UPDATE REGARDING SHANDONG GOLD INTENTION TO REJECT TGM OFFER

West Australian gold explorer Focus Minerals Limited (ASX: FML) (**Focus** or the **Company**) refers to its announcement on 5 January 2022 relating to:

- the off-market takeover offer by Theta Gold Mines Limited (ASX: TGM) (**TGM**) for certain of the issued shares in the Company¹ (**TGM Offer**); and
- the intention of Shandong Gold International Mining Corporation Limited (**Shandong Gold**) to **REJECT** the TGM Offer in its current form.

In that announcement, it was noted that as a matter of prudence and for completeness, the Focus Board of Directors had requested that Shandong Gold provide a written update of its intentions in relation to the TGM Offer following the release of TGM's replacement bidder's statement on 4 January 2022.

Shandong Gold has provided a further letter with a written update of its intentions regarding the TGM Offer. A copy of that letter accompanies this announcement. Notwithstanding the release of TGM's replacement bidder's statement, Shandong Gold has reaffirmed its previously stated intention that it intends to **REJECT** the TGM Offer in its current form.

As a consequence, based on the current form of the TGM Offer Shandong Gold will remain the largest shareholder of Focus, with an interest in 63.18% of Focus shares and TGM will not be able to acquire control of Focus.

The release of this ASX announcement was authorised by
The Board of Focus Minerals Ltd.

About Focus Minerals Limited (ASX: FML)

Focus Minerals is a Perth-based, ASX-listed gold exploration company focused on delivering shareholder value from its 100%-owned Coolgardie Gold Project and Laverton Gold Project, in Western Australia's Goldfields.

Focus is committed to delivering shareholder value from the Coolgardie Gold Project, a 138km² tenement holding that includes the 1.4Mtpa processing plant at Three Mile Hill (on care and maintenance), by continuing exploration and value-enhancing activities. An updated PFS in September 2020 highlighted the potential for a low capital cost, fast-tracked return to mining at Coolgardie and delivered an NPV_{7.5%} of \$183 million. The Company's efforts are now focused on increasing production-ready Mineral Resources at Coolgardie and delivering the approvals and permits required for a resumption of gold-mining operations.

The Laverton Gold Project covers 362km² area of highly prospective ground that includes the historic Lancefield and Chatterbox Trend mines. Focus' priority target is to confirm sufficient gold mineralisation at the Beasley Shear Zone, Lancefield-Wedge Thrust, Karridale and Burtville to support a Stage 1 production restart at Laverton. In parallel, Focus is working to advance key Laverton resource growth targets including Sickle, Ida-H and Burtville South. Focus has delivered first results from a progressive Pre-Feasibility Study (Pre-Tax NPV_{5.0%} A \$132M) and is advancing study work utilising Laverton' s expanded Mineral Resource position.

ASX Listing Rule 5.19.2

Focus confirms that all material assumptions underpinning the production target or the forecast financial information derived from the Coolgardie 2020 PFS announced in September 2020 continue to apply and have not materially changed.
