Total passenger traffic in November 2021 was 498,000 passengers, down 86.7% on the corresponding period in 2019.

Domestic passenger traffic totalled 407,000 in November 2021, down 82.9% on the corresponding period in 2019.

91,000 international passengers passed through Sydney Airport in November 2021, down 93.3% on the corresponding period in 2019.

For the first 15 days of December, provisional data indicates international passenger traffic was down approximately 86% and domestic passenger traffic was down approximately 69% on the prior corresponding period in 2019. The outlook for passenger traffic remains subdued due to tightly controlled inbound international travel, entry requirements and restrictions into key overseas markets, and the impact of the Omicron outbreak.

<sup>1</sup> Due to data availability, all international passenger numbers (including prior corresponding period comparisons) are based on Confirmed Airline Passenger (CAP) data. As per previous information releases, these figures may contain estimates with any adjustments to preliminary statistics included in the year-to-date results in future months
