DIRECTOR'S REPORT

The Directors present their report together with the interim financial report of Sovereign Cloud Holdings Limited, the 'Company' and its controlled entity, for the half-year ended 31 December 2021.

1. Directors' names

The names of the directors in office at any time during or since the end of the financial period year are:

- Cathie Reid (Chair)
- Philip Dawson (Managing Director)
- Ross Walker (Non-Executive Director)
- Allan Brackin (Non-Executive Director)
- Craig Scroggie (Non-Executive Director), appointed on 24 December 2021

The directors have been in office since the start of the half year to the date of this report unless otherwise stated.

2. Principal activities

The group's principal activity is to deliver sovereign cloud services to Australian Governments and critical national industries. Since formation the Group has built a cloud based platform, which is accredited to by Government standards to PROTECTED controls or higher. The platform is available to rent computation cycles and data storage to customers on a pay-as-you-go basis, referred to as Infrastructure as a Service (IaaS).

3. Operating Metrics

Summarised below are the operating metrics adopted by management for measuring the progress of business:

- Total Contract Value (TCV) is the total value of expected revenue from estimated consumption of Infrastructure-as-a-Service (IaaS), services secured through non-enforceable customer contracts (eg purchase orders, statement of works). Invoices are raised typically on a monthly basis against these contracts based on actual customer usage. Such contracts generally form part of a larger contractual scope that is less defined but provides overarching commercial terms (eg Master Services Agreements, Channel Partner Agreements, Teaming Agreements). As such, TCV provides an estimated of the total IaaS consumption expected by a customer over a defined time period, typically 12 months.
- TCV Closed in any period is the aggregated revenue associated with all signed commercial contracts in that period.
- TCV Outstanding is the remaining aggregated balance of all signed contracts at a point in time, net of any consumption utilised to date recognised against the respective contracts.
- laaS Consumption is the revenue recognised based on the aggregated consumption of laaS services, including contractual implementation, consulting and setup charges. In the Company's experience it is reasonable to expect laaS Consumption to be repeated in subsequent periods.

4. Review and Results of Operations

Add: Closed TCV	2.35	5.35	3.39
Less: Cancelled Contracts	-	-	(0.61)
Less: Revenue recognised	(1.08)	(1.46)	(2.13)

Expenses

Financial Position

The Company's net asset position increased in HY1 FY22 by \$28 million to \$47 million at 31 December 2021, due to the capital raising in November/December 2021 of \$35 million which included a placement to NEXTDC and a non-renounceable share entitlement offer.
