

Turners delivers 24% increase in HY22 earnings, despite COVID-19 disruption

Key Financial Metrics:

- Revenue \$166.8m +13%
- Normalised NPBT \$24.5m +55%
- NPBT \$23.2m +24%
- NPAT \$16.9m +26%
- Earnings per share 19.6 cps +25%
- Q2 dividend declared at 5.0 cps +25%

Highlights

- Used car market remains resilient, proven by better than expected consumer demand during L3 lockdowns.
- Continued gains in margin and market share during Q1 led to another step up in profit performance from April to July, followed by disrupted Q2 due to COVID-19 lockdowns.
- Benefitted again in most recent lockdown from geographic and earnings diversification.
- Despite COVID-19 lockdowns we have continued to invest and develop our competitive moat, which is positioning us for an even stronger performance post lockdown.
- Expect net profit before tax for FY22 to be in the range of \$40m \$42m (assuming current L3/L2 restrictions ease over the coming months).
- Based on the current dividend payout policy of 60-70% of NPAT we anticipate full year fully imputed dividends of 22 cents per share based on full year profit before tax of \$40m.
- Our conviction levels are very high to exceed our target for \$45m of NPBT in FY24 and we will revisit our FY24 target at year end.

Turners Automotive Group (NZX/ASX: TRA) delivered strong earnings growth in HY22 despite COVID-19 lockdowns disrupting the second quarter, with the results demonstrating the improvement that has been made in the business over the last few years. The Group's geographic and earnings diversification have underpinned a 24% increase in NPBT and contributed to a strong and sustainable yield.

Todd Hunter, CEO, said: "The start to our FY22 year could not have been any better. Our plans were well executed by the team and we experienced significant uplift in results up until August with record months for operating profit. We had serious momentum, which was obviously curtailed with the COVID-19 lockdowns. However, we have seen results steadily improve from the second half of August through to October and this gives us confidence that with further easing of restrictions we will see our business perform similar to pre-lockdowns. Despite these current disruptions, our conviction levels are very high to exceed our target of \$45m of NPBT in FY24."

Financial results

Reported NPBT, which is the basis for Turners' full year guidance, increased 24% to \$23.2m with net profit after tax (NPAT) of \$16.9m, up 26% on the same period last year. Normalised NPBT was up 55% to \$24.5m (refer to reconciliation of reported and normalised numbers on slide 13 of the investor presentation, also published today).

Earnings per share for HY22 were 19.6 cps, up 25% on the previous year. The Board declared a Q1 dividend of 5.0 cps in October and a further 5.0 cps has been declared for Q2, taking HY22 dividends to

10.0 cps. This reflects the dividend policy to pay-out 60-70% of net profit after tax (NPAT) and represents a 25% uplift on the same time last year.

Grant Baker, Chairman, commented: "We are really pleased with the first half results and that we continue to demonstrate our ability to deliver strong and sustainable improvements. Our strategy is working, we are growing our profits, delivering improved dividends to shareholders and growing a property portfolio at the same time. It is interesting to look around the world and see investors sitting up and taking notice of businesses that are operating in the used car market. It has reaffirmed what a great business Turners Automotive Group is and how undervalued it is.

Yet again, our geographic diversification and earnings diversification has come to the fore. We have stuck to our investment plans and I feel strongly that our competitive advantage is only increasing, which gives us real confidence about our ability to keep growing in the future. Obviously, market conditions remain somewhat uncertain, but as restrictions continue to ease we expect our business to perform better than before. Our team have done another great job of navigating our way through this latest set of challenges."

Divisional results

Refer to Appendix.

Disruption extends Turners' competitive advantages

Our commitment and multi-year investment into expanding our digital strategy continues to both build our competitive advantage and deliver results for our bottom line, both in normal and extraordinary operating conditions. Meanwhile, we see that the disruption caused by COVID-19 lockdowns is putting significant pressure on fringe and sub-scale operators in all markets we operate in:

- Our **Auto Retail** strategy of sourcing well, building quality digital and physical networks to deliver great customer outcomes is working very well. Our continued investment in both digital and physical assets is widening our competitive moat further.
- In **Finance** our focus on quality lending, and a quality experience for our loan introducers is our recipe for further growth. We are well prepared for the upcoming changes in consumer lending regulation and what will be a changing interest rate environment.
- In **Insurance** we continue taking a disciplined approach to claims management process and associated costs and ensuring policy pricing is regularly reviewed. System level integration remain a critical part of the distribution and market share growth strategy.
- In Credit Management we know the debt load is going to build further. We are ensuring our
 processes are scalable and the focus on repositioning the business and our processes to be
 more customer focused in our collection practices (resolution not consequences).

Even through the lockdown period we have continued to develop and widen our competitive moat. This positions us for an even stronger acceleration of performance over the coming years in the post COVID-19 environment.

Outlook and Guidance

October trading: We saw another step change in FY22 results from April through to July. Our momentum naturally stopped in mid-August due to the nationwide lockdown, and the extended regional lockdowns in Auckland, Waikato and Northland. We did expect trading results to improve over coming months inline with the easing of restrictions and pleasingly October has already shown strong signs of early recovery. A similar trend has continued into November. October tracked ahead of October 2020, a period where Auckland was in Level 2 for only 7 days before joining the rest of NZ at Level 1:

- o Auto retail: October vehicle unit sales ahead of Oct-20
- o Finance: new lending materially ahead of Oct-20 levels and arrears at historic lows
- Insurance: new policy sales ahead of Oct-20 levels and claims below expectations.
- o Credit: Debt load recovering but collections actions still impacted in lockdown regions

FY22 guidance \$40m - \$42m: Based on the particularly strong Q1, stronger trading following the L4 lockdown, and assuming L3/L2 restrictions ease over coming months, we expect FY22 NPBT to be between \$40m and \$42m. On that basis and with our dividend payout policy of 60-70% of NPAT we anticipate full year fully imputed dividends of a minimum of 22 cents per share.

High conviction on FY24 target: We continue to develop our competitive moat through this time, which is positioning us for an even stronger performance in FY23 and FY24. Our conviction levels for exceeding our medium-term term target for FY24 of \$45m NPBT target are very high and we will revisit our FY24 target at year end.

ENDS

About Turners

Turners Automotive Group Limited is an integrated financial services group, primarily operating in the automotive sector www.turnersautogroup.co.nz

For further information, please contact:

Todd Hunter, Chief Executive Officer, Turners Automotive Group Limited, Mob: 021 722 818

Appendix: Divisional results

Auto Retail: Revenue \$115.1m +20%, Segment Profit \$10.2m +32%

- Revenue grew by 20% to \$115.1m, reflecting the lift in market share and margins in Q1. Our continued focus on "sourcing smarter" has been working well as has the "Tina" brand campaign to help build both buyers and sellers. Investment in additional training and support resource in the finance and insurance space has delivered a significant improvement in our finance conversion rates which have improved to 36% in H1 FY22 cf 29% in H1 FY21.
- Late in Q2 we secured a large supply contract of approximately 3,500 additional units pa with Fleet Partners NZ who have chosen to close down their "AutoSelect" retail yards and transitioned this supply to Turners Cars. This is a material lift in additional consignment units for the Auto Retail division.
- The Auto Retail Division continues to benefit from a diverse geographic footprint, which has been demonstrated during the recent regional Level 3 lockdowns. With a solid plan of new branches coming on stream we expect to see further market share gains over the next 2-3 years.

Finance: Revenue \$25.2m +9%, Segment Profit \$9.9m +30%

- Finance had another outstanding 6 months with loan book growth of 24% over the 12 months to Sept 30 2021. Revenue for HY22 was \$25.2m, up 9% on last year. NPBT was \$9.9m up 30% on the year prior, benefitting from the continued improvement in loan book quality.
- Lending was impacted during August and September (\$21m per month compared to an average of \$27m per month for April through July, including the new monthly lending record of \$32m in July). Hardships increased as expected during the recent lockdowns but peaked at levels of less than 1/3rd of the hardships approved during the 2020 lockdowns. We expect most of these customers to rehabilitate back to full payments within 6 months.
- We have maintained the COVID-19 buffer in arrears provisioning (\$1.4m) to allow for any unexpected degradation in impairment losses in future months.
- Arrears continue to improve as expected due to the structural improvements in the quality of the loan book. Consumer arrears are at historic low levels of 2.7% (6% H1 FY21) and commercial arrears are at 1.2% (3.9% H1 FY21). Based on current trends we expect arrears to track down to 2% over the next year.

Insurance: Revenue \$20.8m -2%, Segment Profit \$5.8m +28%

Market share gains drove strong policy sales in Q1, but sales were impacted during Q2 lockdown period meaning revenue decreased 2% to \$20.8m. However, NPBT was up 28% to \$5.8m on higher margins, reducing overhead costs and less claims due to less motor vehicle movements in lockdown.

- Claims costs were 13% down on H1 FY21, however emerging signs of parts price inflation and labour rate increases will require adjustments to policy pricing over the coming months. AM Best reaffirmed their Financial Strength rating to B++ (good).
- We have continued to make good progress with distribution agreements and have added MTF
 as another system integrated partner for reselling the Autosure products. Further opportunities
 are being actively worked on.

Credit Management: Revenue \$5.7m -19%, Segment Profit \$2.1m -31%

- Revenue decreased 19% to \$5.7m, with the impact of COVID-19 again visible in our collections results. Debt load is up 9% for HY22 to \$61m, as particularly NZ Corporate debt load customers get back to the business of collecting. Overall debt collected is in-line with prior year despite the higher debt load, due to restrictions imposed by large customers on collecting from debtors in L3 regions.
- There is an increasing level of commentary about business debt defaults increasing. Credit bureau Centrix reporting Auckland business debt defaults being up 18 per cent this year compared to 2019 in pre-COVID times. This combined with the levels of debt being loaded gives us confidence that we are moving forward into an environment where bad debts are likely to increase and debt collection services will see increasing demand.
- Our transition to a digital-based business is continuing as well as a transforming our collections approach to be more focused on resolution rather than consequence.

1. ACCOUNTING POLICIES AND SIGNIFICANT JUDGEMENT, ESTIMATES AND ASSUMPTIONS

The same accounting policies included in the Group's Annual Report for the year ended 31 March 2021 have been applied when preparing these financial statements.

These consolidated condensed financial statements have been prepared in accordance with Generally Accepted Accounting Practice in New Zealand ('NZ GAAP'). They comply with New Zealand equivalents to International Accounting Standard 34 Interim Financial reporting ('NZ IAS 34') and International Accounting Standard 34 Interim Financial Reporting ('IAS 34'). The Group is a Tier 1 for-profit entity in accordance with XRB A1 Application of the Accounting Standards Framework.

The same significant judgments, estimates and assumptions (including basis of segmentation and the fair value measurement) included in the notes to the financial statements in the Group's Annual Report for the year to 31 March 2021 have been applied to these financial statements. The business does not experience notable seasonal variations. There has been no change to the basis of segmentation from that applied at 31 March 2021.

Five reportable segments have been identified as follows:

Automotive retail - remarketing (motor vehicles, trucks, heavy machinery and commercial goods) and purchasing goods for sale.

Finance - provides asset based finance to consumers and SME's.

Credit management - collection services, credit management and debt recovery services to the corporate and SME sectors. Geographically the collections services segment business activities are located in New Zealand and Australia.

Insurance - marketing and administration of a range of life and consumer insurance and saving products.

Corporate & other - corporate centre.

	85,868,428	85,554,710	85,551,356

Diluted earnings per share

The calculation of diluted earnings per share at 30 September and 31 March was based on the diluted profit attributable to shareholders and a diluted weighted average number of ordinary shares outstanding as follows:

	Six months	Six months	Year
	ended	ended	ended
	30/09/2021	30/09/2020	31/03/2021
	Unaudited	Unaudited	Audited
Continuing operations (\$'000)	16,867	13,434	26,864
Add: Long term incentive expense relation to options (\$'000)	118	93	255
Profit for the year (\$'000)	16,985	13,527	27,119
Weighted number of ordinary shares (diluted)			
Weighted average number of shares (basic)	85,868,428	85,554,710	85,551,356
Effect of the exercise of options	798,736	122,943	420,482
Weighted average number of shares (diluted)	86,667,164	85,677,653	85,971,838
Diluted earnings per share (cents per share)	19.60	15.79	31.54
5. CASH AND CASH EQUIVALENTS			
	30/09/2021	30/09/2020	31/03/2021
	Unaudited	Unaudited	Audited
	\$'000	\$'000	\$'000
Cash and cash equivalents	14,195	18,864	11,867

The Group's insurance business is required to comply with the solvency standards for licensed insurers issued by the Reserve Bank of New Zealand. The solvency standards specify the level of assets the insurance business is required to hold in order to meet solvency requirements, consequently all cash and cash equivalents held in the insurance business may not be available for use by the wider Group. The Group's insurance business' cash and cash equivalents at 30 September 2021 were \$1.7m (30 September 2020: \$4.7m; 31 March 2021: \$0.7m).

Cash and cash equivalents at 30 September 2021 of \$3.3m (30 September 2020 :\$4.3m; 31 March 2021: \$3.6m) belongs to the Turners Marque Warehouse Trust 1 and is not available to the Group.

6. FINANCE RECEIVABLES

	30/09/2021	30/09/2020	31/03/2021
	Unaudited	Unaudited \$'000	Audited \$'000
	\$'000		
Gross finance receivables	375,520	311,851	337,613
Deferred fee revenue and commission expenses	11,871	8,154	9,742
Provision for impairment	(13,665)	(18,245)	(15,779)
COVID-19 impairment provision	(1,411)	(1,011)	(1,411)
	372,315	300,749	330,165
Fair value	370,009	300,282	328,675

The fair values are based on cash flows discounted using a weighted average interest rate of 11.42 (30 September 2020: 12.98%; 31 March 2021: 13.81%).

Securitisation

The Group has a wholesale funding facility with the Bank of New Zealand (BNZ) under which it securitises finance receivables through The Turners Marque Warehouse Trust 1 (the Trust). Under the facility, BNZ provides funding to the Trust secured by finance receivables sold to the Trust from the finance segment. The facility is for a 24 month term that will be renewed annually. The facility is for \$276m.

The Trust is a special purpose entity set up solely for the purpose of purchasing finance receivables from the finance sector with the BNZ funding up to 92% of the purchase price with the balance funded by sub-ordinated notes from the Group. The New Zealand Guardian Trust Company Limited has been appointed Trustee for the Trust and NZGT Security Trustee Limited as the security trustee. The Company is the sole beneficiary.

The Group has the power over the Trust, exposure, or rights, to variable returns from its involvement with the Trust and the ability to use its power over the Trust to affect the amount of the Group's returns from the Trust. Consequently the Group controls the Trust and has consolidated the Trust into the Group's financial statements.

The Group retains substantially all the risks and rewards relating to the finance receivables sold and therefore the finance receivables do not qualify for derecognition and remain on the Group's consolidated statement of financial position.

During the reporting period \$116.0m finance receivables were sold to the Trust (30 September 2020: \$58.4m; 31 March 2021: \$187.4m). As at 30 September 2021 the carrying value of financial receivables in the Trust was \$296.8m (30 September 2020: \$211.0m; 31 March 2020: \$266.8m).

7. BORROWINGS

	30/09/2021	30/09/2020	31/03/2021

		24,852	24,926
Total borrowings	374,337	314,392	339,611
Fair value	374,337	314,602	339,700

Secured bank borrowings

The Group has a syndicated funding facility with the Bank of New Zealand and ASB Bank, a self liquidating trade finance facility and a term loan with ASB Bank and securitisation facility with the Bank of New Zealand.

The bank borrowings are secured by a first-ranking general security agreement over the assets of the Company and its subsidiaries, excluding DPL Insurance Limited, Turners Finance Limited and EC Credit (Aust.) Limited. The Group's securitisation financing arrangement is described under finance receivables.

Motor Trade Finance

Turners Finance Limited is a shareholder of a motor trade based company called Motor Trade Finance Limited (MTF). MTF provides the services of a finance company, including funding, on a full recourse basis back to its shareholders.

MTF provides finance to Turners Finance Limited to fund the finance receivables. The MTF funding is secured by a chattel security over the Turners Finance Limited's customer's asset securing the finance receivable and by a general security over the assets of Turners Finance Limited.

Turners Finance Limited has also given undertakings to MTF as the nature and conduct of its business, and overall quality of the finance receivables and aggregate. Turners Finance has complied with these undertakings in the current and prior financial year.

Bonds

On 1 October 2018 Turners Automotive Group issued secured subordinated fixed rate bonds and were fully repaid on 30 September 2021. Interest was fixed at 5.5% and was paid quarterly in arrears in equal amounts. The bonds ranked behind the indebtedness owing under the bank facilities and were guaranteed by Turners Automotive Group Limited, Oxford Finance Limited, Buy Right Cars (2016) Limited, EC Credit (NZ) Limited, Estate Management Services Limited, Payment Management Services Limited, Turners Group NZ Limited, Turners Fleet Limited and Turners Property Holdings Limited.

8. ASSETS AND LIABILITIES CARRIED AT FAIR VALUE

The fair value of financial assets and liabilities carried at fair value are summarised in the table below. The methods used to calculate fair value are the same as those applied when preparing the Group's Annual Report for the year ended 31 March 2021 (refer note 5.5 in the Annual Report for the year ended 31 March 2021.
