ABOUT EARLPAY

Earlypay provides finance to SME businesses in the form of secured invoice and trade financing and equipment financing.

Through the Earlypay online platform, SME's receive an advance payment of up to 80% of a client's invoice to help their business overcome the cash pressure of delivering goods or services in advance of payment from their customers (often 30 to 60 days). This is a flexible line of credit that is utilised in line with sales volume. Earlypay will consider an additional advance to a client (above the usual 80%) on occasion, for an additional fee and when there is adequate security from the client to cover the position.

Other services include trade finance to assist clients finance purchases, as well as equipment finance to assist SME's with capital expenditure on items required to operate their business.
