· Strongest quarterly sales

CEO Update

"FY22 has started extremely well. Our Q1 results are the best we've delivered since the launch of Design Milk.

Our Team spent the past 6 months refining and upgrading every element of our operations, systems and procedures. Their creative effort and desire to deliver high quality content and customer experience has lifted us to this point. My continued thanks to them for their hard work.

In September we completed several new platform updates to better coordinate the different business functions. This included a new transaction-management platform, a customer facing delivery-tracking service, and several data analysis tools.

Today our strong growth + performance is delivered via our existing marketing channels and content. This month we will refresh the Design Milk website, upgrade our product search and navigation functionality, launch a new influencer partnership, and rollout new shop-friendly video content. All of which delivers additional growth to the business.

CEO Update cont'd

Our sales continue to grow and develop in a healthy, sustainable way as we carefully add new products and introduce our Advertising and Media services and growing 9.5 million audience to new industries and clients.

This year we have focused on improving the customer experience, more intuitively linking Content + Commerce, removing any friction to purchase, improving Search and other functionality, and generally trying to help our community seamlessly explore our platform and content.

I am really pleased with the result of our team's hard work. Our websites, content, product curation and marketing have never looked better. We have significantly improved our operations and coordination and have a clear vision of our potential. I am more confident than ever that we are on the right path to success.

Thank you for your support and interest in what we're building."
