Saudi Aramco extends Worley's contracts for offshore assets

Saudi Arabian Oil Company (Saudi Aramco) has awarded in-Kingdom and out-of-Kingdom contracts to extend Worley's services for Saudi Aramco's offshore Maintain Potential Program.

Under the contracts, Worley will continue to provide project management, engineering, design, fabrication and installation supervision for Saudi Aramco's portfolio of offshore projects.

The term of the extension is three years and the services will be executed by Worley's Al-Khobar and Houston offices. Worley has held these contracts for the past 19 years. The extension of these contracts further grows and develops our business in Saudi Arabia and contributes to the Saudi community.

"As a global professional services company headquartered in Australia, with an extensive track record of sustaining and optimizing offshore facilities globally, we are pleased that Saudi Aramco has continued to engage Worley and build on our longstanding relationship to provide services to its offshore assets," said Chris Ashton, Chief Executive Officer of Worley.

Authorized for release by Nuala O'Leary, Group Company Secretary.
