Products

The Company's technology enables complementary product offerings

Zoom2u

A Platform providing a simple way for Customers to connect with local delivery Drivers for a fast delivery with full transparency of the location of their delivery through live tracking. Zoom2u earns fees from Customers and Drivers based on the Delivery Price

Locate2u

A turnkey delivery management SaaS platform that allows delivery businesses of any size to manage their deliveries efficiently, optimise routes, track their team and share locations with consumers. Locate2u charges clients a monthly recurring subscription.

2uEnterprises

Launched in 2020 2u Enterprises carries out research and development, market research and commercial experiments and markets ad hoc e-commerce web development and management services.

Shred2u

Shred2u, a business operated by 2u Enterprises, facilitates secure document shredding services. Shred2u uses third parties and Drivers that provide the delivery services and a third party for document destruction services with the drivers' routes being optimised by Locate2u or Zoom2u.

We are building for the future

The world of logistics is large and changing rapidly.

TODAY

Deliveries in days or weeks

Slow, Delays, Delivery when the customer isn't home

NEXT 2-3YRS

Same Day Delivery
Delivery in hours
Live Tracking
Time Windows
Micro Fulfillment Sites

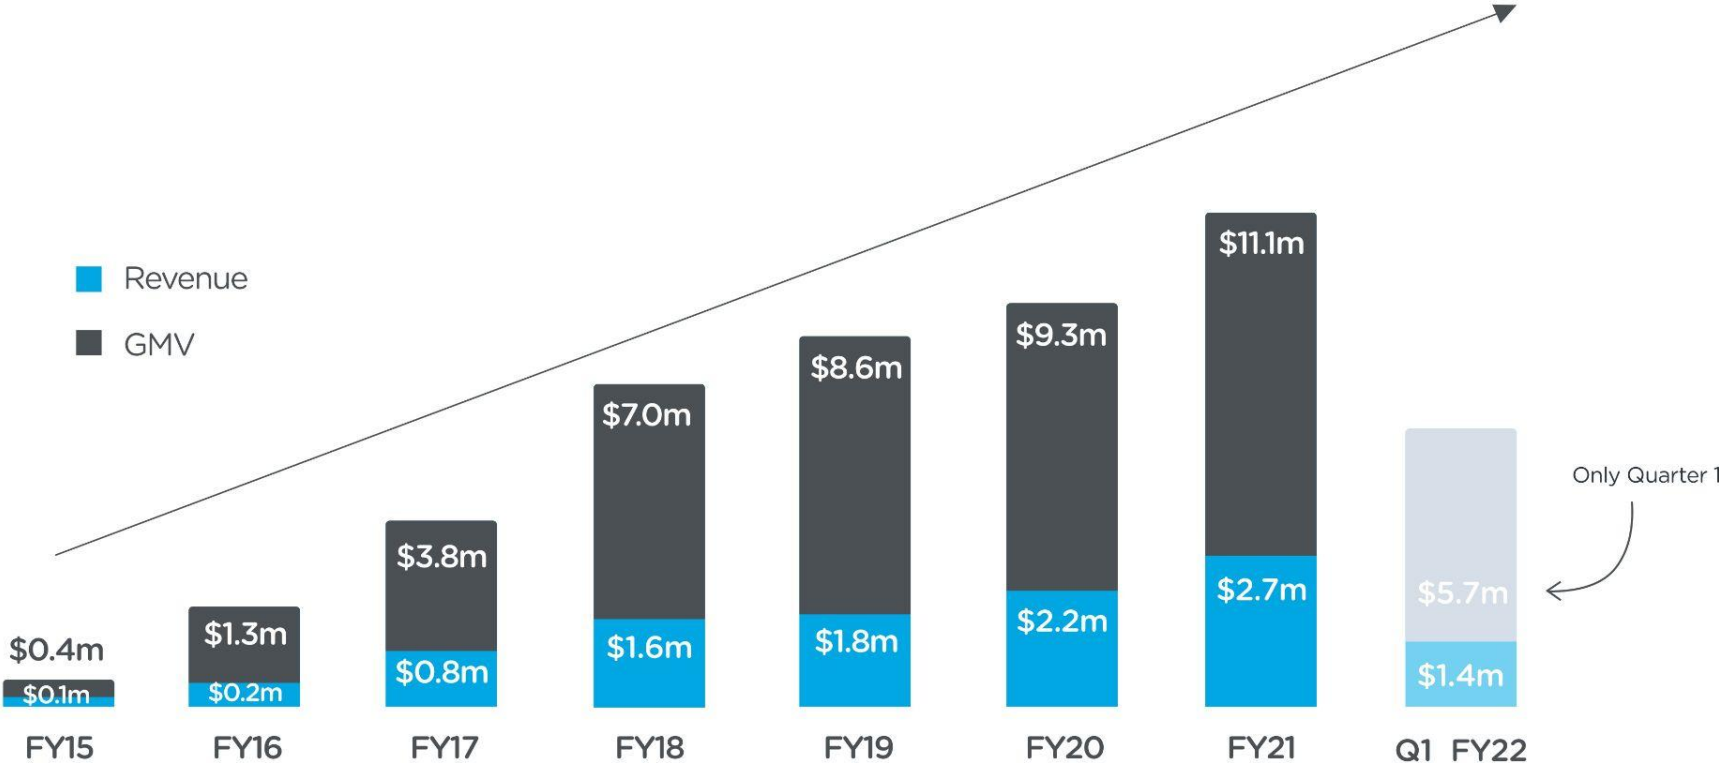

5+ YEARS

Autonomous delivery
Live Tracking will be the standard

We will position ourselves to take advantage of any emerging technologies available to improve the speed and customer experience of deliveries.

Our platform continues to grow

Strategic priorities

Enterprise,
ecommerce &
retail customers

Build our
global SaaS
sales team

Strategic
acquisitions

Zoom2u Investing in our strategy:

For customers being connected with local drivers

Our focus today is growing our enterprise customer base in the retail and ecommerce space. We believe consumers should be able to choose when their deliveries arrive.

Retail & Ecommerce

We are focused on growing our retail and ecommerce customer base allowing these businesses to provide their customers with fast, same-day delivery.

Recently signed an agreement with Best & Less (ASX:BST) for Same Day Delivery.

- Now integrated into their ecommerce platform and available for customers to select.

New wins

Actively working on a number of trial opportunities with large ecommerce, logistics and retail businesses

Growing driver network

1,500+

We have onboarded approximately 1500 new drivers in the past three months in preparation for peak Christmas period.

Locate2u Investing in our strategy:

For customers who have their own drivers

We are growing

We now have over 100+ paid subscribers.

An experienced team

We have continued hiring in our sales team bringing the team size in Australia to 5 people

Integrations

Our Locate2u Shopify App is expected to be live in December

Enterprise Customers

Our second enterprise customer, Bing Lee, recently signed an agreement to roll out Locate2u to their driver fleet, Customer Service Department and Retail stores.

Global Opportunity

We have confidence to accelerate our growth in global markets.

Thank You
