are the key risks associated with investing in the Notes?	A non-exhaustive list of potential risks associated with taking up Notes under the Offers includes: (a) Notes may not be suitable for all investors: Each Eligible Shareholder and other potential investors in the Notes must determine the suitability of that investment in light of their own circumstances. A potential investor should not invest in the Notes unless it has expertise (either alone or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio. (b) Interest payments: The Company expects to make interest payments using available cash balances and cash flow from its operations. There may be insufficient cash available to the Company to make interest payments on the due date. The payment of interest in cash may only occur if permitted by the Senior Debt Obligations and the Intercreditor Deed. The Company's ability to pay Cash Interest on the Notes in cash will be subject to the Company's ability to achieve certain financial	Section 5.3

⁶ Assumes the conversion of all Notes at the floor price of \$0.25, that the interest payable at the First Interest Payment Date is capitalised, no Additional Interest accrues or is capitalised and all other Cash Interest is paid in cash.

	covenant levels under the Senior Debt Obligations and to remain in compliance with its obligations under the Senior Debt Obligations immediately prior to and after making any Cash Interest payment. Interest will not be paid in cash for the first Interest Payment Date, being 31 December 2021, instead interest will capitalise in respect of that quarter. Whether Cash Interest will be paid for the quarter ended 31 March 2022 will depend on how quickly stores closed as a result of government health orders open, and the revenue and earnings of the Group recover. Refer to Section 2.8 for further details. (c) Redemption risk: The Company expects to be able to redeem any Notes that have not been converted using the proceeds from future debt or equity raisings, cash flows from operations or proceeds from the sale of investments. There is a risk that the Company may be unable to procure or raise sufficient cash resources from its operations, future debt or equity raisings and may, in that case, have insufficient cash to redeem the Notes at the Maturity Date (or any earlier date as otherwise required under the Note Terms). Further, the Company may be prevented from redeeming the Notes on the Maturity Date under the Intercreditor Deed (for so long as it remains in force) or any replacement senior financing arrangement. Neither the Company, nor the Trustee, nor any other entity can guarantee the redemption of the Notes. (d) Interest rate risk: Interest on the Notes is fixed, which means that no adjustments will be made to the rate of interest paid to Noteholders in the event that market-based interest rates rise or fall. (e) Financial market conditions: The market price of the Notes will fluctuate due to various factors. For example, the market price of Notes may be sensitive to changes in interest rates and therefore, the Notes could trade on ASX at a price below the Issue Price. Accordingly, Shares issued on conversion of the Notes will vary in value depending on the market price of Shares, which price, compared to the Conversion Price, may rise or fall. (f) Market price of Shares: The Shares held by Noteholders following Conversion of their Notes will have the same rights as other Shares, which are different from the rights attaching to the Notes. The trading price of the Shares will directly affect the trading price of the Notes. The market price of the Shares may be volatile. The volatility of the market price of the Shares may cause volatility in the price of the Notes and affect the ability of Noteholders to sell their notes either at all or at an acceptable price. Additionally, this may result in greater volatility in the market price of the Notes than would be expected for non-convertible debt securities. (g) Liquidity: The Company will seek quotation of the Notes on the ASX to permit on-market trading of the Notes in Australia. However, the Notes are a new issue of securities for which there is currently no established trading market and one may never develop. Any trading market for the Notes may be less liquid than the market for Shares. Illiquidity may have an adverse effect on the value of the Notes. There can be no assurance that Noteholders will be able to buy or sell Notes on ASX at a price acceptable to them, or at all. (a) Early redemption: Notes may be redeemed early by the Company in certain circumstances. There is a risk that the redemption amount payable may be less than the previously prevailing market value of Notes or the timing of such redemption may not accord with a Noteholder's individual financial circumstances or tax position. Further, the Company may be prevented from redeeming the Notes early under the Senior Debt

	Obligations and the Intercreditor Deed (for so long as it remains in force). (b) No voting rights: There is a risk that Noteholders may be affected by corporate decisions made by the Company. Noteholders have no voting or other rights in relation to Shares until the Notes are Converted and Shares are issued to them. In addition, the Notes do not confer on Noteholders any right to subscribe for new securities or to participate in any new or bonus issue of securities (without first converting their Notes). The rights attaching to Shares, if Shares are issued, will be the rights attaching to the Shares at that time. Noteholders have no right to vote on or otherwise to approve any changes to the Constitution in relation to the Shares that may be issued to them upon Conversion. Therefore, Noteholders will not be able to influence decisions that may have an adverse consequence for them. (c) Modifications: The Company may in certain circumstances amend the Note Terms and the Trust Deed without the consent of the Noteholders (refer to Sections 4.1.12(a) and 6.1). (d) Ranking: If there is a shortfall of funds on winding-up, there is a risk that Noteholders will not receive a full (or any) repayment of their money invested in the Notes or payment of unpaid interest, as Noteholders will rank behind senior secured creditors of the Company and equally with other Noteholders. (e) Change in the Australian tax system: Any future changes in Australian tax law, including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect the taxation treatment of the acquisition, holding, Conversion and disposal of Notes and the market price of the Notes. (f) Enforcement risk: Rights under the Note Terms and the Trust Deed may generally only be enforced by the Trustee and not by the Noteholders directly. Noteholders must notify the Trustee of their claims and rely on enforcement by the Trustee, except in certain circumstances where the Trustee has failed to take action after being directed by the Noteholders to do so. Further, enforcement rights under the Note Terms and the Trust Deed are subject to the Intercreditor Deed. This means that the Intercreditor Deed may prevent the Trustee from taking enforcement action. (g) Lease security risk: In a receivership, there may be a risk that the receiver will not have a right to step in and run certain of the Company's stores where landlords have not provided their consent to the appointment of a receiver not being considered a change of control, therefore retaining a right to terminate the relevant lease. Leases with no such landlord consent do not form part of the current security granted in respect of the Senior Debt Obligations, nor the second-ranking security for the Notes. As a consequence, there may be a risk that a receiver could have materially less access to store footprint and would need to negotiate with the relevant landlords to keep the applicable stores open for so long as the receiver would want to run them. (h) Inflation rate risk: An increase in the inflation rate may erode in real terms the value of the capital invested in the Notes. (i) Securities risk: The market price of listed securities is affected by numerous factors including hostilities, tension and acts of terrorism, general investor sentiment and the movement of prices on local and international share markets. As a consequence, securities carry no guarantee with respect to the payment of

	dividends, returns of capital or the market value of those securities. (j) Tax risk: Prospective investors should be aware that any future changes in Australian tax law, including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect the taxation treatment of the acquisition, holding and disposal of the Notes and the market price of the Notes.	
What are the key risks associated with Company's business?	A non-exhaustive list of potential risks associated with the Company's business include: (a) Covid-19: The global impact of the COVID-19 pandemic, and the advice and responses from health and regulatory authorities, is continuously developing. The COVID-19 pandemic has had and may continue to have unpredictable and significant impact on capital markets and share prices and may adversely impact the Company's business and financial performance for the foreseeable future. The Company's business is likely to continue to be affected by, among others, the geographic spread of the virus; changes in the severity of the disease; mutations in the COVID-19 virus; the duration of the pandemic (specifically if the Christmas 2021 trading period is impacted); the availability and effectiveness of vaccines; actions that may be taken by Australian federal and state governmental authorities and governmental authorities in the other jurisdictions outside Australia in which the Company operates in response to the pandemic, including actions to relax or further tighten existing restrictions (including in relation to stay at home orders and business closures). The COVID-19 pandemic and such responsive measures could also impact the Company's ability to effectively implement its strategy, risk management framework and internal controls and procedures. (b) Future Funding Requirements: The Company's ability to effectively implement its business and operational plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities and to meet any unanticipated liabilities or expenses which the Company may incur may depend in part on its ability to raise additional funds. The Company might require additional funding in the future in order to develop its business and to meet working capital costs. Additional equity financing may be dilutive to Shareholders and debt financing may involve restrictive covenants, which may limit the Company's operations and business strategy. (c) Risk of decline in foot traffic in shopping centres: The Company's growth strategy includes new store openings, particularly targeting key parts of shopping centres. Foot traffic in shopping centres fluctuates over time, and in the last 18 months has experienced volatility and a significant decline due to the impact of COVID-19. Whilst the Company has a disciplined approach to identifying, evaluating and prioritising new store locations, if a downward trend were to continue, the Company's new stores may not achieve the anticipated return on capital benchmarks and/or existing stores may generate lower revenue. Ultimately, these outcomes could result in reduced financial performance. (d) The Company may be unable to retain and secure suitable store sites: The Company's store footprint and portfolio are assessed on an ongoing basis and revised in order to optimise the financial and operational performance of the Company. While underperforming stores are typically closed or their leases are not renewed on expiry, store lease initial terms are generally 3-5	Section 5.4

Topic	Summary	For more information
	years and the rent payable under these leases can sometimes be difficult to renegotiate, despite underperformance. This may result in the Company running underperforming stores that are operating at a loss where it cannot cancel the lease or renegotiate the lease terms. (e) Mismatch between fashion trends and consumer preferences for the Company's products: Consumer demand for the Company's products is dependent on the decisions made (and implemented) by the Company on the range, selection and quantity of its products. There is a risk that the product ranges developed and sourced by the Company do not align with consumer preferences. Whilst the Company's product range is predominately focused on everyday apparel, sustained and material mismatches in relation to evolving fashion trends and consumer preferences can adversely affect sales levels and consumer perspectives of the Company's brands and result in a loss of market share. Further, a sustained mismatch in demand between customer preferences and the stock that the Company holds may result in stock shortages leading to lost sales, or excess stock, which would increase the Company's markdown costs and operating expenses. (f) Changes in Australian and New Zealand population growth: Any medium-term or permanent reduction in Australia and New Zealand's population growth (including net immigration) or the birth rate, may adversely impact the Company's future financial and operating performance. A prolonged period of COVID-19 related disruptions to international travel (including travel restrictions, quarantine programs and other associated measures) may impact on the number of people in Australia and New Zealand at any given time and therefore overall demand for the Company's products. (g) The value of the Company's brands may diminish: The Company's brands and reputation are very important to attracting, retaining and increasing its customer base, managing its relationship with stakeholders and implementing the Company's business strategy. The Company's brands and reputation are also very important to the Company maintaining its existing relationships with manufacturers and distributors, and also retaining and attracting a skilled and engaged workforce. Maintaining the strength of the Company's brands is integral to the Company's ability to consistently appeal to its existing customers, attract new customers and generate sales growth. (h) The Company's brands and their product offerings rely on maintaining and enhancing these brands: Maintaining and enhancing the Company's brands is critical to expanding the Company's customer base and suppliers. A significant portion of the customer's brand experience is dependent on third parties who supply products and other services, such as logistics, to the Company. Whilst suppliers are audited regularly and the Company has ethical sourcing and supply terms, ultimately, these third parties are outside of the Company's control. (i) Product sourcing may be disrupted: The Company maintains long-standing supplier relationships with international suppliers. While the Company has a diversified supplier base, the business still relies on Chinese and other Asian suppliers. Any material adverse changes related to the impact of COVID-19, adverse economic conditions, regulatory changes (e.g. export duties) or changes in the political environment in these markets may adversely impact the Company's ability to source and sell its products reliably and without material delays. Further, whilst the Company regularly audits its suppliers and has ethical sourcing

	and supply terms, the Company faces a reputational risk to the extent that any foreign manufacturer or supplier from whom the Company purchases products (directly or indirectly) employs labour or engages in environmental, corruption, workplace safety or other business practices in a manner that varies from what is commonly accepted in Australia and New Zealand, the Company's reputation could be damaged by any resulting negative publicity or, in some cases, potential claims of liability. (j) Product failure: Australia and New Zealand have product safety standards. Whilst the Company has a strong record with regard to product safety, goods sold by the Company may in the future, be defective and/or subject to product recalls which may require the Company to immediately stop selling the affected products, remove all stock from retail outlets and recall the products from the supply chain and consumers. (k) Underpayment of wages and failure to comply with industry awards: The Company has a number of controls in place in an effort to ensure compliance with all employment laws, however, there is a risk underpayment of employees could occur. This could arise where employee rostering is mismanaged, employees are mischaracterised as either casual or permanent, or where payroll errors are otherwise made in relation to a high number of employees, across a national store network. (l) Workplace accident or incident: The Company's employees and customers are at risk of workplace accidents and incidents. Should an employee or customer be injured in the course of engaging with the Company's business (either as a result of their employment or from engaging with the Company's business as a consumer), the Company may be liable for penalties or damages as a result. If the Company were required to pay monetary penalties, this may adversely affect its financial position and reputation in the market. (m) Risks associated with privacy and IT system: The Company is focused on the protection of its customers' and employees' personal information. A significant breach of customer, employee or company information could attract significant media (including social media) attention, require the Company to pay fines or engage in litigation and/or damage the Company's customer relationships, brands and reputation, each of which may also negatively affect the Company's reputation and financial performance. (n) The Company may experience technology failure or its technology may become obsolete: The success of the Company's business relies on (among other things) the technology it has developed in respect of certain business functions including its point-of-sale, online offering, inventory management and general order processing management. If there is any decrease in the effectiveness or functionality of the information technology systems which support this technology (or if these systems are not able to be further developed and become obsolete in comparison to its competitors) then this could have a significant impact on the Company's ability to continue to deliver its services and generate revenues. (o) Online channel risks: The Company's customers are increasingly using computers, tablets, mobile phones and other devices to purchase products. Approximately 19% of the Company's FY21 revenue (excluding revenue attributable to Ezibuy) was generated from online sales. Maintaining and continuing to improve its online channel offering involves investment of capital and resources, integrating a number of information and management systems from different vendors,

	increasing supply chain and distribution capabilities, attracting, developing and retaining qualified personnel with relevant subject matter expertise, and effectively managing and improving the customer experience. (p) Growth in online penetration and rate of migration to online channels: The Company's future growth strategy involves targeting growth in online sales. Across the broader retail market, growth in online sales is being driven partly by the migration of customers from a traditional offline retailing experience to online retailing platforms across a number of segments. This trend has accelerated during the period since COVID-19. There is no guarantee that the migration of customers will continue to grow in the future, or will be retained despite the historical and forecast growth patterns. If the rate of penetration and migration to the online channel does not increase in line with the Company's assumptions, this may have a material adverse effect on its financial and operational performance in the future. (q) Unexpected increase in operating and other expenses that may reduce profitability: The Company's operating and other expenses could increase without a corresponding increase in revenue. A number of factors which could increase operating and other expenses. (r) The Company's recent growth rates may not be sustainable or indicative of its future growth: The Company's recent growth rates may not be sustainable or indicative of future growth. The Company may be unable to attain further sales growth through its online channel or increase its market share or leverage its relationship with its target customer to grow sales in other categories. Alternatively, the Company may be able to maintain these growth rates in sales but have to expend significantly more resources in order to maintain the growth rates, thus reducing profitability. Should revenue growth rates materially decline or operating expenses materially increase, the Company's financial and operational performance may be adversely affected. (s) The Company relies on services provided by third party payment and logistics providers: The Company relies on the services provided by third party banking and payment providers such as credit card companies. It also relies on the services of third party logistic providers to deliver ordered products to customers. The Company has limited influence over these third parties and the contracts with these providers are generally short-term in nature. (t) Failure to effectively manage inventory: The Company may fail to accurately forecast or manage its inventory levels. This may result in the Company incurring additional costs and/or losing revenue. If the Company purchases levels of product that it cannot sell in a timely manner, this excess stock may need to be cleared at a discount, otherwise the excess stock will become obsolete and the Company may be required to recognise inventory write-down costs. Conversely, if the Company fails to maintain adequate levels of inventory it may experience "out of stock" issues, which may result in foregone sales and damage to the Company's reputation or brands which may have an adverse effect on financial performance. (u) Climate change, severe weather, natural disasters and seasonality may adversely affect the Company: The Company has stores based in regional areas and as such has experienced impacts from weather related and other natural disasters in the past (such as regional flooding and bushfires). The increased likelihood of natural disasters and severe weather conditions	

Topic	Summary	For more information
	such as flooding and bushfires in areas in which the Company operates or in areas where the Company sources or obtains supplies or products as a result of climate change, presents a risk to the Company's business. These adverse conditions have the potential to cause supply chain disruptions, store closures and damage to the Company's stores, warehouses or products.	
What are the key risks associated with the industry?	A non-exhaustive list of potential risks associated with the relevant industry of the Company's business include: (a) Retail environment and general economic conditions may worsen: The Company's operational and financial performance are sensitive to consumer sentiment. Key factors that may adversely affect demand for the Company's products include increases in interest rates, economic shocks, increased unemployment and decreases in the asset values of homes and other dwellings. Any material reduction in consumer disposable income may reduce demand for the Company's products which may in turn result in lower levels of revenue or profitability for the Company. (b) Competitive environment: The Company operates in a competitive market and there is a risk that the Company may lose market share to new or existing competitors in the market. This loss in market share could be driven by a number of factors, such as competitors delivering superior products and customer experiences, increasing their store rollout, increasing advertising or product discounting or consolidating with other retailers to deliver enhanced scale benefits against which the Company is unable to compete. If the Company's competitive position were to deteriorate as a result of increased competition, the Company's customers may choose to purchase products from competitors rather than from the Company's brands and this may in turn reduce the Company's revenue and profit margins. Such a reduction in profitability and revenue may subsequently have an adverse impact on the Company's financial and operating performance. (c) Regulatory risk and potential for laws and regulations to change: The Company is required to comply with a range of laws and regulations in Australia, New Zealand and in the foreign jurisdictions in which it sources its products (including China). These laws and regulations include product and safety standards, fair trading and consumer protection, public health, employment, occupational health and safety, quarantine, customs and tariff and tax laws. Compliance with these laws and regulations, and the Company's ability to comply with any changes to these laws and regulations, is critical to the success of the Company's business. Any failure to comply with existing or new laws and regulations may result in a fine or penalty, loss of accreditation or brand damage, any of which could have a material and adverse effect on the Company's operations, performance and reputation. (d) The Company may be involved in disputes or litigation: The Company may be the subject of complaints, litigation, inquiries or audits initiated by a range of stakeholders including customers, employees, landlords, government agencies, regulators or other third parties. These disputes may be related to product warranties, product descriptions, industrial action, personal injury, health, environmental, safety or operational concerns, nuisance, negligence or failure to comply with applicable contracts, laws and regulations. (e) Key personnel risk: The performance of the Company is highly dependent on a number of highly skilled personnel, including the Directors, senior management and specific key management	Section 5.5

Topic	Summary	For more information
	personnel, if applicable. The loss or departure of one or more key personnel and/or the inability to hire new personnel, may have a material adverse effect on the Company's performance or ability to grow. (f) Industrial relations risk: There is a risk that the industrial relations management will be unsatisfactory leading to strikes or the re-opening of award negotiations resulting in higher costs, higher employee numbers and higher redundancy costs.	
What are the general risk associated with investment in securities?	A non-exhaustive list of general risks include: (a) Foreign exchange rate risk: The price of the Company's product is impacted by movements in the USD, NZD and other currencies and the exchange rate between AUD and these currencies. Movements in the exchange rate and/or these currencies may adversely or beneficially affect the Company's results or operations and cash flows. (b) Equity market conditions: Shares listed on the stock market can experience price and volume fluctuations often unrelated to the operating performances of such companies. The market price of Shares may fall as well as rise.	Section 5.6

The number of Notes to which you are entitled is shown on the accompanying Entitlement and Acceptance Form. Fractional entitlements will be rounded down to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus (assuming no additional Shares are issued prior to the Record Date), a maximum of approximately 22 million Notes will be issued pursuant to the Entitlement Offer to raise approximately \$22 million (subject to rounding).

All of the Notes offered under the Prospectus will be issued on the terms and conditions set out in Section 4.1.

Any Shares issued on the future conversion of the Notes offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.2 for further information regarding the rights and liabilities attaching to the Shares.

The purpose of the Offers and the intended use of funds raised are set out in Section 3.1.

2.2 Placement Offer

The Placement Offer is an underwritten offer to Danfin Pty Ltd (**Danfin**) of 10 million Notes at an issue price of \$1.00 per Note to raise a further \$10 million (before costs) (**Placement Offer**). The Placement Offer will comprise two tranches as follows:

- **Tranche 1:** approximately 3.6 million Notes to be issued on the Issue Date under the Company's existing ASX Listing Rule 7.1 placement capacity, to raise approximately \$3.6 million; and
- **Tranche 2:** subject to the availability of the Company's placement capacity and Shareholder approval for the issue of the Note (to the extent required), approximately 6.4 million Notes, to raise a further approximately \$6.4 million.

The Company expects to issue approximately 2.4 million Notes under Tranche 2 of the Placement Offer as soon as it has placement capacity to do so under ASX Listing Rule 7.1A. If required, the Company will include any resolutions to approve the issue of Tranche 2 of the Placement Offer (or any part of it) at its annual general meeting (proposed to be held in November 2021). Alceon Group has agreed to vote in favour of any resolution to issue Notes under Tranche 2 of the Placement Offer.

The Underwriter is also acting as the lead manager and underwriter of the Placement Offer. The Underwriter has received a firm commitment from Danfin to subscribe for all of the Notes offered under the Placement Offer.

The Placement Offer will only be extended to Danfin. An Application Form will only be provided by the Company to this party.

All of the Notes offered under the Prospectus will be issued with disclosure on the terms and conditions set out in Section 4.1.

Any Shares issued on the future conversion of the Notes offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus and will not be subject to

any on-sale restrictions as a result of the operation of ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80. Please refer to Section 4.2 for further information regarding the rights and liabilities attaching to the Shares.

2.3 Conditions of the Offers

The Offers are subject to and conditional on:

- (a) documentation of the Senior Lender's consent to the issue of the Notes, the security and terms of the Intercreditor Deed;
- (b) documentation of a deferral of the scheduled \$10 million step down of the Existing Senior Debt Facility; and
- (c) documentation of a restructure of the current financial covenant package in respect of the Existing Senior Debt Facility to take into consideration the impact of COVID lockdowns in circumstances where lockdowns are extended beyond the current expected time frame or retail trading conditions worsen beyond what is currently anticipated,

(Offer Conditions).

In the event that the above Offer Conditions are not satisfied, the Offers will not proceed and no Notes will be issued pursuant to this Prospectus. If this occurs, all Application Moneys will be refunded (without interest) and in accordance with the Corporations Act.

2.4 Who is entitled to participate in the Entitlement Offer?

A Shareholder registered as the holder of Shares on the Company's share register as at 7:00pm (AEST) on the Record Date, whose registered address is in Australia or New Zealand, is entitled to participate in the Entitlement Offer.

2.5 Minimum subscription

There is no minimum subscription.

2.6 No trading of Entitlements

The Entitlements are non-renounceable. This means that Eligible Shareholders cannot sell their Entitlement if they do not wish to take up some or all of the Notes to which they are entitled.

2.7 Underwriting

The Offers are underwritten by Wilsons Corporate Finance Limited (AFSL 238383) (**Underwriter**), who is acting as the lead manager and underwriter of the Offers. The Underwriter has entered into sub-underwriting agreements with a number of investors to sub-underwrite the Entitlement Offer.

Investment trusts managed and controlled by Alceon Group Pty Ltd (**Alceon Group**) currently hold approximately 34.7 million Shares, representing combined voting power of approximately 35.9%. Alceon Group has pre-committed to taking up the investment trusts' full Entitlements under the Entitlement Offer. In addition, Alceon GT Pty Limited as trustee for the Alceon Group Trust (**AGT**), the parent entity of Alceon Group has agreed to sub-underwrite a portion of the Shortfall.

Further details of the Underwriting Agreement, including the circumstances in which the Underwriter may terminate its obligations, are set out in Section 6.2. A summary of the terms of the sub-underwriting agreements is set out in Section 6.3.

2.8 Intercreditor Deed

The Offers are conditional on the Group and the Trustee entering into an intercreditor deed with the Senior Lender (**Intercreditor Deed**). The Intercreditor Deed will provide that:

- all amounts owing in respect of the Notes and the security granted in favour of the Trustee (**Transaction Security**) will be subordinated to, and rank behind all amounts owing by the Group to the Senior Lender (**Senior Debt**) and the security granted in respect of the Senior Debt;
- no redemption or repayment of the Notes will be permitted until a period of up to 6 months after the Senior Debt has been finally repaid;
- enforcement rights in respect of the Notes and the Transaction Security cannot be exercised by the Trustee without the Senior Lender's consent; and
- the payment of cash interest on the Notes will only be permitted so long as the Group can meet normalised financial covenant levels and the Group otherwise remains in compliance with its obligations under the Senior Debt documents.

The effect of the Intercreditor Deed is that Cash Interest payments will not be made (and interest will capitalise) until the earnings of the business recover sufficiently to meet certain normal ratio-based covenants in the Senior Debt Obligations (and the Group continues to meet all its other obligations under the Senior Debt Obligations). The Senior Lender has agreed to some relaxation of these ratio-based covenants to provide some leeway for the Group because of the current difficult trading conditions, but those more relaxed covenants are not used to determine whether Cash Interest can be paid.

Whether the ratio-based covenants in the Senior Debt Obligations are met is calculated on 31 March, 30 June, 30 September and 31 December each year (each a **Ratio Resting Date**).

The covenants tested on each Ratio Testing Date are reflected in two principal measures. One measure calculates a ratio between the earnings of the business and the interest and rental expenses of the business for a 12 month period to the Ratio Testing Date, this ratio is referred to as the Fixed Charge Cover Ratio. The other measure calculates a ratio between the total indebtedness of the Group and the earnings of the business in the 12 months prior to the Ratio Testing Date, this ratio is referred to as the Total Financial Indebtedness Ratio. The Fixed Charge Cover Ratio covenant is currently set at 1.25x, and the Total Financial Indebtedness Ratio covenant is currently set at 1.00x.

Due to the effect of the prolonged lockdowns on store closures over the 12 months to 31 December 2021, the Company does not expect the Fixed Charge Cover Ratio covenant or the Total Financial Indebtedness Ratio covenant will be met when they are calculated on the first Ratio Testing Date after the Notes have been issued, being 31 December 2021, and Cash Interest will capitalise and not be paid in cash in respect of that quarter. That said, as noted above, the Senior Lender has agreed to some relaxation of these ratio-based covenants for the purposes of the Senior Debt Obligations, but those more relaxed covenants are not used to determine whether Cash Interest can be paid. Whether Cash Interest will be paid for the quarter ended 31 March 2022 will depend on how quickly the stores closed as a result of government health orders open and the revenue and earnings of the Group recovers. It may be that even if stores open once government health orders permit and there is a recovery in trading, that Cash Interest will not be paid in the quarter ending 31 March 2022. The longer significant numbers of stores remain closed, the longer it will take for the earnings of the business to recover sufficiently to meet these ratio-based covenants and the longer it will be before payment of Cash Interest in cash is permitted under the Senior Debt Obligations. Because the ratio-based covenants are calculated using a 12 month period of earnings,

trading needs to return to normal for a period of time before the covenants will be met and Cash Interest will be paid.

Prior to the introduction of government health order store closures in March 2020, whilst normal business operations were permitted, the Company had met all prior covenant testing required under the relevant banking facilities, from time to time.⁷

Where Cash Interest is not paid in cash for a particular quarter, it will be capitalised and therefore increase the Note Principal Amount that can be converted in accordance with the terms of the Notes.

The long-form Intercreditor Deed has not been executed at the date of this Prospectus and this description is based on the terms on which the Senior Lender has provided its consent.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to 3 months after the Closing Date. It is your responsibility to ensure that your BPAY® payment is received by the share registry by no later than 5:00pm (AEST) on the Closing Date. Any Application Moneys received for more than your final allocation of Notes (only where the amount is \$1.00 or greater) will be refunded. No interest will be paid on any Application Moneys received or refunded.

Notes issued pursuant to the Offers will be issued in accordance with the ASX Listing Rules and timetable set out in the “Key Dates” Section of this Prospectus.

Where the number of Notes issued is less than the number applied for, or where no issue is made, surplus Application Moneys will be refunded without any interest to the Applicant as soon as practicable after the issue date of the Notes.

Pending the issue of the Notes or payment of refunds pursuant to this Prospectus, all Application Moneys will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Notes (including any Additional Notes) issued under the Offers will be mailed in accordance with the ASX Listing Rules.

2.16 Overseas Shareholders

This Offers do not, and are not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Notes these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offers are not being extended and Notes will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

The distribution of this Prospectus (including an electronic copy) in jurisdictions outside of Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of applicable securities laws.

The Corporations Act prohibits any person from passing an Entitlement and Acceptance Form to another person unless it accompanies or is included in a paper copy of this Prospectus or the complete and unaltered electronic version of this Prospectus.

The Entitlements of non-eligible foreign Shareholders will form part of the Shortfall.

New Zealand Investors

These Offers to New Zealand investors are regulated offers made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the Financial Markets Conduct Act 2013 and Part 9 of the Financial Markets Conduct Regulations 2014.

These Offers and the content of this Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the regulations made under that Act set out how the Offers must be made.

There are differences in how financial products (including the Notes) are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products.

Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to these Offers. If you need to make a complaint about these Offers, please contact the Financial Markets Authority, New Zealand (www.fma.govt.nz). The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian financial products is not the same as for New Zealand financial products.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

These Offers may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant.

If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.

Nominees and custodians

Eligible Shareholders holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up their Entitlement does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of such regulations. Eligible Shareholders who are nominees are therefore advised to seek independent advice as to how they should proceed.

2.17 Withdrawal

The Company reserves the right not to proceed with the Offers (or any part of them) at any time before the issue of Notes. If the Company decides not to proceed with the Offers (or any part of them), no Notes will be issued in respect of the withdrawn component of the Offers, and all relevant Application Moneys will be refunded (without interest) and in accordance with the Corporations Act.

2.18 Tax implications

Section 7 contains a summary of the tax consequences for potential Noteholders and is based on Australian tax law and administrative practice as at the date of this Prospectus. This summary is necessarily general in nature and is not intended to be tax advice to Noteholders. Accordingly, each prospective Noteholder should seek their own tax advice, which is specific to their particular circumstances, as to the tax consequences of investing in, holding and disposing of the Notes.

3. Purpose and effect of the Offers

3.1 Purpose of the Offers

The purpose of the Offers is to raise approximately \$32 million.

The funds raised from the Offers are planned to be used in accordance with the table set out below:

Funds raised from the Placement Offer	10,000,000	31
Funds to be raised from the Entitlement Offer	22,018,890	69
Total	32,018,890	100

Notes:

1. Funds allocated to working capital will be used to fund administration and operating expenses of the Company (including payment of team salaries, payments to product suppliers, payment of third party logistics, freight and postage), whilst lockdowns remain in place and store sales generate lower levels of cash flow.
2. Refer to Section 8.6 for further details.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied.

The Directors believe that on completion of the Offers, the Company will have sufficient working capital to carry out its stated objectives.

3.2 Effect on capital structure

The effect of the Offers on the capital structure of the Company, assuming all Entitlements are accepted, is set out below.

 - (b) no interest has been capitalised into the Notes, except for the interest payable on the First Interest Payment Date; and
 - (c) the Notes are converted into Shares at a price of \$0.25, being the floor price for conversion of the Notes.

3.3 Pro-forma statement of financial position

To illustrate the effect of the Offers on the Company, a pro-forma statement of financial position has been prepared based on the audited financial position as at 27 June 2021.

The pro-forma statement of financial position shows the effect of the Offers as if the Notes offered under this Prospectus had been issued on 27 June 2021 and as if all Notes offered pursuant to this Prospectus are issued.

The accounting policies adopted in the preparation of the pro-forma statement of financial position are consistent with the policies adopted and as described in the Company's financial statements for the financial year ended 27 June 2021.

The significant effect of the Offers will be to increase cash reserves and non-current liabilities by approximately \$32 million (before cash expenses of the Offers which are estimated to be \$1.716 million).

The pro-forma statement of financial position has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements and has not been subject to an audit or review.

3.4 Effect on control of the Company

You should consider the possible control scenarios that may flow from the Offers and in particular, the Underwriting Agreement. The Underwriter has entered into sub-underwriting agreements with a number of investors to sub-underwrite the Entitlement Offer. The Underwriting Agreement is on usual terms and the fees and termination events for the Underwriting Agreement and sub-underwriting agreements are set out in Sections 0 and 6.3.

Investment trusts managed and controlled by Alceon Group Pty Ltd (**Alceon Group**) currently hold approximately 34.7 million Shares, representing combined voting power of approximately 35.9%. Alceon Group has pre-committed to taking up the investment trusts' full Entitlements under the Entitlement Offer. In addition, Alceon GT Pty Limited as trustee for the Alceon Group Trust (**AGT**), the parent entity of Alceon Group has agreed to sub-underwrite a portion of the Shortfall.

Assuming that Alceon Group takes up its full Entitlement and AGT subscribes for its full sub-underwriting commitment, and only the Notes issued to Alceon Group and AGT are converted, Alceon Group's voting power could increase from approximately 35.9% to a maximum of 63.0%. This is seen as an unlikely scenario as other Shareholders have committed to take up their full Entitlements. Alceon Group has informed the Company that it intends to pass the investment trusts' Entitlements through to the underlying investors within those trusts. The extent to which Alceon Group passes Entitlements through to the underlying investors within the investment trusts will decrease Alceon Group's maximum potential voting power in the Company.

The maximum potential increase in the voting power of Alceon Group as a result of its participation in the Entitlement Offer and AGT's sub-underwriting arrangement is set out below:

Name	Current voting power %	Voting Power on conversion of Entitlements under the Offer ^{1,2} %	Voting power post Offer on conversion of Entitlements and sub-underwriting commitment under the Offer ^{1,3} %
Alceon Group Pty Ltd	35.9%	51.9%	63.0%

Notes:

- Assumes the Notes are converted into Shares at the floor price of \$0.25 and assuming that no interest has been capitalised into the Notes except for the interest payable on the First Interest Payment Date, no Additional Interest accrues or is capitalised and all other Cash Interest is paid in cash.
- Based on a total of 128,888,859 on issue post Offer, which assumes that:
 - all Notes offered pursuant to this Prospectus are issued;
 - Alceon Group takes up its full Entitlement under the Entitlement Offer;
 - AGT is not required to subscribe for any its sub-underwriting commitment pursuant to its sub-underwriting agreement;
 - only the Notes issued to Alceon Group are converted into Shares; and
 - the Notes issued to Alceon Group are not passed through directly to the investors in the investment trusts.
- Based on a total of 167,648,859 on issue post Offer, which assumes that:
 - all Notes offered pursuant to this Prospectus are issued;
 - Alceon Group takes up its full Entitlement under the Entitlement Offer;
 - AGT is obliged to subscribe for all of its sub-underwriting commitment pursuant to its sub-underwriting agreement;

- (d) only the Notes issued to Alceon Group and AGT are converted into Shares; and
- (e) the Notes issued to Alceon Group are not passed through directly to the investors in the investment trusts.

Alceon Group has informed the Company it is presently supportive of the Company's current direction, objectives and management.

Alceon Group has advised the Company it does not currently intend to:

- (a) make or propose any significant changes to the Company's existing business, existing financial or dividend policy;
- (b) become involved in decisions with respect to future employment, the transfer of property or the redeployment of fixed assets except to the extent such decisions require Shareholder approval under the ASX Listing Rules or as a matter of law.

The intentions and statements of future conduct set out above must also be read as being subject to the legal obligations of the Directors at the time, including any nominees of Alceon Group, to act in good faith in the best interests of Alceon Group and for proper purposes and to have regard to the interests of Shareholders.

The implementation of Alceon Group's current intentions in relation to its ownership of the Company will be subject to the law (including the Corporations Act), the ASX Listing Rules and the Constitution.

As at the date of this Prospectus, the Underwriter is neither a Shareholder nor a related party of the Company for the purposes of the Corporations Act. The extent to which Shares are issued upon the future conversion of the Notes offered under this Prospectus pursuant to the Underwriting Agreement will increase the Underwriter's voting power in the Company (which, as at the date of this Prospectus, is 0%).

In accordance with the terms of the Underwriting Agreement, the Underwriter will allocate the Shortfall to its sub-underwriters. In the event that there is a Shortfall under the Entitlement Offer, these sub-underwriting arrangements will have the effect of decreasing the number of Notes to be subscribed for by the Underwriter. Accordingly, the voting power of the Underwriter will be reduced to the extent that sub-underwriters subscribe for any Shortfall.

The Underwriter's present relevant interest and changes under several scenarios are set out in the table below (assuming that all Notes issued to the Underwriter are converted):

Event	Notes held by the Underwriter	Shares issued on conversion of underwritten Notes ¹	Voting power of Underwriter ² %
Date of this Prospectus	Nil	Nil	0.00%
Completion of the Entitlement Offer			
Fully subscribed	Nil	Nil	0.00%
75% subscribed	5,504,723	22,459,268	18.9%
50% subscribed	11,009,445	44,918,536	31.7%
Only Alceon Group takes up Entitlement and AGT subscribes for all of its sub-underwriting commitment ³	4,620,378	18,851,142	16.3%
0% subscribed	22,018,890	89,837,071	48.2%

Event	Notes held by the Underwriter	Shares issued on conversion of underwritten Notes ¹	Voting power of Underwriter ² %
Completion of the Offers			
0% subscribed under the Entitlement Offer and Underwriter is required to subscribe for all Notes offered under the Placement Offer	32,018,890	130,637,071	57.5%

Notes:

1. In relation to the Entitlement Offer only. Assumes the Notes are converted into Shares at the floor price of \$0.25 and assuming that no interest has been capitalised into the Notes except for the interest payable on the First Interest Payment Date, no Additional Interest accrues or is capitalised and all other Cash Interest is paid in cash.
2. Assumes that only the Notes issued to the Underwriter are converted.
3. Assumes that Alceon Group takes up its full Entitlement and AGT subscribes for its full sub-underwriting commitment.

The number of Shares held by the Underwriter and its voting power in the table above show the potential effect of the underwriting of the Offers, following conversion of all Notes issued to the Underwriter. However, it is unlikely that no Shareholders will take up their Entitlements under the Entitlement Offer, the sub-underwriters will default on their obligations under the sub-underwriting agreements and no other investors will subscribe for Notes under the Placement Offer. The underwriting obligation and therefore potential voting power of the Underwriter will reduce by a corresponding amount for the amount of Entitlements under the Entitlement Offer taken up by Shareholders and Notes subscribed for by sub-underwriters other investors under the Offers.

Any increase in voting power of the Underwriter and Alceon Group above 20% will be permitted pursuant to the “underwriting exception” in item 13 of section 611 of the Corporations Act. Other than as set out in this Section 3.4 and in Section 3.6, the Company and the Underwriter have confirmed that, no sub-underwriter nor existing Shareholder will increase its voting power to above 20% as a result of the Offers or Shortfall Offer.

3.5 Dilution

Shareholders should note that if they do not participate in the Entitlement Offer their holdings, assuming that all Notes issued under the Offers are converted into Shares at the floor price of \$0.25, would be diluted by up to approximately 57.5% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders is set out in the table below:

Holder	Holding of Shares as at Record date	% holding of Shares at Record Date	Entitlements under the Entitlement Offer	Shares issued on conversion of Entitlements under the Entitlement Offer ¹	Holdings if Entitlement Offer not taken Up	% post Offer ²
Shareholder 1	10,000,000	10.3%	2,277,904	9,293,848	10,000,000	4.40%
Shareholder 2	5,000,000	5.2%	1,138,952	4,646,924	5,000,000	2.20%
Shareholder 3	1,500,000	1.6%	341,685	1,394,075	1,500,000	0.66%
Shareholder 4	400,000	0.4%	91,116	371,753	400,000	0.18%
Shareholder 5	50,000	0.1%	11,389	46,467	50,000	0.02%

Notes:

1. Assumes a conversion price for the Notes of \$0.25 (being the floor price) and that no interest has been capitalised into the Notes except for the interest payable on the First Interest Payment Date, and no Additional Interest accrues or is capitalised and all other Cash Interest is paid in Cash.
2. Based on a total of 227,300,001 Shares on issue post Offers, which assumes that:
 - (a) all Notes offered pursuant to this Prospectus are issued;
 - (b) no interest has been capitalised into the Notes except for the interest payable on the First Interest Payment Date, and no Additional Interest accrues or is capitalised and all other Cash Interest is paid in Cash; and
 - (c) all Notes issued are converted into Shares at the floor price of \$0.25.

3.6 Details of substantial holders

Based on publicly available information as at the date of this Prospectus, those persons which (together with their associates) have a relevant interest in 5% or more of the Shares on issue are set out below:

Shareholder	Shares	Voting power ¹ %	Entitlement
Alceon Group Pty Ltd ²	34,674,472	35.9%	7,898,512
Perpetual Limited (and its related bodies corporate) ³	11,669,304	12.07%	2,658,155

Notes:

1. The voting power in the table is prior to completion of Offers.
2. Held via investment trusts which are managed by Alceon Group on behalf of its clients.
3. Based on substantial shareholder notice lodged with the ASX dated 9 September 2021.

In the event that all Entitlements are accepted, there will be no change to the substantial holders on completion of the Offers.

It is noted that Alceon Group has committed to take up its full Entitlement under the Entitlement Offer. In addition, Alceon GT Pty Limited as trustee for the Alceon Group Trust (**AGT**), the parent entity of Alceon Group has agreed to sub-underwrite a portion of the Shortfall. Refer to Section 3.4 for further details.

A substantial holder who is issued Notes under the Entitlement Offer may, at any time prior to the Maturity Date, elect to convert those Notes into Shares (refer to Section 4.1 for further details regarding the conversion of Notes). The Company notes that it is a term of the Notes that any conversion is subject to compliance with all applicable laws, including the takeover prohibition in section 606 of the Corporations Act.

The Underwriter has received a firm commitment from Danfin to subscribe for all of the Notes offered under the Placement Offer. As at the date of this Prospectus, Danfin is not a related party of the Company for the purposes of the Corporations Act. Following completion of the Offers, and assuming that only the Notes issued to Danfin are converted, Danfin would acquire maximum voting power of 31.0%⁸, subject to compliance with all applicable laws, including the takeover prohibition in section 606 of the Corporations Act.

⁸ Includes 1,873,122 Shares held by an associate of Danfin, Fralara Pty Ltd as trustee for the Fraild Family Investment Trust, and assumes the conversion of all Notes at the floor price of \$0.25, that the interest payable at the First Interest Payment Date is capitalised, no Additional Interest accrues or is payable and all other Cash Interest is paid in cash.

- (i) To the maximum extent permitted by the Corporations Act, the ASX Listing Rules and any other applicable laws, there will be no participation rights or entitlements inherent in the Notes and Noteholders will not be entitled to participate in new issues of capital offered to shareholders during the currency of the Notes without converting the Notes into shares.

- (ii) If an Event of Default set out in Section 4.1.8(a)(i) or Section 4.1.8(a)(ii) occurs and is not waived or remedied within the prescribed remedy period, Section 4.1.2(d)(i) will not apply and the Note Principal Amount will not be adjusted.

(e) **Default interest**

If an Event of Default set out in Sections 4.1.8(a)(iii) to 4.1.8(a)(ix) occurs and is continuing, Interest accrues on the Note Principal Amount of each Note at a sum of the Interest Rate plus a default rate of 3.00% per annum while the relevant Event of Default continues. However, if at the same time an Event of Default in Section 4.1.8(a)(i) or Section 4.1.8(a)(ii) is continuing and Section 4.1.2(d)(ii) applies, the default rate will not be applicable.

4.1.3 Conversion

(a) **Conversion**

- (i) Subject to Sections 4.1.3(a)(iii) and 4.1.13 a Noteholder will be entitled to Convert all or some of the Notes held by that Noteholder by giving written notice to the Company (**Conversion Notice**):
 - (A) at any time during the Conversion Period;
 - (B) in accordance with Section 4.1.4(b)(iii); or
 - (C) in accordance with Section 4.1.5(a)(v)(A).
- (ii) The Company will proceed to issue to the Noteholder that number of Shares as calculated in accordance with Section 4.1.3(d), within 10 Business Days of receipt of a Conversion Notice, and will notify the Trustee accordingly.
- (iii) In order to Convert any Notes into Shares, either:
 - (A) the Note Principal Amount of the Notes the subject of a Conversion Notice must be at least equal to \$2,000; or
 - (B) the Noteholder must Convert the entire balance of their holding of Notes.
- (iv) The issue of Shares on Conversion pursuant to this Section 4.1.3 will be and will be deemed for all purposes to be in full satisfaction and discharge of the principal amount owing to the Noteholder pursuant to the Notes the subject of the Conversion Notice. However, the Conversion will in no way affect any liability of the Company for unpaid Interest accrued up to the Conversion Date which the Company will pay to the Noteholder in accordance with Section 4.1.2.

- (v) The Company will apply for official quotation by ASX of all Shares issued upon the Conversion. Such application will be made as soon as reasonably practicable after Shares are issued.
- (vi) Within 10 Business Days of the issue of Shares to a Noteholder upon the Conversion, the Company will deliver to the Noteholder a shareholding statement in respect of the Shares issued.

(b) **Conversion Notice**

- (i) A Conversion Notice must:
 - (A) be in writing (in such form as the Company may accept, acting reasonably, or as is required by the ASX Listing Rules);
 - (B) specify the number of Notes to be Converted; and
 - (C) be signed by the Noteholder or an authorised representative or officer of the Noteholder.
- (ii) Once a Conversion Notice has been given:
 - (A) the notice cannot be withdrawn without the written consent of the Company;
 - (B) the Noteholder must not deal with, transfer, dispose of or otherwise encumber any Notes the subject of the Conversion Notice; and
 - (C) the Noteholder must provide such evidence of title to the Notes the subject of the Conversion Notice as may be reasonably required by the Company and the Registrar.

(c) **Conversion Price**

Subject to Section 4.1.3(g), the **Conversion Price** of the Notes is the lower of:

- (i) \$0.515; and
- (ii) a 15% discount to the 30-day VWAP of Shares (as traded on ASX) prior to the Conversion Date; and
- (iii) a 15% discount to the price of any equity capital raising by the Company that occurred in the 30-day period prior to the Conversion Date,

subject to a minimum Conversion Price of \$0.25 (**Minimum Price**).

(d) **Conversion Rate**

Subject to Section 4.1.3(g), the number of Shares to which a Noteholder will be entitled on Conversion of each Note will be equal to the Note Principal Amount of the Note divided by the Conversion Price.

(e) **Ranking of Shares**

Shares issued on Conversion of the Notes will:

- (i) be fully paid Shares;
- (ii) in all respects rank equally with all other fully paid Shares on issue on the relevant Conversion Date, except that they will not be entitled to any dividend or any other distribution or entitlement that has not been paid as at the Conversion Date but for which the record date was prior to the Conversion Date; and
- (iii) be free of any encumbrances and freely tradable without any on-sale restrictions under the Corporations Act.

(f) **No Fractional Shares**

No fractional Shares will be issued on Conversion of a Note. If the calculation under Section 4.1.3(d) results in an entitlement to a number of Shares which includes a fraction of a Share, the number of Shares will be rounded up to the nearest whole number of Share.

(g) **Adjustments for reorganisation of capital**

Subject to the ASX Listing Rules, if there is a reconstruction (including consolidation, subdivision, reduction or return) of the issued capital of the Company, the basis for Conversion of the Notes (being the Minimum Price) will be reconstructed in the same proportion as the issued capital of the Company is reconstructed and in a manner which will not result in any additional benefits being conferred on the Noteholders which are not conferred on the Shareholders of the Company (subject to the same provisions with respect to rounding of entitlements as sanctioned by the meeting of shareholders approving the reconstruction of capital) but in all other respects the terms for Conversion of the Notes will remain unchanged.

4.1.4 Redemption

(a) **Scheduled redemption on Maturity Date**

Subject to the Intercreditor Deed, each Note is Redeemable by the Company on the Maturity Date at its Note Principal Amount (together with any accrued Interest payable in accordance with Section 4.1.2(c)) unless:

- (i) the Note has been previously Converted;
- (ii) the Note has been previously Redeemed in accordance with Section 4.1.4(b) or 4.1.5; or
- (iii) the Note has been purchased by the Company and cancelled in accordance with Section 4.1.4(c).

(b) **Early Redemption by the Company**

- (i) Subject to Section 4.1.4(b)(iii), the Intercreditor Deed and compliance with any applicable law and the ASX Listing Rules, the Company may Redeem all (but not some) of the Notes in whole before their Maturity Date at their Note Principal Amount, together with any Interest accrued on those Notes up to (but excluding) the applicable Redemption Date, provided that the Company has given not less than 30 days' notice in writing to the Trustee, the Noteholders and ASX (and any other stock exchange or other relevant authority on which the Notes are quoted) of the intention of the Company to Redeem the Notes (**Early Redemption Notice**).
- (ii) Subject to Section 4.1.4(b)(iii), if an Early Redemption Notice is given by the Company under Section 4.1.4(b)(i), the notice will be effective (and Redemption will occur) on the Redemption Date as specified by the Company in the Early Redemption Notice (which must be not less than 30 days after the date of the Early Redemption Notice).
- (iii) If, no later than 5 Business Days prior to Redemption of the Notes taking place pursuant to an Early Redemption Notice, a Noteholder delivers a Conversion Notice for some or all of its Notes, the Conversion Notice will prevail for the Notes that are the subject of the Conversion Notice.

(c) **Purchase**

Subject to compliance with any applicable law, requirement of ASX (and any stock exchange or other relevant authority on which the Notes are quoted) or the Senior Debt Obligations:

- (i) the Company and any of its Related Bodies Corporate (or any third party nominated by the Company) may, at any time, purchase Notes in the open market or otherwise and at any price;
- (ii) if purchases are made by tender for the Notes by the Company or any of its Related Bodies Corporate, tenders must be available to all Noteholders alike; and
- (iii) Notes purchased under this Section 4.1.4(c) may be held, resold or cancelled at the discretion of the purchaser (and, if the Notes are to be cancelled, the Company).

4.1.5 Takeover, change of control, or sale of main undertaking

- (a) Other than as contemplated by these Note Terms, if:
 - (i) a takeover bid is made to acquire Shares and the offer under the takeover bid is, or becomes, unconditional and the bidder has acquired at any time a relevant interest in more than 50% of the Shares on issue;
 - (ii) a court approves a proposed scheme of arrangement which, when implemented, will result in a person having a relevant interest in more than 50% of the Shares on issue; or
 - (iii) there is a sale of the main undertaking of the Company that would require approval of the Shareholders in accordance with ASX Listing Rule 11.2,

at any time after the issue of the Notes and prior to the issue of a Conversion Notice in respect of such Notes, then:

 - (iv) the Company will give to each Noteholder written notice (**Sale Notice**) of the takeover bid, change of control or sale of main undertaking as soon as practicable and in any event not less than 20 Business Days prior to the relevant transaction occurring; and
 - (v) each Noteholder must within 10 Business Days after the Sale Notice is sent to Noteholders either:
 - (A) elect to Convert all the Notes held by that Noteholder to Shares in accordance with Section 4.1.3 by providing the Company with a Conversion Notice; or
 - (B) subject to the Intercreditor Deed, require the Company to Redeem all the Notes held by that Noteholder at their Note Principal Amount, together with any Interest accrued on those Notes by giving written notice to the Company.
- (b) If a Noteholder does not comply with Section 4.1.5(a)(v) within the time period specified in that Section, then the Company will Redeem all the Notes held by that Noteholder at their Note Principal Amount (together with any accrued Interest payable in accordance with Section 4.1.2(c)).
- (c) In the event that the Company is required to Redeem all Notes held by a Noteholder under Section 4.1.5(a)(v) or 4.1.5(b), the Notes will be Redeemed:
 - (i) in the event of a takeover bid in accordance with Section 4.1.5(a)(i), within 10 Business Days after the later of the close of the takeover offer and the date that the Company's Shareholders receive their consideration under the takeover bid;
 - (ii) in the event a court approves a proposed scheme of arrangement in accordance with Section 4.1.5(a)(ii), within 10 Business Days after the transfer of the Shares to the new Shareholder; and

- (iii) in the event of a sale of the main undertaking of the Company in accordance with Section 4.1.5(a)(iii), within 10 Business Days after completion of the transfer of the main undertaking.

4.1.6 Status, security and ranking

(a) Status

The Notes at all times constitute secured debt obligations of the Company.

(b) Security

- (i) The Notes are secured by the security interests granted by the Company and each of its wholly owned subsidiaries to the Trustee under the Transaction Security Interests.
- (ii) The Trustee holds the rights under the Transaction Security Interest on trust for the benefit of the Trustee and each Noteholder in accordance with the terms of the Trust Deed and the Transaction Security Interests.
- (iii) The Company will ensure that any wholly owned subsidiaries incorporated or acquired after the Issue Date grants a Transaction Security Interest to the Trustee over all of its assets and undertakings on substantially similar terms to the Transaction Security Interest executed by the Company (with such amendments as required by local law) within:
 - (A) in respect of any newly incorporated subsidiary, 45 days of incorporation; or
 - (B) in respect of any acquired subsidiary, 120 days of the acquisition.

(c) Ranking of Notes

- (i) Each Note ranks for payment in a Winding Up of the Company:
 - (A) after all Senior Debt Obligations and any Permitted New Debt;
 - (B) equally with each other Note;
 - (C) ahead of all present and future unsubordinated and unsecured debt obligations of the Company (subject to the laws and principles of equity affecting creditor rights or obligations preferred by mandatory provisions of applicable law); and
 - (D) ahead of all Shares.
- (ii) Without in any way limiting the Company's obligations to Redeem the Notes as set out in these Note Terms, in order to give effect to the ranking specified in Section 4.1.6(c)(i), in any Winding Up of the Company, the Noteholders agree that their claims are limited to the extent necessary to ensure that:
 - (A) all holders of Senior Debt Obligations of the Company receive payment in full before any payment is made to Noteholders; and
 - (B) Noteholders of the Notes receive payments on a pro-rata basis.
- (iii) Without in any way limiting the Company's obligations to Redeem the Notes as set out in these Note Terms, neither the Trustee nor any Noteholder has any right to prove in a Winding Up of the Company in respect of the Notes, except on the basis set out in Sections 4.1.6(c)(i) and 4.1.6(c)(ii).
- (iv) Neither the Trustee nor any Noteholder may exercise voting rights as a creditor in respect of the Notes in a Winding Up of the Company to defeat the subordination in this Section 4.1.6(c).

- (v) The ranking of Notes is not affected by the date of registration of any Noteholder in the Register.

4.1.7 Negative covenants

For so long as any of the Notes remain outstanding, the Company must not, without the approval of an Ordinary Resolution:

- (a) **(new debt)** incur any indebtedness, except:
 - (i) pursuant to the Senior Debt Obligations;
 - (ii) as expressly permitted by the Senior Debt Obligations;
 - (iii) any indebtedness incurred or guaranteed after the Issue Date for the purpose of replacing, refinancing or extending the maturity of the Notes; or
 - (iv) any Permitted New Debt,which must not exceed \$75 million in aggregate and must be on terms that are at market levels for indebtedness of this nature;
- (b) **(Security Interests)** other than in the ordinary course of business:
 - (i) create or permit to exist a Security Interest over any of its assets or attempt or agree to do so (including by entering into an indicative term sheet), except:
 - (A) Security Interests securing the Senior Debt Obligations;
 - (B) Security Interests expressly permitted by the Senior Debt Obligations;
 - (C) Security Interests securing any indebtedness incurred after the Issue Date for the purpose of replacing, refinancing or extending the maturity of the Notes; or
 - (D) Security Interests securing any Permitted New Debt; or
 - (ii) if the creation of a Security Interest cannot by law be restricted, create such a Security Interest over any of its assets without the holder of the Security Interest first entering into a deed of priority in form and substance acceptable to the Trustee;
- (c) **(dividends)** declare or pay any dividends to Shareholders unless:
 - (i) such dividends are permitted under the Senior Debt Obligations; and
 - (ii) at the time such dividends are declared, all amounts of Interest that accrued on the Notes in relation to the Cash Interest Rate only (including any amount that capitalised in accordance with Section 4.1.2(c)(v)) have been paid or otherwise discharged in accordance with Section 4.1.2(c)(vi); or
- (d) **(Capital Reduction)** unless permitted under the Senior Debt Obligations, other than in respect of the Notes, redeem, purchase, cancel, reduce, return capital on or otherwise acquire any Share or other securities issued by the Company for repayment or return of capital in a Winding Up (**Capital Reduction**):
 - (i) such Capital Reduction is permitted under the Senior Debt Obligations; and
 - (ii) at the time such Capital Reduction occurs, all amounts of Interest that accrued on the Notes in relation to the Cash Interest Rate only (including any amount that capitalised in accordance with Section 4.1.2(c)(v)) have been paid or otherwise discharged in accordance with Section 4.1.2(c)(vi).

4.1.8 Events of default

(a) Events of Default

An Event of Default occurs in relation to the Notes if:

- (i) **(insolvency)** an Insolvency Event occurs in respect of the Company;
- (ii) **(cross default):**
 - (A) any Senior Debt Obligation is not paid when due nor within any originally applicable grace period;
 - (B) ANZ or the Refinancing Financier becomes entitled to declare any Senior Debt Obligation (as applicable) due and payable prior to its specified maturity as a result of an event of default or review event (however described);
 - (C) any commitment for any Senior Debt Obligation is cancelled or suspended by ANZ or the Refinancing Financier (as applicable) as a result of an event of default or review event (however described); or
 - (D) any Senior Debt Obligation is declared to be due and payable prior to its specified maturity as a result of an event of default (however described),
and such default is not remedied within 15 Business Days;
- (iii) **(non-payment)** the Company fails to pay any amount payable by it under these Note Terms, including if the Company fails to Redeem the Notes on the Maturity Date in accordance with Section 4.1.4(a), and such default is not remedied within 15 Business Days;
- (iv) **(breach of Negative Covenants)** the Company fails to comply with Section 4.1.7 and such failure remains unremedied for a period of 15 Business Days;
- (v) **(breach of other obligations)** the Company fails to comply with any of its other material obligations under the Note Terms or the Transaction Documents and such failure remains unremedied for a period of 15 Business Days after the earlier of:
 - (A) the Company receiving written notice from the Trustee in respect of the failure to comply; and
 - (B) the Company becoming aware of the failure to comply;
- (vi) **(cessation of business)** the Company ceases or suspends (or threatens to cease or suspend) the conduct of all of its business or a substantial part of its business;
- (vii) **(unlawfulness)** at any time, it is unlawful for the Company to perform any of its payment obligations under the Notes;
- (viii) **(vitiation)** all or any rights or obligations of the Company, Noteholders or the Trustee under the Trust Deed or the Note Terms are terminated or are or become void, illegal, invalid, unenforceable or of limited force and effect; or
- (ix) **(ASX)** the Company is delisted from ASX.

(b) Notification

- (i) If an Event of Default occurs, the Company must, promptly after becoming aware of it but in any event no later than 2 Business Days after the Event of Default occurs, notify the Trustee of the occurrence of the Event of Default (specifying details of it) and use its reasonable endeavours to promptly notify the

Noteholders and, if required, ASX (and any other stock exchange or other relevant authority on which the Notes are quoted) of the occurrence of the Event of Default.

- (ii) The Trustee is taken not to have knowledge of the occurrence of an Event of Default unless the Trustee has received written notice from the Company or a Noteholder stating that an Event of Default has occurred and describing it.
- (iii) Nothing contained in the Trust Deed imposes on the Trustee an obligation to inform any Noteholder of any breach by the Company of any provision of the Trust Deed.

(c) Consequences of an Event of Default

- (i) If an Event of Default occurs and is continuing in relation to the Notes, the Trustee may:
 - (A) declare by notice to the Company (with a copy to the Noteholders and the Registrar) that all the Notes are to be Redeemed at their Note Principal Amount (together with any accrued Interest) immediately (but not earlier than 10 Business Days after the date the Trustee gives notice under this Section 4.1.8(c)(i)) or on such other date specified in that notice; or
 - (B) subject to the terms of the Intercreditor Deed, take enforcement action against the Company in relation to the Event of Default in accordance with the Transaction Documents.
- (ii) The Trustee will not be bound to take the action referred to in Section 4.1.8(c)(i) to enforce the obligations of the Company in respect of the Notes or any other proceedings or action pursuant to or in connection with the Transaction Documents unless:
 - (A) it has been so directed by a Special Resolution of the Noteholders of the relevant Notes;
 - (B) it is indemnified, to its satisfaction, against all costs, charges, liabilities and expenses which may be incurred by it (including legal costs on a solicitor and own client basis) in connection with that action;
 - (C) it is first placed in funds sufficient to cover the costs that it may incur as a result of doing so; and
 - (D) it is not restricted or prohibited from taking such action by any order of any competent court or any applicable law.

If the Trustee forms the view that such action is or could be inconsistent with these Note Terms, the Transaction Documents or the Corporations Act or any applicable law, it must take steps to seek (and, if the court so determines, to obtain) as soon as reasonably practicable a court direction or order to set aside or vary the direction given by Special Resolution, and, while those steps are underway, the Trustee is not obliged to take any action or proceedings it has been directed to take by Special Resolution.

(d) No enforcement by Noteholders

Unless the Trustee, having become obliged to take action to enforce the rights of the Noteholders under the Transaction Documents and these Note Terms, fails to do so within 20 Business Days of being obliged to do so and such failure is continuing, the rights of each Noteholder to enforce the obligations of the Company under the Notes are limited to the exercise of its rights to enforce and seek due administration by the Trustee of the Trust Deed. In particular, unless the Trustee, having become obliged to take action to enforce the rights of the Noteholders under the Transaction Documents and these Note Terms, fails to do so within 20 Business Days of being obliged to do so

and such failure is continuing, no Noteholder may, with respect to payment of any amount due under the Notes held by it:

- (i) sue the Company;
- (ii) obtain judgment against the Company; or
- (iii) apply for or seek Winding Up of the Company.

4.1.9 Registration of transfers

(a) **Title**

Title to a Note passes when details of the transfer are entered in the Register.

(b) **Effect of entries in Register**

Each entry in the Register in respect of a Note constitutes:

- (i) an unconditional and irrevocable undertaking by the Company to the Noteholder to pay principal, Interest and any other amount in accordance with these Note Terms; and
- (ii) an entitlement to the other benefits given to Noteholders under these Note Terms and the Transaction Documents in respect of the Note.

For the avoidance of doubt, an entry in the Register does not make the Noteholder a member of the Company or confer rights on a Noteholder to attend or vote at meetings of members of the Company.

(c) **Register conclusive as to ownership**

Entries in the Register in relation to a Note constitute conclusive evidence that the person so entered is the absolute owner of the Note, subject to correction for fraud or manifest error.

(d) **Non-recognition of interests**

Except as required by law, the Company, the Trustee and the Registrar must treat the person whose name is entered in the Register as the holder of a Note as the absolute owner of that Note. This Section 4.1.9(d) applies whether or not a Note is overdue and despite any notice of ownership, trust or interest in the Note.

(e) **Joint holders**

Where two or more persons are entered in the Register as the joint holders of a Note, then they are taken to hold the Note as joint tenants with rights of survivorship, but the Registrar is not bound to register more than four persons as joint holders of any Note.

(f) **Transfers in whole**

The Notes may be transferred in whole but not in part.

(g) **Transfer**

A Noteholder may, subject to this Section 4.1.9, transfer any Notes:

- (i) by a proper ASTC transfer according to the ASX Settlement Operating Rules;
- (ii) by a proper transfer under any other computerised or electronic system recognised by the Corporations Act;
- (iii) under any other method of transfer which operates in relation to the trading of securities on any securities exchange outside Australia on which the Notes are quoted; or

- (iv) by any proper or sufficient instrument of transfer of marketable securities under applicable law.

The Company must not charge any fee on the transfer of a Note.

(h) **Market obligations**

The Company must comply with all Applicable Regulations and any other relevant obligations imposed on it in relation to the transfer of a Note.

(i) **Company must request holding lock or refuse to register transfer**

- (i) The Company must request the CS Facility Operator or the Registrar, as the case may be, to apply a holding lock to prevent a transfer of Notes approved by and registered on the CS Facility's electronic sub-register or Notes registered on an issuer-sponsored sub-register, as the case may be, if the Corporations Act, the ASX Listing Rules or the terms of a Restriction Agreement require the Company to do so.
- (ii) The Company must refuse to register any transfer of Notes if the Corporations Act, the ASX Listing Rules or the terms of a Restriction Agreement require the Company to do so.
- (iii) During a breach of the ASX Listing Rules relating to Restricted Securities, or a breach of a Restriction Agreement, the Noteholder of the Restricted Securities is not entitled to any Interest (or other distribution on), or voting rights in respect of, the Restricted Securities.

(j) **Notice of holding lock and refusal to register transfer**

If, in the exercise of its rights under Section 4.1.9(i), the Company requests the application of a holding lock to prevent a transfer of Notes or refuses to register a transfer of Notes, it must, within 5 Business Days after the date the holding lock is requested or the refusal to register a transfer, give written notice of the request or refusal to the Noteholder, to the transferee and the broker lodging the transfer, if any. Failure to give such notice does not, however, invalidate the decision of the Company.

(k) **Delivery of instrument**

If an instrument is used to transfer the Notes according to Section 4.1.9(g), it must be delivered to the Registrar, together with such evidence (if any) as the Company and/or the Registrar reasonably requires to prove the title of the transferor to, or right of the transferor to transfer, the Notes.

(l) **Transferor to remain Noteholder until registration**

A transferor of a Note remains the Noteholder in respect of that Note until the transfer is registered and the name of the transferee is entered in the Register.

(m) **Effect of transfer**

Upon registration and entry of the transferee in the Register the transferor ceases to be entitled to future benefits under the Transaction Documents and the Note Terms in respect of the transferred Notes and the transferee becomes so entitled in accordance with Section 4.1.9(b).

(n) **Estates**

A person becoming entitled to a Note as a consequence of the death or bankruptcy of a Noteholder or of a vesting order or a person administering the estate of a Noteholder may, upon producing such evidence as to that entitlement or status as the Registrar considers sufficient, transfer the Note or, if so entitled, become registered as the holder of the Note.

(o) **Transfer of unidentified Notes**

Where the transferor executes a transfer of less than all the Notes registered in its name, and the specific Notes to be transferred are not identified, the Registrar may register the transfer in respect of such of the Notes registered in the name of the transferor as the Registrar thinks fit, provided the aggregate of the Note Principal Amount of all the Notes registered as having been transferred equals the aggregate of the Note Principal Amount of all the Notes expressed to be transferred in the transfer.

4.1.10 Payments

(a) **Summary of payment provisions**

Payments in respect of the Notes will be made in accordance with this Section 4.1.10.

(b) **Payments subject to law**

All payments are subject to applicable law, but without prejudice to the provisions of Section 4.1.11.

(c) **Payments on Business Days**

If a payment:

- (i) is due on a Note on a day which is not a Business Day then the due date for payment will be postponed to the first following day that is a Business Day; or
- (ii) is to be made to an account on a Business Day on which banks are not open for general banking business in the place in which the account is located, then the due date for payment will be the first following day on which banks are open for general banking business in that place,

and, in either case, the Noteholder is not entitled to any additional payment in respect of that delay.

(d) **Payments to accounts**

Moneys payable by the Company to a Noteholder may be paid in any manner the Company decides, including by direct credit into a nominated account of the Noteholder at an Australian branch of a financial institution.

(e) **Payments by cheque**

- (i) The Company may decide that payments in respect of the Notes will be made by cheque sent by prepaid post on the payment date to the Noteholder (or to the first named joint holder of the Notes) at its address appearing in the Register.
- (ii) Cheques sent to the nominated address of a Noteholder will be at the risk of the registered Noteholder and will be taken to have been received by the Noteholder on the payment date and, no further amount will be payable by the Company in respect of the Notes as a result of the Noteholder not receiving payment on the due date.

(f) **Unsuccessful attempts to pay**

Subject to applicable law and the ASX Listing Rules, where the Company:

- (i) decides that an amount is to be paid to a Noteholder by a method of direct credit and the Noteholder has not nominated an account to which amounts are to be paid by that method;
- (ii) attempts to pay an amount to a Noteholder by direct credit, electronic transfer of funds or any other means and the transfer is unsuccessful;
- (iii) has made reasonable efforts to locate a Noteholder but is unable to do so; or

- (iv) has issued a cheque which has not been presented within six months of its date and, as a consequence, the Company has cancelled such cheque,

then, in each case:

- (v) the amount will be taken to have been duly paid to the Noteholder and will not bear Interest; and
- (vi) the amount will be held by the Company for the Noteholder in a non-interest bearing deposit with a bank selected by the Company until the Noteholder (or any legal personal representative of the Noteholder) nominates an account for payment or otherwise claims the amount or the amount is paid by the Company according to the legislation relating to unclaimed moneys.

(g) **Payment to joint Noteholders**

A payment to any one of the joint Noteholders of a Note will discharge the Company's liability in respect of the payment.

4.1.11 Deductions

(a) **No set-off, counterclaim or deductions**

All payments in respect of the Notes must be made in full without set-off or counterclaim, and without any withholding or deduction for or in respect of Taxes, unless such withholding or deduction is required by law.

(b) **Withholding and other taxes**

- (i) The Company may withhold or deduct from any amount payable to a Noteholder in respect of the Notes an amount in respect of any Tax which a qualified legal or taxation advisor advises that it is required by law to withhold or deduct from that payment.
- (ii) The Company must pay the full amount required to be withheld or deducted to the relevant revenue authority within the time allowed for such payment (without incurring penalty under the applicable law) and must, if required by a Noteholder, deliver to that Noteholder a copy of the relevant receipt issued by the relevant revenue authority without unreasonable delay after it is received by the Company.
- (iii) If an amount is deducted or withheld under Section 4.1.11(b)(i) from a payment to a Noteholder in respect of any Tax, the full amount payable to the Noteholder will be deemed to have been duly paid and satisfied by the Company, and the Company will have no obligation to pay any additional amount to the Noteholder on account of the deduction or withholding.

4.1.12 Amendment of the Note Terms

(a) **Amendment without the approval of the Noteholders**

At any time, and from time to time, the Note Terms may be modified, altered, cancelled, amended or added to (**Modified**), without the consent of the Noteholders, if such modification, alteration, cancellation, amendment or addition (**Modification**) is:

- (i) of a formal or technical nature or made to cure any ambiguity or correct any manifest error;
- (ii) necessary to cure any ambiguity or correct or supplement any defective or inconsistent provision;
- (iii) necessary or expedient for the purpose of listing the Notes on ASX or to comply with the applicable ASX Listing Rules or the listing or quotation requirements of

any other any securities exchange on which the Company may propose to seek a listing of the Notes;

- (iv) necessary or expedient for the purpose of enabling the Notes to be offered for issue or for sale under the laws for the time being in force in any place;
- (v) necessary or expedient to comply with the provisions of any law or regulation or the requirements of any statutory authority; or
- (vi) necessary or advisable following the introduction of, or any amendment to, clarification of, or change (including any announced prospective change) in, any law or regulation of the Commonwealth of Australia or an announcement, action or decision or a proposal to introduce, amend, clarify or change any such law or regulation or any official administrative pronouncement or action or judicial decision interpreting or applying any such law or regulation which is likely to cause the Notes to cease to be treated as debt for tax or accounting purposes; and
- (vii) in respect of a Modification sought by a party in reliance on:

5. Key risks

5.1 Introduction

The Notes offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for the Notes offered pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this Section 5, as well as other risk factors, may have a material impact on the financial performance of the Company and the market price of the Notes.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

5.2 Risks associated with the Offers

5.2.1 Potential for significant dilution

On implementation of the Offers, assuming that all Notes offered pursuant to this Prospectus are issued, the number of Notes on issue will increase from nil currently on issue to 32 million and this has the potential to increase the number of Shares on issue from 96,662,930 to 227,300,001⁹. This means that each Share will represent a significantly lower proportion of the ownership of the Company.

It is not possible to predict how many Notes may be converted and, at that time, what the value of the Company or a Share will be following the completion of the Offers being implemented and the Directors do not make any representation as to such matter.

The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.60 is not a reliable indicator as to the potential trading price of Shares and Notes after implementation of the Offers.

5.2.2 Termination of the Underwriting Agreement

The Company has entered into the Underwriting Agreement under which the Underwriter has agreed to underwrite the Offers, subject to the terms and conditions of the Underwriting Agreement. If certain conditions are not satisfied or certain events occur, the Underwriter may terminate the Underwriting Agreement. Termination of the Underwriting Agreement may have a material adverse impact on the proceeds raised under the Offers and the Company's sources of funding for its intended purpose. Termination of the Underwriting Agreement could also materially adversely affect the Company's business, cash flow, financial condition and results. Further details of the Underwriting Agreement are set out in Section 6.2.

5.2.3 Shareholder approval not obtained

A portion of Tranche 2 of the Placement Offer is subject to Shareholder approval. If Shareholder approval is not obtained, then approximately \$4 million less will be raised under the Offers. If this occurs, the Company may need to consider alternative funding options, including an equity raising. There is also a risk that this may result in an event of default under

⁹ Assumes the conversion of all Notes at the floor price of \$0.25, that the interest payable at the First Interest Payment Date is capitalised, no Additional Interest is payable and all other Cash Interest is paid in cash.

the Senior Debt Obligations if alternative funding is not raised in any applicable remedy period agreed by the Senior Lender.

5.2.4 Time delay risk

Any delays in satisfying the Offer Conditions will delay completion of the Offers and the issue of the Notes. Delays may be caused by various factors including delays in obtaining necessary regulatory approvals and in the negotiation of the terms of the Intercreditor Deed.

5.3 Risks associated with investing in Notes

5.3.1 Notes may not be suitable for all investors

Each Eligible Shareholder and other potential investor in the Notes must determine the suitability of that investment in light of their own circumstances. A potential investor should not invest in the Notes unless it has expertise (either allow or with the help of a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Notes and the impact this investment will have on the potential investor's overall investment portfolio.

5.3.2 Interest payments

The Company expects to make interest payments using available cash balances and cash flow from its operations. There may be insufficient cash available to the Company to make interest payments on the due date. The Company intends to mitigate this risk by ensuring it has cash or liquid interests to make interest payment when due.

The payment of interest in cash may only occur if permitted by the Senior Debt Obligations and the Intercreditor Deed. The Company's ability to pay Cash Interest on the Notes in cash will be subject to the Company's ability to achieve certain financial covenant levels under the Senior Debt Obligations and to remain in compliance with its obligations under the Senior Debt Obligations immediately prior to and after making any Cash Interest payment. Because of the effect of the lockdowns on store closures, these covenants will not be met when they are calculated on the first Ratio Testing Date, being 30 September 2021 and interest will not be paid in cash for the first Interest Payment Date, being 31 December 2021, instead interest will capitalise in respect of that quarter. Whether Cash Interest will be paid for the quarter ended 31 March 2022 will depend on how quickly the stores closed as a result of government health orders re-open and the revenue and earnings of the Group recovers. Refer to Section 2.8 for further details.

5.3.3 Redemption risk

The Company expects to be able to redeem the Notes using the proceeds from future debt or equity raisings, cash flows from operations or proceeds from the sale of investments. There is a risk that the Company may be unable to procure or raise sufficient cash resources from its operations, future debt or equity raisings and may, in that case, have insufficient cash to redeem the Notes at the Maturity Date (or any earlier date as otherwise required under the Note Terms).

Further, redemption of the Notes is subject to the terms of the Intercreditor Deed. Under the Intercreditor Deed, no redemption or repayment of the Notes is likely to be permitted for a period of up to 6 months after the Senior Debt Obligations have been repaid. If the Intercreditor Deed remains in force as at the Maturity Date, there is a risk that the Company may be unable to redeem the Notes.

If the Company fails to make interest payments or redeem the Notes when due, the Trustee has certain rights under the Trust Deed and the Note Terms to take enforcement action against the Company. The rights of each Noteholder to enforce the obligations of the

Company under the Notes are limited to the exercise of its rights to enforce and seek due administration by the Trustee of the Trust Deed.

5.3.4 Interest rate risk

Interest on the Notes is at a fixed rate. No adjustment will be made to the rate of interest paid to Noteholders as other market-based interest rates rise or fall. The market price of the Notes on ASX may fluctuate due to changes in interest rates generally, credit spreads on other corporate securities or investor sentiment towards the Company.

5.3.5 Financial market conditions

The market price of the Notes will fluctuate due to various factors, including worldwide economic conditions, interest rates, credit spreads on other corporate securities, general movements in the Australian and international equity markets, movements in the market price of Shares, factors which may affect the Company's financial position and earnings and investor sentiment.

The market price of Notes may be more sensitive than that of the Shares to changes in interest rates and, therefore, the Notes could trade on ASX at a price below the Issue Price.

The Shares issued as a result of conversion of any Notes will, following conversion, rank equally with the existing Shares. Accordingly, their value after issue will depend upon the market price of the Shares (which price, compared to the Conversion Price, may rise or fall).

5.3.6 Market price of Shares and Notes

The Shares held by Noteholders following Conversion of their Notes will have the same rights as other Shares, which are different from the rights attaching to the Notes.

The trading price of the Shares will directly affect the trading price of the Notes. The market price of the Shares may be volatile. The volatility of the market price of the Shares may cause volatility in the price of the Notes and affect the ability of Noteholders to sell their Notes either at all or at an acceptable price. Additionally, this may result in greater volatility in the market price of the Notes than would be expected for non-convertible debt securities.

5.3.7 Liquidity

The Company will seek quotation of the Notes on the ASX to permit on-market trading of the Notes in Australia. However, the Notes are a new issue of securities for which there is currently no established trading market and one may never develop. Any trading market for the Notes may be less liquid than the market for Shares. Illiquidity may have an adverse effect on the value of the Notes. There can be no assurance that Noteholders will be able to buy or sell Notes on ASX at a price acceptable to them, or at all.

5.3.8 Early Redemption

Notes may be redeemed early by the Company in certain circumstances. There is a risk that the redemption amount payable may be less than the previously prevailing market value of Notes or the timing of such redemption may not accord with a Noteholder's individual financial circumstances or tax position. Additionally, in the event of an early redemption of Notes, Noteholders may not receive the returns they expected to achieve on your Notes (if held until maturity). Further, the Company may be prevented from redeeming the Notes early under the Senior Debt Obligations and the Intercreditor Deed (for so long as it remains in force).

5.3.9 No voting rights

There is a risk that Noteholders may be affected by corporate decisions made by the Company. Noteholders have no voting or other rights in relation to Shares until the Notes are

Converted and Shares are issued to them. In addition, the Notes do not confer on Noteholders any right to subscribe for new securities or to participate in any new or bonus issue of securities (without first converting their Notes). The rights attaching to Shares, if Shares are issued, will be the rights attaching to the Shares at that time. Noteholders have no right to vote on or otherwise to approve any changes to the Constitution in relation to the Shares that may be issued to them upon Conversion. Therefore, Noteholders will not be able to influence decisions that may have an adverse consequence for them.

5.3.10 Modifications

The Company may in certain circumstances amend the Note Terms and the Trust Deed without the consent of the Noteholders (refer to Section 4.1.12(a)).

5.3.11 Ranking

If the Company is wound-up, each Note will rank:

- (a) behind all Existing Senior Debt Obligations and any Permitted New Debt;
- (b) equally with each other Note;
- (c) ahead of all present and future unsubordinated and unsecured debt obligations of the Company (other than those mandatorily preferred at law); and
- (d) ahead of all Shares.

If there is a shortfall of funds on winding-up, there is a risk that Noteholders will not receive a full (or any) repayment of their money invested in the Notes or payment of unpaid interest.

5.3.12 Change in the Australian tax system

Any future changes in Australian tax law, including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect the taxation treatment of the acquisition, holding, Conversion and disposal of Notes and the market price of the Notes.

5.3.13 Enforcement risk

The Note Terms provide that rights under the Note Terms and the Trust Deed may generally only be enforced by the Trustee and not by the Noteholders directly. Noteholders must therefore notify their claims to the Trustee and rely on enforcement by the Trustee, except in certain circumstances where the Trustee has failed to take action after being directed by the Noteholders to do so.

The Trustee is not obliged to take any enforcement action unless it is indemnified and first placed in funds. The Trustee may waive any breach of the Trust Deed except for non-payment of the face value of Notes.

Noteholders may, by special resolution, amend the Note Terms in order to waive a breach of the Note Terms or for other purposes. A large Noteholder may influence the outcome of any such vote.

5.3.14 Lease security risk

In a receivership, there may be a risk that the receiver will not have a right to step in and run certain of the Company's stores where landlords have not provided their consent to the appointment of a receiver not being considered a change of control, therefore retaining a right to terminate the relevant lease. Leases with no such landlord consent do not form part of the current security granted in respect of the Senior Debt Obligations, nor the second-ranking security for the Notes. As a consequence, there may be a risk that a receiver could have materially less access to store footprint and would need to negotiate with the relevant

landlords to keep the applicable stores open for so long as the receiver would want to run them.

5.3.15 Inflation rate risk

An increase in the inflation rate may erode in real terms the value of the capital invested in the Notes.

5.3.16 Securities risk

There are risks associated with any investment in listed securities. The market price of listed securities is affected by numerous factors including hostilities, tension and acts of terrorism, general investor sentiment and the movement of prices on local and international share markets. As a consequence, securities carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities. Share markets tend to move in cycles, and individual share prices may fluctuate and underperform other asset classes over extended periods of time. Shareholders in the Company are exposed to this risk through their holding of Shares and Notes, as well as through the company's investment portfolio.

5.3.17 Tax risk

Prospective investors should be aware that any future changes in Australian tax law, including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect the taxation treatment of the acquisition, holding and disposal of the Notes and the market price of the Notes.

5.4 Company specific risks

5.4.1 COVID-19

The global impact of the COVID-19 pandemic, and the advice and responses from health and regulatory authorities, is continuously developing. The COVID-19 pandemic has had, and may continue to have, unpredictable and significant impact on capital markets and share prices and may adversely impact the Company's business and financial performance for the foreseeable future.

The Company may be impacted both by deterioration in macroeconomic conditions generally and specifically in relation to its operations. To date, the COVID-19 pandemic has affected amongst other things, economic conditions, employment markets, equity markets, regulatory policy and caused governmental action including, mandatory quarantine, self-isolations and other travel related restrictions.

Given the ongoing and dynamic nature of the COVID-19 pandemic, the measures implemented to try to control it and the resulting volatility in financial commodity and other markets, it is not possible to predict the impact that the COVID-19 pandemic and related measures taken to try to control the COVID-19 pandemic will have on the Company's business (or on the operations of the Company's customers, suppliers and other businesses upon which the Company relies), and the length of time of such impact. However, the Company's business is likely to continue to be affected by, among others, the geographic spread of the virus; changes in the severity of the disease; mutations in the COVID-19 virus; the duration of the pandemic (specifically if the Christmas 2021 trading period is impacted); the availability and effectiveness of vaccines; actions that may be taken by Australian federal and state governmental authorities and governmental authorities in the other jurisdictions outside Australia in which the Company operates in response to the pandemic, including actions to relax or further tighten existing restrictions (including in relation to stay at home orders and business closures). The COVID-19 pandemic and such responsive measures could also impact the Combined Group's ability to effectively implement its strategy, risk management framework and internal controls and procedures.

To the extent that the COVID-19 pandemic outbreak adversely affects the Company's business and financial performance, it may also have the effect of exacerbating many of the other risks identified in this Section 5.

5.4.2 Future funding requirements

The Company's ability to effectively implement its business and operational plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities and to meet any unanticipated liabilities or expenses which the Company may incur may depend in part on its ability to raise additional funds. Even if the Offers are completed successfully, the Company might require additional funding in the future in order to develop its business and to meet working capital costs in the medium to long term. Additional equity financing may be dilutive to Shareholders and debt financing, if available, may involve restrictive covenants, which may limit the Company's operations and business strategy.

Further, there can be no assurance that any such equity or debt funding will be available for the Company on favourable terms or at all. If adequate funds are not available on acceptable terms, there is significant uncertainty as to whether the Company can continue as a going concern. Accordingly, the Company's failure to raise capital if and when needed could delay or suspend the implementation of the Company's business strategy and could have a material adverse effect on the Company's activities and ability to continue as a going concern.

5.4.3 Risk of decline in foot traffic in shopping centres

The Company's growth strategy includes new store openings, particularly targeting key parts of shopping centres. Foot traffic in shopping centres fluctuates over time, and in the last 18 months has experienced volatility and a significant decline due to the impact of COVID-19. Whilst the Company has a disciplined approach to identifying, evaluating and prioritising new store locations, if a downward trend were to continue, the Company's new stores may not achieve the anticipated return on capital benchmarks and/or existing stores may generate lower revenue. Ultimately, these outcomes could result in reduced financial performance.

5.4.4 The Company may be unable to retain and secure suitable store sites

The Company's store footprint and portfolio are assessed on an ongoing basis and revised in order to optimise the financial and operational performance of the Company. While underperforming stores are typically closed or their leases are not renewed on expiry, store lease initial terms are generally 3-5 years and the rent payable under these leases can sometimes be difficult to renegotiate, despite underperformance. This may result in the Company running underperforming stores that are operating at a loss where it cannot cancel the lease or renegotiate the lease terms.

The Company's financial performance and future growth could be dependent on its ability to both retain existing store sites and secure new store sites in suitable locations and on acceptable terms. The Company's ability to achieve this may be impacted by a range of factors, including:

- (a) delays to store openings (including caused by COVID-19);
- (b) availability of new store sites;
- (c) profitability of new stores;
- (d) potential cannibalisation of existing stores by new store openings;
- (e) competition for acceptable new store sites with other retailers;
- (f) higher than budgeted operating costs; and
- (g) landlord disputes.

These factors may adversely affect the Company's future financial and operational performance.

5.4.5 Mismatch between fashion trends and consumer preferences for the Company's products

Consumer demand for the Company's products is dependent on the decisions made (and implemented) by the Company on the range, selection and quantity of its products. There is a risk that the product ranges developed and sourced by the Company do not align with consumer preferences. Whilst the Company's product range is predominately focused on everyday apparel, sustained and material mismatches in relation to evolving fashion trends and consumer preferences can adversely affect sales levels and consumer perspectives of the Company's brands and result in a loss of market share. Further, a sustained mismatch in demand between customer preferences and the stock that the Company holds may result in stock shortages leading to lost sales, or excess stock, which would increase the Company's markdown costs and operating expenses.

5.4.6 Changes in Australian and New Zealand population growth

Any medium-term or permanent reduction in Australia and New Zealand's population growth (including net immigration) or the birth rate, may adversely impact the Company's future financial and operating performance. A prolonged period of COVID-19 related disruptions to international travel (including travel restrictions, quarantine programs and other associated measures) may impact on the number of people in Australia and New Zealand at any given time and therefore overall demand for the Company's products.

5.4.7 The value of the Company's brands may diminish

The Company's brands and reputation are very important to attracting, retaining and increasing its customer base, managing its relationship with stakeholders and implementing the Company's business strategy. The Company's brands and reputation are also very important to the Company maintaining its existing relationships with manufacturers and distributors, and also retaining and attracting a skilled and engaged workforce. Maintaining the strength of the Company's brands is integral to the Company's ability to consistently appeal to its existing customers, attract new customers and generate sales growth.

As such, the ongoing success of the Company may be dependent on the business maintaining its strong reputation and protecting its brands.

The reputation and value associated with the Company's brands and its related intellectual property rights could be adversely impacted by a number of factors, including by a failure to provide customers with the quality of product and service standards they have come to expect, the existence of disputes or litigation with third parties such as employees, suppliers or customers, a failure to adequately protect the Company's intellectual property rights or by adverse media (including social media) coverage. Significant erosion in the reputation of or value associated with the Company's brands could have an adverse impact on customer loyalty, relationships with key suppliers, employee retention rates and demand for the relevant products, any of which could adversely impact the Company's market share, revenue and its future financial performance.

The Company's ability to benefit from its existing brands, innovative developments and expertise depends in part upon its ability to protect its intellectual property and any improvements to it, as well as the Company's confidential information. The Company relies on laws relating to trade secrets, copyright and trademarks in protecting its intellectual property portfolio. However, there is a risk of unauthorised use of, or access to, the Company's software, data, technology or platforms. In addition, there is a risk that the validity, ownership or authorised use of the Company's intellectual property may be successfully challenged by third parties. If the Company is required to bring or defend intellectual property enforcement proceedings as a consequence of unauthorised or improper use, the Company may be forced to incur significant costs and this may also result in the Company being unable to use the

intellectual property, either temporarily or permanently. Such disputes may also impact the Company's ability to integrate new or existing systems, which could adversely impact the Company's operations and financial performance.

5.4.8 The Company's brands and their product offerings rely on maintaining and enhancing these brands and require the avoidance of negative publicity and customer complaints

Maintaining and enhancing the Company's brands is critical to expanding the Company's customer base and suppliers. A significant portion of the customer's brand experience is dependent on third parties who supply products and other services, such as logistics, to the Company. Whilst suppliers are audited regularly and the Company has ethical sourcing and supply terms, ultimately, these third parties are outside of the Company's control.

If these third parties do not meet the expectations of the Company's customers, the Company's brands may suffer damage. If the Company fails to promote and maintain the Company's brands, or if it incurs excessive expenses in this effort, the Company's business and its operating and financial performance may be materially adversely affected. Maintaining and enhancing the Company's brands will depend largely on the Company's ability to provide quality products to its customers and facilitate a reliable, trustworthy and profitable sales channel to its suppliers, which it may not be able to do successfully.

Customer complaints or negative publicity about any of the Company's websites, products, online delivery times, customer data handling and security practices or customer support, especially on blogs, social media websites and the Company's own websites, could rapidly and severely diminish consumer use of the websites and consumer and supplier confidence in the Company and could result in harm to the Company's brands.

Given that the Company's products are manufactured by third party suppliers or sourced directly from manufacturers (most of whom are offshore and in less developed economies), the Company's brands and reputation are exposed to the public perceptions of these suppliers and manufacturers (and the Company's relationship with them). The Company's brands and reputation may be damaged if its suppliers or manufacturers engage in inappropriate behaviour, such as violating minimum employment standards or failing to meet environmental standards.

5.4.9 Product sourcing may be disrupted

The Company maintains long-standing supplier relationships with international suppliers. While the Company has a diversified supplier base, the business still relies on Chinese and other Asian suppliers. Any material adverse changes related to the impact of COVID-19, adverse economic conditions, regulatory changes (e.g. export duties) or changes in the political environment in these markets may adversely impact the Company's ability to source and sell its products reliably and without material delays. In particular, due to the economic relationship between Australia and China, the adoption of protectionist trade measures or changes in Chinese government policies could negatively impact the Company's manufacturing and supply arrangements. If this occurred, it could negatively impact the Company's business, prospects, financial performance or financial condition.

Further, whilst the Company regularly audits its suppliers and has ethical sourcing and supply terms, the Company faces a reputational risk to the extent that any foreign manufacturer or supplier from whom the Company purchases products (directly or indirectly) employs labour or engages in environmental, corruption, workplace safety or other business practices in a manner that varies from what is commonly accepted in Australia and New Zealand, the Company's reputation could be damaged by any resulting negative publicity or, in some cases, potential claims of liability.

Any such factor causing a disruption to the Company's ability to source its product may require that the Company purchases product from alternative sources, including domestically. This product may be of lesser quality or more expensive than the merchandise currently purchased

abroad. If any of these or other factors were to cause a disruption of trade from the countries in which the Company's suppliers are located, inventory levels may be reduced or the costs of merchandise may increase.

From a regulatory perspective, the operations of suppliers may also be impacted by increased regulation, including in order to address global concerns regarding global warming. Any such increased regulations could increase costs from the Company's suppliers in a number of forms, including the cost of raw materials, pollution control equipment and transportation of goods. Any of these identified risks may result in the increase of product sourcing costs for the Company or a reduction in the available range. This may adversely impact the Company's financial performance.

5.4.10 Product failure

Australia and New Zealand have product safety standards. Whilst the Company has a strong record with regard to product safety, goods sold by the Company may in the future, be defective and/or subject to product recalls which may require the Company to immediately stop selling the affected products, remove all stock from retail outlets and recall the products from the supply chain and consumers.

The risk and potential liability for the Company for product recalls will depend on the extent of the failure rate and the quantity of affected product in the market. Potential liability for the Company could extend to warranty claims, product recalls and other costs that the Company may be unable to fully recover from suppliers or third parties (including insurers). In addition, breaches of Australia or New Zealand's mandatory product safety laws by the Company could result in fines. To the extent that these events occur, they may have an adverse impact on the Company's business due to increased costs and reduced sales from not being able to sell recalled products or reputational damage.

5.4.11 Underpayment of wages and failure to comply with industry awards

The Company has a number of controls in place in an effort to ensure compliance with all employment laws, however, there is a risk underpayment of employees could occur. This could arise where employee rostering is mismanaged, employees are mischaracterised as either casual or permanent, or where payroll errors are otherwise made in relation to a high number of employees, across a national store networks.

Underpayment of employees could have significant consequences for the Company's reputation and a negative financial impact on the business. It may involve:

- (a) a significant financial liability related to correcting multiple years of accumulated errors;
- (b) a loss of trust in the Company resulting in reduced ability to attract and retain employees;
- (c) negative media which impacts the reputation of the Company and its brands; and
- (d) regulatory scrutiny, such as from the Fair Work Ombudsman.

5.4.12 Workplace accident or incident

The Company's employees and customers are at risk of workplace accidents and incidents. Should an employee or customer be injured in the course of engaging with the Company's business (either as a result of their employment or from engaging with the Company's business as a consumer), the Company may be liable for penalties or damages as a result. If the Company were required to pay monetary penalties, this may adversely affect its financial position and reputation in the market.

5.4.13 Risks associated with privacy and IT system

The Company is focused on the protection of its customers' and employees' personal information. A significant breach of customer, employee or company information could attract significant media (including social media) attention, require the Company to pay fines or engage in litigation and/or damage the Company's customer relationships, brands and reputation, each of which may also negatively affect the Company's reputation and financial performance.

The Company's store and online offerings are an essential part of the Company's business and rely on the use of certain point-of-sale and online technologies. Although the Company has designed its technology and systems with a primary focus on security and data protection, information technology systems can be susceptible to security issues and it is possible that hacking, cyberattacks or other exploitation of the Company's systems could cause loss, theft or corruption of data (including personal data of customers) held by or on behalf of the Company. This could occur through the deployment of viruses or malware designed to create system and service disruptions or to expose confidential information. Security or data breaches may result from human error, defects in technology or from third party service providers failing to comply with their obligations to the Company in respect of the protection of personal data.

The Company may not have the resources or technical sophistication to anticipate or prevent rapidly evolving types of cyberattacks. Actual or anticipated attacks could require the expansion of significant resources related to information systems and infrastructure, and could subject the Company to additional legal and financial risks, including increased investments in protection technologies, costs to deploy additional personnel, costs to train team members and engage third party experts and consultants, costs associated with implementing measures to ensure compliance with privacy laws and obligations, or expenses associated with providing customers with credit protection and potential fees and penalties from the Company's credit card processing partners, any of which could adversely affect the Company's reputation, business, results of operations and financial condition.

A security breach or failure to protect customer information (including from cyberattacks) may lead to a disruption in the availability of the Company's online offering. As a result, consumers may not be able to access the Company's online offering to purchase the Company's products, which is critical to the successful operation of the Company's business and if access is unavailable for an extended period of time, the Company may experience a significant reduction in purchases of its products and a corresponding reduction in revenues.

While the Company has a disaster recovery plan in place, a significant IT failure could adversely impact the ability of the Company's business to maintain normal operations, potentially leading to a reduction in the financial performance of the business in the short to medium term.

There is a risk that the Company may be found to be in breach of data protection laws or industry standards, which could result in penalties or fines imposed on the Company and expose it to claims by customers whose data, personal information or security has been compromised. The Company has an obligation under privacy laws (including the Privacy Act 1998 (Cth) and the Privacy Act 2020 (NZ)) to notify individuals, the Office of the Australian Information Commissioner (in Australia) and the Office of the Privacy Commissioner (in New Zealand) of certain privacy breaches.

Data protection and system security is an integral part of the design and implementation of the Company's processes, technology and systems. The Company undertakes penetration testing and engages external consultants to audit its security systems. In addition, the Company maintains insurance policies that partially mitigate against the consequences of these cybersecurity risks eventuating. However, despite these protective measures, it is possible that a security or data breach could occur. If these risks eventuate, they could have a material adverse effect on the Company's business, operating and financial performance, and/or growth and the value of the Company's securities.

5.4.14 The Company may experience technology failure or its technology may become obsolete

The success of the Company's business relies on (among other things) the technology it has developed in respect of certain business functions including its point-of-sale, online offering, inventory management and general order processing management. If there is any decrease in the effectiveness or functionality of the information technology systems which support this technology (or if these systems are not able to be further developed and become obsolete in comparison to its competitors) then this could have a significant impact on the Company's ability to continue to deliver its services and generate revenues.

There is a risk that the technology systems may experience downtime or interruption due to system failures, service outages, corruption of information technology networks or information systems as a result of computer viruses, software bugs or cyberattacks, as well as natural disasters, fire, power outages or other events outside the control of the Company. This could impact the availability of the Company's online offering and order fulfilments and result in reduced product purchasing volumes. Any systemic failure could have reputational damage and affect the Company's ability to retain existing customers and attract new customers. Any of these events could have a materially adverse impact on the Company's business, operating and financial performance and/or growth.

The Company's technology platform or product offering may also become obsolete or outdated through the investment of its peers in superior technology and/or product offerings, or general market developments. This could necessitate the Company undertaking substantial investment in updating or improving its current technology platform and product offering, which could require the Company to incur significant costs and have a material adverse impact on the Company's business, operating and financial performance and/or growth.

5.4.15 Online channel risks

The Company's customers are increasingly using computers, tablets, mobile phones and other devices to purchase products. Approximately 19% of the Company's FY21 revenue (excluding revenue attributable to Ezibuy) was generated from online sales. Maintaining and continuing to improve its online channel offering involves investment of capital and resources, integrating a number of information and management systems from different vendors, increasing supply chain and distribution capabilities, attracting, developing and retaining qualified personnel with relevant subject matter expertise, and effectively managing and improving the customer experience.

The Company's online channel operations are subject to numerous risks, including:

- (a) website operating issues, including website availability, system reliability, website operation,
- (b) internet connectivity, website errors, computer viruses, telecommunication failures, electronic break-ins or similar disruptions;
- (c) the need to keep pace with rapid technological change and maintain investments necessary;
- (d) legal compliance issues related to the online sale of products;
- (e) intellectual property litigation;
- (f) privacy and personal data security;
- (g) protection against credit card and gift card fraud;
- (h) fulfilment, inventory control and shipping issues for online channel transactions;
- (i) hiring, retention and training of personnel qualified to conduct omnichannel operations;

- (j) ability to procure adequate computer hardware and software and technology services and solutions from third party providers;
- (k) the rate of penetration and migration to the online channel by consumers, which has been accelerated as a result of COVID-19, fails to grow at the expected rate;
- (l) customer behaviour accelerates significantly beyond Management's expectations, not allowing the business to adjust capacity and capability fast enough to deal with the online demand increase resulting in possible lost sales and customers to a competitor; and
- (m) success of online channel operations may come at the cost of the success of the Company's "bricks and mortar" stores.

If the Company cannot successfully avoid, mitigate or navigate these risks then it could have a material adverse impact on the Company's business, operating and financial performance and/or growth.

5.4.16 Growth in online penetration and rate of migration to online channels

The Company's future growth strategy involves targeting growth in online sales. Across the broader retail market, growth in online sales is being driven partly by the migration of customers from a traditional offline retailing experience to online retailing platforms across a number of segments. This trend has accelerated during the period since COVID-19. There is no guarantee that the migration of customers will continue to grow in the future or will be retained despite the historical and forecast growth patterns. If the rate of penetration and migration to the online channel does not increase in line with the Company's assumptions, this may have a material adverse effect on its financial and operational performance in the future.

5.4.17 Unexpected increase in operating and other expenses that may reduce profitability

The Company's operating and other expenses could increase without a corresponding increase in revenue. A number of factors which could increase operating and other expenses include unforeseen increases in, without limitation:

- (a) freight and distribution expenses (e.g. the cost of third party delivery services);
- (b) costs associated with insurances, telecommunications and IT;
- (c) marketing, promotion and advertising expenses, including any increase in the cost of customer acquisition;
- (d) leasing costs in relation to stores, head office and distribution facilities; and
- (e) costs of products from the Company's suppliers due to input cost inflation and exchange rate pressures translating through to higher manufacturer prices which cannot be fully passed through to customers or a deterioration in the Company's relationships with its suppliers or credit limit reductions with suppliers.

The Company's profitability will be reduced if there are increases in operating and other expenses that exceed or do not correspond with increases in the Company's revenue. This may have a material adverse effect on the Company's business, financial performance and operations.

5.4.18 The Company's recent growth rates may not be sustainable or indicative of its future growth

The Company's recent growth rates may not be sustainable or indicative of future growth. The Company may be unable to attain further sales growth through its online channel or increase

its market share or leverage its relationship with its target customer to grow sales in other categories. Alternatively, the Company may be able to maintain these growth rates in sales but have to expend significantly more resources in order to maintain the growth rates, thus reducing profitability. Should revenue growth rates materially decline or operating expenses materially increase, the Company's financial and operational performance may be adversely affected.

5.4.19 The Company relies on services provided by third party payment and logistics providers

The Company relies on the services provided by third party banking and payment providers such as credit card companies. It also relies on the services of third party logistic providers to deliver ordered products to customers. The Company has limited influence over these third parties and the contracts with these providers are generally short-term in nature.

Any system or service failure that causes an interruption to the Company's ability to effect payment transactions or receive payments could adversely affect its business. A system or service failure that affects the delivery of ordered products to customers could adversely affect the customer experience and reduce the attractiveness of the Company's brand to customers and may result in cancellations or limiting future sales.

Any of these system or service failures could have an adverse impact on the reputation and brand of the Company's business which could materially adversely affect its financial performance and operations.

5.4.20 Failure to effectively manage inventory

The Company may fail to accurately forecast or manage its inventory levels. This may result in the Company incurring additional costs and/or losing revenue. If the Company purchases levels of product that it cannot sell in a timely manner, this excess stock may need to be cleared at a discount, otherwise the excess stock will become obsolete and the Company may be required to recognise inventory write-down costs. Conversely, if the Company fails to maintain adequate levels of inventory it may experience "out of stock" issues, which may result in foregone sales and damage to the Company's reputation or brands which may have an adverse effect on financial performance.

5.4.21 Climate change, severe weather, natural disasters and seasonality may adversely affect the Company

The Company has stores based in regional areas and as such has experienced impacts from weather related and other natural disasters in the past (such as regional flooding and bushfires). The increased likelihood of natural disasters and severe weather conditions such as flooding and bushfires in areas in which the Company operates or in areas where the Company sources or obtains supplies or products as a result of climate change, presents a risk to the Company's business. These adverse conditions have the potential to cause supply chain disruptions, store closures and damage to the Company's stores, warehouses or products.

Further, there is a risk that unexpectedly mild or severe weather patterns may result in fluctuations in demand for seasonal products. To the extent these fluctuations are unexpected and unaccounted for by the Company, there may be excess demand for stock resulting in "out of stock" issues or conversely an oversupply resulting in lost sales or lower margins from markdowns.

Such events may lead to an increase in operational costs or business interruption and may have a detrimental impact on the Company's financial and/or operating performance.

5.5 Industry risks

5.5.1 Retail environment and general economic conditions may worsen

The Company's operational and financial performance are sensitive to consumer sentiment. Key factors that may adversely affect demand for the Company's products include increases in interest rates, economic shocks, increased unemployment and decreases in the asset values of homes and other dwellings. Other factors that may also impact the Company's sales and earnings include government stimulus or support provided (or removed) to consumers either directly or indirectly. A sustained deterioration in economic conditions may still generally reduce consumer disposable incomes or change customer's preference or needs as to allocation of their disposable income. Any material reduction in consumer disposal income may reduce demand for the Company's products which may in turn result in lower levels of revenue or profitability for the Company.

5.5.2 Competitive environment

The Company operates in a competitive market and there is a risk that the Company may lose market share to new or existing competitors in the market. This loss in market share could be driven by a number of factors, such as competitors delivering superior products and customer experiences, increasing their store rollout, increasing advertising or product discounting or consolidating with other retailers to deliver enhanced scale benefits against which the Company is unable to compete. If the Company's competitive position were to deteriorate as a result of increased competition, the Company's customers may choose to purchase products from competitors rather than from the Company's brands and this may in turn reduce the Company's revenue and profit margins. Such a reduction in profitability and revenue may subsequently have an adverse impact on the Company's financial and operating performance.

There is also a risk that a general increase in competition may require the Company to invest in additional marketing or product development initiatives, or to lower prices paid for its products, which could decrease profitability, even where its market share remains unchanged.

A failure by the Company to offer products and services that remain competitive with new entrants and existing competitors, in a timely manner or at all, may also result in a decrease in the Company's market share, which would have an adverse impact on the Company's financial and operating performance.

5.5.3 Regulatory risk and potential for laws and regulations to change

The Company is required to comply with a range of laws and regulations in Australia, New Zealand and in the foreign jurisdictions in which it sources its products (including China). These laws and regulations include product and safety standards, fair trading and consumer protection, public health, employment, occupational health and safety, quarantine, customs and tariff and tax laws. Compliance with these laws and regulations, and the Company's ability to comply with any changes to these laws and regulations, is critical to the success of the Company's business. Any failure to comply with existing or new laws and regulations may result in a fine or penalty, loss of accreditation or brand damage, any of which could have a material and adverse effect on the Company's operations, performance and reputation.

Changes to laws and regulations in these areas may adversely impact the Company, including by increasing the Company's costs either directly (such as an increase in the amount of tax the Company is required to pay), or indirectly (including by increasing the cost to the business of adapting to and complying with changing regulatory requirements). Any such adverse effect may impact the Company's future financial performance.

In particular, the receipt of a proportion of the Company's total revenue is facilitated by the "Buy Now Pay Later" (the Company) sector (for example, the Company offers its customers options to pay by Afterpay and Zip Pay in Australia and Lay By, Afterpay and Zip Pay in New Zealand). The Company forecasts assume the continued unfettered operation of BNPL

platforms to assist the Company's customers to fund their purchases. However, the BNPL sector may be subject to increased regulation that could affect the sector's growth, functionality and customer utilisation. The Company's financial, operational performance and/or growth objectives may be adversely impacted if BNPL services were restricted in use by the Company's customers, or if the costs or ease of use were adversely altered.

5.5.4 The Company may be involved in disputes or litigation

The Company may be the subject of complaints, litigation, inquiries or audits initiated by a range of stakeholders including customers, employees, landlords, government agencies, regulators or other third parties. These disputes may be related to product warranties, product descriptions, industrial action, personal injury, health, environmental, safety or operational concerns, nuisance, negligence or failure to comply with applicable contracts, laws and regulations.

There can be no assurance that legal claims will not be made against the Company, or that the Company's insurance will be adequate to cover liabilities resulting from any such claims. Even if a claim is successfully disposed of without any direct adverse financial effects on the business, there may still be adverse effects on the Company's reputation. If the Company were to be found liable under a claim, the Company's financial position and future financial and operational performance may be adversely affected.

5.5.5 Key personnel risk

The performance of the Company is highly dependent on a number of highly skilled personnel, including the Directors, senior management and specific key management personnel, if applicable. The loss or departure of one or more key personnel and/or the inability to hire new personnel, may have a material adverse effect on the Company's performance or ability to grow.

5.5.6 Industrial relations risk

There is a risk that the industrial relations management will be unsatisfactory leading to strikes or the re-opening of award negotiations resulting in higher costs, higher employee numbers and higher redundancy costs.

5.6 General risks

5.6.1 Foreign exchange rate risk

The price of the Company's product is impacted by movements in the USD, NZD and other currencies and the exchange rate between AUD and these currencies. Movements in the exchange rate and/or these currencies may adversely or beneficially affect the Company's results or operations and cash flows.

5.6.2 Equity market conditions

Economic conditions, both domestic and global, may affect the performance of the Company. Factors such as fluctuations in currencies, commodity prices, inflation, interest rates, supply and demand and industrial disruption may have an impact on operating costs and share market prices. The Company's future possible revenues and Share price can be affected by these factors, all of which are beyond the control of the Company and its Directors.

5.6.3 Equity market conditions

Shares listed on the stock market can experience extreme price and volume fluctuations that are often unrelated to the operating performances of such companies. The market price of

Shares may fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general.

General factors that may affect the market price of Shares include economic conditions in both Australia and internationally, investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, variations in commodity prices, the global security situation and the possibility of terrorist disturbances, changes to government regulation, policy or legislation, changes which may occur to the taxation of companies as a result of changes in Australian and foreign taxation laws, changes to the system of dividend imputation in Australia, and changes in exchange rates.

5.7 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Notes offered under this Prospectus.

Therefore, the Notes to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Notes, or the Shares to be issued on conversion of any Notes.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Notes pursuant to this Prospectus.

6. Material contracts

6.1 Trust Deed

The Trust Deed governs the terms and conditions on which the Notes are to be issued and is subject to the Corporations Act and ASX Listing Rules. Schedule 1 to the Trust Deed contains the terms of issue of the Notes. The Note Terms are set out in Section 4.1.

The following is a summary of the material provisions of the proposed Trust Deed. To obtain a complete understanding of the Trust Deed, it is necessary to read it in full. A copy of the Trust Deed has been released to ASX and is available from its website (www.asx.com.au). You may request a paper copy of the Trust Deed, without charge, by contacting the Company on (02) 8577 7777 or via email on companysecretary@mosaicbrandsltd.com.au.

To the extent of any inconsistency between the Note Terms, the Trust Deed and any other transaction document, then, to the maximum extent permitted by law, the order of priority is:

- (a) the Intercreditor Deed;
- (b) the Note Terms (except that in relation to the rights and obligations of the Trustee, the Trust Deed will prevail);
- (c) the Trust Deed; and
- (d) the Transaction Security Interests.

Noteholders regarded as beneficial and legal owners

Each Noteholder is regarded as the beneficial owner and legal owner of the Notes he or she holds.

Payment on Notes

The Company must make payment of the outstanding monies (which includes interest) in respect of Notes to Noteholders directly as and when due in accordance with the terms of the Notes unless the Company, with the consent of the Trustee, or at the direction of the Trustee, pays to the Trustee the outstanding monies as and when due in accordance with the terms of the Notes.

If the Trustee receives outstanding moneys as Trustee for Noteholders it must distribute those outstanding monies to Noteholders by cheque mailed to the address of each Noteholder or electronically to the account as advised by the individual Noteholders to the Trustee.

Appointment and role of Trustee

The Trust Deed provides that the Trustee holds the sum of \$10.00 and thereafter will the Trust Fund on trust for the benefit of Noteholders, which includes:

- (e) all other property which the Trustee receives, has vested in it or otherwise acquires to hold from time to time in respect of the Trust.

Subject to the provisions of the Trust Deed, the Trustee may at any time on behalf of Noteholders take any action or proceeding against the Company in the event of a breach by the Company of the Trust Deed or the terms of the Notes.

Except as required under Part 2L of the Corporations Act, the Trustee has no obligation to enquire as to the status or business of the Company or otherwise to take any action under or in respect of the Notes.

The Company must provide a copy of the Trust Deed to a Noteholder upon request.

Covenants by the Company

The Company covenants with the Trustee that it will comply with various covenants, including:

- (a) that the Company must carry on and conduct the business of the Company in a proper and efficient manner and will procure that each of its subsidiaries (if applicable) will carry on and conduct their businesses in a proper and efficient manner;

- (e) unless permitted under the Senior Debt Obligations, other than in respect of the Notes, the Company will not redeem, purchase, cancel, reduce, return capital on or otherwise acquire any Share or other securities issued by the Company for repayment or return of capital upon appointment of a liquidator or provisional liquidator of that person (and where the appointment is made by a court, by a court of competent jurisdiction in Australia) without approval via an ordinary resolution of Noteholders; and
- (f) the Company will comply with, perform and observe all its obligations under the Transaction Documents.

Subject to the Trustee's duties under the Corporations Act, the Trustee has no obligation to monitor compliance by the Company with its covenants and obligations under the Trust Deed.

Trustee powers and duties

- (a) the Trustee:
 - (i) has all the powers that it is legally possible for a natural person or corporation to have in connection with the exercise of its powers under the Trust Deed.
 - (ii) is entitled to exercise all powers under the Transaction Security Interests (including those powers conferred on trustees generally by statute and those conferred on trustees generally by law or equity in respect of the Transaction Security Interests) as if the Trustee were the sole beneficial owner of the Transaction Security Interests; and

- (b) In addition to the powers arising under the Corporations Act, the Trustee may:

 - (iii) notification to ASIC and the Company if the Trustee is unable to act as Trustee under section 283AC of the Corporations Act; and
 - (iv) duties to comply with directions of a meeting of Noteholders called under sections 283EA, 283EB or 283EC of the Corporations Act unless:
 - (A) the Trustee is of the opinion that the direction is inconsistent with the terms of the Notes, the provisions of the Trust Deed or the Corporations Act or is otherwise objectionable; and
 - (B) has either obtained, or is in the process of obtaining, an order from the court under section 283HA of the Corporations Act setting aside or varying the direction.

If the Trustee is required at any time to:

- (a) undertake duties which relate to the enforcement of the terms of a Transaction Document upon occurrence of a default of any other party to that Transaction Document; or
- (b) undertake duties which are of an exceptional nature or otherwise outside the scope of normal duties of the Trustee,

then the Trustee is entitled to charge an additional fee calculated at its usual hourly rate and the Company must pay any such properly incurred fees so demanded.

Trustee's liability

To the maximum extent permitted by section 283DB of the Corporations Act, the Trustee's liability is limited to and can be enforced against the Trustee only to the extent to which it can be satisfied out of:

- (a) its right to enforce the Company's duty to repay the Notes;

- (f) any other property which the Trustee receives, has vested in it or otherwise acquires to hold from time to time in respect of the Trust,

together the Trust Fund, out of which the Trustee is actually indemnified for the liability.

No attorney, agent or delegate appointed in accordance with the Trust Deed has authority to act on behalf of the Trustee in any way which exposes the Trustee to any personal liability and no act or omission of any such person will be considered a breach or non-performance by the Trustee of any of its obligations under the Trust Deed or a breach of section 283DA of the Corporations Act.

The Trustee is not obliged to do or refrain from doing anything under the Trust Deed or any other Transaction Document (including incur any liability) unless the Trustee's liability is limited in the same manner as set out in the Trust Deed.

Trustee's indemnity

- (a) The Trustee, its officers, directors, employees and attorneys are entitled to be indemnified by the Company in respect of all costs, liabilities, demands or claims suffered or properly incurred by the Trustee in the execution of the Trust or the exercise or purported exercise of any of the powers, authorities or discretions vested in the Trustee under the Trust Deed and any other Transaction Documents or otherwise in connection with the Trust but this indemnity does not extend to:

The Underwriting Agreement contains certain standard representations, warranties and undertakings by the Company to the Underwriter (as well as common conditions precedent), including provision of final due diligence reports and sign-offs to the Underwriter, in a form and substance satisfactory to the Underwriter. The representations and warranties given by the Company include, but are not limited to, matters such as power and authorisations, compliance with applicable laws and the ASX listing rules, accounts, post balance date events, information contained in the Offer Documents, the conduct of the Offers and the due diligence process and encumbrances.

The Company provides undertakings under the Underwriting Agreement which include, but are not limited to, notifications of breach of any obligation, representation or warranty or undertaking and that it will not, during the period following the date of the Underwriting Agreement until 120 days after completion, issue or agree to issue any securities or other securities without the consent of the Underwriter (such consent not to be unreasonably withheld or delayed), other than as referred to in the offer document or grants or issues under an employee securities or option plan.

6.3 Sub-underwriting Agreement

7. Australian tax implications

7.1 Introduction

The following is a summary of the Australian tax consequences for certain Noteholders who subscribe for Notes under Offers and who hold Notes and Shares acquired on conversion of Notes on capital account for Australian tax purposes.

This summary is not intended to be exhaustive and it does not reflect the Australian tax consequences unique to each Noteholder's particular circumstances. Further, the summary does not address the taxation consequences of holding Notes under the laws of any jurisdiction other than the laws of Australia. You should seek advice from your own taxation adviser, financial adviser or other professional adviser before deciding to invest in the Notes.

This summary does not consider the tax consequences for Noteholders who:

- acquire the Notes otherwise than under the Entitlement Offer and the Placement Offer;
- hold their Notes and Shares acquired on Conversion of Notes on revenue account;
- carry on a business of trading in shares or securities;
- are a non-resident that has a permanent establishment in Australia for tax purposes; or
- are subject to the "taxation of financial arrangements" provisions in Division 230 of the Income Tax Assessment Act 1997 (the **1997 Act**); or
- are an "associate", "associated persons" or "related persons" (as defined for Australian income tax and stamp duty purposes) of the Company.

This summary is not intended to be, nor should it be construed as being, investment, legal or tax advice to any particular Noteholder. This summary is based on Australian tax laws and regulations, interpretations of such laws and regulations, and administrative practices as at the date of this Prospectus.

The Company, its agents, officers and advisors do not accept any liability or responsibility for any of the tax consequences related to this Prospectus or the acquisition, holding, disposal, redemption or conversion of a Note or any Share in the Company. Accordingly, each prospective Noteholder should seek their own tax advice, which is specific to their particular circumstances, as to the Australian and any applicable foreign tax consequences of investing in, holding and disposing of the Notes.

7.2 Entitlement Offer

On the basis that the Entitlements cannot be traded, transferred, assigned, or otherwise dealt with by the Shareholders (and are therefore distinguishable from the rights considered in *Commissioner of Taxation v McNeil* [2007] HCA 5), and will lapse for no value if not exercised, the value of the non-renounceable right received by a Shareholder pursuant to the Entitlement Offer should not be required to be included in the assessable income of the Shareholder as ordinary income. The receipt of the Entitlements by a Shareholder should not give rise to a capital gain or loss for capital gains tax (**CGT**) purposes.

7.3 Tax treatment of Notes

The Notes should be classified as a debt interest for the purposes of the Income Tax Assessment Act 1936 (the **1936 Act**) and Division 974 of the 1997 Act and also as "traditional securities" for the purposes of sections 26BB and 70B of the 1936 Act.

7.4 Interest payable on Notes

Australian tax residents

As the Notes should be classified as debt interests for the purposes of the 1936 Act and the 1997 Act, distributions on the Notes should not be frankable. Accordingly, Australian resident Noteholders should include the interest on the Notes in their assessable income in the year of income in which the interest is derived from them. Generally, taxpayers will derive interest income at the time of payment either in cash or in kind.

Non-Australian tax residents

In circumstances where:

- a Noteholder is a non-resident of Australia for tax purposes; and
- the Noteholder does not hold Notes through a permanent establishment in Australia,

then the interest payments received in respect of the Notes should not be included in the Australian assessable income of the Noteholder.

Normally, interest payable to non-residents would be subject to Australian withholding tax. However, it is intended that the Notes are issued in a manner which will cause the interest payable to be exempt from Australian withholding tax under section 128F of the 1936 Act.

If the exemption under section 128F does not apply and an interest payment to a non-resident Noteholder is subject to withholding tax, in accordance with 4.1.11(b) of the Note Terms, the Company has no obligation to pay an additional amount to the Noteholder to compensate for the withholding tax.

If a non-resident Noteholder does hold Notes through a permanent establishment in Australia, then interest payments will be included in the assessable income of the Noteholder for Australian taxation purposes. Interest withholding tax will not apply to interest payments paid to such a Noteholder.

7.5 Disposal of Notes prior to the Conversion or Redemption

Australian resident Noteholders

Where a Noteholder disposes of a Note prior to the Conversion or Redemption of that Note, any gain over the Issue Price should be included in the Noteholder's assessable income under Section 26BB of the 1936 Act. Noteholders will not be eligible for the CGT discount on any gains made in these circumstances.

Where a Noteholder disposes of a Note prior to the Conversion or Redemption of that Note for less than its Issue Price, the loss should ordinarily be deductible under Section 70B of the 1936 Act.

However, in certain circumstances set out in section 70B of the 1936 Act, a loss realised will not be deductible and will be treated as a capital loss for Australian taxation purposes. Whether the loss arising on Conversion or Redemption is tax deductible or is a capital loss will depend on the circumstances of the Noteholder and Noteholders that realise a loss on the disposal of their Notes should seek their own independent tax advice in this regard.

The disposal of the Notes will also constitute a taxable CGT event under the CGT provisions. To avoid double taxation, the amount of any capital gain on the disposal of a Note will be reduced to the extent the gain is included in a Noteholder's assessable income under section 26BB of the 1936 ACT, and any capital loss will be reduced by the amount of the loss deductible under section 70B of the 1936 Act.

Non-resident Noteholders

Non-resident Noteholders should not be subject to Australian tax on the disposal of the Notes provided the source of the income on the disposal of a Note is not in Australia.

Whether a gain on the disposal of Notes is from Australian sources depends on the relative importance of various factors, including, but not limited to, the place of contract to acquire and dispose of the Notes. In this regard, non-resident Noteholders should be aware that the Australian Taxation Office (ATO) has previously taken the view in a published (non-binding) interpretative decision that any gain from the sale of listed securities on the ASX through an Australian stockbroker has an Australian source on the basis that the sale contract is formed in Australia.

Notwithstanding the above, non-resident Noteholders who are resident in a country which has a double tax agreement with Australia may, subject to the terms of the relevant tax treaty, be exempt from any Australian income tax on Australian sourced gains attributable to the disposal of their Notes.

In addition, non-resident Noteholders may be subject to tax on the disposal of the Notes in their respective tax jurisdictions.

Non-resident Noteholders should obtain their own independent advice as to the Australian and foreign taxation consequences of disposing of their Notes.

7.6 Conversion Notes to Shares

Australian resident Noteholders

Where an Australian resident Noteholder elects to convert their Notes into Shares, any assessable gain made or deductible loss incurred by the Noteholder should be disregarded under section 26BB or 70B of the 1936 Act (as applicable). Similarly, no capital gain or loss should arise for CGT purposes at the time of conversion.

Non-resident Noteholders

As with Australian resident Noteholders, non-resident Noteholders should not be subject to Australian tax on the conversion of the Notes to Shares. However, non-resident Noteholders may be subject to tax on the conversion of the Notes to Shares in their respective tax jurisdictions.

7.7 Cost Base and Disposal of the Shares resulting from the Conversion of the Notes

Australian resident Noteholders

Where a Noteholder elects to Convert their Notes into Shares, the first element of the cost base and reduced cost base in the Shares for CGT purposes should be determined by apportioning the cost base or reduced cost base (as applicable) of the Notes over the Shares on a reasonable basis.

For CGT purposes, Noteholders should be deemed to have acquired the Shares at the time of conversion of the Notes.

The subsequent disposal of Shares by an Australian tax resident should give rise to a capital gain or capital loss. Broadly, a capital gain should arise if the capital proceeds from the disposal of the Shares by the Noteholder exceed the cost base of the Shares while a capital loss should arise if the capital proceeds from the disposal of the Shares are less than the reduced cost base of the Shares.

Certain taxpayers such as an individual, a complying superannuation entity or a trustee Noteholder may be entitled to a discount on the amount of the assessable capital gain (after

application of any available capital losses) arising from the disposal of the Shares if the Shares have been held for at least 12 months from the date of their acquisition for CGT purposes (the **CGT discount**). The CGT discount percentage is 50% for individuals and trusts and 33.33% for complying superannuation entities. An Australian resident corporate tax entity is not able to obtain the CGT discount.

Non-resident Noteholders

Non-resident Noteholders should broadly only be subject to Australian CGT on the disposal of Shares where they, together with "associates" hold 10% or more of the issued capital of the Company and the Shares are an "indirect Australian real property interest". The determination of whether a Share is an indirect Australian real property interest is made at the time of the relevant CGT event.

Where a non-resident is subject to Australian CGT upon disposal of a Share the consequences are broadly the same as outlined above for residents, subject to the operation of any relevant double tax agreement, with the exception that the CGT discount is not generally available to non-residents.

7.8 Redemption of Notes by the Company (at Maturity Date or earlier)

Australian resident Noteholders

Where the Company Redeems the Notes and the Redemption proceeds exceed the apportioned issue price, the Noteholder should realise an assessable gain on the Redemption. In accordance with Section 26BB of the 1936 Act, the gain should be included in the Noteholder's assessable income in the income year in which the disposal or redemption takes place.

Non-resident Noteholders

Non-resident Noteholders may be subject to tax on the redemption of the Notes in their respective tax jurisdictions. Non-resident Noteholders should obtain their own independent advice as to the taxation consequences of the redemption of their Notes.

7.9 GST

There should be no Australian GST payable in respect of the issue or receipt of the Notes on the basis that the supply of the Notes should either be an input taxed financial supply (in the case of Australian resident Noteholders) or a GST-free supply (in the case of non-resident Noteholders). Furthermore, the payment of interest, the Redemption of the Notes and the disposal of the Notes, should not give rise to any Australian GST liability.

Noteholders should seek their own independent advice as to whether any GST on costs they incur in relation to acquiring the Notes would be recoverable.

7.10 Stamp duty

Under current law, no stamp duty should be payable by Noteholders on the issue, receipt, transfer or Redemption of the Notes. Where the Notes are Converted into Shares, stamp duty may arise on the conversion. The Noteholder should obtain professional stamp duty advice prior to the Conversion of the Notes.

7.11 Tax File Numbers (TFN) and Australian Business Numbers (ABN)

The Company will be required to withhold an amount of Australian tax at the highest marginal tax rate plus Medicare Levy (currently 47%) on payments of interest under the Notes and remit the relevant amount withheld to the ATO unless the Noteholder has provided the Company with either:

- their Australian TFN;
- for investors who acquire and hold their Notes in the course of carrying on an enterprise, their ABN; or
- the relevant investor is otherwise exempt from providing this information (e.g. where an investor is a non-resident and the interest would otherwise be subject to interest withholding tax but for the exemption in section 128F of the 1936 Act described above).

If interest under the Notes is subject to TFN/ABN withholding, Australian resident Noteholders should be able to claim the amount withheld as a credit against their Australian income tax liability in their tax return.

8. Additional information

8.1 Continuous disclosure obligations

Schedule 1 – Notes Terms

Convertible Note Terms

1. FORM OF NOTES

1.1 Form

The Notes are redeemable, convertible notes of the Company issued under the Trust Deed. Noteholders are entitled to the benefit of and are bound by the provisions of the Transaction Documents and these Note Terms.

1.2 Face Value and Issue Price

- (a) The Notes are each issued fully paid with a face value of \$1.00 (**Face Value**).
- (b) Each Note will be issued by the Company at an issue price of \$1.00 (**Issue Price**). The Issue Price must be paid in full on application.

1.3 Currency

The Notes are denominated in Australian dollars.

1.4 CHESS

For such time as the Notes are quoted on ASX, the rights of a person holding an interest in the Notes are subject to the rules and regulations of the CHESS operated by ASX Settlement Pty Ltd or any other applicable securities trading and/or clearance system.

1.5 No certificates

No certificates will be issued to Noteholders unless the Company determines that certificates should be available or are required by any applicable law.

1.6 ASX quotation of Notes

The Company will seek quotation of the Notes in accordance with the ASX Listing Rules and the Corporations Act, subject to satisfaction of the minimum quotation conditions under the ASX Listing Rules. The Company must use all reasonable endeavours and furnish all such documents, information and undertakings as may be reasonably necessary in order to procure that the Notes are, and until Redeemed or Converted remain, quoted on ASX. If quotation of the Notes cannot be obtained, the Notes will remain unlisted.

1.7 No participation in the new issues

- (a) To the maximum extent permitted by the Corporations Act, the ASX Listing Rules and any other applicable laws, there will be no participation rights or entitlements inherent in the Notes and Noteholders will not be entitled to participate in new issues of capital offered to shareholders during the currency of the Notes without converting the Notes into shares.
- (b) However, if at any time the issued capital of the Company is reconstructed, all rights of a holder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

1.8 No other rights

The Notes confer no rights on a Noteholder:

- (a) to vote at any meeting of members of the Company; or
- (b) to otherwise participate in the profits or property of the Company, except as set out in these Note Terms or the Transaction Documents, or as required by law.

1.9 Entry in the Register

The Company must ensure that each Noteholder's details are entered in the Register.

2. INTEREST

2.1 Interest rate

Each Note bears interest on:

- (a) its Note Principal Amount from (and including) the Issue Date to (but excluding) its End Date at the Additional Interest Rate; and
- (b) its Notional Note Principal Amount from (and including) the Issue Date to (but excluding) its End Date at the Cash Interest Rate.

2.2 Accrual and calculation

Interest:

- (a) accrues daily and for the actual number of days elapsed; and
- (b) is calculated on the basis of a year of a 365 day year.

2.3 Payment

- (a) Subject to the balance of this section 2.3, Interest for the previous Interest Period is payable in arrears on each Interest Payment Date.
- (b) In respect of Interest payable on the First Interest Payment Date, Interest will accrue from the Issue Date until the First Interest Payment Date and will be payable in arrears on the First Interest Payment Date.
- (c) In respect of such part of the Interest that accrued on the Note Principal Amount of a Note during an Interest Period at the Additional Interest Rate (**Additional Interest Amount**), that Additional Interest Amount will be capitalised on the relevant Interest Payment Date and added as principal to the Note Principal Amount of that Note.
- (d) Subject to section 2.3(e), in respect of such part of the Interest that accrued on the Notional Note Principal Amount of a Note during an Interest Period at the Cash Interest Rate (**Cash Interest Amount**), the Cash Interest Amount will be paid by the Company in cash on the relevant Interest Payment Date.
- (e) If on any Interest Payment Date, pursuant to the terms of the Intercreditor Deed, the Company is not permitted to make payment (in whole or in part) contemplated in section 2.3(d):
 - (i) no Event of Default will occur as a result of such non-payment; and
 - (ii) any part of the Cash Interest Amount not paid will be capitalised on the relevant Interest Payment Date and added as principal to the Note Principal Amount and Notional Note Principal Amount of the relevant Note.
- (f) If any part of the Cash Interest Amount is capitalised as contemplated in section 2.3(e), the Company may, if permitted pursuant to the terms of the Intercreditor Deed, subsequently on an Interest Payment Date pay some or all of that Cash Interest Amount in cash, in which case the Notional Note Principal Amount and Note Principal Amount is reduced by an amount equal to the cash paid.

2.4 Adjustment

- (a) In respect of each Note, if on its End Date, no Event of Default set out in section 8.1(a) or section 8.1(b) is continuing, then on that End Date:

- (i) the Note Principal Amount of each Note will be deemed to be the Notional Note Principal Amount;
 - (ii) the Additional Interest Rate will be deemed to be 0.00%; and
 - (iii) the Company will not owe, and will not be required to pay, any Additional Interest Amount.
- (b) If an Event of Default set out in section 8.1(a) or section 8.1(b) occurs and is not waived or remedied within the prescribed remedy period, section 2.4(a) will not apply and the Note Principal Amount will not be adjusted.

2.5 Default interest

If an Event of Default set out in sections 8.1(c) to 8.1(i) occurs and is continuing, Interest accrues on the Note Principal Amount of each Note at a sum of the Interest Rate plus a default rate of 3.00% per annum while the relevant Event of Default continues. However, if at the same time an Event of Default in section 8.1(a) or section 8.1(b) is continuing and section 2.4(b) applies, the default rate will not be applicable.

3. CONVERSION

3.1 Conversion

- (a) Subject to sections 3.1(c) and 13, a Noteholder will be entitled to Convert all or some of the Notes held by that Noteholder by giving written notice to the Company (**Conversion Notice**):
 - (i) at any time during the Conversion Period;
 - (ii) in accordance with section 4.2(c); or
 - (iii) in accordance with section 5(a)(v)(A).
- (b) The Company will proceed to issue to the Noteholder that number of Shares as calculated in accordance with section 3.4, within 10 Business Days of receipt of a Conversion Notice, and will notify the Trustee accordingly.
- (c) In order to Convert any Notes into Shares, either:
 - (i) the Note Principal Amount of the Notes the subject of a Conversion Notice must be at least equal to \$2,000; or
 - (ii) the Noteholder must Convert the entire balance of their holding of Notes.
- (d) The issue of Shares on Conversion pursuant to this section 3 will be and will be deemed for all purposes to be in full satisfaction and discharge of the principal amount owing to the Noteholder pursuant to the Notes the subject of the Conversion Notice. However, the Conversion will in no way affect any liability of the Company for unpaid Interest accrued up to the Conversion Date which the Company will pay to the Noteholder in accordance with section 2.
- (e) The Company will apply for official quotation by ASX of all Shares issued upon the Conversion. Such application will be made as soon as reasonably practicable after Shares are issued.
- (f) Within 10 Business Days of the issue of Shares to a Noteholder upon the Conversion, the Company will deliver to the Noteholder a shareholding statement in respect of the Shares issued.

3.2 Conversion Notice

- (a) A Conversion Notice must:
 - (i) be in writing (in such form as the Company may accept, acting reasonably, or as is required by the ASX Listing Rules);
 - (ii) specify the number of Notes to be Converted; and
 - (iii) be signed by the Noteholder or an authorised representative or officer of the Noteholder.
- (b) Once a Conversion Notice has been given:
 - (i) the notice cannot be withdrawn without the written consent of the Company;
 - (ii) the Noteholder must not deal with, transfer, dispose of or otherwise encumber any Notes the subject of the Conversion Notice; and
 - (iii) the Noteholder must provide such evidence of title to the Notes the subject of the Conversion Notice as may be reasonably required by the Company and the Registrar.

3.3 Conversion Price

Subject to section 3.7, the **Conversion Price** of the Notes is the lower of:

- (a) \$0.515; and
- (b) a 15% discount to the 30-day VWAP of Shares (as traded on ASX) prior to the Conversion Date; and
- (c) a 15% discount to the price of any equity capital raising by the Company that occurred in the 30-day period prior to the Conversion Date,

subject to a minimum Conversion Price of \$0.25 (**Minimum Price**).

3.4 Conversion Rate

Subject to section 3.7, the number of Shares to which a Noteholder will be entitled on Conversion of each Note will be equal to the Note Principal Amount of the Note divided by the Conversion Price.

3.5 Ranking of Shares

Shares issued on Conversion of the Notes will:

- (a) be fully paid Shares;
- (b) in all respects rank equally with all other fully paid Shares on issue on the relevant Conversion Date, except that they will not be entitled to any dividend or any other distribution or entitlement that has not been paid as at the Conversion Date but for which the record date was prior to the Conversion Date; and
- (c) be free of any encumbrances and freely tradable without any on-sale restrictions under the Corporations Act.

3.6 No Fractional Shares

No fractional Shares will be issued on Conversion of a Note. If the calculation under section 3.4 results in an entitlement to a number of Shares which includes a fraction of a Share, the number of Shares will be rounded up to the nearest whole number of Share.

3.7 Adjustments for reorganisation of capital

Subject to the ASX Listing Rules, if there is a reconstruction (including consolidation, subdivision, reduction or return) of the issued capital of the Company, the basis for Conversion of the Notes (being the Minimum Price) will be reconstructed in the same proportion as the issued capital of the Company is reconstructed and in a manner which will not result in any additional benefits being conferred on the Noteholders which are not conferred on the Shareholders of the Company (subject to the same provisions with respect to rounding of entitlements as sanctioned by the meeting of shareholders approving the reconstruction of capital) but in all other respects the terms for Conversion of the Notes will remain unchanged.

4. REDEMPTION

4.1 Scheduled redemption on Maturity Date

Subject to the Intercreditor Deed, each Note is Redeemable by the Company on the Maturity Date at its Note Principal Amount (together with any accrued Interest payable in accordance with section 2.3) unless:

- (a) the Note has been previously Converted;
- (b) the Note has been previously Redeemed in accordance with section 4.2 or 5; or
- (c) the Note has been purchased by the Company and cancelled in accordance with section 4.3.

4.2 Early Redemption by the Company

- (a) Subject to section 4.2(c), the Intercreditor Deed and compliance with any applicable law and the ASX Listing Rules, the Company may Redeem all (but not some) of the Notes in whole before their Maturity Date at their Note Principal Amount, together with any Interest accrued on those Notes up to (but excluding) the applicable Redemption Date, provided that the Company has given not less than 30 days' notice in writing to the Trustee, the Noteholders and ASX (and any other stock exchange or other relevant authority on which the Notes are quoted) of the intention of the Company to Redeem the Notes (**Early Redemption Notice**).
- (b) Subject to section 4.2(c), if an Early Redemption Notice is given by the Company under section 4.2(a), the notice will be effective (and Redemption will occur) on the Redemption Date as specified by the Company in the Early Redemption Notice (which must be not less than 30 days after the date of the Early Redemption Notice).
- (c) If, no later than 5 Business Days prior to Redemption of the Notes taking place pursuant to an Early Redemption Notice, a Noteholder delivers a Conversion Notice for some or all of its Notes, the Conversion Notice will prevail for the Notes that are the subject of the Conversion Notice.

4.3 Purchase

Subject to compliance with any applicable law, requirement of ASX (and any stock exchange or other relevant authority on which the Notes are quoted) or the Senior Debt Obligations:

- (a) the Company and any of its Related Bodies Corporate (or any third party nominated by the Company) may, at any time, purchase Notes in the open market or otherwise and at any price;
- (b) if purchases are made by tender for the Notes by the Company or any of its Related Bodies Corporate, tenders must be available to all Noteholders alike; and
- (c) Notes purchased under this section 4.3 may be held, resold or cancelled at the discretion of the purchaser (and, if the Notes are to be cancelled, the Company).

5. TAKEOVER, CHANGE IN CONTROL, OR SALE OF MAIN UNDERTAKING

- (a) Other than as contemplated by these Note Terms, if:
- (i) a takeover bid is made to acquire Shares and the offer under the takeover bid is, or becomes, unconditional and the bidder has acquired at any time a relevant interest in more than 50% of the Shares on issue;
 - (ii) a court approves a proposed scheme of arrangement which, when implemented, will result in a person having a relevant interest in more than 50% of the Shares on issue; or
 - (iii) there is a sale of the main undertaking of the Company that would require approval of the Shareholders in accordance with ASX Listing Rule 11.2,
- at any time after the issue of the Notes and prior to the issue of a Conversion Notice in respect of such Notes, then:
- (iv) the Company will give to each Noteholder written notice (**Sale Notice**) of the takeover bid, change of control or sale of main undertaking as soon as practicable and in any event not less than 20 Business Days prior to the relevant transaction occurring; and
 - (v) each Noteholder must within 10 Business Days after the Sale Notice is sent to Noteholders either:
 - (A) elect to Convert all the Notes held by that Noteholder to Shares in accordance with section 3 by providing the Company with a Conversion Notice; or
 - (B) subject to the Intercreditor Deed, require the Company to Redeem all the Notes held by that Noteholder at their Note Principal Amount, together with any Interest accrued on those Notes by giving written notice to the Company.
- (b) If a Noteholder does not comply with section 5(a)(v) within the time period specified in that section, then the Company will Redeem all the Notes held by that Noteholder at their Note Principal Amount (together with any accrued Interest payable in accordance with section 2.3).
- (c) In the event that the Company is required to Redeem all Notes held by a Noteholder under section 5(a)(v) or 5(b), the Notes will be Redeemed:
- (i) in the event of a takeover bid in accordance with section 5(a)(i), within 10 Business Days after the later of the close of the takeover offer and the date that the Company's Shareholders receive their consideration under the takeover bid;
 - (ii) in the event a court approves a proposed scheme of arrangement in accordance with section 5(a)(ii), within 10 Business Days after the transfer of the Shares to the new Shareholder; and
 - (iii) in the event of a sale of the main undertaking of the Company in accordance with section 5(a)(iii), within 10 Business Days after completion of the transfer of the main undertaking.

6. STATUS, SECURITY AND RANKING

6.1 Status

The Notes at all times constitute secured debt obligations of the Company.

6.2 Security

- (a) The Notes are secured by the security interests granted by the Company and each of its wholly owned subsidiaries to the Trustee under the Transaction Security Interests.
- (b) The Trustee holds the rights under the Transaction Security Interest on trust for the benefit of the Trustee and each Noteholder in accordance with the terms of the Trust Deed and the Transaction Security Interests.
- (c) The Company will ensure that any wholly owned subsidiaries incorporated or acquired after the Issue Date grants a Transaction Security Interest to the Trustee over all of its assets and undertakings on substantially similar terms to the Transaction Security Interest executed by the Company (with such amendments as required by local law) within:
 - (i) in respect of any newly incorporated subsidiary, 45 days of incorporation; or
 - (ii) in respect of any acquired subsidiary, 120 days of the acquisition.

6.3 Ranking of Notes

- (a) Each Note ranks for payment in a Winding Up of the Company:
 - (i) after all Senior Debt Obligations and any Permitted New Debt;
 - (ii) equally with each other Note;
 - (iii) ahead of all present and future unsubordinated and unsecured debt obligations of the Company (subject to the laws and principles of equity affecting creditor rights or obligations preferred by mandatory provisions of applicable law); and
 - (iv) ahead of all Shares.
- (b) Without in any way limiting the Company's obligations to Redeem the Notes as set out in these Note Terms, in order to give effect to the ranking specified in section 6.3(a), in any Winding Up of the Company, the Noteholders agree that their claims are limited to the extent necessary to ensure that:
 - (i) all holders of Senior Debt Obligations of the Company receive payment in full before any payment is made to Noteholders; and
 - (ii) Noteholders of the Notes receive payments on a pro-rata basis.
- (c) Without in any way limiting the Company's obligations to Redeem the Notes as set out in these Note Terms, neither the Trustee nor any Noteholder has any right to prove in a Winding Up of the Company in respect of the Notes, except on the basis set out in sections 6.3(a) and 6.3(b).
- (d) Neither the Trustee nor any Noteholder may exercise voting rights as a creditor in respect of the Notes in a Winding Up of the Company to defeat the subordination in this section 6.3.
- (e) The ranking of Notes is not affected by the date of registration of any Noteholder in the Register.

7. NEGATIVE COVENANTS

For so long as any of the Notes remain outstanding, the Company must not, without the approval of an Ordinary Resolution:

- (a) **(new debt)** incur any indebtedness, except:
 - (i) pursuant to the Senior Debt Obligations;
 - (ii) as expressly permitted by the Senior Debt Obligations;

- (iii) any indebtedness incurred or guaranteed after the Issue Date for the purpose of replacing, refinancing or extending the maturity of the Notes; or
 - (iv) any Permitted New Debt,

which must not exceed \$75 million in aggregate and must be on terms that are at market levels for indebtedness of this nature;
- (b) **(Security Interests)** other than in the ordinary course of business:
 - (i) create or permit to exist a Security Interest over any of its assets or attempt or agree to do so (including by entering into an indicative term sheet), except:
 - (A) Security Interests securing the Senior Debt Obligations;
 - (B) Security Interests expressly permitted by the Senior Debt Obligations;
 - (C) Security Interests securing any indebtedness incurred after the Issue Date for the purpose of replacing, refinancing or extending the maturity of the Notes; or
 - (D) Security Interests securing any Permitted New Debt; or
 - (ii) if the creation of a Security Interest cannot by law be restricted, create such a Security Interest over any of its assets without the holder of the Security Interest first entering into a deed of priority in form and substance acceptable to the Trustee;
- (c) **(dividends)** declare or pay any dividends to Shareholders unless:
 - (i) such dividends are permitted under the Senior Debt Obligations; and
 - (ii) at the time such dividends are declared, all amounts of Interest that accrued on the Notes in relation to the Cash Interest Rate only (including any amount that capitalised in accordance with section 2.3(e)) have been paid or otherwise discharged in accordance with section 2.3(f); or
- (d) **(Capital Reduction)** unless permitted under the Senior Debt Obligations, other than in respect of the Notes, redeem, purchase, cancel, reduce, return capital on or otherwise acquire any Share or other securities issued by the Company for repayment or return of capital in a Winding Up **(Capital Reduction)**:
 - (i) such Capital Reduction is permitted under the Senior Debt Obligations; and
 - (ii) at the time such Capital Reduction occurs, all amounts of Interest that accrued on the Notes in relation to the Cash Interest Rate only (including any amount that capitalised in accordance with section 2.3(e)) have been paid or otherwise discharged in accordance with section 2.3(f).

8. EVENTS OF DEFAULT

8.1 Events of Default

An Event of Default occurs in relation to the Notes if:

- (a) **(insolvency)** an Insolvency Event occurs in respect of the Company;
- (b) **(cross default)**:
 - (i) any Senior Debt Obligation is not paid when due nor within any originally applicable grace period;
 - (ii) ANZ or the Refinancing Financier becomes entitled to declare any Senior Debt Obligation (as applicable) due and payable prior to its specified maturity as a result of an event of default or review event (however described);

- (iii) any commitment for any Senior Debt Obligation is cancelled or suspended by ANZ or the Refinancing Financier (as applicable) as a result of an event of default or review event (however described); or
- (iv) any Senior Debt Obligation is declared to be due and payable prior to its specified maturity as a result of an event of default (however described),

and such default is not remedied within 15 Business Days;

- (c) **(non-payment)** the Company fails to pay any amount payable by it under these Note Terms, including if the Company fails to Redeem the Notes on the Maturity Date in accordance with section 4.1, and such default is not remedied within 15 Business Days;
- (d) **(breach of Negative Covenants)** the Company fails to comply with section 7 and such failure remains unremedied for a period of 15 Business Days;
- (e) **(breach of other obligations)** the Company fails to comply with any of its other material obligations under the Note Terms or the Transaction Documents and such failure remains unremedied for a period of 15 Business Days after the earlier of:
 - (i) the Company receiving written notice from the Trustee in respect of the failure to comply; and
 - (ii) the Company becoming aware of the failure to comply;
- (f) **(cessation of business)** the Company ceases or suspends (or threatens to cease or suspend) the conduct of all of its business or a substantial part of its business;
- (g) **(unlawfulness)** at any time, it is unlawful for the Company to perform any of its payment obligations under the Notes;
- (h) **(vitiation)** all or any rights or obligations of the Company, Noteholders or the Trustee under the Trust Deed or the Note Terms are terminated or are or become void, illegal, invalid, unenforceable or of limited force and effect; or
- (i) **(ASX)** the Company is delisted from ASX.

8.2 Notification

- (a) If an Event of Default occurs, the Company must, promptly after becoming aware of it but in any event no later than 2 Business Days after the Event of Default occurs, notify the Trustee of the occurrence of the Event of Default (specifying details of it) and use its reasonable endeavours to promptly notify the Noteholders and, if required, ASX (and any other stock exchange or other relevant authority on which the Notes are quoted) of the occurrence of the Event of Default.
- (b) The Trustee is taken not to have knowledge of the occurrence of an Event of Default unless the Trustee has received written notice from the Company or a Noteholder stating that an Event of Default has occurred and describing it.
- (c) Nothing contained in the Trust Deed imposes on the Trustee an obligation to inform any Noteholder of any breach by the Company of any provision of the Trust Deed.

8.3 Consequences of an Event of Default

- (a) If an Event of Default occurs and is continuing in relation to the Notes, the Trustee may:
 - (i) declare by notice to the Company (with a copy to the Noteholders and the Registrar) that all the Notes are to be Redeemed at their Note Principal Amount (together with any accrued Interest) immediately (but not earlier than 10 Business Days after the date the Trustee gives notice under this section 8.3(a)) or on such other date specified in that notice; or

- (ii) subject to the terms of the Intercreditor Deed, take enforcement action against the Company in relation to the Event of Default in accordance with the Transaction Documents.
- (b) The Trustee will not be bound to take the action referred to in section 8.3(a) to enforce the obligations of the Company in respect of the Notes or any other proceedings or action pursuant to or in connection with the Transaction Documents unless:
 - (i) it has been so directed by a Special Resolution of the Noteholders of the relevant Notes;
 - (ii) it is indemnified, to its satisfaction, against all costs, charges, liabilities and expenses which may be incurred by it (including legal costs on a solicitor and own client basis) in connection with that action;
 - (iii) it is first placed in funds sufficient to cover the costs that it may incur as a result of doing so; and
 - (iv) it is not restricted or prohibited from taking such action by any order of any competent court or any applicable law.

If the Trustee forms the view that such action is or could be inconsistent with these Note Terms, the Transaction Documents or the Corporations Act or any applicable law, it must take steps to seek (and, if the court so determines, to obtain) as soon as reasonably practicable a court direction or order to set aside or vary the direction given by Special Resolution, and, while those steps are underway, the Trustee is not obliged to take any action or proceedings it has been directed to take by Special Resolution.

8.4 No enforcement by Noteholders

Unless the Trustee, having become obliged to take action to enforce the rights of the Noteholders under the Transaction Documents and these Note Terms, fails to do so within 20 Business Days of being obliged to do so and such failure is continuing, the rights of each Noteholder to enforce the obligations of the Company under the Notes are limited to the exercise of its rights to enforce and seek due administration by the Trustee of the Trust Deed. In particular, unless the Trustee, having become obliged to take action to enforce the rights of the Noteholders under the Transaction Documents and these Note Terms, fails to do so within 20 Business Days of being obliged to do so and such failure is continuing, no Noteholder may, with respect to payment of any amount due under the Notes held by it:

- (a) sue the Company;
- (b) obtain judgment against the Company; or
- (c) apply for or seek Winding Up of the Company.

9. REGISTRATION OF TRANSFERS

9.1 Title

Title to a Note passes when details of the transfer are entered in the Register.

9.2 Effect of entries in Register

Each entry in the Register in respect of a Note constitutes:

- (a) an unconditional and irrevocable undertaking by the Company to the Noteholder to pay principal, Interest and any other amount in accordance with these Note Terms; and
- (b) an entitlement to the other benefits given to Noteholders under these Note Terms and the Transaction Documents in respect of the Note.

For the avoidance of doubt, an entry in the Register does not make the Noteholder a member of the Company or confer rights on a Noteholder to attend or vote at meetings of members of the Company.

9.3 Register conclusive as to ownership

Entries in the Register in relation to a Note constitute conclusive evidence that the person so entered is the absolute owner of the Note, subject to correction for fraud or manifest error.

9.4 Non-recognition of interests

Except as required by law, the Company, the Trustee and the Registrar must treat the person whose name is entered in the Register as the holder of a Note as the absolute owner of that Note. This section 9.4 applies whether or not a Note is overdue and despite any notice of ownership, trust or interest in the Note.

9.5 Joint holders

Where two or more persons are entered in the Register as the joint holders of a Note, then they are taken to hold the Note as joint tenants with rights of survivorship, but the Registrar is not bound to register more than four persons as joint holders of any Note.

9.6 Transfers in whole

The Notes may be transferred in whole but not in part.

9.7 Transfer

A Noteholder may, subject to this section 9, transfer any Notes:

- (a) by a proper ASTC transfer according to the ASX Settlement Operating Rules;
- (b) by a proper transfer under any other computerised or electronic system recognised by the Corporations Act;
- (c) under any other method of transfer which operates in relation to the trading of securities on any securities exchange outside Australia on which the Notes are quoted; or
- (d) by any proper or sufficient instrument of transfer of marketable securities under applicable law.

The Company must not charge any fee on the transfer of a Note.

9.8 Market obligations

The Company must comply with all Applicable Regulations and any other relevant obligations imposed on it in relation to the transfer of a Note.

9.9 Company must request holding lock or refuse to register transfer

- (a) The Company must request the CS Facility Operator or the Registrar, as the case may be, to apply a holding lock to prevent a transfer of Notes approved by and registered on the CS Facility's electronic sub-register or Notes registered on an issuer-sponsored sub-register, as the case may be, if the Corporations Act, the ASX Listing Rules or the terms of a Restriction Agreement require the Company to do so.
- (b) The Company must refuse to register any transfer of Notes if the Corporations Act, the ASX Listing Rules or the terms of a Restriction Agreement require the Company to do so.
- (c) During a breach of the ASX Listing Rules relating to Restricted Securities, or a breach of a Restriction Agreement, the Noteholder of the Restricted Securities is not entitled to any Interest (or other distribution on), or voting rights in respect of, the Restricted Securities.

9.10 Notice of holding lock and refusal to register transfer

If, in the exercise of its rights under section 9.9, the Company requests the application of a holding lock to prevent a transfer of Notes or refuses to register a transfer of Notes, it must,

within 5 Business Days after the date the holding lock is requested or the refusal to register a transfer, give written notice of the request or refusal to the Noteholder, to the transferee and the broker lodging the transfer, if any. Failure to give such notice does not, however, invalidate the decision of the Company.

9.11 Delivery of instrument

If an instrument is used to transfer the Notes according to section 9.7, it must be delivered to the Registrar, together with such evidence (if any) as the Company and/or the Registrar reasonably requires to prove the title of the transferor to, or right of the transferor to transfer, the Notes.

9.12 Transferor to remain Noteholder until registration

A transferor of a Note remains the Noteholder in respect of that Note until the transfer is registered and the name of the transferee is entered in the Register.

9.13 Effect of transfer

Upon registration and entry of the transferee in the Register the transferor ceases to be entitled to future benefits under the Transaction Documents and the Note Terms in respect of the transferred Notes and the transferee becomes so entitled in accordance with section 9.2.

9.14 Estates

A person becoming entitled to a Note as a consequence of the death or bankruptcy of a Noteholder or of a vesting order or a person administering the estate of a Noteholder may, upon producing such evidence as to that entitlement or status as the Registrar considers sufficient, transfer the Note or, if so entitled, become registered as the holder of the Note.
