2.5 Applications may be scaled back

The Company may in its absolute discretion undertake a scale back of applications for New Shares to the extent and in the manner it sees fit.

If there is a scale back, Eligible Shareholders may receive less than the parcel of New Shares for which they applied. If a scale back produces a fractional number of New Shares when applied to a parcel, the number of New Shares will be rounded to the nearest whole number of New Shares.

In the event of a scale back, the difference between the Application Money received, and the number of New Shares allotted to an Eligible Shareholder multiplied by the Offer Price, will be refunded to the Eligible Shareholder without interest following allotment of the New Shares.

Under the ASIC Instrument, Eligible Shareholders may only acquire up to a maximum of \$30,000 of New Shares under a share purchase plan or similar plan in any 12 month period (except in certain circumstances – see section 5.4).

This limitation applies, for example, even if you receive more than one Application Form or if you hold Shares in more than one capacity (i.e. if you are both a single holder and joint holder of Shares). An Eligible Shareholder may apply on different Application Forms for New Shares but may not apply for New Shares with an aggregate value of more than \$30,000. The \$30,000 limit applies irrespective of the number of Shares you hold on the Record Date.

2.7 Use of funds raised

The Company is seeking to raise up to approximately \$1,500,000 (before costs), with the ability to accept oversubscriptions if there is sufficient demand. The amount excludes any funds raised from the exercise of the New Options.

The Directors intend to apply the proceeds from the SPP as follows:

Proposed use of funds	SPP Offer - fully subscribed	SPP Offer – 75% subscribed	SPP Offer – 50% subscribed	SPP Offer – 25% subscribed
Advance the Company's pipeline of green hydrogen opportunities on completing the acquisition of 100% of Countrywide Renewable Hydrogen Limited	\$1,350,000	\$975,000	\$600,000	\$225,000

Total	\$1,500,000	\$1,125,000	\$750,000	\$375,000

The above table is a statement of present intentions regarding use of funds as at the date of this Prospectus.

As with any budget, the actual use of funds raised under the Offer may change depending on the outcome of the initiatives undertaken in accordance with the Company's stated objectives.

There is no guarantee that the funds raised will be sufficient to enable the Company to achieve its stated objectives.

The precise activities that will be undertaken and the allocation of total funds raised may change without notice depending on market conditions and circumstances generally from time to time. There is no guarantee that funds raised will be applied precisely in the manner set out above or in the amounts described.

2.8 Waiver or withdrawal of SPP Offer

- (a) waive compliance with any provision of the terms and conditions either generally or in specific circumstances; or

2.9 ASX quotation

Application for Official Quotation of the New Shares offered pursuant to this Prospectus will be made to ASX within seven (7) days after the date of this Prospectus.

2.11 ASIC Instrument

The ASIC Instrument allows a Company to undertake a security purchase plan without the need for issuing a prospectus, provided that certain requirements are met.

The Company is unable to rely on the ASIC Instrument for the issue of New Options because the ASIC Instrument only applies to the issue of Shares (and not Options). Accordingly, the SPP Offer and the SPP Options Offer is being made under this Prospectus. The Company is conducting the offer of New Shares under the SPP Offer in accordance with the requirements of the ASIC Instrument.

3.2 Shareholder approval

As stated above, the issue of the New Options to Eligible Shareholders is subject to, and conditional on, Shareholder approval at the General Meeting.

If shareholder approval is not obtained for the issue of the New Options to SPP Participants, the SPP Options Offer will be withdrawn and the Company will still issue the New Shares under the SPP Offer, but SPP Participants will not be entitled to receive any New Options or any refund of Application Money paid under the SPP Offer.

3.3 No funds raised from SPP Options Offer

No funds will be raised from the issue of the New Options pursuant to the SPP Options Offer as the New Options are being issued for nil cash consideration in accordance with their terms as set out in section 8.2.

3.4 ASX quotation

Application for Official Quotation of the New Options offered pursuant to this Prospectus will be made to ASX within seven (7) days after the date of this Prospectus.

3.5 Allotment of New Options

Subject to shareholder approval, allotment and issue of New Options will only be made once the Application Money for the SPP Offer has been received. It is expected the New Options will be allotted on Friday, 4 February 2022 and holding statements for the New Options will be despatched on Monday, 7 February 2022.

3.6 Secondary Trading

Under the *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2016/80*, the sale of New Options and Shares issued on exercise of the New Options will not require further disclosure under section 707 of the Corporations Acts because the New Options will be issued under this Prospectus and the exercise of the New Options will not involve any further offer by the Company.

5.3 If you do not wish to participate in the SPP Offer

If you do not wish to participate in the SPP Offer you should do nothing.

5.4 Participation by Eligible Shareholders

(a) Single holder

If you are the registered holder of a holding of Shares but you receive more than one offer under the SPP Offer (for example, due to multiple registered holdings), you may only apply for up to a maximum amount of \$30,000 New Shares.

(b) Joint holders

If you are recorded with one or more persons as the joint holder of a holding of Shares, that joint holding is considered to be a single registered holding for the purpose of the SPP Offer and certifications or representations given by a joint holder are taken to have been given by all joint holders. Joint holders are only entitled to participate in the SPP Offer in respect of that single holding. If the same joint holders receive more than one offer under the SPP Offer due to multiple identical holdings the joint holders may only apply for one maximum amount of \$30,000 of New Shares.

(c) Custodians

If you hold Shares as a custodian (as defined in the ASIC Instrument) for one or more Beneficiaries (as defined below), the SPP Offer is made to the custodian and, subject to a number of conditions, the custodian has the discretion to extend the SPP Offer to the Beneficiaries. The custodian may apply for up to a maximum amount of \$30,000 of New Shares for each Beneficiary, however, the Company will not allocate New Shares unless the custodian certifies the matters set out in section 8 (conditions) paragraph 3 of the ASIC Instrument in a certificate (**Custodian Certificate**) which it will need to provide to the Share Registry.

A **Beneficiary** is a person who resides in Australia, New Zealand, Singapore or the United Kingdom for whom a custodian (being an Eligible Shareholder) held Shares on behalf of the Beneficiary on the Record Date, and who is not, or is not acting for the account or benefit of, a U.S. Person.

Applications received from custodians must be accompanied by a duly completed and signed Custodian Certificate. Custodians will not be entitled to participate in the SPP Offer if their participation would be in breach of ASIC Instrument.

If you are a custodian and are applying on behalf of a Beneficiary on whose behalf you hold Shares, you acknowledge and agree that:

- (i) you are a custodian as defined in the ASIC Instrument or a nominee;
- (ii) you held Shares on behalf of the Beneficiary as at the Record Date who has instructed you to apply for the New Shares on their behalf under the SPP Offer and that the Beneficiary has been given a copy of this Prospectus;
- (iii) you are not applying for New Shares on behalf of any one Beneficiary with an application price of more than \$30,000 under the SPP Offer or any similar arrangement in the 12 months before the Application; and
- (iv) the information in the Custodian Certificate submitted with your Application Form is true, correct and not misleading.

6 Effect of the Offers on the Company

6.1 Effect of the Offers on capital structure

The following table sets out the Company's current capital structure and its fully diluted capital structure immediately after the Offers, assuming that:

- (a) the Offers are completed and the SPP is fully subscribed;
- (b) the Proposed Transaction completes and the Consideration Shares are issued to the vendors;
- (c) shareholder approval is obtained for the Consideration Shares, New Options, Broker Options, CY21 Bonus Shares and LSP Shares;
- (d) CY21 Bonus Shares and LSP Shares are issued to the current directors, the CEO, Mr Greg Watson and the two additional directors to be nominated by Countrywide Renewable Hydrogen Limited;
- (e) no Options are exercised prior to the Offer Closing Date; and
- (f) no new Shares (other than the Consideration Shares, CY21 Bonus Shares and LSP Shares) are issued before the issue date.

In this section 6, these assumptions are called the **Subscription Assumptions**.

ReNu Energy Share capital

**Assuming all Options are exercised*

The Company's actual position on the Offer Closing Date may differ from the positions illustrated in the pro-forma capital structure table above.

If the SPP Offer is not fully subscribed (and therefore the SPP Options Offer), fewer New Shares and New Options will be issued and there will be fewer Shares on issue following completion of the SPP Offer and SPP Options Offer. If the Board accept oversubscriptions if there is sufficient demand, additional New Shares and New Options will be issued and there will be additional Shares on issue following completion of the SPP Offer and SPP Options Offer.

The Company will announce to ASX the actual number of New Securities to be issued under the Offers as soon as practicable after all New Securities have been issued.

6.2 Effect on shareholdings

No immediate dilution will occur as a result of the New Options under this Prospectus. However, exercise of any or all of the Options on issue will result in dilution.

6.4 **Effect on financial position**

(a) **General**

The broad effect of the Offers on the Company's financial position if the Offers are successfully completed, will be to increase Shareholders' funds and net assets by approximately \$1.5 million before payment of the expenses of the Offers.

7 Risk factors

7.1 General

There are a number of factors, both specific to the Company and of a general nature, which may affect the future operating and financial performance of the Company, its business, the industry in which it operates and the outcome of an investment in the Company. There can be no guarantee that the Company will achieve its stated objectives or that forward-looking statements will be realised.

This section describes certain, but not all, risks associated with an investment in the Company. Each of the risks set out below could, if it eventuates, have a materially adverse impact on the Company's operating performance, financial performance, financial position, liquidity and the value of its Shares.

Before deciding to invest in the Company, potential investors should read the entire Prospectus and the risk factors that could affect the financial performance of the Company.

You should carefully consider these factors in light of your personal circumstances and seek professional advice from your accountant, stockbroker, lawyer or other professional adviser before deciding whether to invest.

7.2 Specific Risk Factors

In addition to the general risks set out in section 7.3, the Directors believe that there are a number of specific factors that should be taken into account before investors decide whether or not to apply for the New Securities. Each of these factors could have a materially adverse impact on the Company, its expansion plans and operating strategies and its financial performance and position.

These include:

(a) **SPP Offer risk**

There is a risk that the Share price may rise or fall between the date the SPP Offer commences and the date when New Shares are allotted, or otherwise allocated, to SPP Participants. This means that the price paid by SPP Participants under this SPP Offer may be either higher or lower than the Share price at the time of the offer or at the time the New Shares are allotted, or otherwise allocated, to SPP Participants.

(b) **Impact of COVID-19**

The ongoing COVID-19 pandemic has had a significant impact on the global and Australian economy and the ability of businesses, individuals and governments to operate. Emergency powers and restrictions have been enacted on an international, Federal and State level in Australia which, amongst other things, has restricted travel and the ability of individuals to leave their homes and travel to places of work.

Given the high degree of uncertainty surrounding the extent and duration of COVID-19, it is not currently possible to assess the full impact of COVID-19 on the Company's business.

However, a number of aspects of the Company's business may be directly or indirectly affected by government, regulatory or health authority actions, including without limitation work stoppages, lockdowns, quarantines and travel restrictions associated with COVID-19.

There is a risk that if the duration of events surrounding COVID-19 are prolonged, the Company may need to take additional measures in order to respond appropriately (eg restructuring to reduce further costs from its business and raising additional funding).

There are also other changes in the domestic and global macroeconomic environment associated with the events relating to COVID-19 that are beyond the control of the Company and may be exacerbated in an economic recession or downturn. These include but are not limited to (i) changes in inflation, interest rates and foreign currency exchange rates; (ii) changes in employment levels and labour costs; (iii) changes in aggregate investment and economic output (iv) supply chain challenges; and (v) other changes in economic condition which may affect the revenue or costs of the Company.

(c) Proposed Transaction completion risk

The Proposed Transaction is subject to the fulfilment of certain conditions, including resolutions being passed at the General Meeting. Even if the resolutions are approved, the Proposed Transaction will only be implemented if all of the other conditions precedent set out in the share purchase agreement are satisfied or (if permitted) waived.

If any of the conditions precedent are not satisfied or (if permitted) waived, or the agreement is otherwise terminated, the Proposed Transaction will not proceed. The Directors are not currently aware of any information which may cause the conditions precedent to be breached or unfulfilled, however there is a risk that these conditions precedent will be unfulfilled due to circumstances outside of the Company's control.

(d) Business development risk

The Company is advancing its renewable and clean-energy incubator/accelerator strategy which involves acquiring strategic stakes and nurturing renewable and clean energy projects and technologies. Accordingly, there is a risk that the Company may not be able to convert opportunities into commercial outcomes. Establishing and converting opportunities into commercial outcomes is vital in order for the Company to achieve its stated objectives in owning a portfolio of renewable energy projects and assets which produce long term revenue streams or achieve profits for the Company (whether via IPO, sale of the projects or distribution of profits).

(e) Commercialisation Risk

The Company has announced a series of investments during 2021, including investments in Uniflow Power Limited on 25 June 2021 (amended on 14 July 2021), Enosi Australia Pty Ltd on 10 September 2021 and Allegro Energy Pty Ltd on 7 December 2021.

These entities are in the early stages of commercialising different products or technologies in the renewable and clean energy sector and are each subject to the business risks and uncertainty which are associated with entities of this nature. Government policy or regulation change in target markets or advances in other forms of technologies could impact the competitiveness of the products or technology being developed by these entities, and challenges identified during commercialisation could impact their profitability. These and other risks could adversely impact the Company's investments in Uniflow Power Limited, Enosi Australia Pty Ltd and Allegro Energy Pty Ltd.

(f) **Integration risk**

Following completion of the Proposed Transaction, the combined group's success will depend on the Company's ability to integrate Countrywide Renewable Hydrogen Limited (and its subsidiaries) without disruption to the Company's existing businesses. There is a risk that implementation and other one-off costs may be substantial or greater than reasonably anticipated. This could have a material adverse impact on the combined group's financial position and performance.

The transition of information systems and data, technical, financial and legal information and resources may not proceed smoothly and may divert management's attention from managing the combined group's business.

There is also a risk that operations could be disrupted or that costs associated with the transition may be greater than expected, which could adversely affect the combined group's financial position and performance.

(g) **Funding risk**

The Company currently operates on a negative cash operating basis in that its operating expenses exceed its revenue. The Company's revenue depends on its ability to advance its renewable and clean energy incubator/accelerator strategy and achieve revenue streams either by moving to a controlling interest in its targets, supporting targets through to an IPO process or exiting via trade sale. There is a risk that opportunities identified may take longer than expected to materialise or not be realised at all. There is no guarantee that the monies raised under the Placement will be adequate or sufficient to meet the ongoing funding requirements of the Company under its current business plan.

If the Company requires access to further funding at any stage in the future, there can be no assurance that additional funds will be available either at all or on terms and conditions which are commercially acceptable to the Company. If the Company is unable to obtain such additional capital, it may be required to reduce the scope of its anticipated activities, which could adversely affect its business, financial condition and operating results.

(h) **Geothermal asset remediation risk**

The Company has completed abandonment of the two remaining geothermal wells located in the Cooper Basin of South Australia. In order to dispose of the sole remaining geothermal licence, surface remediation activities may need to be completed. Remediation activities are strictly regulated by legislation and enforced by government authorities. It is possible that the time to complete the remaining surface remediation may take longer than currently anticipated and may incur additional costs, delaying the closing out and exiting of the project.

(i) **Other specific risks**

(i) **Key person risk** – the successful operation of the Company's business relies on its ability to retain experienced and high-performing key Board, management and operating personnel. The Company may not successfully retain existing, and/or attract new, key personnel. The unexpected loss of any key personnel, or the inability on the part of the Company to attract experienced personnel, may adversely affect the Company's ability to develop and implement its business strategies.

- (ii) **Government policy and regulation may change** – the Company operates in the energy industry which is subject to extensive laws and regulations. Changes in law or regulatory policy could adversely affect the Company's business.

The risk relating to changes in legislation include:

- (A) changes in the incentives available to support the production of renewable energy; and
 - (B) changes to the laws and regulations applicable to the energy industry sector.
- (iii) **Dividends** – there is no guarantee as to future earnings of the Company, or that the Company will be profitable at any time in the future and there is no guarantee that the Company will be in a financial position to pay dividends at any time in the future.

7.3 General Risk Factors

- (a) **Share market**

On completion of the Offer, the Shares may trade on the ASX at higher or lower prices. The price at which the Shares trade on the ASX may be affected by the financial performance of the Company and by external factors over which the Directors and the Company have no control.

These factors include movements on international share and commodity markets, local interest rates and exchange rates, domestic and international economic conditions, government taxation, market supply and demand and other legal, regulatory or policy changes.

- (b) **Dependence on general economic conditions**

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions, including levels of consumer spending, inflation, interest rates and exchange rates, access to debt and capital markets, government fiscal, monetary and regulatory policies.

A prolonged deterioration in general economic conditions, including an increase in interest rates or a decrease in consumer and business demand, could be expected to have a materially adverse impact on the Company's business or financial condition. Changes to laws and regulations or accounting standards which apply to the Company from time to time could adversely impact the Company's earnings and financial performance.

- (c) **Tax risk**

Any change to the company income tax rate in jurisdictions in which the Company operates will impact on shareholder returns, as will any change to the income tax rates applying to individuals or trusts. Any change to the tax arrangements between Australia and other jurisdictions could have an adverse impact on future earnings and the level of dividend franking.

- (d) **Legislative and regulatory changes**

Legislative or regulatory changes in jurisdictions in which the Company operates, including property or environmental regulations or regulatory changes in relation to the Company's business, could have an adverse impact on the Company.

8 Rights attaching to securities

8.1 Rights attaching to Shares (including New Shares)

(a) General

The rights and liabilities attaching to Shares are set out in the Company's constitution and are regulated by the Corporations Act, the Listing Rules, the rules of ASX Settlement and the general law. Set out below is a summary of the principal rights and liabilities attaching to Shares. This summary is not exhaustive and is not a definitive statement of the rights and liabilities of Shareholders.

(b) Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at a general meeting, every Shareholder present in person or by proxy, representative or attorney has one vote on a show of hands and, on a poll, one vote for each fully paid Share. If a Share is a partly paid Share, the holder has a vote in respect of each share on a poll that has the same proportionate value as the proportion that the amount paid (excluding any amount paid or credited as paid in advance of a call) on the share bears to the total Offer Price of the share.

A Shareholder is not entitled to vote at a general meeting unless all calls and other sums presently payable by the member in respect of a share have been paid. Where a Share or partly paid share is jointly held, the vote of the holder whose name in respect of those shares appears first on the Registry of Shareholders is to be treated as the only vote in relation to those shares.

(c) General Meeting and Notices

Each Shareholder is entitled to receive notice of, and to attend and vote at, the Company's general meetings and to receive all notices, accounts and other documents required to be sent to Shareholders under the constitution, the Corporations Act or the Listing Rules.

(d) Dividends

The Directors alone may declare a dividend to be paid to shareholder. The dividend is payable as soon as it is declared unless the Directors specify a later time for payment.

The Company shall not be liable for any interest in respect of dividends payable to Shareholders.

(e) Variation of Class Rights

At present, the Company only has ordinary Shares on issue and has no current plans to create further classes of Shares. The rights and restrictions attaching to a class of the Company's Shares can only be altered with the consent or a special resolution passed at a separate meeting of the holders of that class of share by 75% of those holders, who, being entitled to do so, vote at that meeting or with the written consent of members with at least 75% of votes in the class.

(f) Further Issues of Shares and Options

The Directors may, subject to the Corporations Act, the Listing Rules or any special rights conferred on the holders of any Share or class of Share, issue or dispose of Shares or grant options over Shares to any person at any time and on any terms and conditions as they think fit.

(g) Pre-Emptive Rights

Holders of Shares do not have any pre-emptive rights under the constitution. Under the Listing Rules, certain restrictions apply to a listed company offering its Shares otherwise than pro-rata among shareholders.

(h) **Winding Up**

If, on winding up of the Company, there remains a surplus, that surplus will, subject to the terms of issue of each share, the Act, the Listing Rules, and any agreement between a Shareholder and the Company to the contrary, be divided as determined by the liquidator, between the members or different classes of members.

(i) **Small holdings**

The Directors may resolve to deliver a notice to a Shareholder who holds less than a marketable parcel of shares (**Small Holding**). The notice must advise the Shareholder that the Company intends to sell the Small Holding and state that unless the Shareholder advises the Company before the relevant date that the Shareholder intends to retain the holding, the Small Holding will be sold.

(j) **Buy Backs**

Subject to applicable laws, in particular the Corporations Act and the Listing Rules, the Company may buy back shares on such terms and conditions as the Board may determine from time to time.

(k) **Transfer of Shares**

Subject to the Listing Rules and the constitution, the shares are transferable in accordance with CHESS (for CHESS Approved Securities), by instrument in writing in any usual or common form or in any other form that the Directors approve.

(l) **Directors**

The minimum number of Directors is three and the maximum ten. The Board may appoint additional Directors to fill a casual vacancy. The Directors may not reduce the minimum number of Directors below the number in office at the time of the reduction. At each of the Company's annual general meetings, one-third of the Directors (or, if the number of Directors is not a multiple of three, then the number nearest one-third) and any other Director who has held office for three years or more must retire from office. Any Managing Director is exempted from retirement by rotation. A retiring Director is eligible for re-election.

(m) **Indemnities and Insurance**

The Company may to the extent permitted by law and subject to the Corporations Act, indemnify current and past Directors, secretaries and executive officers of the Company and of any subsidiary of the Company against a liability incurred by the person acting in that capacity and against all legal costs incurred in connection with proceedings in which the person becomes involved because of that capacity. The Company may pay the premium on a policy of insurance in respect of a person who is or has been an officer of the Company to the extent permitted by law.

(n) **Amendment of the Constitution**

The Corporations Act provides that the constitution of a company may be modified or repealed by a special resolution passed by the members of the Company. The Company's constitution does not impose any further requirements to be complied with to effect a modification of the constitution, or to repeal it.

8.2 **New Options**

(a) **Entitlement**

Subject to and conditional upon any adjustment in accordance with these conditions, each New Option entitles the holder to subscribe for one fully paid ordinary share (**Share**) upon payment of the Exercise Price.

(b) **Exercise Price**

The Exercise Price of each New Option is \$0.07 (**Exercise Price**).

(c) **Exercise Period**

A New Option is exercisable at any time on or before 5.00pm (Brisbane time) on 31 December 2023 (the **Expiry Date**). Options not exercised by the Expiry Date lapse.

(d) **Manner of exercise**

Each New Option may be exercised by notice in writing addressed to the Company's registered office. The minimum number of Options that may be exercised at any one time is 100,000 or the balance of any New Option or Listed Options held by the Optionholder. Payment of the Exercise Price for each New Option or Listed Option must accompany each notice of exercise of option. All cheques must be payable to the Company and be crossed 'not negotiable'.

(e) **Ranking of Shares**

Shares issued on the exercise of New Options will rank equally with all existing shares on and from the date of issue in respect of all rights issues, bonus share issues and dividends which have a record date for determining entitlements on or after the date of issue of those shares

(f) **Timing of issue of shares**

After a New Option is validly exercised, the Company must as soon as possible:

- (i) issue and allot the share within 10 business days; and
- (ii) do all such acts matters and things to obtain the grant of quotation for the shares on ASX no later than 10 business days from the date of exercise of the New Option.

(g) **New Options transferrable**

New Options may be transferred in the same manner as shares and may be exercised by any other person or body corporate.

(h) **Participation in new issues**

An Optionholder may participate in new issues of securities to holders of shares only if and to the extent that:

- (i) A New Option has been exercised; and
- (ii) a share has been issued in respect of the exercise before the record date for determining entitlements to the new issue.

(i) **Adjustment for bonus issues of shares**

If the Company makes a bonus issue of shares or other securities to existing shareholders (other than an issue in lieu or in satisfaction, of dividends or by way of dividend reinvestment):

- (i) the number of shares which must be issued on the exercise of a New Option will be increased by the number of shares which the Optionholder would have received if the Optionholder had exercised the New Option before the record date for the bonus issue; and
- (ii) no change will be made to the Exercise Price.

(j) **Reconstructions**

If there is any reconstruction of the issued share capital of the Company, the number of shares to which the Optionholder is entitled, and/or the Exercise Price, must be reconstructed in a manner which complies with the Listing Rules (which will not result in any benefits being conferred on the Optionholder which are not conferred on shareholders and subject to the provisions with respect to rounding of entitlements as sanctioned by the meeting of shareholders approving the reconstruction of capital), but in all other respects, the terms for the exercise of a New Option will remain unchanged.
