- Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

CLH's closing cash balance was impacted by non-payment of expected Client invoices of \$1,242,000 before 31 December 2021 which were subsequently paid in January 2022. This would have led to similar closing balance to the previous quarter of \$3,171,000.

CLH expects to have the current level of operating cashflows (excluding the tax refund) till the end of the third quarter of this current FY, when it expects its Client revenue activities to improve.

- Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

CLH's lenders provided \$3m of loans during the 2nd quarter of this FY and have provided an additional \$1m in funding in the third quarter. CLH is also in the process of negotiating with its banks for an extension to the existing facilities, required to fund it through to forecast periods of improved performance. During this second quarter and currently continuing, CLH has been negotiating with external parties in relation to the restructure of the existing bank facilities and the provision of additional working capital funding.

3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Subject to receiving the extension and additional funding from its banks or alternatively the restructuring of its existing bank facilities including the provision of additional working capital from external parties, CLH expects to be able to continue its operations and to meet its business objectives.
