## **ABOUT ANTILLES GOLD LIMITED:**

Antilles Gold is focussed on growth through the successive development of gold projects in Cuba, and on realising the value of assets it holds in the Dominican Republic.

The Company is at the forefront of the emerging gold mining sector in Cuba and intends to participate in the development of two or three mid-size mines through a 49:51 Joint Venture with Cuban Government mining company, GeoMinera SA, with prospects for additional developments in the future.

The current projects of the Joint Venture company, Minera La Victoria SA, are the proposed near term development of the La Demajagua gold/silver mine on the Isle of Youth in south west Cuba for the production of high grade gold concentrate, and the possible development of multiple pits and a centralised concentrator based on five advanced sulphide gold deposits within the Guáimaro-Jobabo region of south east Cuba.
