Race invites any shareholders that are interested in participating, but experiencing difficulty with the process, to contact the Company's share registrar, Automic Registry Services via 1300 288 664 or [hello@automicgroup.com.au](mailto:hello@automicgroup.com.au).

Race Oncology's CEO and Managing Director, Mr Phillip Lynch commented, *"We are grateful to all those shareholders that have participated in the SPP to date and are encouraged by the support received. We recommend any shareholder wishing to participate applies as soon as possible, to ensure their funds can clear in time to meet the application deadline. We understand that some shareholders who have not registered to receive company paperwork by email have not yet received their paperwork via Australia Post. If you have not received the SPP documentation, the application process can be completed fully using the electronic form available via our website."*

Further information on the SPP can also be found on Race's SPP website at <https://spp.raceoncology.com>.

### **Investor briefing recording**

A shareholder information session was held last week (ASX announcement: 30 November 2021). Investors are invited to watch the recording via the following link: <https://www.raceoncology.com/race-oncology-qa-session/>.

This announcement was authorised for release by Phillip Lynch, CEO & Managing Director.

-ENDS-

### **About Race Oncology (ASX: RAC)**

Race Oncology is an ASX listed precision oncology company with a Phase 2/3 cancer drug called Zantrene®.

Zantrene is a potent inhibitor of the Fatso/Fat mass and obesity associated (FTO) protein. Overexpression of FTO has been shown to be the genetic driver of a diverse range of cancers. Race is exploring the use of Zantrene as a new therapy for melanoma and clear cell renal cell carcinoma, which are both frequent FTO over-expressing cancers.

In breakthrough preclinical research, Race has also discovered that Zantrene protects from anthracycline-induced heart damage, while in tandem acting with anthracyclines and proteasome inhibitors to improve their ability to target breast cancer. Race is evaluating this discovery.

The Company also has compelling clinical data for Zantrene as a chemotherapeutic agent and is in clinical trial in Acute Myeloid Leukaemia (AML).

Race is pursuing outsized commercial returns for shareholders via its 'Three Pillar' strategy for the clinical development of Zantrene. Learn more at [www.raceoncology.com](http://www.raceoncology.com)
