## **ANTILLES GOLD POSTS REVISED WEBSITE**

Antilles Gold Limited (ASX Code: AAU, OTCQB: ANTMF) (the "Company" or "Antilles Gold") advises that it has posted a revised website (<a href="www.antillesgold.net">www.antillesgold.net</a>) to better reflect the pipeline of potential gold, and copper/gold, development projects now available to its joint venture in Cuba with the Government's mining company, GeoMinera.

## **ABOUT ANTILLES GOLD LIMITED:**

Antilles Gold is focussed on organic growth through the successive development of a number of gold and copper/gold projects in mineral rich Cuba, and on realising the value of assets it holds in the Dominican Republic.

The Company is at the forefront of the emerging gold mining sector in Cuba and intends to participate in the development of a series of gold and copper/gold projects in a 49:51 joint venture with Cuban Government mining company, GeoMinera SA.

The near term projects of the joint venture company, Minera La Victoria SA, are the proposed development in 2023 of the La Demajagua gold/silver mine on the Isle of Youth in south west Cuba to produce high grade gold concentrate, and the potential development of multiple pits and a centralised concentrator based on the previously explored Florencia and Maclama sulphide gold deposits near Guáimaro in south east Cuba.

Minera La Victoria has a pipeline of potential development projects in addition to these two, including a very large VMS copper/gold deposit at Golden Hills near Florencia, and a large number of copper/gold deposits that are currently being reviewed for prospectivity by Antilles Gold.
